S

Scott Lewis 04:31

will give that over and we'll give that a couple of times. Here in the show. We I don't know what's coming up after the one o'clock hour but I know that coming up immediately. Yeah, I've got Q patrol with Kenneth Stern is here. Who is the widow of Fredman Gionee who passed away

in Katy. Yeah, a couple of months ago. And was highly publicized event and a march that followed and so forth. And Uh, immediate capture of the young man so I'm very pleased to have him here to, to speak. Actually you don't have them here. Glenn hasn't Glen has him here, and I'm very pleased he's here. Whoever brought it or whoever's car he wrote in. I'm just glad that I'm very proud that he is here.

05:17

Okay, well, why don't you talk to him right now?

Scott Lewis 05:20

I just want to go through the rest of my first hour. And then I'll talk to Oh, okay. Then, you know, Jimmy, we do this every week. I don't know, you know, senility? I guess, you know, the good thing about senility, Jimmy, it's dementia? Well, it's because you meet new people every day. Yeah, every day,

05:38

like control. If you have a control freak here,

Scott Lewis 05:42

every well imagine that. So then immediately after that in just a few minutes, Joseph Molina is here who is he writes the horoscopes for outsmart magazine. Oh, and Joseph is recognized as one of the top psychics in the state of Texas. And Joseph, I have volunteered to be a guinea pig and do something because you're seeing these psychic lines all over television all the time, and called Dionne Warwick, and so forth. I'm gonna be the guinea pig and I'm gonna let Joseph give me a reading right here on the air.

06:13

You need to be red girl. Dangerous. This could be it could be very

Scott Lewis 06:17

dangerous Canada,

06:19

I think it's right don't get now maybe

S

Scott Lewis 06:23

let her insecurity Okay, Kenneth the key. met your match. You're kind of bitchy? Do you need a job as a co host on a radio program? So Justin's gonna be here. And I'm very pleased to have Joseph here because he is incredible. And to give me a reading, and we'll see where that takes us. But first, let's start with Q patrol and talk about what's going on out on the streets. I understand. Glen Glen Holtz here with Kenneth Stern. Glenn, you've had a very busy night.

G

Glen Holt 06:58

Tonight is a busy night. It's spring break time. So that always means a busy time for us. We have two mobile units out there and one foot patrol. And we also have a fundraising recruiting table. So stop by over at Pacific Street and drop your spare change and \$100 bills into the box and sign up for duty with Q patrol because it's real busy out there tonight.

S

Scott Lewis 07:24

Yeah, something that I don't know that a lot of people realize is that every gay bashing that has resulted in a murder that has taken place in the Montrose in the last few years has happened on a holiday. And so with with spring break, being on a with spring break, being a big holiday, the kids are all out of school. I would certainly believe that Q patrols much busier, and that people should get involved. Kenneth, how did you did your lover's death promote you to become involved with Q patrol? Well, yes,

♂

07:53

it did. Because of the fact of we live in, we lived in a totally heterosexual area. So we never had the problem. Everybody accepted us there. But as as I've been coming down here more, like I've called him on the radio to find out where he was. And I want to know what he was doing. At this moment. James, I was out looking for him. I told him I needed some protection here. It's definitely a really good cause. And people need to not be afraid and actually just get out. Because it's it safety in numbers. I mean, it's the notary out there. I mean, I've been listening to the radio tonight. I've been with these guys a couple times. I'm all for it. I mean, if I could just sneak away for a couple of days, I'd be more than happy to live in a car with somebody one of these guys just to make sure nobody else gets hurt. Because it's not right to take anybody's life to even bash call names or throw stones.

S

Scott Lewis 08:43

How Glen? How have things? How are things now, over the past few years, the gay community has gotten so much media attention. There was an article in the Houston Chronicle just in the last few days that showed that gay bashing they anticipated that gay bashing was going to be a greater problem this year, because of the political rhetoric. Exactly. Do you anticipate that that's going to make this a tougher job for you?

