SPEAKERS

Roy McCarthy, Chris

00:01

Yeah, we have a group of teenagers in the neighborhood, especially the Montrose from last time our area, they are going around harassing a lot of the gay people in our area. A lot of it has to do with this, you know, David David thing that was in one of our newspapers. Here, she was on the air just last week. Yeah, she was on the air here just in the last week. And really, she had started a lot of stuff that has made a lot of people upset. And it is really, it is believed that they're doing it in response to that. And they're just, they even harass me and my lover, for reasons unknown. They're just harassing people for no reason at all. And basically, be warned, it's a group of about nine people. And just be careful when you're out by yourself. Go out with go out with friends. Have somebody with you when you go out? And just be careful. Okay, thank you.

Roy McCarthy 01:09

Hey, Michael, before you go, What is the age group of these people that are?

01:17

Well, they're anywhere from 18 to 20. Really?

Roy McCarthy 01:22

And are they using just a fist? Or do they have sticks?

01:25

Or not really, basically, at the point that I was harassed, it was just, they were just basically telling me that they were going to kick my ass and everything. Pardon my language, folks, for

those that are sensitive to that. I don't know if I said that on the air.

R

Roy McCarthy 01:38

In the Bible, so that's okay.

C

Chris 01:40

But you just did. So who cares?

o

01:42

Okay, but basically, they just use their fists. I don't know what they do. Really. They really didn't do anything to me, because I left the area I was in, in a quiet hurry.

R

Roy McCarthy 01:55

How many? How many other people do you know?

o

01:59

I've heard from about three other people that they've had problems with the same group?

R

Roy McCarthy 02:03

Has anybody contacted the police

o

02:06

know why? I don't know. Most people that I know don't do the place they take care of their own problems.

R

Roy McCarthy 02:15

Well, taking care of your own problems, you know, can be it can be dangerous in the respect that you wind up with vigilante justice, and

o

02:25

yeah, it can be dangerous, but most people I know, a lot of street kids as well. A lot of the ~~street kids not harassed by the cops as well. And because they're street kids, they're not going~~

Street kids get harassed by the cops as well. And because they're street kids, they're not going to do anything because the cops are, you know, the cops, Mr. Phantom, and the cops won't do anything about it. Okay.

 Roy McCarthy 02:49

All right. We'd like to thank Michael for that on the spot. Report of what's been going on down there in the Montrose area. So if you're down in Montrose, please don't travel alone. Travel with somebody, again, if you get attacked by anybody, not only should you notify you do need to notify the police. Yes, you should also call that there's a hate crimes hotline that we have set up. And you can also notify Q patrol which takes which monitors hate crime attacks and things of that nature. And my colleague Chris is desperately looking for the number of

 Chris 03:33

Q Patrol, no I know the number of Q patrol. I'm trying to find the hate crimes hotline number that you as usual throughout and

 Roy McCarthy 03:44

I really have your way I can find the Yankees with the Mets I threw the Yankee threw a curveball to the meten of Mets junk out.

 Chris 03:56

Excuse me, you you Yankee New Yorker. I'm filling

 Roy McCarthy 04:04

five to six

 Chris 04:06

as a phone number for to patrol a 713528 safe 7233. I don't have a number of hate crimes hotline, either the one for the city of Houston or the Montrose Counseling Center's hate crimes hotline well, you still

 Roy McCarthy 04:24

regardless call Q patrol because Q patrol does track these type of these type of deals. And Q patrol be able to get in touch with you to talk about the hate crimes. People can

C

Chris 04:38

at least let us know so that we can keep an eye on the neighborhood and let us know where these incidents are occurring. Because when we see something like that, then we can we can be a little bit more proactive with it and hopefully cut it down before it starts.

R

Roy McCarthy 04:52

And what about daytime attacks.

C

Chris 04:55

Even daytime attacks by contact the police contact us

R

Roy McCarthy 04:59

here And what could you patrol do in regards to daytime attacks?

C

Chris 05:03

Well, I'll be honest with you, I mean, we're we're still working on getting fully staffed on our evening or weekend, even weekend evening shifts. And with, it's hard to have people come in during the week, during the evenings, let alone come in during the day. Basically, the simple rules that you'll be hearing on every newscast in the next month or so, on mall safety, follow the same rules, they're walking groups, get someone to escort you there, to your car, walk with your keys in your hand, just be alert. That's the that's the primary thing is you just need to be aware of your surroundings. Whether it is daytime or nighttime, just and unfortunately our neighborhood around here is not the best lit. It's not the best sidewalks. It's not the best pruned back trees. And it's a very could be a very dangerous situation. Just need to keep alert on any situation where you are anywhere in Houston, basically not just in the Montrose area.

