to center and she looked she started. Were on the back of his flatbed truck. She lit up a cigarette and I just looked at her go, Deb. I think I asked for the non smoking section. She just looked at me she goes, bite me.

O

00:14

When we're talking about the hecklers, I was talking to Jennifer recently Who's the other co president of patch and co host of this radio show. And he said that, I believe it was a certain Baptist church that was trying to encourage its congregation to show up for the Pride Parade. So since we have been more prevalent in the news, there might be a greater turnout this year because they are trying to make more of an effort to get people to show up and I say you just wave and throw them beads. No throwing beads and no waving see beads. Generally, what I actually do is blow them a kiss. And that just clears Chris, you have a really long memory. I'm stuck there.

C

Chris Harrison 01:00

Well, I haven't been that many Pride Parade. So I mean, I was I had a job. That was what actually that was my first Pride Parade. I was in Oh, wow. I think was the one I was with you with the community center float. And I did that. Two years at the community center once with cube patrol on once with Houston big men's club. And I walked two of those four.

O

01:26

And this will be my first Pride Parade. Actually, I understand there's a festival this year. Is this the first time of the donors they're trying to bring it back? Bring it back?

Chris Harrison 01:33

It's a return they had it before. Hold on. I have to get off the one website I was you start you started talking about religion and gays. And you know, I I have to admit a guilty pleasure I have is I like going to God hates fags.com

01:49

I go there too. I don't know why to get left.

Chris Harrison 01:53

And the reason why I was laughing early, is I pulled up one of his flyers. And by his we mean Fred Phelps rolled Freddie Phillips. They're celebrating the third week of the pope in hell.

02:06

Oh, that's nice.

02:08

Oh my god. Wait, wait. Gods hate God Hates Fags is doing this. Yes. Yes. What God. So they have the religious authority to decree that the Pope went to hell.

Chris Harrison 02:17

Oh, everyone. Contestants of irony. He he's condemning the Jerry Falwell when he dies is going to hell. Okay.

02:24

I believe God has basically everyone in him is going to hell.

Chris Harrison 02:29

You know, it's one of those. It's

02:30

sad to see his wife and daughter to

c

Chris Harrison 02:33

know. It's kind of sad to see but you know, it's these twisted things. I'm sorry. God hates Sweden.

o

02:39

Please don't sue me. Whoever you are. Okay, yeah,

c

Chris Harrison 02:43

the Pride festival is before the parade was starts at 2pm. On Saturday, June 25. Grammy nominated singer Sophie B. Hawkins and pioneering gay punk legends pansy division will headline the Pride festival. Tickets will be \$10 at the gate and some of the other performers are going to be Jade Esteban Estrada, Rachel sage, Sarah Pinkster, and the stalking horses, girlfriends are rich Latimer band and Virginia slim. And there'll be more coming with that like starts at 2pm and goes all the way up until the Pride event and there's also going to be food and drink vendors and some business. There'll be some different organizations having booths and I guess in a way you guys are having one yes, he does. The Counseling Center has a gonna be in the holly field foundation. Just gonna do pride tent.

o

03:44

I was about to say that's courtesy of Hollyfield foundation.

c

Chris Harrison 03:47

Yes. Okay. And there's

o

03:49

good because last year when they didn't have the festival, you know, all there were the different events going on at the bars that we can't get into so well. I

c

Chris Harrison 03:57

actually think what was it last year the year before that the Westheimer street fest invaded? I think that was two years ago. years ago. Was it? Yeah,

o

04:08

sure. I remember it being sad, but I couldn't get into chances to see a piano I wanted to see. So ~~one day~~

one day

 Chris Harrison 04:17

yeah, let everyone know if you want to find out more information about the Houston GLBT Pride Parade which is going to be on Saturday, June 25. Take a look at the logo get tickets to the Pride festival. Order some of the shirts and other merchandise that they are offering with the event. You can go to pride Houston dot O R G. I still showed pictures of last year shirt. But the new logo and the slogan for this year equal rights no more no less.

 04:47

A little more political than previous years. Do we have a but Coronavirus

 04:50

political times I think that it's perfectly appropriate phone. No.

 04:54

I just think it's neat to note that Yes.

 Chris Harrison 04:57

You're asking if we have grandma marshals.

 05:00

Yes, you're sitting next to ones you want to look to

 Chris Harrison 05:03

to your right. Deb did one. Deb Murphy is female Grand Marshal, that you didn't

 05:10

vote since you don't know that.

 05:11

I did vote but it wasn't there for the okay. Yeah have voted the first chance that voting was

open.

05:17

Oh, see, that's great. We support that.

Chris Harrison 05:19

Wendell Hickey is the male Grand Marshal Dennis and Evelyn Schaaf is the honorary Grand Marshal, individual or what they call an honorary Grand Marshal, heterosexual. Grand Marshal organization is the Bayou City boys club. Oh, yeah. The honorary grand marshal is for our straight allies. And there was an honorary Grand Marshal organizational for some organization, some group in the community.

05:47

And Australia Allah is a very important because, of course, I mean, we only make up statistically 10% of the population so

05:55

well, no, not even though they say it's like 9% in really big cities, like in Houston, it might be 9%. And

06:01

not a big number. And if we are to win our civil rights, and we're gonna have to have support from straight people. I mean, it's not a bad thing. We just got to make sure we understand each other. And we're friends.

06:14

We appreciate it. Yes, yes. I feel like half the time they don't get the the appreciation and the thanks that they deserve.

06:23

Yeah, we need to love our straight people day. Because we do. Okay,

Chris Harrison 06:28

we got to wrap up here with you all and your final information on shout outs and information.

06:57

07:05

mark in Tennessee for listening in today.

07:08

I'm gonna give a shout out to my dad who may or may not be listening as always. And to Josh and Phillip.

07:13

I'll give a shout out to Chris who might be listening and Josh and Phillip as well, because there are cool people, all of them entered the lobby and can hear us and you don't want them to. Yes, they might get mad at us as we leave. Okay.

Chris Harrison 07:27

Thank you. All right. Thank you. And we will be seeing you the fourth Friday, next month of May, which no one of us was very happy about.

07:36

Well, we're, we're pretty. We're pretty sure about that. We haven't had the final say on our time slot. Yeah.

c Chris Harrison 07:44

So I tend to like yeah, don't don't worry about the flashing lights in there. All right, and we're gonna go to a piece of music here. Music, Dudley Saunders. And the truck of the rising sun.

07:57

Yeah, it's the one and we'll be right back.

c Chris Harrison 08:06

All right, we're back. That is Dudley Saunders. And that was the truck of the rising sun. You're listening to the season finale of after hours,

08:17

career radio with attitude. And we heard right here on

08:23

good ol listener sponsored Pacifica station. KPFT 90.1 FM

08:28

89.5 cars. That's it,

c Chris Harrison 08:30

date and time to be determined later. You're ready for D we're ready for Dean. Dean Becker. Welcome

08:36

08:30

to After our sounds like you're driving somewhere.

D Dean Becker 08:40

Yes, I am. Just leaving the 420 fast. With major success for us.

08:47

Good. Good, good. Good. And that's that's kinda that's really good, Dean, because we've just been informed that we are getting our time cut. No, yeah. And we're not sure right now, if we're still going to be on Saturday night or on Friday night. So we're going to have to cut a few things out. So I hate to tell ya. Oh, my God. This is your swan song.

D Dean Becker 09:12

Well, fair enough. They did. Let me finish with a flair. Yes, it sounds like it. We had folks come in ED Rosenthal, Oakland, California. He gave us a couple of very rousing speeches, was there to talk on a personal basis with many people shared his understanding of the process necessary to change the marijuana laws here in Houston, Texas, the Gulag city, and while he was there he met was, I would say 100 people, one on one, you know, sharing his thoughts. And we were blessed to have Ray Hill showed up. And again, he had people cheering in their seats. He was As always split speaking the truth and getting people interested in dealing with that truth.