G

Glen Holt 09:09

I mean, they're exactly right. That's where it all comes from to begin with. That's how it all gets started.

S

Scott Lewis 09:14

They even mentioned the Republican convention in 1992. And how busy of a year that was in like it's a business or something how busy it was in the Montrose area with gay bashings. What can somebody do that's listening that sitting at home on a Saturday night. They're not doing anything anyway, but listening to me, they could be certainly more productive than that. What can they do to get involved and make a difference?

G

Glen Holt 09:39

Called five to eight safe?

S

Scott Lewis 09:42

And what's suitable? And what do you ask of somebody that volunteers for Q patrol? When

G

Glen Holt 09:46

we asked to go we ask our volunteers to commit to coming out one night a month. That can be like like tonight, a Saturday night for example, as opposed to going out to the bars or sitting at home or doing whatever you don't have, you know, don't have to have any special physical attributes no physical training involved. We're not the guardian angels. We're not interventionists. We're just ordinary citizens out there. We're part of the Houston Police Department citizens on patrol program. Most of the time, we just drive around in cars, we also have foot patrol, our foot patrol motto is walk off those unsightly pounds. That's what I was doing.

S

Scott Lewis 10:20

Why didn't he look at me when he said, Five,

O

10:23

he does have the tape.

G

Glen Holt 10:26

It's a, it's a good way to give something back to the community to do something positive for the

community to prevent other people from dying. We're just a visible presence out there. And being being a visible presence does the job it gets the job done.

 Scott Lewis 10:40

I remember walking on cue patrol. And this has been some time ago, when the organization first started. I would walk on it I think I walked on it every every patrol for about a year. And I remember being yelled at bottles being thrown out. Is that still?

 Glen Holt 10:59

No, it's nothing like that anymore. I think the only people that will tonight is unusually busy. I mean, we've we've had about eight suspicious vehicles that we're following so far. But most of the time, we're well enough known in in the community and outside of the community that well, especially with our radios, with our decals and T shirts, and so on that anytime that we start following a suspicious vehicle or somebody that looks like they're causing problems, we only do that to let them know that there is a patrol in the area we are watching. We can contact the police, they normally they get the message right away and they leave. Let me

 Scott Lewis 11:39

tell you something that happened and I probably shouldn't admit this publicly. But let me tell you something that happened a couple of weeks ago, at about three weeks ago, about three weeks ago. Everybody knows that I work over in heaven and Jr's in the mining company. And I was I was leaving the club and getting into my car and 637 Excuse me about 738 o'clock at night. I'm getting into my car which was parked on the side of heaven. And a car comes by right down Grant Street filled with I think three young ladies who very obvious high school or young college or whatever, and they're hollering out of their car or makeup people back. Well, I take that as a compliment. Thank you add some people write to me. They are hollering out of the car. Do you have a girlfriend in a real snide, bitchy, kind of cutesy think they're being cutesy little way? Well, Miss Lewis is just through. I am just thrilled with these people. I want him to go back to the friggin suburbs and leave us the hell alone. I jumped in my car so fast and got on their tail. And I followed him right up here to the corner behind Charlie's. And I started hollering at them out out of my window. And I told him I said lucky friggin little. And I'm going to edit myself. I said, I said, Look, you frigging little girls from the suburbs go home. Because as facts are fed up with it, we're not going to take it anymore. Go the hell home and I'm going to follow you out of our neighborhood. You're not welcome here anymore. And I stayed on their bumper down Westheimer all the way to 610. These poor girls were terrified. They were screaming at me, leave us alone. But you get to that point, that you're so frustrated. You're so tired of watching your brothers die, that you just, I mean, lashing out at these girls probably didn't save anybody's life.

