00:16

But you know what? She became a drag queen because she did that fear in her

00:21

that Lawrence Welk suit. Yes.

00:23

Miss shadow lane. Yeah

00:25

Miss shadow lane on Arcadia was

00:27

such a DQ come? Oh,

00:30

yeah. I thought it was a gag. I thought for sure she'd have cowboy boots on underneath. But she didn't chant Oh, no ballet slippers on or something. She

00:38

was serious. Dry. Yeah, it

00:39

was serious drag that hair that extra hair all piled up on her head. I was I just

00:43

And you know what? They did do it to make her breasts?

00:48

No, tell me. Tell me. Tell me.

00:51

You'll love it. Okay. Duct tape, duct. duct taped her breasts together to make Fuller and rise up and for that woman you're listening somewhere. Excellent. All right. Have you

01:05

heard taken it off?

01:07

Yeah, I bet she

01:09

carried a bit. That's only on hairy chest. Jim.

01:13

had some trouble there. Yes, I've

01:15

met some hairy chested women my time sexy, sexy Italian women with hairy, hairy, hairy chests.

01:21

I've seen some hair between the breasts.

01:25

What are you doing? What are you What? Listen, how come you see this? I don't get to see it. We're in the wrong somewhere. Something's wrong here. I don't get to see hairy chested men.

01:33

How do you get to see hairy chest up in my shirt or so?

01:35

Oh my god, it looks like Robin Williams. Boy, is that a hairy man or what? That's right down to his right down to his wrist band and all over his back. Really?

01:46

He's not a hairy chested man. He's a monkey. Yeah, he's

01:48

pretty. Pretty close to it. Yeah. I told you there was some numbers and stuff. I wanted you. Oh, by the way, I wanted to thank our last caller here. That was especially nice to hear from you. And to talk with you. I like to talk with people as often as I can. Sometimes we're on the air and somebody else has to talk with you. But everybody down here as a volunteer so you can call down here and talk to anybody down here. We listen. We like to support. Actually, sometimes I'm very surprised how many people are out there listening and what kind of people are listening in? Our number is five to nine KPFT Oh, no. That's the number I know. 165 to six. No wonder nobody answered my call. No, it's not 4000 anymore. Is it? No, it's KPFT right? No wonder nobody answered while ago when I call the sales lady five to nine. It's a don't call five to nine. I've been calling for weeks and I never get an answer. No wonder it's five to six

02:39

KPFT or jam KPFT? Jam

02:43

KPFT All right World Radio. Right Jimmy Jam and jam and Jimmy? Yeah, there you go. I'm pissed your pants. Tell me why

02:52

you're pissed. Before we give out these phone numbers. Let me tell you why I'm pissed. Okay, I am pissed at the prospect of the Montrose being moved from city, city council, district C to district D. Okay, we're going to lose our standing our status quo as it is, if we are moved into a very large and primarily African American district will be a minority group community again, there again. And at least in District C, you know, they get a voice 1000s of straight people in Montrose. And the straight people on the gay people in the in between people all get along famously.

03:40

Well, most famously, yes.

03:43

Most of the time. Yeah. But and I'm sure that's the way things would happen. Were we to be moved into district D but we would lose that percentage of representation that we enjoy now. Right?

03:54

The people that we've supported to the position and C will no longer represent us because we would be in D

04:00

and C we're going to be stuck anyway because Vince Ryan has already said he's not really gonna run for reelection. Right.

04:08

I saw Deborah Dannenberg got to headquarters over there on Alabama so they're gearing up for the big run. Deborah but I don't think she has a snowball's chance in hell of losing battlement is is right on very, very astute. Very clever. Very positive. WOMAN Yeah, very

positive. Well, I saw her headquarters go up on Alabama the other day I just assumed she was up for another election you Sure?

