have explored boundaries with other people. Like, you know, asking

Gigi 00:05

boundaries is good. I mean, how many times have you kind of put up with an activity with a lover even though you didn't really like it? It's kind of a key, but I'll do it anyway.

00:17

Oh, yeah. So much of the workshop. It's, it's stressed, you know, to ask for what you want, or to, you know, let other people know what you don't want. And they really, they really emphasize that.

Gigi 00:33

Yeah. And, you know, so often we get into a relationship, and it's kind of like, I have this exercise I have my priests and priestesses do in the Temple of Sacred sex, I tell them to for night, I want you to take yourself out and day in the same way you would take someone else out on a date. I want you to get all dressed. Do the bubble bath, the whole nine yards, get someplace romantic. Get yourself that really good dinner, and then go home and masturbate. But make it a very central slow, caressing and give everything to yourself that you would give to your lover. And it's amazing the feedback I get after someone tries this exercise, because all of a sudden they go, Wow, I never knew masturbation can be so fun. I mean, it's always as well done. And I think it also refocuses us because a lot of times we'll become martyrs. And the dating process will go all out for this other person. Even if it denies ourselves totally right, yeah. And so this helps us refocus, and look for what's pleasing for us. And you know, I've said this

many times before you can love another person, you have to be able to love yourself. Denmark, can't love someone else if you can't love yourself. But any other little things that happened in body electric that kind of stand out for you. Well, I'm

02:23

people who we, people who do the workshop, often like to continue doing the work after the workshops over, you know, getting together and and follow up program. Yeah. So we do have that here. We do have massages, like once a month where we all get together and say, Hey, we have our own community. And that's, that's really nice. And I want to see that just continue to grow here in Houston.

Gigi 03:02

Does Bodhi electric have a kind of physical location here? That's kind of office or no?

03:13

I'm kind of the central like. No, we were not that sophisticated. Yet here in Houston. There's other cities that you know, have have larger body electric communities. And it's headquartered in Oakland. Yeah. The main, the main organization is located in Oakland. Yeah, for Bay Area.

Gigi 03:37

And they're made many times.

03:41

And there's, unfortunately not a women's workshop that is offered in Houston right now. I hope there will be one at some point. But there are other cities where there's women's workshops, and then

Gigi 03:53

any close to Houston like Dallas or Austin?

03:57

No, the the ones. The only ones I know about are Seattle, Oakland, Boston. I there may be more, but those are the ones that I think of right offhand. Yeah. With the website have information. Yeah, the website has a complete listing of all the the women's programs, okay, as well as the men and women gather program. We like that.

G

Gigi 04:28

Like other men? Well, Thomas, time to I'm getting the wrap up signal. So is there anything that you'd like to kind of recap or kind of? Well, I

👤

04:40

do want to make sure that the audience knows that. Body Electric will be hosting an informational session before the workshop, November 8 tonight and I would like to invite anyone that's interested in body electric and wants to talk to some people who have actually done it. Um, please come to this at some. I am not remembering the date offhand. But if you will call me at 713-854-1988. I will tell you the date and the location. Okay. And I really look forward to talking with you.

G

Gigi 05:17

Well, thanks for being on the show. Appreciate it. Yeah. It's been great. It's been really awesome. And I turn it back to you. And we'll be going I guess to our

C

Chris Harrison 05:30

Yes, it's time for the Drug Report. medicinal marijuana with Dean Becker. If since I've already hit all the buttons. Thank you all for coming in this evening or this evening slash this morning. And since none of my assistants are in here, that's Dean Becker. Are you there? Dean? Evening, Dean. There we go. Good evening. How's

👤

05:55

everybody? Oh, wonderful.

C

Chris Harrison 05:57

I've hit the wrong button there for you. But we got your dean Becker is on line with our medicinal marijuana update. I'm not sure what do we call it?

👤

06:07

Well, it's been called cultural baggage. That's what it started out as I do the daytime shows the 420 drug war reports but cultural baggage suffices just fine for me. A couple of things I wanted to point out, things are changing. You know, here in the US the drugs are almost a marijuana kills. And it's, you know, the worst thing since? I don't know the devil got cast out of heaven, I suppose. And yet, the Minister of Health in Switzerland is doing battle against the police over there. The police still want to somehow keep marijuana illegal. I mean, excuse me illegal. And

yet the Minister of Health rallies daily to try to get them to end the war on marijuana. The Prime Minister of Canada has now spoken up for marijuana. Yet the police still do battle. They're trying their best to maintain this control over the people. And here's a little clip I wanted to read from Prime Minister cretin. I never know if I'm pronouncing that French. Right.

 C Chris Harrison 07:12

I think it's crazy. I'm Christiane. Thank

 07:14

you. That sounds much better. shotcreting. Okay. And he says that the criminal decriminalization of marijuana is making it normal. What is the practice? He says it is still illegal, but what do you think Canadians want their kids 18 or 17 years old to be smoking once and then get caught by the police, and then to have a criminal record for the rest of their life. So what has happened is so illogical that they are not prosecuted anymore? So let's make the law adjust to the realities. He says perhaps when he gets older, I will give it a try. And when I would no longer be a criminal. And that's the Prime Minister of Canada. You know, here again, they want to put people in fact, they do, on occasion, put people in jail for 10 years, you can steal, you know, a couple of 100 billion through Enron and and get five. It seems totally out of whack. I'm sure you guys have heard the reports about Rush Limbaugh and his problems with his sportscasting. Yes.

 C Chris Harrison 08:16

Yes. And his little story in the Enquirer.

 08:20

Yes. And right. And now he's been shown to have used perhaps 5000 oxycontin pills over the last few years. And basically what that is, is a synthetic type of heroin. And I'm not going to diss the man, you know, people in pain people are, I think, given the right to use whatever drug suits their purpose, that's what I work for on a daily basis. And, you know, there have been potential complications. I've heard stories about his ear problems, his hearing loss over the last few years. And the sad thing is the Los Angeles Times reported that use of these drugs can sometimes actually lead to that hearing loss. So that that might be a case where had he had proper hook up with a doctor? He might have been aware of that and perhaps saved his hearing.

 09:12

Well, yeah, cuz especially from what I've heard the, the method distribution, he got for the OxyContin and was basically, he the the alleged story is that he picked he picked it up in a cigar box at some gas station, where the other couple came and dropped it off. They did like a

drop, they exchanged it out for freedom. Was it all just a bunch of boxes, Oxycontin and pills put in a cigar box,

09:41

kind of like a Soviet exchange with a spy or something? Yeah,

c Chris Harrison 09:45

it's one of these weird things that's come down. And then you also hear about the fact I mean, the National Enquirer supposedly heard about has known this for two years, right. And they've held back on the story because they wanted something a little more official. And then all of a sudden this thing has exploded between his comments he made on a sports show on ESPN. And then all of a sudden that comes out at the same time that the police were doing a fuller investigation into this OxyContin and store which is right now it's I mean, it's it. I think oxycontin is considered kind of like the valium of the new generation. It's like what valium was back in the 70s?