Daddy

10:06

Ray knows how to do it. It doesn't Yeah,

D Dean Becker 10:09

we had a couple of guys from the Libertarian Party, the Green Party, and others, you know, that have seen the fallacy of this drug war. And as this was on, I want, I want to mention a couple of things. Jimmy, okay. One is Thursday night,

10:29

my mother passed, Oh, I'm so sorry. I

D Dean Becker 10:33

was so happy for her to be honest, my friend, oh, she escaped, because she had a stroke 62 days ago, and was chained down to keep her from pulling out or tubes and running away. She

wanted out, man, and she got out. She's he escaped, and I'm happy for her. But what irks me is that last year, a study was done in Israel that found that if you have a stroke, and you use cannabis, that it cuts down on the likelihood of brain swelling, by about by about 50%. That's not been proven in the US. So therefore, it's not, quote, valid science. But would it not be good and appropriate to live in a society where we wanted to find those sorts of things? Absolutely. But here in the US, we don't allow for that. There is no good in this product. So they don't allow for the studies. And therefore we don't know. And I guess my warning is, it could be your mother, or your father, your brother, your friend, who might, from this product, shown itself beneficial in many ways. And yet, we don't know. Because they'll get the federal government refuses to allow those studies to be conducted. And so, Jimmy, I want to thank you, for the years that we've done this, I wish I'm very welcome. And I wish you much success and your future flat and that your listeners are able to glean that information that will that you bring forward on a weekly basis, and that they continue to find ways to make progress. And and I thank you for the opportunity to be in with you all these years. You

12:24

bet. And I know that a lot of people that listen to this show have been able to connect with you on your Tuesday night show. And to say nothing of the incredible syndication that you're getting. I mean, you're really putting you've got you're the man with the heart, really putting in not only your heart, but a lot of work to get that word out. And we certainly appreciate it.

D Dean Becker 12:48

Well, this coming Tuesday, our guest will be Alan Yan he'll be calling us from His Toronto office. He's a man who battled the Canadian Supreme Court and won. Wow. And we're going to talk to him about that. The rights of medical marijuana patients. Jimmy, God's blessings to you, y'all. Persevere. I wish you the very best.

13:10

Thank you, Dean.

D Dean Becker 13:12

Good night.

13:13

Good night. Thank you. Do we have another piece of music to go to? Well, I

C Chris Harrison 13:19

say normally after Dean Becker gets done I say cultural baggage is on Yes. But hey, who

knows?

13:24

I know we did on it still is on Tuesday at 631

Chris Harrison 13:29

thing you know, we've been telling about the program. The best way for you to find out what what schedule is going to be what's going to happen here in the next couple of days and all that go on the website www.kp FT dot o RG or during business hours call up here at the station 713-526-4000 And I bet you Oh say can get you the information on that. So like I said, everything's up in the air. This is after hours the season finale, which is really have some music for the after hours and we're going to go to a little group Hall. Oh, okay, rue. I looked at this title. And I go this is got this song title just seems to work for the leather line. It's kinky freaky. Oh, we'll be right back.

14:20

Whoa, Rue Paul, two in a row from her from that last album. That last album is really cool.

Chris Harrison 14:27

You know, thank goodness I didn't play number three and then hit screw up and play number four. Was that because there's an intro by Shirley? Q?

14:36

Oh, yeah, actually, it's rude. Playing surely. Q Yeah. It's not the real surely. Q Oh. Okay.

Chris Harrison 14:46

This is after Now I'll save that because we got to do it in a couple minutes anyway. Okay. Yeah.

14:52

It's time for the leather lawn folks. And Mr. smacks rules is in the house. So be very, very Are we scared?

15:02

Oh, you're all good? Yes. Good morning, Max rolls here with the leather lime on KPFT radio that

listens to you. I'm shuffling here trying to get comfortable sitting on my purse. That's no fun.

C Chris Harrison 15:23

Okay, depends on what you have in your purse. That's

15:25

true. But you know, it's kind of difficult to feel it through the purse. It's not vibrating, is it? Okay. All right, this should be a very interesting morning. I have with me in the studio. Well, compared to me, young people, young people who are into this thing we do this BDSM. When I got into this 15 years ago, it was still somewhat underground. It was hard to find out what this was that was going on what I was feeling and, and people to talk to, and literature was not necessarily very available. And most people back then 15 to 2530 years ago felt very much alone and strange. But people today literally do have the world at their fingertips. Look at this. I mean, you really do. So in the studio this morning, I have the next generation literally and figuratively. I have some people here who have founded a group called The Next Generation and it is young people from 18 to 35, who are interested in and practicing this BDSM. I have some other young people who are not necessarily part of the group, but are literally the next generation. I find it absolutely fascinating. And I guess maybe even a little bit envious, because I like a lot of people did go through that time when there was nothing available to explain what the heck's going on or what's out there and you literally just felt like felt like a pervert. And back then it wasn't a good thing. Now I proudly say I'm a pervert. So what I'd like to do is just kind of go around and have you guys introduce yourself. Your name, your age, and kind of relax your age. Sound some people in here might be a couple of years older than the the necessarily next generation but you are the next generation compared to us old folks. And also what your what little title you might want to claim. I know a lot of people are not into titles as far as whether or not you're a top bottom. A switch. Okay, why don't we start with you?

18:16

I'm 24 like Title I can claim right now. Because still having that fun self discovery. I don't know. Is masochist. That's about it.

18:30

Okay. And the next person is going to go.

18:37

My name is Elaine and I'm one of the founders of tng. I'm 28. Now I think I really tried to forget

18:46

• •

I understand where do you get my by accident? Yeah, to make an effort.

18:52

And, and identify as a switch. Okay.

18:56

Cool. And here's my my sidekick sometimes here.

Chris Harrison 19:02

Just a pervert. I don't know. I'm Stacy and I'm 32. I don't know that I have a title. It just depends on who I'm playing with. Okay. I mean, if I choose one for myself, it's completely versatile.

19:16

Oh, that's good. This is good.

19:19

I'm Belinda and I'm a co founder of tng along with my sister. And I'm 37 and I don't really have a title. Okay,

19:29

I'm smiling. I'm 30 in my title would have to be a freak not make me

Chris Harrison 19:43

don't care about the shirt or I'll drop the pants.

19:48

This you know the whole attitude right here that the smiling and the laughing about it and claiming these things is actually pretty extraordinary. You No, because as I said there was a time when it was not. Why don't you tell us about the group tng?

20:07

Okay, tng, we founded it back in 2003, I think, yeah, around October of 2003, we had a lot of

help and support from the community, which we were very grateful for, and continue to be grateful for. A lot of people helped us get the word out about the group. And, you know, just, we really wanted to provide a space where people have a certain age group could come and identify with others, and find other people who had similar interests, or, you know, wanting to explore certain things, you know, and just didn't really know how to get started and, and wasn't really sure where to go. And, and a lot of what we saw, was that the community, the established community, was of a certain age range, and had a wealthy store of knowledge to pass on to young people, but weren't quite succeeding, as they were in bridging that gap and introducing themselves to these younger people. It's very scary, as an 18, or 20, or even 25 year old person who is exploring this, uh, you know, section this, this part of them seems to try to turn to someone and everyone that they see is somewhat older than them, you know, they, they don't always get to see that it's a no a wealthy store of knowledge. And, you know, and so there's sometimes this thought of, well, I can't identify with these people, these are scary people, and they're gonna laugh at me or, or I don't know what I'm doing. And I don't want to do anything wrong. And, and so it's really hard for some of these people to explore this side about themselves. And we just wanted to provide a space where people could do that comfortably, and sort of act as a springboard to other to the other groups in the community, you know, just act as a gateway say, Okay, you we let us answer your questions. You know, ask us everything that you need to know, feel comfortable, and then go explore the rest of the community Go, go find other groups that you can relate to find other people who enjoy the same types of things as you do.

22:27

How old were you when you first started exploring? BDSM Oh, wow.