 Glen Holt 13:34

Scott Scott, what you did was a good way to get shot. I know, we we have a point of view. But how do you handle it? Well, you handle it the right way. We have a proven method that's worked. So I don't think they'll ever be back for years. Well, yeah, that's true. Well, first of all,

we have marked vehicles, we have our radio system. So we're all in touch with each other. We always tell each other what's going on all the time. You know, from the time that trouble is first spotted until it's resolved. One of our mobile units always has a cell phone. So if we get into a situation like what you got into, we can call the police and the police do respond to us. They're trained to know what it means when a CLP unit calls. And we are well known with the Houston Police Department they know that we are trustworthy, that that we're not out there to be vigilantes and, and, you know they have had good experience with us.

 Scott Lewis 14:28

So again, to get involved you ask one night a month, right? It's four hours,

 Glen Holt 14:32

yeah, four hours. And unless basically, no special requirements, no physical trainer, training or anything? No, there's there is an Orientation Guide, a nice blue book that explains how we operate, what the patrol rules are, what our safety rules are, and so on. And just read that, that's all. That's all there is to it. And they call five to eight safe. And if for some reason, maybe the time isn't right, or you just don't feel you like you can come out and do it. We always need money. Just call up and say that you're willing to contribute some money.

 Scott Lewis 15:06

Five to eight, save. It's a very worthy cause I have to wait shot on 2335 to eight, save. I've walked on this patrols and I recommend Kenneth, I'm proud to see that you're out there. And I'm proud to have you here.

 15:17

Well, that's fine. I need to pick on you need to walk a little more. I

 Scott Lewis 15:18

think I did.

 15:20

David walking in a wild

 Scott Lewis 15:21

girl who let her in? I have no I have not. And thank you for pointing it out, Kenneth. And when you get your own radio show, I'll be sure to come on yours. If you're invited in, and I'll be sure

to bring my Clairol kit. So anyway,

G

Glen Holt 15:35

so the thing we have optimized now.

S

Scott Lewis 15:38

It was a pleasure to have you both here. I thank you so much. And please do call five to eight safe and get involved. I mean, there's there's so many ways that you can get involved in the community. And this is certainly one of the most worthwhile. Thank you. Thank you for coming down and get back out there. And patrol. See you later. Thank you. Coming up right now I have Joseph Molina and Joseph, I'm glad to have you here. And let's we'll move to be here. Number seven out of the way. Joseph y'all Actually

J

Jimmy Carper 16:06

no, actually, we're going to put Dr. Rob in there with you.

S

Scott Lewis 16:10

Okay. Yeah, well, now, is that gonna, is that gonna be in the way do I need to be right next to you, or how does this work? We're okay. Do you have Jim? Joseph, tell me a little bit before we do this reading. And I kind of make myself vulnerable here to be to do this right here on the radio and stuff. But that's just the kind of radio guy that I am. Because I love my listeners and they're like my family.

J

Jimmy Carper 16:33

And you have an ego bigger in Dallas. This is true.

S

Scott Lewis 16:37

I'll be in Dallas tomorrow night making a public appearance are you really I will be in Dallas making an appearance public appearance tomorrow. I'm trying to get us to pick pick and get them to pick us up up there. Oh, that's

O

16:47

public appearance as opposed to public spectacle.

S

Scott Lewis 16:49

This, who let Dr. Robin put him out with Kenneth put him in Kenneth's car. You Joseph. First of all, let's talk a little bit about the differences between psychic astrologist numerologist and Dionne Warwick Dionne Warwick, and I needed to talk to you straight into that microphone.

Ω

17:12

Well, we don't even need to talk about Dionne Warwick, I think she speaks for herself.

