01:20

girl robot askin Phillips

01:26

say that was drunk last night.

01:28

That was our one fun song. So we're that's out of the way. Oh,

01:34

actually, I thought that was a pretty serious song because

01:37

it is cuz you're right. I live in denial say that. It must have been drunk.

01:41

Yeah, right.

01:45

Okay, Maria. Well, you're looking at the calendar. Anything happening?

01:48

No, well, Saturday was rock Hudson's birthday.

01:52

Oh, really? Yeah. His death brought aids out of the closet. For sure. It didn't.

01:56

Yeah, not only him, but aids. Yeah.

01:59

Well, he wasn't. I read that book. If you read that book about him, which is the one that what's his name? rotor? What's her name? The big one. The big one that was just released after he died. Ah, the man had 14 ice machines. Why? In his mansion?

02:18

He he was into ice. No girl. Yeah,

02:21

he was having parties. You can't have a party without ice. Oh, and if somebody has 14 ice machines, you can bet your sweet but that there's going to be a party. Someone

02:33

locks up on and off. Oh, can

02:35

you imagine 14 ice machine? That's

02:37

incredible.

02:38

Anyway, what are we gonna do for two hours? I'm telling you, I really think we should wait until somebody from the police department calls I don't think they ever are going to call. So this could go on like for the rest of our lives. I don't mean any of the people that I know that are out those people don't count. Because they're only like four or five civilians that I know. Yeah. Talking about somebody in a blue uniform. And preferably not a woman not a man. Wow. Yeah, a man man, a real man who's just had it out to give his name.

03:21

there about six months ago or a year ago or something like that somebody called and claimed to be a gay police officer. He wasn't. But there's too many holes in the story.

03:33

Girl, he was just another line queen. God knows again. I still think we should just like wrap this up and say it's been fun and go on and do something else. There's got to be more to life than this on Saturday nights.

03:51

We really think that yes,

03:54

I really do. That's what's scary. Because I used to really look forward to coming in here. And now I can't wait to get the damn thing over with. So we can go and do other things. I think it reminds me of when Jim Wright was at the House of Representatives and he said that he was

getting kicked out because they didn't like what he was doing. drummed out actually. Yeah. And he said there comes a time in your life when you have to say I've done the best I can do and go on. There are

04:24

two sides to that story. Yeah.

04:29

Like he should have stayed and fought.

04:31

Oh. The other side of the story is why he was being drummed out.

04:38

Why was he being drummed out.

04:40

He was accused of a lot of MIS doing

04:43

like no one else in the Congress is doing anything wrong. Give me Give me a chance to let that soak in. Yes.

04:55

I see your point there. However, when you like it yourself to Jim right? I don't think it's that in that I don't think that's a good analogy I

05:06

didn't like and myself, Jim right. I said I understood what he meant when he said that there comes a time in your life when you have to say I've done all I can do and it's time to move on. We're beating a dead horse here, Mary. Well, you know what I mean, in a way, gotten all the

attention we're gonna get and it's just like somebody called a couple of weeks ago and said that you played the same music, but there's not a lot of gay music out there. I mean, they're not a lot of artists running forward screaming, we're

05:40

here. And we're coyer play on record, other than romanovski and Phillips there and Jimmy's Jimmy Somerville. There's not a lot of openly gay artists. Who he just came out from the who, who Peter Townsend,

06:01

who now is he on this album, Mary,

06:05

but it was like, No, he is not on that album. He's not on that CD. No, no. Okay, but what we do is we look for new music, and it's not necessarily Gay, gay artists, either. We've kind of tried to explain that. Well, that's true. Like the Chris McKay thing. I don't know how to view the woman's sexual orientation at all. But when you run into music that is gender nonspecific. There's usually a reason you know, maybe one or two songs on an album may be gender nonspecific, but when every song is sounds like she's reaching out for a wider audience, and it makes her music. more applicable to the gay and lesbian lifestyle. Oh, excuse me, I'm, I'm serious about

07:03

I believe you. I'm just like, Okay, now one girl. speech about young lesbian music.

07:10

And we're always searching for for some, there's some new stuff advertised in the lady slipper camp. Maybe

07:17

it's maybe it's just that I feel like I'm bored with this because we just really feel yeah, we're just spinning our wheels. So many people in the community think that we come down here and get paid for this. And that makes me angry. Yeah. Really makes me angry because they don't seem to think that there's anything in life worth giving your all to without getting rewarded for it. Oh, financially. But it also scares me that when Harvey Milk was killed, they couldn't find a pair of socks to bury the man in that didn't have holes in them. And I don't want to be like, nose, you know, holes in my socks

07:56

girl, because he spent every cent on his campaigns.

