and avoid gay people are like we do the activists have shouted and screamed and walked down the street and paraded and all that kind of stuff. And now it's time for activists like Don and Michael in San Diego to take the mystery out of being Govt. It's time for a while we're going to right. So what is that?

C

Chris 00:33

This is beb a. And we're going to be playing over music here is a bed for the Raven on black on black. Yes. I think this one actually has words in it because it says the word vocal.

o

00:47

Well, that's fine, but it doesn't do a little bit. A little bit music

o

00:50

anyway. Let's get Gian resituated and we'll be right back

C

Chris 00:59

hey, I need to push that button. So David continues. It was ringing up. Dr. Reminisce time for black on black.

J

Jimmy Carper 01:10

Good morning. Good morning. Houston. This is Deann Redmond with black on black. Let me

Good morning. Good morning, Houston. This is Deann Redmond with Black on Black. Let me introduce the fact that I am so low these days. Fortunately, Steven to Rome is going to be history for the most part. So all of us who love to hear love to hear Stephen Jerome Stephen gave his farewell last month. So welcome you myself, Ian.

 Chris 01:36

And we also have some some special news to give to the listeners here. Starting next week, I'm sorry next month, next week, next month, when the third Saturday of the month. Dr. Robin and Black on Black will be moving to the first hour of the show. Yeah, so listen for Dion instead of at the 30th to his shower. Listen for Dion at 1230. So

 Jimmy Carper 02:06

we got some changes, and I'm loving it,

 Chris 02:07

we're going to be winning KPFT is if you've if you've been reading the paper, you've been hearing the stories, there's a lot of kinds of changes and bumping going around with KPFT. And some of the things that we're working on here is we're going to be flipping black on black and lesbian show. And our new Latino segment which we premiered last week. I like that. So let's get on

 Jimmy Carper 02:29

into it. Well, welcome. Welcome. This is Deann listen today. Today I want to highlight an event that takes place every year here in Houston, splash. But those of us who are familiar with Flash, hey, if you are out there listening and you had the chance to attend some of the previous classes, call me and give me some of your uh, your opinions of how much fun you had and things that you're expecting to happen this year. Splash takes place May 4 through May 9 this year. We're going to highlight a lot of what's going on this year to kind of give you a heads up. And I also have Mr. Christopher Evans here. Mr. Evans has work with the committee to put some put together some fabulous things this year. I'll let Mr. Evans introduce himself as some of the things that he's done in the community.

 03:15

My name is Christopher Evans. Good morning. It's wonderful to be here again with the Dr. In the community. I am the facilitator of the mids gathering. We meet every other Saturday at the community center on the corner of Hawthorne, and Montrose and working with the splash committee. The title this year is the rebirth of splash they are celebrating their 10 year anniversary of splash and it's a wonderful testament to the dedication by Derek miles and Sean Dawson concerning their love for the people of use in their recommitment to splash for 2005

J

Jimmy Carper 04:03

Thank you, Christopher listen, you know let me give a heads up to one of the things I will say is that I enjoy having Chris from shell so much so much that there's a possibility that you guys will hear from him quite a bit from time to time. Once again, if you have any questions please feel free to call me tonight. 713526 KPFT 713-526-5738 Listen, splash. We got a new title this year as opposed to last year to rebirth. How do we go about choosing the titles and what's the significance behind this year's title?

👤

04:35

There's actually a group of people that sit down with Derek and Sean and mull over ideas concerning a title and I think the rebirth of pride one was it being the 10th year anniversary had a part to do with it. And I think the rebirth also or the rebirth title also has to do with Derek and Sean's recommitment to Making pride a more universal affair for every person, regardless of ethnic background here and you said, we have you've we've included people being able to bring their children. And I think there's a bigger concentration on events that really benefit the community beyond the Pride weekend.

J

Jimmy Carper 05:28

Now, one thing that did take place this year is that our dialogue was cut. Was that Well,

👤

05:35

I think what has happened is the participation in the dialogue meetings was not coming about as Derek and Shawn would have liked. And so they're going to try a new venue, which I believe will be the fifth film festival are part of square. So I think they're going to try that. I think TMG will will take a lead in actually providing a dialogue for people who participate on or who are coming to splash who would like to attend a dialogue meeting, we will hold one, a special meeting, okay. at the community center during that weekend.

