## SUMMARY KEYWORDS

people, pledge, call, women, hear, bisexual, thought, lesbian, community, hours, roy, hand, gay, mobile homes, man, live, minutes, judy, group, radio

---

-  00:02  
on the bookshelves, kids homes I could not believe this. You know, just like a wall.
-  00:08  
Magazine. It was when we were kids rainbow in our world and world. Magazine. They
-  00:14  
have articles now.
-  00:15  
Yeah, the world is a lot different now. But naked people get counters with naked people at Kmart. Yeah, so I'm very personally. Nudity 21 years ago Yeah.
-  00:29  
And you still do that in where you live in the trailer park. Right. And you live in the outskirts.
-  00:35  
I live in the outskirts. Yeah, and
-  00:37  
the country not ashamed anymore

00:48

I think you are probably, you know, you do activism here, right in the Montrose wherever I go, the activism that you do in your own home is probably almost probably more important than any other activity, right? Because I,

01:03

I don't, I don't, I don't live in a closet out there. And everybody knows it. And if anybody tries to say something, you know, derogatory about me, we take care of it right there. And it doesn't. And usually we keep it keep all the derogatory. I mean, I'm a regular person. And the kids respect me and the parents respect me and

01:26

independent spirits. So

01:28

I mean, if I lived in a closet it would be like, stories. That's how stories are really started. That's where the Yeah, because I remember. And I probably said this a long time ago, just just in case someone has never heard. But seven, eight years ago, a young girl I saw her at the post, you know, the postal area where we go pick up our mail. And she's like seven or eight years old. And she says rainbow. People are talking about you. And I said oh, yeah, yeah. The other saying you're gay. Oh, everybody knows. And I told her that I said everybody knows I'm gay. I've been gay for years and she was going to be like the the talker town. She's beginning you know, the but so I mean, she found out

02:26

Oh, girl. Did you nip that in the butter?

02:29

Right but what do you do on National Coming Out Day? I mean, who do you come out to?

02:33

Buy just live at the

02:38

National Coming Out Day doesn't mean

02:40

it's like Christmas is just another day? Well, well, Julian rose live so far out in the country. Yes. Their nearest neighbor is an emu.

02:48

That's right. Across the street. Yeah.

02:50

Are you kidding me?

02:52

Right across the street. Not kidding. I love it. I've seen the emus said we're not afraid we're coming out of the closet. We live in the country. Now.

03:04

I've said this many times on the air you live so far in the country that you live in a trailer park because you have this well it's

03:11

not a trailer park it's just a couple of trailers. Yeah. It's not a park

03:17

Yeah, or an acre and a half right well that's a big

03:21

that's what's it it's really a subdivision. It's just the homes on the lot

03:29

but they don't even look like mobile homes. No, they're

03:33

wide. No.

03:36

Yeah, so you know mobile homes have changed you can immensely you'd be surprised Yeah, two stories or two story mobile homes with garages is super sad. Yeah, they have triple wind

03:45

and metal metal doorknobs. You know old trailers had plastic doorknobs and it's just like so cheap and tacky. But the mobile home is really I remember

03:57

the toilets. Yeah.

04:00

And the mobile homes today usually have plywood. chipboard is of these \$300,000.

04:12

So it doesn't matter where you live. We still need your

04:15

story. I saw these chipboard I thought my of my mobile home and I know how long it's gonna last. It's gonna last about 20 years. So that's it. And then that's it. These homes will not last as long as the homes that they took tore down to put them in the old one. There

04:35

is one good hurricane in some of these places.

04:37

A barn raising next weekend by coming raising the bar next weekend. A bunch of Yeah. Actually, it's not a bar and it's a building. It's a shed. But yeah. It's 20 feet by 10 feet. We got to we're gonna have a barn raising next weekend. So we're gonna have people out and get the

old grill going and then get a couple of kegs.

05:00

Okay, good. This would be a good week to call in and pledge and meet her.

