Jesus loves the little dress all the little children red brown yellow black and white gay and straight and transvestite Jesus loves the little children everything is and it's on like a star is nine
-  03:01  
everybody's in their own way under God's words God find a way there's none so we'll see wait
-  03:40  
on doors before for every hour that passes you know the world gets old man it's time to realize that anti lies in the eyes and everything is and it's like a starry night or snow covered
-  04:29  
everybody's
-  04:40  
God's world's gonna find a way
-  04:51  
we should care about the length of his
-  05:01  
Don't worry about what shows from with the love

05:14

altogether down and everything is gonna work out fine. Just take a little time to look on the good side and straighten it out in your mind everything is in its own way like a star is moon night was covered

05:59

everybody's all in their own gods God I know

06:27

we have to praise our God as a group of God's children who possess and are who appreciate those who possess sexual preferences and or practices different from the majority of our society. We must remember as was written, do not be ashamed of yourselves, but do not glory in your homosexuality either. For if there is nothing wrong about your being a homosexual, there is nothing in it either. Which makes you any better than a heterosexual. Therefore my siblings in the spirit, under God and through Christ, let us recognize that as red, brown, yellow, black and white are God's children. So are they gay, the straight and the transvestite. During this service, let's don't be led astray by gender identities by what's masculine, what's feminine. Let's talk about love and children. Let's be concerned with the message that we're talking about today. Let's assume that the transvestite is just a catch all word for today's service to catch the transvestite the transgender as the transsexual all are encompassed in God's family we gathered today know of God's love for us of Christ's blood being ours and of the Spirit being in our hearts too. So the question is how do we present ourselves as Christians to a world of other Christians why they might reply Who do you think would believe such a thing?

08:41

Who's not married but she's gonna name is Mary she's down now man named Joe's babies and good days good me Mathis stories Good day lays

09:29

he had a baby maybe and and ground down it's

09:56

they always But now to

10:10

think that this story is true ladies

10:30

Yes, that's the question for us. How do we present ourselves as Christians to this skeptical, self righteous world?

10:40

Why we demonstrate and take them to court and pump them full of written material?

10:47

Well, that's that's good in its place. And I've done some of those things and I'm gonna do them again. But if you consider daily prayer,

10:58

prayer, like what kind of prayer Do you think they'd listen to?

11:05

How about daily prayer dedicating each day all day to our beloved and parent in heaven? For instance, I talked to you about the Lord but you turn your head you act so bored when will you ever learn there's someone bigger than you you say you don't think he's here because you've never felt ignored but if you ever tried to get close to him you can't see death you can't see pain but turn your head I guarantee they'll still be the same and you can turn your back on God he'll still be there

11:50

and praise God's name that's right

11:53

praise God's name

12:24

be signed okay

12:01

13:11  
fees

13:27  
just saying.

14:27  
Also live your life each day as being prepared for Christ's return to Earth in your lifetime. Of course, there's a big debate as to whether those end times are in fact at hand but that's no problem because you should be repaired each day in the event of his return to you personally by your death. In fact, the sisters and brothers to follow in the congregation will tell you just how to overcome

17:56  
To overcome daily we must recognize that each joy and sorrow each victory and seeming defeat each love and hurt they are part of God's will this will may be an exercise for our souls or for the soul of a sibling

18:49  
thank you for the trials and that way I can grow

19:13  
and thank you for the patience the straw you're spraying in that process of I can't

19:39  
goes on

19:46  
my day down and let us take control of alright The Cause when nice trials gone my human nature

20:17

and God soft prompt me

20:32

yes thank you Lord for the

20:41

in surrender everything life is worth

20:56

thank you when everything's front I can see

21:15

are you be long

21:40

and it is his will to provide for us each to our needs as he has done even since creation would  
you please join in congregational singing

27:42

and remember Mr and Mrs. self righteous that you've been a jerk at least once in your life so when that someone puts it to you put yourself instead into their shoes and help them

28:06

be wary left alone no driver there's two words I could not say when you came walking by and looked into my money then stopped rescued me. Others came and others went on by refuse to . . . . .

help or just too tired to try. Alone not last night said my head fell slowly back. And words from deep within me fill the sky I'm hungry please the day and again. Please clothe me on so long won't someone come to me? The sound of my words died. Oh well. At least I tried and try and see the only thing to do sooner had I stopped and you were there. And then I knew that God can and should have realized and not come in surprise. His eyes on the sparrow. Why not me? I'm hungry. Please feed me. I'm naked. Please clothe me. I'm so alone. Won't someone come to me? The sound of my words died. Oh, well. At least I tried and tried to save the only thing to do is is on the sparrow one. Not Yes, Jesus came along and rescued me.

30:09

As you pray, walk with God. You'll become much more aware. Not only have his love but have your own sinful self
