SUMMARY KEYWORDS

people, called, lesbian, movie, pet, talking, gay, sundance channel, cat, moon, night, animals, lost, houston, special, kill, year, gay lesbian, san francisco, thinking

00:00

We can cover anymore. We are way too, too large of a community.

00:06

And we need too much stuff going on

00:09

that the first media that we have.

00:12

I'd like to see more. I'd like to see more information from from television and we're getting more than kind of magazine kind of things of what is the one in your life in line now in the line and some stuff that I saw, and I think they're gonna be doing a lot more stuff. That's not, you know, a comedy sitcom, and it's not some movie, you know, about somebody dying, that they're gonna be doing. They're doing the carramar story, this Rise Fall, and I see that the sopranos are gonna have lesbians on next week. I'm looking forward to that. Yeah, the other thing is like the

00:48

altos.

00:53

Rose fix every every week. Last week. Well, yes, yes. She was on the show last week, but I mean, she,

01:00

she's great. Great, saying we were one of the very first publications regional publications to feature a transgender link in the columns.

01:09

And I read it I read it religiously. Sometimes I'm faced with her

01:18

Yes, yes. Yes. Are angry white transsexual. Or AWT that's that's what she called him so

01:27

she's very dedicated and that's part of what all the wires are there

01:34

that's it makes it a pleasure to get up in the morning

01:38

we're going to get you know I love to read what world what a world but then you know I look at all of these different types of stories that you do want to know all this stuff. I mean I know I'm the executive producer I get the guests you know.

02:01

Well and I have to have to ask Are you aware that Nancy is the new editor in chief see text

02:07

there we were going there I like to call to see Miss

02:12

Hathaway what we are as a big old team is what we are and it makes it such a pleasure to work with it with the people in Dallas. Todd Cunningham owns ankle media is is just it's just fabulous. And it's it's an it's an excellent team. We've got offices now in Dallas and Austin and stringers and various places like El Paso

02:37

Does this mean we're going to lose you to Dallas or something interesting

02:39

people ask me that no, I'll be doing more traveling but no I'm I'm living here bless your

02:47

heart

02:52

Oh, you know you're a part of this show with the rest of us I mean, you're not here all the time but I don't think there's a show goes by somebody didn't say somebody right? That's right.

03:04

I've got to say I need to start listening more often. I

03:10

Well, you've been here when I pulled out some old tapes from long ago and laid them out what the hell happened? Oh my god

03:23

this room with what actually in that room with like 13 or 14 Lesbians crammed in

03:30

my favorite memories and

03:37

just falling out of my little clown lesbian bucks.

03:40

That's right. That's right. Oh my best memories

03:45

those well you know you may notice that I have had some changes since the last time I've been one I've been I've been waiting for someone to save something I am seeing the linear I noticed this time

03:59

but you know you'd like to avoid that that that whole

04:04

public knowledge

04:06

column we were very public about it in what a world and we were very public couple and and you know very good friends and everything. We've parted friends and all that sort of thing. So it seemed natural that I should also talk about it in the column.

04:19

This sheet the exits now in Mississippi. Oh, no, that was another

04:24

one before the last Hookes law. No, that was number nine number four. To two back to back. My ex ex

04:37

was foreign to him. Related

04:42

that's a coincidence. That's so handy when you go to rent an apartment and yeah. Very low. Are they ever

04:53

so no. Thank you for reading little tools and groups. i Hail to the Chief. Oh, now just

05:03

Okay, so what does that mean?

05:05

Yeah, exactly. So if somebody says, hey, what it

05:10

means is that we offer the the best thing. The best way I can describe it is a rave.

05:26

But But beyond that, it's it's like, it's like,

05:31

if we're in a morning meeting,

05:33

I'm the one who brings the doughnut. She did the important stuff. That's what it means. I'm the one who gives the sugar and to get that little burst of energy going right now. And then I feel like that's what I do best. So I'm happy to provide the energy or some of the energy, the energy.

05:51

Positive Vice President on the floor, right in case of a tie. All right.

05:58

I'm Miss New Hampshire.

05:59

05:59

In Miss USA. I believe she was the first runner up.

06:04

Yeah, well, New Jersey or something like that?

06:08

tight tight. And I have a really good relationship. And we trade Liza Minnelli clips, and then we get down to business. And, you know,

06:15

you gotta have a good attitude.

