I've been working on projects in school trying to get semester rolling, but it's actually really good play. I was doing promos for them and they you know, it's a good group group of people. So the plays really good.

00:51

Cool. This one has more of a leather theme, right?

00:54

Yeah, for those guys out there.

00:58

For the there's other people, right?

01:02

There's a bit of a romanticism play.

B

Bobby 01:05

Reason I carry a cat of nine tails.

01:09

And a rib stick.

01:10

So everyone has a pen and paper just write that moment. Go ahead and you know, go to that website. Like I said, just go ahead and go to [WW dot u h.edu](http://WW.dot.u.h.edu). And again, turn the search engine search engine.

02:15

Alright, and what else we got? Today? You gotta had pronounce that one because you heard my pronunciation at break and that wasn't it. That was

02:23

that was quite entertaining. Well, actually, I would love for you to say that again. Today, I will actually first of all, I miss you. I should start with this one. I saw a concert by Fisher Spooner and they are a band from New York, New York City. Classic electro is what they're labeled as. Yeah, it's sort of like this postmodern view on pop culture. Casey Spooner is said in an interview when I went to one of the interviews I've seen that is sort of a experiment of entertainment. And he said that he loved everything about pop music, except the music itself. He likes the promos. The entertainment part the live entertainment, it's actually really good. I mean, really awesome thing to look at pop entertainment. Everything about it is really good except for the music. Personally, I believe that I agree with him on that. So today, they were at Hush. Oh, honey, some club off of age 10 going towards Katy or deer lower there. Yeah, pass those straight suburbia. Yeah, but really cute guys. Oh my goodness. Every guy I looked at was hot. I was like, Oh, he's hot. Apparently I'm going to the wrong clubs. So it might have he might have he might have been just, you know, the Fisher spinner crowd and deep dish crowds. So the concert itself well, the concert itself was really, really shoddy. I didn't I didn't quite enjoy that much. I've seen video clips of their performances at from Toronto. And it was a very powerful show. This was a very mediocre show. I thought production of it. The production of it was okay. The performance KC wasn't showing his follow up. But you know, it was it was okay. It was it was it's a good band. I don't know what happened. But hopefully they'll get better next time they come to Houston cool.

04:27

They have a one of the performers is gay. Right. What?

04:31

I believe so.

04:33

Not to doubt you. Yeah.

04:35

But yeah, and they came out with a new album called Odyssey that came out April 5. So honestly, yes, exactly. Their first their first album number one was was awesome. When I heard the first time my brother gave gave me a copy and bought me a copy and it was it was an eye opener for entertainment was really awesome. But this latest one is influenced by neck bands like New Order, pink fluoride and so forth whereas the last ban was very much 80s electro music cool. So

05:12

to catch them at [www dot Fisher Spooner](http://www.fisherspoon.com) Yes. Calm

05:19

[WW dot Fisher spooner.com](http://www.fisherspoon.com) It's [FIS c h e r SP o n e r.com](http://fisherspoon.com) and their hit song is just let go. And I wish I had a CD with me but I don't want well it

05:37

says on there that you can go to iTunes and you can download it yourself

05:42

or you can go to [rhapsody.com](http://rhapsody.com) I mean I'm sorry [ww.listen.com](http://www.listen.com) and download Rhapsody it's some program that I've been using lately lets you listen to live streams for like, you know, a subscription per month but you know, right it's great. It's a great it's a great deal.

06:00

Gotta get money going back to the artist.

06:02

That's right. I exactly I support the artists and they are sponsored by Capitol Records so the big name yeah WW dark Capitol records.com So on Wednesday excuse me I've string Hey, Casey, come to me Casey all night long. So your voice is a little bit a little off tonight.

06:26

Then it's almost three in the morning. Yes.

06:30

I saw Avenue D over at 1314 California. They aluminum? Yes, exactly. And they gave a awesome performance they gave their heart out I really enjoyed that performance. Did it some of their classic stuff and some really new stuff some really good stuff and that was one of the strongest shows I've seen in Houston so awesome. WWE dot another website I'm a big internet freak. WWE dot Avenue d.com

07:03

That's where I grew up Avenue D No kidding.

07:07

Oh really? You know I was in New York I was like where's Avenue D and everyone looked at me there is no Avenue D I'm like no no no no, the band The two girls from like, okay, whatever so

07:20

but my dad grew up on Avenue Oh, you had to go a block to pee but

07:28

my brother's one loves loves this type of jokes gets a kick out of them. Yeah. So

07:35

to sum it up Death Watch has the Death Watch is being put on by

07:42

the unheard voices at the University of Houston and we're doing more shows so you probably see my face in the fall semester we're probably going to do another show or two I'm not quite sure we're in negotiations with the the board and see what they say

Chris Harrison 07:58

but on top of just showing the face go for more can we go for more? We do this show

08:05

oh I love to talk on the radio close

08:15

watch out Jimmy's gonna come to the door

Chris Harrison 08:18

He's already here and got his wallet out or is that only a one one show one per show event well, did you get a receipt for Stanley hey

Bobby 08:35

he lives on a fixed income a bucks about all he can afford.

08:38

We don't have that webcam up yet. Praise God. That's definitely have radio faces. So

Jimmy Carper 08:51

he has no idea how much of his money goes to charity.

Chris Harrison 08:56

I didn't know your name was chair. I know it's a stage name for some people but a whole new suite chaired.

09:12

And all you guys who love Mediterranean food. I just checked out a Latin's off of the corner of Montrose and Westheimer. A new local

09:20

GLBT in the heart of Montrose. Oh, in the Mediterranean restaurant there on Westheimer and Montrose

09:27

and it's beautiful. Yes, it is. Oh,

09:30

my goodness. And that's just a taste of the taste of the food. I mean, the food itself was like amazing. I walked in. I met a big middle eastern food fan, but this very very tasteful bite. So it's like, every time I took a bite, I was like, This is awesome. So they're open till three apparently on Fridays and Saturdays, but they closed a little early tonight but I was lucky to be the last customer. I didn't want to go across the street to talk about PICC line. I was like oh I'm not a fan of lions, but I am a fan of good food.

10:04

I'm not allowed in Taco Cabana anymore.

10:06

Really? What happened?