08:00

Yeah, and now it's Christmas time. And I want to have a Christmas tree with Mickey Mouse stuff all over. Okay, and I am not going to spend all my money on records and tapes for this show.

08:11

Do you think there can be a happy medium somewhere where you don't spend all of your money on this show?

08:17

Yeah, the gay community can come out of the closet and support what's going on? I'm not just talking about after hours. Yeah. Uh, you know that. I'm talking about the switchboard. How many months do they go? And everybody rushed in and go, Well, I know the money's gonna be here to pay the bills. We don't have to worry. That's true. They have to go out and beat the bushes with money. And I'm talking about stone soup. How many times do they have people that go over there to get groceries off the shelves? And the food's not there? Yeah. And we're talking about life, not just radio and having fun. And you stay well, I'll stay in the closet and just turn that radio on and Saturday live. Well turn it on Mary, we may not be here.

09:00

Because her like real tired. You know, go to stone soup. And it may not be there.

09:07

It all needs support. And that's kind of the problem within the act of gay and lesbian community is that there are so many worthy organizations that need support. And no, there is you're talking about stone soup and and the switchboard there are so many so many others. And there's just such a small percentage of the gay and lesbian community that do the supporting it's just

09:38

like this heart song.

09:40

09:40

Yeah. Now, why

09:40

can't these women get some support so they can go into the studio and make a CD? Right? I mean, give me a break. They're the greatest thing that Houston has.

09:49

You see them in concert and it just bowls you over?

09:54

We saw the Montrose singers with romanovski and Philip, you're dead and there was a rousing crowd of how many people 500 Oh, wow. There are like 450,000 queers in this city, or in this metropolitan area, and we had 500 Come out long enough to see. And they're not even out. I mean, some of those are good homosexuals. Where's that tape?

10:21

Please? Not again.

10:22

Do you know what I mean? Yes, yes. I mean, you go out to do the things that we're supposed to be doing that they'll accept like the bars and the bars and the bookstores and that's not even happening anymore. Because of AIDS. True. So, you think in a city this size you could Oh, nevermind. I can't say that.

10:43

It Why do you think people are just pairing off and going off to the suburbs and living happily ever after? They're

10:50

just jerking off at home by themselves to videos. Oh, you can say masturbation? Yes. We can say a lot more if we were Stevenson Pruitt or some of those other morning talk shows. But of course, this is a gay radio show a homosexual program. And you know how those queers are they're always out trying to recruit our kids now. Please, recruit, recruit, recruit. Yeah, we want to recruit you to a movement where you'll be terrorized by narrow minded Christian bible thumping. Hate Phil,

11:26

bigots. Give

11:26

me a bright girl. People are not running down to sign up. I don't know where they get the where the hell they get off saying that we're going to start recruiting. Who's gonna? I mean, I was raised in Arkansas, in little bitty town in Van Buren, Arkansas. And I remember when my father said the word homosexual, it scared me to death. And it was like, my band teacher was gay. I didn't know what that meant. I knew he was different. There was a young kid that he hung around with that Allah. Yeah. I don't know how old he was. I was just a kid. But a younger man that he had a thing with, and we all knew it, and he never heard us. He never heard us. But I remember my father taking me out back and saying you need to stay away from that band director. He's a homosexual. I thought, Oh my God. Whatever that is, it's off. I don't want any part of it. Because it must be awful.

12:24

That's funny, because the first time I heard that word, I was so relieved. Because finally I knew what I was. Oh, really?

12:31

They didn't do that. And they never told us that. It just scares me that you get these morons. And then what was this preacher? There was a thing in the paper today. Do we really want to honor a lesbian in the in the Austin?

12:46

Yes. Some preacher had this on their horn.

12:50

Does this guy get off putting political things up on the side of a church? Yeah, which is

12:55

a type organization it

12:59

kills me that is exempt the Montrose Activity Center says you know, register to vote they run out and jerk our 5013 C whatever it is, but these churches can print all these lies and garbage about gay people. And then we sit on our butts and don't do anything about it and let him get away with it. You know, you tell a fat joke and you go and laugh the good homosexual by James Carroll picket let's play that and

13:28

so what's so so bad about being an honorary lesbian anyway?