04:33

I'm positive November well, maybe

04:37

they just haven't taken it down but I swear I've seen that build 1000 times it wasn't like that. It's just a bigger sign bigger sign bigger sign maybe that's it she got noticed a new smokin token over there real quick. Yeah. been paying attention those buildings over there. No, no, no, no, there's a new smoking token on Alabama. Just block between month done living in and what hit what known Dunlavy and Mandel? No, not Mandel. Yes, Woodhead and Donlevy. Which one is I can never get done with me and Mandy Okay, Woodhead is where that King Cole. That's where we started parade on Woodhead and we down down there at the parade at the at the high school it would head in that when we start the parade cuz that's what heads then the next one coming this way is Dunlavy and then the next one coming this way right there at potpie is Mandel. Okay, this is between Woodhead and Dunlavy you know where apple tree is at? Yeah, at Mandel lovey Dunlavy apple tree before you get to apple tree as you come in from the smoker talks gonna love this before he gets before you get to the apple tree there as you're coming from the Galleria area summit area. There's a wide apartment complex, large wide apartment complex and just prior to that apartment complex on the right is a house that is now holding smoking token and I was in there the other day picking up some incense only incense only a square only incense and a lighter, they had some great lighters with some great things written on these lighters. I loved him, but I was in there the other day. And it is a wonderful, beautiful house man told me that he had trouble renting. He wanted to be down this area for a long time. And he had trouble finding somebody who would rent a space to him because of the kind of business he's in. And that finally he just gave up and bought that house. He just bought the house so he can have his business in here. And he says his business has been brisk. So if you are you in the neighborhood and you're interested in some incense, or some tobacco products, you can stop in at smoking. So the new smoker token the Montrose area, which I think will be a very positive influence in the business community in this area. They seem very friendly and very conscious of the community and very, they sound like they very much wanted to be in this area. So there is a new business in the community. Check it out. If you're interested in some incense or, or tobacco products stop in and see them. What was I saying about? Oh, we're talking about the buildings on the roads. There's a lot of things going on. Did you see that the building on the corner of grass Stark, and Hawthorne burned down they called it Green Acres over there. It was a horrendous little apartment complex sitting there right across the middle daycare center on Hawthorne. It it finally burned down. Thank you, thank you, thank you not that I would advocate anyone burning a building down. But I was in this building 10 years ago when a friend of mine next lumber mine lived there. And it was a trap then it amazed me when I found out people were still living there just recently, and it burned down. So there are a lot of people out there this this week who are least seven or eight families or households that were ousted from that place due to the fire so we wish them luck and hope they find some safer and more convenient place to live now than the smoke and fire ridden building that they used to live in.

08:20

Like cleaned that up. Oh yeah, too.

08:22

Oh, yeah. I think they're getting ready to level it. And I imagine they'll sell it to someone put townhomes on a blocker. I mean it takes up a good place I could put a couple of townhomes on it. So that would be nice in the area new new kind of construction going on people get jobs. There was one thing I want to tell you about something I stumbled across when I was at the switch at baring you all know I worked for Baron Care Center and it's not a job it's a what is it? They call it it's more than a job it's a lifestyle a lifestyle it's it it's more than a job it's a lifestyle. And it is literally you just cannot work in this field and with these people and doing this job without being affected by it day and night in your waking and sleeping hours I'll tell you sometimes I have wonderful dreams and sometimes I have nightmares about the place so it's a it's a good place to work but one of the things I stumbled on there was a pin pal club I wanted to let y'all know about it's it was originally designed for and there's an article in these this week's voice about it. This pin pal club you can get more information from there, but it was started by this man somewhere up north and I believe his name is Jay Eastman and he started to connect to HIV positive people with other HIV positive people in a pen pal club and they it has expanded way beyond his dreams. There is a fee but they do have scholarships. If you are an independent person or PW a person with AIDS. You can join us health I mean this pen pal club for for nothing but they do have a really nice I'm in a very small fee for those who can't afford it, to participate in this. I mean, it's like you know less than you can count on one hand of dollars. So give you an idea. And they have a little pamphlet little love flyer that you fill out and send back to them. And they match you with someone almost like a dating service. And let me remind, let me tell you right now, that is not a dating service. And they make it very clear that they don't want that kind of thing going on. And that if they find that kind of thing going on, they will remove you from their, their, their logs and their their lists. So it is not a dating thing. And it's definitely a social pimple kind of thing, but they don't expect and they don't look for people to be meeting each other moving across the states to find the perfect dream. This is not a dating service. And I'm just