S

Scott Lewis 17:16

That hair does anyway. Yes,

Ω

17:19

there is actually a very definite difference between a pure psychic and astrologer or a numerologist. A numerology is a science just like astrology is that is based on the day that you were born. And it's based on the theory that the day you were born and the day that you take at the time that you take your first breath. If you take all that information, you can accurately foretell someone's destiny, through the name that they were given by their birth mother and father and the day they were born and you would need the time for astrology. Now, you do not need to be psychic in order to do the sciences there is tried and true methods which people have utilized that can make anyone almost seem psychic. If they know the science of numerology or astrology, now psychics tend to use a lot of them will use tools Tarot playing cards, ruins which do carry interpreting ruins or when ruins ruins are a Celtic system of writing, which they adorned all of their swords, their castles, their prayer stones, with alphabets that were believed to instill certain potencies like security, protection, wealth, health and they have been rediscovered in our modern age they are excellent Oracle's now they are more attributed to the archetypes than they are as as a divinatory system like a predicting the future ruins it does take a strong bit of clairvoyance see or intuition in order to get a real accurate or real detailed reading. But it does not take that in order to get the more philosophical reading of of any tool you can you can get interpretations on any tool. It's through the use of it that the brings about clairvoyance, see and an authentic psychic does not need a tool.

S

Scott Lewis 19:23

How do you How did you okay first of all, where would you classify yourself as a psychic?

Ω

19:29

I would classify myself as a clairvoyant.

Ω

19:31

Okay and

S

Scott Lewis 19:32

why the differentiation from psychic What's difference between a clairvoyant a psychic Well I think

👤

19:37

the term psychic is feared a great deal today. I think it's I think that it's belittled by a lot of people who do not understand it. Clairvoyance see is a more technical term used by a lot of pair psychologist Claire meaning clear, void see meaning to see. So it's someone who has the clear ability to see that It can be auras. Oftentimes they have visions, most people have visions or intuitions and knowings and there's different terms for those types of feelings. Claire sentience is a feeling. Okay, Claire audiences hearing Claire Gustavo is a tasting. And most people who are psychic utilize all of that, who they come in all levels. I classify myself as clairvoyant to break away from the stigma that's placed on the term psychic.

S

Scott Lewis 20:33

How did you first what was the first discovery or the first intuition that you had? If that's the right word that you had a clairvoyance?

👤

20:44

It was those many years actually have a series of things that have happened in my life. But I think of one of the most, the first one that was most pronounced was when I was listening, like in fourth grade, and we were in our last period, and we were in history. I was in history. And I looked around the room and it was right before. Oh, it was it must have been. It's been a little while. I don't remember right now. Not battle right now. But I had a, I was in my last class of the day, and it was history class. And I had, we were leaving and everything was very vivid. All the colors were, everything seemed to be glowing. And as I'd walked out of the school I was in, I blinked a few times. And in my peripheral vision, I saw an image of a huge bead. Okay, that was like four feet long, three feet tall, it could see through it, it was looking at me, and its wings were flapping. You know, as child, I was just terrified. You know, I was just like, Oh, my God, what's this running, going home hurrying up home, trying to tell this to go away, go away. And I got to my house. And it finally left. I think that was the first time that I knew that this was not a child's game, that this was not something that I was making up in my head. Over the period of years, though, I have noticed it by being able to sense energy and feel colors and feel spirits presence and, and know things know what people are thinking people who are thinking about me. And everyone out there who's thinking about me, too.

S

Scott Lewis 22:26

So how do you get to the point that now this is your living? You write horoscopes for the

outsmart magazine of incredible publication? You write their horoscopes, you make a living, correct me if I'm wrong, but you make a living as a clairvoyant, right?

22:41

That's what I

s Scott Lewis 22:43

mean, how did that come about? And are recognized as one of the top in the state of Texas.

22:50

When I was a child, I think it's all that I wanted to be. And I organized and arranged my life and led my life to where I could learn everything I could learn, and understand and know why it worked. And I put myself out there. And it wasn't easy. It was a lot of time and energy, studying and learning and practicing. To get to that point. It's not something that happened overnight. It's taken me eight or nine years of doing it professionally, to get to where I'm at. And I'm still of course, moving forward. I still have other plans have got a book that I'm working on that I do plan on finishing. It's taken me a little while to do though, but I do.

23:29

Did you have a particular mentor or someone that was there to help you through this? Or was a lot of it, you know, going through and you know, the various books that are out there?

