SUMMARY KEYWORDS

heterosexual, call, heterosexuality, true, people, sex, therapist, fight, gay, hiv, long, fun, straight, sassy, greg, talking, callers, queer, lesbian, holding

00:04

Ooh, that RuPaul is so sassy. Oh, I love her and she was at the March on Washington. She

00:09

certainly was in unbelievable outfit. Unbelievable outfit.

00:16

And they asked her, How tall are you Rupal? And she says with hair feet and attitude through the roof, baby. Let's take a phone call. Hi, you're on the air.

00:27

Hey, I'm calling all the way from Florida author. Wow. Not

00:30

there.

00:31

Yeah, that's a long ways away. It's about 100 miles.

00:34

That is a long way. Oh, who's this? What are you up to tonight, Ed?

 00:40

Nothing. I'm just feeling a lot of parts. And I'd like to say everything to the audience out there that I've got a real brother. very dear to me. 25 years. He's been involved with gay community and all that kind of stuff. I was never really that caught up with it. Didn't understand his plight, but now he's HIV positive. And there's a only thing I can do is holding what I mean, only. The only thing I can say out there to the audience is please get out there and hold. It's about love y'all.

 01:30

Thanks, Ed. Thank

 01:31

you very much.

 01:33

You know, it's it's it's amazing that sometimes it's the family that you know, somebody who's not even gay can drive home the message better than than we can?

 01:46

Or no, no. And it really sucks that it takes something like HIV to bring Edie closer to his brother. You know, any of you out there listening who may have gay family, think about this. Don't Don't wait. Don't wait until it's too late. Or until somebody struck down by HIV or any number of things a heart attack or old age or whatever, you know, get with that family member now or a friend or, or whoever. And this is somebody with HIV, he's talking to you. So I know from where I'm coming from.

 02:36

What do we want to talk about now? You know, it's usually when we have one of those touching moments. Like, ya

 02:42

know, it's hard to get to talking about drag queens and camping and carrying on Yeah, but I mean, we just did music out the wazoo.

 02:50

But Greg on, and let him tell why. Wow, this is this is Greg, yeah, show, if you remember that. So

Put Greg on, and let him tell why. wow, this is this is Greg slash snow, if you remember that. So Oh, no, no, no, no,

 03:01
no, no.

 03:02
What do you have on your little orange piece of paper there?

 03:05
Well, it's kind of orange. I have the heterosexual questionnaire. And it's a heterosexual questionnaire.

 03:14
No, all those off fail. You know, although, I'll take it. You know,

 03:19
all those questions that they ask us. As queers says, This questionnaire reverses the questions that are very often asked of gays and lesbians by heterosexuals. By trying to answer these kinds of questions, one can gain some insight into how oppressive and discriminatory a straight frame of reference can be two lesbians and gays. And I want people to get ready to call in. And I want to say one thing, if you dare try to say one little profane word, on our lovely station, you will be cut off,

 03:51
Greg, something I forgot to do. And I hate to interrupt you. But before we get too far away, I want to I want to talk about the music that that was played. And then when we got right into that phone call, and it got me distracted. Of course, it was RuPaul with You better work, bitch.

 04:05
You don't even have to. I mean, she's like Whitney Houston.

 04:10
And then there's this little thing that Fred's small did especially for the March on Washington

the the Marines lament it's kind of a little funny thing about this guy being so Butch and you know he can take anything but please don't let him please don't make him go into a shower where a gay might see as we wait and before that we had to buy Betty that was a it's a group of three females that who right group who were at the March on Washington and they did that little short piece was bicycle. You know whether to buy she didn't know whether she wanted to ride a boys or girls by bike. You know, it's so strong, and the girls being so nice and friendly without the bar and before that was picnic love affair where she she was talking about All her bananas and, and how she made her come quite a lot and stuff like that. Funny, funny, funny music. It's called Betty. You've probably heard it before and other shows here at KPFT. But we're happy to present it on after hours since Betty was a part of the March on Washington. Okay, sorry, Greg. There you go. Okay.