10:26

Well, sure, but I mean, many heroin addicts actually use it as a substitute. And it has many of the same properties. Okay. You know, right in there with morphine, et cetera, that impacts the body in the same way. And you know, that there are doctors now that prescribe these drugs that are being prosecuted by the Ashcroft regime. And they actually stated we're going to prosecute these doctors as if they were the Taliban. Okay, now, people who are in pain, they and their doctors are the only people who should be making these decisions. And it's certainly, you know, the government seems to know, everybody's medical history and everybody's need. And somehow they have the authority to make every determination in what's right for us.

c Chris Harrison 11:19

Yeah. I mean, you hear the Ashcroft and the DEA and all this under this administration, they're going after Oxycontin, and they're going after medicinal marijuana, but you know, you don't hear them going after the President's choice of cocaine. No

11:34

nuts are the you know, what is Viagra? Is it not a recreational drug? Yeah. And, and yet, you know, it's promoted, oh, my god, 95 times a day, on your television.

c Chris Harrison 11:48

And now they actually have competition out there, that's just coming out for that. They're having the Battle of you're gonna see even more of these commercials for basically appeal just

to get you up and happy. We're not really too happy just to get you up. And I mean, that's,

12:06

it's just outrageous what's going on, we, we are lucky that it's just becoming more obvious every day, they fight harder and harder to maintain their little fiefdom. But the whole point at the heart of it is that for this war to end, the the narcotics teams will be proven liars, the media will be shown as complicit, and so will the politicians and perpetrating a war that has, you know, destroyed the lives of 10s of millions of people eaten up more than a trillion of our tax dollars, and had no success whatsoever. And they defend it now? Not so much because of the drug war, but to defend their honor. And we have to show they have no honor.

12:53

Yeah, the one point you brought up there is the fact you, you get people who are with a small amount for medicinal purposes, can get a bigger sentence. For somebody that's just recreational use for something to help them get through life. And a doctor agrees that they need it. Then these corporate raiders, Enron and Worldcom and all these other people who pocketed millions of dollars, and wasted billions destroyed trillions. I mean, it just, I mean, we're talking about a company that's basically destroyed California. Yeah. And

Chris Harrison 13:32

they're not even getting slaps on the wrist.

13:35

Okay, inlays of you know, trying to find the best price for his ski chalets, you know, and so forth. I think maybe he's going to leave the country. I don't know why he's going to do with that extra cash. But

Chris Harrison 13:45

I find it it's amazing, the way these laws come forward of what's the drug laws, basically, we're going to go zero tolerance on these things. And I mean, I've I've listened your show,

14:03

quite often past month or so with the on the Tuesday nights. And it's, especially when you also hear some of the other stories with a history. I mean, marijuana became illegal because of the depression. They were trying to drive the the Mexican laborers out of the United States, right? Yes.

14:20

It was just a tool of leverage.

Chris Harrison 14:23

Cocaine used to be given to slaves, so that they could work longer and produce more on the plantations until they started seeing some of the other side effects and decided we can't let them have this good stuff anymore. And that's when it became illegal for them based off of race, I mean, these drug laws were born out of racism within

14:44

a year. The same holds true for opium that the Chinese coolies who worked the building the railroads and so forth, once the boom was over, and they became surplus labor, labor, they use their you Use of smoked opium to arrest them, though they did not make the elixirs illegal. They they allowed that to remain legal. Before the white folks who used it in, you know, downtown. Yeah,

Chris Harrison 15:15

the the doctor spunky swamp oil went around on the traveling bandwagon, they just stuck a new label on the front of it and call it something new.

15:26

But the whole point, my friends is that we are responsible as well. When we don't do anything. When you see a lie, and you refuse to change it, you are part of the lie. And I asked, I ask all of you to please go to no our ML dot o RG and there's a little place here you put in your zip code, we'll hook you up with your legislatures, legislators and you can you can write them quite easily. And I beg you to please take the 10 minutes and do so.

Chris Harrison 15:55

Okay, that was n o r m l dot o RG and that's normally

16:03

national organization for the Reform of Marijuana Laws. Okay.

Chris Harrison 16:05

And Alex, I've heard all these great things coming out of Canada. I mean, the the I don't

remember his name, the one or the other activists who are sitting there going around in front of all the province, Parliament buildings and police stations, police stations as well,

16:24

right 18 of them he got arrested in six. His latest he went to Ontario to the national parliament, smoked 50 feet from the front door had 500 People gathered for four hours, smoking joints over a foot long. And no one got arrested. There was no problem whatsoever. So the laws are null and void. But the police don't like it. And that's the problem up there now. And it's you know, for ADA years, we've been having cops making medical decisions. And for whatever reason, we allow it to continue I again for the life of me figured out why people out there aren't outraged and doing something to end. It's just ridiculous situation. Well,

c Chris Harrison 17:15

what what's going to what it's going to take is when all of a sudden, they start waking up and it's the white middle class suburban kids who are abusing it to a point where they're dying in droves, or it starts affecting their kids and their kids are having to go to jail for this stuff. Well,

17:39

John Ashcroft is trying his best to make that happen. With his new posturing that says one, everybody gets the mandatory minimum and secondary, no more plea bargains. So once that takes its effect, we just may get to that point, you're speaking. That's

c Chris Harrison 17:57

as unfortunately where it's gonna take. It's gonna excuse me, it's going to it's going to have to get a little worse possibly if people don't step up now, because unfortunately, there are a lot of us are kind of knee jerk reactionaries. And it takes a slap across the face sometimes to wake us up and get us moving into a direction that we need to be looking at. Yes,

18:18

my friend, Judge James P. Gray wrote a book why our drug laws failed what we can do about it, he has a passage in there where he speaks of that situation, that in order to change the law, it's necessary to persecute it to the nth degree. So that that, you know, the rounding up of those middle white middle class kids will begin to make the change that once we show, you know, the fraud it is to a bigger portion of the populace. It begins to bring about its own demise.

c Chris Harrison 18:50

Okay. Anything else out there, Dean?

18:54

I do not. I appreciate his time. I thank you all. You know, you, you brighten my Sunday, and I thank you for the opportunity.

c Chris Harrison 19:04

All right. Dean Becker is host of cultural baggage on Tuesday nights at 630. Here on KPFT. And also for 20. Monday through Friday. Are you also on Saturday, Monday through Saturday? The 420 cultural baggage of the drug wars at 4:20pm. Have you ever found exactly what the 420 stands for?

19:26

The best I can determine that was a slang that developed from some kids in high school at Santa Cruz in Santa Cruz, California. And it basically was a time that they would designate to meet at a designated spot to smoke some

c Chris Harrison 19:44

marijuana. Because it's one of the things you hear these urban legends, some people saying it was like some California Penal Code 420 had to do with drug policy or police codes and different things. Yeah. Police code is I mean it's But as

20:01

I again, I've tracked it down several different directions. And that seems to be it. Again, you know, it became, no matter what the time of day you ask your friend what time is it? And no matter what he says, You say, Oh, I thought it was for 20 which meant, hey, it's time to go smoke.

c Chris Harrison 20:19

You know, I just came up with an idea what it could be. Yes. I just I just pictured an old fashioned analog analog clock in my mind. Okay. Put the hands at 420 and doesn't like a face with a cigarette dangling out of his mouth.

20:35

Well, it could be it's just for summer, obviously, they're going what normal could for 20 suddenly hit the clock and I'm going, it just looks like maybe with a glazed over look on their face with a cigarette dangling out to the left hand side. Kind

20:47

of like the zigzag. Yeah. So

20:51

all right, well, Dean Becker, the only straight man who have a regular recurring role here on after hours and I'm proud of it and I thank you. Alright, thank you, Dean. Okay. All right, coming up here in a little bit. We are going to be doing after our news and views roundtable. Once I can get the gaggle of group in here to chat.  32:21

Okay, Cleopatra. Okay.

