On the evidence provided by that crime lab, which has been determined, factually and, you know, in every way possible to be not credible, that evidence is no longer valid. And I it will be my goal to awaken the families of those 1000s of people here in Houston to the fact that their loved ones are in prison, or, you know, unnecessarily in, in fact, illegally, and we need to take actions to get those people out.

Chris Harrison 00:32

Well, in addition to them, wasn't there also the DPS office that had similar issues that they are the people who are policing the police as far as crime labs, supervising the supervisors? Yeah. And they, they were also found to not be in compliance with and

00:47

they were, in fact, the ones who were responsible for all the labs across the state, you know, for their accreditation and for their accountability and further oversight. And so what we really have, you know, it's such a massive statement. But in these early discussions, it indicates that basically, everyone who's ever been imprisoned in the state of Texas, because of a lab analysis, has a pretty good case about getting themselves released, for lack of credible evidence.

Chris Harrison 01:26

And I mean, almost, you can almost call it a keystone cops affair except that'd be just dishonest the keystone cops because at least their entertainment didn't hurt anybody.

01:36

Good point. Good point. And for what it's worth, I feel really good. I had a pro bono offer for if I ever get in a squabble with these guys trying to do these accomplish these goals. That died. Mr. Jeff Blackburn, the Toyota defense attorney is going to be in my sitting on my side of the table. Considering the work I do, it feels pretty damn good. Yeah. Be honest with you.

 Chris Harrison 02:05

It's always it's always good to know that when you're there, you're in an area where, especially with it coming around election time, people are want to get want to get tough and make it look better. They're getting

 02:15

rid of the rabble like me.

 Chris Harrison 02:19

So I mean, that's always the best thing. What they do is they always go after someone who they can pump up the pump up what they are doing, go after what they consider the easy targets. And it's always good to know you've got a lawyer who's gone up against the system. And one got your back on that situation. Exactly.

 02:35

Right. And we had a brief discussion. And one of the most positive aspects that I could have in my corner is the fact that every word I've ever issued over the air on KPFT is part of the public record, and is in fact admissible in a court of law. And that woods, I mean, I have the words of doctors, judges, people, as you all know, from all over the world, discussing the subject challenging these people to defend their policy. And it would be quite an engagement, I think, if it were to occur, but the shows for this coming week, of course are going to be snippets from interviews I did at the conference. I'll be doing some clips from the KPFT archives, which we have many hours. Otis McClay I want to tell you it worked his butt off. Oh, yeah. Conference. Yeah, he, he really did. He got up early for him. That's, that's a heart ache. And he stayed up late working on it, too. And I had man I respect

 Chris Harrison 03:40

him. Well, yeah, we use Otis a couple of weeks ago with a remote idea with ECC, and he on the 20th. And he was going from event to event that night. And in fact, and well here, we're gonna talk to you more about how we're using Otis next week, right? Yeah,

 03:54

and we should all thank our lucky stars we've got a talent and a resource like Otis McClay

working in our stage. Oh, yes. Well, anyhow, that's it. I mean, it's going to be a highlight week where from the the breaking the chains conference. I don't know. It's like a good buzz. This whole thing was I'm still feeling elated. All the great friends I've met people from, you know, students from since for Sensible Drug Policy and prison reformers out of Kansas. I mean, I've got all kinds of people lined up. We're going to kick them a little harder. We're going to do some good this year, and I do hope folks will become part of the project. hughster Now, one

 Chris Harrison 04:36

thing before you go, Dean, I gotta tell you about this. I found out about this part here. Of course, you know, the movie reefer madness. Oh, yes. Well, they're making a remake of the movie.

 04:47

Who's making these up? I mean, what show time?

 Chris Harrison 04:51

Yeah, is going to be doing a reefer madness and it's based off of the Off Broadway production of reefer madness. And I've heard word of it that they've doing. Tony Award winner Alan coming from cabaret and X Men to and Steven Weber from the producers and Jeffrey has signed on to star in the Showtime screen version of the cult off Broadway stage musical reefer madness. Wow. nev Campbell Campbell will be in that as well. Christian Campbell, Kristen Bell, and a gay Steyer. But Reefer Madness is going to be starting production in April of this year.

 05:34

I'm sure this is going to be you know, the original now is a satire it appears Oh yeah, you know, when you look at it, but I guess back when it was meant to be horror, but they can't go wrong. You know, it'd be a hit.

 Chris Harrison 05:47

Yeah. Alan Cummings will play the lecture. The finger wagging authority, a figure who preaches to small town USA parents about the evils of reefer and narrates portions of the film. Steven Weber portrays Jack the slick and seductive marijuana pusher who runs the reefer den and keeps the local hooked on the stuff to say it was a Baldwin.

 06:08

What was that movie where they we got troubles right here in River City.

 Chris Harrison 06:12
Music Man.

 06:13
Isn't that kind of a remake of Reefer Madness numbers?

 Chris Harrison 06:19
I mean, Neff Campbell, Kristen Bell, Christian Campbell, who we've seen on the show, trick, the movie for our listeners, and a Gaston from Saturday Night Live. But I'm not see if it tells when this is going to be. It doesn't say when they're going to be broadcasting it. But it starts production next month.

 06:40
Well, if it's showtime, it'll be out before two years in and I

 Chris Harrison 06:43
would say yes. So that's interesting little thing coming up there on on Showtime that so we'll get more information about it. We'll make sure we hooked that up with your listener so they can get a little bit information on reefer madness.

 06:56
And if I may, one last little thought sure. I don't know how many people were able to see Peter Jennings the other night, ecstasy rising, but they did a one hour program which basically supports everything I've been saying the government lied. They did they feigned the science. They they did it bass backwards And they came up with findings totally, you know, aberrant from the truth. And then they presented that to Congress got a law passed, you know, it's, we're catching these guys. We're gonna stop them. And you know, and I appreciate the chance to share this truth with you all. We've got to work together. It's over soon as we decide they cannot stop us. It's like David and Goliath and we get to be Goliath with a stone.

 Chris Harrison 07:43
All right, thank you, Jean Becker. We'll hear back from you in two weeks.

 07:48
That's exactly right. And I thank you and good night, Joe. All right.