10:08

I pointed out to the price I'm gonna say all fair

Chris Harrison 10:13

point. Yes, yes. You know, we would like to be able to stay on air

10:19

the unsanitary ways of processing food. They haven't. Yeah, but they were

 Chris Harrison 10:26

trying to give you that authentic South of the Border flavor.

 10:29

Well, they're based out of San Antonio. It's my hometown. So watch out. I love San Antonio. My hometown is awesome. You know, like all the Mexican restaurants here. I've gone to so many and I do not like Mexican food. I like Mexican food. For authentic for those for those of you out there I'm actually Mexican American but I'm from San Antonio, which is a different type of Mexican and the Tex Mex flavors so much better in my opinion. They have different you know, spices they use and blah blah blah. But

 Chris Harrison 11:05

there's some guys in this part of the studio that do enjoy eating Mexican every once in a while. But um

 11:10

but up up is right what about Mexican Americans? He's got a

 11:17

I've got the platter

 Chris Harrison 11:24

just think of me as ponchos is all you can eat buffet.

 11:29

Just ask for more.

 11:31

Jimmy Carper 12:55

Well, I don't know. What's the CD? Oh, no. I have one underlined for that.

Chris Harrison 13:01

I love the title of one of these. Number 13 Number 13

Jimmy Carper 13:05

is one that we're not ever going to tell you the title we can say that No we can't. We can't

13:16

Alright, let me guess.

Chris Harrison 13:20

All it has to do with a yellow hanky in your left pocket

Jimmy Carper 13:23

we can say pissed off we can't say piston

Chris Harrison 13:27

was not passed on it says this on me. Not just on.

13:31

Well,

Chris Harrison 13:33

okay, who cares? I just said it anyway. Go play

13:35

that was Lee's goodbyes.

Chris Harrison 13:48

That was scot free with a another day of cruelty. Like it was some of the other songs that CDs ever gonna find another one he only underlined one. I'm not afraid of those words.

Jimmy Carper 14:01

Yeah. But you know, it's just

14:11

it's relative.

Chris Harrison 14:14

When queers become rock stars,

14:16

it is time for the table. Yes.

Chris Harrison 14:21

Oh, did anyone bring in the letter?

Bobby 14:23

What letter left her I didn't know there was one. There's a letter. Nobody told me about the letter. The children

Chris Harrison 14:30

never do their homework. It's in the middle of the you know the dog. In the middle of the table.

14:35

 14:33  
The dog ate it.

 Bobby 14:36  
Well, I will. Nobody told me there was a letter.

 Chris Harrison 14:40  
Here's the mail. Well, yeah, you're those of you who know what song I was just thinking You're a pervert because you're watching children's programming and sorry, it's not the dog. It's the dogs master.

 Jimmy Carper 14:54  
Before we start, I think Matt has an announcement to make.

 Chris Harrison 14:59  
I'm sorry there. has a KPFT policy about bringing programmers in from other shows to do your show?

 Jimmy Carper 15:04  
Well, there's no show coming on. Monday mornings, you got to get closer to the mic.

 15:11  
Hey mean Monday mornings when? Monday more every Monday morning from four to 6am. We have the letter

 Chris Harrison 15:19  
I took over the pack give me the letter because I at least glanced at I took over the pet Rosie

 15:24  
Knight song slips tears.

 15:25

Oh, I was I never did send him the poem. Okay, that's yeah, I feel this call

15:33

the unknown music.

Jimmy Carper 15:35

And is it? Yeah. What do you got lined up for your first show?

Chris Harrison 15:40

All right. I know for sure. Oh, my God,

15:43

where were you? I was. He was going to bed.

Bobby 15:46

Yes. He was going to going to bed.

Jimmy Carper 15:56

Yeah. Okay, it's your second show. Hopefully. Monday morning. Cool. Okay, we have a letter from ticker.

Chris Harrison 16:12

This is from April 28. Let me start by saying how shocked I still feel about the news of the likely doubt now definite, upcoming changes with the show. It took about 45 minutes, and I missed the first five minutes or so. But I managed to get my antenna situated so I could pick up the station this weekend. I'm so glad that I did. But yes, it was a great show. But also glad I caught the show to see the know about Friday night to see if the show had moved. Now we have we have now. He says there's a good thing about it because this way, don't have to get businesses on Sunday. So he gets to sleep and he gets to sleep in a little bit for that. He can also start going to church and be awake enough to watch Desperate Housewives and Grey's Anatomy. Both most of us in his humble opinion.

17:04

I like Grey's Anatomy. Yeah

Like Grey's Anatomy. Yeah.

 Chris Harrison 17:06

I gotta admit, I found out about Grey's Anatomy first when I saw the cute intern. Yeah, they're not the cocky one. Not the cocky one. The shy, geeky one. The Hobbit. The Hobbit? One, you know which the geeky just but he was cute. Yeah, it's one of the hobbits. I saw him a couple of months ago on law and order. So

 17:38

now he's on Grey's Anatomy. be brand new.

 Chris Harrison 17:42

We'll find out here.

 Bobby 17:44

There. One of the hobbits is on Lhasa. Yeah, yeah.

 17:49

So many habits.

 Chris Harrison 17:50

Okay. Okay, now in your world focus. The only way we get this thing to focus if I throw forward on you. That said, I'm pissed. Not at you guys. I'm pissed. It pisses me off that after hours is being robbed of an hour.

 18:12

I don't even want to go there.

 18:16

I do. I'll be right back.

 Chris Harrison 18:18

... ..

That's right. We need a cub reporter. Now, if Jimmy and Chris needed to shorten the show, for personal reasons, I'd understand No, we didn't. That's that's what happened. He goes on a lot. We're gonna I'm going to make an a copy of this letter. And I think I'm hand delivering it to Ernesto. I don't get a truly don't understand, I find myself hoping that I was wrong about it being a money issue. I know it's a generalization, the GLBT community has a lot of throwaway money. But advertisers target us for a reason. I don't see how anyone in the community who can come up with two lousy bucks a month, can excuse for not giving, even if they've never listened to the show themselves. Well, there's a lot of organizations in our community that could use two bucks a month and don't get it. There's no what all will be cut besides Dean Becker. And we're going to miss his talks a lot. To be honest, right now. We're not looking at like we're going to be losing much. We're going to try and fall back and regroup and figure out what we're going on that part. We're gonna

 Jimmy Carper 19:29

be bringing all of the segments that you've come to know and love. They'll just be a little bit shorter. We're going to tighten it up and maybe play a little less music is good. We'll see how it goes. Titus.