 05:26

Get ready to call. So here are the questions for the evening. What do you think caused your heterosexuality? Oh my god.

 05:35

What is that? What do you think caused it? I mean, God couldn't have intended them to be that.

 05:40

They chose that it's pretty chose. Yeah, it's again. Yeah,

 05:44

sure. I think. Yeah, there they were dropped on the head as children, they should have

 05:48

chosen beastly reality that's a better choice. You know?

 05:52

When and how did you first decide you are a heterosexual? Hmm? Is it possible that your heterosexuality is just a phase that you just may grow out of me? Yeah,

 06:03

in most days, it'd be that

06:05

you know that crazy. They put that that? Ozzie and Harriet white? Yeah, you know, I mean, I don't understand why people just didn't get it outrageous. You had the wife and the father and then the kid there. Well, half the people think that that's acceptable that you can just go do that. Yeah.

06:22

Just keep keep them away from the opposite sex and, you know, let them hang around their own sex for a while that'll help them out.

06:30

Is it possible that your heterosexuality stems from a neurotic fear of others of the same sex? That's that's

06:38

a good thing can be scared

06:41

for? I don't see those ads. I don't see those phone lines like No, but I want to hear I want to have some callers. Okay, I want to have some callers when I'll get ready. All right. If you've never slept with a person of the same sex, is it possible at all that all you need is a good lesbian or gay lover?

06:58

That's probably what

06:59

yeah, that's what it is. They need and they need a good fag.

07:03

Yeah, I just haven't found the right man or haven't found the

07:06

right one. Yeah.

07:09

To Whom have you disclosed your heterosexual tendencies? Oh, you know, can be very dangerous.

07:16

I don't want to hear that can be

07:17

dangerous. You know, it's fine. If it's fine if they want to be that way. But I don't want to see that stuff on the street. Yeah.

07:26

I want to see those lines letting up. Now, here's something I want to know. Yeah. Why do you heterosexuals feel compelled to seduce others into your lifestyle? Oh, I know.

07:40

That they resonate with crucible. I know nobody would want to be that way they have to recruit.

07:46

I know. It's craziness. You know, I want to say a profane word. This is getting fun. But I won't, Mr. Sec. Thank you. Thank you. Why do you insist on flaunting your heterosexuality, can't you? Wait, wait, wait, can't can't they just be who they are and keep it quiet? I know. I mean,

08:09

they're like holding hands. I saw one I saw a heterosexual couple of kissing in a restaurant.

08:15

They want to do that in their bedroom. That's their own business. But you know, I don't want to see that snail.

08:19

You know, and that group that protest group, straight nation, what is that all about? I mean, is that just I mean, just that just be all. I know it and they want I mean, and they want to use the politics to gain there.

08:42

And they expect respect from us, you know, do and stuff like that. It's going on right.

08:48

Now, this is all been fun. There's been a lot of laughs Yes, but this one has a 90%. Estimation. A Dysport a disproportionate majority of child molesters are home or heterosexuals? Do you consider it safe to expose your children to heterosexual teachers? 90%.

09:13

That's true. It's over 90%.

09:16

Of actually it is true. Now that we'll get some color.

09:20

Five or 96% of all child molesters are heterosexual that is true that

09:26

it doesn't matter the sex of the child or the sex of the perpetrator. It has nothing to do with it. Yeah. How

09:32

could you entrust your children in a school with a heterosexual when you know these statistics, I mean that is that is that is not seduce your child into their perverted lifestyle.

09:46

That is not crap. That's that is that is that is a true for Senator true that is a true percentage.

1% true. Estimation. Okay. Remember, even with all the societal support marriage receives, the divorce rate is spiraling. Why are there so few stable relationships among heterosexual?

 10:10

No, you never see them lasted very long. together a couple of weeks and that's Oh, they're just been divorced. Right? They're just in it for the sex.