C Chris Harrison 07:51

Dean Becker is the host of cultural baggage heard here each and every Tuesday night at 630 on KPFT. Part of the drug truth network as you heard me say there Dean Beck will be back in two weeks because next week after hours is going live on remote part of I'm not sure we can actually call the wrap up of our originally was the wrap up I think to our face for radio tour, the we're getting kind of extensions and going on to other places afterwards. But next week is jungle. It is part of the Bayou City boys club event and it's jungle last 12 and we're going to be there at the main event which is tribal heat. And the event is at the Verizon Wireless theater Saturday April 10 from 10pm to 4am. We're going to be broadcasting live from the lobby of the Verizon Center from midnight to four so we're going to be a live remote all the insanity all the half naked guys we can all go boy Don't you wish we had a webcam on our show one of the few times we can say that. But here's the special thing we have got tickets. What we've got is we've got a total of three individual tickets we're gonna give away the first individual ticket this is one person in the door this has a \$45 value we're giving it away to the fourth caller at 713-526-5738 as 71352 6k P F T calling number four gets one ticket into jungle lust the tribal heat at Verizon Wireless next week we're gonna come back in just a moment we're gonna put some music in your ear and at the two o'clock hour is going to become three o'clock so we're going to do roundtable See you in a moment

J Jimmy Carper 09:57
good ol pansy division

C Chris Harrison 09:58
and doubles. Shot up handy. Did

J Jimmy Carper 10:00
you know we can play? We could do a concert of them and Phil, three hours? Yeah, but

C Chris Harrison 10:05
the FCC is gonna be paid. Yeah,

J Jimmy Carper 10:07
there's a couple of songs there that we have to, you know, kind of said things out. Yes, we

C Chris Harrison 10:14

did. We'll work on editing. So we don't have to edit on the fly.

J Jimmy Carper 10:17

So that was Benzi division James Bond dish. And what did we have beforehand? Before

C Chris Harrison 10:21

that? We did. I don't know. I picked up the CD and saltiness. Bob and Bill and Ted's homosexual adventure, there

R Roy McCarthy 10:29

we go. Editing on the fly while they're given a song about giving.

C Chris Harrison 10:37

There was worse than there that we had at it. Yeah, he used the FCC word. Yeah. Oh, the FCC were the bootlickers. I just did your boyfriend. Yeah, we did have our first winner for the tickets. We're gonna give out another two before the end of the show. Okay, but here's the strange thing boys and girls. We are just about at 2am. And it's that magical time of the year, where we go forward to 3am and so that two o'clock becomes three o'clock. Does everyone go out there and find yourself some engineer to reset your VCR? Oh, fortunately, I'm an extra lazy I had one clock in my room in my apartment. I hadn't changed back. So now it's gonna be right. Oh, good. So

J Jimmy Carper 11:19

I want to jump in here and say I don't know. I don't know if David said this earlier, but Mary wrote into us and she wanted to hear a song by Sophie B. Hawkins from Sophie's new CD called Wilderness. It's called Beautiful girl and I don't have that CD and it's not in our library either. I check so that's going to be on my list of things to buy because I do like Sophie B Hawkins. I've got two of her CDs. And it's just you know, the budget doesn't stretch far enough to buy as much as we're

C Chris Harrison 11:54

gonna roll Stanley at night.

J Jimmy Carper 11:58

Anyway, we are like 15 seconds away from that magical two o'clock hour. And of course that will become three o'clock so before hopefully

C Chris Harrison 12:09
the Rasta man Libration, same thing. No.

J Jimmy Carper 12:12
I hope so. So here goes 3212 o'clock is now three o'clock three o'clock in the morning and you're getting kicked out of the bars. That's the only this is the only day of the year you can say that you've been into a bar until three o'clock

C Chris Harrison 12:31

R Roy McCarthy 14:07
Oh Jimmy you're always

J Jimmy Carper 14:10
got a hernia getting that out of the mailbox.

C Chris Harrison 14:13
Jim Jimmy hasn't had anything for his letters. He

R Roy McCarthy 14:15
hasn't had anything for him right.

C Chris Harrison 14:17
Now Jimmy has

B Bobby 14:19
.....

in some of his letters. I haven't seen

C Chris Harrison 14:23
Jimmy Jimmy has had that much stuffed in his box in years.

J Jimmy Carper 14:29
Been so long I forgotten how to do it.

C Chris Harrison 14:32
Okay. Okay, love the guys who read through this. Okay. And didn't put it back in the right order.

J Jimmy Carper 14:39
Well, let's kill Smiley. Thank you.

C Chris Harrison 14:42
Yeah. And we're gonna Should we start with all smiley stuff? Yeah.

R Roy McCarthy 14:49
It was got stuff from smiley Scott. All right, Chris. We'll start with you. Okay, well

C Chris Harrison 14:54
smiley, smiley sent letters, individual ones and sent in basically an entire edition of advocate. Yeah. He asked some questions about it. And so we're gonna, we're gonna go through some of the bullet points he had on here. The first question from Smiley is what the hell is a bug chaser? Aha,

J Jimmy Carper 15:11
that is a person who is looking to get HIV. If you can believe that. This

C Chris Harrison 15:18
comes from an advocate poll and the Senate on the September 17 issue, we asked readers, do

you think media coverage of bug chasers encourages gay men to stop having unsafe sex? 39% said no. 25 said yes. 15 16%. were undecided. Yeah. Yeah, boat chasers. We've talked about them. Occasionally, when we've heard when something comes up about it a couple years ago, there was a group in Dallas, that was putting on a bug chaser, party. Yep. Where basically bug chasers are those who want to be infected. And donors are the name for those who have HIV? who are willing to get it. Give it

J Jimmy Carper 16:00
willing to give it

C Chris Harrison 16:03
and pull your microphone away Darth? I have to keep killing your mic there. It's yeah, it's annoying, Chris. So that's my smiley. That's what it is. Bug chasers are our guys who are looking to, to contract HIV intentionally? Yes. And there's that

J Jimmy Carper 16:29
because they feel that they have this cloud over them about it. And so they would rather just go ahead and get it. So they don't have to worry about it anymore. That's, that's their thinking. Or they don't realize all the pills and the side effects and everything else that goes with it. Or

B Bobby 16:47
they also think that they, they're sometimes people who have lost so many friends that they for some reason, have this guilt plot complex of why haven't I Yes. And that's all there. And yeah, that

J Jimmy Carper 17:02
and for those Buck chasers, who thinks that you're just going to take a pill, and that's going to be okay, if you listen to the first part of the show, I had to do a memorial for a friend of mine who just died of AIDS last week.