J

Jimmy Carper 06:16

Okay. All right. Now, we have had a few, you know, workshops in the past that had some good attendance. Yes. Yeah. And it was kind of a disappointment. Because, yeah, we'll look forward to that.

👤

06:28

I think last year is the one that they're looking at. If we look at the one the year prior, we had a really pretty good turnout. And I think it has to do with the facilitators, or who's who's ever giving the dialog, their ability to draw in the people. And then you also need titles, and subject matter that will will draw people in. That's true,

J

Jimmy Carper 06:51

that's true. Last year, we had a couple good titles, as you look through the black pride events in different cities. Black pride actually is it goes on through a lot of your highly populated black cities, or cities rather with a high black, gay, lesbian, bisexual transgender population, such as your Philadelphia, Washington, D. C, Boston, Memphis, San Francisco, Central Florida, variety of different places, New York, Detroit, if you look through the black pride events, you tend to see the workshops as a as a major eye catcher. One of the things that we struggled with last year was the advertisement for it brought in, you know, low numbers, I can

👤

07:37

think also there there is a there is something about being down south, and people talking about sexuality or issues that deal directly with sexuality. I think what I will do next year, is make a bigger push. And if I have to come out of my own pocket to pay for the, the ballroom or whatever, we have to have these dialogues. If there's only one person that's affected or changed or made better by the dialogue, then it's very well worth it. But I do understand the economics behind having to go a different venue to get the participation that's necessary, that will validate. That's where I'm spending the money on the room.

J

Jimmy Carper 08:21

That's right. Well, yeah. And once again, you know, we've had we had a lot of things planned. So while there may not be workshop this year, we had so many good things planned. I got a caller who actually has some input about splash, or maybe you question,

C

Chris 08:35

Samuel, you're on the air. Hey, this seminar. I

👤

08:38

don't have any other than you know, I think they were supposed to have a little bit of a thing going on. Oh, yeah, that's right. But so I was just shutting out to say, Hi. I'm talking to you and

J

Jimmy Carper 08:49

thinking about you the other day, too. I

👤

08:50

was thinking about, she forgot St. Louis. You know, it's really weird how it's, it's, you know, a segmented city, and there's stuff here and nothing there. But I guess a couple years ago, I was

at a thing that was, you know, time and so forth. That kind of event. So I just wanted to add that city to your list. And I don't have much other input than that and say howdy, and hope you're good.

J

Jimmy Carper 09:13

Thank you. Thank you. Oh, you know what, hopefully you'll be up at this time next month at 1230. But not this time, but 1230 instead of two o'clock. I can I can reach out to you a little bit sooner. Okay.

👤

09:22

Oh, cool. Keep up the good work. I'm glad you're doing it.

J

Jimmy Carper 09:26

Thank you, Sandy. You already all right. He's right. I did forget St. Louis. Actually, I have a quite a quite an extensive list. Dallas included. Oh, I'm trippin Baltimore Oakland, you know, St. Louis, Jacksonville, Florida, Minnesota. Okay, so I got quite a few here but

👤

09:42

I can't say one thing special. They started. I do believe usin is the only black pride that has a Sunday worship service associated directly with splash. And last year was an awesome event with pass. So Jeffrey Campbell, facilitating that. And this year, we're going to have your vet funder coming from San Francisco. And that will be at 11 o'clock at the Sheraton brookhollow at the split between 610 and 290. And I do believe usen is the only black pride celebration that includes a Sunday worship service. That's right. That's right. And I think that's absolutely wonderful. It was last year, first year. Last year was the first year I think the turnout there were about 80 people. And I think some people were apprehensive because of the stigma that's attached to splash that it's just about her partying, having a good time. And maybe about six but I think last year was a turnaround for splash and I think rebirth again, re emphasizes that there's a rebirth and what Splash is all about that we cover all the gamut of emotions, you know, emotional, physical, everything that has to do with black pride. We're going to cover from now on here in Houston.

J

Jimmy Carper 11:02

I like that title. I like that title. With with church with with Jeffrey Campbell. We have a guest this year, how do you go about choosing a new guest?

