Oh yes, you've tuned into after hours a continuing tradition on KPFT Houston 90.1 FM. The crew of after hours is ready to bring you news, interviews and music geared for gay, lesbian, bisexual and transgendered people. Hear it after hours, we may be diverse, but we have one thing in common. We are all out of the closet and urge everyone to come out of their closets. That means standing up for yourself, taking responsibility for your own life, and being proud of who you are. Realistically, we know not everyone can do that because of a job or frame of mind. That's okay. We're here for you too. So sit back, relax, and enjoy this week's edition of after hours.

And I will call their parents and tell them that they're homosexual. And I know so because I slept with them and they left their underwear at my house. So Don't screw with me tonight. I'm not in the mood.

H Howard McHale 14:36

The numbers party is a \$5 cover those those that's right after the after the concert and the cover goes to charity aids charities this year, I tend to approximately finally get their crap together. It's because you're running it. That's don't tell anyone. What else is going on? Oh, city, Houston is still here. No one's blue blown up any federal buildings in Houston? Let me see. Bush is still governor. You see his wife with the national prayer day the other day? Yeah, I guess it's some national prayer day,

 **Scott Lewis 15:54**

I did see that he signed the eighth home testing Care Act so that you were going to be able to do eight some testing now in in Texas, or I guess HIV, it said aids in the paper. And I didn't really read through it. But I mean, I guess it's an HIV test. Yay. I don't know how I mean, it's got a plus and a minus side, a plus side, you find out in the privacy of your own home. Minus side. There's nobody there to cancel you if you get a positive back. Yeah, but And what if you get a false positive back?

 **Howard McHale 16:26**

Do you think? Do you think that now 12 or 13 years into this thing? Do you think people are still freaking out?

 **Scott Lewis 16:32**

Oh, yeah. Oh, yeah. Oh, I definitely think so.

 **Howard McHale 16:37**

Well, you know, eating those French fries and all that animal grease is enough to kill you too. This is true that I think we should have in home cholesterol tests. And they do do that. No one told me. I got my arm stuck in that blood pressure thing at Walgreens the other day. I was screaming for an hour and no one came to get me and my hand. My hand was purple. I thought my nails are gonna bump off. Burst off. Do you ever, ever go to that little machine? No, I think I'm paranoid. Because the last time I went there, it said my blood pressure was like 199 over 200 And I think I must have been moving during the

 **Scott Lewis 17:11**

test. 199 over 200 That's awesome. It was

H Howard McHale 17:15

strange. I thought for sure I had high blood pressure. And but then But then I noticed that all the Hispanics were looking this little Hispanic group was looking at the the wrestling magazines.

S Scott Lewis 17:25

So that's why it was 199 over 200 Oh, what a day and he was looking he was looking into exercise for middle
