👤

09:37

Oh, yes,

👤

09:37

they're chomping at the bit. And just before they come in, I do have a ton of interest in the gay teenage, teenage gay teen. teenage students with five or more male sexual partners are more likely than other teams to be threatened at school and to be in to abuse drugs compared to those who live with we'll have five or more female partners says A study by the Wake Forest University Baptist Medical Center. As a result, those young men will be more likely to be absent from school out of fear or carry weapons, both in and out of school. The study said and substance abuse was higher among gay male students with multiple partners than others. And the whole situation with the gang students in school is a very serious situation and always has been and it's so unfortunate that political and religious right keep suppressing the information that is so desperately needed. And which is why so many of the young gay students are teenagers listened to after hours. Okay, and finally, I do want to point out that TV Montrose is aired on Monday nights only only at eight o'clock on Warner Cable 54 channel

are writing notes.

J Jason 16:24

You are loud boy. I got dumped about three weeks ago. Oh Lord wasn't bad. It wasn't bad at

J Jason 16:41

Yeah, I was dumped the night before Friday. At Rich's.

J Jason 17:06

No, I have to stick around the entire night. I just got very quiet as I used been doing. thinking we're going to tear Small Business real quick. Continuous patient identification.

17:20

The sound of Texas KPFT Houston, a Pacifica radio network station. 90.1 FM 89.1 King EOS College Station. Close

17:33

There we go. We just saw him is an official pretty

17:44

she's she's a radio virgin. Yeah.

J Jason 17:47

It was one of those. It was one of those scenes where we were going to try to be friends remain friends. It works. We're all friends before we started dating, and then there was an awkwardness afterwards. And it was more on his side the minus sign at first. Now it's probably more on my side on his side that hey, that's how it goes.

18:10

But sometimes you get over the awkwardness. I mean, when I broke it up into whatever, anytime you have it on your face for me. After the awkwardness after the awkwardness and then in the mental game, sometimes you get over it sometimes you might actually have a true friendship. Yeah, hi, Ron. Perfect. Yeah. Okay. Oh, no, that's been drama.

18:44

No, no, I had a break up like that. Where, you know, you break up and you want to be friends, but it's really hard because when you see them It hurts. And, I mean, I love her to death to this day. I'm very very very good friends with her now, and I wouldn't trade that for the world. But it

still it hurt right afterwards. I couldn't talk to her for a little while. I needed my space it's good. It was good. It was it was a bad breakup, but it ended up as a good friendship. That's cool.

J Jason 19:17

I didn't experience bitterness until I started experiencing or realizing lies. I can't stand the one thing don't ever do to me is lie to me. So I'm good relationship you don't want to so I started realizing wise but I on the same time. I know. I'm not gonna lie. I've been on the same I've been on both sides of the table. I've been the dumper and the dumping. It's always easier to move the dumper. Not necessarily

⌚ 19:51  
no

J Jason 19:54

I didn't say say I did not say it was easy to be the dumper I said it was easier to move

⌚ 20:00  
Time for not necessarily

J Jason 20:03

just because you I think, I think almost every time because you have time to prepare yourself for what you're going to do as to where it is from your the dump being. You don't necessarily know what's coming up and then you have the Duffer has had time to emotionally prepare themselves for. And they've had time to you. I agree. I'm not saying you

⌚ 20:25  
still have to sit there and watch them while you're dumping, which is just Yeah,

⌚ 20:29  
it really is bad. They're in love with you, or they really, really, really like you and they don't want to be dumped. I was in a five month relationship. And it took me like three weeks to figure out how I was gonna break up with her. It was really hard to break up. I was in a five month relationship and it took me four months. I'm like, 29 days. That's pretty bad. Well, I understand

it is hard being the number two. Yeah. I mean, I remember looking at her face when I was telling her that it wasn't working. And I felt like I'd crushed her entire world. And that's not what I like to do to people I care.

J Jason 21:07

Remember back in back in December when I was in Denver, and then I then I would hear reports about how the person was doing and from on a day to day basis. Now they'd be crying from somebody who told me all these things and doesn't make it any easier.

21:23

Oh, God, I'm sorry. Okay, drama. I love this

21:28

fun as lesbian. We're not quite as tightly knit. So we

21:33

don't date everyone at everything that has a penis, you

21:36

know? That's why you're lesbians. Very much like, Okay, I'm sorry.

21:49

Oh, my turn off for secondary. Gotcha. marching off again, in my room. We're just doing some technical stuff. Technically. Yeah, I've noticed there's only mics in here. Um yeah, no, I'm like, without when we're talking, you can have this pair that doesn't get off topic like usual.

J Jason 22:15

Anyway, let's get back on topic. Breaking up. It's just not it's not easy to do. No, it's not nice. On either side. It's very difficult.

22:23

I had one relationship where she broke up with me once and, and I keep going out. Okay. Mike is fading. Its fading this

J

Jason 22:34

because you're moving forward and backwards.

♀

22:38

Distance matters.

♀

22:41

Right, I should say.