 Chris Harrison 32:23

And one last thing. I just wanna give a heads up to the latest that we were reading that we're hearing from Las Vegas. Roy Horn half of they kept saying Roy Horn was Roy Horn. And I didn't realize they use their first names. That's the blonde half of Siegfried and Roy is still in critical

condition. During a show on Friday, he was attacked by one of his white lions. Onstage tigers, tigers. Yeah, tigers. Oh my nose

∅ 32:55  
and bears.

M Merlin 32:56  
Oh my.

C Chris Harrison 32:57  
Okay, let's put Poppy on the Cooper on for an hour

∅ 33:03  
I'm sorry. It wasn't something I said.

C Chris Harrison 33:04  
Yeah, Dean send me somewhere your medicine I needed he's undergoing surgery late Friday. And they're not sure. It's they're guarded and optimistic. Unfortunately what happens they still not sure one of his Tigers started going out for his arm he decided to hit it with his microphone. Stupid.

∅ 33:30  
Don't go off the tiger. And

C Chris Harrison 33:33  
so the tiger went into natural rinsed instinctive mode and attacked and you know, animals like that go for the throat. And so it's in critical condition and all the history not to be amazing. Can you imagine the viewing is in the if he does I mean he's in the box that close to the open it back up. He's disappeared.

∅ 33:59  
He buried the guy who wrote the Hokey Pokey. The funeral took two hours to put a bluff sign in take his left side.

34:08

Don't ever say anything about my joke laboriously painful.

Chris Harrison 34:16

Okay, let's see that's microphone three.

Merlin 34:29

Love averages says they had a really long run of not having gotten hurt by these creatures. I mean, something had to happen. One, one. Well,

34:41

I got into Chris earlier though, that Siegfried and Roy these white tigers actually live in their mansion with them.

34:52

They've had a squirrel

34:55

or something. The Tigers picked up on it and then ate Maybe he put a Meow Mix instead of Friskies or something.

Chris Harrison 35:06

On line one, he says you got misinformation about prime timers? Ah. Okay, well, all. Hopefully he wants to go. What do you say when they go in here? Okay, good. Hold on a second. I'm going to be standing corrected. And I don't mind that.

35:24

Unless you want to take it sitting down.

Chris Harrison 35:25

Oh my gosh. David. Yes. Hi. Hi.

35:30

I'm Jimmy sniper next door. Okay. One of the people, a member of prime timers that have the newsletter. Oh, good. And the convention is being held at the downtown Crowne Plaza. That's how the Allen Center complex October the 30th through November the second,

c Chris Harrison 35:47

36:00

Just built, or the one on Fifth Street?

c Chris Harrison 36:02

That's the one on Smith Street semester. Okay. So what where's the hotel again?

36:08

Downtown Crowne Plaza and the Allen Center complex?

c Chris Harrison 36:12

Okay. Do you have contact information on that? Because I'll be I tried to call him the one phone number and I couldn't get like, couldn't connect for some reason. I have.

36:21

What is it? What is the diner Rama?

37:39

You go to a different restaurant. Like on the eighth is the River Cafe. And there's a there's a diorama on the 17th at stables. Different ones and it just can meet and have dinner together. This conversation. Okay.

Chris Harrison 38:01

So hopefully someone was interested in prime timers and get in touch with that pet car. Yes. Okay. Get in touch with prime timers. And like said we have the correct information for the hotel. And hopefully it should be a great turnout for that national, one of these national conferences for the GLBT community coming here to Houston. Right. That's one of the things the thing is, is the great part is that we're gonna show off hopefully some of the city and there's not gonna be too much construction around y'all at that time. But don't stay there

38:32

too long. creosoted from City Hall might be listening in and say

Merlin 38:37

sir Street, the official Church of this city is Our Lady of Perpetual deconstruction.

Chris Harrison 38:50

Well, we appreciate the time, Chris. All right. Thank you for that. Thanks. Thanks for calling in with that. That bit of information there, David. Okay. Thank you. See you later. Okay. Bye. See, I don't mind being wrong. And we never know

39:04

who's listening. Yes.

Chris Harrison 39:05

It's so rare that I am wrong. So it's yeah, of course.

39:09

Of course. Rush Limbaugh. Oh, ouch. I just love what's been happening to him this week.

39:17

The drug scandal. And then the comment he made about I think

39:23

it was it was a comment then the drug scandal? Yeah.

Merlin 39:25

Comment came first and then they had the drugs

39:29

Ramba Oh, lush rubato.

Merlin 39:32

My problem is this. I'm seeing a situation kind of like what happened to Arnold there. What's been happening just at the time, things are starting to get down to the wire. Some people start coming out with stuff about, you know, and much as I would never defend Russia on much of anything at all. I think the timing of the revelation well I think it's kind of interesting.

Chris Harrison 40:01

I think from what I've heard from it is the fact the National Enquirer actually saddled the story for like two years, and their official verdict. And you know, I mean, as Jay Leno says, they they check the story and they recheck it and then they double check the recheck. But then again before but see, then again, you're talking about double checking information and all that and they are a Florida based company. There's a triangle Yeah. And I think what they were the people who supposedly passed off this cigar box full of Oxycontin, and to him were just recently charged with some information and they're coming forward with it. So it's one of the things it's just it's they they got busted and it's always you know, when a lot of those cases especially in the drug cases, it's how well you get off is how much of a bigger fish you can put on the on the hook, so to speak. And that's what happened is they got busted for something said, Hey, by the way, you know what, one of my clients was Rush Limbaugh and so it I think that's where that exploded from why you're seeing it all of a sudden is

R Roy 41:10

but you know, it really surprised me about that. Before that revelation came out regarding the common I do not for the life of me I cannot understand where ESPN and Disney and and whoever else was involved in this in hiring him on for as a sports commentator. Why they would be so surprised at the commons rush wouldn't make well

C Chris Harrison 41:37

you have to look at it this way. Rush was hired as a commentator on this either he actually does have some I'm not I'm not sure if it's football experience or not. I do know he used to be a broadcaster in the media department for some Midwestern sports and whether it was baseball or football I'm not sure also have to consider the fact that when it comes to especially sports casters for football, one of the Great's they talk about as Howard Cosell, who never played the game, and was very controversial. His career ended with Monday Night Football based off of a comment that was considered racist. And it was a general term that he used. He called he called his grandkids you call it a lot of people, the term monkey. And unfortunately, he used to describe an African American player saying look at that monkey run down the field. And that was the end of his coat sell. That was the end of his career. And people watched and paid attention with him because he was so bombastic. He was so caustic that people tuned in to see what stupid things he would do. Because people didn't like him. I mean, he got death threats. And so they looked at bringing this stuff in. And when Dennis Miller was hired on, on Monday Night Football, Rush Limbaugh actually auditioned to get that same same place position. Oh, really. And they, Dennis Miller ended up getting it. And so eventually, I think what's coming down is the fact that rush with his bully pulpit he had on his radio show, he supposedly really promoted, Hey, call those people at ABC and tell them we need you. We need rush on Monday Night Football. And after a couple of years and all that they finally decided, well, let's give them this thing on ESPN, which is enough subsidiary of Disney, which is which is ABC also is so we got this opportunity. And basically what he said is, he said the same sort of thing that he always does, he does a lot of media critiques, and his his real media. His critique was not necessarily at donathan McNab, it was the fact that the media was playing up the fact that donathan McNatt Donovan McNabb was such a superstar. And the numbers this season don't bear it out. Because he's not he's having a poor season so

44:11

far. You know what, this is not football, but I am of the age and generation who could appreciate the real New York Yankees. And I'll say this that Roger Maris made more strikeouts than homeruns. Man, you know, but yet, and if you look strictly at the stats at the numbers, here's a pretty poor player. But yeah, you see what really, we're really counts is that not so much? How much how poorly you play day after day or week after week, but can you come through in a pinch? Another. This is almost like apples and oranges but I'm thinking of the Houston Rockets, the old Houston Rockets. We did not get the nickname clutch city for nothing. I mean, we had some of the most talented NBA players money could buy. But it caught we died every time every single time.

c Chris Harrison 45:26

Die. I appreciate the Astros decided to blow it before they got into the playoffs.