23:41

Well, it's what happened was when I was a young kid, I used to go into my elementary school and check out books on paranormal activities on psychic phenomena. And you know, everyone has that fascination of like smells and and potions and I researched and I could never find anything which was actually valid, or which which was actually which was actually authentic for me until you know, about four or five years I must have been like in fifth or sixth grade. I was reading some literature about people who did this in America and I found the title of a woman by the name of Sybil weak and she was a woman who lived here in Houston she migrated from from England and from Europe and she she became a famed clairvoyant all across the US. She has books out there that are written who have done studies on her abilities, and she produced phenomenal abilities she they took her in San Francisco and put her on television she would she would bring the wind you know she would you she would demonstrate what it was to actually have psychic abilities. And she became my mentor over a period of years her and someone by the name of eaten grey eaten grey authored the Complete Book of the Tarot or the mastering the guide, the mastering the Tarot by Eden gret. And Sybil used to I used to have dreams about her, she would come into me to my dreams of like teaching at the school I was at. And afterwards, she would come and she would hand me literature, she would give me books, and I'd wake up and I just go like, Did that really happen? All these years later, since she

did used to live here in Houston, I have been come acquainted with people who knew her and even the person who owns her tools, her scrying crystal, for instance, like your crystal ball, which I thought was kind of unique.

S

Scott Lewis 25:41

As we go in to get ready to do a reading just to show people what it's like. Talk to us a little bit about the fact that psychic readings or psychics have become so predominant, that it's all over television every time you turn on the TV through the day and through the night, that you pick up a phone and you call these people for \$4 a minute, which, to me is outrageous. And what's the difference between I mean, you have an office? And what's the difference between why would I want to come to you versus colony's people on the phone? Are they real? And what are you offering?

♂

26:20

Well, first of all, the upsurge in psychic practice or commercializing, we would say field has occurred because some psychics who are authentic psychics actually had a good idea to pull together to give it away for people who wanted to live in their home who practiced these arts and who did not want to have to converse with people or actually work with them. Because to do this work is extremely moody and emotional for the psychic. You know, they had people in their home, they're extremely sensitive people.

S

Scott Lewis 26:53

Alright, exhausting work

♂

26:54

isn't it? Can be it depends. It really depends on the person that you're reading for. If you're reading for someone who's really depressed, or who's a vampire, is what we would call them get ready. Yeah, then they would definitely be someone who would take a little bit more out of me. Now off of those authentic lines, which Dion's we could say is an authentic line who a lot of credible people do work for who are who authored a lot of the books that a lot of people find on the market to learn these subjects with. There's a lot of lines out there, which are total charlatans and frauds. who are doing this because they're playing on people's depression, their emotional moodiness, their yearning to just talk to somebody. And you you're thinking you're getting quality as some people sometimes do put their faith into some of these things. And it's not a productive thing to do. And let me remind if anybody would like to call in and ask a question. Feel free?

S

Scott Lewis 27:55

Yeah. 526-573-8526 KPFT. You How long does a reading take?

28:02

Well, mine can last anywhere from 15 minutes up to an hour and a half. There is longer readings that I do do, but I don't do them very often, which can take up to four hours.

s Scott Lewis 28:15

And so when they call into the psychic lines at \$4 a minute, they're spending the time yeah, they are and it's much more economical wouldn't be to go see someone that you could sit with that you could actually really get their energies and really feel what's going on with that person. It's much

28:33

more personable, and it's a great deal better for the healing work that will go on during a reading because oftentimes people experience are going to get to see a psychic whenever they have broken up with someone they love or whenever they're in the midst of bankruptcy and by going one on one it is very therapeutic. Okay? Because you know seeing if they use the images of Tarot it can really alter your mind and really help you deal with those issues better. It is some people don't like to go to psychics one on one because they don't want anybody knowing that they go to psychics, there is still that stigma, the stigma there. That's one of the reasons why, you know, the name psychics itself is, is one which I tried to steer away from. I personally like to do it in my own home, and I like people to come into my home, because I keep my space clean psychically, as well as physically. It's so important that when you go to see a psychic that you are sure they're going to be someone who you can communicate with who you can work with. They're just like a doctor, you know, and to call a line and spend 399 a minute on someone who you don't even know you've never connected with can be quite a destructive thing to do because you may not be able to blend with them and you're still out that money. Right? Well actually, what happens is you can deny paying it one time and then that Sit, you can't anymore.