05:07

And as a matter of fact, we come on down the lobby. Okie dokie. Okie what? L key? Well she said she's gonna be there she lie. Yes,

05:19

I guess you hear them whispering in the bed

05:21

I hear the equipment again. That's one good reason I make a donation. See? See because equipment don't work.

05:29

Because the holder and you

05:33

always work. Yeah, that's true. You need the least always. Let's go to

05:38

a piece of music. Like and get elke hooked

05:42

on Jimmy. You thought he was gonna be out here? Yes. Well, it was she's not here. So I'm gonna take over. Okay, okay. She just came back. So she got the microphone. This is Chris.

05:54

In the lobby.

05:55

In the lobby. Preds pledge Central.

05:57

We need money. What's the number? Yeah, cuz

06:01

I can't hear you. Oh

06:03

6573852 6k P FM. T Yes. Okay, now it helps

06:07

us put on the headphones. Yeah, it really does help everyone. You know, we only in Houston. We've got five hours of programming for the community. And we've got what 5000 hours of programming out there. Yeah, total. Well, I

06:20

have to have to amend that. We have three more hours of queer programming in Huntsville. Oh, yes. From the K s Hu radio station up there. 90 points. Yes. Doug and joy, do a gay program at the same time as after hours. But they that's not a whole lot of wattage, so people in Houston can't can't get them.

06:46

But everyone, we need your support out there. I mean, we're wondering what number four.

06:51

number six times number seven? Number seven, we slipped? No, no, no, we were always number seven.

10

26/56

I thought we were number four. No, I just thought people were number four. Okay,

06:59

well, that the top three stations, I mean, the big three commercial stations take up like 60% of the market. And so being number seven is not a bad deal. We'd beat out all the Christian stations.

07:14

And those are the only stations that actually talk more about us but nothing pause.

07:17

I know. Really, what's more, what's more entertaining us or them? I know I give it to you. Right?

07:25

Well, if the if the cute ministers are on I like watching them on the state TV station. Yeah, if it's radio, but that laying on of hands doesn't work over the air like

07:34

this is true. Okay, we lay on and some of those ministers just need to get some boyfriends and

07:40

your hands. Yeah, your hand. I'm gonna say that.

07:46

Yeah, just say I don't want to lose that money. Oh,

07:50

good old time.

07:51

Now Donna from Spring branch wanted to ask this to describe what everyone is wearing. Now. Donna is probably confused. She thinks must think this is nude radio. But we don't have that's

not tonight. That's that's the first Saturday. Yeah, yeah. Okay, sorry, Donna.

08:06

And especially. Especially with Roy and I coming on later on. There's definitely not going to be nude radio later.

08:14

My clothing is courtesy of resale Central.

08:19

Yep, that me too. There's

08:21

nothing wrong with secondhand clothes. So

08:23

how many people we got there waiting for the phone to ring?

08:27

Well, not now that all the hosts have come out here for a smoke break. We've got plenty out here. But we've got to. We have seven lines. Yes. We're not going to be cheesy, like some other the drivetime hosts around here who call up another line. So you hear the phones in the background. But now that's that's to television. Now, they do that on the television show. Not on our show. Yeah, not on our stuff. Yeah, but you need to call in 7135265738713 Jam KPFT and put Roy to work.

08:59

Please. Please. You won't bring me coffee. So I guess you know he shouldn't be there. Filling out some forms or something.

09:05

Well, he told me he told me to get you the coffee there, Jimmy. Oh, unfortunately, she's not working tonight. So I couldn't bring her in for you.

09:18

Coffee, I have to apologize coffee for that remark. I meant the coffee from the nevermind. No one will get it. Yes. Well, we

09:29

want to see you fall asleep. That's outbags it's called a coup de gras. We're gonna take over, but we need you to call on your pledge of support. I mean, we we don't have that many hours that we get to actually spread a positive message that's right out in the neighborhood and radio time kind of goes through the closet door. And we know there's a lot of kids out there who are listening to us on the headphones under the under the covers. And the closet literally not just figuratively,

09:57

right we've got three minutes I need a \$75 pledge because that will, that will bring us up to 1/3 of our goal for the evening. So, in the next three minutes, we need a \$75 pledge. I know we can do it.