👤

11:12

I think what happened is is that Yvette fonder actually came down for the not another drop convocation which was at First Baptist Church. She came down and I believe she was on

revolution, which goes on at Freshstart church. She came down and I believe she was so powerful and wonderful in the message that she had was so needed that they decided to put her on on the menu for splash revolution, movement, church service

J Jimmy Carper 11:36

this year. Okay. Anticipated numbers. What

11:38

do we think and I think this year, because of the positive feedback from last year, I think this year, we should be expecting anywhere from anywhere from 120 to 200 people

J Jimmy Carper 11:49

at the service, okay, okay. Okay, that's impressive.

11:53

We have, we have a dynamic choir that is going to be in performance. And again, your vet funder is absolutely awesome speaker. And I think just just the excitement about it, if you're available 11 o'clock, Sunday, which would be May 8, at the Sheraton brookhollow Please come out, you will not regret it.

J Jimmy Carper 12:16

Great, great. Listen, we definitely want to give out some major major pumps that one of the things I did notice is that it wasn't listed in the brochure. However, I'm sorry, that wasn't listed on the website. But you know, a lot of the brochures may have it. So excellent. If you're interested, definitely. May 8, Sunday brookhollow, Sheraton, I want to go ahead and ask once again, for those who are listening. If you've attended splash events in the past, please feel free to give us some give us a call, give us some input. How much fun you had what events you liked most? 713-526-5738? Okay. You know what, when you look at the differences between private events, and also Black Friday events, have you had the chance to go to any of the pride Houston's and can you see a difference? And

13:06

I've actually not gone to him yet online? Yes, I have. Oh, my God, it's been years ago, about five years ago, I went to any event. And I have to be honest, and say that what I missed was people who looked like me. But I do believe that they are making a strong attempt to change that, to make it radically inclusive, as they say, for Star church. So I need to make a promise to myself and to produce and to actually attend again to see what changes have come about taking place.

J

Jimmy Carper 13:42

Sure. Sure. June 25, is what we're expecting is when the next prime Houston takes place. And I know Houston voice had a nice write up in there about, you know, some of the things that'll be taking place as far as a guest speaker, that kind of thing. But you know, I and I understand what you're saying, because one of the things that was brought to the forefront was the fact that when you look at the reasoning for black fries across, you know, different cities was because when you look at just your regular pride events, they did not they were not as inclusive. Yes, you know, so there was a need to branch out with some of the ones that you've gone to pride Houston, what type of events were there? The one I went to the one you went to

Ω

14:28

actually only went to the parade downtown, okay. Actually, that was the only one that I went to all of the advertisement for any of the events just never really did make it to me, but I have to say that in them reaching out, we also have to reach back and then you know, participate. We have to participate. And then once you start participating, I think people will see okay, they really want to be a part of this. So let's let's do some other things. Let's call some people to the table who represent that community and see what we can do to again To get radically inclusive for everyone,

J

Jimmy Carper 15:02

this right one of the things I will say is I've got I had a couple of calls from individuals asking for representation around that decision making table. As PRI quickly approaches in June, we'll be here in a second is starting to make plans for things now. And they looked around the room and was like, hey, we need some representation here. So you know, like you said, they are making a difference in terms of reaching out. Some of the things that splash is going to incorporate this year include a few new initiatives. You mentioned before Black, I'm sorry, black gay Film Festival, the film reveal, tell me a little bit about that. What film we'll be thinking of, and I think

Ω

15:40

the film was still up in the air right now. I believe some of the suggestions bounced around was bringing chiamo from real world, okay to be on a panel to talk about whatever movie we decide to view. I would prefer if he stays wherever he's at. Okay. I digress. I think the film festival that has been a very wonderful draw in other cities, Atlanta, Los Angeles. I know one movie ski trip. absolutely hilarious movie. Absolutely wonderful. And I was pushing for a ski trip by Jamal Evans. Is his name No relation? No, no relation. Wonderful movie. So that is going to be one of the things that we do however, the movie, I'm not sure about the movie just yet. I think it's going to be a surprise.

J

Jimmy Carper 16:35

Okay. Okay. Well, I do I did see that it was listed at going to ABC club. That's where it was. It's

going to be there on May 4, so stay tuned for that. So we got the black gay film review at ABC club on May 4. You know, one of the movies I thought was a good a good movie to to maybe feature was punks.