30:02

Well, I'm curious what is what is the scope of what you can learn from, say a Tarot reading.

30:09

It is phenomenal. It is so phenomenal. I am so sad that people have not opened up to it a little bit more. The key is to understand ourselves. If the belief is that if you know yourself, then you'll prevent yourself from doing destructive patterns over and over and over again. What Tarot does is it's like looking in a mirror. It's going to show you how you're being regardless, it doesn't matter how you feel or it doesn't consider your feelings. It's saying that you are, you're being overly emotional and childish, you're being immature, you're not letting yourself make commitments you are letting your lower urges overwhelm you. As a point to being able to see your actions it is giving you the clarity of life it is excellent. It is also

excellent as a tool to see for coming events of say in the next few days, even up into the next few months or years. But it's good to know where you're headed so you can decide do I really want to go there? I may not want to go where I'm headed right now what can I do to change round headed? Taro as well as astrology and numerology are personality systems which were created to understand the personality not just to predict the future to predict if the king is going to be king next year or if the emperor is going to win the war because that's what they were originally used for a great deal was to know when should we attack the next village they're used and extremely good for showing you your productive characteristics and your destructive characteristics and showing you how to balance because everyone is an individual. The the classifications which they show if you look at all the different ones will be extremely enlightening. Let's do it.

 **Scott Lewis 31:55**

Is there a disclaimer anything I need to know?

 **31:58**

Well, are you ready to tell everybody you're live?

 **32:03**

I thought that was the point of the radio show.

 **32:06**

Scott slide life.

 **Scott Lewis 32:08**

We're going to change the name from after hours from after hours.

 **32:12**

What's your sign?

 **Scott Lewis 32:13**

I'm an Aquarius. I'm a little nervous.

 **32:20**

Well here I'll tell you what I'm doing as we go along. The first thing that we do when we're doing a Tarot reading is I personally like to choose a significant a significant factor is a card which is going to represent Scott in my reading, we're going to put him in the middle. And if any of you out there know this spread, we're going to use the traditional Celtic cross spread. I would like to say there is hundreds of ways to lay the Tarot. As many people in the world there is as many ways to use the Tarot. There is no wrong way. Okay? The card we give the Scot is the knight of swords because he is an heir son. Okay between the ages 21 and say 40 you are under 40 Aren't you? Yeah,

Scott Lewis 33:07

thank you just security 2525

33:13

Are we sure? What I want you to do is tap the deck three times with your left hand.

33:36

Traditionally, when people do tarot, they give you the deck to shuffle. Now I don't let anybody touch my deck anymore, except for the three tap that we do before the reading. That's all I require to put your energy into my cards. The reason why I don't let anybody shuffle my cards anymore is because they tend to not know how to shuffle they tend to tear my cards, they tend to bend them and the first time that happened let me just tell you that I was not well for the reading.

34:06

He gave a different reading right?

34:08

A little bit more bias now. What I would like you to do now is I want you to say your name and your mind the first and last over and over again while I shuffle my deck for you Come on Scott. You can just tell he's had a few drinks.

Scott Lewis 34:53

I'd say that Joseph. I haven't had to think

35:00

Traditionally, once a deck is shuffled, you cut the deck into three decks to your left with your

left hand. First, I'd like to tell you why I like to use the Tarot. I found the Tarot when I was very young. It's a passion that I found for the Tarot. I grew to love it and hunger to learn about it, I agree to buy every deck, I could find every book I could find, to do as much research as I could find, to learn as much as I possibly could. And that's one of the reasons why I use cards no longer because I need them. But because I put so much into them, I think they're beautiful.

35:50

Is there a particular significance to using the left hand, I mean, Scott, tap the cards with his left hand. And also, you were cutting the cards going across to the left to the left.

