B Brian Bradley 01:50

B

Brian Bradley 02:58

What was his name? Or do you'd rather not say? Well, I don't know if that would be fair to say. But I'll bet you ask everybody else who the hell they're taking to swing.

S

Scott Lewis 03:30

It was it was a nice dinner, but does it make sense that it just wasn't it didn't seem like we had anything in common. It didn't seem like there was I mean, just oh, he was smart. Like he was intelligent. He was smart. You know? I didn't want nothing in common.

B

Brian Bradley 03:48

S

Chances are high that went right to your

S Scott Lewis 04:20
bride, I think you're the cat with asthma on that tape.

B Brian Bradley 04:24
Well, anyway, so are we going to put out a plea once again tonight? Maybe I should plead for a husband for you. Oh,

S Scott Lewis 04:31

B Brian Bradley 04:34
Maybe I should plead for you to have

S Scott Lewis 04:38

It's not blood red. It's a cherry shade. It's a burgundy. I'm glad. Hopefully cherry got

B Brian Bradley 05:33

S Scott Lewis 05:39
Well, I don't know Brian, because when I was born, they did have birth certificates

The Mr. T gra 93 candidate is going to present a benefit for the Montrose Care Center in the memory of Ricky O'Shea. And this is going to be 8pm. Sunday night at DJs 20 517 Rap Street at Westheimer. It's a very good cause and a means by which to remember Ricky
- J** Jimmy Carper 07:22

you bet Ricky was one of the foremost drag entertainers in the city and he died a couple of weeks ago of AIDS. You may remember we did a little memorial.

B

Brian Bradley 07:34

So come out and and remember Ricky and support this fundraiser

S

Scott Lewis 07:44

son also Sunday from seven denied a furball on your throat. Hmm. It could have come off that politically incorrect coat you seem to wear around every winter. I'm sure

B

Brian Bradley 07:54

I've only had it for one winter so I haven't worn it every winter.

S

Scott Lewis 07:59

Good Lord knows you were around for the first. So this one is at what 8pm? Well, now this over here is going from seven to nine Sunday about DRB boots and buckles. Sound kind of exciting. It's a it's got to what is this? It's a benefit for the Montrose clinic capitol building fund. Now do you know what this is all about?

B

Brian Bradley 08:23

Scott, you are so informed. You know what you ought to be in the media.

S

Scott Lewis 08:28

Monitoring and do you think that's for the husband?

B

Brian Bradley 08:30

He can wait if he's worthy. The Montrose clinic is refurbishing the building on lower Westheimer and bringing all three other buildings under one roof and it's gonna cost well in excess of a million dollars. Do

S

Scott Lewis 08:41

you think they'll raise that tomorrow night?

B

Brian Bradley 08:43

Well, if you go there and they're serving food, they might yes, they're gonna raise it with dedicated gays and lesbians turning out to support their clinic. That's right. They should. So tell them when it is where it is. And it's

S

Scott Lewis 09:01

tomorrow night Sunday from seven to nine at the br b and I'm sure we ever everybody knows where that is. It's on Brazza street right outside of downtown.

B

Brian Bradley 09:09

It's to benefit the Capitol Capitol building.

S

Scott Lewis 09:14

And you can go a little early five o'clock and they have I don't know if I'm allowed to advertise for the BRB but at five o'clock they have steak night on the patio for \$5 Steak they potato and salad. Is that all you can eat? They better hope not.

B

Brian Bradley 09:29

Lord God the cow population just went down. Move them up Rawhide here comes got,

S

Scott Lewis 09:36

you know, this. This, there's this page staring me in the face. And it really intrigues me. It's in the new advocate, which is has a very intriguing cover. It's got a very demure faced George Bush on the cover and it says why Bush hates you. And it's a disappointing article at best, I thought but there is a, an article an interview with a preacher who is just so anti gay, and he's talking about why homosexuality makes God vomit. And I want to talk just a little bit about

B

Brian Bradley 10:17

why it makes God vomit. Hmm. Do you want to do want to grab that line first and then we'll talk about this as Hazel on the phone and talk to her at a booth and you're she's ready to get

S

Scott Lewis 10:28

this is Hazel. Hazel. Are we? Hazel? Are you there? Hazel?