16:59

Okay, something something new, we really need something new. pucks was a wonderful Trailblazer. For us, but with Noah's ark on the scene now, Assam and then with ski trip on the scene. I think we really need something new. Okay, Alex was was wonderful. But it's definitely time for something new.

J Jimmy Carper 17:20

Hey, I understand. I understand. You know, that's one thing about it, perhaps if we, as we as we plan for next year, you look to see what the attendance is? And what are some of the feedback. I know Derek and I talked about it a little bit, you know, in terms of how to get feedback from those individuals who go to those special workshops, such in that workshops with special effects, such as your more small intimate settings of your church, of your of the workshops that we that we hosted in the past, and now like a film review, those individuals who come to that, maybe ask him some questions now, hey,

17:55

you most definitely need to make your voice heard to let them know, you know, what you like or what you dislike, we have to know in order to bring something that that is appreciated. And and people will be willing and eager to participate in, you have to let your your voice be heard. Let them know I didn't like that, or I loved it. It was absolutely fabulous. I think what we're going to what I'm going to do with the TMG meeting this year, is I'm going to do a segment or a dialogue entitled A hungry bastard will eat anything.

J Jimmy Carper 18:26

You know, I love that.

18:29

I've lived that before. So I believe titles like that people were okay. What in the world was that about? I have, you know, if even if you don't like to go to dialog meetings, you're going to come to that because you want to know, what does that title mean? You know, what is the subject matter going to be about?

J Jimmy Carper 18:44

That's right. That's right. When you look at the the committee members, have you guys sat

down and talked about any new any any new initiatives for next year, or any type of initiatives to get survey going to get some feedback for next year that will

18:58

take place directly after this year's black pride events where they start sitting down at the table soon thereafter to come up with a title and all of that good stuff.

J Jimmy Carper 19:10

Okay. Okay. Other new initiatives include family then can you say a little bit about I think Family

19:14

Day is a wonderful addition where we include children, a lot of gay and lesbian couples have adopted or or have children. Now, and we want to include everyone, we want to make it a true family affair for everyone. And that family day is going to be at Celebration station on Saturday, May 7 from 12pm to 3pm. Bring your kids it's our first annual family day and it will be a trendsetter. I'm sure I think this is one of the things I believe there's only one other blank prize that does this. And I think that would be in Washington, DC and also Los Angeles. I take that back. Los Angeles has a wonderful family. The atmosphere for gay and lesbian, bisexual, transgender individuals who have children. Okay, that's all right out at the beach, you have the kids dancing and everything's really nice.

J Jimmy Carper 20:09

That's important too. That's important. Like you said that the goal is to be all inclusive, then by all means this here would do it. Tell me when you look around the room over the over the past years for splash, whether it pertains to families, how many? How many families? Have you seen? What's the numbers like and very

20:25

small, really very small. In Houston, again, Los Angeles and DC very big on having people bring their children. But hearing you said, I have not seen that as much, but I think we're going to have a huge turnout for that because I'm thinking about bringing my godson to that would actually be his first energy in introduction to a Yeah, like, let's see how it goes. Okay, you see me running down the street, but it didn't go very well. But I'm sure

J Jimmy Carper 20:59

Okay, good kick. When you sit at the table with you, committee members, the specifics of them, I want to say highlight a few things. Derek miles had him on the show last year, Derek

being the president or Houston splash or former owner or incognito just for those who think and who are thinking hey, name sounds familiar. former owner incognito. Derrick brought forth new light to the African American club scene along with late Clifford hunter with a powerhouse team of influential parties, including including cookie Luke cook Grover Fenberry, Randall rose, Rochelle, rather, Tony Powell and Mother incognito. The club was born. So for those who are out there thinking oh, yeah, that name sounds familiar. You know, you can thank the club scene African American club scene to Derek miles. Sean Dawson is another gentleman vice president of Houston splash. He's the promoter. So some of those fabulous flyers that we see out there. He's the man behind it. Flyers, television and magazines are the weapons of choice when it comes to tying what's going on in the world. So Houston, splash, I had the chance to check out the website, fabulous website, fabulous website.