45:33

The Houston Oilers, they were just lousy from the get go.

c Chris Harrison 45:38

I've got I've got a rude comment to explain the Astros but I'm afraid too many people write letters there. So I'm not going to say it on there. I'll tell you I'll have to words.

M Merlin 45:49

The last stroke,

c Chris Harrison 45:50

but it's one of the things you It's interesting seeing. I mean, Russia was top of the game before? Well, actually, I think what would kind of lead him on the downward part was Fox news coming out and saying that Russia wasn't too liberal for Fox News.

46:12

Fox News get it right the second time.

c Chris Harrison 46:19

So it's one of those things that he's gotten a lot. You don't hear about him as often. Until all of a sudden you had this thing where he makes a comment about the Philadelphia remember the

Philadelphia Eagles. And then just by coincidence, the following week, he's giving the opening address in Philadelphia national broadcast the National Association of Broadcasters. And the thing is this for saying that Philadelphia and Philadelphia is not that I mean, they're they're virulent sports fans there. And Phil I mean, they they booed Santa Claus at a football game. Yes. City of Brotherly Love. Right. Yeah. And the thing is this, they did this. He made these comments about there, and there was only like 20 protesters. And I saw pictures of the protesters. And these weren't football fans. These were people just protesting because it was rush.

47:13

These are wasn't the football fans, football fans, it would have been a riot in the streets. So

c Chris Harrison 47:18

that's it's one of those interesting things there with brush that. Yeah, he's getting a lot of flack aren't old, it's it's the flavor of the week because he decided he's going to run for office.

47:33

And I heard the article that those women are going to rise, or the articles are going to be called and he touched me.

c Chris Harrison 47:42

But it's, I mean, one thing, you have to preface it with a lot of I mean, a lot of stories that are very sensationalized. Were back in the 70s. And this really all began with water when he was just kind of snowballed

47:56

from there like, Well, that was kind of the one that broke the dam was Watergate. You know how? Well, it kind of, you know, we've discussed this before. I've discussed this before in other circles, but the way that Watergate kind of opened the floodgates, so to speak for this kind of journalism is because the public has a right to know. And the media is going to feed the public. And they're going to give them what they want to hear. You know, before they could kind of pull it off and something else and you know, kind of sweeping under the carpet but the Watergate investigation in the newspapers kind of broke down. I

c Chris Harrison 48:44

can some I can somewhat see where you're coming from with on that. And unfortunately, the fact that back in 1970s, when Arnold Schwarzenegger was a recent immigrant to this country, English was not his first language and still isn't.

48:59

Thy dog, Conan the Barbarian, remember?

c Chris Harrison 49:02

Yeah. And considering the fact that here was a guy coming over, who spent all day surrounded by other guys in tight tight shorts, oiling each other down, and telling everyone telling each other how good they look. They needed an occasional gangbang to make themselves feel like they were real men and has to have a woman there. So I mean, that unfortunately, was the culture of the time and the culture of what his industry was. I mean, come on. I mean, those muscle mags are, are to gay men. What Victoria's Secret is to straight boys.

49:41

Out of the magazine,

c Chris Harrison 49:42

I mean, Joe Joe wieder is as much of a pornographer to gay youth, as Hugh Hefner is to adult male straight men.

49:50

Well, actually, Chris actually wrong because I I, you know,

c Chris Harrison 49:54

you read the article. You

49:57

was there. I lived in that era. Okay.

c Chris Harrison 50:03

Obviously, I didn't take the

50:04

instruction magazines were those muscle magazines were not as big in the gay community as just letting model Guild and believe it or not the Sears catalog, we would always go to the

 Chris Harrison 50:23

No, no, I understand. But nowadays with they always joke about the fact that back in the day, straight boys got the National Geographic in terms of the African section. And so they could see all the tribal women with their breasts exposed. Nowadays, I mean, and now you can go through and you get that kind of soft core for straight boys in most your magazines. For the gay youth out there, who you can't go out and purchase one of the gay porn mags. It's now the muscle magazines, like the muscle magazines are just the same level. And some of them even accept gay type ads in the back. Oh,

 Roy 51:05

tell me about a lot of and if you notice the photography has gotten more showing. Whereas I don't know the airbrush or what they used to do back in the old days, but thankfully, they're not doing it anymore.

 Chris Harrison 51:20

But nowadays, between the muscle mags out there, and the Abercrombie and Fitch catalog. Okay. Either one of those two is basically toss your own salad material for gay youth. And it's those sorts of things that

 51:41

you know, you gotta be talented to do that.

 Chris Harrison 51:42

If if, if mom discovers it under your bed, you're safe. You're okay until she tries to flip through the mag and realizes its safety sealed.

 51:55

Babies are all stuck and it's not in the women's section either.

 Chris Harrison 51:59

So I mean, that's that's the basic thing is that's a way that you have that outlet. I'd have

52:05

to be anorexic to wear Ambergcrombie and Fitch in the first place anyway. Well, you know, I

c Chris Harrison 52:10

can barely fit into their catalogs

52:15

of appeals to more of a preppy college type crowd, which is your Jr's and

c Chris Harrison 52:23

your label hoes? Yeah.

52:27

Unfortunately, we got it we got a bunch of them in the in the family here. Oh, cool. Hey, nobody here at the station doesn't label.

c Chris Harrison 52:37

Everybody wearing Polo? We got a guest for behind us here.

M Merlin 52:41

Oh, what do you what? Che resale? Thank you.

52:46

And I have a closet full of Tommy Hilfiger at home. So.

c Chris Harrison 52:50

Oh, well, so it's one of those things don't you

M Merlin 52:52

think you should let him out of the closet?

c

Chris Harrison 52:56

Tommy's been out of the closet but

♂

53:08

we digress this time.

♂

53:09

Oh, yeah.

♂

53:12

We came out when came out and coming out was you know, fashion fashionable. You mean like, John came out as bisexual? No, I'm thinking more along the lines of it birth

c

Chris Harrison 53:29

loaded loaded loaded. Yes. Well, remember, it's all gay man. At some point in time we were at least once between a woman's legs. Now your scenario and you just kind of crawled out because you didn't want to go near that area. You know that like in humanoids from the deep

♂

53:53

punch my way right on.

M

Merlin 53:56

Reference to

c

Chris Harrison 53:59

I like that one better than Aliens.

♂

54:03

Aliens were more than chests than anything. Yeah.

c

Chris Harrison 54:05

Coming out of the stomach from because it was an actual birthing. That one was

o

54:09

actually like what they didn't Spaceballs better. But yeah.

c

Chris Harrison 54:15

Sadly enough, you can now see that on one of the classic movie stations. Oh, boy, which I don't remember if it's AMC, or TMC.

