Narration for its broadcast, Hi, this is Craig Washington, reminding you that none of us are free until all of us are free. So keep listening to after hours KPFT Houston 90.1 FM.

00:54

This is afterwards for the week of December 23 I'm Frank White.

01:09

Cherry Wolf, co producer of the KPFT program breakthrough. For the last nine years we'll be leaving, cherry will pursue a new career in the art as an occupational therapist. She has been studying very hard and will begin her clinical work in her new field. Sherry wolf will be missed by all at KPFT. This must be the time of year for completion Jack Wolinski will be resigning as the editor of the Montrose activity centers newsletter of Alinsky wrote an explanation of why he was moving on in the last issue of the newsletter. It was polite, I will not be as polite. We're we're talking about censorship of the editorial content of the Montrose Activities Center newsletter, all it will take all it will take for the words of one person to be censored is the veto of one of the members of the newsletter committees board. I believe the piece of literature that led to this unfortunate resignation was entitled The good homosexual the good homosexual

02:13

by James Carroll picket. The good homosexual accommodates himself checks fantasies behaves properly, purchases, good taste practices, impeccable hygiene, bigs respect from oppressors. The good homosexual reads only what is recommended, attends all

02:36

I can now understand why they didn't want this to run in the newsletter. It describes some of the people associated with the Montrose activity center. Andrew Dice Clay will be appearing in Houston on January 17. At the summit, I hope that he receives the same reception in Houston as he did in Dallas. We're a coalition of community organizations such as now and the Gay and Lesbian Alliance Against Defamation convinced sponsors of this homophobic racist, sexist pig comedian to cancel his appearance. We will keep you posted on how this story develops. Hopefully Andrew Dice clays reception in Houston will match the weather of the past two days. The National Weather Service is predicting at least 48 hours of below freezing temperatures for Houston and surrounding areas. If you have animals outdoors, bring them indoors or into a protected area. The rain sleet and snow will continue throughout the night. So if you don't have to go out stay home and listen to after hours driving is hazardous. If you're homeless or just don't have anywhere to stay tonight. City officials are saying that there are enough spaces and shelters throughout the city to accommodate anyone needing shelter. I spoke with the Salvation Army earlier today and ask them what a person can do at 1:30am. If there without a place to spend the night. Call 6506530 and talk to the people with the Salvation Army and they will tell you the location of the shelter with space still available that is closest to your location in the city. women and women with children may go to the Salvation Army family residence at 1603 McGowan. Men can go directly to the Salvation Army Harbor Lights on Main Street, no one will be turned away. That phone number again is 6506530.

04:44

The Northern Lights appeared in the sky at the darkest time of the night. Against a bleak landscape they're released flashes of brilliantly colored energy. For over four years Northern Lights alternatives has acted as a shining light in the blackness of the AIDS app. endemic, the AIDS mastery workshops have helped hundreds of people know that they can live with HIV infection and shine bright. I was a bit of a skeptic. So I began seeking out people who had gone through the workshops. And while my research is not scientific, I concluded that the workshops fill a very important need. The next workshops will be in January, call 4646971 and register. No persons with AIDS or persons with AIDS related complex will be turned away due to lack of funds. Texas born artists chin will have his National Endowment of the Arts grant reinstated and will proceed with his environmental art project to be planted in Houston. As you may remember, Chin's Grant was revoked. Because of the political nature of his art. Qin plans to plant on sites designated by the EPA to be toxic the plants will the plants will remove the toxic heavy metals from the soil, and they will be harvested so that they can be recycled. Within 100 years the sites will be free of toxins as far down as for feed and the land at that point will become habitable once again. Hispanics in the city of Houston will we will begin a fast to point out the need for more Hispanic representation on the city council. Councilman Reyes announced the fast on Thursday. The controversy arose when Judson Robinson's widow was appointed to her deceased husband's Council position. The Hispanics believe that this position should have been appointed to someone among the ranks of their minority. Blacks in Houston have representation on council Hispanics have representation. Women have representation on city council, white heterosexual males have representation on council, all were elected by the people of the city of Houston. gay men and lesbians are not represented on the council in the city of Houston. And as we know, there are almost 200,000 homosexuals in the city. If any Council position is going to be created, it will have to be created for the homosexuals not represented on the city council. I believe that Mr. Reyes and his followers if had confused the