 19:42

How are you tightening up this loose grip?

 Chris Harrison 19:46

We're having cables on Friday on Thursdays.

 Jimmy Carper 19:50

Just been buying some really super large builders.

 19:56

How large how large are we talking? Here? Yeah, yeah, he said Those

 20:02

words you can't say

 20:04

I have not won

20:06

five words we can't say

Bobby 20:08

seven but who's counting? Well, you know since the Republicans got an office

20:17

to get rid of awfully long lead Yeah, you did I read it

Chris Harrison 20:23

willingly so we're gonna make sure we get a copy of that to the powers that be? Definitely I found awesome. offspring for the money to copy that one. Vincent. If not I'll go hire a monkey if you've

Bobby 20:37

got the money for it

Chris Harrison 20:39

I'll find the ones that I'll sell smiling on the street corner to get money for that.

20:46

Bar for that keeping busy. So are here,

Chris Harrison 20:51

do it twice, I'll get four bits or they

20:52

must have not seen the mansion. We went to the talking. Let's see.

Chris Harrison 20:56

Okay, hold on. I'm answering this one question for them.

21:01

For the MVP that were out there to ask for a program scheduling. We're getting a new for the MVP that's rolled in. They're asking for the program scheduling and we're waiting for the new program scheduling to get up and as soon as it does, we'll get it I'll get it to you. I got the stamp ready? Well, there's a whole there's a whole stack of them out there. But they're mine. I have to sit there and enlarge and if so my now to be

Chris Harrison 21:18

honest, everything nothing is finalized either. Hey, v1 foreplay requires no clothing. Okay, well, we're still getting there. Don't give him any

21:30

like It's like mature died. Everybody's punching each other.

Chris Harrison 21:33

Okay. For those of you who are saying Grey's Anatomy know that that guy on there was not there was not a hobbit he's only done guest appearances and a couple of shows. So but the TR night ah, the cute, geeky boy from

21:48

so he is a hobbit? No, it was not.

21:50

No.

Chris Harrison 21:54

Grey's Anatomy, a series called Charlie Lawrence, a movie called gar mento and guest appearances on Frasier Law and Order Criminal Intent which is where I saw him on and CSI.

Bobby 22:08

I know about hobbits I'm only a foot and a half taller than one

22:14

tall blonde everybody only a foot

Chris Harrison 22:17

Okay, let's see here. Let's go to the greatest source of information. The daily rock game gay sperm need not apply. This article was submitted from CNN by gargle every morning

22:42

they're making a mouthwash now.

Chris Harrison 22:45

I guess if you can get it to be minty fresh. Enough conversations in the background. to the dismay of gay rights activist. The feud. Food and Drug Administration is about to implement new rules, recommending that any man who is engaged in homosexual sex in the previous five years be barred from serving as an anonymous sperm donor. The FDA has rejected calls to scrap the provision insisting that gay men collectively pose a higher than average risk of carrying the AIDS virus.

23:18

Think about how many people would have to come out of denial for them to actually be real about that.

Jimmy Carper 23:25

It's already that way. With donating blood if you've had, yeah, if you're a male who has had sex with another male since 1978, since 1978, even one time you cannot, you cannot donate blood. Well, it's just

23:41

the same as a woman, you know, you can catch the same diseases from a woman as a man, but there's no restrictions on women, but that'll make any sense. That's like, also conflict with yourself and like, you know, taking gay activists rights and like violating them. Just like saying, you know, I'm straight and I can't donate blood to a gay person.

23:50

23:59

Speaking as a woman on that,

24:02

hello, why because you had a tattoo is such bullshit.

24:11

Probably one of the seven words. Well, half a bit.

24:16

It's a hepatitis. Yeah, it's it's more of hepatitis. If you're worried about an HIV, and for a while there was a period of time that you weren't allowed after you have the tattoo to donate blood. And now I'm hearing more and more that it's like, you just can't if you have a tattoo, which if you look at the Generation X, Y and Z folks that like there's no

24:42

one there's no one you know,

24:44

one, my brother doesn't have a tattoo and I keep telling him I'm like, you have to go give blood

Jimmy Carper 24:49

right when it comes down to you know, there's nobody can is able to donate blood and maybe it's all changed the rule.

24:56

Well, I I was also told that I could never donate because of They how close in proximity it is to the elbow vein in the middle of the elbow.

25:08

Well just think how many people can't donate blood and how many people do have tattoos? I mean, just the tattoo myself. Yeah, I'm covering my back. So I mean, like most of the people in the room have tattoos. I mean, that eliminates I think,

**C** Chris Harrison 25:20

no offense, Bobby. I think you're disqualified and a couple other options besides just the tattoo. Oh, this is true. Everyone know you're listening to the roundtable discussion on after hours queer radio with attitude here and listener sponsor, commercial free Pacifica radio for the Gulf Coast. KPFT 90.1 FM, Houston, 89.5 Galveston and always on the World Wide Web and KPFT dot o RG.

 25:37

And on our new times, Saturday mornings at 1am. Stacy, you feel like showing off your piercings? No. i Okay.

 25:49

Thanks for asking.

 25:53

In terms of the Cooper, that rule too, because I was reading an article about the you know, and I sort of knew it was that it was mostly women in Africa, it's mostly women that have AIDS. And that there's this big problem they have with Virgin baby rapes and Virgin rapes. It's incredible, because the witch doctors and stuff have been telling them that if you have sex with a virgin, it will cure your age. And so they've been raping babies. And actually, in Victorian times, it happened, they did the same thing that they would have, like mentally disabled virgins in Victoria and whorehouses, because they believe that would cure serious syphilis. And the similar things happening in Africa right now. So it's this whole awful situation. And but anyway, so So at the spread of AIDS has really, really affected women much more than men and and a lot of ways over there.

 26:52

I know, a couple years. It's still accurate. But a couple years ago, the CDC released that the largest population in America was African American women, was infected with HIV AIDS, newly infected, newly newly infected case.

**B** Bobby 27:08

And Africa is just being decimated yellow. Yep.

**C** Chris Harrison 27:14

I mean, we talked a couple years ago, we send an email out to the American Red Cross and

Houston blood bank. And I remember the Red Cross responded back, saying that they're looking at some point of maybe changing the guidelines for blood donation to if you're abstinent for one year, but then again, also have a look at it. The only thing used to determine it is your word. Yeah. Yeah. So yeah.