M

Merlin 54:25

You know, and you're seeing

o

54:29

Hey, whoever's out there in radioland, who happens to have the video, Vudu Academy, please return it to Blockbuster. Everybody in their cousin has been asking for it for ages and we can't find it anywhere. I was watching as viewing the the Brotherhood through

c

Chris Harrison 54:47

to a trilogy. Where did I just see something about that? I think that's one of the movies on the gay preview.

o

54:58

Budo Academy is a big It's not it's not gay per se, but it's such a big gay culture cult following. It's it's like Rocky Horror it really isn't gay per se. But it's got a big gay cult for following voodoo Academy is not gay per se but it has a big gay cult following reason being they got a lot of college freshmen in there BVDs and bikini join and

c

Chris Harrison 55:33

the thank God for Suburbia I deal with all you Queens trying to get it at the the Queer Blockbuster and Queer Hollywood. I live out in suburbs. I'll try it there. Now.

o

55:46

You'll try it anywhere.

55:48

The boys, the queen of the Voodoo Academy is so campy everybody loves her. Oh, hello. Goodbye. Oh, yes, it is. directed. It's directed by the same guy. Who did the Brotherhood, David

c Chris Harrison 56:05

dico. Yes. Getting in his hard getting out as hell. Voodoo Academy and it's like, Damn, why did I get to go to that school? Voodoo the second time this week I've made this comment of why didn't I get to go to the school? No, it's okay third time.

M Merlin 56:30

Caribbean Hogwarts.

c Chris Harrison 56:33

No, there was a thing I saw an article from I think it's Iowa State University that they have a student club. That is a BSD M. Bondage domination. Oh my goodness. sadomasochists Club. That's

56:53

my college we call it pre med.

c Chris Harrison 56:57

This is a this is a student club. They have s&m Movie night which is Snickers and m&m.

57:10

And they set some logic

c Chris Harrison 57:12

they they're trying to get because they're a student club. They're trying to get money from the Student Union. Well, the Christian groups on school are like, I can't believe they're teaching this they're they're telling people how to rape. It's like no safe, sane and consensual. You can't rape

the women in the first place. Yeah. But it's that's where they're turning this on to is this this sort of thing. And it was an interesting little read. It's like, where the hell was this at my school. But then again, I went to school in Waco and wacko.

57:46

S where we ain't coming out.

Chris Harrison 57:50

My school was home of the allied forces at the Branch Davidian standoff.

Merlin 57:59

My mother got herself as

Chris Harrison 58:02

was my school is where the FBI and the ATF and they all gathered and they were waiting for him to come out. And that was the staging area was at my college and they only

58:11

found out that his column was we ain't coming out. waco area

58:15

was rain chart ash jeans, but anyway. Get the jokes.

Merlin 58:24

Don't ask

Chris Harrison 58:25

Mike 345. Okay, here's how I think we're going to start doing this. I want to get everyone's mic at the top. Forever, every stupid calm that you go down.

Merlin 58:41

You know if you do that there'll be dead air for the next hour and a half

YOU KNOW, IF YOU DO THAT THERE'S GOING TO BE SILENCE FOR THE NEXT HOUR AND A HALF.

C

Chris Harrison 58:47

So if it suddenly gets quiet in here, just let you know we're playing Marcel Marceau's greatest hits album. And what is the end? No, it's what we would play silence for you. But that's trademark and you got to pay royalties for that song. So yeah, there was some guy back in the 60s. It created a song that just it's called silence. And the way it was performed live is some guy would come out standard sit at a grand piano and just sit there with his hands ready to strike for like two minutes and 36 seconds. And then at the end of the time, he would get up. Bow to the audience and leave. That was the song. Silence. Yes. And

M

Merlin 59:35

that was somebody who had done way too much LSD back

C

Chris Harrison 59:39

in the 60s. Now I think it's just cuz he was British. That

M

Merlin 59:42

explains a lot bad.

Ω

59:44

Hey, wait, wait, wait. You got to understand back in the 70s people were buying pet rocks and they were spending big money on pet rocks, mood rings, and invisible dogs. You know the doggy Lee Shouldn't Yeah, I mean,

Ω

1:00:02

what about the 708

Ω

1:00:03

book that came out in the late 50s, early 60s? And it's still popular, and it's still popular. Simon

Ω

1:00:13

the game. Kids, that's what we'll do. Linda

M

Merlin 1:00:20

Carter fly around sitting in an invisible plane. What's your point?

o

1:00:27

His stealth bomber supposed to look like a sparrow on radar?

c

Chris Harrison 1:00:32

Yeah, but unfortunately she got into it and she wasn't invisible. She was the only one she's wearing a cake pan as a bra. That was spray painted with a loop with gold and red. Just flying around sitting down. It's kind of like, I mean, like people just couldn't look up or hot pants and see that hey, this plane. This

M

Merlin 1:00:54

is when my family should have known I was gay. I was the I was the only boy on the block who had a tiara belt and lasso that I made with my own two hands.

o

1:01:08

Oh, Bobby, why do I believe that? Because

M

Merlin 1:01:12

it's true. Were

c

Chris Harrison 1:01:14

you Twister?

M

Merlin 1:01:17

Yeah, but you know with the legs it was a very it sort of turned out looking more like demented egg beater wasn't

c

Chris Harrison 1:01:38

you know, one one thing before we go to the actual papers, and I gotta tell I gotta do a movie review. Oh, and I have to because Bobby's here. It just opened up say it's called Mambo.

italiano saw it. It is hilarious. Yes. It's playing at the Angelika and one of the landmark Greenway three freeway. Basically think My Big Fat Greek Wedding. But Italian? Yes. And Jane and gay. Oh my gorgeous,

♂ 1:02:09

gorgeous Italian boys.

♂ 1:02:11

I love Italian sausage. is

♂ 1:02:23

I like to for the record say I not say that.

c Chris Harrison 1:02:29

So is a very entertaining movie. It's it's very hilarious. That

M Merlin 1:02:33

means since I'm the resident Sicilian in the room,

♂ 1:02:37

there was even some Sicilians to in the movie, yeah. But

c Chris Harrison 1:02:42

you see this, this slice of Italian life where basically the whole here's the premise the story. This couple comes over from Italy, and they decided to come to the new world. And they they landed in Canada, they thought they're coming to America, they went to Canada. And then they ended up they ended up theirs to Canada's and they ended up in Montreal. So Italians in Montreal, and they've kind of got their little, little Italy section, and the traditional Italian family. You live with your parents until you're either married or dead. out of the house. Well, Angela decided he was going to move out on his own and move to a real apartment. It gets burgled. And the cop who shows up is his best friend from high school who, who kind of ignored him because Angelo was the typical. Everyone knew he was a fag. Even though he wasn't the fact back then. He was the one who was taunted and teased and his friends couldn't hang out with him because duct tape to the lockers Yes, that was

M

Merlin 1:03:55

so basically that sci fi convinced

C

Chris Harrison 1:04:01

couple by a couple of years. But basically, they restart their friendship. It gets a little more complicated. And you get this this Italian family dynamic in it. And just the drama you get from Italian family drama. And it is it is very funny. It's it gets a little a little

W

1:04:26

convoluted.

C

Chris Harrison 1:04:27

No at the end it some people may hit a little close to home. It hit me a little close on there, but

W

1:04:34

I don't want to do that guys keep inviting. Yes.

C

Chris Harrison 1:04:36

The camping Caesars. Unfortunately on the nudity scale, you get a couple of topless shots, and thankfully, it's of the men and I swear to God, I swear that one woman was a was a guy. Yeah, I was peek. Pick. You when you see her you'll know it's like okay, I hear but it's a great movie to watch. It's a fun movie. It's hilarious. hilarity ensues. Surprise. It didn't kick us out because our group was getting quite loud laughing.