 17:18
So I said,

R Roy McCarthy 17:22
also, there's those that are other weird attitude that, you know, people who are HIV positive, you know, that they have all this fabulous, free money and all this other stuff. You know, sound

the word? No, this is what I had been told. On the phones here. Before we had Robert and John and David. You know, I mean, come on, folks, where to heck, as if there's, they have an early days of HIV. There was a lot of social attention put on HIV, and people who are not HIV felt left out. I mean, come on. Now.

J Jimmy Carper 18:15

We never felt left out. As far as free money goes, you try living on eight or \$900 a month? No,

C Chris Harrison 18:22

I think if someone's actually thinking that, okay, you should be able to get mental disability first. Yeah. Because those people are nuts. You think that it could be we're somewhere in the world, if you get the disease that you can go out and have this great sex unprotected, not? I mean, you get the bog and

 18:41

you don't have to worry about getting it, I

J Jimmy Carper 18:45

don't have to worry about getting it, then you have to worry about giving it

R Roy McCarthy 18:48

giving. But once you get it, you can also reinfect yourself even more.

C Chris Harrison 18:52

Yeah. Well, if you're trying to understand Yeah. And you know, there is there is also one other segment of the society where you've got people who are in a relationship one person has the other person doesn't like mine, and they want the person wants to share in that have have that feeling mind doesn't. And well, we do have we do have former people who dropped in on the show here that that was part of the reason why the one intentionally became infected was to, you know, share in that part of their life and unfortunately, did contract it that way. Yeah.

J Jimmy Carper 19:30

But that's and the other side of the coin is once you have HIV, that does not mean that your sex life is over. You just have to be careful and maybe change part of your sexual repertoire. To do safer things, or safe things.

19:48

We should probably get them all of our chaser on the show and talk to them. I think that would be interesting. I think

Jimmy Carper 19:54

it would be too of course they they probably feel overwhelmed with this graph.

Chris Harrison 19:59

Um, yeah. Especially to ever listen to shows one of the things we'll have to take an interview of them and play the tape later on.

Jimmy Carper 20:06

Tony, are you totally confused? No, not at all. I'm completely caught up right now. Okay. Nothing

Roy McCarthy 20:12

they don't understand is the side effects from a lot of these medications? Oh, yeah. I mean, some people have told me that because of their medication. Their feet feel like balls. It's hard to walk on your feet. There's a lot of other good distended stomachs and all kinds of yes, we do.

Bobby 20:31

The great The great thing about me as far as neuropathy is concerned, yeah, what's is that? Is that the numbness then stuff that cut the nerve damage and the numbness that comes with HIV meds and stuff. Is that for me, what since I already am numb from you know, it would have to get all the way up to my you know, practically up to my nipples before I know that my legs were not neuropathy as

Jimmy Carper 21:02

a side effect of HIV

Roy McCarthy 21:04

medication neuropathy mean, it's,

Jimmy Carper 21:07

it's a killing of the nerves and it starts in the feet. It can affect the hands, it can affect the lips. And with the feet. It's a constant. It's a feeling, you know, that feeling when your foot falls asleep? Yeah, that tingling?

Bobby 21:23

That not so happy thing? Yeah, happy eating that. And

Jimmy Carper 21:26

that's like, that's what it's like, all the time.

Bobby 21:29

Yeah. Not a fun thing

21:31

all the time. I kinda liked it. It can be more painful,

Bobby 21:35

not when it's happening 24 hours a day, but then you find that

Jimmy Carper 21:39

you cannot walk on your kitchen floor without socks. Because it's too painful. Little things like that. When they say

21:50

vaccine. That's not going to be a

Jimmy Carper 21:54

if you have a there's no it's not gonna affect the people who already have it affect the people who don't have it. Correct. Okay.

C Chris Harrison 22:03
Now, here's someone here and their letter have a mark about number two.

J Jimmy Carper 22:09
What's number two? Well, he

C Chris Harrison 22:10
numbered the pages. And everybody's letter has different corresponding notes that he wrote down. Number 20. Yeah, so

J Jimmy Carper 22:19
I get the letter. Yeah, thank you.

B Bobby 22:25
Smiley. Thank you for the letter and I'm not really sure what the

J Jimmy Carper 22:30
yes, you can feel me up if I can feel you up. Yeah.

B Bobby 22:35
Can't wait to see two face to face. We I bet that'll be quite a sight for him. He Yeah. You're maybe I should maybe I should read dye my hair before he you know. Want to bring some defibrillator? Yeah,

J Jimmy Carper 22:52
so that you'll look like your picture.

B Bobby 22:55

C Chris Harrison 22:59

I was Joseph. Okay. Okay, I have no idea which one this is? Number 20 I don't know I got one here number two something about the gay game I'm not sure if it's the Gay Games or if it's about tattoo couple acuties and the Bridgestone and see number four a French flop there's a dangerous Dangerous Liaisons a movie maker better have one hell of a compelling reason to have another whack at Les Liaisons dangerous here so some French guys novel respond a movie yeah

J Jimmy Carper 23:38

C Chris Harrison 23:47

J Jimmy Carper 23:53
Stacy here yes it's the shell Stacey

i 24:06

J Jimmy Carper 24:15
I'd like I'd like smiley to let us know what we can send people because recently Robert got some stuff sent back. So you know because I know books have to come from the publishers

C Chris Harrison 24:29
office supplies have to come to the office supply place that's yeah. Like if you were gonna say if you want to send him Oh stationery stationery ask him from the stationery store.

J Jimmy Carper 24:38
But but he was sent the advocates and I didn't know that. Yeah.

R Roy McCarthy 24:42
Oh, those had to go by the for the publisher. Well,

 Chris Harrison 24:45
yeah, I'm gonna have to buy a subscription for him.

 Jimmy Carper 24:47
Well, that's not what happened. Just Somebody just sent him a couple of advocates. Don't get it. Okay. So

 Chris Harrison 24:54
highly. You can get in touch with the people in your mail room to ask them to please explain. To be what rules s 1.92 send them a letter back and tell them what you got busted for.

 25:11
What they didn't even know

 Chris Harrison 25:13
they didn't go open it everything got Returned to sender. And it said rule session. Okay, well yeah, there's another part here where I've heard all right before Roy Stacy GMA not to mention tonight not to mention to name names. Yes.

 Jimmy Carper 25:28
However he did.