06:18

It's the personalities getting along.

06:22

And we're all going as a team to the March on Washington this year, sir, what a boost of energy. That's,

06:28

yeah, I'm kind of I'm turning around a bit on that.

06:32

You know? Yeah. All I can say is, you know, maybe maybe it could be done for better reasons. It could have been more organized. I don't know, it can always be better. Things can always always get better. All I can say is if people can walk away with the individual life changing experience that I had, in 93 then it's worth it. You know, I if the organization's make a buck, you know, that's that's good, too. But

06:59

but this whole thing? Yeah. Tell me because I have no idea what you're talking about?

07:02

Well, because there was a lot of flack about it. Yeah, that's something

07:05

that sent me other about my sponsor.

07:08

Yeah. And how it was a good

07:13

representation.

07:14

My take on it is that most of the flack was coming from Texas. And so a lot of the flak was coming from Texas, the Midwest, and so, so they get Diane Hardy Garcia to head it up. And they get Michael Crawford

07:35

Yes. I mean, what

07:37

a DC movie.

07:39

And so it's changing minds of Texans.

07:44

The people who use I mean, those are the people involved in those visits enough. That's, that's an influential couple. I read a book,

07:53

11

07:55

because originally my thought was, you know, okay, we've got, we've got the attention of Washington, we need to work on local stuff, and put our money and our efforts here, but, you know, then I think there's a whole new generation of people who never did the mark. And this is a life changing experience. But I think people need to experience it because the last one was a 93 to shot me

08:19

on Yeah, so it's time it's definitely time there's going to be the big guy equality rocks concert. Just incredible names doing that. Yeah, no kidding. It's gonna be great. It's good way to even politics aside, you can't get away from that and you know, that sort of thing. But it's a good way to reward ourselves is a good way to reward ourselves for the work that we do here. You know, go and communities we're doing exactly the same thing we are but they're doing it in Oregon or wherever

08:52

we're not even in touch with the community to go there and discover there's still billions of us exactly. There's a million the last one what's this one? Yeah, he's

09:03

in Parks Department said it was three minutes South

09:07

Park apartment

09:09

some some people in being some people in power they're trying to make them change that number. That's no that's not good. That's all conspiracy net.

09:20

No

09:20

conspiracy. Here my favorite conspiracy theories your that really? The Mars probe.

09:28

Was not long. That is not so much. That's no no, no. I love the conspiracy, man. Oh, yes.

09:43

Are you familiar with the Mars probe conspiracy? No, I'm not

09:49

\$5 million pro Mars probe that they say they last lied.

09:55

And there was one four months ago that they lost. It's the same one. A month ago this one before This woman up see when I'm talking to men in six months time they've lost they've lost \$15 billion so

10:08

I'm gonna go home to my entire apartment will be ran they want their

10:17

cat moved much of a house to town

10:26

Thank you multitalented

10:28

dog I need to get a pet

10:32

I've got a great idea if you're looking for a pet cow

10:42

work thank you ves special 1000s Houston's largest no kill animal shelter and I'm proud to sav

that my lover Sully Shuttlesworth is the executive director. Oh and special house is having a fundraiser of sorts. It has to do with the rodeo and it's clay Walker. This shows sold out the special towels is having a raffle they're raffling off tickets \$2 A ticket and his chance to win to play Walker tickets. You might think not only getting a pet but how does this relate to gays and lesbians? Well, I've thought about this and and lesbian one lesbians like country music. Okay, so there's a lesbian connection. We saw a bunch of them at the rodeo tonight.

11:22

Texas gay Rodeo Drive.

11:25

That's right. Yes. Was this card to a vendor? Yes. Nancy did

11:32

anybody who walks into the PRP That's right.

11:34

Yeah, well, yeah, for the gay guys. They get clay Walker, but And rightly so. I figure something for everybody. Yes. Special towels is open Thursday through Sunday noon to six o'clock. And if you'd like to get some raffle tickets, please call 281579 pets and thanks for the flood appreciate. Oh, thank you. It is 3830 greenhouse road and sound it in West and marker Cypress. It's worth the drive.

12:02

Okay, give that to me.