10:12

And for \$75, you get a t shirt. Yeah, that's a great t shirt. It's not like one of these places where you put in 1000 bucks and we send you a tote bag. Right? So

10:22

there we go. That's what I need to hear.

10:24

That's what we love to hear. That's why they keep these old fashioned phones here. Yes, they are. They are old fashioned. Nothing. I mean, if there were any more old fashioned there'd be a dial on the end of it.

10:34

Okay, well, while we're taking that, that, that call, and don't be afraid to call in because we you know, we've only got two hours left. And we have two thirds of our goal to meet. And that goal is 700 \$750. And we're going to play some music and fact, by an artist named Christie Claxton,

who is a Texas woman. And she's going to be here next weekend at the Women's musical festival that we're going to talk about when we come back from the song. So you're listening to after hours on KPFT Houston and ke O 's College Station. We'll be right back.

11:24

Texas woman Christie clacks then she'll be here at the Women's Music Festival next weekend. That's just a wonderful, wonderful song. She's got peppy ones, too. It's not just all slogans on this album and her called Out of nowhere. There's four on here that I'm going to play on the air. So you know, yeah.

11:47

And music music. You bet. You bet. New men music to purchase. I like new we

11:53

have a new member. Right? Yeah. Yay. Yes, yes. On the back, Jordan has called in with a wonderful, wonderful pledge. All right. John, like I said, new member. And you know, we have a couple of questions here in the forum that we we asked most of the time. Oh, yeah. This is what prompted you to call in support of KPFT said listened all week and waited to call in to pledge for after hours. Yeah, so much. Yeah, it's Jordan and Eric, and they talk to big Roy. Cool. Cool, cool, cool, cool beans. So we are on our way to our pledge. Our goal of \$750 and I am very very happy with you know, I just you know when when the listeners call in and pledge I just get you know, I get filled up with pride. Yeah, those are my listeners. Yeah. Didn't care that

12:53

much about it. Yeah,

12:54

they do. And that's the thing and it's not so much that we make a whole lot of money it's it's the it's the it's showing that to management that we

13:03

matter that we do what we plan on doing we want to matter yes, we want us to be a part of your family people that you know that's one of the parts about listening the same show over and over as you get to know the people in the show. Yes, you get to know who they are. That's kind of why we have the weekends broke up so that we know exactly what weekend it's not like a revolving thing, but we know what weekend so that people can develop people who want to know that person or that personality on the radio

13:27

and I know most other commercial radio or other commercial radio. You don't get a real personality. Sorry, radio. This is us. This is

13:39

the definition of independent. You listen to the type of people you would want in your home. Okay.

13:53

Not always when your mother's

13:55

see yes, but we're all really good looking.

14:00

Yeah. Brick branch had called in and wanted us to describe what everyone was wearing. And I thought well, maybe she thought this was nude radio.

14:10

Well, the more pledges that come in, the more clothes we take

14:13

the more like nude wearing. Oh.

14:17

Whitney is going to start Jamie's already

14:19

down to his shorts.

14:22

And we're not really sure those are his

14:29

one thing I want to get into before I'd like to talk a little bit about the the women's Music Festival. Okay, before I forget, I want to talk about the community resale shop. And we have a new one. No, it's the old one. It's still going strong was Sam stoom in is at the helm. And the wonderful thing about the community resale shop is that it's just not your average resale shop. I mean, they've got stuff in there I go in and shop and all of that but for AIDS patients who qualify If there is like you can get 30 bucks worth of stuff every three months. I mean, just go when there

15:06

was this part was this a? Is this the one over on

15:09

515? Richmond, Richmond? Yes, yes, yes,

15:13

they used to do that when I was with bearing we would take guys over there. Yeah, get still doing