issue, if Mr. Reyes would turn out the vote, he would have more Hispanics on council. The same is true for the gay community. If the gay community would throw their 200,000 votes behind the gay candidate. They would also be represented. Mr. Reyes I support you in your fast not because you are morally or politically right. But because you are a little fat cat sitting on council abusing your power. Another group of boys we should keep our eyes on are the National Conference of bishops who recently met in Detroit. In their usual double talk the bishops described homosexuality as a disorder but added that homosexual person is not evil because of his or her sexual orientation. This of course contradicts the 1986 Vatican declaration calling homosexuality and an objective disorder involving a tendency to moral evil. The bishops did a song and dance about the Pope's declaration by adding a footnote which reads homosexual orientation, because it is not freely chosen is not sinful. Despite the about face from the Pope's dictum of 1986 they skirted, not the skirted boys and blacks went on to add that because we believe that according to God's plan, human love can only be manifested or experienced through marriage between a man and a woman. We would say homosexuality is wrong, but the orientation is not sinful. I hope all the good homosexual Catholics are listening to this.

09:17

Well, Holy, Holy Trinity Catholic Church will hold his first Christmas Midnight Mass at 1218. Welsh, the pastor is gay and believes that gay people are not evil. This is not the Roman Catholic Church. Why would you go to the Roman Catholic Church? If you knew that you would be told constantly that you are inherently evil? I can't figure it out. There are a lot of things that I can't figure out. Like why did I receive an invitation to the inauguration of the governor of the state of Texas? I've worked for campaigns before and never received an invitation. Maybe this time and Richards really meant what she said about the people of Texas are invited to march with her up Congress Street in Austin on the 15th of January and take back the state house for all Texans. The festivities will begin the night before and are to my surprise reasonably priced. You can participate in an inaugural luncheon for as little as \$5 or a ball that costs \$50. It sounds like there will be something for everyone in Ann Richards new texts.

10:38

Patients of the Thomas Street Clinic and persons on Medicaid can now choose to receive AZT pentamidine and Bactrim. From the Odette clinic pharmacy, an affiliate of the Montrose clinic. According to Ralph Lasher Executive Director last year said that this action has been taken by the Texas Department of Health to relieve overcrowding at the Thomas Street Clinic reduce patient waiting time to pick up prescriptions provide greater convenience to patients and make pharmacy services available during evening hours for persons who work. The Odette clinic will also provide aerosolized pentamidine treatments at no cost for up to 150 persons a month who received this medication from the debt pharmacy. The cost of the nebulizer pre treatment medications sterile water and administration will be paid out of funds donated by the Diana foundation and doofah. Patients will be asked to pay \$5 per prescription just as they are now at the Thomas Street Clinic. Patients covered by Medicaid will not have to pay this fee as it is paid by Medicaid. This fee will help cover the cost of operating the pharmacy. The debt clinic will dispense prescriptions Monday through Friday from 10am to 4:30pm and 6pm to 9pm to transfer their AC T pentamidine or Bactrim. prescriptions from the Thomas Street Clinic to the audit clinic patients should call the Texas Department of Health. For more information, call the

clinic at 5285531 and ask for the pharmacy route flasher commented we we agreed to assume this responsibility because we believe will make life better for patients by providing services which are convenient and professional. I am especially anxious that we treat everyone with respect and courtesy. A class action suit filed in New York Federal Court during October representing HIV positive invit individuals who have been denied Social Security benefits. The suit seeks several positive measures. One limiting the time period for evaluation of HIV related disability to 90 days to reopening of past cases of denied benefits on an expedient basis. Three setting up a system for determination of HIV related disability that is not as rigid as the definition used by the Center for Disease Control. For payment of presumptive benefits for any claimant with proof of HIV infection and a report from their physician indicating inability to work, contact the Lambda Legal Defense Fund in New York to make sure that you are included in the class and to obtain additional advice on the proper course of action you should take regarding social security benefits.