10:48

in support group. Yeah, kind of, and what else

10:51

he offers is that you get a different perspective of how each every everybody else's community is dealing with the AIDS issue. And, you know, medical and these some of these pen pals are in Europe and overseas and around the world literally. And they you fill out this questionnaire and they match it with someone and and you can pretty much put down you know, you want you're interested in you know, corresponding with someone from France and, and perhaps connect with someone for France. So if you took French in high school and you you wanted to you know, just find out more about France and you're HIV positive or someone who aids is affecting your life, then this is the kind of thing you might be interested in and you can write to this man. Pin

PAO club at PO Box 635. Chow chilla. And if you don't, if you don't recognize that that's where those children were taken. In a bus that there's a movie coming on this week, Carl monitor Malden is playing the bus driver, those children who busload of children were buried in underground and a couple of 10 years ago, 12 years ago, in Chowchilla, California. And you pout you spell that Chow as in? Ciao, ciao, ciao, and chilla as in chinchilla, so it's pretty easy. 936 10 is the zip code 93610 is the zip code. And it's pretty good pen pal club I've got several of the people at the care center have been interested and have had a wonderful time participating in this pin cup club. Club. Pen Pal club. I'm getting a little tongue Pat takedown Tongue Tied tonight. I thought that the tongue Tongue Tied tonight so let Chris Chris read something. What's fine. Here There you go.

12:30

First off, I want to say that yes, baring is more than just a place for you to work it is your life style. And it's a very big part of your life. I did have occasion to to go down and see jewel at her place have in her element. Yes, in her LML I was gonna say place of employment, but that would that would be less than the truth. And she showed me all around and showed me all the different things that the bearing Care Center does. It's really great. You know what they all do? And please, if you have any, any money to spare,

13:10

sorry, Aberdeen Waray soiree aubergine averaging. They raised a lot of money last year. It's doing it again this weekend. You can participate,

13:19

but they can always use donations.

13:22

We talked about it being Louis weekend. Louis luno.

13:25

As a matter of fact, and I'm all dressed ya know we decked out decked out for and you didn't even notice.

13:33

Let us entertain you weekend.

13:34

13:34

Entertain your weekend. It is

13:37

always the weekend following Mardi Gras is always in Houston. And always we roll out the red carpet for those Mardi Gras revelers that still have enough energy to get up and party a couple more days. Mardi Gras and rodeo revelers, huh. Well, yes, yes. Okay, time, rodeo time learned down new people from other places come into town so

13:59

the clubs were very hospitable cluck city and were let us entertain you going on now?

14:07

Yes, there were there were some very interesting things going on at several of the local establishments. A lot of the hotels ran specials for the people that were coming in from out of town. Just all kinds of people in all kinds of different forms address shows.

14:24

We can we can talk about God, you know, I know they're all in

14:29

Pacific Street was doing something and I mean, you know, I chance to step out tonight and the whole Pacific Street area was just boomin

14:42

Don't you love it when it's like that? All the wild gay people

14:44

but I love it. Love. Oh, yeah,

14:47

that's the whole idea. It's all gay people. Right? I really love that.

14:52

I love it when we get great numbers of us together and there's a certain sense of security and safety, that I don't feel alone. but I just don't feel alone that when I get into a group of gay people at the at the rallies that at the marches at the, you know, political events at the organizations I feel safe and I feel for the first time like I can let down a certain protective wall so when I see that it really makes my heart sing when I see a lot of gay people collected and I know that they closed down for sixth street a couple of times a year for various things where people are just thick as thieves. Yeah. Yeah, Halloween Oh, Halloween, the National the National Gay holiday. I wonder I wonder if we can get that. Recognize maybe we can get that next after the ban and after the ban on gays and military are are is taken care of and were safely protected in the military finally then we can go for a National Gay holiday. I think Halloween. That's right. National Day holiday. That's I think that's great thing. That's the thing we will when we get all of our Oh, our woes taken care of them. We can go after national.