R

Roy McCarthy 06:11

Okay, and underselling her gay man got shot up a Dallas up there at the moment did

C

Chris 06:17

Yes, the Cedar Springs area had an incident. A man was shot Monday night at Moby Dick. A gay bar in the Oaklawn area of Dallas, with patrons at the bar witnessed a heated verbal argument that escalated to a fistfight on the outside patio, which resulted in a non fatal shooting. The suspect led fled over a petty offense into the parking lot and escaped in a stolen vehicle. Dallas police followed the suspects car down Cedar Springs Road until a high speed chase resulted in the suspects vehicle running into a pole. The suspect then fled on foot into a wooded trail that escaped police. The suspect became angry that caused the incident when just a simple

bumping into another person at a bar in the bar, according to witnesses, someone was the the victim was winning the fight when he threw the suspect into the corner of the bar. At that time, a second suspect began hitting the victim over all of his body restrained him. And then the first suspect brought on a semi automatic weapon from his pocket and fired into the victim's abdomen. So it's we're seeing some of this even more violent, at least, at least what we could would say on this part is looks like it was just your typical barroom Brawl brawl. This was a patron getting upset with another patron This is not an attack from outside the community coming in. And that's

R

Roy McCarthy 07:58

that's very unusual, because I'll tell you some gay clubs, patrons of gay clubs are not do not normally carry guns and things of that nature. We do not normally have that type of violence in gay clubs that normally come from somebody from outside the gay community, going into the club, looking to start some stuff. I mean, I've been getting all my life have been going to gay clubs. Since before it was legal for me to do so.

C

Chris 08:32

Well, I think what we're seeing here is a situation where the beginning elements of this was the fact we're living in an increasingly dangerous and difficult society. And we're here in Texas, the fact that you are allowed to carry a concealed weapon, not into a club, you're not allowed into a club, but the fact that people will are allowed to carry it. And there's not any checking that you see at majority of clubs, the only clubs that you really will see or hear about a a cursory search. I mean, just a good hard physical, visual examination of a person coming into a club, or even a pat down or a metal detector is usually at your large raves where you have a lot of teenage kids coming in there, or at mostly your minority clubs. And this is a situation we haven't seen in the gay establishment. We don't see it. Don't even hear it that often really in the mainstream straight community. We hear about it more often in a heated dispute where someone actually goes out to their car and gets the gun out of the car. But I think this is one of the few times where we're seeing someone who carried a concealed weapon into a club which is illegal in the first part. But then to go and have something escalate this standard is totally over is totally unusual for any sort of establishment I think not just in the gay community,

R

Roy McCarthy 10:08

or I know that here in Texas, the person who perpetrated that will be facing and more. In all likelihood that person will be facing capital punishment. Once they do get Gawker, some have survived or the person did survive. The first the person did survive the attack, they would have worked well done, the shooter will be spending many many years in prison.

C

Chris 10:36

You're talking about aggravated assault with a deadly weapon or waiting circumstances with having it in a clog in a in a bar which will tack on a few extra charges as well.

R

Roy McCarthy 10:48

Okay now the FBI has new statistics and they show an increase in reported hate crimes based on sexual orientation. This is from the Federal Bureau of Investigation. The unprecedented numbers indicate that somewhere in America every day, at least three gay and lesbian Americans are being targeted for a crime simply because they're gay. People continue to die in America and families continue to be torn apart. While Bush and the GOP leadership pretend these types of crimes do not exist, says Human Rights Campaign. Last week, the FBI released the Uniform Crime Reports for 1999 The latest year for which the statistics are available, as overall serious crime continued to decrease for the eighth consecutive year, hate crimes based on sexual orientation have continued to rise and increased 4.5% from 1998 to 1999. Reported hate crime incidents based on orientation have more than tripled since the FBI began collecting statistics and 1991 column comprising 16.7% of all hate crimes. For 1990. Set nine hate crimes based on sexual orientation continued to make up the third highest category after race and religion, which makes which those categories make up 54 and a half percent and 19 point, I mean 17.9% respective of the total 7876 crimes. It is widely known that hate crimes based on sexual orientation are generally under reported. And evidence indicates that the FBI data does not paint the whole picture. The National Coalition of anti violence programs a private organization that tracks bias incidents against gay lesbian, bisexual and transgendered people reported 1965 incidents in 1999, nearly 2000 incidents in 1999, based on sexual orientation, you know, this is what the FBI statistics are showing nearly 2000 In one year alone. So folks, we do have a serious problem. Don't let people tell you that, Oh, it's getting easier, because it's not. And then we have people going into Dallas clubs, carrying concealed weapons who may very well be part of the gay community. Folks, if you have a gun, leave it at home.