 Chris Harrison 25:30
So we've got that. Smiley, I sent you the same package that I was sending to David, and another unit. Oh, and both. The central mail room sent both packages back at the same time. tacky, very tacky. Oh, here's an article called witchiepoo made me Gay Street DVD reboot reissue of Gen X classic HR Puffin stuff like pagans wanted to come in. There's a full page article in the advocate about witchiepoo pagan poo

 26:06
witchy, pagan witchy, pagan scat, Robert

 Roy McCarthy 26:12

 Roy McCarthy 26:12
when those other What have you been up to now,

 Chris Harrison 26:14
when those other hags see you, they'll eat their hearts out anybody

 Bobby 26:17
who answers to Robert on the side of the aisle? I don't know.

 Chris Harrison 26:22
But no witchiepoop it was a children's cartoon back in the 70s

 Bobby 26:27
HR puffins stuff, allegedly it was

 Chris Harrison 26:30
one of my favorites. I don't recall it though. Also, AB fab is coming back to DVD. Season Five.

 Jimmy Carper 26:41
It was a new one. Bob and Alice, is that I think it's about it's, it's a series from England. And it's about a gay man who falls in love with a straight woman's

 Chris Harrison 27:01
basically servers and a willing grace, something

 Jimmy Carper 27:03
like that. But but there's the most English marriage their sexual only he's he you know, he still maintains that he's gay. But it's, I've seen the first three episodes it's really good. If the first episode comes on, watch the whole thing because for the first half hour, I was lost and bored. And then it got into it that is just kind of defining the characters. Two really, really good. Allegedly

27:36

This is a tech off of prints out Philip and Sophie.

Jimmy Carper 27:42

Oh, really? No. Just joking.

Chris Harrison 27:45

Supposedly. Okay, um, someone want to give David a little heads up here where you've made sure we give away our tickets here. So we're going to be giving away the next ticket to tribal heat with jungle last 12 at the Verizon theater next week. We're gonna be broadcasting to you live from the from the lobby of the Verizon theater. So the fourth caller at 713-526-5738 at 713 Jam KPFT gets one ticket to get into jungle lusts 12 tribal heat at the Verizon theatre. And once again, we'll be broadcasting to you live from the lobby. Number four, number four, we're going to do number four. That gives enough that gives us an air of you know we'll get some callers in here. So when you've had another ticket on that advocate quite big a lot of stories on gay marriage \$55 ticket. Yeah. And I mean, if you look at the picture in queue, Texas, I mean,

Roy McCarthy 28:47

oh, there cruises something else.

Chris Harrison 28:51

There is a enough skin to go around.

Roy McCarthy 28:54

I know that Mr. Cruz he is up there.

Bobby 28:59

I don't know I'm

Chris Harrison 29:01

just talking about the picture they have in here from the last if it's that or from from some other event. But I will be talking to some of the some people from BB for the BC BB. BC. I used to the boys love BC BC.

J Jimmy Carper 29:14
No, no, we're giving away these tickets. And how are these folks going to get these tickets?

C Chris Harrison 29:19
We're gonna mail it to you. Okay. We're gonna hand it off there. It's gonna go. It's gonna go through rainbows hands if he's on duty that day. Oh, my will still make sure they get to him though. Yeah.

J Jimmy Carper 29:29
Yeah. So what's next on the agenda? Well, we've

C Chris Harrison 29:33
got Oh, you want to do your letter? Yeah, I

R Roy McCarthy 29:35
want to say thank you, Ron Smiley. He wants to know what all this. He's told me to look at page 25, which was about the 13 days in February about the gay marriage as well. Smiley, what had happened was pretty much as you saw in the advocate article, that Mayor of San Francisco Gavin Newsom who is one heck of a hot, gorgeous hetero hunk. straight boy who decided that to go forward with the gay marriage is because the state constitution prohibits discrimination in any form. And pretty much that is something that started out there in Frisco with 1000s of people getting married, including Rosie O'Donnell and her girlfriend or whatever, and it's spread across the country. And now, President Bush has got I guess he's not getting any or some, but he got goes, you get mad and upset and never want to bring up a constitutional amendment? Which isn't going anywhere? Really? No,

J Jimmy Carper 30:47
it isn't. Well, it

 30:48
took 200 years for the last one to pass.

R Roy McCarthy 30:53
Well, it doesn't take that long for for a lot of the other ones to pad How

J Jimmy Carper 30:56
does everyone here feel about gay marriage? If if you're gay, would would you like to get married sometime to person of your choice? Or

R Roy McCarthy 31:06
I would like that option open, but probably for me. No. Okay, Brett, but that option should be open.

J Jimmy Carper 31:12
Bret.

 31:14
Yeah, sorry. He was happy don't have headphones.

J Jimmy Carper 31:18
Gay marriage? Are you looking to marry the man of your dreams? Or?

C Chris Harrison 31:23
I would be I would go for it. I have no problems with it. I think that if I fell in love with somebody, and if it was a man, so be it. You know, I don't discriminate against love, nor should anybody else. Love is a true wonderful feeling and shouldn't be limited. Just men and women. Yeah,

J Jimmy Carper 31:41
I think you're right. So I like bisexuals, they fall in love with the person and then work out the plumbing later. I see. Yeah. Who else is in there? I love

B Bobby 31:56
I've said this before, because you know, we've talked about this so much that I want I want if I fell in love with the right person. And I want that word. I want that word marriage. Because in my mind, any other word any other definition still classifies us as second class.

J Jimmy Carper 32:25

 Jimmy Carper 32:25
Exactly.

 Bobby 32:26
That's right. And on the other thing, take up the second as far as the law is concerned on the the mayor there Yeah. i The government cannot have it both ways. You cannot have law, a law that says equal protection. And then and then deny something like that to any group.

 Jimmy Carper 32:52
You bet to.

 Bobby 32:53
What a gay people I don't think if the law says equal protections for all of us, then how do we how can they I want to know

 Roy McCarthy 33:05
more than anything else. How in the world to gay people threaten heterosexual marriage. Now, Matt?

 Jimmy Carper 33:14
Are I still want everybody to join in on how they feel about gay marriage. A few other faces in there.

 33:21
I feel like if you're opposed to it,

 Bobby 33:25
don't have a gay marriage. Amen. Hello. There you go have it all right. What

 Roy McCarthy 33:29
about our straight boy Matt? What do you think?