13:29

The Montrose clinic Board of Trustees has elected its directors and officers for 1991. According to Ralph Lasher, Executive Director, the existing board of trustees was reelected to serve another one year term under the bylaws of the organization. Those members and the officers for 1991 are Dr. Dr. Richard Grimes, President Mark A Canfield, Vice President Secretary John Nicks treasurer members Bernard barber Frank Campisi, Jane cherry, Dr. Gwendolyn Lee Dukes, Lee Harrison, Steven Hart Hartranft C. Edward Jamail, Dr. Sam Nixon, Robert Parrish and Dr. Carlos Val Bona. In addition, Dr. David a Franklin a local psychiatrists was elected as a new member of the board and other action at the December meeting. The Board also approved a record budget of \$945,000 for 1991. Last year commented This reflects combined program and operating costs for our entire operation, which includes the Thomas Memorial clinic, the audit Center, Houston Clinical Research Network and the Montrose clinic. We have substantially increased the number and variety of services we offer, most of which serve persons with HIV and AIDS. Thanks to the generosity of our 200 volunteers, we were able to actually provide services worth much more than \$1 million.

15:28

Inklings is still celebrating their anniversary month. So you can go and tell Sherry, thanks for doing her job here. KPFT. Cherry, cherry. Well, I knew that the stone soup pantry, you know what the stone soup pantry needs toiletry items? Why is that? Because if you send them money, they will only buy non taxable items which are like food stuff. And so they need deodorant, toothpaste, soaps, any toiletry items,

 Jimmy Carper 17:53

so only those items can be donated. But even if you give them lots of money, they won't buy

 18:01

they won't buy those items. That's what I've heard. So, you know, so that's what they're going after this year. And that's like, laundry detergent. Yeah. So anything, whether it be dog food, Mary, I don't know if it's dog food. I mean, she's always trying to get on the show. I wouldn't want it to be dog food. Well, yeah. For my dog. Okay. J Jimmy Carper 27:26

Whatever it is, at a you know, and this is, this is like how the government works. You know, it's been shown long ago that inhalants really have no effect.

x 27:38

What they do when you're, I can't say that can I? When there's a nice man and you're both naked and you're doing you know what it really gives you a quick buzz.

J Jimmy Carper 27:47

But Santa Claus has known that inhalants are a sexual stimulus.

x 27:52

Santa Claus brought me a little bitty package of of inhalants aromas, aromas, I'm sorry, do their own arise my room if I can find a nice a nice man to get naked with stand up against the wall while I would arise. I say, Can I do that? Sure. I don't want Santa Claus to bring me this

J Jimmy Carper 28:20

J

Jimmy Carper 30:18

X

x 30:21

I have a lot of friends, but I don't have a lot of people that I can talk to about life. Yeah, we talked about the work and all this kind of crap. It's okay. But there are two or three people that I can really talk to about life. Like this real cute cop came in today. Oh, Mary, don't ask. He was so pretty. And he gave me that look like how you know? And I give him that look like Wouldn't you like to find out? Same kind of look, I give a lot of our guests. How are you doing? I mean, I've seen that luck. But she's she's listening in this the first time she's ever heard our show?

J

Jimmy Carper 30:57

Well, you know, it's kind of rare when you can have a friend at work who can also be a confidant.

X

x 31:03

Exactly. And really know about things. Because there's some things you just don't tell people. I mean, you're the things you don't tell your lover. Yeah. And your mom and dad but there are things that you tell your friend everything. Yeah, and I think she's a sweetheart and I'm really glad that we've kind of like opened up to each other in the last couple of days or at least I opened up to her about my sexuality and I feel real. I you know, honest and unavailable to talk to her if things get bad and they she knows that I'm alone now and she knows that the holidays stink because of my dad's dying and my dad never been there. You know what I mean? So I just want to thank her for being my friend and for sitting up at this ungodly hour and listening to us. And Celeste, I want to play this song just for you.