13:33

Well, it just it just tease me off I can almost said that other words that these people get away with that we let them get away with this. And it's just like before Randall solid like, oh, yeah, these queens are running down there to Randles buying that garbage out of that store. And I

13:52

know who you were because I was out there picketing. And so you told me

13:56

I love Randalls and I'm glad they're given money to the community. But give me a break girl. I ain't gonna go nowhere. These people don't want our money screw home. There are too many other

14:06

people that do want and need it and deserve it. Yeah, so it

14:11

just kills me. And I guess it's bothering me because I know the holidays are here and we're going to be like all running out spending our money buying presents. You can bet your sweet buns that they're not going to be standing in line and Inklings and Lobo to get gay and lesbian literature and music. That's what people get from me and jewelry and everything else because they're afraid they might be

14:33

going into that gate bookstore.

14:37

Somebody might see them, brother, girl, I don't give a damn if they do if they

14:42

see you What are they doing in the neighborhood? So give me a break. It's like the it's like the old song and dance in the 60s. Everybody was afraid to go into a gay bar because they were afraid somebody else from work was going to see them there. And it's like, Well, Mary, what the hell are they doing there? So you know

15:00

Give me a break. It just killed me that's why somebody from this screwed up Police Department has got to call and say they support what we're doing. That's a member um, you don't have to be homosexual but I know they listen.

15:16

You don't even have to be a lesbian.

15:18

Wow girl that would be nice but it's not gonna happen. Oh, I just wished that somewhere down the line somebody would have said something a little more positive than what we got. Because you know Michael Wilson came in and he's all healthy looking and healthy looking at I asked him you know, here we are. How do you get out of this rut? Well yeah, that's good.

15:41

And it's not that he's I think he's very handsome but I mean he said himself he's like six foot and 245 pounds and his hair is thinning and all of this kind of stuff but he looks healthy he really looks good.

15:55

But all of us don't have the get up and go to do all those things.

15:59

And you know what happened? What else he looks like because he looks so healthy. He looks sexv Oh really? Yeah

16:09

I didn't notice he is talking about Parkway Athletic Club because it's remark that kind of want to talk about Mark Okay. He did the news right yeah sports in the beginning and died of AIDS so so his panel is a matter of fact is going to be in Tulsa. That's where I was born. At the end of this we got a letter in the mail from the names project. That said his panel was going to be there well, what are we doing Girl It's 22 minutes after to await done diddly.

16:45

You know, we were talking about rockets and a little while ago, and it reminded me that one of our listeners called in before the show, was talking to him. And he was talking about this article in The Globe, one of the finer publications, but it was an article on outing and he was wondering how we stood on it, because they they were talking about outing different people outing is what outing is telling the world that a public personality is homosexual,

17:18

or I see. So if there's a if there's a cop at work that I know that's gay, I should just come on and go buddy Johnston that works in dispatch as a faggot. Well, that's that's an example of out is that not right? Is

17:31

that not an example of it?

17:34

Is that not? Not how it works? Exposing people that you know are getting yes, that that stinks. You should be doing that. Okay. But now, we've

17:44

we've talked about this before. On the other hand, it would be first of all, it would be wonderful if everybody every gay and lesbian person stood up and said, I'm out as gay. But we know that's not gonna happen. But on

17:55

the other hand, if these people are if there's a policeman who's harassing homosexuals, you just to get his jollies. And I knew he was gay. I would just surely or his name from the Maori

18:07

senator who's consistently voting against gay lesbian human rights issues or against AIDS funding, we would certainly want to expose this person.

18:21

Yeah, that's true. Okay, so what else do they call about nothing.

18:28

That's what we were discussing.

18:20

phones are lit or not lit, because everybody's listening to the other stations and dancing. Except you and yours, you're wanting to come out of the closet, but you're going oh, God, it really can't be that easy. Actually,

18:45

it's not easy. It's hard. But it's amazing the weight that comes off your shoulders once you do it.

18:55

And Jimmy and I are going to be gone for the month of December and the month of will the end of November in December, we're going to be going to Saudi Arabia to entertain the troops.

10-06

in our own way. And they will certainly be entertained.

10

they will be smiling. You take this half of the desert awful because you know what's going to happen those people are going to start driving them away again to. Yeah.

188

it's just like, that's the awful part. And I keep hearing Bush saying it's not going to be another Vietnam and I can't help but see. I mean, it's just falling down the same path.

19:36

We're not gonna have a bunch of young people getting killed for no reason. They're dying for oil, you idiots. We have to have oil to put in those cars so you can go around the loop. Because we're certainly not going to approve something as you know, as sane as having a rail system that can move Jillian's of people for a couple of dollars. We want to have everybody in a car driving around in circles. I'm gonna have that on eller, y'all. I gotta just be like parked out there on the freeway. So anyway, Richard's back. We got somebody on the phone here. What's that? Oh, really? Who is waiting Jimmy? Jimmy. Jimmy is already here. Hello?