M

Merlin 1:05:12

Lots people like Beto and Vinny

C

Chris Harrison 1:05:15

they won't care no actually I don't think there was a single veto or Vinay that's scary. Angelo, Nino. Nina Nina being the

M

Merlin 1:05:28

standard. no veto or many which is really the the only in my family there's a my father's name

standard, no voice or name, which is really the only name I can't think of my brother's name was Vito, and my brother one of my brother's names that Vinnie.

 Chris Harrison 1:05:41

Yeah, but it's the the only big name you're gonna find in this Paul Sorvino is a Paul, he plays the father. His real name is Paul Sorvino. I forget what his name is in the movie, but it's well serving. It's one of those movies that is just even with not being Italian. Yeah, it was just it was a funny look at a very tight knit community. And I was already looking forward to seeing it with my one fag hag. Who is Italian. I saw that and I said, Hey, here's a great Italian movie. You want to go see it? And I sent her one of the pictures from the shots. Oh, we're definitely gonna go see it.

1:06:24

Wonder what picture and

 Chris Harrison 1:06:27

now that I've seen it's like we're okay, we're definitely going this is this is too much to keep up. Keep away from her. So we okay, I'm just intrigued here. We're gonna we're gonna hit a little bit of music. And we'll come back and we're going to do the papers. And I don't know who the artist is on this. It's just kind of like these blank CDs and it's got names of songs on it.

1:06:55

And Jimmy specials Yeah.

 Chris Harrison 1:06:58

stab in the dark yeah, there's a there's just a song that's screaming out to me right now. screen here God no, we're not playing that song. It's eight minutes long.

1:07:13

Not long enough for you.

 Chris Harrison 1:07:15

What was the title on that? Xanadu That's disturbing. Oh, well, we're gonna play some of the Xanadu and maybe just put it down in the background a bit. You Olivia Newton John got away from there.

1:07:37

Turn on his mic.

c Chris Harrison 1:07:38

He's not on a mic. That's the downside. He's just standing in the wings yelling on it. That

1:07:45

pretty much in it. Yellows career?

c Chris Harrison 1:07:50

Come on. How many movies? Can you see Jean Kelly on roller skates?

M Merlin 1:07:53

I know, living proof that some musical people should never try movies. Okay,

c Chris Harrison 1:07:59

and one last thing is this. Okay? We may be making fun of that. But how many of us here can sit there and do the arm gestures to Xanadu? Yeah, I'll admit it. You guys. You've gotten used to seeing the movie. I haven't

M Merlin 1:08:11

seen the movie since I was 10. I saw

1:08:13

a clip of it. I

1:08:14

have never seen the movie Xanadu

c Chris Harrison 1:08:16

ever. I've never seen it either. Well, you're young.

M Merlin 1:08:22

Oh, my God is the crappy special effects. Oh.

C Chris Harrison 1:08:28

Anyway, let's see whoever this is. They're swinging Xanadu and we'll see what we get. Yes, let's see, this is what happens when Jimmy's not around. I get to go to all the interesting little songs that don't get replayed. Oh, yes, I do. This was a double shot tribute to Olivia Newton John. The first one was Xanadu, which was a dance mix version of it. I have no idea who the artist is. There's just a thing on here that says sss underscore ceo\_one@yahoo.com There's that and the other one is from the soundtrack of sordid lives in which living John plays a lesbian ex con folk singer a real stretch for her. And that was please don't be gay. by Sharon Alexis COVID It's so much fun. And I have got to go through and make sure we can play this one song because the title of this one cut they have in here is so cute. It's called tally whacker talk. Yeah, basically this this one A guy comes out to his parents by inviting them to a play in Los Angeles that he is in. And it's of course being a gay play. There's full frontal nudity. And so they sit there and they go you can see everything including his tally whacker. Yes including his tally whacker

1:10:23

well I know that word is okay yeah

C Chris Harrison 1:10:24

well there's another salt there's another one on here we can't see we can't do that one yeah

1:10:34

yeah

C Chris Harrison 1:10:37

let's just say if you change it around to a talk about the Middle East affairs it says Shiite talk so, boy,

1:10:48

so we're going to be charged.

 Chris Harrison 1:10:53

So Chris, you

 1:10:54

just made us You just made us a target?

 Chris Harrison 1:10:58

Well, wouldn't be the first time Yeah. Someone besides the clans got

 1:11:04

the CD you just play. It's a special mix, done by the DJ, and E Jays. And it's

 Chris Harrison 1:11:13

Jimmy was here with with checkbook in hand. You know, I've got to have \$6 million by this weekend or God's calling me home. Now. Jimmy was hoping to see Jesus that weekend but he was willing to pay Jesus for him to deal with my name again. It was kind of a revival was a lot of Oh god. Oh god. Joseph. Joseph is

Uh, hello, unfortunately, didn't get the list of everyone smiley, the green eyed devil team in team man, I know I'm forgetting a bunch of names. Unfortunately, I didn't have the list. And we didn't hire me. For some reason, there was no letters out there. In our mailbox. Usually we have a whole stack of them. So we're gonna maybe give these guys No, Jimmy doesn't have them. Oh, so I'm not sure where they're off at. But we do let the employees know that we are thinking of them. And we're glad that they're, they're listening in and hopefully there'll be in a better place when they're able to hear us next time. So let's do this. Let's let's just do this. Interrupted to this point and say that because it's close enough to the top of the hour because your clock doesn't work at all.

 1:19:51

Yeah, he's an enabler. He

 Chris Harrison 1:19:53

brought us chocolate. Jimmy has he doesn't eat chocolate. But he buys it all the time and brings it to the show. When I know Mr. Carper isn't going to be here, I bring in more myself. This is after hours Queer radio with attitude on Pacifica radio for the Gulf Coast. KPFT 90.1 FM, Houston 89.5 Galveston and always on the worldwide web at KPFT dot O R G. And how many tricks can you consume in a night? Excuse me, Twix. Elmer I got 14 bucks in the pocket none.

 1:20:34

Hey, I had three hot dogs in the coke tonight. I feel good right now.

1:20:36

Oh, I have two PSAs. To make to give Service

c Chris Harrison 1:20:41

announced at your age please specify the PSA.

1:20:47

First one, is that here at Pacifica KPFT. We are looking for lab members is that that local advisor

c Chris Harrison 1:20:56

Local Advisory Board, there are elections going to be coming up and you'll be voting for lab officials who will be representing us locally and also eventually be moving on to the new the new Pacifica national board as this corporation Pacifica Foundation, rose and actually becomes the first ever American Broadcasting Corporation that is publicly electing its board of directors. So the vision and where we're going with Pacifica and the programming not just here in Houston, but New York, Washington, Los Angeles and Berkeley. And also any in our affiliates, the people who play some of our programming. Throughout there are it's finally getting a choice where you get a say in what happens at the national board level. And those elections are coming up here very quickly, you can go to KPFT website and KPFT dot o RG and get some more information on if you feel you're qualified to run for office for one of the lab positions. There's also several committees with the local advisory board. Any bit of support you have just just listening to a show and there's a thing on the web that you can go and do a program evaluation. Oh god, I shouldn't have said that for tonight.

1:22:23

Or they could easily come here to stay here for 19 Love it.

c Chris Harrison 1:22:26

Yeah. For 19 Love it during normal business hours and speak with the receptionist and see where your talents can be put to use. And we've also have a fun drive coming up in a couple of weeks. And it's always a great opportunity to come volunteer during the day see the the inner workings, the inner workings. And if you come to if you come and one of the benefits of volunteering during the week, is actually feed you. We kind of get the leftovers if there are any what leftover fanning

M Merlin 1:23:01

find out what we mean when we say there's always two shows going on.