♀

22:43

Yeah. Okay. I remember how or Ritalin

♀

22:48

I got off that in ninth grade. And we're proud of you. I'm not moving in. It's anyway, so far today.

♀

22:56

Hey, there's a song.

♀

22:58

Is my mic still on because it just be my head. screwed up. Anyway, I had one relationship where she broke up with me. And then I was left pretty numb. And then she wanted to go back out with me. And so I took her back and she broke up with me again. And that game got old really quick. So I didn't take her back, like the second time. Yes. And she came and told me like, after that, that she had been so depressed, because, you know, I wouldn't take her back. So she went to a club, and got herself drunk and woke up the next morning with a guy. And it was all my fault. And so that's that's the guilt thing that you were talking about earlier, you know? And that made me feel awful. But I knew it wasn't my fault. I didn't put her in bed with a guy. But it wasn't right, that someone would do that to someone else when it has nothing to do with a breakup. just hard to pressure. Somebody please.

♀

24:01

The whole guilt thing. Like I had broken up with this one guy, and it wasn't really a big thing. But we were in the parking lot of Hollywood Video. And I kind of had to watch him like cry like in

But we were in the parking lot of Hollywood Video, and I kind of had to watch him like cry like in front of me, which really hurt I mean, I did not want to hurt him at all because he's like the sweetest guy. But you know, the whole guilt trip thing wasn't any good.

24:26

What I think the worst thing is, is when they just when you have someone that you really cared about, and but you you know, you don't want to take the relationship farther because this is a person you're in love with. So you don't want to ruin it. You want to save what you felt, you know what was good of it. And then they like tell you they hate you. That always really hurts. When it's like you wish they would respect your opinion. You wish they like or respect your feelings and you know

25:01

I've never been told a hate but I I've been told I hate you in it. I've been told I never want to talk to you again, that hurts.

J Jason 25:08

I was told I hate you by a person who I did dwell back that some of us know. Oh, after eight months after an eight month relationship, eight months,

25:20

eight months was a engagement. Yes, we were

J Jason 25:23

sort of engaged for a while and went away to college to try to have a stronger foundation. But um, he broke up with me on Christmas Eve.

25:33

Got bad Jason. Jason has like, really good breakup stories that

J Jason 25:37

night. Then I took him back. And then on Christmas night it was a couple days later. It was like New Year's it was a couple days.

25:47

It was a couple of new years.

J Jason 25:49

And then I took him back and then we did it again for another week or two and then I guess I'll just call out and say I slept with him and then broke up with him shortly after that. You got your that was basically just my bitterness revenge. And that's so cool. It was but it was also cool for him to dump me on Christmas Eve. So

o 26:10

don't pay us but an eye for an eye a tooth for tooth until we're all blind and toothless.

J Jason 26:19

She got to you. But then we were we were on talking terms for a while and then he did some other bitter stuff like key my car and stuff and then I stopped talking about

o 26:30

the car do not

o 26:31

well, he also he also started asking some of us to start choosing between him and Jason and that's after that it kind of disappeared.

o 26:38

Yeah, I'm so I bet you're confusing the audience because no one was introduced as Jason it was Ian. And Ian also goes as Jason

J Jason 26:46

to the audience. The audience knows that because I always interested

o 26:50

people who have Hey, in Jason Dolores Delilah.

26:54

Dolores Where did you get this Dolores thing?

26:59

I just come up with these names from because it is just to play. I have the theme from Daria

27:05

and my head.

27:07

I have such a crush on Jane.

Jason 27:08

Anyway, Miss Jane. Let's stop talking

27:14

about good. Can I tell my little drama story and tell you how your drama strange? Oh, my drama story. Um, my very first boyfriend, like very first life? Very first one. No, this was like, not last summer, but the summer beforehand.

Jason 27:32

Let's see if we can figure out who this is.

27:35

The timeline you tell your story. Jason and I will play our game

27:38

anyways, I

27:39

seriously doubt you know, but go ahead and guess. No, it was two summers ago. We dated for

seriously, you know, but go ahead and guess. So, it was two summers ago. We dated for about a week, which really isn't a long time at all. But then he sort of wrote me an email actually, and told me that he was dumping me to go back to his ex. And that really kind of pissed me off as I was really hurtin Not really because, you know, I was all attached to him and everything. But you know, because it was like my first little fling and stuff. And it kind of turned out like that. And I was upset.

28:19

I'm sorry, my readers off. Don't

28:21

look at me. You're giving me any responses. Well. My headphones, I

28:29

was kind of wondering if there were any halfways decent backup stories. Oh, are you literally no, I'm not belittling your experience. I'm saying we've only had like these discussions of awful negative and my microphone is just going berserk. Boyd Zurich. Good breakout.

28:46

Is that possible? Yeah. Okay. If you don't care about them, it's really easy to like, carry on the relationship. As a friend of mine. That's my mind is. And so like,

29:00

Okay, I'm listening. Okay.