20:24

Hello, hello.

20:26

Hey, buddy. Hey there.

20:27

What's going on? I

20:30

just want to ask two questions. One, I was wondering if you could explain the difference to the those who are confused the difference between homosexual and gay. Okay. I would also like for you to explain to us in detail Who and What re heel is all about? Because a lot of us are confused about re also.

20:54

Oh, really? Yeah. Well, I don't want to talk about Ray heal because I love Ray Hill. Well, we've had a misunderstanding. I've had a misunderstanding with every so called gay leader in the city. So I'm sure it was just a matter of time before Rana hit heads. But

21:10

Ray Hill is the first person who I know of, who stood up in this city and said, I'm a gay man. So what are you going to do about it? And this was back in the 60s. I was so impressed because He's the first person I ever met. Who was open about being gay.

21:31

I love Ray because He's the first person I ever heard. I've heard I've had a I've had an extensive is that a good word? History of radio in my life. And to hear gay people openly talking about how wonderful it is to be gay. It was just blew me away. Yeah. The first time. The first time I heard gay radio, it was Ray Hill, complaining about the police raiding our bars and had had to stop we were going to all like marched down to City Hall. And I could just see 10s of 1000s of gay Houstonians marching down there. Of course, that's not going to happen. But at least Ray Hill was there. So I love and respect Ray and always will we just did a low right now, I guess. I don't know. I want to talk about Ray. But an answer to your other question about homosexuals.

22:17

It's a subjective definition. There are

22:20

people who are homosexual. Now this is my opinion, okay. This is only what I think. I think there are people who are homosexual, that means that they're attracted sexually to someone of the same sex, they are unhappy with that. And they try everything they can in the world to change that. And they believe that if they just sit back long enough that they're going to be handed everything on a platter, that the government is going to come along one day and say everything you know, you know what I mean? And that ain't gonna happen. And no matter what they try, no matter how hard they work at it, they're going to be homosexual. So they might as well just give in now, gay people. This is me, I think that gay people are people who are, they don't really understand because God knows, I don't have any clue as to what the hell's going on in the world. But I understand that I'm homosexual. And I'm not ashamed of that anymore. I don't give a damn, who knows it. If I had a pretty little man with a hairy little chest. He could get naked in front of City Hall girl, and I could show him that the sodomy law I don't mean literally. So you have to be to be gay. You have to It's a feeling that you don't really care and you're not going to let society hold you down anymore. Maybe

23:35

the way I look at it, and in the way of I think of homosexual, as sort of a medical term for the sexual aspect. And I think of gay as the total lifestyle of gay and lesbian people.

23:50

See, that's what kills me. A lady at work today gave me an article in the paper about the Episcopal Church in California was going to start blessing gay and lesbian couples who live together. And someone in the church said, Oh, we can't do that. Because it's like, sex x x x x. And for some reason, everybody that's not gay. Now, I didn't say homosexuals, but people who are not gay, have the idea that being gay is just like, being naked and having sex all the time. I

wish it was. But it's not no. And when you're this far out, getting that little is not even as easy as you might think. Because girl, you go to the bars or the bows, these queens do not want to be around anybody that's screaming coming out of the closet. Everybody have a good time. We're naked and we're here. They're just like, not interested.

24:49

And what is the mistake between white man and black man?

24:55

I don't know. I don't. I think that's something that carries over to society has been black saw as a black and white thing as a whole. I think that said, I think what, what what we need to do is listen to somebody like atashi. Have you ever listened to her programs?

25:10

When does she come out?

25:11

She was she used to do a program on Wednesdays called speakeasy. But she's on now on Thursdays from one to three, that atashi said something one time that really woke me up, she said that we as a society are not happy with being a society where men are not able to be even straight white men are not able to be themselves. I mean, when you're a little boy, and you hurt yourself, and you cry, you know, what's the first thing they say, Hey, men don't cry. So men don't. And they hold all those emotions. And they go home, and they drink and they take drugs, and they beat their wives, and they kick their kids. And that's something else too. That was funny. Somebody asked me, they said, Well, you need to do a story on child abuse. I said, Oh, that's good. We'll do a thing. I'll get Frank. And in fact, Frank and I even talked about this, he wanted to go down and get records of sexual abuse pertaining to ours. He wanted to get records from the police department regarding statistics of male gay males who were raped. And I said, You'll never find them. Because it, it's not going to be you're not going to keep records like that. It's just like, you cannot get record not going to report it for why No, you cannot get records from the state or the city, you can call down there now to HPD called juvenile ask for the amount of child abuse cases that involve gay people because they don't exist. You see him on the news. But maybe let me tell you something. If we put on the news, every time a child in this city is abused, you wouldn't even watch the news. You see what I'm saying? But now, if you have a gay priest, who is having an affair with a 16 year old, homosexual boy, and the kid decides, after seven months, to VCRs, a mercury in and whatever. And he decides he doesn't want to be in this love affair anymore. So he goes home and tells Mommy and Daddy, what are you going to see on the six o'clock news? Gay priest, Rex Latino? Yeah, you see what I'm saying? It's such a hateful. And we've got we That's it. That's what a Tashi keeps saying, and we've got all these people who are in this mindset that, you know, they're just going to carry this garbage around, unfortunately. You know, unfortunately, we