27:40

Well, that's what I'm talking about people coming out of denial about whether they'd have actually had sex with a man or not. And then they

27:45

tested blood anyway.

Chris Harrison 27:47

Yeah, we'll see. But yeah, I mean,

27:50

doesn't make any sense. If we weren't too busy wasting our money, you know, with the Saddam's playground over there, we probably have a little bit more money to throw around to spend on awareness over in that control. Yeah.

28:05

Because they don't have the funds, like we do just, you know, throw money out there. Like we could walk into the clinic and get free condoms. They don't have that, or they don't have the option that they have to pay for it. And

28:16

so a lot of it boils down to culture and belief systems. That's exactly so just strictly education doesn't work. Because if you go in and you educate and you, like, for example, they're giving vaccines to children over there, and tribal leaders will walk in and cut the arms off of the children who've had the vaccines because they don't, they don't understand that it's medicine, they think that they've been infected with something. So it takes a whole lot more than just

28:44

was like trying to change a whole person's mind by doing something like that, trying to explain to them that this is good for you. And they're like, used to the old ways, and they're just like, No, no, no, this way is always work. We're gonna stay this way. And that's just, you know, we

just have to deal with that and just hope some people take it and the others don't.

29:00

Well, the more people that understand and that you can educate, the better. I mean, you say you mean you protect you protect or save one person from, you know, a fate like that. That's where these have

29:10

to turn. Right. Right, exactly.

Chris Harrison 29:14

Now that I was trying, I was looking on the FDA website trying to find what they they say and donating guidelines. Well, I don't think they do blood donation. It's just the gay sperm and I can't find anything there it

Bobby 29:28

is. And, you know, we really do I have to understand that cultural things play such a huge part. I mean, the Catholic Church I before I was pagan, I was Catholic. Not coincidence. Not that big a change, but you know, that's what they but they would, somebody needs to drag them kicking and screaming out of the 15th century

29:55

ain't gonna happen with this new pump.

Chris Harrison 29:57

Well, please use a driving condition to drive a Volkswagen Golf

Bobby 30:00

Finding these guys. I mean, these are the people who don't want to deal with the idea of contraception because it is stopping procreation. And, and but are they going to raise those children? Are they going to? How what is their grand plan for stopping the spread of a

Chris Harrison 30:21

majority of religions? Let's I mean, I'm gonna be completely honest and let me tell someone,

the majority of religions out there, care about the child up until birth and don't care until you can start paying your type. Yeah, in that in between period. The only time they want to deal with you is if it's in the cloakroom

B

Bobby 30:39

and as far as the Catholic Church, as far as the Catholic, as you know, since they just elected, you know, Pope Palpatine the first anybody take a good look at the guy

⦿

30:54

St. Louis.

⦿

30:56

My car and Volkswagen bug for \$150,000 Volkswagen Bug, I'm just thinking to myself, Hey, I could buy one of those here for

C

Chris Harrison 31:04

now wasn't a bug. It was a golf gold. And he doesn't have a here's the funny thing. He doesn't have a driver's license. The bottom

⦿

31:11

\$1,000 just turning around and selling it for more.

B

Bobby 31:14

Has anybody noticed that they didn't have him in a popemobile the first time they let him out. He's only six years younger than the guy who just died. They figured he ain't gonna be around long anyhow.

⦿

31:27

You know, you're talking about gay sperm pontiffs. I think there's I just think it's funny, the whole idea that there's there's such a thing as gay sperm. I mean, I thought sperm was burned. But the identifiable gay sperm is like really hilarious.

C

Chris Harrison 31:45

It's either sachets of the fallonian tube or you know if you're trying to insert it just crawls out

its other sides of the lampiran tube, or you know, if you're trying to insert it just crawls out and tries

31:54

a whole humorous look at the whole Catholics and their beliefs and it just was it Monty Python's the meaning of life. Great. Movie. I watched it. Anybody taught at Walmart and I had to have it?

32:10

Yeah. Wouldn't that constitute if they don't want gay sperm, then they're agreeing that the its genetic, which is not what they're wanting to agree to? Yeah,

Bobby 32:20

they don't want to admit that.

32:21

They don't want this firm from gay men for the HIV factor. They're not talking at Oh, it's just

32:27

a it's just a weird name they gave it and which I think is funny. I mean, just the implications of the name are funny. Okay. Hey,

Chris Harrison 32:34

here's the way it works. This is not scientific. Here's a quote from Lila Travon, director of a clinic in Alameda, California that seeks gay sperm donors. Under the rules. A heterosexual man who had unprotected sex with an HIV positive prostitute would be okay as a donor one year later, but a gay man living in a monogamous same sex relationship is not okay. Unless he's been celibate for five years.

33:03

Sounds pretty arbitrary to me.

Bobby 33:07

So I repeat, never underestimate the power of

33:11

being a female prostitute. Where does that leave us? Away from confusing

Chris Harrison 33:16

you.

Bobby 33:17

Never underestimate the power of three things in the modern world love hate and so bad. Well, others unfortunately, stupid is the people running thing or if ignorance

33:29

is bliss, we've got a lot of happy people.

Chris Harrison 33:34

This show is freaking Disney World.

Bobby 33:38

So Fantasia,

33:42

so evidently, Ignorance isn't bliss because there's not a whole lot of happy people running around. There's just

33:47

a lot of stupid people. Okay everybody's doing very good. Excellent. Okay, I

33:56

can see

Chris Harrison 33:59

I've got another cutesy

B

Bobby 34:00

and the great majority of those Republicans.

C

Chris Harrison 34:02

I got another juicy story I'm going to throw out here for Rainbow who usually pops in every once in a while. Out of Centralia, Washington police received a report that six flamingo pink flamingo yard ornaments were kidnapped. The victim received a note from kidnappers demanding a ransom of 10 candy bars be left in the mailbox otherwise the note says pink heads will roll

o

34:28

child kidnappers

C

Chris Harrison 34:30

if rainbow was out there I think rainbow flamingos

o

34:36

it was already dead I can't say his name would steal the I guess the the baby Jesus off of like to cases of Heineken be left at the corner of the

o

34:56

foot of the church and replace it with a six pack of Heineken.

o

34:59

I got a better one. As we went through a few years ago we went through Christmas cheer and neighboring the richer community and still the Nativity baby Jesus. We take it to some of our punk rock friends at numbers who painted it and desecrated it quite nicely and then we returned it on Easter drove a mohawk

o

35:19

took a few days some piercing

35:21

true story so well this

35:23

is oh six my uncle's like you know older the VAT take me out six years old. Go get the cheeses

**Bobby** 35:28

stupid people yeah my suddenly reminded of a story from back home about a certain anatomically correct bowl. What they used to do to that correct part with every holiday.