B**Bobby 33:34**

We have more than one token. We've got to token straight boys, honey.

C**Chris Harrison 33:40**

Oh, somebody so we can ride the subway there? Okay.

**33:46**

Well, no, it doesn't matter to me straight to bed. I'm not threatened by gay marriage at all. If you if you

**33:53**

want to get married, go for it.

C**Chris Harrison 33:55**

Okay, my question I've got here for Bobby is Bobby now we're talking about marriage and all that. But here's the thing. We've talked quite a bit about your last relationship. Right? How much harder would it have been to separate from that abusive relationship? Do you think if you had that certificate saying that you two were married? Cuz we have to look at the other side, especially coming from you. That's, that's one thing we didn't delve into is, you know, we've got the instances of you we always hear about in the street community, the battered wife syndrome and how difficult is to break from that and you've had to go through this legal stuff. And in your, in your case with not having that legal piece of paper binding the two of you, you were able to walk away and hide for a while. How do you think it would have been more difficult doing that if you had that certificate?

B**Bobby 34:53**

Given the situation that I was in, given the stuff that I went through? If I would have at that at the point at which my life was in danger, and it was I would have gone through anything to end it. Even if I had to go through nine years of legal, whatever, just to make him go away. You know, that's that's my short answer to that I Fair enough. You know,

C**Chris Harrison 35:33**

it's one of those things we've talked so much about with relationships. And you know, especially when we've talked about relationships that have gone real sour. Are we wrong? Well, we've, we've discussed demon seed, quite a few here. You know, just hearing you talk about wanting that relationship. But I come from the strange situation with my family. I mean, my

parents had been together 35 years, I think, this year. I mean, the high school sweethearts, my father looked across the choir room and saw a big rack and decided he was gonna start going out with her. And that was my mother.

J Jimmy Carper 36:09

She just happened to be attached to those big racks. Yeah. So

C Chris Harrison 36:14

nowadays, you know, you're listening mom. Really 35 years of marriage is unheard of, in the street community. Right.

i 36:25

And that's, like, yeah, and

C Chris Harrison 36:27

that's the sort of thing is I mean, we're, I look at it from a different aspect of the fact, you know, my parents been in this long relationship, my grandparents before them, I'm my one grandmother, she was 18. And she got married from 18 and went live with my grandfather until the day he passed on. My other grandmother. She just recently got married, after she became widowed to a friend, which they've had for years that he got without. So you know, under their definition of what marriage is, you know, my grandmother's marriage shouldn't occur, because there's no way in hell an 80 year old woman is going to be in a marriage to reproduce. If that is that's the Immaculate Conception, or

B Bobby 37:10

the other aspect of doing and I have to say this because David wants to say something. But really quickly is that I think that if I had had the option of marriage beforehand, looking back on the relationship, and what I went through, I don't in hindsight, I don't think I would have let that relationship go that far. I don't think I ever would have married him in the first place. Okay. But that's anyhow, David wanted to like

i 37:49

marriage definitely not about kids because sterile straight people and quadriplegics and stuff like that they can get married so there's no way this is about kids. Plus, we have too many kids out there anyway. Like we don't need to be pushing out more kids into this world. And I don't quite see what the big deal is about because like marriage is not in that also all of a sacred

state as it is I mean contract just look at like I mean, let's just look at how like messed up straight people have made marriage like maybe we need gay marriage in this country to kind of like clean it up like we do all the neighborhoods in town

C Chris Harrison 38:25

were perfectly acceptable to to design their weddings, make the floral arrangements for them, do their

 38:32

straight women are afraid now is basically

 38:35

no one left to do.

 38:40

They get like beat out by every single game man in three weeks when their marriage was put together in a year then I mean, like

R Roy McCarthy 38:47

that, but when you have when it's quite okay for a drunken woman to decide to get married to another girl got a drunken girl to get another brilliant guy out in Las Vegas.

B Bobby 39:02

And by the end of the weekend, so the weekend ended so did the marriage. I

 39:06

was stone cold sober when I got married to that girl. And I'm not kidding. I've already made a mockery of their marriage laws. I

 39:18

didn't I didn't need gay marriage to be okay to make a mockery of their laws. And Jimmy, I do believe you were around when I came back from Vegas and was married to my lesbian best friends. Yes. Girl, my mother's reaction was how do I explain this to your grandmother? And I

said explain it as a business contract that gets her financial aid and me cheaper taxes. Better than that, counting back 13 years to where there's an illegitimate child of mine in Colorado. So there's there's a mother of my child who exists who is not my ex wife. And though the wife and I stayed married for eight years as best friends living in separate states and filed, tax returns together for quite some time, and there was a clause for married living in separate states. I know and so we didn't need I, you know, like, I didn't need any anything other than my weird attitude and my zest for life to make a mockery of their marriage thing. But as far as it goes, like I have the opposite of Chris in there. My great grandmother, divorced my great grandfather, my grandmother divorced my grandfather and my mother, my father and my stepfather. My brother divorced his wife, my aunt divorced her husband, and so on, and so on down the line, and it seems like they all rotate husbands about every eight year

 Chris Harrison 40:46

well, you know, you know, I'm

 40:47

so I rotate every eight minutes,

 Chris Harrison 40:49

I'll see how I feel I already have my defense for at some point, I'm willing to commit some horrible crime. And I'm gonna go before the judge and plead I'm gonna say I plead not guilty, because I came from an unbroken home. And society just does not know how to treat me. I came from an unbroken home and I was an altar boy who was not touched by having issues.

 41:14

Goals you can talk to I have a question on the bisexual end of things. And this was like something that crossed my mind as I lived with my straight roommate, my straight male roommate, while I was married to the lesbian, and I was like, I thought it would be really fabulous to have be a gay man with a lesbian wife and a heterosexual husband. So that I could just offend everybody all. But the question is

 Roy McCarthy 41:42

an equal opportunity offender

 41:43

week I learned in

41:44

all seriousness, though, as as a man who would consider himself gay and I have several friends that are bisexual. Does this open the door? If gay marriage is allowed to happen? Does this open the door for polygamy? Because the next battle will be the bisexuals. Can't I have a husband and a wife? I say sure. I'm all I'm all for it. As many as you want to support and I'm like the gay marriage thing for me. You know, if he can gay marry really well and gay divorce even better, more power to ya.

Roy McCarthy 42:23

More than one spouse is a big mystery to me.

