Looking at the boisterously and the front page story is on domestic violence. Same marriage, same sex domestic violence. And it's interesting to read that although we've kept it secret for many years, domestic violence in the gay community occurs at approximately the same way as it does with State Street. So if you take that out and look at the whole US, it says that there's something like a half a million gay men have built apartments every year. It's a very stirring article that talks about some specific cases very well worthwhile reading, particularly if you're a victim of domestic abuse. What I'd like to mention is that there are a few organizations within Houston and the number of growing places for you, if you are a victim of domestic violence, particularly same sex, domestic violence, you can get help. One of the best places is to gay men survivors of domestic violence bearing Memorial United Methodist Church. That's an organization where a few people sit around who are victims of domestic violence and they help each other. It's a very small group, but it's a very intimate and helping group. It can be reached at area code 713-526-1017. That's 5261017 and addition for men and women who are gay, the Houston areas Women's Center, provides services and help. They can be reached at 713-528-

6798. In addition, there is a Houston Police Department, family violence unit. Those people have been here on the show and I've talked about family domestic violence, and same sex, domestic violence. They can be reached Area code 713308 1100. That's 308 1100. And of course the Montrose Counseling Center is always open for counseling, and they have a specific program for same sex domestic violence, and their number is 07135290037. Number we give out frequently 5290037

Okay, the ins and outs of dating presented by Dr. Joyce Gale, a clinical psychologist and success coach will be the topic of the Protect meeting on Tuesday July 28, at 7pm to 7pm. Protect provides a safe place every Tuesday at bearing Memorial United Methodist Church, which is located at 1440 Harold for HIV negative people to share their experiences in an effort to understand and change behaviors that could lead to infection. If you'd like more information, you can contact them at area code 713-526-1017. That's 52610170. And

I'd also like to mention that there is an informative discussion that's going to occur at the Metropolitan Community Church of the resurrection on August 4, and on September 1, two showings, join Reverend Ralph Lasher, where he discusses that their religious right is wrong. The Bible doesn't say that homosexuality is a sin or is an abomination. This is credibly informative discussion on what the Bible really says and doesn't say the program is free and open to the entire community. So again, that will be August 4 at 7:30pm and September 1 at 7:30pm. At the Metropolitan Community Church of the resurrection, located at 1919. Decatur that's Washington at White street between St. Mont and Eastern Avenue. For more information, call me code 713-861-9149. That's 8619149. So, what's it like in the bars these days?

06:27

Well, it's the more things change the more they stay the same. Here's our first change. Gentry is is closing its doors for good on August 2. I don't know. Yes. And they want to thank all Houstonians for a very fabulous run. Next Sunday, which is August 2, they're having their our wall party and the doors will close forever at midnight. On Sunday, July August 2, Gentry has been located at 2303 Richmond Avenue. And it's really sad to see that Gentry has closed its doors for good. January's has been a big part of the community has been a big part of fundraising in the community. And really has I know that the imperial court has done an awful lot of fundraising out of there. And it's really gonna be sad to see it go. So what

Michelle Meyers 07:38

was that? What's gonna happen? I mean, all the barns are closing.

07:41

Well, the more things change, the more they stay the same. Yeah, Territorial is closing its

well, the more things change, the more they stay the same. Yeah. Territories is closing its doors for good. Yes, on August 2.

07:50

I hadn't heard this. Yeah. Oh, my God. I

M

Michelle Meyers 07:54

haven't been listening to the news. No, I wake up.

07:59

I've been doing other things. Why

M

Michelle Meyers 08:01

have you been doing? I've been doing other things. Yeah. August the seventh next Sunday night. Gentry. Jeffries is closing its doors at midnight

08:13

at midnight. And they're having their own wall or a wall party.

M

Michelle Meyers 08:17

There's a new owner of the building and they couldn't come to satisfactory terms in terms of lease. Oh,

08:24

so they imagine having that time to move anywhere. And are they just suspending operation? So

08:33

it's closing its doors for good? Damn. Yeah. And they want to thank everyone in Houston for a fabulous run.