22:34

Considering how much involvement I've had in the community, I am so wet behind the ears. It's unbelievable. I really didn't even start exploring anything until I guess when I came down here in 2001. You know, I had had some really bad in really bad situations where I had no idea what I was doing. And my partner didn't know what I was doing. And there were some bad feelings and Mojo. And I was like, Oh, I'm so sick, and pervy was wrong with me and went through that whole denial stage of oh, I don't know what's wrong with me and why? Why do I have these feelings? And I'll just kind of shove it away. And, and then it was really funny. Belinda, and I have a very strong relationship. A lot of people are very surprised when they found out that we're sisters. And not only do we know about each other, being in the community, we support each other. And we're involved in, in very close ways together. So it all happened one day that she came up to visit me when I was in college, and we'd never had any kind of conversations before about anything. And I don't know, one of us said something. And it was one of those will well, sometimes, you know, I think it's kind of neat to do such and such. And it's like a moment. And I was like, Well, yeah, I like that too. And she's like, Oh my god, me too. Oh my gosh, oh my gosh. And that was like this big sister moment. And so when she had we had all these stories to share, and it was very, it was a really positive experience. Because, you know, it was like we're both coming out to each other. And in finding out that there's like a whole new way that we can relate to each other as sisters. So whenever I came back down here to Houston, and I was living with Belinda, she really encouraged me to learn about the community and to get involved and to begin exploring this side of me. So you

24:26

were involved with the community before your sister came down? Not really,

24:31

no. No, I've been very selfish about it. I figured if I had to do it, she had to do it too. So it's something that I had recently also discovered that I enjoyed. And about that time there was a there was another group that was being formed called third Friday, which is fashioned after the fourth Friday in Dallas, which is just a big community wide get together on the third Friday or the fourth Friday of the month, and the call went out for interested persons tends to be on the steering committee and I grabbed her by the hand and said, Okay, I think we should do this. And then it was all downhill or uphill as it were from there. And not long. Not long after that, about two years, we saw the need for this kind of group. And again, I said, Okay, I don't know who else is going to do this with me. And I don't know who else I trust and I don't know who else I want to do this with. So you do it. That's where we are.

25:25

Okay. So even though like now we're talking about these things, you have this group going on? Okay, we're gonna take a break. We're

Chris Harrison 25:35

gonna jump in real quick. Oh, okay. I just have to jump in to let everyone know you're listening to after hours our season finale. Here on listener sponsored commercial free Pacifica radio for the Gulf Coast. KPFT 90.1. FM Houston. 89.5 Galveston always on the World Wide Web KPFT dot O R G. is the leather line. Okay.

25:56

And more of a new guest just walked in. Yeah, what is very good

Chris Harrison 25:59

and more to the entourage? So back to the talk.

26:05

Okay, where was I? Okay, even though we are freely talking about this. There is a group. Set. You want to take that mic there? Obviously, you because you felt a need to start this group, you did still have that feeling of being isolated. But you're young enough to have kind of been

brought up with the computer? Yes, sir. Yeah. Yes. So you did see these things, you know, and read about these things on the computer yet you still felt?

26:40

Oh, no, no, I didn't do any research at all. No, no, I had no idea of of anything. I didn't know. I didn't know what vanilla meant, or sub or top or switch or bottom or mistress or slaver. I mean, I'm still learning things. I'm still learning new words and terms and what everything means.

26:59

How about UB,

27:02

I actually cut my best friend and an online relationship that three or four years before we joined this the scene and kind of went public with it. And went, Ooh, what's this? Tell me everything now? I want to know, what's this? Why are you doing that? What's that mean? And I've been very blessed in that she has put up with me going What's that mean? Why are you doing that? What's that for? Over the past? Eight years, almost. Wow. I was still in high school. When I first learned about and went, Hmm, sounds like fun. Like the same. I didn't do anything with at the time because I was still in high school and at the time was going through my second car. And couldn't go anywhere. still living at home kind of thing where it was like, this is fun. I'll put it in the backburner for when I'm older and can deal with it. Well, how

28:06

did you discover it was fun. You know what I mean? I mean, what did you try things on yourself? Since you say you were on the computer, did you do you like you know, cyber playing or a little bit,

28:21

it was more of a, I'd always in the back of my head knew there was something strange. I was not like everybody else. And it never bothered me. It was just, I didn't know what it was. And then I caught my friend and she explained it to me. What's wrong? What

28:36

didn't you get your friend doing? See,

28:38

she was in a kind of gorian. Okay. gorian ask relationship with an online Master from many states away. And she was going through the formal goodbye when I walked in on her kind of unexpectedly five minutes early. Not on purpose, because I wasn't like trying to catch her or anything. It just kind of happened. And was reading over her shoulder and went, Master, huh? Who is this? What's going on details here woman don't leave anything out. And discovered she'd had this relationship for two years. Didn't tell me and it really pissed me off.

29:17

We just had a person join us. Sef Hello. Say hi. Hello. And what are you wearing?

29:26

This was a skirt. That AC

29:30

Oh, how lovely. Okay, so Seth, would you introduce yourself and tell us your age and how you describe yourself as far as the scene goes?

29:44

24 I generally call myself a sub. But if you press me, I'll admit to being a switch.

29:49

No, okay. Well, Bernie just mentioned gore and I know you know a little bit about that. So we're not gonna let a term go pass without explaining it. So why don't you tell us a little bit about gore?

30:04

Okay, well, I actually was given a whole bunch of books recently.

Chris Harrison 30:09

And yeah, I tried to get rid of them and read these books

30:12

was a series of books by John Norman, known as the books of gore or

30:17

something else. No, no, no, you go ahead.

30:21

And I guess I've never read them, although I've given them as gag gifts twice now. But I understand that they describe a kind of male dominated, middle medieval world, which has been co opted as a male dominated BDSM community, especially online.

30:43

I mean, this is a lovely skirt you're wearing is from Canada.

30:47

Very, very nice.

30:51

Did you say you just got back?

30:53

I was at arrows.

30:54

I thought you meant you just got back from Canada. I was like, wow,

30:58

I flew in.

30:59

I had no idea that you enjoy any type of cross dressing.

31:03

31:00

I just, I'm from so I would. in Champaign, there's no BDSM community. So I went to the goth community. And boys, there were skirts. Okay, so I kind of picked it up there.

31:15

When did you first find out that you were interested in this? Well, thing that we do.

31:23

So for me, bondage, and you know, back scratching was always kind of something that you were supposed to try for sex. Really? Yeah, it was just like, if I'm listening to you try the oral sex. He tried fingering, he tried bondage. It was just there. Because I get to go through the list. You got your first girlfriend yet to go through the list? So we went through that we discovered that I really liked that. So we went we bought all the books. And when I hit college, I was on sock that subculture dot bondage BDSM which is a big news group. And I hung out there for a long time.

31:56

Okay, and what are some of the things you enjoy the most? What are some of your particular fetishes that you like? Well, I'm

32:03

I'm big into pain. I'm a big masochist. I like cuttings. canings floggings single tails a little bit

32:15

you're shaking your head at Yeah, no, no single tears. No.