don't think as a society, I don't think we really stand a chance. I mean, I think that because I know what's going to happen in Saudi Arabia, what's going to happen? There, a lot of young people are going to die.

27:45

As matter of fact, I went to the coalition meeting last Friday, at the Unitarian Church coalition against us a moment in the Persian Gulf. And matter of fact, they did where it was one of the speakers where it says don't,

28:09

yeah, she helped form the idol, either the Lady Justice Committee.

28:15

She was there. And Father Barragan, one of the famous anti war movement, right leaders during the 60s was also there. And he gave us a fair warning that as far as the 90s, the 1990s is concerned. He said, If you think the 1960s and early 70s were bad, as far as you know, protests and consciousness raising and everything he said, Girl, we haven't seen anything yet. No.

28:50

So there's gonna be a backlash. The proverbial doodoo is getting ready to hit the fan that there's gonna be I mean, let me give me a huge backlash. Let me give you an example of what I'm talking about. There's a there's a supervisor that I have at the police department. And when the idly Delaney thing went to trial, and they found the police officers guilty, right, right, because we know these these three, off duty in a plane car, intoxicated men are driving down the freeway, whatever happened, this woman was killed. Right, exactly. So the courts found this guy guilty, and they sent him to prison. And they put this thing on the computers. Well, a large percentage of the people that work in the telephone room where I work at HPD are black, and they go Yeah, and he called me to the side he said, How do you like that? All these black women, they they just cheer and I said, Well, wait a minute. Are we going to say that? You know, it's okay. For an off duty police officer to be drunk and chase a woman down on the freeway for whatever reason, you know, to hell with what the departmental policies are. We're gonna say that this is okay that you can just get drunk and go Don't kill people and whatever. And that's not right. And what really made me angry and what really hurt me so much with the police unions is they were behind it, oh, we need to get behind these guys. And I thought, wait a minute, what are we getting behind? It shows a real decline. That's why. That's why this the city as a whole doesn't want anything to do with the police department. And what kills me is, that's really not the way these guys are. Because 99% of the people down there are hardworking, honest, good, decent human beings that have families, and they have lovers. And they work very, very hard to do a very, very good job. But they're just millions of gay people

that are hidden, nobody's going to see that they're only going to see the one good. And you know, the one drunk that chases this woman down the street, and it winds up on the front page. And I think that's sad.

30:49

You know, what she just said, they have families, they love their families, and they work hard. You know, that line buddy sounded like a movie *Apocalypse Now*. We're Walter Rickards is a colonel of their families, so on so forth, yet they know how to utilize their primordial instincts to kill,

31:13

it's wild. I want I want it to win one time so bad, I had seen something where I think it was Ronald Reagan, when they first started visiting back and forth with the Russians. Reagan was in Russia. And there was a small little girl standing there holding flowers in her hand, and the President walked up and took the flowers. And I think, you know, you know, those are people over there with families. And they're thinking the same thing we are, you know, these are, these are hateful Americans. And, but it's the same thing. Look at what's going on, look at what goes on society, you know, if they keep us separated, if they don't let us talk to each other, if they don't let us educate each other about how we are. And that's why it's so important that gay people have to have got to come out of the closet.

31:59

And that's why I can't wait for another backlash. It that's fine. It's funny how human nature follows the same laws and rules as science, physics and chemistry. You know, for every action, there was going to be an opposite and equal reaction.

32:16

That's why I'm so fed up right now. And

32:21

and then what I'm very bitter. What I'm very, very bitter about is the fact that it's 1990. For goodness sakes, this is Team 90. We're 10 years away from the year 2000. And we are still so damn primitive.

32:38

Oh, yes. Not it's not funny, sad. We asked why?