42:26

The only issue seems to come up with that would be like just what sort of rights are they getting in that point? Otherwise, they're just kind of a glorified lover? Well, I could probably adultery technically isn't illegal in most states.

Chris Harrison 42:40

We'll see. Also, the polygamy arguments actually already started after the Lawrence v. Texas where they decided that you know, what goes on in the bedroom is a privacy issue and protected under the Constitution. The guy over in Utah who is was on trial at the time for polygamy. 16 wise, it looks like he's gonna be relocating to West Texas here. Soon. He tried arguing the fact that under Lawrence v. Texas, that there's a right to privacy and you know, what, the fact that he goes, doesn't matter which one of the 16 bedrooms he goes into, then? It should all right. Good. And so that argument already been Yeah,

43:21

drums and yeah, there's marriages only fits with one with one couple.

Chris Harrison 43:26

But that's the first argument of what's the first argument of this polygamy has come up with that.

43:32

But then like, I don't really see what why polygamy is that big a deal. The one that the thing that gets me a brown is when the people start talking about how this is the gateway towards speech reality and pedophilia, which totally, totally different, totally different issue.

C Chris Harrison 43:52
Okay. Well, the funny thing, I mean, varies, you know, there was a group I heard that.

B Bobby 44:00
And I just had a friend come back from a furry convention, you know, I

C Chris Harrison 44:03
mean, if you watch if you watch th one today, they were saying that the road to be Scality was Thundercats. So

 44:13
that led me into reality gives a

B Bobby 44:15
whole new meaning to the phrase Thundercat Oh, yeah. No,

C Chris Harrison 44:18
the fact is that I mean, you know, that's just because they all consider that they lump that in so the road to hell is, you know, it all comes to that part. You don't make sure fibers, they don't talk about that. But you know, let's talk about the homosexuals and it's gonna lead to be sociality and all these other things. Well, then a lot

 44:36
of these people are the same people who take like five year olds to go see the passion and I think half of

B Bobby 44:41
that drove me nuts. Why I went to see the passion with Mr. Calusa ah, and and not four seats away from us, is a husband and wife and their A five year old, who every few minutes is asking, Mommy, why are they doing that to ham?

C Chris Harrison 45:10

Yeah, sometimes a mouth of babes is a wonderful thing I remember. Oh, it was just yeah, we

45:16

need you the same people who like a flat i Two seconds of Janet Jackson's ticket and we all go in an uproar.

Roy McCarthy 45:21

The nation went into a colorful cardiac arrest over that. But I want to tell you some taking a young Kyle like that of that age, to see the passion of Christ can cause more psychological damage. Then Janet Jackson's pity. Gary

45:39

homoerotic movie,

Chris Harrison 45:40

Mel. Mel Gibson said flat out very, very rip cord. Mel Gibson came said flat out from the beginning that this is an R rated film, you should be treated like that

Bobby 45:54

the difference between the data and the rip cord is they left the at the rip cord, they leave the skin attached. So

45:59

many people are religious.

Roy McCarthy 46:03

The problem and I hate putting it like this, but it's the pastors and whatnot of these Christian churches saying bring the whole family to see this is Christian. You

Chris Harrison 46:14

know, I mean, when you talk about the fact that the kids like my personal experience, this is personal experience having to do with the passion. Okay, back back in the day when I was a high muckety muck with my church. You know, I was I was I was Elektra for a while at my

Catholic church, St. Aigis. I did.

B

Bobby 46:32

So you went from a lecture to a lecture is that anyhow, go on.

C

Chris Harrison 46:37

I will see I was asked I did a couple of the Passion, Passion readings, we didn't do a full play. We just did passion readings. I was so upset when father Mikey changed where I've, because I also played Judas. And I was so upset when he changed it from the fact that you know, Judas gives gives Jesus a kiss to betray Him and to do that. Yeah, I was I was I was gonna rewrite it there where he gave him a tongue kiss

47:04

but the big kiss are Judas who at the time like to grow and is now and currently out of the closet finally,

C

Chris Harrison 47:09

but my Father Father Mikey, strange questions we'll name we just did one of those is your there's old fashion, you know, arm clasp, they're armed elbow, armed hand elbow sort of things. That was the way I was, had to betray him. But you know, during the time when you're doing the scene where the crowd the audience participation, where they're supposed to yell, Give us Barabbas Who do you want for some little kid in the back goes, Jesus. So that's the problem was, I mean, Catholics, we don't read the Bible. That's why That's why we are priests don't marry figure. They've got they've got six days at home alone. They can do a book report. And tell us what what we should have read. But you know, I mean, the passion, it's, I mean, this is powerful movie. Yes. But you know, it's not meant for kids. It's going to scare the hell out of them. It can cause

R

Roy McCarthy 48:07

some psychological and emotional damage. Really good movies.

C

Chris Harrison 48:12

But when you movie Yeah, the thing. The funny thing is when you talk about okay, with polygamy, okay? That's a religious issue, actually, especially in Utah, because there are some old law hardline laws, many Mormons where polygamy was legal in the old style. He's not allowed in the Mormon church. And, you know, because what they because to be accepted into the United States, Utah had to formally reject it. And so did church. Latter Day Saints had to reject polygamy as a as a practice. But then you have these offshoots of the Mormon faith,

who, you know, take the Scripture literal. I mean, that's when you look at that the group that produced the passion, Mel Gibson and the church that he is funding does that it's an offshoot of Roman Catholicism, that basically said, the people who did Vatican two were crazy and are taking the church downward. And we're going back to the old fashioned style, we're going to do this in Latin, we're going to adhere to these practices of you know, no meat, you abstain all the other stuff of what it is, you go back to the hard line school. And that's the sort of thing is you get these sects of the of the main face that branch off, and that's where the hard line comes from. And that's what this person does. He feels he is this polygamist, who's using Lawrence v. Texas to try and defend his rights is he says he's an offshoot of the Mormon faith.

B

Bobby 49:40

I have a interesting sort of question here. explained to me, somebody explained to me how, technically, adultery is not illegal. In most states, it's just a bad idea. homosexuality was adultery is in the 10 commandments, homosexuality isn't. Somebody explain this to me? Like I'm a five year old?