36:04

Gypsy tradition teaches that you cut with your left hand because it's supposed to be closer to your heart, there was a nerve which is in your Saturn fingers, what I call it, that's the largest finger in your in your left hand reaches directly into your heart. And so it's believed that it puts it into the deck better allows for stronger psychic link now, and so we do it all towards the left, because it would reemphasize that over and over and over again. It's all about re emphasis. You always do the Tarot reading the same way you always regardless how you do it. However you turn the cards over because it's repetition you build a pattern and focus into life. Scott Well, let's talk about Scott right now. He's got some interesting things going on here. Are you moving? Are you looking for a different house right now?

s Scott Lewis 36:57

No, I hope not.

36:58

You hope? Hope not? Well, you know, right now, it does definitely show you going through some extreme emotions. Have you been feeling a little bit? Silence. Well, interesting. were you living alone? Are you living with someone,

s Scott Lewis 37:30

I was living with someone and it was a very bad experience. And they're gone now. Good,

37:36

good. Well, it says right now that you is telling you to remain optimistic right now, with your life, because you're coming out of a shell that you were in, for actually, almost a year now, actually more than that, it seems to be almost two, you're still having a little bit of difficulty, kind of creating again, or getting back into, say, a work mode, getting back into say, a mode to actually interact with people again, part of that reason why is because you may have been a

little depressed or heavy lately, because of it that shows someone who was in your environment that it says there was actually much more of a relationship there than just friendship. And this was something that was a little bit kind of difficult for you to have to deal with. Because it shows that you may have recently gotten hurt. And it does show in the future, that you're still gonna go through a feeling of like loneliness. So that isolation because you're seemingly trying to repress those emotions, and not deal with them at this time, you're going to notice that you get this surge just to go out to go don't want to go do something I don't want to sit at home, I want to go play. It says that Not to worry though, your life is going to get refocused. Probably next two or three months into the strongly into your career. And I keep saying investments I see keep seeing money starting to pay off for you. And it actually starts paying off more towards the gym because I could see like property or investments like buying property that you're going to get into that's really going to start paying off for you, which is definitely going to lead you away from this emotional distress in your life. I don't think that's actually a good focus for you right now. I think it's a better focus for you to stay focused on the career because because you don't really have enough. What you're going to move into it slowly because it says that you're having a little desire to create so you're really not getting into it yet. That's the reason why it's probably going to take to till June. Now that's the first Tarot reading whenever I do tarot readings, I like to do more than one because I like to confirm them to see how many cards show up again, because then it shows us what cycles are going through. It tells us the emotions and the levels that are persistent around you at this time. Do you understand this? Yes. Very well. Any questions about it?

S

Scott Lewis 39:48

Yeah, no, it just tells me I'm still screwed up over that last relationship.

o

39:52

I do have a question. I'm looking at what you've laid out on the table here in front of us. A lot of the car I mean, we're all kind of like in a row facing the cards. And it looks like a lot of the cards are turned upside down, reversed or reversed. Okay? Does that have some special significance? Or?

o

40:15

Well, it actually depends on how many cards are reversed. But of course, it always does, it would show a balance. If we look, we see 123456 cards reversed in a 10 card reading, we see 123 cards upright, not including the crossing card, that one's always considered upright regardless. So having the overbalance of reverse cards does show that Scott's gonna have a difficult time kind of getting in the swing of things because that means energy is blocked inside of his body. Physically, this would manifest as gas and diarrhea. So if you've been experiencing any I'm not necessarily gas, we could just say that we could just say some upsets your stomach lately. Yes. And it would show how the energy is flowing through his body. This is like a picture of who he is right now. It's laying Scott out on the table. Cool. Let's do another one.

