J

Jimmy Carper 08:42

And you're listening to after hours queer radio with attitude on KPFT Houston and KEOS College Station Bryan. And I don't know what I'm gonna have to play to follow up with or rocky B and Miss Scott Lewis because they were really spinning some great tunes here. But I do have some brand new erasure. And I'm also going to take your request for queer music 526-573-8526 KPFT and I got that new new eraser song. It's a song for women I think because the name of it is fingers and thumbs. Here we go good. Oh, yeah, new music from erasure. That was fingers and thumbs. I think you've heard this first last week and thought we played again. How about brand new music from queer artists you've never heard on after hours before? extra fancy. That's kind of LA's favorite queer group who just finally put out A CD extra fancy there isn't a whole lot on there. I can play over the air. But here's one. See if you like it, give us a call at 5265738 Let

us know what you think of extra fancy. Oh yeah, extra fancy with off of their brand new CD called sinner, man. That's extra fancy. Lead singer Brian Grillo openly gay. It's kind of a punkish type stuff. And all the songs are, are really out there just like that one was and if you listen to of course, it's about AIDS, and how it's hit this community. And we all know how it's hit this community and from time to time. We have to talk about people in our community that it's it and it's that time again, folks. I have with me, Roy, who if you ever called 5265738 from midnight to three on Saturday, you will have talked to Roy. But Roy hangs out a lot of DJs and E Jays. Boy, that's that's one of the friendliest neighborhood bars I've ever been into. And it was the home base for Brittany Paige, who was no longer with us because of AIDS.

R Roy 11:36

Yes. If anybody had ever spent any time over there i e Jays and had met Brittany Paige. She was just such a fantastic person. I mean, we all loved her. She put on a fantastic show. And she really genuinely loved everybody who came in. And one of the most wonderful thing about the shows when she was there was that it wasn't just a gay audience, or a bisexual, we had straight people coming in, and they loved her. Sure. Everybody loved Britney.

J Jimmy Carper 12:16

She was an entertainer first. Yeah, yes. And

R Roy 12:20

the loss of her. I'm getting I'm starting to feel emotional over it right now. Because she was just one of these very rare stars that we are blessed with. And while she may be gone now, she's still with us. Oh, yeah. I mean, yeah. I don't know what to say. It's just that this is such a god awful thing that has hit this community. And all over the world is this aids thing? And I know personally, it has, it has a it has taken the best and the brightest. Brittany could have gone anywhere. But she decided to cheat. She loved Houston. And she loved the community here and she gave 101% I know God, I miss her.

J Jimmy Carper 13:10

And for Brittany, this is a song she used to do. And she did it very well as she did everything. It's kind of sums up a lot. You've heard it here before. This is a remake by Bronski beat. Oh yeah, it's I love the nightlife and nobody could do it like That's right. Goodbye, girl. We love you. We miss you. For Brittany, you've been listening to after hours queer radio with attitude right here on KPFT Houston and KEOS College Station. Bryan. Ah, I love doing the show. We're on every Saturday night midnight to 3am. And we try to bring a broad spectrum of the queer community to you by having representatives from the gay lesbian, bisexual, transgendered leathers, groups. So you can listen in and find out what's going on in the entire queer community. And we argue and fight and carry on but like Jimmy Somerville says in this remake, some day, we'll be together. And stay tuned for for Billy Gilbert and musical chairs and we'll talk to you next week. Who Yeah, someday we'll be together. This is still Jimmy Carper.

Billy Gilbert's running a little late. So we're going to continue with queer music. And we'll take your requests at five to six I've 738 For as long as we can but let's start out with with oh when old classic from from long ago, it's coming out of hiding mix. Here we go.

we must destroy the myth swings and draw shatter them. We must continue to speak out. And most importantly, most importantly, every gay person must come out