50:16

Is this the same issue where like, it says very distinctly that divorce is not allowed. Yeah, we allow divorce and really look through it. The whole issue with homosexuality in the Bible isn't even really an issue since that the term homosexuality didn't come into existence about 100 years ago. So it's all screwy and psychologists, everything

50:38

on Leviticus may in line with man, that's where this whole battle is, which

50:43

in Hebrew actually says it's, it should literally translate out to you shall not lie with a man in a woman's bed. Yeah,

C

Chris Harrison 50:54

let's see more of a prohibited

50:57

wear clothing with two different types of

B

Bobby 51:01

kids really God places all kinds of

51:04

woman during her period shouldn't be

Chris Harrison 51:06

Yeah, cuz see, the one thing is, we're talking about something that was written in what's what could be considered Aramaic that was translated into Greek, which was translated into Latin, which was translated into English. And, you know, everybody along the way has a different interpretation. We could sit here and have a phrase in Spanish and you know, you can have two people who understand who knows Spanish, read the same sentence two different ways. So unfortunately, what happens is that the translation has been so bastardized through the years, that there's hard to tell where it's coming from. You know, we've we've gotten a lot we've gotten a lot on there. We've got a lot more papers here. We're going to have there.

Roy McCarthy 51:40

Jimmy Carper 53:17

Okay, next subject we've got quite a few to hit. Okay.

Chris Harrison 53:20

Here's what here's? Yes, officially it is 341 A am. You're listening to after hours care radio with attitude. And you know, let's do this. We have this one break in here. Let's do it. Let's give out our third and final ticket to tribal heat part of jungle less 12. We're going to be broadcasting there live next week from the Verizon Wireless theater. caller number four gets our third and final ticket to join us there for tribal heat.

J Jimmy Carper 53:49
Deeds \$5 value folks

C Chris Harrison 53:52
and trust me from the picture we've got here there's a lot of half naked boys and you can come and join me half. Well, sadly, the top half dang me is the top of the top half. We just need to find more these guys to be willing to walk around on their hands. But, you know, join us out there is gonna be the Verizon Wireless theater, we'll be broadcasting to their live. And oh, okay. Well our next topic we have on here. Interesting. snuffing out the butts, campaigns. campaigns to convince gay men and lesbians to ditch cigarettes, trying to cut through a long held addiction. Up to see it's an uphill battle up to 50% of lesbians. Gay men and bisexuals continue to smoke compared to 20% in the general population. So let's talk to a fag soccer in the studio.

J Jimmy Carper 54:48
Jimmy I mean, I know I know. I know I quit for 10 years and I've recently taken it back up and I'm it is time but it's an addiction. And every day of those 10 years, I wanted a cigarette. And finally, I gave in mainly,

 55:06
how do you feel the since they targeted? Do you know that they marketed just to you?

J Jimmy Carper 55:14
Oh, they do. They absolutely do. And when you go into a bar, it's very difficult if you're an ex smoker. And I've recently joined a group that does a lot of activities and bars, and most people in the bars do smoke. And it was very hard. And that's one of the reasons I gave in. Oh,

 55:37
a smoker and I have to have a cigarette with my beer. Yeah.

J Jimmy Carper 55:40
You know, there's nothing like that first cigarette in the morning was coffee. I you know, maybe that's

C Chris Harrison 55:46
what helps me. I don't I don't drink coffee. But you know, I will admit I do. I mean, usually I have

to be rip roaring drunk and trying to sober up. And I'll take some puffs on a cigarette, and I don't inhale. Clinton.

Jimmy Carper 56:07

A lot of it with gay men, I think is that the oral satisfaction thing? If you're not getting enough?

Bobby 56:15

You sound like my therapist says Find yourself a hot dog.

56:18

I'll tell you the other downside of quitting though is the weight gain. Yeah. And that's a lot. That's a big fear. I mean, I went from two and a half packs a day to nothing. 10 months ago, 10 months and some change. And then I put on 25 pounds. Yep. I've taken off almost 10 of that. 25.

Bobby 56:43

As far as that. On the other side of this does. Do you remember what I told you about the cigarette smoking? Jimmy.

Jimmy Carper 56:53

You've told me so many things. Which one? Quit the one

Bobby 56:57

the one about? My mom smoked until she was 64 years old. She stopped because she was no longer physically capable of holding a cigarette in her hand.

Jimmy Carper 57:10

I know. I know when I quit. And she died at 65. When When I quit the first time it was because I could not sleep laying down. It got to the point I had to sit up to sleep. My lungs were so congested.

Chris Harrison 57:27

I mean, my my grandpa, both my grandfather smoked by one grandfather had supposedly quit, but he often went out for long walks by himself. And after he died, we swore we were going to

find a pack of cigarettes hidden around. And to my knowledge they never did. But they found hard tap candy in every one of his suit pockets.

J Jimmy Carper 57:50

It's really out there I've had heroin users tell me it was easier for them to quit heroin than cigarettes.

C Chris Harrison 58:00

Yes. Yeah. I mean, we always take care of when so but I mean, I remember when my dad was going through one of those times he's going through alcohol, detox. So they told him that, you know, heroin is easier than alcohol and cigarettes. It's because it works immediately on your brain. And you know, it's one of the things I've got one brother who smokes. His wife smokes, too, but she stopped now because she's pregnant. So my brothers has they smoke outside at their house. And it's one of those things that you know, I don't smoke regularly. I get used to it from being especially around here. And you know, there's some times when it does affect me a little bit more than usual last week when we did our first remote from Oh, it that about God because we were in that really confined area. But it's one of those things that you know, I can deal with it. I can sit around and talk around with people who smoke. But you know, something I don't see myself picking up. And it's not just the cheap bastard side of me that Oh, no, no.

J Jimmy Carper 59:03

If you don't pick it up, yeah, now it's telling everybody out there to pick it up. Of course, our MBBS are not allowed to smoke. Officially, officially, but still.

C Chris Harrison 59:15

Come on. I mean, you know, they're not allowed to have sex. They're not allowed to have drugs aren't allowed to smoke. You know, we know they're having the sex. Pretty sure they're having the drug. Speaking of MBBS tell me

J Jimmy Carper 59:27

right here. Tell me about smoking in prison.

i 59:30

This is Devin XP MBB. Er, yeah. And yes, you can get cigarettes. It is available. It's not widely known, but the guards do bring it in. And people have visits and such. You can get cigarettes in there and you can get different drugs in there. And yeah, there is sex. It's maybe, you know, two people understand that they're going to have sex and sometimes they don't.