32:42

Maybe I watched too many Star Trek episodes. You know,

32:48

all different races getting along. Yeah, I'm working together.

32:51

Using the prime directive, you know

32:54

what you would hope that things would change. I told me one time and I really believe this, that after hours, what we've done here, if it lasts another hour, or if it lasts under the 10 years, everything we've done here is for gay and lesbian children who have yet to be born. Because my, my generation, Jimmy's generation were already screwed. And we've lost a lot of us. Now Jimmy's had a lover for someone, you know, I'm 36 years old, my chances of finding a lover and living in a big house and living happily ever after girl. They're, they're pretty dim. And those of us who are in our community who are HIV positive that that light is even, you know, there's not even Damn, it's not even, there's not even word lost. And the young people who are listening and who have learned to think, well, if I only go to bed with another young person, it's going to be okay. And they're dying just as fast as we are. So what we've done here, the doors that we've opened and whatever we we have to hope that they're for children who have yet to be born who are going to come along and hopefully someday look back and go, Wow, they really did something beautiful. The people around us don't don't see it. And it's it's real sad,

34:11

sad thing that I have to make note here, when I went to the coalition meeting, I would say that the average age of the crowd in there was about 35 or 40. I didn't see any 18 year olds or under 25 year olds, people in their 20s and their periods

34:32

over on Pacific Street. Maybe they're over there. Go from Pacific Street, they're over there.

34:38

I mean, it's just you know, what is wrong with the youth today? I mean, have they been just, you know, what have they have their brains been back in?

34:48

I have a quote that I can read you the same thing. What is wrong with the youth they're, they're disrespectful. They're, they don't want to, they don't want to comply with the rules of society. They're changing. All, you know, it was it was it was spoken by Socrates, like, millions of years ago. So don't you know, we don't want to say what's wrong with the US what's wrong with us as

35:10

we're no better than us. Most of us are confined by the rules but are afraid. They're the wrong rules.

35:17

They're the youth are our only hope, baby because we can't, we've only screwed it up. That's why this song I want to play for you from Romanovsky. And Phillips. That's why this song is so important. Because we know it's true. There are gay teachers out there who look at these kids and continue to tell them lies,

35:36

Franco. Yeah. I just like for anybody who's listened to us, the last few minutes, please call in and just let us know what, what's wrong with the society that we're living in? Why are we dedicating so much energy to hating one another and putting it Because? Because we

35:58

teach it to our children. It's true.

36:01

I saw my parents taught it to me, everybody. I found it out.

36:07

I saw it takes a long time to do that.

36:10

I saw a letter that had been written by God I can't think of her name. The prime minister, who was in India, of Aragon, Indira Gandhi had gone to Egypt to see Anwar Sadat. And she had written him and said, or he had asked her when will we stop hating each other? And she said

when we teach our children to love because all we're teaching our children is to hate. Listen to this, okay?

⌚ 36:43

Okay, Mexico

⌚ 36:52

every day I go to work

⌚ 37:07

excuse me? Pretzels. We have pretzels in the lobby. I don't know where Jimmy is.

⌚ 37:23

Hanging out. I'm not in the middle of this pretzel thing. The song ended actually before

⌚ 37:36

the song ended before I really intended for it to and I'm having this pretzel and Jimmy's not here. Everybody out there. Have a pretzel with us. Here Yes. Hi. How you doing? When you shut up this jump in on pretzels. Oh, nice.

⌚ 37:55

Disgusting. chomping chopping into 1000s of people's ears.

⌚ 38:05

Are there more 1000s of phones are just ringing off the wall. Well, are there pretzels out there? Can you bring us some more pretzels? Okay. One of the enemy that's from a new album called feeding the flame songs by men to in AIDS.

⌚ 38:27

Very powerful.

⌚ 38:30

See, I think we're going to take a different direction. Let's just do that. Rather than just quit. Yeah. Which is what I want to do. But you don't want to do that.

38:38

No, I won't let you there not that I can stop you. But

38:42

we can't just come in here and do this high energy thing because it takes too much work. So this is kind of nice. laid back. Yeah. Taking a couple of calls. Yeah. Having a couple of pretzels. And yeah, answering the door. Is somebody at the door?

38:59

Yeah, that when that white light goes flashing that means somebody's doorbell. Thank

39:04

you. Wow, pretzel delivery. Thank

39:06

you. And how fresh they look.

39:14

I'm assuming records gonna be coming in.

39:17

There's no code. Hi, Richard.

39:22

Matt, Matt, Matt's on line 101 of using donuts. That's right. How can we never get any doughnuts from that date?