32:18

Oh, no. Single tears. I thought you were saying like no to all of it. What? Oh, no, no, no, no, I

32:23

was like, yeah. Oh, no. Calm down there. Now, I found out I found out pretty early on that I mostly prefer like the dull thud pain for about 45 minutes to an hour. I mean, just just over and over and over again. And, you know, every now and then, like, just getting like the tails of it. Just like, okay, yeah, I'm here. I'm awake. Right? Yeah, you're shaking your head. Yeah, I'm,

c

Chris Harrison 32:55

like, heavier.

o

32:57

Yeah, one of the best.

c

Chris Harrison 32:58

One of the best submissive times for me was actually with a female. And she was a performance artist that was touring with the band that we were hanging out with. And she did this little performance fire dancing, fire breathing thing on stage and she would go out and she's very hot neon colored dreadlocks and little pasties ever nipples and, you know, little flaming hot pants and the whole bit should usually drag some poor unsuspecting like tongue wagging, heterosexual boy out of the crowd time up and beat the crap out of onstage and he just onstage like whimpering not knowing what was gonna happen. Well, I'd seen this I knew what was going on. And I was like, Do you need a volunteer? And she's like, yes, well, I volunteered three nights in a row. Because we were in California with the band. And she kept saying, I'm, I can't do this to your back again, because she was using a multi tailed whip with metal beating on it. And then she had a metal clapper. And these were like her two favorite things. And so I was I was bruised from back to top of buttocks. And at some point, at some point, I was sprayed with what payment I don't remember which so by the third night, she was like, you know, and she was like the perfect dog because she would come in and we got into a private scene afterwards. So there were actually four times that I let her dominate and I had a boyfriend at the time, and a wife and we were all traveling together. So everybody thought that was really interesting because I don't claim bisexuality at all but they were like you're bringing your boyfriend to meet your lesbian wife, what are you and I was like, had a big mint green pompadours hair. She tied me up on stage and she'd beat the crap out of me and like it was really fun and she enjoyed the way that I moved with her like I am Yeah, like, if it's a day when you submit, for me, especially when I because I am not very submissive in any way, shape or form. And so when I submit there's such a level level of comfortability and trust that like you, I, it's a mental thing. And I know immediately upon meeting a person if that's there or not. And we played and we played privately and like it scared some of the people that I was with when we played privately because I mean, it was I was chained and actually twisted off the ground, in chains. And then I had a zipper put all the way around me. And if you don't know what as it is, it's close pins on a string. And so she spiraled them around my body. It's amazing. She twisted me off the ground, and then she pulled the zipper so that when she pulled the zipper, it spiraled me back down to the floor.

o

35:58

We have on the left smiles and giggles and the look on the face to go. Oh, yes, yes, yes. And over here to the right. We are cringing and shutting.

c

Chris Harrison 36:13

And that was it was 21. I was 21. And that was I mean, not my first BDSM experience by any means, but it was definitely one of the most fun. And finally, by the end of our three dates, we couldn't figure out she was like, I can't abuse her anymore. And she's rubbing AMD ointment all over my back before the show and she finally says, We've got to figure something out. And so we go into the local grocery store. And being a crafty domme, she picks up licorice whip. And she electric tapes it together. And she beats the crap out of me on stage with the licorice whip because it's a tad softer than the metal beads and said the final the final thing was her slapping me across the face with the neck biting through it. Does she make she beat the crap out of me popped whipped cream out of my crotch with it flying out of my gold LeMay pants and it was

37:09

gold LeMay pens and mint green pompadour I love girl.

c Chris Harrison 37:14

Six inch silver platform shoes.

37:17

Your age?

c Chris Harrison 37:20

No, no. Okay, they were like well past the platform. But the funny part of it was that the band that I went to see came out for the final. So to videotape me sitting on stage going okay, are you a little sob from high school? Where are you now?

37:39

You brought up trust. And that's definitely the bottom line and the common denominator that runs through this. I don't care what age you are, what you do, and which is why it's really really a good thing that you do have this group and it is some place where people can go and find out do we have any callers coming in this morning? Is do you have a website? For the group? What is the website?

38:07

It's www dot t n g houston.com Tng is in the next generation.

38:14

Right Okav I'll make sure I put that on my website too As far as the trust issue You all agree

Right. Okay. I'll make sure I put that on my website, too. As far as the trust issue. You can agree that that is the most important component? Absolutely.

38:27

It's something I learned. It's not something I learned.

38:38

It's something I actually learned it was all about trust. Once I gave him that trust. It was chained up. It was actually it was. So I believe it. Yeah,

38:47

yeah. But how do you when you have new people coming into your group? How do you explain to them what they need to look for? And and and help them keep themselves safe?

38:59

Yeah, certainly. That's a that's a really big thing that that we always try to talk to people about whenever they come in, they're new. You know, people, people who have never explored any of this often have preconceived ideas of what it means to be in the community or what it means to like something and they have all these fantasies that may or may not be something that can be turned into reality, but they don't know where to go. They don't know who to ask. And a lot of times whenever people come to, like, for example, or play parties, they've never been to anything before and and once you start talking to them, they start making photos

39:39

about your play parties. Oh, okay. Yeah. Let's talk about play part. Okay.

39:43

Yay. Well as what I like to tell, what I like to tell the new people who come to our play parties is that a play party is a chance for people to do whatever it is they like to do, whatever their thing is, whatever they enjoy doing that. What we do at our play parties, and right now a lot of our play parties have just been focused on like the BDSM aspect of the community. We've done a lot of like floggings and candle wax and violet ones and canings. And you know, things like that. Where we would also like to take the group in the future would be to address the more kink and fetish community where we would have like a uniform fetish night, or latex rubber night or Yeah. Yeah. So, so, you know, we definitely want to grow the group and keep it going in all kinds of directions. But right now our play parties are for our members, who are, you know, 18 to 35 year olds, as well as their water as well as Oh, I'll take one, two. That's okay. Great. Oh, wow, look at us how smart we are just pass.

c

Chris Harrison 41:04

Oh, take one down. Around. I

o

41:06

know, except we went out to pass around.

o

41:08

Do we have another one?

o

41:13

Everybody out there want any water? Lovely.

c

Chris Harrison 41:16

Why are we talking sports now?

o

41:23

Why? Well,

o

41:25

one of my favorite things.

o

41:29

Anyway, so our play parties are where our members and their significant others come and just, you know, get to experience a play party. And we have a lot of people who've never done anything, and they just kind of feel more comfortable sitting and watching and asking questions. We have some people who just come out guns blazing and are like, well, let's go and, and you know, you try to steer them in the direction of somebody who knows what they're doing and who you know, is going to do. Okay. We answer a lot of questions. And, and there's a lot of play, and people get involved. And we just had our play party on Friday, actually. And it was funny, we had an all a lot of new people come and so we were really excited to have them come out and you know, talk to us and we had a lot of questions. You know, we liked that we do encourage questions and and then some of them got a little bit brave and, and got a little participatory.

42:28

How's Good, good. Good. I want to say you are listening to kp ft. 89.5 in Houston

42:44

and kpft.org on your computer on a computer. Let me ask you this because I know I'm fine as being an older person. And as being a pro Dom's that makes herself sound like an a&p.

42:59

I know what do you mean older person? I just got D rated for sitting here using the word elderly you're not? Oh, well.

43:07

We will have major frickin problems if we go to the elderly. Yeah, told you there was a difference. But I like antiques, and wine and cheese, we got to get better with

43:22

Oh, you're not thank you very much, Mr. Smith. And that

Chris Harrison 43:27

is the elderly person.

43:30

I mean, there's no accounting for wisdom and that you know only comes with time experience, there is a certain amount you cannot get until the time cashes in one of the things that I find a lot is that there's only one part of a couple that that is interested in this. And the other part really does resist it very much or did not want to get involved. How do you deal with that? Do you find that you were shaking your head? Sef

44:07

Yeah. So before we came to Houston, I was never involved with the scene because I lived in Champaign, Illinois, and the seamless pipe People Are Awesome through you know, the goth scene. So, but pretty much every partner I've had, has either been interested or been been

willing to try BDSM on some level. Maybe it's just kind of been in a college town different college students, but it's kind of annoying having to constantly be teaching people but I've never had someone who's actually unwilling to do anything kinky at all.

44:38

I have I've had the complete opposite experience that you've had my whole life I've had such disastrous results trying to introduce you know the community into my personal relationship and it's just been really bad luck for me and and actually, I've just been very fortunate. I did meet someone Who seems to be on the same wavelength as this very first relationship that I've ever experienced? Where I can say, hey, I want to try, you know, doing this, that and the other and, and nobody in the other person doesn't look at me and go, What? Why? Well,

45:15

I'm curious. I'm curious, what is this that another? Oh, no What this this that and the other is

45:23

my very my very first experience when I thought I was gonna get a little risque. In the bedroom, I asked my then boyfriend to just spank me. And he just stopped everything he was doing, and just stared right at me and said, What?