C Chris Harrison 59:58
But the fact that yeah, We're talking about we're talking about a facility that's, you know, as non smoking. Some of them are locked down and

i 1:00:05
are smoking. There's different facilities in the TDC tip system. There's private and there's the state run. The state runs definitely know. The private systems. There are some smoking,

C Chris Harrison 1:00:20
huh? Okay, that's good to know. Okay, next

J Jimmy Carper 1:00:23
subject. Well, he

C Chris Harrison 1:00:25
also included a thing in here about Melissa Etheridge. Oh, yeah. You know, they sit here there's an ad and they talk about all these different places. And I'm talking about her being in Dallas and being in Austin. Houston Do they also use about she will be here in May 15

J Jimmy Carper 1:00:42
and 16th

B Bobby 1:00:45
just before my birthday, and we've got

J Jimmy Carper 1:00:47
backstage passes that we're going to be giving out we give

C Chris Harrison 1:00:51
away our team tickets to juggle so much power do we give away all our tickets? Okay, good.

J Jimmy Carper 1:00:57
Oh, the tickets are good. I got

C Chris Harrison 1:01:01
four we've been waiting till the fourth color and we still gave away all three of them. No, this last caller we had one call four times four times

J Jimmy Carper 1:01:16
well good I'm glad they were persistent and I'm glad they got it. Good

B Bobby 1:01:20
to be said for persistent and they will be mailed. Michael

J Jimmy Carper 1:01:24
Williams will be mailing those tickets so Chris will be no Chris will be giving those addresses tomorrow.

C Chris Harrison 1:01:30
I'll be handing that off to Michael and are wonderful promotions coordinator. Gay Straight cops gay 101 Canadian police force ask heterosexual recruits to take a crash course on being out and proud. Apparently the Canadians are having to teach their straight cops how to be gay.

R Roy McCarthy 1:01:54
Volunteer to be an instructor

B Bobby 1:01:58
Hey, I know a lot of gay cops.

J Jimmy Carper 1:02:02
Especially when they were rebel ankles.

1:02:07

So when they see that I just love the Canadian Mounties.

Bobby 1:02:12

Good there's something about mounting that has horses.

Jimmy Carper 1:02:17

Okay, next subject.

Bobby 1:02:22

Like next, Link.

Chris Harrison 1:02:23

Okay, one last one there Dudley do me right.

Bobby 1:02:28

Was that a porn?

Jimmy Carper 1:02:30

Was that a porn movie?

Chris Harrison 1:02:34

Now here's a story in the advocate about a 15 year old from Houston. It's called Generation Q Yes. Reason enough to be out. And he asked Who is she and I don't know. She's a part of hatch. They don't mention anything about hatch but Paige Palmer. Don't record. So she hasn't been here. But no, it's she's getting in touch with hatch. So nothing on the gay marriage to oh, here's the one for Bobby about voodoo. Talking about his bed show. What's that name of that show? Man house mad mad house? Yeah,

Jimmy Carper 1:03:14

I've caught a couple of those segments.

B Bobby 1:03:17

I liked one the correct. Pronunciation is VO do okay. Do vo do? And two she's about as voodoo priestess as I am a Catholic priest. What most of what they have been showing of her yeah of the of the one who is a voodoo Priestess is more there's a lot more center RIA going on then there is okay voted. The and I do kinda like the witch that they have. There have been some very, very pagan very witch elements to some of the things she has done. So Well, she didn't just watch the craft and think this was a cool movie. Okay.

J Jimmy Carper 1:04:15

Okay, I liked the nude guy. But you know what's with the fuzzy stuff on the breasts and genitals and butts, though who

 1:04:24
we need.

C Chris Harrison 1:04:24

It's called Power pixelation? Yeah,

B Bobby 1:04:26

yeah. We're not gonna get unedited. Even on K. There's

 1:04:30
several in the real world. Oh, yeah.

J Jimmy Carper 1:04:33

If we got the European version that wouldn't be pixeled out.

B Bobby 1:04:37

Yeah. And then there's the got the modern primitive. who hangs from hooks from this? Yeah, yeah, I know, people who do that. I know gay men who do that suspension. But you know, and they're not modern primitives. They're just really into suspension. Yeah,

C Chris Harrison 1:04:53

you know, also coming up with TV I heard this. You know all the talk about reality shows and the reality The makeover shows I haven't seen what it's gonna be but I heard about it. Showtime is also coming up with a reality show where the Extreme Makeover is not just from an ugly duckling into a swan or those who are physically challenged into that. They're going to be helping change a man into a woman. A trans and this is where I caught a little bit of it on E that Showtime is going to be doing a transgender makeover show where they're going to be filming a person going through the transition. So I hope they do it right I hope I said that's the reason why I found out about the Reefer Madness was checking out the Showtime website. Okay, so I'm going to look at that for that more. That must be something. I've got time for one or two more. Yeah. Also, Sylvia Guerrero, the mother, mother of slain transgendered youth Gwen Aramco. Yes, the trial is beginning is gonna be coming up here soon. 17 year old winner Rocco was bludgeoned and strangled to death by three men who discovered she was biologically male at a party. And, you know, we all know transgender segment we talked a lot about this horrific case than the transgenders Matthew Shepard, and the trial is going to be coming here soon. For these these man who of course, you know, most like you're gonna be using the gay panic defense they reached down and Oh, yeah.

J Jimmy Carper 1:06:29
Expect I want to thank Wilson for writing. Not

B Bobby 1:06:33
figured out that that doesn't work anymore.

i 1:06:34
I know. Especially since like, if that was true, then like most women out there could get off with murdering every single straight man alive. Yeah,

J Jimmy Carper 1:06:43
there'd be no straight men left. So except for Tony. Pen, impossibly matte. And maybe

C Chris Harrison 1:06:55
there was a thing on here. They had an interview with how sparks there from queers folk. It goes. House barks. He's straight. Counting. The majority of the actors on queers folk are actually straight only real Sparks is married to a woman. Yeah. Three of them now I think are gay and that's Randy. Randy. Randy. Yeah. Harrison, Randy Harrison, who plays the Peter page who plays Emmett and Robert Gantt, who plays house barks boyfriend? Yeah. Those are the only three gay playing gay. Everyone else is just straight acting and then of course, everyone's favorite fag hag Sharon glass farts is getting an awful

B Bobby 1:07:43
lot of action first straight guy.

J Jimmy Carper 1:07:45