35:42

Those were the hay days.

**Bobby** 35:44

Can you imagine what happened on Christmas to that bulls? Yeah. Anyhow, the circumcision? No, one was red and one was green. Say About blue on St. Patrick's Day they

36:04

were both that bowl of Christmas cheer

**Bobby** 36:11

pink on Friday,

36:13

was it oh well off. Well, it's

36:15

always pink.

**Bobby** 36:18

 Bobby 36:18  
Not on a bronze bullets news.

 36:22  
To get the heifer there

 Bobby 36:28  
any other good stuff on the daily right there and

 Chris Harrison 36:33  
I've gone right to Fred Phelps. Yeah.

 36:42  
He's boring at this point. He says the Pope is he's kind of getting his that his routine is getting a little focus in hell. It's been shocking. We're in hell.

 Chris Harrison 36:52  
And the Pope. The Pope's inhale.

 Bobby 36:54  
I think he means the farmer. Oh, he said one. He's so

 36:58  
predictable. Fred's predictable is would that be? Good material? Here's one

 Bobby 37:10  
What a waste of DNA is Fred Phelps. Well,

 Chris Harrison 37:14  
don't worry. I mean, well,

37:15

I think it'd be more, you know, sperm the DNA.

Chris Harrison 37:24

He'll be Fred Phelps. We'll be celebrating. We'll be celebrating Pope John Paul's second full month in hell, my picketing cathedral and other satellite whorehouses masquerading as churches in San Francisco, California. I just love how he talks about

Bobby 37:41

some of the living proof of somebody who has taken a belief says

37:45

there's a side of your house in California. Oh, sorry. I definitely got my attention on wasted more like I was like, I've got some money.

Chris Harrison 37:55

I was waiting for the musical does it start? There's a satisfied whorehouse? Where's Marvin Ziggler when do you need

38:07

where he's at Harold's in the heights. Here's here's

38:15

rightness in the Catholic Church believe figuring out

Bobby 38:17

the latest slide and the ice machine is.

Chris Harrison 38:19

Now here. Here's one thing I think the Vatican. There's one thing I can't understand about Freddie here. The pope? No. He's not protesting any pride parades. He goes on vacation. He's last ones June 2020. Take three. Jun 12 is his last event in June. And then see, he's off until July

2. And basically he's just going after churches. Oh, high school graduation. He's protesting a high school graduation. Maybe

B

Bobby 38:56

they finally figured out that. Even if they do protest that pride parades. Just because we're fags we still outnumber them several 100 to one. It could

39:08

be too because they have too much fun with him. At this point. Like I said, he's so predictable. And so like, I hope not to be ridiculous. He's probably a source of a whole lot of fun for people a gay Gay, gay pride parade. I mean, a lot

B

Bobby 39:22

of high school live living proof that he knows how to pick his battles is he leaves before the parade actually starts.

C

Chris Harrison 39:32

He's protesting Palmer High School in Colorado Springs. Joseph esterbrook In Massachusetts, million women in it. They had another one in Minneapolis. It's been around. Yeah.

B

Bobby 39:48

That's amazing. Well, it's not

C

Chris Harrison 39:49

it's not exactly him. You know, he's had machinery. He's sending his inbreds

39:55

machinery is inbreds his cousins

C

Chris Harrison 39:57

Yeah, I'm you know, I'm you know, Sorry, we missed him the last time he was here. I've seen him back, Fred, if you're listening,

40:05

I'll speak and I'll,

Chris Harrison 40:06

I'll bump. Come on the show be a part of the roundtable. Freddie.

Bobby 40:11

And I'm sorry. For me, the man is automatically full of it. And you know it because his website says two words that should not be next to each other ever. God hates what? Oh, sure. Yeah, his website is God hates fags.com.

40:33

Remember you just stupid.

Bobby 40:36

Those are two words that should never be next to each other. Okay? What's your belief system is

40:41

pure anything Muslim? Anything? God doesn't hate anybody. You never see the word hate and anything? Oh, my

40:47

friend, my little friend here had quite speaking of cousins. All right, there are more and more states are legalizing you know, sex relations with cousins when they can't legalize gay marriage or, you know, sharing of, you know, insurance benefits, things like that.

41:05

That's great that it's real. You know,

41:06

Billy, Billy, Billy Gene can you know make love to Joe Bob, but you know, we can't wear a ring. Yeah, right. Makes a lot of sense. I just say,

Yeah, right. Makes a lot of sense. I just say,

41:15

just brew home.

41:17

Right? Doesn't work. But

41:19

only in what was it Canada, Vermont,

41:23

Massachusetts, back, you're married.

41:26

They don't acknowledge it because they weren't acknowledged. You can't even get in, you can't even get in under. If you go over to candidate get married, you can't come back at the same. Like, if you're a married couple, you fill out one form to come back and says you're married, blah, blah, blah. And

41:43

it's all just say it as many as many as gay people we have in Houston and Texas, we should like, try to make a step towards it. But the only problem that's messing us up is that bush Bush was the governor. And he's like,

41:58

Oh, God, I'm Terry, forgetting his name, Brian Scott Scott, who's on the show quite often has been, you know, political activist for quite a number of years. And obviously, one of the Yeah, we miss you. One of the things that he's really sort of on top of lately and kind of upset about is the fact that there is so much political apathy in the gay community that they're everybody sided God in such an assimilationist you know, direction that they're all worried about whether they have the right Abercrombie, whatever the thing on and that they're they've they've sort of been handed a lot of freedom on a silver platter. And so they're extremely complacent and extremely apathetic politically, because they don't realize what they could lose. And I think that's one reason why stereotype like you were talking about in terms of Bollywood and

42:53

ask what Stonewall and half the people there can't tell you what it is, right? I mean, they can't tell you the last 20 years of our movement, right. And that's why the black community back in the 60s because they all joined together and pushed as one big unit and we just seem, I mean, even in Houston.