08:40

Yeah, they've been around since I was young.

08:43

No, it was it was galleons before

08:47

Yeah, it was the galleons change to Gentry he's, ya

08:50

know,

08:51

it's always been the same kind of place, same kind of clientele. What is going on first, the ranch and now Gen trees. That's

09:02

what that's what half the story. That's after starting what's the other half and getting ready for on August 8, we'll have a new club opening up up there on Richmond at 1205. Richmond, and it's going to be called decades. And that's Houston's newest neighborhood bar.

09:19

Reading wealth. Oh, five, Richmond. Okay. Oh, I know where that is. Where? It's right next to studs.

09:29

Oh, that little that little club. Okay, only got a nice little wooden patio out there. So you can go from the bookstore or vice versa. Right. Anyways, it's going to be opening on August 8. And

09:45

Gregory Great. That's that's becoming a nice little neighborhood over there with decades and the outpost just cut that two blocks down the street, right walk down the street? I don't know.

09:58

And, of course Jack Jews what? A few blocks. Oh, quite a few, quite a few paths Greenberg

10:04

between Shepherd and Kirby.

Michelle Meyers 10:08

Oh, and I also like to mention fo con, which runs at the last stop. Yes, yes, I found him in night two from midnight or from around midnight around midnight on Saturday nights in competition with us. It's starring foe Aretha Franklin Cher Eartha Kitt. Gloria Estefan, Madonna, pet Isabel, Paula Abdul Reba McEntire, Tina Turner, and other

10:37

Oh, yeah. And I talked with Scott Lewis this evening. Oh, hmm. And he was telling me that do you know he's this is geared, actually as advertised to the straight community, but you know, who's been showing up in droves? That's where lesbians. Lesbians love drag queens.

Michelle Meyers 10:58

Oh, cool. All right. Yeah. Oh, I wanted to mention something else that's happening tomorrow night. I don't have any details. But at The Woodlands. Yeah. The P 50. Twos are in tow with

11:09

the with the pretenders. There's not a ticket to be had any.

Michelle Meyers 11:13

Oh, okay. Well, I'm going Oh, lucky. You. Yeah. The P 50. Twos are support the National Gay and Lesbian tankful. Yes. Oh, yes. And they make a big deal out of that out of the task force at their concerts. Good. And so those of us who are members of the task force are going up there tomorrow. You think, oh, we're gonna pass out some literature. Okay. And get to see the pretenders.

11:39

And if you have last week, voice handy is a in their value city section. They have a great big article on the perpetrator. Oh, good. I read that. Okay. Now before we wrap up here, I just want to remind everyone to watch TV Montrose every Monday night at 8pm on Warner Cable 54. It's

right and listen on Fridays to lesbian and gay voices aired 7pm to 8pm, followed by this way out from 8pm to eight

12:11

and a half hour of gay and lesbian newsmagazine now on this Mondays TV, Montrose, they're there. They're starting a new segment. Oh, that's their calendar with Jacqueline ski and Joan Devlin.

12:25

Oh, so from the lesbian, gay voices, personalities,

12:30

right. You'll see them right there every week on TV, Montrose.

12:34

And before I go, I do want to mention that KPFT will be hosting its leadership circle breakfast in mid August, current members of the leadership circle and those who become members during the mini drive, are invited for breakfast and a tour of the KPFT studios and leadership circle members will have a chance to mingle with the KPFT staff members while having coffee and pastries and see all the mayhem that we do down here. Absolutely.

13:01

And I'd love to have at least your leadership circle members sign up this evening.

Michelle Meyers 13:07

Yes, you can do that by calling 713-526-5738. That's five to six KPFT

13:15

your leadership circle is a donation of \$500.