Chris Harrison 45:45

No, I need to hook you up some of the boys that play

45:48

and, and every everything. You know, I mean, just something that I thought, you know, I was like, Oh, I thought kinky couples do this all the time. I don't you know, and I thought it's gonna be like, ooh, fine. So

45:58

you thought you two were already kinky? Well, no. Well, I

46:01

thought doing that would make us kinky.

46:04

It's actually, did he ever do it? Oh, no. No. Did you find somebody that that's why he's

46:12

long gone. And every every

46:14

What do you think? Is that that hang?

46:17

Um, I think that a lot. I think a lot of it is just fear of the unknown, you know, because when I first started recognizing these feelings and tendencies inside myself, I questioned who I was, I questioned what it meant. I didn't know. You know, if it made me weird or strange. And even though I knew that there was a community out there, of like minded individuals, I still had some time that I needed to take to kind of get used to all this because it was something that I had not, you'd said, you've kind of known your whole life funny. But that was, you know, that was nothing that even occurred to me.

46:51

But did you think it was just something that made? And this is the question for everyone? Is it something that you felt made you just weird or abnormal? That was it? Or was it like, Oh, my God, I'm a sinner kind of thing.

47:07

Even said to be

47:09

said, I was like, Yeah,

47:10

to this day, I have a hard time believing that someone isn't kinky, everybody. Everybody's just like,

47:21

everyone's like me, and they're just hiding it because they think that everybody else is normal. I think that's the big problem. They're normal. I

47:30

feel that way myself. Because like I said, I've as a pro DOM. Many times I see people and they go, you know, I don't understand. I just can't get my wife into this, or I can't get my husband into this. And I think, for Christ's sakes, I mean, if you've been with somebody 2530 years, I don't care how good the

47:51

breakout toy.

47:55

I mean, you just can't eat spaghetti, every right. So I agree with you. But But back to the question. Okay. Is it was it ever an abnormal thing, you know, psychologically, or whether you claim any religion or not, we still live in a society that really tries to slam its moral judgment down your throat? Did that have anything to do with it? How about you because you're in that kind of crossover era, Belinda.

48:29

Um, strangely enough, even though it wasn't something, looking back, it was probably something that I was interested in most of my life and just never knew it. But it didn't, it didn't play any kind of an in an important part, until about five years ago. And at that point, I guess, when I realized it was something that I was interested in enjoyed. It just kind of became something that I interested in that I was interested and enjoyed edit, and at no time, did I ever go. Oh, my gosh, something's wrong with me. It was like, Wow, I like I like people to beat me gosh, okay. And then I just kind of went on and I guess it just didn't ever occur to me that maybe I should think something was wrong with me. It wasn't until I was meeting other people that I realized that many people went through this just soul searching identity crisis with people not supporting them, people condemning them people telling them horrible things. And I just didn't have that certainly. I've not done anything. As as courageous has come out to my family, my friends pretty much no one went to Well, yeah, well, my sister

49:42

I wasn't thinking of us,

49:44

but it was. It just never occurred to me that something that that I liked, I guess that completely

and that just felt okay. Should be the cause for just such consternation that people should just be so upset about

⌚ 49:59

it. fascinating. It really is fascinating. I have about over here, buddy.

⌚ 50:10

No, I've always said I'm weird. I'm different. There's nobody like me. I don't want to be like anybody else.

⌚ 50:18

So it's always been a matter of just accepting. Not to me. It's

⌚ 50:22

a good thing. I don't think that me having something that makes me stand out, as opposed to the girl next to me with the brown hair and blue eyes and fair skin. You know, that always makes me go. I knew something you don't know. I'm special. You know?

⌚ 50:41

What time did you come out? What time did you come? I think two o'clock you gotta hold 33 minutes. Okay, cuz you need a smuggler or something? Oh, no, no, no, no, no, no, no, no, no.

⌚ 50:51

If I go ahead,

⌚ 50:52

yeah. Whatever it was that

⌚ 50:55

it was we were talking about money. picking on me. We're not picking on your money. Yeah,

⌚ 51:00

sure. We are.

51:02

When was that a bad thing?

51:03

Ever. So what were you about to say, Lee? Oh,

51:05

I was going to say, I think something that you mentioned the phrase, you know, what, what is it so hard to wrap your mind around it, you know, wrapping your mind around. And something that I find very interesting is that people try to psychoanalyze my interest or, you know, our interest in the community, that they try to link an abusive childhood to enjoying getting beaten because that was how your parents express love. And so that's how you're seeking love or your fondling. Yeah, exactly. You're

c Chris Harrison 51:44

my favorite is. Oh, she must have low self esteem. Oh, there's Yeah, so So what do you what do you what are you best?

51:54

What do you have to say about that? The submissive in you what is? What do you say to someone who says you must have low self esteem because you like to be beaten?

52:07

I mean, I have low self esteem. That's because I'm a geek.

52:12

Who likes to wear skirts? I mean,

52:16

I'm a nerd. I've always been a nerd. I was the nerd in high school. So yeah, I've got low self esteem, but this is something I'm good at.

52:26

Massage person.

52:27

Oh my god. He's a math person. No, he really

52:31

he's the math geek. Like when I'm giving out massages

52:35

somewhere? No, that was me. Oh,

52:37

I don't really know how to get the two of you can. It must be the hair. gotta quit question. Are you sure you haven't seen me doing

52:45

it? Yeah, how about that?

52:47

No, because I know Seth I've seen Seth and I don't recognize you. Should I

52:55

just give amazing

Chris Harrison 52:59

glass and this is Max is going AHA need some time. Let's wind this up.

53:05

And well let's just have a little music interlude so that I can go and do water sports in the appropriate place.

⌚ 53:13

I have no clue what you are you ready? We can do it

⌚ 53:16

so let's do that.

⌚ 53:19

No

⌚ 53:28

and we'll continue with another song with mistress Max she'll be back

⌚ 53:39

Oh, the first song we heard was candy cane. I don't know which one it was the second one was Tempus Max is back mics are on everybody. You're saying your headphones are too loud. Yeah. You can coach all them right there. Go to the number to which we go.

⌚ 53:55

Okay. Okay, we are now gone. Totally. Okay, now we are We're back. Let's talk specifics. I want to talk about the nasty things you like to do. We started twitching in our seats. Seth. I know you like cuttings. I've seen some of the photographs. of the wonderful things on your back. Do you have any any scars that we can see? I don't know. Okay, we're gonna look at setback but just the very basic question What the heck do you get out of it? How do you feel cut if you were trying to explain to somebody I like to get cut.

⌚ 54:45

So actually Wow. Instead of just to play party

⌚ 54:53

isn't that beautiful? And Jean did that didn't

54:58

so I'm cuttings for me are very, very, very submissive.

55:04

So what do you mean very submissive, because someone

55:06

is laying you open and peeling back to bits of you and letting you spill out. And it is incredibly submissive and very much something that brings me under them under you know, they get very thorough dominance over me. And I lose all sense of self preservation, and it just feels like this fun burning, cutting, feeling open to patient.

55:36

You have this very strange look on your face is different from any other time? But do you like go to another place or? I don't. And I said that Jean did that. So I doubt if they're listening, but I do want to say hi to Jean, and send out best wishes to clay, who just recently had surgery and Jean and clay run a group called arrows here in town, which is an absolutely wonderful support group and discussion group and play party and play party group for people in the scene. And that's arrows. houston.com Oh, what does that arrows.com? Well, anyway, if you go to my website, Matt's rules.com and click on links. The very first link on the page, I called the gateway to the BDSM community in Houston. So that that transcending Well, it's

56:41

I don't, I mean, it hurts rather a lot. It's not the kind of thing that gets me floating and happy and drifting off. I mean, this is a lot more painful than than a flogging. But it's I mean, it's very, very submissive and trembling. It's it's more trembling and shock and fear and,

57:04

and you like this? Why is it

57:07

so good?