22:08

We were actually supposed to add a portion where you could email me questions about relationships about anything, it was going to be entitled A splash of truth. And I was going to be the what's the latest? What's the lady's name from the newspaper gives all the advice whatever her name is, and land is going to be the blackmail and Landis for the website for the website and it was going to be entitled A splash of truth in relation to splash so I think we're going to try to do that again next year to try to keep splash going year around not just once. This you know, one time of year, we're gonna try to make splash informative, and a benefit to the community year round. I like that you're one of those.

J Jimmy Carper 22:53

We also have Tony Powell. Are you familiar with Tony piles music DJ, now? I've had the chance to listen to him. He's fabulous. Let me say that and he's a complement to our other committee member and once the head honchos once voices flash cookie look cook good. Yeah. You know, so Tony travels abroad to not only DJ but participates in conferences with other DJs as well. So he's, he's very talented in which he uses musical sound effects old school music, underground music, deep house music, r&b, hip hop, rap all of that even Zydeco. Okay, so we're looking forward to the taste of, of Tony this this splash. Last but not least clicky le cook now, I've had the chance to see her in action, and she puts it puts it down. The mouth of the South is what she is known as. It's how this individual is most commonly referred. If you're having a show as big as Texas, you've got to have an even even bigger host. So we're looking forward to that. So as you look through some of the workshops and workshops inside some of the events, make sure you take a peek at some of the things that cookie will be hosting as well.

24:08

And if in fact you will you are a part of the Houston gay lesbian, bisexual transgender community and you have a talent or or some work that you would like to do in an effort to make splash your own or or make it more inclusive, or just better. Please get in contact with us. We would love anybody's welcomed at the table if you're going to bring something that's positive and wonderful that will uplift and make it better. Get in contact with us. We would love to have you

J

Jimmy Carper 24:38

we'd love to have some some new ideas. I mentioned Clifford, Clifford Hunter. And when we come back, I'll say a little bit about the Memorial Scholarship. Listen, I want to highlight some good music. We got deep music, deep music, deep house music in your ears tonight. We're gonna go ahead and give you a little taste of that. And we'll be right back. This is black on black Dion Redmond here and Christopher Evans

♂

25:07

All right, and we're back with chaos hitters act gotta push buttons, push buttons, buttons, push push push ups. I'm not going to wait too long too long. And I still can't talk haven't figured out yet this is engineered. I think it might be this meet that meet they

J

Jimmy Carper 25:29

Dion Redman, black on black yeller, Bay. Thank you. David. It's funny. You just heard the fabulous house music sounds of BB you know what? It's funny because if you go through the mall and you see a store BB This is it. They have their own music. So I got the chance to pick up the city. And this is how I try to keep my visitors up when they come. I need to have some highlighted upbeat music. Oh, well, let me also say this. I'm not the only one having technical difficulties.

♂

26:04

This time in the morning, you need everything you can to keep the listeners away

J

Jimmy Carper 26:08

from the 1230 ship will be a blessing in disguise. Let me tell you mentioned before I came back some of the new initiatives and some of the things that you can expect what was flashed this year, once again, May 4 through May 9. If you have any. Any any comments about your experience with flash in the past, please give me a call 713526 KPFT new initiatives Clifford Hunter Memorial Scholarship.

♂

26:34

I do believe this is one of the first projects that that has ever initiated a scholarship. That's exciting. So I think this again, is a part of that rebirth.

J

Jimmy Carper 26:47

In the fact that Derek had the chance to work with Clifford, in terms of the club scene initiated this scholarship, check out the website. And what's the web address is my Yeah, probably

Houston splash. I'll get back to the middle. No. But when you look at it, you can pull the website down, okay, you got Houston, splash.com, pull the website down and pull the scholarship application. They get they're given out for awards total \$500 Each for books. The deadline has passed. Let me say that how ever, I wanted to make sure, I wanted to make sure that we had the chance to highlight the fact that this is a yearly thing. So those of us who are listening, if you get the chance to listen to a goddess class next year \$500, hey, graduates can apply. Undergrads can apply, you just need to have a 2.5. And then you get the award it will be awarded at the beach party. So that's coming up. And actually the beach party will be May 8 this year. So from what I went from what I was so and I think we got about two, three to three or four applicants this year, who applied so not saying who they are, but you know, stay tuned at the beach party and you will find out. But that's fabulous. That's fabulous. What do you think? If this is the since since Houston's the first to do that, why do you think it was so important to even initiate such an effort?