12:05

It is I was kind of fast. Oh, I'm sorry. Thank you. 3838 30 greenhouse road it's ikan west the Barker Cypress X. Okay, okay. Yes sir. Now they have approximately 200 dogs 150 Cats and 31 pot bellied pigs a couple chickens. Oh, and and Sully's at one time had a lamb that was out there. Actually it was in her bed at her house most of the nights and finally we had a discussion I say can we just please have no farm animals in the bed? I don't think that's too much to ask earlier. I'm trying to

12:41

remember this show no no no no

12:44

that the roll out of the bed

12:51

No, I have friends in who lives like off of cavalcade in that area. That's becoming a gay enclave over there right next door neighbors who have ducks. Oh yeah. Oh yeah. I mean you can have a chicken

13:05

that's right. Well and and even if you're not supposed to we see a lot of animals in the Heights area figs.

13:13

Lots of ducks and enter because I know some people right there 610 and 45 right there in the north part.

13:20

farm yard

13:24

No, I was looking for something a little more exotic. Taking exotic animals because there's a lot always a problem with that because found and wants and is not equipped and will tell you they're not equipped to take care of certain animals. So

13:37

load a llama or something. No, but I know

13:40

a guy who was going emu? I do. Yeah, no, yeah, you do. But I know a guy who would like to unload Mimi and she was afraid to just let it die on the field.

13:52

Well, let me tell you Selena, I would much prefer that he give her a phone call before he lets anything like that. You're gonna have your bed. I know. I know. I'm worried.

14:03

No. Respect. Has the no kill. Yeah, but that's got to do a whole lot more expensive and other other organizations.

14:15

Organizations like

14:16

that. Well, now special towels was the first one and there are a few smaller ones that are sprouting up but most of the city is not no kill and realized. And it is more expensive because you've got to keep the animals alive feed and water and veterinary and see that's the other point special powers will will treat animals that are sick or injured, where other shelters would simply put on. And so yeah, they're always in need. It's a nonprofit. You can donate where Thank you. It is 3830 greenhouse road. Houston, Texas. Oh, she's gonna kill me. I'm not sure about the zip. I think it's 77084 syscoin are in the phone. And you can always call and ask and even when special Pals is not open there's a voicemail that will list the address to 81579 pets. Okay, thank you very much plus one of the things as far as we know, this is the only gay lesbian run shelter in town to support support our lesbian sister

15:22

girl you know that's a different point because you know a lot of lesbians have to let go of their pets when you know the divorce happens or when the marriage happens somebody has to give up something or you know

15:33

you have to Milan you have to you know, it's in a hurry and it's you have to move to this this sufficiency that doesn't take pets and when you do

15:40

that, and any support is appreciated at the house okay. Well and police they have big plans out there they have a goal of trying to take the entire city of Houston no kill by 2010 like San Francisco Las Vegas to other cities in the country and demand so yeah, the they're they're starting to get that momentum going and thank you all for being in support as

16:03

we always have. Now I need to tell people that they are listening to after hours on KPFT Houston and ke O 's College Station

16:14

cut that in on time

16:17

but I didn't mean to cut you short

16:20

well I really appreciate you talking about that we're getting some slime in something here and we would love to talk about it oh

16:27

well thank you

16:28

anytime you got something to us

16:32

you got a fundraiser coming up some specific plans we love Oh thank you we will and when people are very pet level deeply pet loving

16:41

you know when when when a cat or a dog has given to an owner and is now in the declining years of its life and the something happens the owner maybe death Yeah, you know that that animal deserves to live out its life in a comfortable manner. Yes Not to be put down

17:01

exactly and to have an opportunity to be adopted by another family or at the very least to live

comfortably and at the shelter when you say all the animals are very well cared for and they are loved. They're these these are dedicated people.

17:13

Well how many volunteers you need? Now that you mentioned

17:17

Godzilla is about what we did yesterday

17:20

could call that same number of volunteer maybe a Saturday afternoon or absolutely

17:24

to walk dogs to help out Oh, and by the way just especially house is pretty unique yesterday there is an actual ranch style three bedroom house on the property that the cats live in in sort of a free range setting. I call it instead of living in cages it's unique here is

17:43

not like those ladies you hear on the TV every now and then they got 45 or 50 Cat nobody's looked at the cat so the house

17:51

exactly it's not fun like that. No not like that at all let me tell you there's it's an amazing thing to go see the cat house it really is something these cats they've got it made Cat House and and let you know they built a lake for all the pot bellied pigs. It's

18:09

people out there want to volunteer a couple hours a week at this play.