 10:19

Yeah, their whole community is built on sex. That's all there. That's it.

 10:26

This This one is very true. Also look at beer commercials. Why do heterosexuals place so much emphasis on sex?

 10:33

They do? They do about sex. That's all they care about those heterosexual.

 10:40

Considering the minutes of overpopulation, how could the human race survive? Everyone were heterosexual.

 10:47

That's true. I mean, the world would just explode. I mean, we can't feed all those kids. We can't feed the kids we've got no God. They just one nuisance after another. These.

 10:57

We need more recreational and not procreation.

 11:01

Thank you wrap your willy it should be about love. I mean, if you have to practice heterosexual sex,

 11:09
just wrap it up. Just

 11:09
wrap your rascal

 11:13
come I feel a saran wrap commercial

 11:17
into the world and then you're going to try and you know, you're going to try and get them to be part of your deviant lifestyle. You're going to try and bring them up heterosexual. They don't come that way. Yes, I know. You're shocked. But I tell you, these people are breeding and then and trying to like bring them up heterosexual pretty good.

 11:47
These week god,

 11:48
this is kind of fun. Three more. If you're looking for 89.3 Honey, this ain't it's next door a little more to your left. Yeah, get much more to

 12:00
your left five to six KPFT. I want to I want to have some callers. I want to

 12:06
argue with these people. He's in bed. They're too tired earlier

 12:09
earlier. We had lots of colors. This is making me angry. Could you trust a heterosexual therapist to be objective? Don't you fear that the therapist might be inclined to influence you in the direction of his or her own leaning. That's

 12:24
exactly

 12:26
that is true. And you know those therapists are all leftist liberals and they think heterosexuality is okay. Oh god. Yeah, I know. I don't I don't believe anybody felt that way. Go ahead.

 12:39
We got two colors now. Maybe go ahead. Yes. The second. How can you become a whole person if you limit yourself to compulsive exclusive heterosexuality and failed to develop your natural healthy homosexual potential? That's

 12:53
a good point. Very good point. How can you how can

 12:57
you feel hope they must be on the edge all the time? You know? Yeah.

 13:00
Nervous? Yeah.

 13:02
You know, and people wonder why why? Most all heterosexual smoke they've got because they're on the edge because they're on the edge there. They're worried about being straight bashed. There seem to be very few happy heterosexual techniques, techniques have been developed that might enable you to change it. If you really want to have you can wait, wait pill, what little little more? Have you considered a version therapy?

 13:34
Well, now this is a good point, too. You know, they could get therapy for this. I mean, you know, I mean, we could start an ex heterosexual as club

 13:47

11 13:34
One can only hope.

13:45
And there's always a little pink

13:46
pill. But let's let's let's let these callers why not?

13:50
Because nobody's come and told us that we have phone calls. It's the rules. Are there any more

13:56
than this last one?

13:58
I tell you those perverted heterosexual they get on my nerves. What else gets on wonder? Well, let's see. Oh, this gets on my nerves. Did you see this? The Army's six the six the army, which I guess is like a certain segment of the army. Their soldier of the year for 1992. Rick, are we keeping you up big guy? I saw you yawning. Yeah. Well, that's because I was checking out your legs. Oh, six Army soldier of the year for 9090 to discharge proceedings have began again. Which one is it? He came out at the March on Washington.

14:47
His name is Jose Zuniga.

14:49
Oh, yeah. He was he was in that great group of of men and women in the services that what came up on the stage?

14:57
Yeah. And he was in Desert Storm and yeah, But not like Yeah. And he was cute and Hispanic. Yes. Well, he can hear that Rick. He's on my list. List. Does

15:12

this mean that you do we're going to be fighting over them now? We might.

15:14

I don't think Well, I don't think we have to. There's a generational gap.

15:19

Live play by play here on KPFT.

15:22

Okay, are we ready?

15:25

Hi, you're on the air. Who's this?