28:18

Again, it's a part of the rebirth to make splash not just about the party and having a good time. But if we're going to all come together in the number that we come together, in, it's very important that we do something positive. Again, that goes and lives beyond this Pride weekend, we definitely need that. We always talk about it the means gathering your legacy, what is your legacy, and I think at the 10 year mark of splash, black Houston pride, we need to have a legacy in place. And I believe this is going to start that legacy and I and I'm looking for it to grow and for it to catch fire at other black products that we're not just about partying having a good time and the possible sex that goes on, but that we are concerned about children that come behind us that we're concerned that when we leave this world is that we leave with an impact that people are the people have benefited from us being here. That's right, not that we just left good music and good sex in some places which but you know, that will leave a legacy and this scholarship is definitely the place to start.

J Jimmy Carper 29:27

That is a wonderful time we're talking about giving four away total. Wow. And I remember when Derek and I were talking about it initially last year, he was very much interested in trying to just get the word out there, come up with some guidelines, that kind of thing. And this is going to be a yearly thing. April 1 is probably going to be around the deadline time on a yearly basis because this year was April 1 deadline. And then once again, we give it out the following month at the beach party. So FYI, keep that in mind for next year. Mark The calendar Clifford Hunter Memorial Scholarship yearly event. Beach Party, beach party experiences what can we expect this year?

30:07

Oh, you can remember this is a public radio.

30:13

You cannot begin to imagine the sights and sounds. You will see stuff you've never heard. You'll

hear stuff you've never seen fun stuff. Absolutely wonderful. I think just to see the array of people that come and attend. It's it's a good time. Have I all it really is

J Jimmy Carper 30:36

beach colors. Is that a yearly thing? Yes.

30:39

There's always a theme and I think this year from number seven is purple. Purple. Yeah, we're your best purple outfit. If you need to buy to punch in Yeah, to get your little purple on. No, I'm just joking. But purple is the theme this year and that stands for warranty. Okay. Okay. So I think that's what we're, that's most definitely what we're going for

J Jimmy Carper 30:59

reasoning behind choosing a color for beach party. What's that about? I think he's just going. Okay. Okay. I like that. Yeah, I

31:08

think purple flasher. I can't remember. Okay, but she pull us up. To which year I do remember was the feathers. Oh, so Oh, my goodness. Yeah. Okay. or color or things?

J Jimmy Carper 31:19

Yes.

31:20

Feathers one year and it was not cute. It was cute. But it just you know, it didn't there was some naked peacocks running around.

J Jimmy Carper 31:31

And we can imagine that okay.

31:33

It's really nice. So purple. Were your best part. All right. That's

J

Jimmy Carper 31:36

a place when that is

♂

31:38

Sunday, May 8. Okay, at East Beach in Galveston, Texas. 12 to six. Yes. And they are aware that we're coming.

J

Jimmy Carper 31:47

Okay. They have quite a few special guests this year lined up. So we got some musical guests, we got some musical guests. Nope, boys tab and smokey. That's what we can expect this year along with some other guests. And hey, be there 12 to six on May eighth. Okay. We were talking about the differences in males and female events. And some of the things that Derek was able to bring to light last year was that there were complaints about the lack of female events and lesbian events that took place in terms of parties in terms of special events, that kind of thing. I do know that in previous years, he tried to address that. Yes, he has, by maybe like for the workshop having a workshop geared towards things that, you know, that affect the lesbian population. But the turnout wasn't that because No,

♂

32:38

it wasn't, you know, some of them went to Los Angeles. And I think a part of that is, is if you have people partying are out partying till four in the morning. And then you have a seminar that starts at eight in the morning. Not a good idea. So I think what we're going to have to do is really sit down at the table and rethink our priorities, and maybe structure our schedule events in such a way that it gives people an opportunity to actually participate in everything fully. And I certainly do think that we can have dialogue scheduled later on in the afternoon, which allow people to you know, after they tell me that four or five in the morning, they can sleep and then maybe have dialogues that start one two o'clock. Well, we

J

Jimmy Carper 33:19

look at this year's lineup the end, because one of the new initiatives is the black gay film review. Exactly. When is that? And what is it income in competition with or is it in competition with something because I know what the workshops it was always in competition with your pool party? Yes. You know, so is there is there a difference this time around?