R Roy 1:23:05

Also, I wanted to mention that if you have not registered to vote, please, please do Monday is the deadline. Monday is the cutoff. We have very important elections coming up in November, May for Mayor city council and God knows well troller and the controller and who knows whatever propositions or whatever else are going to stick on their head a

1:23:30

rail, please please please vote for Metro Rail. But I'm a pedestrian and not an idea to Cass.

C Chris Harrison 1:23:38

But now Yep. And if with I'm not sure if you can actually still register by mail, you probably need to go down to the tax assessor's office and fill out fill out your form there and get that information into them so that you can be on the roll.

1:23:54

We used to have a whole stack over here, but I don't know where they are now. But

C Chris Harrison 1:23:58

now it's a little late, I think for that to try and mail because those had to be postmarked early and those those postcards aren't postmarked. They don't go through the the postmark procedures with that, because it's not an actual stamp on there. Go god it's sad that I had to be

1:24:14

received by a certain day and I think yeah, Friday was last Monday is Monday is what I'm seeing for it to be sent out.

C Chris Harrison 1:24:23

So just check just stop off at one of the tax assessor's offices and I'm here to help you with that. So in the meantime, let's go on to the roundtable news and stories that big Roy and Jose and

1:24:38

Okay, we got a we have a sportscaster who has come out. Yeah.

1:24:43

Sportscaster for the Boston Herald came out in one of his columns as being gay. And one in two pro football players. Jerry Emery shocky and one player from the 40 Niners once said that he didn't want faggots on his team, and the NFL didn't punish either one of these guys.

c Chris Harrison 1:25:21

The sad part is if you if you got a player on the 40, Niners that's San Francisco,

1:25:25

yeah. Queer capital of the USA, okay? If you're going

c Chris Harrison 1:25:29

to play on this first San Francisco team, and we're going to make a comment like that, then you deserve to be someone without your helmet was something made of paper mache?

1:25:42

You know, that's one of those things where you kind of fear the brotherhood of pain, you know,

c Chris Harrison 1:25:47

giant electrodes attached to it. And considering the fact you've got Elisa, to say hello to Lou, who came out afterwards, there's supposedly a biography coming out. Now that's written an anonymous and I forget what sport it is, who was a pro sports? bass player, I think is bass, I think was baseball, who said that he's, he's gay. And he doesn't say who he is. But he's currently allegedly still playing. And this was his first way of coming out and is this anonymous memoir.

1:26:20

And I'll say this, that the tired old argument, I don't want to be in the shower. I don't want to be in the same showers and beggars. Well, you know what, again, as everybody says, I'm older than Methuselah. You know, here the station, I remember when the same lousy argument was given about black people, God going into those professional sports, black people, integrating the police department in the fire department, and all of a sudden, I don't want them and then in with the schools while at that time with my children, you know, and I want those kinds of teaching my kids, you know, that

R Roy 1:27:05

there was this disgusting thing. Like, I remember when Jesse Jackson was making a serious run for the presidency back in. Oh, I think his late 80s You're saying that the first thing he's gonna do is paint the white house black. You know, I'm saying it's just like, all this disgusting thing. And you know what? Well, considering

C Chris Harrison 1:27:23

that's why it was painted white. Was it was to cover the burn marks from the War of 1812.

♂ 1:27:31

Thank you very much. No, 100%, right.

C Chris Harrison 1:27:34

Because you were there. Oh, that oh, it was a football player. Actually, this book is called Bloody Sundays, uses a pseudonym Stephen Thompson. It was paid for big bucks to pay to be a tough NFL football player. But many times he feels powerless. I'm not brave. Thompson says I'm godless. Really. It's an active NFL football player who's gay.

♂ 1:28:01

And really, you know, I've run this before, straight men seeing gay man as a threat to their sexuality. There is no threat. Okay, that person is gay, and they respect you as a straight person, and you should return the favor. You know,

R Roy 1:28:21

and actually, a lot of gay guys like myself, do actually seek out straight friends. Because when you have a straight friend, it eliminates all this undercurrent of the sexual thing of, Well, is he hot? Or is he gonna think, you know, what a straight guy doesn't exist? And you can just enjoy the person for themselves and not, you know, their body? You

♂ 1:28:46

know? And the thing is, is that, you know, I think it's gonna take a long time for homosexuality to be accepted. On a level field, because there's so many religious there's so much religious rhetoric involved. And

♂ 1:29:10

you know, what, back in the day of segregation, there was a lot of religious rhetoric to support segregation

1:29:19

in the same way with slavery, which I'm sure you remember with fond memories,

c Chris Harrison 1:29:28

right? Imagine what we say when you're not here.

R Roy 1:29:35

No, see, the thing is that you could almost always go back to the church to find a reason a justifying a justification for bigotry, and hatred,

1:29:47

right. And homophobia.

R Roy 1:29:51

Well, homophobia and hatred. This is covering it all. Because for instance, when the movie greatest story ever told which is now as old as time itself.

1:30:03

Right when that movie came out, did you see it in the race? Right? The race riots that were involved. You know, with that movie was incredible, was incredible. Colors your networks back in the mid 60s 6566 started some experimental black programming on network television. However, they put the Nelson boxes in the couple that put a couple in the black neighborhood, but the majority would go into the white neighborhoods. And they would say, Well, who knows the ratings just weren't there. So we have to pull the show. You know, there's always ways of doing these things. Nelson or Nielsen, Nielsen Nelson, who ever

1:31:00

come on Roy you should know Nielsen.

1:31:03

Dicky Nelson, Neil

C

Chris Harrison 1:31:09

Neil, parish priest used to say to you the old the old Irish Catholic priests needed my son

♂

1:31:21

Mikaze Your mouth is always open.

♂

1:31:24

We also have a another coming out story. This is Ernesto score Sony of Kentucky. Kentucky, used to visit a Democrat from Lexington, Kentucky, the governor signed an anti discrimination bill into law and score Sony came out as a result of this apparently, skirts on he says quote as a gang Kentucky and I was proud of the executive order. Because while I personally may have been fortunate when it comes to job discrimination, either gigs back in time, not in quote. And he was addressing a crowd when he said this. He said that it was an independent personal decision and was not made for political reasons or anything out the reason. And in other words, he did this just for the public to know this isn't gonna get in the way of him doing his job or anything. But it's a step forward. You know, when someone in Kentucky Kingdom out public healing as a result of an executive order,

R

Roy 1:32:38

right. Now, I do want to point out our National Coming Out Day is October 12. It's coming up. And there's all kinds of stuff happening on college campuses and stuff.

C

Chris Harrison 1:32:50

That's gonna be my eighth birthday. Oh, that's I came out on National Coming Out Day years ago.

♂

1:32:56

Now I want people to understand something. When you come out, there's been a, I know that there's been a long drawn out difficult period, before a person actually comes out and says that I'm gay. And, folks, when you do that, please, please, please do not expect your parents to start dancing an Irish jig with bells, you know, and being so happy, oh, my son is gay, my God was gay. They had to come out to you know, once you come out and you let your folks know, then that whole process starts all over again. But for them, because there is a coming out process for parents who admit that they have a gay son or daughter or bisexual or transgendered son or daughter. And it's very difficult. All the all the denial that you went through, they're gonna go through Yeah, you know, and and more so because as a young

person, you don't have anywhere near the pressures on you that your parents will have. Okay, you may have peer pressure in school. We were coming out. But your parents have peer pressure at work, which could financially impact them. Yeah, impact you. So there's an awful lot of, there's an awful lot of working out and don't lose heart. If your parents denounced you right off the bat that that's a bad thing. knee jerk reaction. Reaction. Almost always it happens right off the bat. But stay in there. Be true and let your parents know that because they raised you to trust them and to love them. That is why you were able to come out to them because of the love and trust that they put it a wrench Really, the majority of parents, the overwhelming majority of parents do come around to you. And there's always help with PFLAG. You can always contact PFLAG and 71346

 Chris Harrison 1:35:12  
PFL AG, or PFLAG Houston. dot o RG. There

 1:35:20  
you go. Thank you, Chris. I was looking for. Oh, my thing here for we covered it

 Chris Harrison 1:35:24  
earlier. It's the only way I remember it. I don't remember my name right now, but I remember.