29:07

Well, we're like we're having a little technical difficulty relationship

29:09

wise, the friendships really you like are excited to carry on just a friendship with them. And so, yeah, that's a good break. But I guess it's a relationship that should have never been by Tracy. Yeah, so hey, Patrick.

29:28

How's it going? Sorry. Wo

hey, how's it going? sorry. we

29:29

were experiencing some technical technical difficulties. Technical

29:34

comedian Patrick are carrying it on all right.

29:36

Okay. Well, like I was saying before the microphone that Blitz. Has anyone had any good breakup experiences or things that weren't necessarily disastrous? We'll see.

29:51

I just told it, but your microphone was out.

29:55

Yeah, we were busy. Okay,

Jason 29:58

I'm trying to think if I've had a name Are you thinking oh, well, I guess the one back in December wasn't all that bad. I mean, we ended up being we still talk to each other on good terms. And then there was Tim that I still talk to.

30:15

There's just not gonna necessarily just break up.

Jason 30:18

Oh, I didn't say good breakup, but post breakup?

30:22

Oh, no.

J Jason 30:24

There was post traumatic stress syndrome.

⌚ 30:27

Oh, Lord, there was a guy dated. Geez. year, two years ago. And we just started, I don't know, we were going in two different directions. Because he was trying to do this. I was trying to get settled. I had just moved back to Houston a few months prior, and we just decided that we needed to split. Yeah. And you know, it was very amicable circumstances. Sort of, it was just sort of, we were just completely moving in two separate directions. So we just decided to save what there was, and, you know, sort of cut our losses and walk away as friends. That's respected so well. Yeah. It was a fairly pleasant breakup. We had sex afterwards, which is really strange. But yeah, it's really strange after the breakup, but for some reason, he just disappeared and doesn't talk anymore.

J Jason 31:23

The only thing that really bugs me in breakups is when they leave you the hope of you're getting back together.

⌚ 31:29

Oh, that's Oh, worst.

⌚ 31:30

Because I see where this is coming from.

J Jason 31:32

Gee, I wonder insane, I wouldn't be talking about about any recent experiences. But you know, it's, it's, it's, it's more difficult to deal with, if there's the open end possibility that y'all are gonna get back together. It's like, just either yes, Jelly together, or no, you're not, don't don't sit there and add the little attachment, you know, but if you know, you know, give me a little while, and maybe we can get back together or, you know, we'll we'll try it again. And shortly.

⌚ 32:00

Yeah. And wouldn't it be great if the rest of your life could be like that? 200 Jason's with the whole? Well, nothing in your life is yes. Or no, it's all has its little attachments here. And there. Little qualifiers. There's no such thing as just yes or no. But

J

Jason 32:19

there's also a difference between like allowing somebody to have some closure and just leaving it completely open.

♂

32:25

Well, that's true.

♂

32:32

Why don't we just why don't we get Jimmy's advice here? He's sitting here shaking his head.

♂

32:38

Yeah, closure doesn't happen.

♂

32:40

I find that false.

♂

32:41

I disagree with I have been, I just doesn't it just not to anybody satisfaction. And it depends on the relationship, because one always cares more than the other. So it's always easier for one of the parties to do the breakup.

♂

33:03

Bit that makes sense. Yeah.

♂

33:07

I think that for you to start an appropriate relationship, you have to have closure, or at least get over them your last relationship before you can join.

♂

33:17

They just walk out. How are you going to get closure? Because there's always

33:22

a break up whether admitted as a two person thing, it's not just the dumper. I mean, it's a it's two people to take to do a breakup,

33:31

or somebody just doesn't says, Okay, that's it, and they don't want to see you again. And that's it. No reason

33:37

to deal with a breakup when

33:38

you see someone really cute and you're like, Oh my God, I want them more than I want you. Bye, bye.

33:43

I know but it's too it's all you have to break up with the person that's the person I mean, it's a choice.

33:50

Well, Tracy, what Tracy? What Tracy? Yes, what happens if someone just you know say you're living with someone and they just up and leave no reason no nothing but by gone it

34:01

affects you and it affects them both. It's two people that it affects.

34:05

It affects two people but it doesn't take two people to break.

34:08

Right? takes one person. Well,

34:10

I mean, it could take two people. That's that's not what I'm saying. I might have said that wrong. That's not what I'm saying. Okay, I'm saying it affects two people. Okay, nevermind. I'm gonna shut up.

34:21

Oh, no, really, what are you saying?

34:26

I am, I'm saying that a breakup affects two people. Of course, I mean, it you know, there's the person who doesn't and then the person who has been dumped like a dumper and a dumpy, like Jason said, I mean, whether someone walks out or not, it affects both people.

34:40

It's just that the dumper has had time to fall out of love, get their act together and know where they're going to be.

34:49

You don't have to know where you're going to dump somebody though.

34:52

That dump is like still in love and all of a sudden, the whole world has been pulled out from under them.

35:00

right that's why i Whenever I've had to break up with someone that's why it's been hard for me because that's I don't like to see that look on their face.

35:08

That's right let's go to some music.

35:12

Yeah, it's about saying good Q traces