♂

33:38

I think what what they're going to do is depending on the film, I think, if I'm not mistaken is going to be at meet your the exact date again, I'm not sure I don't know if it's going to be Saturday. Okay, so the the exact time I do not have right now. But believe me, Derek and

Shawn will make sure that it's advertised effectively so you will be very well aware of the date and the time and the movie.

J

Jimmy Carper 34:05

One of the things I remember too is that when we look at splash, no Splash is with it goes without a welcome reception.

👤

34:13

Last year, that was the absolute best welcome reception I have ever attended. And I do a lot of traveling to different private events. It was absolutely wonderful. There was an air of cohesiveness. It was great. So I encourage you to make sure that you make that welcome reception. On Friday May the sixth from five to nine you will not regret it. It was absolutely wonderful. I did not want to leave and not want to leave the mingling that goes on the new faces, the people that you meet. It was absolutely wonderful and it's very different than the club and they're meeting up at the club. The reception is wonderful. They're soft music playing, you know, they're on d'oeuvres and their drinks and I think you really get a feel All of the family atmosphere that black pride is certainly trying to promote at the reception.

J

Jimmy Carper 35:06

That's all right. In collaboration with Cepheus Magazine, we can thank Cepheus this year because they also co hosted the scholarship as well. So they're pretty much an integral part of us last this year. Once again, the reception may 6, I noticed that quite a few or at least a few events take place before the actual reception, such as the female G spa for ladies party. That's gonna be May 5, if I'm not mistaken,

👤

35:40

from 10 to 3am. And that is going to be located at bar TD at 1318 West time. So ladies, if you look I mean they have some hot dancers. I believe Uzi made me think about changing my sexual orientation. That girl is bad. She does some acrobatic stuff I did not know the human body was. She's awesome. She's an unbelievable entertainer and she will she's not just a dancer, she is an entertainer. Okay. Her name says it all.

J

Jimmy Carper 36:10

Yeah. Okay. All right. Well, can't miss that can't miss that. Also, there's a wet t shirt contest that night as well. So ladies, G Spot may 5, okay. 10 to three be there all time. It just all at all times be there. Beach Party we've covered and listen, we got some fabulous stuff going on right here. We really do. So Houston, splash may 4 through May 9. Looking forward to everybody coming. As you look at splash over the years, what are the numbers have been like

36:39

the numbers have steadily increased. And I think what has happened to be based on economics, people are making more money now. I mean, we were seeing an influx of younger people coming younger people, you know, in college with just this income at their disposal, so we're steadily seeing an increase. We're also seeing an increase in black, heterosexual. I think with the new sexual revolution, younger blacks aren't as caught up in sexuality as the older generation. So they're more apt to come to a lot of the events because they have friends for gays and lesbians that makes bisexual transgender. So they're like, I just want to have a good time. It doesn't matter with who, you know, it's not about your sexuality. So we've definitely seen an increase in the numbers and in the numbers of heterosexual individuals attended.

J Jimmy Carper 37:34

That's all right. That's all right. Okay, so we're expecting some good numbers this year. Listen, you know, for those who have never been to a splash, or at least are interested in going ever had any calls tonight, but I'm gonna go ahead and throw out something to bite on. Maybe I'll get a call. I'm taking call a number five for a VIP pass. And I've now I've listed quite a few things that'll be taking place for that whole week of May 4 through the ninth. Don't miss it. I have one thing to say about Black Friday. Black pride is not any event that you come to black pride is an event that you bring pride to black pride, it's not the responsibility of Derek or Shawn to provide. Likewise, we're just bringing bright black pride culminates at this event. So we need to already have that in place. And again, if there's something you're not finding a black pride, it's for everybody. Make your voice heard, come to the table, call that number, that contact number and tell them look next time you all sit down at the table. I have some ideas. I have some concerns, bring them and I promise you, Derek and Shawn will do their utmost to address them, and then bring to fruition anything positive that you feel is needed for black pride. All right,

J

Jimmy Carper 45:36