15:16

it. They'd be out if it's a 501 C three Corporation, and they thought they'd be in existence for about five years. And here it is 15 years later. And so now they're looking, you know, hey, we're gonna be here for a while. And they can see that, you know, even if AIDS is cured, there gonna be other thing. Needs Yeah, always something else. So they're, they're now looking to put together a building fund ever and buy a place rather than, you know, spend the money on rent. And they've got new hours. And unfortunately, they're not as convenient as the old hours. And because they can only stay open as long as they have volunteers. That's it. And the new the new hours are 10 to five, Wednesday, Thursday, Friday and Saturday. So it's it's

16:09

a lot less than see that's a place where if you don't have enough money in your checking account, you can go down and volunteer a week, we're not talking about eight hours in a day, we're talking a couple of hours, two hours, you know,

16:20

they'd be glad to have enjoy. There's

16:23

it's one nice way of getting to know your community. If you're new in town, or you're coming out and you have moving you know, you've just graduated high school, you're or you're just getting out of college and you're you're just getting into the community. These are the this is the way to get to know your community is to volunteer and community activities committee. You know, the switchboard at the over at the community center. I'm sure they have lots of things you patrol here, patrol. That's the way to get a good connection to your community is to get in and volunteer and nobody's asking for, you know, eight hours, 15 hours. Just a couple of

17:04

my wardrobe is coming from community.

17:07

Everything I've got on my shelf, same way. And it's it's you go over there and it's fun. It's like a social outing. Yeah, people are having your

17:18

sale. It's not this kind of, you know, it's necessity kind of resale. Yeah. Yeah. And that's cool. I need to go over there again. Oh. Last

17:29

week, I went to the bisexual conference. Yes, you did. Austin

17:33

in Austin, and

17:36

let you go to Austin. Yeah.

17:39

So it's like hills. Oh, my God.

17:44

And they're just barely hills. And people get real upset. And these are just barely

17:48

hills. No, I'm just like, Wow, man, this is alright.

17:52

Once you get on the outside Austin.

17:55

You know, did the well the conference was great. Deb Kolodny conference on well, is basically Judaism and the Bible and what it says about kind of duality and both sexes, God being both sexes and stuff. And it was very, very interesting. And, and her. Her workshop was really great. Because, well, I don't know, I admire people who have faith in something that I mean so much that they will just they just believe it. I mean, really deep down, they believe it. And I just I haven't found that thing yet. Whatever. That is that magic thing that you can just say, man that really? You know?

18:46

Yeah, well, because it's faith. And I think all in the family. What's his name? Archie Bunker said it. Best is that fate, as he called it faith is believing in something that no one in their right mind would believe. And that's it because you cannot put logic to faith. No,

19:11

you can't. And that's why

19:14

Yeah, when you when you're talking to a fundamentalist I mean, no, there's not going to be an argue one here because it's all a matter of belief. And how you feel Yes,

19:25

<sup>10</sup> See, for example, the discussion of the 1992 Constitutional Convention in the *Constitutional Convention of 1992: The Final Report* (1993).

I believe in Santa Claus. Oh, I do too. And I believe that people are going to call in and pledge and make our quota for the CDF

19:34

she's good. Yes, yes. So don't don't

19:37

let me down don't let you know I'm believing here. I'm believing

19:41

believing.

19:43

And we did the bat bridge.

19:45

The hope that the famous badass was so

19:49

I went there once.