13:19

And that may sound like a lot but that's only \$1.37 A day we have

13:24

as Chris is our leadership circle member already. And Michelle, you probably are in that category yourself and fit some pieces. Okay, okay. So we have to, we have to after ours has two leadership circle members and I'm very proud of that. Will we get any greedy I want more

13:46

if we get any new leadership members are you going to be here early in the morning to greet of all

13:51

if we get a leadership circle member tonight, I will show up for that breakfast. And I don't get up until noon normally. Anyway, the call to pleasure support and that's on MasterCard or EFT or whatever for that leadership circle will be 526-573-8526 KPFT. Now, we have got a packed show for the rest of it. John and Russell are here with guests and they'll be coming up in just a little bit right after this little song from the velvet mafia. It's been requested. I've just been playing it for the last three or four weeks and I've been getting requests already it's the velvet mafia doing deli boy you're hearing it on after hours queer radio with attitude on KPFT Houston and ke O 's College Station Oh yeah, velvet mafia nuclear group. Actually they're not clear they're not new. They've been around for a long time. But this is a brand new CD and they only had an EP out before and this is one of my favorites and one that gets requests called a deli boy. Now you're listening to after hours queer, very clear radio with attitude. KPFT Houston and ke O 's College Station. I'm Jimmy Carper. And with me tonight now is Russell hi

15:38

I just got here. I was asleep about five minutes ago. Yeah. Very hereto. Here. We have two guests with us. One is Misha Boris she is professional dominatrix and personal extraordinaire. I have a list of things to say about her. She is a nationally renowned lifestyle dominatrix so that in other words, she practices her domination in professional way and also in lifestyle she has a submissive with whom he or she lives in practices for sexual preference in that relationship also, and she is featured in of publication for leather bound climax times, as well as mistress Dixon publications. She is a published writer of SM fantasy and nonfiction literature. And she helps males females and couples create and realize their SM fetish fantasy and roleplay scenarios when they say discreet and fun environment. Sounds great. And that's true. And we also have with us, Stan, Harold, is that how you pronounce that? Mr. Texas drummer 98? Which is a great honor.

16:46

Certain certainly. Well, I didn't stand before stands. I knew I knew stand before when there was nothing okay. No stand has always been something I've always tried

17:03

and succeeded, I'm sure. Well love you. And before we get on to our guest tonight, this morning, let me go through the calendar of events here in Houston for the latter part of the summer of 1998. For the kinky calendar, we have all these great groups and we always try to push your attendance to these groups. If you're out there and you're interested in so called Sado masochism for dominance and submission and keep you behavior of any kind, we'd really strongly strongly suggest that you come out to these groups, there's very little chance of you being outed, without your consent, you don't have to use your real name. However, it's really very important that you do attend these groups, because that's where you'll get the social support and the education that you need to get out there and do things in a safe, sane and consensual manner. And with greater skill, and you'll have a lot of fun doing it. The people in the scene are the brightest and most creative and in the everyday world are quite successful and functional people. And the safest place to meet another person is through these social support groups, here in Houston, and there's a whole bunch of them. And I'm gonna go through that real quick for you. So grab a pencil on a piece of paper, I'm gonna give you dates, times, places addresses, in the names of these groups to check out, okay, the one that needs close to the station that I attend regularly is called arrows for the erotic Rose Society, which meets every Saturday at noon, until about 1pm at Rogers, which is located at 2002 in Wall Street. And again, that's every Saturday, arrows meeting at Rogers. Now arrows is an educational group, mostly groups focus on education, they have discussion groups and seminars, about various techniques and or issues in in and related to the, what we call the scene. You know, everything from classes on how to do bondage to how to do spanking to how to do after care with with a submissive partner, how to negotiate a scene properly, all these sorts of things. And they're very, very important. And if you go to arrows at noon, there's no fee involved. You just go upstairs, there's there's no dress code, and you'll meet a bunch of very warm and gracious people doing this out of the goodness of their heart so that we can all be safe, sane and consensual. As we're going about our somewhat complicated sex lives. There is also a route called heal or Houston educates or I'm sorry Jason encourages and educates and bother. And this group is targeted specifically to gay and lesbian people. Although it's life all the groups is pansexual and open to everyone. He'll or encourages and educates a mother who meets the third Sunday of every month from three to 5pm. At Pacific street bar 17. Pacific Street, also over here in Montrose, getting us three to 5pm. Sunday, every Sunday, every third Sunday. He'll the Houston educates, and encourages group. Now that's a really good group they're very hands on and all of their workshops that I've done, I've participated in a couple of them and I've attended some of them. And they've all been very, very hands on. Definitely very realistic, and really exciting and be their own fun too, because they think they close the door and lock it at 3pm. There's a group called the balance collected, which has educational workshops and also the social group support group play parties, things of this nature. They're meeting every Sunday 2pm And they're the group if you're if you're out in Galveston, they're the groups are tuned in for sure. They meet Reno's at 20,814, i 45. South in Webster, again, that's Reno's 20,814 by 45, south and Webster. That's the bound collective group meeting every Sunday at 2pm. Okay, there's a group called items season, which has a new members meeting and luncheon for the members at Joe Joe's restaurant, which is located at 34 and 290 7:30pm. And it's the first Friday of every month. Now autumn season is the source of our calendar, I generally just pick up their newsletter over here and have this VF erotic cabaret they distribute this free newsletter everywhere in Houston just about and it's a really good source for me. I don't attend the regular, most of the meetings and things but I really appreciate the fact that it helps you get the word out to the community here and helps me to keep abreast of the latest events. And that's the Ottomans season group. That's the first Friday of every month that Joe Joe's restaurant, 34th and 290 7:30pm. Okay, Houston, people exchanging power or Houston