39:34

- . . . . .

Donuts would be like quieter

39:38

Would you please answer the phone? No.

39:45

Hello. Hi Matt. Would you like us to mail you

39:53

actually have a whole can omit home but at least a few hours and somebody jumped in my ear.

39:59

Yeah. before, what does he mean by that?

40:07

Yeah, where you been hanging out?

40:09

has been pretty good.

40:15

At least you didn't say? Well, see, we've decided that this after hours is just like too much work. And I want to quit and Jimmy won't let me so we're just gonna, like sit in here and have pretzels. And

40:34

the thing about it is, we know with any struggle especially with struggle for gay rights. You know, no one person is going to make big strides.

40:45

See, this was our second choice, Matt. My first idea?

40:52

No, forget the first idea.

40:57

My first idea was like, have a contest and see who could perform the most thought a mystic?

41:07

The most sodomy in the lobby or? Yeah. We're not getting a lot of requests for, you know, Michael Jackson's emails. We'll get some out of it. Like, why in the mountains, you get the most in four hours?

41:23

Yeah. You had something to say, Matt? Well,

41:27

I've got a lot of things to say I should have my own radio station.

41:31

Well, I'm come on down. You can do this show. Jimmy.

41:33

I'll retire. No, I heard you on the last show. Yeah, we're not we're gonna need some help anyway, because

41:37

we're going to the Saudi yet. So the Saudi desert entertain the troops?

41:41

Yeah. Well, I know I have a friend who's over there. He's in the transportation reserves. They were called up and over there. He's not gays, bisexual, but

41:51

Louise is holding on here, you know, there's nothing to drink in the lobby. Is there?

42:01

No, go ahead, Matt.

42:02

Yeah, you know, what I want to speak about is the young gay people not being involved in everything. I think that

42:10

maybe we should Malamala pretzel,

42:12

quote, gay leadership unquote.

42:18

Joking on my part. I think I think what is no leadership, Matt, we've already had that.

42:25

Quote, As they got a little bit of recognition from the establishment, and were allowed to have their businesses without being harassed and make their money. I mean, you just on this way out there, we're talking about the high percentage of gay people who are alcoholic. What are the largest businesses in the gay community

42:47

bars? Right? So if they

42:50

all have a drunk and wash down these pretzels

42:55

if gay people don't have to go to the Montrose, you're holding this together? Yeah. If gay people don't have to go to Montrose to be gay, then. I mean, what? What attracts? What appeal does their bar have when they can go to any bar and dance with their lover?

43:10

Yeah, we can't have that. Yeah, so I want to go dancing. Do you want to be gay, though, you can call me and I will start

43:18

talking about some rights, but not all rights, because all rights would not be profitable.

43:26

Well, and also, if you have all rights, then then who needs them? I mean, it's like the Catholic Church. If you tell people that they have to have to look in their own hearts and see what God tells them, then, who needs to Catholic Charities to the church? You know,

43:42

my premise for a long time,

43:44

and I think, I think it's salting and I think I think the cod thing just pointed it out, you know, the token contributions that some people make, and they say, well, that, that shows that we're on your side. I think, you know, that's an insult anybody's intelligence, just like, just like when some Democrat, some Democratic officials say that they're for gay rights, and then don't do the things like, like, like Washington did and Enberg. I mean, all these other people come in and solicit our votes. When there was a march on Washington, where were those politics? I know better hide and maybe the press would have been there if they had been there. Well,

44:29

don't count. I

44:30

liked that point. You've made it you. effect you and I were talking together one time and you made that point. And it's a very good one. Where were all these famous democratic?

44:40

It's like Harvey Milk said, I mean, it's, it's an infant. This is worse than just taking our money. They're taking our votes, and what are they giving us?

44:48

Blippi that's why we're so angry, Matt. Yeah.

44:52

I mean, the answer to being angry is not walking away.

44:56

I mean, simply walking away. We're having pretzels.

44:58

Yeah, no, but simply because then they went, well, they Well, I'm not going to

45:07

give a damn anymore baby because I'm out on the job and they all know I'm course all to hell with the rest of you, but you're on your own kids.

45:14

But but the thing about it is, is like, in my case, when I came out, I came out to myself after, after having listened to this program for a couple of months, and in that and getting your book about Harvey Milk and everything made me I mean, it opened my eyes, then it made me angry.

45:33

Can you give a second? Sure if there's nothing to drink in the lobby? Is there no. To get me something, okay. Okay, man, I'm sorry.