19:52

You're kidding. That sun just keeps going down and going down and you'll see just a handful of bats come out and kind of like little the scouts I guess, you know, Is it safe? Yes. Hey Fred glass even safe. So like a handful, you know a handful go out and then just, you know, like 200,000 of them follow up, you know? And they just keep coming out of that bridge. And just like for 20 minutes solid it's just

20:18

bats coming out from underneath the spreads over million of them. Golly, it's

20:22

how many is that? They say there were

20:25

oh they estimated Yeah, that's like a million and a half or something like that. So a lot of any we

20:30

went we stood up on the bridge and look down. Yeah, that's the wrong we that was the wrong thing to do. Because the night we went, you can see a bat because they come out along the river. And they're black and the rivers black. Same thing and we can hear a wind squeak, squeak, squeak 1000s of millions of squeaks right. We can hear we couldn't see a thing until they got

20:49

way off. Black Cloud. Way off into the

20:53

city. You could see the few that peeled off from the main group flying through the city against the white buildings we saw. They were good mile and a half away. We can just barely. They might have been birds.

21:06

No bats, bats kind of fly like pieces are being blown around in the wind. They're kind of erratically. We missed them all. It was terrible. Oh, man. No, that's that wasn't how we fought

21:17

like hell the rest of the night. It was because we missed those paths now.

21:22

Well, I had a really bad experience. So it was cool. Cool. Cool. Beans.

21:29

Yeah. So did they come up with any? Did they come up with? They come up with any new proclamations for bisexual? I mean. they discussed the rules and stuff like that.

21:41

The lips so little time.

21:45

It must have been like bunnies. They're not. Bisexual could have convention the no rules by

21:53

No, it's more of the bicep by net is more of a social organization right now. And it's it's at that turning point where the social also incorporates the political, because bisexuals are probably more in the closet than any other group. I know.

22:14

Well, they had a button there that said, I'm bisexual, and I'm not attracted to you.

22:23

But it's great. I'm not attracted to you.

22:29

That reminds me of a conversation I had this week on sexuality go. I had I have at least one acquaintance who could not seem to grasp the concept that a just because I'm a gay man. Man, it doesn't mean that ever I'm attracted to every man I see.

22:51

Right? That is right, right. Why is it that every straight man no matter how horrible and how ugly he is, thinks that every gay man is just waiting to dive into his crotch. And

23:03

how many of those are disappointed if it doesn't happen?

23:07

It's a lesbian rule. And that lesbian rulebook is never tell a straight woman that she looks good. If she knows you're lesbian. Never tell her that she looks good. Because he she will never ever sleep again without thinking that you were thinking about her body. Not a day that she doesn't think you're thinking about her body. You cannot tell straight woman that she looks like 12

23:29

changes the dynamics of a friendship once they find out. Wait a minute. I mean, you stop going and try and close together become a threat. Now it's a big deal when you're snuggling on the couch watching some TV movie, you know, now it's okay, I'll sit in the chair. And the dynamics

23:49

change in front of you at the gym anymore.

23:51

They don't change in front of you. They,

23:56

they wait till you're finished in the bathroom.

24:00

They won't come out and ask. But it's always just assumed that because you're bisexual and because you're attracted to some women, some men that it's just opened and you're just going after everything.

24:16

Did you get that button?

24:17

No. Oh, that button making my

24:19

No, because I have a lot of straight friends male friends and it's not that way.

24:25

I think with women, because we're internal that it's taking more felt like men.

24:33

Men are not internal will try to get a man to talk about his emotions and feelings.

24:41

Well, men are quicker to change in a gym locker room than women are what we'll take towels and we'll we'll run around and and

24:50

but then again, I've always heard this I've never really been in the women's locker room. But there's a lot more privacy in the women's locker room.

24:57

Definitely. We have like stall doors

24:59

and stuff. That's exactly what she's saying. It's not it's women just do not share that physicalness as easy as men do that, that trusting physicalness as easy as men do. So when you have it with a woman, and it's because you know, she feels safe with you, and the minute she doesn't feel safe, you lose it. Oh, and it's a little, it's like, you know, men have always gone to the baths, you know, left naked, they would never be anything like that with women never. You know? Yeah, because they never make it. Every lesbian i That's only in Hollywood movies,

25:34

wants to have one. That's what I've heard, too. They want to have a bath.