10:35

Yes. Video. Are you doing great. How

Scott Lewis 10:38

are you, Hazel?

10:39

Missy, I didn't hear from you. And I had called and left a message for y'all to call me

Scott Lewis 10:44

along. Sorry. I don't I didn't get that. No. Hey, all right. I know Hazel Hazel is a woman that I met her son. And Hazel you have to correct me on this story because I don't know it real well. Hazel's son, I believe was killed. And the court case that she was involved in was bumped by the Paul Broussard, one of the Paul Broussard trials that never came into being, which we're still waiting on. And Hazel has been incredibly supportive of Nancy Rodriguez. And I've run into Hazel a couple of times doing different things with Paul besides mother, and. And at a barbecue not too long ago, right? What are you up to Hazel,

11:25

I have to go to New York and a couple of days. And I want to get Miss Rodriguez phone number than what they have out to y'all. And I haven't listened to the radio program on the weekend. But for a couple of weekends who wasn't on there. So tonight I tune in and the program. The fundraiser that you just mentioned on the radio. A gentleman I mean a gentleman. I was escorted to a concert this evening by one of his friends. Concert for NRP ricochet. We went to that tonight. And his name is Shawn. And I hope he's listening. And I tell him all about the program. But he seemed to know about the program, but he didn't know you

Brian Bradley 12:09

need any young man man?

Scott Lewis 12:11

You need to get him to call in for the husband hunt Hazel. Oh, hold on just a minute. Darren, I'll get you Nancy's phone number. Okay. That was a haze. I'm glad she called and got in for just a minute. I heard the concert for inner peace was tonight. And I forgot I had to work and couldn't make it. Do you? Do you know anything about how that went?

B**Brian Bradley 12:32**

No, Mary, I've been here the whole dang time you have? Well, the concert. I just came from there. Let me remove this mannequin from his chair. Anyway, let's talk about this let's talk about but you know, we've not talked about politics much tonight is going to be the last opportunity that we have before the election. So maybe we should spend a minute or two on that and, and encourage everyone to make sure that they go out and vote November the third a second, the first Tuesday in November. And a heck I'm just gonna go ahead and say about a straight Democratic ticket and leave

S**Scott Lewis 13:04**

for that tug of war and leave

B**Brian Bradley 13:08**

Republicans out of office. But for all those people who don't believe that this country has undergone a fundamental change in the last 12 years under the Reagan Bush administration, I've got news for you things are getting pretty bad. But last month in Iran, for example, there were over 90 homosexuals that were arrested. And it's understood that all 90 of these men were executed public beheadings for the crime of homosexuality. And I know sometimes we take great solace that we live in America. And those types of things can't happen in our country because we have laws that protect us. And we have societal attitudes that don't allow for this type of thing. But I might remind you at one time, Persia, the present day Iran was one of the most culturally cultivated civilizations on Earth. It was actually just adjacent to an abortion of Mesopotamia which is the cradle of civilization. These types of things could happen in America, as is evidenced by the or the initiative that's on the Oregon ballot this November. Initiative nine or measure nine is it's called an Oregon would not only not allow for anti gay discrimination, it would state that in schools that you have to teach that homosexuality is an abomination, akin to beastly ality and so on and so forth. One of the ministers, fundamentalist organizers of the measure nine in Oregon is Jay grim stead and in this month's what the current issue of the advocate magazine, there's a very short interview with him. He sidesteps the issue but says that he does support the death penalty in America for people with AIDS. And just to tell you how successful these People are and not I mean, as far fetched as it sounds on off the wall, measure, Nan is expected to pass in the state of Oregon, one of the most supposedly liberal states in the country. So when you look at Iran who executed at least 90 Men last month for being gay, and you switch over to America, and you see this fundamentalist preacher with widespread support, who has been successful enough to get a initiative, I mean, a referendum on the statewide ballot, to calling for, you know, open legal discrimination, and mandatory, anti gay and lesbian education in schools, you know, what is the next step, the next step is some type of punitive means, all the way up into execution. And, and he's even stated this, so very important that the men and women of this country who care about gay and lesbians, and just plain human rights, come on, folks, it's more important now than it's ever been in our history to get out and vote. And then after Clinton is elected, stay there, be there and make sure he carries out our agenda. And we have the opportunity to create a better society for all people in America. And when we fail at doing that, it's got to be our fault. That's my editorializing for tonight, Scott, say something,