15:27

Are you talking to me?

15:29

I'm talking to you.

15:30

Okay. My name is Alan.

15:32

Hi, Alan. How are you? Pretty good. I

15:34

got a couple of comments.

15:36

Okay, go ahead. Are you single?

15:38

Oh x. Well, I'm semi single meaning you're a tramp. Okay. I'm a flaming homosexual. Yeah. Wait a minute. Wait a minute. Wait a minute. I wanted straights to call to bad who cares about straight sexual however, I am very monogamous. Meaning I wear my thing you can't go outside when I'm going to the university I have my freedom rings when I'm out in public bla bla bla.

16:05

Monogamy you call the wrong show. Alan that's over to the left on the dial.

16:09

Well, I got to understand not all of us that have the you know, the worship the great phallic symbol or flame or me tramp are point seekers. Right, exactly. I don't go to the bathhouses etc, etc.

16:24

So exactly what he's saying about us that do. No, I'm teasing out I've never been to the bathhouses I'm just teasing

16:34

by himself.

16:37

But you know what, Alan, you bring up a good point, because that's a battle I fought for a long time because I was I was in a monogamous relationship. And that's a battle that you have I was was, it was 45 queenly. Be alone. But that's a battle that we fight because that's a stereotype of our community that all of us are just into cheap, quick sex. You know, how? Minutes ever gets out of my car.

17:10

Go ahead, Alan, I originally called for the reason of the psychiatric comments that you made.

Okay. Although I would like to add something also about the military. Okay. But the first thing on the site psychiatric side, I've had therapists both that are straight and gay, male and female. And just my own personal experience, is that I've had the best help from the very strong, belligerent male that tend to well, he's the best therapist I had was heterosexual. Okay, but he but he was not as was described a moment ago as therapists being left wing and heterosexually oriented, left wing would tend to be more open minded. But I just wanted to make a comment that my My best experience personally, was a heterosexual Now, the other the other comment, y'all started talking about the military, I have an interesting history. I was in the United States Air Force for six years. And I was brought up on charges charged in the UCMJ with homosexuality and sodomy. And I'm one of the probably very few beat the charges and got out with an honorable discharge and a lifetime pension. Wow, how'd you do it?

18:39

Did you do that? All the

18:40

details I don't want to necessarily go into simply because I do want to still protect my pension. Okay, okay. But let's just simply say that I did end up spending quite a long time in Psych psychiatric inpatient therapy, in which they tried to straighten me out so to speak. I underwent I could go down a list as long as my arm of psychotropics both simple a depressant to the to the extremes of the antipsychotics of Thorazine held off telecine mellow, real, etc. And this was a while ago, and I don't I personally don't know if things have changed under the Bush administration. I was in under the Reagan administration. And they didn't straighten me out, that's for damn sure. All right. But I would have to say that the military simply because of its machine, and my determination to fight that machine, did more damage to me, not simply on a psychological basis. But that The very basic biological processes that they put me through in their containment scheme, a chemical contaminant. It was it was a pourraient. I, it's the history is painful. And that's one reason why I don't want to go into it. The other side is I'm still wanting to protect my pension, because it basically paid me off to keep my mouth shut. But it's, in some ways, I don't want if there's a stray listener out there that's on leave or whatever. And he's homosexual. And he's very veering because the OSI or any any special investigations branch is after him. Don't worry, there is a path of salvation. It may be painful, if you have to fight it. But it's worth the fight. Because we are here, we're not going away. And

21:01

we're fabulous.

21:04

You know, it's, it's, it's worth the fight. That doesn't necessarily mean you have to miss you have to carry a picket sign saying I'm a flaming queer. But be proud of who you are. That that's what kept me alive today.

21:17

And let's send him off with a good old queer nation chant. Remember this? We're here

21:30

thank you. Thank you. Thank you. Thank you.

21:33

Oh, what a great show. We've been sassy and had a good time.