25:38

Like we used to sit around, you know, in the in the days before HIV, lesbians would sit around the table and discuss just being a gay man for just one night. Because the lifestyle you guys had at that time before HIV was big, was something that was just

25:54

attractive. Yes. I mean, you know, that party,

26:00

all friends of mine, I go to bars with would have sex four or five times before we left the bar, and we'd be there two hours. Yep. And I'd be left on a barstool for 16 minutes at a time by myself while they went off and tricked in some little corner of the bar. And, you know, women when women were, oh, it was way more than that, believe me. I've been like I was saying earlier, I've been doing a lot of kind of memory stuff lately. And women lost my train of thought here.

26:31

Not that jewel has ever done any of this stuff Rose.

26:35

Rose knows. knows I don't lie about my life. Well, that was how

26:42

we partner we've got you know,

26:45

you've been repressed you know, you're a gay person. You You're, you get out into the world and your first couple years out in the world where you're not living with Mom, you're not, you finally figured out that you are not a child any longer. And that you can do things for yourself by yourself because you want to, and you do. And that's what was going on, you know, at that time, and then HIV came and things change dramatically. Dramatically. They change. Oh, God, but what was I saying about women was I lost the train

27:14

here. Okay, now we started with women, women's bathhouses. And you're saying you sit around thinking about it wouldn't happen wouldn't

27:24

happen. No. It's a good idea. That's what I was saying. It's a good idea. And that's where women would sit around a table saying, Well, that would be cool. That would be cool. But women wouldn't do it. They wouldn't bend

27:33

right? Women have so much, okay. Now, out here in the real world, you know, women get a chance to be a lot more affectionate with one another.

27:42

We have the we have the perks, we definitely have the perks. We get the doors held open for us most of the time, we'll get great groceries carried for us. But tires changed. Flat tires changed. Yeah.

27:54

All that happens to me.

27:57

But not every day, all day long.

27:59

Just talking about two women can be more affectionate in public. I think

28:03

it's something to do with the way

28:05

they've always been.

28:07

That this is something very precious to them.

28:11

But if two men dance together, it's like, oh, well,

28:15

it's the other thing a woman can wear a man shirt, a man's pants, anything like that. But vice versa boy, dress on a man and

28:27

was always like that used to be like when you did that kind of stuff, you get your butt kicked. That's true, because I got my butt kicked, because I had all the wrong clothes and worn ones. But that was back in the good old days. But I don't think women would do it because I think there's something about women's sexuality, not so much the nakedness. But their sexuality that needs more intimacy, which you can't get in a big place with a lot of other people. Not that there aren't exceptions to that set quite not right. You can't women just will not go in on a regular basis for pleasure. And go into a room for 15 minutes. It won't happen. Some

29:04

women won't. It won't happen. 15 minutes, you can call us in pledge 71657.

29:13

As a matter of fact,

29:15

I think we've got elke I am sitting in pledge central we have seven open phone lines, seven open phone lines. We're not at our goal yet, but we're getting closer we're getting closer every one and we have an hour and a half left to do a little more than an hour and 30 minutes to reaching our goal of \$750 713526573871352 6k P F T

29:43

there's something that I promised someone that all right. Good. Yes. There's something I would something I promise as a person at Ray's birthday party tonight. I promised I would do this because she was afraid She would fall asleep. So Jane

30:05

and one more thing from one pledge on the lines one line back on our way to our \$750. Go and Gina now that you're awake,

20.17

pick up that phone. Make that though. That's right. 713-526-5738

30:24

Yeah, yeah, I got to see Tim Brooke over there tonight. I haven't seen him in probably 10 years. You know, I know he's been out here. See him on the, you know, on the computer all the time. And