S

Scott Lewis 16:17

you know, something I wanted to mention. A cause that's kind of near and dear to me. Here recently is hippie, the Houston Institute for the protection of youth, we had him on our last show. And I was incredibly impressed with their organization and what what they're trying to do for youth hippies a home in the Heights area, that is housing six young men that are HIV positive, or at risk to be HIV positive, that have been thrown away, basically, by their parents, they've been thrown out of their home and have nowhere to go. A lot of them have been forced into street hustling. And that's why they are HIV positive or at risk to be HIV positive. And the hippie house is basically a house up in the heights, where they have a roof over their head, they have food in the cupboard, there, they have pretty strict rules over their head, they have to either you know, have a job, or be going to school, they encourage them to continue their education, they're given them GED classes, if they haven't graduated from high school, they're getting these kids off the street, and given them a chance for a future. So I'm very, very impressed and very happy to support hippie. Specifically, I wanted to talk about tomorrow afternoon, at an open house fundraiser that hippie is having. Obviously, it's going to be at the house in the heights, where you can kind of take a chance and see what what's going on out there. And what is being done. For these people. You know, the the youth of our community are at risk. And a lot of them are getting thrown away. And this is you know, this is a place for him. So it is a fundraiser, open house, it is \$25 ahead. I know it's expensive. But But the kids are worth the kids are worth it. They're our future. And I'll be there. So if you want to meet me and possibly get married, be at the hippie fundraiser tomorrow, God built evict him tomorrow. It's from two to six tomorrow, if you need more information on that call 942 YUT H. I hope they're not educating them with that, but that's how they're spilling youth.

B

Brian Bradley 18:42

It's real interesting. I've got another announcement here. While we were talking before I forget it was talking about religious bigotry and its influence on American culture. It was a I was going off the wall just the other day. And then I received in the mail from Planned Parenthood of Houston in Southeast Texas, an invitation that doesn't cost any money. It's going to be a presentation. That's entitled The impact of the religious right on American culture. And supposedly this is a project of the Public Affairs Committee and their purpose is to examine the tactics and political agendas that are related to the issues of censorship, artistic expression, sexual education, and church state relations. So it should be a very lively presentation. It's going to be held Tuesday, October the 27th. From 730 to 9pm. In the Hammond Hall at Rice University. If you need more information and would like to know more about this, you can call the folks at Planned Parenthood at 5226363. And they have three different people that are going to be on the program that night William Martin, who's a professor of sociology at Rice here in Houston, and Indiana Dubey who's the deputy, the deputy Legal Director of the People for the American way. She's coming from Washington DC. And from San Diego, there will be Darlie Crockett, she's a representative of the mainstream voters project. So that'll be very interesting and lively I'm sure and it's most important and apropos the religious right is exercising a tremendous amount of undue influence on our country's politics and in health care and elected officials and just every facet of life. And another community project that I'm quite proud I've always is the annual AIDS foundation of this year, it's gonna be it's called the The 10k 5k Walk Run roll Athan, the annual Walk that they're having, it's going to be this year on November the eighth at Sam Houston park at 1pm. If you're not signed up, call the AIDS Foundation and get signed up or just plan on being at Sam Houston Park on November the

eighth at one o'clock and walk for cure, because we desperately need it. This year. Mayor Lanier and his wife Elise are honorary co chairs and they should be there and perhaps we'll see a little bit more leadership from our elected officials in addressing this disease. So Scott has disappeared Oh man, I don't know where he's gone. I guess I can talk about him now. Jimmy what can we say about Scott?