 1:35:32  
It was on that screen a minute ago.

 1:35:37  
Yeah, Chris is surfing the internet for porn while we're doing the show today, half your age.

 1:35:43  
Now, we're gymnasts. Now talking about PFLAG. They're getting ready to do a marriage equity week to counter the Marriage Protection. We

 Roy 1:35:55  
and there's an it's going to be starting out on National Coming Out Day on October 11. Excuse me. I misspoke. Sing October 12, October 11. Okay, and there's going to be a whole bunch of stuff involved in this. Okay. And they're going to be discussing things like both sides of the same sex marriage. Right. And there's going to be messages from Reverend torque Craig Perry, and they're going to have a listing of support resources that will be available to you there's

going to be discussion of civil marriage versus civil union, is there a difference there is a very different big difference, and civil marriage, and freedom of religion, you know, so they're going to be covering a wide top, a wide range of topics. And this is always available to you at the number that Chris just just gave to us. So this is going to be happening nationwide. Coast to coast. You know, it really, it really is something one of the things that they're going to be discussing is how Corey Perry with MCC is getting ready to take the federal government to task in court over marriage. Because if the federal government and if states can and do recognize

1:37:25

a wicked marriage, a Catholic marriage, a Hindu marriage, a Buddhist marriage, well, then they need to start recognizing the same sex marriage in an MCC church. Right because the First Amendment prohibits the government from discrimination of churches.

1:37:40

And the thing is that the MCC is a recognized church. It is a recognized scene. You know, we were discussing this earlier in the next room, you know. Okay, you guys what's going on over there?

Chris Harrison 1:37:57

Nothing. Yeah, nothing. You know, it's one of these few times where we talk about there's a show, there's two shows that go Yeah, and

1:38:05

there's one show going on over there. There's one going on over here. Hey, at least Yeah, if you don't count the one that's going on all at porn that he's looking at over there, we are

Chris Harrison 1:38:17

not looking at porn. The closest we came was we were doing some research on the Sports Studies. We were just hitting because

1:38:26

when you stumbled across the John strap pictures didn't you know

Chris Harrison 1:38:29

they weren't effectively anymore? We're in jockstraps in there No,

1:38:33

they weren't they weren't wearing anything or they know they were there. They were getting ready next to nothing then.

1:38:43

Tight so

1:38:50

only Chris of course Chris could tell you what I look. You can't say that

1:39:00

leprechaun porn.

Chris Harrison 1:39:03

No, no. Who's playing with what Irish bagpipe? To finish,

1:39:16

or, well, actually, we were discussing gay marriages and religion and how

1:39:25

the, you know, the government discriminating the

Chris Harrison 1:39:28

fact that they're used that they are they keep talking Judeo Christian values and the fact they still sanction. Buddhist and Mulligan Yeah,

1:39:38

the thing is that, you know, I don't have a lot to say on this issue because at this point me, Camp marriage has been running into the ground. But it is an issue that we need to look at because what right does the federal government have to say? We control What are we can define what a marriage is? Well,

C

Chris Harrison 1:40:04

if you if you go to what technically the marriage was started for, basically be fruitful American marriage is a contract. It's not a covenant. It's not an institution. It's a device that was created for you to be able to pass on your property. Once you die, that's where marriage came from. So it's a simple contract. It's and that's where basically the state does have the right to go into it, because it's no different than the state writing regulations for you going and purchasing a car, right? Or a gun or any of that stuff. So it's a basic, simple contract. But the problem is, you've got these people who are using religion, who say that basically, their idea of marriage was that you procreate. Well, the reason you procreate is because you're creating the next generation to hand your property to right

♂

1:40:57

and not all marriages are for procreation, no, there are a lot of straight marriages that are couples cannot procreate. They're

C

Chris Harrison 1:41:06

those and in the Catholic Church, those are not considered, they're considered in sin. That's not what marriage is for. That's why you there's no use of contraceptives, the SEC dummies, any of those types of surgical procedure, or even the pill is considered an abomination to marriage, because it interferes with the natural order. And so aren't condoms considered? Yeah, prophylaxis and all sorts of protection in that, because basically, if, if you're not supposed to get pregnant, then the good Lord will intervene.

♂

1:41:47

Fortunate how many children into Queen Victoria have

C

Chris Harrison 1:41:51

been I mean, that's just it's one of the it's the the sad part we see with sex education, when you take it to a religious value. And that's, I mean, right now, we've got

♂

1:42:03

a lot of schools can teach only abstinence.

R

Roy 1:42:07

And the marriage as far as the Catholic Church is concerned, marriage, as we know it in the Catholic church today is a relatively new concept. Originally the church had nothing to do with

Catholic Church today is a relatively new concept. Originally, the church had nothing to do with marriage between a man and a woman, unless that man or woman was from a very wealthy or aristocratic or royal background, common folk, the church really

 Chris Harrison 1:42:39

get involved in that? No, because there was no property to exchange and there was no amount of money to be given to

 1:42:46

No, it was marriages were business arrangements, basically. So

 Chris Harrison 1:42:50

and when it when it became to a point that it was no longer financially feasible. That's where the Anglican Church comes from, you know, because the pope wouldn't granted divorce to Henry the Eighth for the umpteenth million time. So he decided, you know, I kind of still like her, so I'm not going to have her head cut off. Yeah, so I'm gonna go start my own church, and I'm going to be the head of it. And basically, that's, well, that's what you see how marriage, how you can define marriage with religion, when you can just go with straw for your own religion, Judaism.

 1:43:21

The woman brings her dowry, but if the marriage falls apart, she takes it with her. The way the Mormons do is that they are sealed to their wife, not married, but sealed to their wife, so that when they die, they'll be in heaven for eternity with their family.

 Chris Harrison 1:43:42

You know, the Mormon faith, I believe you can even marry the dead. Well,

 1:43:46

or baptize a dead actually. And if you look at it, you can't you know, it's gotten to the point

 1:43:54

where subsets of the Mormon you can have more than one wife. Well,

 Chris Harrison 1:43:58

that's that's kind of made it made it illegal and all that it has been the Let's get off the Mormon talk. Because it was two missionaries at my door a couple of days ago, and I was a good boy and it scares the hell out of me.

1:44:11

You didn't boy, you didn't convert them, did you?

c Chris Harrison 1:44:14

I wanted to see that bump if it's not my Bible, but

M Merlin 1:44:21

saw them come into my door one day, what I saw coming up the staircase to my door and I figured that I should open the door and say hello. You

1:44:33

didn't put a pinnacle and or whatever, a pentagram in front of your house and wandered on fire.

M Merlin 1:44:39

I'm thinking the blue nail polish and the pentacle around my neck was more than enough. Away from my door,

c Chris Harrison 1:44:47

I said I would have had to turn off the birdcage and move a case of beer.