30:33

yeah, does all the publicity for them. Yeah,

30:36

I see. Yeah, she that he's involved in. Tim and I got together in the early 80s. And we're in a buddy group. Oh, I didn't know that. Yeah, we, we were in a group back then they did. They did things differently back then. I don't know how they're doing them now. But back then they had a buddy groups where you got together every two weeks or every week, I can't remember exactly. And you had group therapy about your situation. I don't know if they still do that. But it was wonderful. It really expanded my horizons a lot with that. And it was free because I was a buddy kind of worked out that death and dying thing, you know, back when it was everyday kind of stuff. And I've known him that long. And it's been a long time since I've seen him. But he's such a nice guy. Yeah, he was the nice guy then to you. And one of the best, I loved him. And I still do. And you know, just because I don't connect with some of these people that I care very much about doesn't mean that they're not on my mind. And in my heart. I'm there. We know, I don't get to see Judy, and you know, Judy, and I've been corresponding on the, on the hand that hand light for quite a bit lately. And you know, I told her the other day, you know, I've not been able to spend a lot of time with her, but she's not ever been out of my heart. So it was really nice to be able to talk more in depth with a recently. That's nice.

31:49

And hear that you are taking over.

31:54

I wouldn't say taking you're doing some moderation, moderating, moderating. Yeah.

32:00

So you're doing some more things for the community? Well, I

32:03

thought that, you know, I saw a little notice on the hand light one day, it said that she was getting involved in the in the museum to where she was spending more time with the museum. And she really wanted to spend more time with the museum. So she was having less and less time to take care of the maintenance of a of a news group or any email group. And so she said that she was looking for somebody that she could, you know, would have some time on their hands. And that was me volunteer. And so you know, I know, Judy, and I've watched hand that in hand light for a long time, long time. I've been one of, you know, one of them lurkers that just read up to date and stuff like that, and never really, but lately, I've kind of gotten more, you know, stuff out there. And certainly last couple of days now that I certainly

32:44

Yeah. So well, you know, Judy,

32:49

Judy was spending a lot of time doing her job. And you know, and she had a particular philosophy, not that I don't agree with her philosophy on doing these things. I just am going to be doing it a little bit different. You know, everybody's everybody. That's right. I don't want to say what Judy was doing it, you know, one way or the other, and, you know, or anything like that. It's just that each personality brings their own uniqueness to it. So I'll be doing it. And we'll be a little bit different. I think we're gonna do a little more fun. We were talking this evening, it raised party. I don't think as a community, we laugh as much as we used to, you know, I just don't think we laugh as much. We've had so

33:23

many years that we couldn't really exactly, you know, it's just now we felt guilty when we did. Oh, yeah. Because, yeah. Especially people like me, who are longtime survivors of HIV. You have that guilty feeling? Like, why are all of these people dead, and I'm still here, you know, and you just can't, you just can't go with that, that feeling you just life has to be lived. And you take it one day at a time. Anybody who's had a life threatening illness, can understand that

33:58

we have many people on analyte right now, I'm hoping it'll get more. I mean, had NetScout too, and 34 people, and, you know, that's a nice, healthy group, you know, so then I'd really like to see him like, get, you know, at least half that many people in the

34:10

hand light is,

34:13

you know, get everything right, you know, you don't get all the hardcore news, you get spit it, you get a lot more variety, but less of each individual thing, like, you know, hand nets been obsessed with Gore Bush Gore Bush lately, you know, I mean, there's some things in there. That's not to say, I want to sit randomly, there are other things going on and had like, picks up on those other things, picks up on little bitty news stories here and this little city and, and we we actually post some of the stuff that is on hand that big stuff that needs to be you know, disseminated it's, you know, worthy of going on another place. Yeah, and stuff like that. But it's supposed to be a place it's supposed to be a little so directive, or directional. Hand net is very directional. They know what they want, this is what they want. And it's supposed to be very objective kind of reporting of what events are going on and such were hand that is a little less, a little more spontaneous. You know, we do the the, this day and Gay, gay lesbian history and various other odds and ends that go on and I'm start I'm gonna put, I'm gonna put gay and lesbian financial news on there. You know, I think that's something that's very important in the community. Just because it's an activist network doesn't mean that activists don't need, you know, financial information. That's right. And I think that that's what we've forgotten in these news groups, is that you know, they're too focused. And, you know, how much can you really say about Gorn