S

Scott Lewis 41:12

You had I'm gonna call him tomorrow. You're still screwing with me. Leave me alone. I'll be in Dallas would be long distance. He's not worth the charge. You should just let me ask you this. Okay, the person that you're referring to, is it okay, if I ask you a question right now before okay. The person that you're referring to that I was devastated by? And that is, I know still it's kind of strewn with my psyche and my emotions and so forth. Would you say that it's a bad thing if I slept with them right now? Yes. Oh, well, Tuesday's off if you're listening teasing. I don't believe

41:51

you. I don't believe you. This guy's giving you all this problems and you're gonna sleep with

42:00

Scott Lewis No, come on, say your name. No wonder you're blocking

[Introduction] 42:03

energy.

42:07

Hi. And it's not like that's the first time Scott's heard that advice. Before.

42:21

Again, this card crossed you in your last reading. It's interesting. Joy

42:43

Well, obviously, this mood isn't going to hang around with you very long. You're definitely going to get out of this really soon, I see an old friend coming back, you're going to hang out with very soon it seems to be a female or a woman who herself is also going through some difficulties in her life. Right now I see a lot of crayons or Crayolas around this woman, I think she's actually an artist. And I think she may get into making things out of children's things almost even for a children's museums. It keeps showing a strong woman that's going to come into I almost like a friend that's going to come around you just immediately and it just shows a good time is what it shows it does not say any kind of distress, because it's showing you coming out of the distress that you were in as you kind of get over this past influence. Now this is of course going to be easy for you. Because it says that you're going to go take some time to enjoy your life, your duties are going to be neglected. Okay, that's the queen of Pentacles crowning you. And after your duties neglected, you're going to come back and you're going to organize your life. Okay, I can see you throwing away all the stuff that your house that you

don't need right now, I can see you, I can see finally rearranging your house and cleaning it. Okay. And I said cleaning it, okay. With that card reversed in the environment, we're going to see, we're going to notice what's going to happen, then if we relate this reading to the last reading is that this person who was not who you're still getting over apparently is still not going to go away really fast. Okay, they're going to have a harder time of going away from you, then you're going to have of letting them go. Okay. Now, the reason why this is going to occur, of course, is because you have an internal conflict going on with it. You want to do this, the five of wands is up, right? And it says you want to do this? Yes, I do. But no, I don't want to do this. And so it's that fighting going on inside of you. Nonetheless, you're going to let this go and you're going to have an opportunity to let this go now. Now, if you stay that way, it's we don't know yet. Okay. This is a temporary vibration, the 10 of Swords reversed in the final outcome. This is a temporary vibration saying that you will get into this mode of thinking for about a few days, maybe even a few weeks and it's up to you to do something with it. That means that when they come knocking on your door and they say hey, I missed you can I come in you Yeah, no. Okay, what are you going to say? It's going to be that crucial time that's going to make the decision about what takes place in the future. Nonetheless, the next card does show a loss of a friend. So I do definitely think you'll let that that position or that period go. You're gonna you're about to have a real good time you said you're going out of town, and that's really good. You're gonna you're gonna play it does show definite playing that the three of cups is beautiful. It's for abundance. Cool. Do you understand? Yes. Any questions?

S

Scott Lewis 45:31

No. Can we ask can we take a phone call? Sure. We're gonna need headphones. And we'll get these hooked up and take a little phone call. Jimmy is so good. It's amazing. You're You're blowing me away. Skeptical coming in. Certainly. I was skeptical coming. Not skeptical. Because I believe it. But then just to hear somebody who is so in tune are telling you. Things that are so deep inside that nobody knows about. Is is amazing. Do we have that phone call? Oh, I need to I need to push the button down. i Hello, hello. Hi, who's this?

o

46:24

This is James. Hi, James.

S

Scott Lewis 46:26

You're on the air. How

o

46:27

are you? Pretty good. How you doing?

S

Scott Lewis 46:28

Pretty good. You have a question for Joseph.

46:31

Yeah. Basically, I've been reading on the terror lately. And I see the little jokes. I call them jokes that they do on TV for infomercial. One of the things that I've read in you did it tonight on the show is where you have to touch the deck to put your energy into the deck. Right? How can these people do an accurate reading if it can even be done over the phone? Because you're not touching the deck yet they're doing a terror reading over the phone.

47:05

And actually my question