16:03

I wanted to say something else that's near and dear to gay and lesbian hearts. And to a lot of straight hearts. You may not know it but Rocky Horror Picture Show is now being run at midnight on Friday and Saturday at the River Oaks theater. Did

16:18

you know that? Hasn't it always been?

16:20

No no it had in fact it has. I don't think

16:23

it'd be at the dollar cinema on Bel Air.

16:25

Bel Air. I

16:27

was inside the loop

16:29

after the tower close. I mean not after tower after the after the shepherd. Alabama Alabama theater close.

16:34

Yeah. Yeah, it was like it's only it wasn't like only out in the suburbs. Right. And now it's back. Back in our neighborhood. All right. So broke my costume. Yeah, who answers phones here to rice? Bread does the lights on Friday night. Oh, cool.

16:50

The only problem I had is I loved the movie. And too often you can't see the movie anymore because of the the spectacle that. I enjoy that. But very often I like to see the movie. So now that I can rent it and go down to pick it up at the local blockbuster anytime I want it. And I've watched it at least a dozen times since since I started reading it at Blockbuster. And we watched it at Care Center. Every afternoon we play a new movie at the care center. And now we have Gay Day on Thursdays and we pick Thursdays especially because

17:20

if you were green on Thursday, you're acquainted. That's right.

17:23

I was trying to tell people at the care center. This is why pick Thursdays and they didn't get it. I couldn't believe it. I was the only queer that on Thursdays if you weren't green. You were I mean, that was the only day of the week that I wouldn't wear agree. I was boycotting Thursday. Yeah. Oh, yeah. So we pick I pick Thursdays deliberately. And we decided that we would make a Gay Day. So we throwing gay themed movies. We've watched My Beautiful Laundrette. And we've watched yesterday we watched, what was it? We watched Thursday night yesterday, Thursday. Watch something really good. We watched the last language of the cranes. Yeah. Very intellectual stuff to

18:03

not just the esoteric again, not just

18:06

the Falcon stuff. Yeah. And

18:11

we're thinking about expanding Gay Day to two days a week. Of course, we would have to make it Tuesday and Thursday. So what color would you wear on Tuesday? The problem really, the problem is that I'm really running out of gay positive theme movies. So I'm having to reach down into the barrel and find some movies that we're going to rent them actually, I'm going through the Robert Foundation, polo Latimer has a foundation called the Robert Foundation, where he loans out films to people who are in hospices or hospitals or at home bound and can't get out. He loans out films on on a kind of a blockbuster kind of thing. There's no charge. And if there is a charge, it's a nominal charge. And it's two groups, the only charges groups and organizations. And he's letting us have the use of his library. And his library is pretty extensive, including major box office films. It also includes copies of shows that have been on TV Donahue, doing gay themed shows. Oprah doing gay thing shows. Don't forget frontline

19:11

Betty Davis movie,

19:12

right. Oh, Betty Davis movies from Joan Crawford. Oh, for sure, Joan. Yeah, we're

19:16

gonna play Mommy dearest. Oh, all about ease. Oh, yeah. All about evil. Yeah, what a great movie. And man. Oh, the women. We had a request last week for longtime companions. And for a long time, we've kind of shot away from playing movies like that at the care center because of the context, you know that. And we and we try not to show movies that are too sad. We want a beach kind of things. But we had several requests for longtime companions, and we sat and watched it again. And I couldn't believe the room was just packed with people watching this movie again. I mean, everyone had seen it several times before and watching this movie sitting together close. And you can that makes a big difference. Oh, yeah. Very close and feeling the you know, and participating in being empathetic with the things going on in the movies. It was very moving and I believe very bonding time with the people who stayed watch the movie. It was very it was a special time. Even though the movie had sad moments, it was time that we connected over those sad moments and appreciating those times and and those people who've gone on before us. And so we're doing Gay Day and we're also going to be doing I know this is off the subject, but we're also going to be doing a documentary day we accidentally played a wildlife documentary last week. People loved it. So there was one day for Marlin Perkins Marlin Perkins no but but he would have been a good one to have a Gay Day. I always believed that he was always believed that he was a gay man now and is our friend is our friend. I saw you put away your thing I know I get carried away somewhere I saw you put away your paper go ahead and get get it. We'll let you read some stuff. So you've got some things already picked out you want to talk about