45:41

So I mean, it's like Harvey Milk. Harvey Milk didn't try and get the gay community leadership to

So I mean, it's like Harvey Milk, Harvey Milk didn't try and get the gay community leadership to recognize him what he did was he routinely

45:51

I don't give a damn about them, either. I'd care about you. He couldn't be the one that's you're the one that's angry, and you're the one that's going to vote and you're the one that's going to be doing something.

45:59

And I got several other people registered,

46:01

vote. Good, good. That's where it starts. And

46:05

listen, what what do you want to talk about?

46:09

Talking about it. And it's, it's all those out there who are hearing and also the new news program he had. I thought that was really good. And I like the direction he's taking, you know, to go out to different community sources, because a lot of the people that are listening to your program aren't don't have access to the information that people who are out and live in the Montrose.

46:33

Yeah, I mean, and they're the twit and of course, you're not the only gay publication.

46:37

And not only that, but but I think the twit in the voice of Office also shown that because they rely heavily upon those, quote, gay leaders, yeah, fun, then can't really speak out against always get all of everything from them.

46:56

See, the whole idea is to get people angry, and that's what you're doing. That's what counts.

47:00

And you know, and there are a lot of things that gay people do that are wrong, that need to be pointed out. I mean, we're not saying just because we're being persecuted don't mean we don't persecute to. I'm telling you.

47:13

I've done this thing for over three years, and that the crap I get is from gay people. Actually, I'm sorry from homosexuals.

47:26

I'll be glad when those damn pretzels are God,

47:29

not from the police department or anybody know what I'm saying? It's real depressing. When you eat you feel better. I'm feeling better already. Girl.

47:38

I've been real discouraged or not discouraged. But But yeah. To see the amount of prejudice within the gay community. Sure. It's

47:48

called frustration. Yeah.

47:50

I mean, it's gay men. Who direct the packs that lesbians Yes. And or other

47:57

segments of gay society. Yeah. Are

47:59

cross gender or especially. I think

48:04

referees attacking the cowboys and yeah, I'm bisexual.

48:09

Listen, enough of this. We need some abilities, pretzels.

48:14

I think if you go out there then then then you call these people who've made you angry and ignored you. I think then the new you're conceding a defeat. I mean, they win. Don't they know?

48:25

Because I'm out at work and I'm having a happy healthy life. I don't give a damn about them. Yeah, but you're the one that loses.

48:34

Right? No, they win. It's not who loses they when they're still in power. There's as the only voice we're not

48:41

going away. Don't worry about can I play a song for you and Matt, you've been

48:50

he's got one out already.

48:51

Yeah, I'm gonna play a song for you guys. Okay. Sure. Okay, listen to this. This is just for you alright

49:13

blues lady just came in and she's really chapped because you ate all the pretzels

BLUES lady just came in and she's really cracked because you are all the pretties.

49:18

Take these out, too. I liked this bag because it's the ones with the root tree and I Sonny and Cher I Got You Babe. Just for Matt and Ben. I got that keep getting angry. Cuz you're gonna be like a senator or something. Before we're all those okay? What do you mean? Those good.

49:50

There's one there in those. Hey,

49:52

y'all want to like I told you she was

49:59

out Word to eat my prince.

50:04

You left her one.

50:06

So Come here a minute. Tell me something. Now your son is in the National Guard right

50:12

now my son is now active army in Korea. No Jesus. And he called. I thought he was in the National Guard. No, no, he was in the reserve ended up in Korea and not the Middle East. Well, this is really hard on an old peacenik hippie. I'm telling off. Oh, it's I'll tell you and I was thinking on the way down about this program. And the gay young people I know who had been thrown out of their homes. Yeah. And you know, and I know them. And then there's my child in Korea. How can a parent do that? How can a parent disown their child?

51:02

My mother did let's call my mother now.

51:05

The Blues bra has something to say to you, lady. That you know, and it is astounding to me that that happened. And there there are people involved in the prison program whose children have done heinous, horrible, horrible crimes, and their mothers and fathers haven't disowned. What's the deal with this with the parents of gay children?

51:29

You know, we should really call my mom sometime marry and talk about that for real. Okay, it's three o'clock. That was a blues lady. She's coming on at four. For us for you. You talked about some good stuff. Anyway. We'll be back right after this. Okay, okay.

51:56

Hi, this is Vicki new president of the Texas gay Rodeo Association. Houston chapter. Oh, that's a mistake. We did that last time. We did it. Yeah. I love you. Over that card.

52:08

Rodeo Cowboys. That was great, wasn't it? Yeah. Okay. We'll be back in a minute where the yeasty girls are on the radio now.