pap is the largest group in Houston. They have different subgroups including the citizens Tea Party, a reading group, in different aspects of their organization. However, their primary and main meeting is the first Saturday of every month at 7:30pm at Tantra nightclub which is located at 5718 Fairdale. And as Houston fat, which is a pansexual. Open all fetishes as long as you're safe, sane and consensual, First Saturday at 7:30pm with every month at Tantra night for up to 718 Fairdale. There is a group called fist or females in search of trouble, which means the first Monday of every month at 5:30pm at Cafe Adobe, you must RSVP with Tiffany for this. That's the first Monday of every month is a social group for women. They do not have parties or things of this nature however they do get together and bond by meeting at a cafe in Adobe and going through movies bowling hot tub, bar whatever Tiffany is can be reached out to RSVP for this event at 713-521-5879. Again at 713-521-5879 or AT T slinger s w t s w a n g e r@hotmail.com. There is also P E G which is people exchanging group as a small group in Pasadena for people to fetish kinky persuasion. They're meeting first Tuesday at 7:30pm. At Kelly's restaurant and location, there is I 45 south and Barclays. The National Weather Association group here is primarily a gay male group and our correspondent transaction we're open to everyone and well worth attending. That's meeting the second Friday of every month at 9pm. And I believe also the second Saturday, they have a Barton which is front fundraiser for their booth at Nighthawks, which is formerly the venture inn located over there on Main Street and go over there to Nighthawks you can go upstairs and they have this party and you can meet some new people to reserve the regular meeting is prior just prior to that like at 8pm. Again, that's their National Health Association, which is a support group and a political group and does whatever they can manage to do in terms of building a community for us here with a letter saying they're meeting the second Friday at 9pm at Nighthawks for their charity, charity Barton. Okay, I think That's all the groups that it goes into. There's, there's more and more of them and it's getting harder and harder to go through all of them. There are a couple of events really, that we want to push through. The main one is the National Weather Association International.