18:13

Store. Volunteers are always

18:15

constantly at work here this month.

18:20

I sure will. At some point. Maybe Sully's could come on and talk with y'all. She's much more more of the chatty type thing.

18:31

Right? We could we could do a lot more than that.

18:33

And the third Saturday is the perfect night filler. Definitely

18:39

never have again.

18:44

We have something special going on right now. Rainbow if you will take and push number one. Number one lit up. Hello. Hey, girl, buddy jumps. He's the original originator of this show. 1987 he first came on the air when it was still going strong as a teenager. That's That's right, baby. Hey, Mary. I just wanted to give you

19:16

San Francisco

19:18

what's going on? Right? This

19:19

is from California. Yeah. March the seventh, we're gonna vote on a whole bunch of things. But one of them is something called Proposition 22. No, one

19:27
night.

19:30
It looks like it's gonna

19:31
pass. No.

19:34
But I just want to let you know we're not going to be discouraged. Yahoo's have legislated or tried to legislate our lives, most of our lives. And they can't stop us from caring about each other and loving each other taking care of each other. So for the Federal right, all these laws

19:51
Well, for the few people who have never heard of proposition 22. What is it? It's a proposition

19:58
that simply says

20:01
men and women and we've already got California. So what's funny about nice so a lot of people don't know. brother died

20:12
and he's got a gay son. And so Family

20:16
Man Yeah.

20:18

This pardoning what kind of hatred is this

20:21

one of these people you know what is people are afraid of that people

20:26

are living you know hey you know we can only help the percentage of divorces I mean you know we need on average any worse. I had a flashback.

20:37

Today your governor was out here Governor shrub as dumb as a rock

20:48

George wait for him to talk more George Bush the less layers there you go. But you know I think more and more as it goes on, he's gonna be on TV and he's gonna prove himself if he had taught me and you know, we're gonna have to deal with McCain rather than him. Yes,

21:06

the eighth memorial grove was located in Golden Gate Park Yes,

21:10

yes. I remember when I'm talking about first going and

21:14

it's a beautiful thing it's one of the reasons I moved to San Francisco because when he first joined it's part of that golden gate park at the very beginning huge granite granite absolutely beautiful and it says at the very bottom is paid for by the city county of San Francisco very

21:34

special part of it where there's a dim dark part of our life and part of the logic There's also something called the circle of friends that has a ghost tip site so once that happened

21:59

yeah, it actually email me because my machine went down and I lost your interest and that's my way web well

22:11

find me there

22:13

you're gonna give it out over the air watch Part Three you're gonna give me your email address over the air on t want me I do

22:21

we like buddy daylight got it bad at F like Cisco NSF Earth

22:40

Day NSF at PAC bell.com It's not very much but anyway I just wanted to call it say hi.

22:49

I haven't heard from you haven't called in too long. And it's perfect it's it's perfect you call in tonight with jewel on the show and Nancy has shown time and and one more person

23:01

I buddy This is Rainbow What's that? What do you prefer the

23:07

San Francisco

23:12

oh my god I do as a matter of fact in fact it's it's been requested it's one of the most requested songs here on on after hours. The Velvet mafia and Lewis from college station we now I don't know if you knew that we now simulcast and yes, Lewis would call Hey Louis Honey, this is this for you it's called Delhi boy

23:38

and you're ATSC 3.1

23:42

That's right take care baby

24:00

there you go Lewis just for you deli born that was that everybody guess deli boy by belted mafia. Row real fun. Fun time they have cute you know, titles here like fierce ruling diva. Love sucks about it

24:35

there's an uncomfortable silence. I'm thinking

24:41

something sometimes like this. If you do

24:49

blow on forever. Get that mixed up.

24:51

Or Monica. Stick with Yes, but I want to leave on that note, especially about love. So, I have heard lately that you're you're becoming friends. Or maybe you left his friends or with your ex. Oh, I

25:11

didn't know you were talking on me. Sorry. No.

25:16

Yes, love never dies. It just changes.

25:19

There you go. There you go.

25:25

That was the alien coming out of my stomach. Are you? Oh, that's the Dyke Show. That's the night. therapeutic for me and the rest of you.