35:43

and need a referee? You know, how people fight I'm so sick how people fight with one another. Yeah,

35:50

I've seen that too. And it's like, I don't know maybe this is because it's the same thing because with every group like this, you got to earn 34 different individuals, you have to earn 34 different people. The wanting something different from the, from the I think

36:06

that's part of the dynamic of the computer, is that you can be a lot more vicious over a computer, and they can be

36:15

somebody without meaning to on a computer because yeah, tell but there's no no smile, no wink. No nothing on there to make someone understand. Oh, this was a joke. You have to write this as a joke. Yeah, you know, an inflection. Right. And you can't be Sarkar, sorry, sardonic, or, you know, can't be sarcastic. Because you know, those kinds of things. You have to be there and look somebody in the eye. It's like, you know, you can't say does somebody get the same response?

36:47

Well, we're

36:50

getting worried out there. sardonic man. I've been wanting to use that word. That's why

36:57

I've got first of all, Jordan and Eric called in all right, Jordan, they want to volunteer that barn raising. So get their number outside. Yes. Right. Yes. And we have a another a another question. Yes. From Daniel. He was just listening in and again, yeah. Which I thought was really, really cool. Yeah, yeah.

37:22

And I'll call two of your friends and

37:26

member. All right,

37:27

a member.

37:29

Thank you. Thank you.

37:31

Well, it's time for me hit the road long road. You know, I tried to get out of here before the bars closed. Yeah, long and dark road.

37:40

will stop by and get this address for Jordan.

37:42

I sure. Well,

37:44

we I want to stress again that you still got plenty of time, the show was just about half over to give us a call at 71352657385 to 6k P F T for that pledge of support for,

37:59

say for myself and no one else. Yes. That a vote for Ralph. Naver is a lost vote. I'm sorry. I love Nader. I wish I could vote that way. I'm there with you. But it's a lost vote. Don't let Bush have this election. Because you are in Fantasyland and things that nature can get it's not gonna happen

38:22

if I spoke chance. And hey, we're

38:25

talking about that outside. You know, he just no one who he's been all these years and my whole life. He's been out there kicking for the consumer, every minute every day. And I don't think that he changed overnight to be president. I don't think he would be with the President. But it would be a wasted vote. And we can't afford that. It's too close. We can't afford one wasted vote. It is too close. We can and I'm gone. See you all next time. Bye.

38:55

Even Thank you. Thank you. Thank you. Thank you. And we're going to have the news and views with big Roy and Chris in just a second but I want to get that phone number again. It's 7135265738713 Jam. And but now, but now, but now. Now but

39:30

yeah, it's a different one. I thought I'd give you some variety

39:41

but it's still that this background music is still from a wonderful lesbian duo called Deus from their CD called Wind jammer. They do a lot of nice jazzy stuff. If you ever see one by them, pick it up. Do

40:08

I do have to say that there is a young man in there with a incredibly alluring outfit on tell me about this. Oh you're on the air

40:23

right we're on the Oh.

40:26

Welcome everyone to this week's edition to after hours news and views

40:29

I was saying that I see there's a there's a young man sitting between you with a very alluring outfit I

40:35

know that's right. It he definitely has a alluring outfit okay he's got a very special report to give give us tonight apparently. Now Chris, are you giving him the the weak one the one that that can't stay up

41:02

otherwise known as the Roy Mike now.

41:04

Okay. Anyways, we have some kind of serious stuff want to start off the news for tonight. That's happening here in the Montrose area. And we have a special on the scene report from Michael. You know, who knows what's going on? Michael, will you tell our listeners what what else happened? Going on?

41:28

Yeah, we have a group of teenagers in the neighborhood. Especially the Manchester last time I area. They are going around