43:13

I have to say, though, it's not gonna be just gay people to push, you're also gonna have the lesbians on your side, it'd be as a straight guy. I also support y'all because, you know, I know a lot of gay people and my friends told me straight guy here number 100%. You know, I see the rainbow flag and, you know,

43:40

people that help us push more, right, exactly.

43:43

I do I push more people like, I hate that word. And I'm like, why?

43:48

Back around here?

43:52

Somebody wants to go.

43:55

I mean, if you're happy that way, fine, be how you are. But I'm happy with a woman. So that's how I'm gonna be now if I was happy with a man. Fine. I'm happy with the man. Leave me alone. Right, exactly. But I think that's

44:06

that. That's what it's going to take as more people just going, who cares?

44:10

44:10

But that's the problem. People go, why do y'all do it? And the only thing that comes to my hand, this is what I say about everything. Why do y'all do this? Why do you do that? And the only thing pops to my head is cuz I can that's all I say to everything. Why don't you drive that car and blow the motor? Because I can? Why don't you jump off a bridge? Because I can. That's all I say about everything. Why do you do this? Because I can that's the end of discussion right there. There ain't nothing they can say about it.

B

Bobby 44:33

say about it, but still wouldn't make any sense. Since the rest of us you know, you've got people I mean, but he was you know, he kind of hit it at the apathy is people feel comfortable. Hmm. Why? Other people I like to people, people feel comfortable people suddenly feel like they can be as out as they want to be. And and And that means that they have all the rights in the world. Well guess why? Just because we can sit in a place like what used to be Crossroads what used to be Lobos and is now Hollywood cafe, the pleasure and all that place, you know, before closed, they feel they feel comfortable. I mean, they don't know, they also don't understand that there was a point in history where a gay car, there was no such thing as a gay coffee shop. You could not sit, you could not hold hands with another man

45:29

have gotten into now. Now we all could walk down the street, dance kids, and nothing will have lots of

45:45

high schools name out there. Anything over 80% My high school professional went to was either gay or bisexual. And you know what? It when I first went there, the year I left a gay person. And then the year I left it just like change it went, right. And then next we could all walk into the school and these two guys walking down the hall holding hands. Things like that.

B

Bobby 46:09

But her main thing for all that openness, we still have people getting their heads caved in on the streets. Yeah. And a wonderful

46:20

article on in the third fourth page of the Houston voice this week about that in Amsterdam, in the gay network

B

Bobby 46:28

. . . . .

in Amsterdam, which arguably has one of the most open, which actually systems in the world,

46:34

same sex marriage.

**Bobby** 46:37

I mean, and they're getting and somebody gets bashed in Amsterdam. I mean, I had a friend who went to New Orleans, you know, he was gay. And he's also Pakistani. And, you know, when when they may see his face, with his and his, with his contacts in you know, when epithets of both his orientation and his, you know, ethnicity popped out of their mouths, where was that openness that were that were so

**Chris Harrison** 47:14

because I want to take a music break just to kind of regroup for a second here. I got to hear what I just played. And we may end up playing this on the air. So we're gonna take a step out for a moment. If you guys wanna come in and watch this with me. And we may be back we'll be back we'll be back in just a moment. And this is after hours quivery with attitude Super Eight come shot here we're gonna go a little bit of religion in us here. There's a porn star shining down on me

47:44

some times I feel this go raged

**Chris Harrison** 47:55

Alright, that was a double shot of Super Eight come shot there's a porn star shining down on me. Followed by Loverboy and the radio edit I guess I need to turn off your mic because you're that's probably where that phone is it sitting in here like belongs in that room Ah, we're back what the? Let's see the reason for we went to the music break I watched this was watching this video because we talked about I went to God hates fags.com

48:37

Is there another headset or headphones anywhere?

**Chris Harrison** 48:40

The trunk of my car by that set for service for eight but the video was a bit late. No one's listening anyway, so I saw in the other room. Ah no one in there. What it was is I went to God

hates facts.com And there was a new link to a new website on there called smell the brimstone.com and it features a video that starts a video cartoon very Southpark ish like a flash cartoon. Yeah, but it was a Windows Media Player. Starts off with pictures of the Twin Towers and an airplane being flown into them. People falling out of the buildings wearing rainbow shirts. Mike Michael judge down at the bar. I mean it was I the first time I watched it I was almost a real I was doing it with cat with the captions that that play those words for you.

49:45

I thought it was Southpark at first and you know I sell termination. I think they've been infiltrated because it's such a parody that I couldn't take it seriously for a second. The Washington is funny. I I looked it up Yeah, the web build dreaded No, no, it

Chris Harrison 50:03

No, no, no. The website is owned. This smell the brimstone.com is owned by Steve drain is the owner of this in Topeka, Kansas, which is where Fred is based. Steve drain is a filmmaker who did the movie Fred the movie, which is a documentary about Fred Phelps, basically giving his side of the story to why God Hates Fags. So what you saw was sanctioned was Westboro wasn't someone hacking us? So it was a legitimate movie. This was a legitimate movie. And basically, you know, Fred doesn't have many fans. Because in here, he makes fun of Billy Graham, Jerry Falwell, Pope John Paul, the second George W. Bush, George HW Bush, Clinton, the New York firefighters. There's a scene in there with a show for New York fire as his NY and FDA, the New

51:09

York firefighters. Why the New York firefighters, they're there to just do their job. You know, they dad job that to clean the mess and put out the fires and all that and why are they targeting them out of all of them?

Chris Harrison 51:20

That's part of what they have on here. I don't know if that's what I'm

51:24

saying. It's like such a disconnect from where any kind of reality whatsoever. It's almost like an anarchistic or something rather than kind of, you know, pretty.

Bobby 51:34

Pretty soon the only thing he's gonna you know, if he keeps talking, he's gonna start sound like he's the only person going to heaven.

51:46

But that's probably what he thinks. But

Bobby 51:49

pretty much Valley unaided everybody else on the planet,

Chris Harrison 51:52

I wouldn't, I wouldn't have played it. There's nothing, there's no language on there. That can't be played on radio. Unfortunately, there's too many visual parts to the video. That makes it radio prohibitive. Unless I sit here and you know, do description for the visually impaired and, and tell you what's going on on screen.