J Jimmy Carper 21:30

That hasn't been said already? I haven't the slightest idea.

S Scott Lewis 21:34

What are y'all talking bad about me?

B Brian Bradley 21:35

I just wondered where you went What do you do go to my phone was

S Scott Lewis 21:39

Oh no, I don't tease my hair. I don't tease my hair other box and put it on y'all do enough of that for me. No, I was I saw the line flashing and men coming in the door and I thought well maybe it's a potential husband that is calling me at five to six KPFT and

B Brian Bradley 21:59

Jimmy go on there and call him somebody come otherwise he's gonna look like a fool and so called

S Scott Lewis 22:07

several people Hazel call Yeah, don't you say a word about my Hazel

B Brian Bradley 22:17

well that what you call it and

S Scott Lewis 22:22

all this talk about this religious bigotry and so forth got me thinking about a song that I want to play out something man I think I know it takes it takes a lot to give a man stimulated O'Brien for once we have come close to the end of the show and run out of things to talk about

B

Brian Bradley 22:48

usually no, usually you have anything to talk about, you know, just brought up the Colby

S

Scott Lewis 22:53

house. I ran into these guys at two Oh, and this even has my name on it. The Colby project is a it's a gay issue support group and I ran into these guys at Charlie's the other day, not that I was there by choice, but I was there. And this seems like a really neat organization. It uh they're they they go on retreats, they have all these different kinds of retreats they go on for HIV or gay issues and so on. And let me get this number out. It's 5228182 and you can get some information because they have this retreat they're going on in December. And it just sounded really really neat. Maybe I could meet a husband there do you think?

B

Brian Bradley 23:38

Yeah. You've liked AARP is coming to town next month also

S

Scott Lewis 23:52

think I could find a husband there.

B

Brian Bradley 23:55

Glen Glenwood maybe I did.

S

Scott Lewis 23:59

God I've met your husband. I know he's from AARP play. He's the only person I know older than my roommate Howard.

B

Brian Bradley 24:07

Speaking of older gentlemen, are you still dating Kevin?

S

Scott Lewis 24:12

Kelly Martino and I are not and have never been involved, which makes such

B

Brian Bradley 24:16

a cute couple. He's so tall and thin and willowy. And not

S

Scott Lewis 24:21

the man is Homer Simpson. He is basis for the character Homer Simpson hair and

B

Brian Bradley 24:28

all we get over it Marge

S

Scott Lewis 24:32

What is this? Women spent what is the deal with spelling woman with a why is this Do i Why did I not get this? Well, if

B

Brian Bradley 24:39

you don't get it out under the announcement Well, anyway, come and join the women's space and live for an evening of our very own. It's called party tails a Halloween extravaganza advancing food drinks, fortune telling costumes and fun. And it's features DJ cherry Wolf and it's going to be from 8pm until midnight. Get On Halloween at set the vote carry building at 3223 Smith, and that's between Elgin and Stewart across from Brennan's. It's an all all women are welcome to this event celebrating their unique history.

S

Scott Lewis 25:15

Just a quick announcement to for the gay and lesbian switchboard, which is a very important part of our community. They are holding training classes in November, Friday, November 6 through Sunday, November 8, and then the following weekend, Saturday and Sunday, November 14, and 15th. You must be at least 18 years of age, you can contact the switchboard at 5293211 3pm to midnight, seven days a week to get some information on that that's a worthy cause. And I understand it's really neat to neat thing to do.

B

Brian Bradley 25:47

Scott, here's a notice that Jim just handed me I'm glad to see it. Ben DeSoto, who's a local photographer, along with no Ben. Yes, he took my mug shots down PlayStation four, he got the job at the post. Don't interrupt me. Alright,

S

Scott Lewis 26:02

excuse me. Sorry

excuse me. sorry.