25:14

They're having their living in leather conference right here in Dallas, Texas. And that will be in October. And the conference consists of workshops, parties, different events of political and social and fun nature. And if you're interested in attending the weekend long conference called loving mother, which has happened over the last dozen years, and very easily hundreds and hundreds of people there and the best people from all around the country are easily there. It's definitely worth attending, especially when it happened to be so close to Houston. There was a Plo box and a one in a one 800 Number The one 800 members for hotel and travel information. And the PIO box to find out about little are living in letter is PO Box 763 and 056, Dallas, Texas, the zip code is 76376 Dash 3056. Again, Plo box 763056, Dallas, Texas, zip code 276376 Dash 3056. To get travel information, hotel information, you could contact Tony go Ralph at 1-800-598-7004. That's the big event we're trying to push down here in the local area. There's all kinds of things going around, going up around the rest of the country. The Thunder Mountain News Colorado level Pride weekend is coming up on next weekend and Patricia and I will be there and other folks will be some V there also that's a similar event to living in leather. Goods still probably check out that at love others. I think they still have a poster and some information about that you can fly through right away. So I think that's it for the calendar. If this does anybody have anything to add Stan? Or Misha,

27:11

27:11

do you know we've covered everything? Yeah,

27:14

good. Good. I think we went on for that looks like it took about six minutes. That's good. I don't know of anyone who wants to talk first whether you both have a distinct agenda. Okay. Oh, mission. What let me tell you. I'm at Misha at heal. Heal group in Houston, encourage us in education, leather. And I think we were doing a workshop on modifications. When I was wrapped from head to toe, it was fun. And I enjoyed it wasn't those interviews at all, it was pretty intense. And we were I was wrapped up head to toe, plastic. And these little bit. And we did a lot of other things that are very interesting. CBT which I guess you could say about that stands for general term for torture. If the words victim unfortunately, not necessarily, to be taken literally. Anyway. And so Misha is someone who's out there in the community, she's very, very active and important parties and educational events and, you know, a very talkative woman, very social woman, some of these real community person, we have a lot of professional, professional dominants out there. Some of them are very, very active in the community and helping to make things happen. And she was one of those women in Michigan would like to, we had scheduled and cut some women in here during the summer. And I don't know what happened last month, I was out of town. But I had a couple of women scheduled to come in and talk about women's issues because we're more more women if you're in the sad, of different gender preferences or whatever. We're very interested in having women participate. And basically, Misha is here to talk about how to get how a woman might wish to get started with female domination in the scene. And I don't know, I haven't read your outline of what you're interested in. Having happened but I'm very interested in the social part of, you know, what can you say to encourage a woman to come out as you are and you know, come to the organizations so that some people like me can meet you?

29:51

Well, I think first of all, most females are already armed or possess the inclination and when ability and the instinct of what they lack is the confidence to plunge into the leadership role and enforce it. The physical part is simple. Once the confidence is there, when a girl finds a male who openly or inadvertently reveals his vulnerability to female domination, it is time for her to be daring to move in and take command or physical liability, if any is easy to erase. And that is with the road change handcuffs, you know, and a wealth of ingenious restraint garments that are made for her. The next thing she learns is that the male threat, fury and feedings are so much window dressing to be ignored. And other means that he'll do anything to get out of the situation. But he got no choice. Once she has the upper hand, she can and most steadily increase her control. She puts him in a helpless position. She gets him into female drag, she punishes him physically as much as necessary to be to bring him around obedience. She starts off really small and basic, and then build on from that, and to expand on the training. For example, some people enjoy bondage, you know, being fired and being able to Release your inhibitions, you know, psyche, liberation, so they let somebody else do the decision making for them.

31:46

Many, many men really enjoy the fact that so many women are able to make a living doing this, basically, where there is a demand. Yes, yes. I know that. There are not that many women who are interested in playing the top role of relatively speaking lots and lots of men who like lots of women,

32:10

because women, for centuries have been forced to assume the inferior role. But long time back, there was a time than women ruled, you know, the earth, you know, and it was a dynasty of peace, a peace,

32:30

matriarchal society. Well, I want to talk a little bit about the importance of negotiation when you enter into a scene and getting a gauge on on that and, you know, having a healthy relationship, as well as really sexually hot and adventuresome. And we strongly recommend negotiation and lots of negotiation checklists out there. And, you know, what I'm trying to say is that this is something that you're obviously the partners, generally, what happens is that the male really wants this new frame to speak with her wife and her partner about. And because they'll think of the partner the friction in music, just the opposite is the case. And there are lots and lots of educational books and seminars out there. And if you're comfortable and stables and partner domination is quite easy, actually, in general, you know, the, why, why are you doing this because your top wants to, you know, generally you get to have creative control, and you get to make decisions, and you get to take things at your own pace. And, as a top view, you don't need to be intimidated into doing something that you don't really want to do. And nor does your bottom or your submissive partner. So we're very interested in negotiation around here.