21:38

I want to I have one more little thing I want to say actually, it's a big thing.

21:42

This this will be a little different for you, won't it? Yes, it will.

21:46

This weekend is the 140/5 anniversary of your birth

22:00

after you go by anniversaries, you know, nobody else. Nobody else in the room would know that. But I've known Jimmy longer than any of y'all. So these grand secrets.

22:09

So tacky. She has those cash.

22:14

Common Trash Trash. Yes.

22:16

Oh, golly.

22:18

It's 140/5 anniversary of bearing church. Oh, wow. Yes. And bearing is done a lot for this community just in the past few years. But you see, bearing has a history of doing that. In the gist. I was told about this tonight by by Judy Reeves, a former co host of after hours, that just a few years after its inception, there was like a yellow fever Fever plague in Houston. And that's when baring started with its nursing staff and caring for Houstonians, and through the years that kept that nursing staff up so that in the 40s, the 30s, and the 40s, when the polio scare came, they were equipped to handle and to serve the community. And now with AIDS, they've they've we all know what they do for for our people with AIDS.

23:21

And you know, their bearing has done incredible. And we all know just all the number of things that bearings done.

23:29

I think the only dental clinic for PW A's in the country,

23:34

you know, and there's an easy kind of neat, fun way to support bearing in and not real and just didn't take a ton of money. Rick and I went a few weeks ago down there on a Saturday morning. They have a thing called The Breakfast Club. Yeah. And you go down there between seven in the morning and two every Saturday. One Saturday a year I thought this was every Saturday. Well, so much for that story. Yeah, well, she ate right. She's a dinghy queen.

24:03

Well, if you talk about it long enough, maybe we'll have to do it. Every Saturday. People will be knocking on their door say

24:11

Oh, well, we went in and had this great, neat all you could eat breakfast for seven bucks that benefited the church, you know, and it was just a big ol room full of Queens. It was great. I thought it was ever Saturday.

24:22

I've done that before. But I didn't know when it was the sheer

24:25

arrival. It just happened. Well, I thought well, that's Hello. Well, here's what's your number. We'll call now. I have the pastor's home number.

24:40

I'm sure she does.

24:42

Oh, you know, I'm just teasing. Um,

24:45

there's one like final thing I wanted to say before we did check out. Right now what's going down is the Penal Code. The Texas penal code is being rewritten. And we've been trying to get 2106 A sodomy law taken out of the box. off the books. Now what's happened, like recently, I think is that the Senate has voted to repeal 2106. But next week, it goes up before the House of Representatives, which is a much larger your body and has many more conservative Republican types.

25:14

So it has a tougher, tougher chance to pass. Exactly.

25:18

So what I want everyone to do is to call your representatives and urge them to vote for the repeal of 2106. It's a stupid law, it's unenforceable, and basically criminalizes us for doing what we do best to have sex

25:31

and it's just used just to discriminate assault us.

25:35

And I would like to give the numbers for hache and hippie again, if you're a teenager who who need support for your being gay or lesbian call 9427002 and if you have been been thrown out of your home, please and you need some support some food or clothing please call 942988 for

26:03

a Christian His name is Christian. Um, we really don't have time. Christian will talk to you off the air we'll play and be sassy with you because we'll get right off the air and we don't have time. But just hang on babe. We'll talk to you. You have been listening to after hours a continuing tradition. I'll be at New and sassy and improved on KPFT Houston, 90.1 FM World Radio for the people by the people to the people about the people. Please write us. Our address is after hours. Care of KPFT for 19 Levitt Boulevard, Houston, Texas. 77 Double oh six more than a zip code lifestyle. Stay tuned for the BBC News, followed by the carbon dating game with our good friend Eric. Okay. It's been a lot of fun. And thank you, Rick Castillo and Sarah who just popped in the only person who popped in when we said just come on down. And Greg and Matt, thank you for being out in answering the phones and Michael Crawford for popping in.