57:08

57:00

Is anyone else here? Enjoy cutting? We have we have Mike in the house and Mike has been on the show with me in the past. Say hi. Hello, everyone. How you doing honey? So you like this cutting stuff? You like doing it or you like I like doing it? Okay.

57:29

It's fun. It's

57:30

a rush. Definitely until you get poked. Okay.

57:37

Why don't you introduce yourself?

57:38

Okay. I'm Mike 24. And I've been listening to the show. It's fabulous so far. So I know I've got to name my title. Mme, and I'm a sadist. And yeah, I'm here.

57:50

Cool. So you obviously then enjoy. Lee is the other half of my day. They are a couple. So do you enjoy the cuttings as well? Yeah. Why? What do you get from it? Is it that that you know, really giving over that being submissive and the high from that trust? Um,

58:22

I don't know why I'm looking at you. I get it. I know. It's scary. Okay, it's it's it's scary, but it's scary in a fun control weigh. I know. I trust Mike. And I know that Mike's not going to hurt me like in a bad way. Or in a permanent bad way. And so it's just you know, it does hurt I mean, it's a big knife and it's against your skin and it's drawing blood but it's that adrenaline rush I think and just it's very scary and it's cold shiny metal which is very fixed. Yeah. Good. Good times. Everybody here I think agrees on shaking their head.

59:12

You're about turning the color of your hair is cutting something that you enjoy? Not yet. But it sounds like something you like have you ever done knife play or anything like that

59:27

thing sharp things? were clear. We are currently in our direction

59:32

on the two of you switch chair seriously, I do have the toy of the month here Hey

59:48

Bill blown. Know I wish it was Oh it does look really nice. You can attach that to trade places. is simply a knife. Okay. and just

Chris Harrison 1:00:01

a very decorative scabbard.

1:00:03

Yes. And it is that that danger, that adrenaline rush that does make this very, very exciting and very sexy.

1:00:15

Okay, now what?

1:00:16

Do you want to turn around toward me? Yeah, facing me. Did anybody else bring anything interesting? Didn't ask, what are the nasty things do like to do to get exposure? Can I expose you? Is that okay? Oh, she's just so stuck in the corner.

1:00:43

Whatever the next time, please,

1:00:44

what are the nasty things do do. And I hate to call them

1:00:50

what you're doing next.

1:00:52

And I can't take this off. Okay, I have this knife, and I am sort of gently running over buddy's breast here. And she's trying to be very, very cool.

1:01:08

So I'm actually just trying to be here, and I still

1:01:12

just kind of trying to because she is wearing her bra. So ordinarily wouldn't be. And I'm just kind of scraping over the nipple. And it's very ticklish.

1:01:25

I think another attraction about the knife. And the cutting is that, you know, you don't know the person who's holding the knife at any moment can choose to just exert a little more pressure, and you don't know when and where that's coming. And so you can just it can just the knife can just be gliding along your body, and then all of a sudden, just a prick. And in your back

1:01:49

there, there's sort of that anticipation, you trust that the person will do the right thing? Oh, you have to trust there is that that just little bit over the edge where you think,

1:02:03

Oh, she's almost got her tongue sticking out?

1:02:06

Who knows? This person could just snap at any moment and just cut my wrist.

1:02:17

But she'd be doing it the wrong way if you want to do it that way.

1:02:24

Okay, my level of self preservation is not a model for you to achieve.

1:02:29

Yes. Um, with with your partners. Did you find that you had to you know, even though maybe you already had someone who was experienced? But even with that, how do you arrive at deciding what it is you're going to do? Or not do? There's that step of negotiation? Or maybe not? Did I miss something which was to negotiate?

1:02:58

Don't be telling you this stuff. Seriously,

1:03:07

seriously, there is that part where you talk about what you want? Oh, seriously, because we do we do have this bad rap due to the the vanilla people making these videos in their garages in Pasadena, California, which portray people in the scene who just go out and snatch people off the street and just start beating the living shit out of them. So there there is that part about negotiation and communication?

1:03:41

Yes. Negotiation can often be real short. I mean, it can be Hey, you want to get beat? Sure, don't draw blood.

1:03:49

How? Yes, but and that's something that we are afforded to be able to do because of the community here in Houston. You know, you can be when you go to play parties here or things like that, because there are a lot of people around with some, you know, experience etc. So you feel pretty safe in in playing with someone in that surroundings. But say someone who's thinking about doing this and has not yet found that confidence or whatever to do that. It's something they just want to try with each other. So definitely then communication and negotiation is something that has to take place.

1:04:32

Yeah, I think communication is is vital in a relationship. i In a previous relationship, I decided on my own in my head that I was gonna be a DOM that night, but I didn't really tell my partner. I don't know what made me think he was supposed to know I don't know, like, okay, he's totally

gonna get this. So I like came out of the shower and jumped on the bed and I was like, you will obey me or whatever. I mean, just not that cheesy, but you know, something But I'm a little bit cooler than that a little bit. And I don't know what it was. And I was just saying something and he's like, God, you don't gotta be so mean to me, you know, order me around so much. And I'm like, I was just so not working. So, you know, I don't know what made me think that he was gonna instantly realize what we were supposed to be doing. So, from that, as well as a few other instances, I was able to learn that communication is vital between your partners, and especially when it comes to a situation where one of you is going to be in a compromised position, then it is very, very important to make sure you're both on the same page.

1:05:37

So how has doing this thing? Oh, there's music. Is that my cue? No, that wasn't I will, I can still say you're listening to KPFT radio that listens to you. And that's at 9.5 in Galveston and 90.1 in Houston. There was something really cool I was about to say. I apologize. That's okay. Oh, we have another toy here. So this is in blackjack. Yes. Now now. A blackjack for God's sakes. That's something that you really used to oh, well, you know, it's like a stick up type weapon. So

1:06:24

but it's it's also 32 Very and everyone likes to hit me with stinky things. And I like study things. We were talking about that. Okay, and so I evidently decided randomly at the SNM bowl that I wanted to study thing and I found that I'd purchased a blackjack without quite realizing it. Okay.

1:06:47

That explain what a blackjack like is. Is like used for

1:06:54

in law enforcement? Yes, it's actually used in law Yes, man. And it's a thick piece of leather with a weight a lead weight in it and it's you know, sewn in and

1:07:05

and it's real. I think anyone has ever seen any mafia movie How do you like to have that used Safa

1:07:14

any muscley areas good

1:07:16

to like it on your back?

1:07:18

I love well I like everything on my back. I like canes on my back. So yeah, back legs. You know the calves are good because they're nice and mostly. Not the chest. No. No, don't get a chest you just hit the back and it goes all the way through to the chest.

1:07:35

Well, yeah, that's good.

Chris Harrison 1:07:37

Pink nipples thinking they

1:07:43

have a lot of other things to do with those nipples.

1:07:46

Still sharing his artwork.

1:07:48

On his bag, Max real quick, say your email just for the caller on the line. Okay,

1:07:53

my email address is Ma XRULZ That's Max rules at max rules.com ma x r u l Z as in Zebra at Max rules.com.

1:08:10

Okay

Chris Harrison 1:08:15

now is covering up as little pink nipples.

1:08:18

Did you see the cutting on his back? Yeah, very, very cool. Very cool. Did you see? Okay,

1:08:27

great that it actually healed before today.

1:08:30

Yeah, I saw the photos of that and I thought that was really really cool. How about you? We haven't talked about I know you said you'd like to be beat. Are there any particular things that you like? And why?

1:08:45

Tell her about the thing that you brought for discussion that you didn't really actually bring?