21:03

where I do want to plug Pride Week. Want to let you know the Pride Week does start. Let's say I

know the Pride Parade is Sunday June 27. And let's see pride parade will start the Pride Week will start that previous Friday the 18th Of course, if you subscribe to The Pride guide you will get a whole list of things by that time which will be in the calendar events that go on the whole week long it's just a great time to be as our motto is this year our theme out and proud different groups holding different things you know different times the days we had switchboard had had been fortunate to have had a whole myriad of different things going on during Gay Pride Week in years past. Anyway, where's the name? Where's the number to probably here it is. Okay, it's P O Box 66071 Houston 772-666-0071 and the phone number there the phone and the Phone number is here it's 5296979 and their fax number is 5291223 and you can try to get

22:40

those applications in for pride events and pride in the parade there's going to be a

22:45

rallying there's going to be the parade there's going to be the different events so if you want to be listed on the calendar and be the you know in the parade or have a booth at the rally you need to get your information and your small money monetary figure into when I see Yeah, it's very reasonable.

23:06

Is Marlin still part of that? Integral asset Hi, I'm sure I'm missing her next time you see her?

23:14

Well you know I kind of went LOA from them to know they didn't burn me out so much is all the other stuff I was doing but I'm not doing so much with them. I'm just kind of ad hoc with them right now.

23:28

Don't forget there's some more disinformation. For the March on Washington. You can still make travel plans and still have travel packages coming up. Air hotel accommodations and watching ground transfers. flights departing from Houston Austin, San Antonio or Dallas three, four and five night packages. You can get in touch with the Atlas travel the American group travel through Atlas travel at 314 No sorry 3411 Montrose Boulevard 5274566. To find out more about the March on Washington, you can connect the Atlas Atlas travel and I wanted to tell you that I have to keep my eye on GLAAD which is the game Lesbian Alliance Against Defamation. They're the people who watch TV for us. Not that we don't watch TV, but they're the ones who respond and get out a rally and support people and write letters and at some of the things that we always talk about here is to write your letters and one of the callers earlier talked about being you know, part of the silent majority that his time we started speaking up and letting Clinton know that we support him and and other places that we support them. And one of the

things that GLAAD has got published in their little flyer this week is about picket fences, which is a program on CBS. It's one of our CBS drama, which centers around a sheriff's office in a small town of Rome, Wisconsin, and it recently it had it was the setting for us intuitively produced episode about a longtime teacher who's accidentally discovered to be a post operative transsexual. They, the show covered the firing and the reinstatement of the teacher, the misconceptions and the ignorance of the town people and their ultimate redemption by the example of their children. Besides a welcome treatment of this once taboo subject the show also mentioned unfavorably the anti gay initiatives in Oregon and Maine. This is a show we need to watch people we need to support these people when they play. The way you make a difference is how you spend your money. And ultimately, what you watch on TV dictates how you spend your money because you are being brainwashed at when when you watch these television programs to buy the products that are being promoted. During those times you see them often you watch the same program, you see the same program, promoting products week after week after week, you literally become brainwashed. And the way we make our power and our support known is to support programs that do this and support the people who advertise with these programs. And one of the ways you can appreciate this real gutsy move of these people on picket fence and sister right the producer of picket fences at CBS broadcast group you can get this address out of the TV Guide as seven 800 Beverly Hills Boulevard Los Angeles, California 9036 and let them know that you think this is important but that you'd like to see a reoccurring gay or lesbian character. So keep an eye on picket fences. Keep an eye on glad they're the ones keeping an eye on the rest of the world for us. Something else once you got this rattled some paper this is for Diane, wherever you're at. And Diana, I am saying Diana tonight. Diana Diana. Hi,

26:52

Diana How are Golly.