C

Chris 13:37

If you wanna get some more information on the FBI statistics on hate crimes, and see the whole picture of what their statistics are, you can go to their website@www.fbi.gov. Also, there is an organization out of Laredo, Laredo, Laredo, Texas that is an anti violence project,

R

Roy McCarthy 13:59

that little one horse home something good coming out of a little one horse town, you,

C

Chris 14:04

you. I mean, we hear about these out of New York and San Francisco and all that. The basic one for Texas that you'll hear a lot about is WWW dot lambda dot O R G. It's a nonprofit group down in Laredo, and they carry also a lot of statistics regarding hate crimes, but those are two good sources where you can go and find some of the most current information on this type of topic.

R

Roy McCarthy 14:31

And folks, again, I want to stress again, if you are a victim of a hate crime, or you know someone who is notified cue patrol call the hate crimes hotline. And if Jimmy's listening he

might know the number. Of course he's not listening. But I know cue patrol is very interested in tracking these these hate crime problems.

 Chris 14:56

Everything that we all the reports that we get in and In the store, any of the information that we gather is turned over to both Montrose counseling centers hate crimes program, as well as the Houston Police Department being

 Roy McCarthy 15:11

maintained in into your own independent statistical

 Chris 15:15

records, nothing, nothing really permanent members, we get our information back from the organization's mainly we just keep track of events over the past month or so and keep an eye out for those vehicles for

 Roy McCarthy 15:27

this is something that I'm really very concerned about the the investigate the investigation of these hate crimes. Is there any mechanism in place here in Houston, of following up with a Q patrol follows up whether somebody from the counseling center or from the police department Act actually has an active investigation going on. Concerning hate crime? Well,

 Chris 15:56

the first part is it has to be reported. There has been some discussion, just mainly preliminary talks, of possibly starting an anti violence project here in the Houston area. And we're we're still looking at some other groups and seeing what, who else would be interested in joining something like this. So that we have one, one place where you can contact and get the report out to everyone get the story and the information out and keep and keep it better and keep a record of it in one place. Rather than the Montrose Counseling Center having one Houston Police Department having one the FBI having their and it's something that we're going to probably be looking at here. Hopefully, hopefully with next year, we will put together something we'll have enough people that are interested and we can look at something along those lines

 Roy McCarthy 16:49

on fat ranville People won't get interested in won't do things unless something happens tragically.

C

Chris 16:56

Unfortunately, what we've kind of noticed in our community is we are a reactionary community, to put it nicely. To put it in plain English terms. We're a knee jerk society. We need something to go to us we need something to happen.

R

Roy McCarthy 17:11

We need a Paul Broussard.

C

Chris 17:13

We need a Paul Broussard, Matthew Shepard was not enough for the Houston area.

R

Roy McCarthy 17:17

That is really that really, I mean, it's true what you're saying. But Darn it that is so aggravating.

C

Chris 17:24

We've I mean, we've looked at it some times. And I mean, it's we've gotten a great response lately. And it basically took profanity in in China letters and the use of voice to get some people's attention that hey, we need some help out there. So

R

Roy McCarthy 17:41

Oh, Jimmy, finally. Listen, Jimmy. Yes, we have a third call now for the hate crimes hotline. We're gonna be the third call. You know that number. We've been asking this a third time I'm asking. I thought we would know the number.

∅

17:55

Oh, 529961571352996159615.

R

Roy McCarthy 17:58

That

∅

18:05

is the hate crimes line associated with the game lesbian switchboard, which is now a standing committee of the Montrose Counseling Center. Maqnificent, yes, we've still got the name still

got the the number the regular number, which is five to 930 to 11. But, but also the hate crimes line, which is 9615. And they are by December 1. The goal is to be operational 24 hours a day with a live

 Roy McCarthy 18:38

human being. Yes. Hey, that is like nips.

 18:42

Yes. Well may not make it by December 1, but that's the goal.

 Roy McCarthy 18:47

Well, we're going to move on to we've spent the entire news segment so far on hate crime and violence. Have you

 18:54

talked anything about the women's festival?

 Chris 18:55

Well, since the fact we've been talking about hate crimes and violence, I don't think we've talked about the women's festival. Did you

 Roy McCarthy 19:00

intend to I don't have it on my lineup. I don't have anything on Well, let's

 Chris 19:03

put it this way. So by this way, why didn't put it in my stacks or divert? Oh,

 Roy McCarthy 19:09

yeah, I didn't give it to Jimmy if I didn't give it to Chris.

 19:13

 20:51

 Chris 20:53

He doesn't like to share

 20:54