52:15

Stevie Wonder just that did that with his music video. Yeah, I filmed a music video with a guide describing all the visuals that you would see,

Chris Harrison 52:25

I'd tell you this group a group of people together, download it once and watch it or pass it around on CD. So he doesn't get a bunch of hits on this. So he thinks he's actually doing something good. But this

52:38

or everybody log in at the same time and crash him

Chris Harrison 52:41

like it's for I could just do my little Mojo on the computer, when I get home smell the brimstone. It's you know, it's we do not advocate cyber terrorism in any way shape, or

52:54

whatever come out of my mouth anything about cyber cyber.

Chris Harrison 52:57

Disclaimer. So

52:59

I was just looking oh, by the way, we just found out that the What's your name? Jason did Jason actually he's helped helping create a perfect world because he was there's this cute friend of his was talking about how he the Jason brought him out, and would tell the story. And I think it's great as I love the idea that there's a strike guy is helping his gay friends come out.

53:22

Well, what happened is he, before I went to Brazil, I went for two years, six days, he was straight, you know, he would always come with me and like, try to have sex with girlfriends and you know, be with my girlfriends and all that. And I left and I came back two years later, and it seemed he changed a lot. And then, you know, everybody kept saying he was gay. He's gay, he's gay. We're driving around down the street. One day in his car, I looked over at him. I said, Don't you lie to me, and I'll reach over and hit you. You're gay. Just say you're gay. And he goes along gay, but I like women sometimes. And, you know, it took me six months to finally bring him out. And just to get him to say if somebody walked up to him and asked him, Are you gay? He would go yes. It took me six months.

53:58

That glimpse of a perfect world or not? Yeah, it took me

54:02

six months. And you know, you know, actually, he's a little bit happier. He's not he's not embarrassed by you know, it's almost as he was buried, and I was like, why are you embarrassed? He is. Even to the day, he's still kind of iffy about who he tells. And I'm like, who cares? I mean, you know, that his job? I used to work with him. He would be like, Oh, no, you know, you want anybody to know him. You know, I was like, You know what, I'm gonna tell everybody you know, he's gay. He's gay. He's gay. He's gay. I don't know what you know everybody respects you because now they know where his attitude comes from the way he acts now they know why it's so now they're not you know, as discriminate towards him, because they know why he acts the way he does and all goofy because he tries to hide the fact and now he's more open about it and which is a lot better because now he doesn't have this big boulder on his shoulders about being straight guy has a wall. Yeah, no. Yeah, you know, it's just better that way. I see that he's happier and now he's more open. You know, he says, I gotta go home to my boyfriend. So going gonna go home to my roommate, you know, and it's a lot easier that way. He's not not as discrepant about being Hurray. Being gay.

54:59

There it is. Yeah. Awesome there it is compelled there's the story right there brought to you by your local friendly straight person

your local friendly straight person

55:09

radio show huh? Thank you I guess I'll just put off the

Jimmy Carper 55:12

radio quite well and that's why we like to have friends of ours

55:19

well maybe be more straight people to step up and not be as scared that's on the radio sticker. I'll say my whole name on the radio you don't

55:29

think it's you're gonna turn gay from being on the panel with us?

55:34

Data but gay years ago?

55:36

Oh, well. We can dream. You can always try. You can draw hoping and the other

55:46

my favorite thing I've ever seen done with a rainbow sticker was a girl I knew took one of the big the rainbow flags. Yeah, and she exactly exacto knife did out to say hag

56:03

who was hot? Yes, very hot.

Bobby 56:06

Jimmy Be very careful when you say be steal your heart at your age. That's a bigger possibility than it is okay.

56:17

To give him CPR.

Chris Harrison 56:20

I'm sorry, that should have changed names. We can't give him CPR. Why not?

56:25

I don't know. I might. I might put in a phone call to somebody with a defibrillator. Now that oxygen take it can be a defibrillator applied at the right moment you don't

Jimmy Carper 56:37

need all of that there's only there's one thing for sure that would revive me I will just get

56:42

him to drop his pants I

56:47

can only wish whatever

56:51

we were just watched listening to Kinsey six inflatable

Chris Harrison 56:56

speaking of blowing me I'm looking forward to go to what I don't know how long that's that cassette is

57:11

which cassette? Who want to surprise?

Chris Harrison 57:15

No, no, we're gonna play that size queen. Not at all. You know, Jimmy said that's too long. It's a long time since he said that. Talking to the mic.

J Jimmy Carper 57:33

It's a speech that Harvey Milk made in Dallas in 1978. And since when have you known any political figure to do with speech in 10 minutes or less?

C Chris Harrison 57:43

I tried getting cutesy and he almost smacked me I go hasn't Harvey Milk done anything more recently than this one? Because

J Jimmy Carper 57:55

yes, yeah, Harvey Milk died in 1972. Just months before his death

B Bobby 58:07

has been a great career move. When can we plan

C Chris Harrison 58:11

the next time we have one of these shows where you know it's when we're circling the drain.

58:17

I was dating some guy who were some kid that worked it is like his film is a camera shop there on Castro Street and I was in there one day running some kind of ladder bowl to this kid and he kept looking at me like what are you doing?

58:32

I'm trying to take him home.

58:35

Well with that it already happened.

58:37

58:37

Well then try again. Well, I

58:39

know it wasn't a problem I don't know it'd be it was I was just particularly pull up full of it that day I guess.

Chris Harrison 58:45

And now what used to be the camera Sean's are full of war. Yeah,

58:48

I'd say that they're already

Chris Harrison 58:51

winding here sperm bank

59:00

don't think they take a deposit from

Chris Harrison 59:04

Stacy. Stacy want you to go in there more for withdrawal let's go back to that thing we had on the meet right I

59:14

have some some very non gay sperm donors like you know, that frequent my apartment if they'd like me to, you know, hit him up for donations. There you go anytime.

59:25

You can deposit here and I'll deposit they're like, yeah.

59:30

Are you rules do you they're very

...and then he's just saying, "I'm not gay."

59:32

stern. Very not gay. Right. I don't know I pretty much only take deposits from from not gay men. The whole discussion that we had earlier.

59:44

And how long does this deposit depends on how long it's been

59:55

now there's definitely protection I

Chris Harrison 1:00:02

just suddenly hit of a song that we should have played earlier and so now I've got Jimmy pouring into his bag which means probably left at home. But it was Stephen reminded me of the group me. Yeah my friend the Gay Guy is bad. Yeah,

1:00:20

they tell you you're coming out story.