25:42

Forget special counts. That's

25:43

right. Thank you special powers. 281579 Pets 579

25:48

at Big rodeo fundraiser.

25:50

Yeah, and that rodeo fundraiser is like two bucks a ticket for the C

25:56

clay Walker to play Walker tickets and that is a sold out show

26:01

to the cat scramble. Thanks for being here. Thanks.

26:09

You're welcome. Is that time for movies? Yeah, yeah. Oh, yeah.

26:16

You buy things not on us things

26:20

not on these things not on is it on that is my thing on Yeah. She's she's on my things on movies. Yeah, males talking to me. My things are on okay. Yes. Oh, yeah, I was talking to I haven't seen we haven't we would plot promising each other. We're gonna go see Galaxy Quest. We haven't come to see it yet. But I want to see this next one man everybody's talking about

26:44

okay, now Yeah, I can hear myself. Pitch Black.

26:46

Yeah, but now my next going crazy because you're always on this time I'm used to this well

26:54

for some bizarre reason, that was not

26:57

but they say this pitch black is going to be the movie they remember at the end of the year, you know, nobody wants to come out this time of year because you know, everybody remembers better for next year's Academy Awards The later movie so nobody really Oh

27:10

sure. We have here we have a memory of about two months. Yep.

27:14

So they were talking about nobody's gonna remember that. You know, the possibility that nobody would remember this and everybody has reviewed it says that it's going to be remembered that it's got stain powder power and

27:26

I sure hope it's better than Starship Troopers.

27:30

We know the only thing but I really I really liked star troops Trooper troopers because of the special effects, you know, that is really that was really cool. I like to ingenious idea of the enemy. You know in the ant the bugs and worms is huge grind. Yeah, that's true. That stuff that was really inventive stuff. Creative, wasn't it? You know what I mean? In my measure of a good movie is that it hadn't been done before. You know, I mean, how many times can you rewrite the same man and woman? Boy meets girl Girl Meets Boy they fall in love. Boy and girl meet monster boy runs faster than girl Girl trips. Save girl monster. Well, that's true. It's the same movie all the time. So this one was no different. Except that except that the same boy meets girl.

28:24

Boy, girl, girl has gun boy has gotten they both killed bugs.

28:31

I really liked it because of the screen size. It was a moving feature. I'm hoping that this new destination mark what is the new mark pitcher? Oh, yeah, Disney put it out. Here to me. That's a does. Tim rock. Yeah, it's

28:48

kind of it reminds me of 2001. Yeah.

28:53

I mean, I'm hoping it won't be like that.

28:56

It's kind of with this whole thing about the creation of life on Earth and how it has origins basically, could be origins on Mars and then found that rock to Mars on earth. You know? Yeah, we'll

29:17

see and that you just thought that broke was lost.

29:20

That's it. Listen, there are a lot of theories, but I'll tell you what, I none of them that I really

have any information to say I agree with in one way or another. But the fact that two of those things that cost about five, five or 6 billion Docklands disappeared at the moment they were called to do their duty. I mean, the moment they were called to do the duty they were there in the moment for him and they're gone the next moment. So well. What's the deal? That's too coincidental for me, I'm sorry.

29:50

But there's there are also things on those probes that we all know about know that people were betting their doctorates on You know, it's like I got I gotta get my doctor then whatever. Astros something. So they have this put on this program, Kansas law and if it's lost I think if there goes there goes to their bases their thesis is gone.

30:15

And the dudes

30:18

you know there's more a lot more riding on the

30:20

five d dollars you know congress is gonna look at that pretty hard when they start sending money out for the NASA and all that you know, I'm a real big believer and let's go out there. And we shouldn't be way further than we are now. I mean, last time we put our foot on the moon was 72 We should be more involved. Yes, in a long damn time since we've been on the moon. And it's time that we started doing some more footwork, I think we've flown around enough we know we can fly. Yeah, we know we walk around. So if we can do that, you know, we need to practice on getting out of or putting up a habitat on the

30:57

moon through space station thing.

31:00

On the space station, I think we have phase seven there, why spend all our money putting something in orbit around here we can do the same thing on the planet. I mean, on the moon on the planet moon on the moon, for half the price of building and weightless space and building 213 G gravity the gravity there and the things that we could use to produce our our materials right there on the planet. They're just, I mean, on the moon, it's just to me, I think we're spinning we're, we're I think we're back to specs stroking or something, you know, we're spending too much time seeing if we can do stuff we already know we can do when we

31:44

got this going up view and coming back down.