26:54

I'm talking to dolly now dollies the dog and dollies jumping up and down on her on the bed now that I've said her name on the radio and they're listening to me dolly is going crazy.

27:00

I don't know Dolly. I do know Diana. Oh wait, do you meet Dolly? Diana, I love you. Speaking of which, I need to say hi. And I'm thinking of you to Dina, I want you to know I'm I love you and I'm thinking about you and all my prayers are with you.

27:17

I wanted people while we were really still close to the March on Washington. I wanted to let you know that there's going to be a mass marriage, a mass ceremony in Washington, Reverend Troy Perry is going to put together as many couples as he can in a religious ceremony. officiated by himself. And kind of like the Reverend Moon does with his little Moonies. They're going to have a mass ceremony of as many people as they can get together have exchanged

vows and rings and commitments. So if you're interested get a hold Troy in Washington. You can find out more information about that by getting a hold of him. I mean, not Washington, but Dallas. He's in Dallas and me. Tori Perry. No, he's not in Dallas anymore. He's down here. I

28:02

think he's down here. He's

28:03

down here. Okay, you can get a hold of him and MTCR me down here. I thought he was in Dallas. Anyway, you can get a hold of, you can find out more about this. In your local voice or twit that's where I found it in the voice and twit they're going to have a mass marriage. If you're going you want to do something unforgettable and monumental and you have a commitment to a friend or I mean to a lover go ahead and get this get into this mass wedding and the more the merrier. The more the more there are the bigger that sensation will make and will just show him that we we too can make lifelong commitments to each other and and we too can break those live just like anybody else. So I want to let you know about this mass many marriage going on in Washington during the march I'm watching what else you got there Chris? You still looking for the Troy Perry whether he's here or there? Either way you can get a hold of Oh yes. Either way you can't hold CCR.

28:58

I wanted to talk about the kk k. k k k in downtown vatter Texas Mater. Let me put on my Texas just

29:07

outside orange, which is just a merge, which is just a side of the border Louisiana.

29:13

Hey, to me, okay. VOD or Texas is trying to keep black people from settling in their town. Well, what has happened and they admit that this isn't eventuality

29:29

what has happened is the government has made low cost housing they're available to low cost low income people and the first people to be moving in happened to be black. And Vitor has just gone hysterical and there's from there

29:44

29:44

and even the Yeah, who's out there and I remember one so vividly on a New Zealand I went, Well, we know they're gonna be here eventually. We just don't want them here. You know, it's better later than sooner. Yeah.

29:59

Absolutely. They're later than sooner.

30:02

I mean, it's like

30:03

at least they're acknowledging the inevitability used to be they didn't acknowledge that now they're at least acknowledging the inevitability and that's a big step. I think, inevitability that we're going to integrate everywhere in the world. Well,

30:16

gee, it reminds me of evolution. You know, eventually we're going to crawl out of the ocean and spring legs and walk up, right, but it's better later than sooner.

30:27

They were so funny in this picture in the paper, here's from the post on the 23rd. Tuesday, at two of the beautiful, he says the skater the name of the tattoo, the the Knights of the white, Camelia tattoo on this man's hands holding his son's child. To him. Yes, his child of maybe four years hailed the next generation of k k k later, kind of scary to see the face kind of blurry in the background of this child that you know, is growing up to hate. It's kind of scary to know that that child could grow up just as equally loved people. But it's not getting the chance. I think it's child abuse.

31:04

It's, it's what's being taught.

31:07

It's child abuse. It is. Well, we have done it again. I've done it again. And I wanted to say that as as kind of a personal note, once again on the subject I was talking about last year's birthday was you got some music for me. I was gonna play. This is about where I wanted to play it. This

is like background with somebody else. Yes. It's it's for somebody else. You gotta know.

31:32

Jewel, I have to say, you know, like Nicollette Sheridan said at the end of landings, filming it's been a kick in the ass not at all time.

31:40