1:08:53

No, I just like to age like to be beat. Like stinky things. Dressage whips. My favorite. I like 30 things. We have nice heavy floggers. I like those. I have some paddles sweet. I like paddles. That's that's

1:09:10

pretty much it. And it's all a sexy thing. Is it is it? Is it? Don't you dare answer that disagreement?

1:09:22

What we've noticed. Okay, what we've noticed. One of the things when I first got involved in the community, I noticed that there seem to be for great many people in the community, a eight line, a very definite line between BDSM and sex, and you go to a party or you go to someone's house and you engage in a BDSM activity that has nothing to do with sex. And then you go home and have sex with that person or somebody different or however that works. But those two never cross and it's that way at many parties. And that just doesn't make sense to me. My BDSM has sex in it it that's in there some form

1:10:00

For most people, actually it does. You know, and I think it's just kind of a protocol thing. You know that necessarily people just don't want it to appear to turn into a great big go orgy kind of thing. But now I'm totally understanding that because as a pro Dom There daggone is no sex involved in my BDSM not necessarily, you know, always. No, it does not have to be, but it is a sexy sexual thing, because that's the energy that you're dealing with.

1:10:38

You dealing with it when I'm crying. I don't feel sexy.

1:10:45

There's a cathartic aspect. That I think is very important. Yes,

1:10:49

there's a very central aspect to BSM, but it doesn't necessarily translate to sex. i There's never been any sex in my BDSM eventually there might be when I have someone to go home, but until I find someone that I trust enough to let them beat me, and then take me home and do other things to me, a there will be no sex in my BDSM

1:11:10

I have all in all these years, I've only brought the two together once usually with those that belong to me, that is what it is. It is BDSM it is not sex. You know. So this like, like most things is definitely tailor made to what your desires are. And as far as it being sensual, sometimes it is sensual, and sometimes downright sexy, but sometimes it's just downright me. Yeah, because it's just what you were about to say something else. Okay, other than then the crime has nothing to do with. But

Chris Harrison 1:11:54

I'm just curious though, if you're crying if it's not necessarily sexy for you, but maybe sexy for your part. Because I liked making apps. Biggest rush and turn on and I have

1:12:10

no problem with my partner getting off on on the DSM. But except for some very specific activities done in pro specific ways. Most of what you're going to do to me isn't going to feel sexual for me. You may get a neurotic What is it spiritual

1:12:25

for you?

1:12:26

Everything's spiritual. But yes, it is spiritual. It's a personal connection to it's an emotional bond that is being forged. Between me and the person that is tapping me.

1:12:37

Okay? Does anyone else feel that this is a spiritual activity? For me how self can be

1:12:46

it's um, it's almost like a meditation for me. As weird as that may sound considering that it usually involves screaming and lots of bloody smacking noises, but it's a I usually kind of zone out if it's being done right. And I'm not having to spend time going out Please, God, don't hit that spot. Again. I'm gonna smack you. That's not very submissive specs, the same spot all the time, maybe I'd feel more submissive. I go off in my own little zone going. I feels nice. And there's no Wow, a lot of thought for a whole lot of time for other thought. The repetition the ceremony, because to me, there is a little bit of ceremony and there's that little because there's a repetition and that focus between the two people or three people or however many that are involved in the scene. So it's a very it's a higher level of thinking for me. Because I don't think I'm so focused on what's going on outside of myself that it's, it's a very nice time for me to go.

1:14:06

But you described yourself as a masochist, you didn't describe yourself as a submissive okay, you know, I can see that with the two of you is there a DS relationship, a dominant submissive relationship as well as BDSM for Mike and Li

1:14:22

dominance and submissive relationship like

1:14:25

are you submissive to Mike or do you to just play take off his boots? Yes, she does. She do it with her teeth are so happy. So, do you have a d s relationship or

1:14:51

I say so I say some of the activities we engage in our D S but I wouldn't consider us to Be like a 24/7 DS relationship because Oh, wow,

1:15:03

that's obvious. Oh, no, hey, no, I

1:15:06

talked to Sammy. There's no way I could be sub enough to go into 24/7 I get no bad, no, no. So but I was gonna add from the last conversation that in addition to being like a spiritual thing, I think, for me that that being in the same can also have being in AC and can also have a very cleansing effect. Because whatever, is gonna sound really cheesy that I'm able to connect these two but, but it's kind of like what you were saying about meditation. When I was in high school, I would like put myself to sleep with these cassette tapes that were like, You are a good person. Like, you can achieve anything you want. And there's like all these. And I didn't know what I mean, my parents gave me and I was like, okay, it had the ocean, I thought, coolness, right. So one of the tapes was like all these like medicines like this man, like, you are calm and collected. And

1:16:08

my parents, what was on the tapes.

1:16:12

So So you know, there was like, all these meditations where you would focus on all the bad, like, nasty achiness from your life, and you would like focus it into one little area, and then you would somehow like, you know, get that area out of your body, like through like liquid draining from you, or I don't know, whatever. And so sometimes when we play, I mean, there is pain involved, sometimes for me, it can be a very cleansing effect, because I can get all that bad, horrible achiness that's been inside of me, and focus it into that area. And as, as I experienced the pain, it's just a very releasing and cleansing fee. I

1:16:47

totally relate to that. Because I do the same thing. You know, sometimes there are those days, I'm going, I have to drain this energy out somewhere. And someone around who where the situation is consensual, you know, many times, unfortunately, you know, people do raise their hand to others in anger, or, you know, some guy comes home in a bad mood, and he decides to take it out on his wife and she's, you know, slopping up the kitchen floor with her face or something, you know, and vice versa, because there are definitely women who abused their spouse as well. So

1:17:31

the Stewart's supposed to be one of those

1:17:38

was the Martha Stewart abuse for employees, but

1:17:47

Martha Stewart may just constitute abuse.

1:17:52

But it is definitely a way to cleanse that stuff out to bite, you know, just get rid of it. It's a marvelous healing thing. For me, this is something very spiritual, you know, and I get to do that, even if I'm just doing it for an hour, you know, with someone, how does all of this stuff spill over into your daily life? Meaning the ability or the skills that you have to have in BDSM with regard to communicating with regard to making sure that you know what the hell you're doing and, and, and keeping yourself safe? How does that spill over into your daily life? Do you think it makes you a stronger person a better person? Does it help? Or does it really just not? You know, I make a damn bit of difference.

1:18:46

Chris Harrison 1:22:09

Yes, I need to speak to him. He needs to work on an apricot song.

1:22:15

Yeah, he's working on a new CD. He's got some cuts finished. He's just doesn't have the whole thing done yet. And as a matter of fact, the original CD of the hankie code that he gave me We wore it out and he replaced it just a couple of months ago. And I hope he doesn't have to do that again. Yeah, so it is time for the after hours roundtable. Who do we have in the studio?

Chris Harrison 1:22:54

Sound off from the left? At

1:22:57

dawn, and Hunter? Hi, Hunter. I know Marlon Ireland.

1:23:02

Hi, Daddy. Big. Oh, yeah, work you've been bitch. Around

1:23:12

1:23:16

Stacy Smiley's in the back. Chris. Put me in the corner. Where's Ozzy? Over here? He's behind you, Jimmy. Wow. place to be.

1:23:27

And Paul's in the wing.

1:23:29

I noticed as he was very intent on that last segment. Oh, yeah.

1:23:32

Smiley's actually,

1:23:35

smiley doesn't really have clothes on. They're just laying there.

1:23:39

Yeah, and it was so hard.

1:23:41

You could finish it off by just taking them off. Oh, please. Nobody can see it right now. For which the audience would be eternally grateful.

1:23:56

For MBB letters. We only have three of them. Yeah, but we got let's see if we only got the other two. Is that the one there from Rocky that you have Chris?

Chris Harrison 1:24:08

I haven't got the one from rock. Oh, okay. Well, I want to read one. Christmas colors. Well, it matches my pants actually. Well, he color coordinated the paper to my pants. Oh, that's

frightening. How pleasant. And I'll take that collection that you're sending back.