31:49

Learning to build because you know, when you go to Mars, it's not gonna be like, no up there come back in 10 to 14 days, they're gonna have to be gone a year. Yeah, minimum a year not, you know, years is an underestimate, I know it is. They're gonna be happy. They're gonna have to be gone a year. And we need to know how to make build on a, you know, another plane and another body in this solar system. And we have no experience on that we have no idea how to build a structure. I got a lot of ideas and thinking about, you know, inflatable blue balloons, like some high school gyms, you don't have the inflatable top over there swimming area with pool area. And they're thinking about, you know, setting up boxcars, literally, you know, things that are the size of a boxcar and just connecting those up, you know, their options, but no one's doing. Yeah, but you guys exploring when we can't, we're not even exploring. I mean, we're sitting on instinct was way ahead of ourselves. And I think we should have spent a lot of time last 20 years sitting on the moon practicing walking around another planet.

32:51

Yeah, and

32:54

building things out of the materials there. Yes, you cannot just transport everything from here to there, because this Wi Fi collected truck, just so many experiments for corporate sponsors up there in pharmacy, you know, things now that's playing some of their money, but you know, some of that, I think was spending too much time I think we're dawdling.

33:20

Chris, just wait there. So we're just going to be a outerspace hotel coming soon.

33:24

Yeah, heard that. Yeah, Japanese corporation,

33:29

spent \$200 million and bought the mirror, Soviet Space Station. And they are going to refurbish it into a luxury hotel,

33:39

how they're going to get the smell out get really good. And well,

33:43

they better be pretty good because the estimated price they're saying is 20 million for a room with what they're saying is a hell of you.

33:54

Well, they all have a good view for that.

33:56

Yeah. Donald Trump's the other night there for Lady you said. That's why I think we're Donalyn I really think we should be paying a lot more attention to the surface of moon so that we can prepare for the surface of Mars, which is really our goal. The moon is not our goal. It never really was. It was always Mars. For some reason. I don't know why it was Mars, I guess because Mars was the next real planet that is even close to having trouble. So I guess that's the one that we'll be looking at. I guess that's why we've been looking at it but because that's right, and the rest of the bar just waiting for 10 Your journey you go from here and Saturn Well, well, so movies.

34:42

Yeah.

34:45

Margaret Cameron Meyer story, the end of this month or March? I think it is on one channel who I was just reading something about tonight. Probably one I don't have it's not the Glenn Close version that I've seen. It's going to be another one. and also see that there's some really cool movies coming on Sundance Channel this month and they come on

35:08

No, I got to see about get adding to Sundance Channel line. Can you help me they

35:12

can kiss me Guido the other night. I really enjoyed that. That was. Yeah, I haven't I love it. I wouldn't bring it bring things matter of fact, well, you don't have one table for you. No one has I have satellite. I'm waiting for mine. Oh, I'm waiting for my direct I'm waiting for my direction. Can you see my commercial? Yes, I have waiting for Direct TV. I'm waiting. But it's got the Sundance Channel. And it's excellent. I love the independent channels because I could see a lot of gay lesbian films there. And especially Sundance film, which has no qualms about showing any kind of film that if you if, if it can offend somebody. Sundance Channel, send them here. They show every film that any miracle stuff that you can't get anywhere else. Yeah, it's really cool.

36:07

Without having to cut it down.

36:09

Yeah, yes, yes. And what is it? The one about one we saw over and Betsy sounds one night, there's a movie about this bisexual college professor, I can't remember what's called it's been out of sight. I really didn't want a bisexual college professor who meets this circus performer, performance art performer who's a lesbian who kind of is attracted to her and they developed a relationship and just kind of a more sophisticated desert hearts actually. But it was pretty cool as far as the erotic scenes and it were really very well. Very well done and very fair, lovely. Piece of movie. So let's say kissy Guido, as a gay man in the Berkeley decision roommate is getting straight and been trying out from acting roles and gets his game rolling. And they're trying to teach you how to be more have more of the attitude. It's kind of funny. It's kind of interesting. God has always

37:05

innocent Italian striker. Guy with money.