33:56

The most important is open and honest communication between the individuals or partners. That's the basis of any mistress slave or master slave or daddy boy, you know, relationship. And then they could use that as a basis and continue on education by attending workshop, reading books, through people's experiences and also guided play from some of the other professional dominants you know, that have experience because they are, you know, some of them are skilled and knowledgeable in a certain area of play. And there might be a certain top who's uncomfortable bottoming so they go to an expert, and be able to carry out that fantasy or that roleplay

35:00

There is a lot of wherewithal involved as you know, it's not not an attempt to sound intimidating. But to be a good dominant partner. I think you need a lot of character and integrity, incorruptibility in in certain certain ways. And also you need to have creative skill and

a plan you need to be able to handle different techniques and for the safety of your partner and also for the excitement involved. And there's some tricky, tricky things to know. There are some tricky

35:34

things you know, you know, when people call to consult with me, a lot of them would like to enhance increased sexual intimacy. I usually would either suggest a few things like inexpensive tools and materials or toys that they can buy anywhere hardware, leather shops, or any of the other stores that specializes in Oh, in dungeon for nearly a year.

36:10

Now we have about at least three here in town Yes, we have Delaware, which is

36:16

Western 91 Nine Westheimer.

36:20

We also have leather by foods which is over here on Fairview I

36:23

believe is it 712 Fairview or not excuse me 811

36:31

also lead forever further forever run down the street from other lizards on Fairview erotic kangaroo all the cancer re envision underplaying some bizarre, bizarre, bizarre, bizarre, for at least 553 to get things walking, trying now, I recommend trying things out for yourself, try them on mail orders don't use a workout for a little for.

36:55

And I recommend for any beginner novice, female, with the dominant to get sexually dominant woman by Lady green.

37:07

Yes, we were interviewed a few months ago. And by the way, a lot of these interviews are being

archived on a website called s a n d, or s&m dot com. If you are interested in hearing the lady green interview or the interview with Jay Wiseman or I don't know who else we got on here, we've got several of these interviews archived. On there you need her I think real audio software and for Internet Explorer has a you know, basically you need to be able to download. And a lot of us can do that already. Certainly, if you download video, you can download audio on the Sunday wild, same software. And check us out you know, you don't have to stay up all night and listen to us every single night.

37:57

There's a wealth of information, Jimmy, Jimmy, infinite devastation I didn't,

38:02

I need to break in here and do a little pitch. We've got a marathon this weekend. And we this is a community radio station. We don't have commercials as as you know, we haven't come in here and tried to sell toothpaste or soft drinks or anything like that to you. Which means that the listener supports the radio station. It's a very weird concept. But when you think about it, the radio was on earlier and said that you know you already, every one of you out there support commercial radio to the tune of about 90 bucks a month each person because you buy the products that they sell. So you're already doing that. What we're saying is that they're taking money out of your pocket without you knowing it. What we're saying is, why don't you just reach into your pocket and give us the money that you want to give. And that's, you know, a \$60 pledge will really kind of make you feel good, make us feel good, make management feel good, make them realize that this is a program worth keeping. The number to call is 526-573-8526 KPFT. While you're calling that I want to put a little tune in your ear to take a little break here. And it's by a group called to its actually three people in the group. But one of them is Bob Helford from a Judas Priest who recently came out of the closet and we're happy he did. Didn't have Faith No More for Alan, who requested it, but I do have two with Bob.