1:00:23

coming out story I'm touching. He's embarrassed

1:00:27

what they're touching.

Chris Harrison 1:00:30

Show show us on the dollar the Monsignor touched you he doesn't have it of course left the Cardinals skirt and with the new they

1:00:42

were under there. Nothing is worn.

1:00:48

Probably depends on what their particular kink is. Looks like a bad

1:00:53

I don't know. I just want with those hats. They're wearing pants

Chris Harrison 1:00:58

and then there's a rope out a robe and then they get hair.

1:01:03

to know. Unfortunately, we're heading before they're the Kansas City, Kansas City. The Kinsey six has a song called down at the sperm bank, which would have been appropriate on the play. But all right, we've come to the end of this because it's getting a nuts in there. We're gonna go to a little piece here to fill up Tim nine minutes of our time before we close out. I guess in that way, it's kind of apropos since Gigi is out playing in the woods and that sort of thing. This is an interview from who knows when it's on cassette from 1988 Times interview with Harry hay, and we'll be back and do a quick little wrap up if I can get the cassette to work.

1:02:39

Back when Harry hay was a little boy, Los Angeles was little more than orange groves and wide open spaces. There was prohibition Doughboys returning from World War One and the birth of Hollywood.

1:03:05

Today we look back at Harry's work and credit him with being the founder and pioneer of the gay liberation movement in this country. He has been actively and politically involved in gay issues for decades. He is one of the founding members of the Madison society, the oldest homophile organization in the United States. Harry scheduled our interview for late afternoon. He often works into the night and is never quite sure when he will be up. It was a very cold and rainy day as we snuggled under the video lights in Harry's home near Western Avenue in Los Angeles. his longtime companion was at his side.

1:03:43

Well, I was the oldest of three. And I my father and mother were very much 19th century rather than Hunter century people. My mother was madly in love with what I might call Edwardian English life. So consequently, we were raised perhaps a little bit more strangely. Children generally on our block here now labor and I was supposed to set the example for the other two children and of course, so all these have been held with Marcel Shelby's a fairly strict levels, and was not able to fulfill these, in many respects because I was assisting. And the boys, for instance, told me that I threw a ball I could curl. And then I asked the girls, if I threw a ball I could run they said, No, you're going through a ball. I can grow until I could boy, the boys know that. You don't do it like a girl either. You throw it like a sissy. And that's when I discovered very early that sissy was neither boy or girl. It was something else This generation or your kids all grow up, but Oedipus complex is or you have a psych psychiatrist breathing down your neck

and you're tying your aid on. You think that if you're not a boy, you're a girl, because what else is there? And so Susie and girl, the same thing. But in my generation, I discovered very quickly that sissy was quite different from being there. But I want to know about our world. I want to know about people like us and Virgo, I find people like us. How do we, how do we move around in the world? And how do we live in different places. And he gave me that I've always considered was the greatest love Leo's tells me that any young kid just coming out could hear from an older gay man. She said, You go to some faraway place sometime, maybe maybe Darla, salaam, maybe Zanzibar could be an absolutely strange place. And it will have the smells and will have sounds and will have sites that you've never seen before that you're not familiar with at all new feel, utterly out of place, and utterly, utterly strange. And then across the square, all the sudden, you'll see a pair of eyes open and go. And you will try to open the blow your eyes the same way to him as he is to you. And when your eyes meet, and rock, you will go home and you are safe. This I thought was just tremendous load across the world somewhere there were people like us. So this is how we met. And this is what it would mean, to know you like we make that connection. And I would be home and I would be safe. There's just something I've never forgotten because this is there, I knew that I was okay to wherever I was there. This is how you make contact with another like me. And I would find my people. And he had told me many times he did Sunday, maybe you're going to be the one who will find words, the words that we can use to bring ourselves to each other together. We don't have them yet. But we always think someday, somebody's going to find the words, maybe it will be that word. And so long as you keep your vision, clear and pure and true belief and your vision high. You will find those people and they will find you. And when you have the words, you will make it possible. First of all read each other 14, let's say this was the beginning of merging, which would eventually come your degree it was the modern sciences in 1950. Well, 1950 and Los Angeles wasn't much different from 1930 and Mosaic, which would be

1:07:53

we would be we would have a number of little bars. First of all, let me say this back in the in the period 1920s and 1933 34, when we still had prohibition they didn't have bars as treatment had people would have little little apartments and the apartment in the apartment that would be a party going along. And the party would have liquor that was being supplied by the host at so much.

1:08:31

And in those years an indecent act was for two men to touch each other

1:08:41

people who said why didn't you guys dance with you? In those years we had couple dancing and you couldn't dance with the person without you would know about the kind of dancing we did a couple of dancing was like it would be what Fred Astaire and Ginger Rogers did. And in case you think that we couldn't do almost as well as they do not distribute your mind because there were several boys that I used to dance with. And I think we did almost as well. And at this point we have to remember something else too which is the thinking that we all carry all of us are involved with this that the men who are interested and other men are perverted heteros we

are heteros with bad habits. There is nothing else besides a hetero as far as language is concerned as far as the law is concerned. The law simply said there are certain people who are who have these perverse and psychopathic personalities who do these vicious and nasty habits which are therefore criminal and illegal. And this is what you could be arrested for. How I like to be remembered, I would like to be remembered for my vision and my dream. And for the, for the new ideas and the new concepts, which are introduced into gay thinking. And I have introduced quite a number of things. For instance, in 1970, I introduced the idea that we have a gay window on the world, which is different from the way the streets see. I suggested, among other things, that what we see through that gate window of 1972, in a letter that I sent back here to Don Q Hafner. I suggested that what we see out of a window we might call gay consciousness. It was very interesting, each one of these situations, the first idea of the gay window, and then later gay consciousness. These are things that the moment that they were said, within three months, I find that being said, all over the country, so that they were actually concepts and ideas whose time had come. Then in 1976, I introduced the idea that we have a whole consciousness a whole way that gay consciousness, among other things, has a whole way of proceeding, which is really quite different than what the head rows have been, I introduced the idea of what I call a subject subject consciousness, which is that I reached out to another eye, I think of myself as subject. And I can think of you also as subject because you and I share most of the things in our bodies, we share with each other, we know how each other feel. And if I join my consciousness to yours, as I hope you're enjoying this mine, we will then the two of us will be able to look forward in the same way to speak to one another.