37:11

Exactly. Yeah. And

37:15

we saw Wilder Napalm the other day. Remember on that tape? Yeah, that was pretty bizarre. That was I've never even heard of this movie. And somebody gave me a tape incident here. Watch this. It's called Wilder Napalm. This guy had to start fire. Just like thinking about it. He and his brother had this. Rosy and it's actually a comic. And it's just it's just crazy. Weird.

37:42

..

Yeah, it was it was really

37:45

my bet is that Sundance Channel will be the only channel for that will carry went into the

37:52

boys. Oh, pop. Oh, yeah.

37:55

Yeah, it's that kind of channel if you have an opportunity to get in jump out because they have a lot of gain listening for them to have. Occasionally I've seen documentaries on lesbian directors, and lesbian writers. I saw a whole thing about the group of lesbian writers who happen to be some that wrote dope. And a couple other movies. They've also done short, short scaling and short films where they have like two hours and they do they highlight gamers and short films, like they're only like four to 567 minutes long. Those are really they're very interesting is dabbling. Some of them are very stunning. I mean, you watch this thing. And then at the very end, the whole picture changes. It's like, it's like the start, you see this thing all the way to this point, and then suddenly, it changes the whole thing in that last second. And so like, you know, that kick in the butt at the end. Yeah.

38:51

So you get it. Yes. Yeah, it's

38:53

a great channel.

38:54

Well, it's getting to the end of time for me to go home, but I do want to say because something's coming up next week. It's your birthday. So happy

39:06

birthday. Tommy 45 below have a yard everybody says yes, I got an

39:12

eight yard so let me tell you does she have a yard

39:19

you know, it looks exactly the same as when I moved in only one screen I'm doing better screen now.

39:25

Right You're getting way out there. Yeah.

39:28

Wow.

39:29

Jody do not live in in Houston proper?

39:32

No. And I live way out like 44 Five miles 45 miles at least I haven't really mentioned I'm going to tonight okay, but so far out. Like I was saying earlier my contact with Houston in what's going on anymore is literally my computer and when I read in the game was a median town well, so

39:51

that keeps a lot of people up to snuff.

39:54

Some I can also pick up occasionally out that directly from press. I'm trying to get taken Yeah, three more often. And, um, there is a kind of a club out there. That is a gathering the waterhole, and it tends to collect with gay people out there. And I'm hoping I can talk them into pigment. Maybe the price starts to come out that way. Oh, that'd be great. That would be one. Yes. Because it's 20 miles to

40:18

the other one, the voice voice. They are interested in having the voice in places other than the Montrose they're looking for places outside of the loop to

40:32

find direction. Even if you know the mall or something out there. For me even in Sugar Land would be better for me. That's only half as far so that would be better for me. There are a lot of spots out there they have a nice bookstore like the one they have down here to Montrose down here on Highway six and there would be a good place from there you know people stop there they haven't midsection on gay lesbians, culture and society and all kinds of the new outlooks and some of the old ones there. So that will be replaced something somebody's listening from either. Either media Yeah. But I'm going to hit the road roads are going to drive home because I'm wondering,

41:16

wow, what a show. This

41:18

has been a break. I really liked him.

41:22

I really like being able to talk about special powers. You know, in my life, I'm kind of motto. A lot of love him and some of that love. Some of the greatest of those loves was with my pet. Yeah. You know, I can never say no with pets. There. You know, I used to say that to my cat. And then you know, you got to be very old and I had to clean down. Make him suffer. Yeah, but

41:46

but that really is they really do have unconditional love.

41:48

Right? It's like nothing else. Yeah, like nothing else. And I'll never have another camp and man as much as I'll never have another cat rose so he can have it outside. It's it's not a man. It's livestock.

42:05

So let's have a letter writing campaign rose to let you have a cat.

42:11

I had a friend. Somebody stole his dog.

42:16

Oh, no. Yeah. And you know, I just

42:19

I just think that is just wrong. That is just so wrong. No, okay. No, you know, a bicycle. You know, either. I can almost see you know, okay, it was out there stolen. But, you know,

42:35

we can hock it. Yeah, you know, like,

42:38

people steal people's children or animals. You just lose don't. It's just a terrible evil. It's just terrible. It's horrible.

42:48

I'm glad to know they're gay people in mom's special powers. That meant a lot and I'm glad