B

Brian Bradley 26:03

Would you like to read this? Oh, no, no, no,

S

Scott Lewis 26:06

he's got some big words. And please, oh, well, in all

B

Brian Bradley 26:10

fairness, anyway, to local photographers that I do know, Patricia Moore and Ben DeSoto took lots of photographs during the Republican National Convention. And they're staging an exhibition of these photographs, showing the insidiousness of the Republicans and how we responded to them, and so on and so forth. And the exhibition opens Friday, October the 16th, from 6pm to 9pm. At mines age. That's one more street 1805 more street, but for further information on that you can call Patricia more at 861 3713. And Patricia and Ben are very good photographers, and there's going to be other people's work represented there. So it might be interesting to take a look at some of the activities that took place during the convention, some of the evilness and some of the good that came from us. Maybe we'll see a cop beaten a homosexual. The lights were on.

S

Scott Lewis 27:03

Yes, that's right. The flashbulbs were going. Well,

B

Brian Bradley 27:07

no dedicating it to Sam Nucci. Understand?

S

Scott Lewis 27:10

Oh, are they? Good? How

B

Brian Bradley 27:12

tall in the saddle Sam?

S

Scott Lewis 27:13

You know, did you read the article in the New voice about the activist that met with Sam? Yes.

And the feeling they got from Sam that they were good queers and bad queers.

B Brian Bradley 27:26

Well, my my Wonder where he got that divisive tactic at?

S Scott Lewis 27:30

Well, could it have been from Captain Dale Brown,

B Brian Bradley 27:34

Captain Dale Brown, good bait. I address city council Tuesday and on the HPD issue again, and it came up and it still seems as if they only hold out on city council in getting an independent review of the police brutality incidents is good. Oh, Helen Huey and I'd like to enter hair that was going to mention her hair. And I'll just pretend you didn't make that comment. I'd like to suggest to Helen that she put a little bit more of her attention on what's really important in this town. And that's police brutality. And her hair. Yeah. Miss Huey, obviously is prejudiced herself. And she's a novice politician. And she's got a lot to learn. And I think this whole issue is going to backfire on her. I mean, it was a weird world that we live in when I'm sitting there. And I have councilmember John Goodner comes over to me and I think the Chronicle even picked up the comment. He stated that he had read traffic reports that were more informational and inclusive of the facts. Then new cheese report was regarding the demonstration police brutality of August the 17th. So it's a real real world real weird world when you have John Gardner defending gays and lesbians, but I guess just goes to show that no food can be educated.

S Scott Lewis 28:50

I'm sitting with one. You are one. Well, yes, my stars. Well, let's do another song. Before we come back here. Do

B Brian Bradley 29:00

you have somebody on tape?

S Scott Lewis 29:02

I have some Well, no, we're not going to sing because then they'll all turn the dial and won't get to hear our closing comments are closing review. But

B Brian Bradley 29:10

this is my listeners. You've got one last time to call in for the husband hunt. This guy. What is

it? 22 lines here and we do we have one of them are lighted up right now. So Scott's no further down now than he was 15 minutes ago. But this is your one last time for the month of October

S Scott Lewis 29:29

S Scott Lewis 30:18

This is what happens when you put me let me be be, you know, sitting here doing anything pushing the buttons. Let's talk just for a second. This music that you hear behind us when we close up it rock, Margie Adams, it is Margie Adam. And we close up with her every week. Margie is a just an incredible pianist, songwriter and singer. And she kind of disappeared off the scene at the height of her career back in 1984, at what she called a radical Sebat. To do you have to have a radical sabbatical if you knew what you looked like right now with that pair. Anyway. She said it was you know, time for serious internal internal interior design. And she just had her first public appearance and seven years was late last year. And she's going to be here on the 24th at 8pm at Dudley Hall at the University of Houston. And let me tell you, the tickets are a steal at only 1350 in advance and we're not allowed to say that they're they're low, they're a steal. They're very cheap. Well, why don't you scratch this out? If I can't say it. Anyway, pretend like y'all didn't hear that. Okay. Next month