1:24:24

I opened the shop is green, open the show and already told him to send it to me. So

c Chris Harrison 1:24:31

I'll split it with you. I'm not greedy. I know. Yes, you are.

1:24:36

We speak talk to you separately sends

1:24:39

it to us and we can all have a little bit of rocky

1:24:45

sounds like he's got a lot to go around. Well, I mean, in terms of his warmth and generosity

1:24:51

of him, but he certainly has touched them. So

1:24:56

ya know? Yeah, everyone wants a piece of the rock

1:25:00

dare you and we'll welcome him when he gets out can you

c Chris Harrison 1:25:06

know but his is this remind his reading first go ahead.

1:25:12

1:25:04

We're talking about Rocky. Well hi,

C

Chris Harrison 1:25:14

Rocky. He says well, the end of yet another great show in the beginning of yet another week of anticipation without a doubt after hours the after hour or so, is the highlight of my week. You know, on and on prisoners aborting plays at Sega is twice as bad anyway What's up everyone I hope this letter finds you all in the best of health as well as spirits. As for myself, well let's just say I'm here like I said prison sucks. Nothing ever changes. Same stuff different day. Nevertheless, I'll make I'll I'll make it these last few months Come on 2006. So he does complain about having problems picking up the station is like, every every week as we come on, what

♂

1:26:00

do you know? That that may help? If we have that late night, Friday night spot, you know, because that will be the person shows on from nine to 11 and then the dead air show is on from 11 Till one and then we'll come on. And so I know a lot of the guys who listen to the prison program, listen to dead air, and maybe those antennas will still be working for after hours.

C

Chris Harrison 1:26:29

Yeah, well, somebody said somebody blew the electricity out. Did they get for trying? No. They were trying to use it as a cigarette there. Yeah, there's there's a certain way that they pop the the outlet and light cigarettes off the electric thing and Oh, you're kidding. Yeah. You use a paperclip actually. Toilet paper pieces

♂

1:26:51

of leg two pieces of lead in the socket. One in the tea of a toilet paper. You hold a leaf toilet paper over when just sparks it the leaf catches on fire. That's how we get your cool. Thank you Smiley. Our resident.

♂

1:27:03

Thank you, Martha.

♂

1:27:06

Resident prison bitch. Okay, exactly.

C

Chris Harrison 1:27:07

There you go. So he does say hey, Smiley was and he does understand it wasn't the same half pie. He says I didn't think so. But everyone in prison has a nickname. And like yours, half pint ain't too common. So for all the people who write in and ask about pen pals, if they don't mind writing someone locked up. I'll write to anyone. He'll have to be kind of crafty about that because there's no one prisoner. Yeah, we

1:27:36

talked about that and they can send it to us and we'll do it.

c Chris Harrison 1:27:41

So he says I don't mind if you say my info over the radio. By the way since we touched on the subject of nicknames we might as well call me Rocky. Okay, well, you can call me Bullwinkle.

1:27:53

I do want get that ball up.

c Chris Harrison 1:27:56

That's what I'm saying. Was bull he says no one knows him by his name, and he doesn't mind these people made the connection. He also asked what was up with the collar about with the sick joke about prostitutes? I've retold that joke several times. It's pretty funny though. It's funny.

1:28:14

I was sick wicked.

c Chris Harrison 1:28:16

I love you guys love humor and Forte's says I guess you don't screen callers but even if you could, you can't predict what what the heck they might say just

1:28:26

we don't have that seven seconds seven seconds. Just gotta be quick with the hang up. On we're usually pretty quick with our fingers around and he has a

c Chris Harrison 1:28:25

CHRIS HARRISON 1:28:50

good question hands. What do y'all do with the pictures that the listeners like myself send in reason that I ask is that in June, we here in TDC will no longer be able to have porn. And over the past few years, I've collected some flicks that one of y'all might be interested in. Yeah, you're gonna start a cat fight. We

1:28:53

are interested because let me tell ya don't send them rocky will take

1:28:57

care of them. But

Chris Harrison 1:28:58

anything with tattoos, piercings prisoners sex and bring it on? Oh, just to dress it to me. It's called wallpaper. Yeah.

1:29:07

You never know. Some of them may end up in the museum. But yeah. Can

Chris Harrison 1:29:12

you use that you use that thing or that museum? It's already here on the board because I want this porn is for the museum. It is I brought in 36 videotapes, and even before you get the box lid open, you saw the Glenville flobo sticker on the end and you dove on it. Like it was a hand grenade, you're able to save your platoon and that VCR went into overdrive. I have not haven't seen your ads that fast.

1:29:38

Listen, we need to build up that erotica collection. Right I'm in charge of it. Yeah,

Chris Harrison 1:29:45

no kidding.

1:29:46

Stacy's here we have the likely story point. Okay, but mind Jimmy, you might be interested in

saying

1:29:51

Oh, really? Maybe it's Yeah, I do want to say it.

Chris Harrison 1:29:55

Getting back to interesting.

1:29:58

I have one that I meant that you might be interested in seeing from? What 71 A smile is not in this one?

1:30:03

No. It's someone with their name tattooed on my back.

Chris Harrison 1:30:07

I don't you know, film that I was in when Yeah. So now in New York, never ever I also wanted to say thanks for reading the part, the part of my letter that commented on what Tigger said to Jimmy finding the show was one of the best things that's happened in a long time. Yeah, I know. It's only been around a month for me, but it's made me see that I that I am ready to make my move out of

1:30:32

the closet. That was really sweet of Tigger. Yeah.

Chris Harrison 1:30:35

I've had some experiences in the past with family and recent with the chick, Erica that I've mentioned in the past letters. I still haven't heard from her not since I came clean with her. But now I look at my situation, the only person in this world who seems to give a rat's behind about me is my ex. And she, and she already knows and accepts me for who I am. She is bisexual and I, when I think I need a woman, and we wind up in it when she thinks she needs a man and I think I need a woman we wind up in each other's bed. We strap on we and a strap on get into a threesome, which is kind of nice. And he says, you know, there's only one female there. That's only

1:31:14

nice. You know,

1:31:15

it sounds a lot like your history.

Chris Harrison 1:31:18

My history? Yeah. I know, this is historically or what's going on this week. I mean, it's not it's not history if you're still making it honey. And so I want to ever I'm an opportunist. I mean, you know, I'm a hedonist. If they're, if it's gonna get me off or get someone else off, I am so game. It's only 10

1:31:42

It's still history. That's a good name, you know, because some people don't want to really, they don't think of themselves as gay. They don't think of selves as straight. And they're, they're, they're not quite sure about the by thing, but hedonist is a good is a good title.

1:31:58

It's one friend of mine she said you know, she used to say that you know, people talk about oh, I was used and she said I can't think of anything more depressing than somebody has somebody that nobody has any use for. Exactly.

Chris Harrison 1:32:13

So he says it where is it? The individuals like me to do those individuals I could care less what they think about me the majority don't like me to begin with smile. If someone could Can you for the listeners of the show? wherever they may be and for myself say over the airwaves for the world to hear that I am on the way out of the closet so look out

1:32:39

right it has been said is coming out of the closet. We don't know what else but hey, he's coming

Chris Harrison 1:32:45

down. Yeah, who cares? Just come on out. Okay, everyone, I guess to set yourself there. Hopefully this till next time. If and when y'all get smiling in the hot fudge sundae. Be sure to get it on film. I'd hate to miss that

1:33:00

group pill and I'm half as negative there's no hot budget or Chris

c Chris Harrison 1:33:03

but when I get out and show up we can redo the whole damn deal whipped cream and all have if y'all can handle it. It's been a long time so someone looks at me hard enough. I'll blow my load

1:33:16

I think I know look really hard.

1:33:18

I have Carmel in my car.

c Chris Harrison 1:33:21

Do I think I'm coming straight to Houston Austin can wait the only person I know there is Nikki and she's picking me up at the walls. Okay, let me close for now. Before I get carried away, y'all be good and all
