but are going on the support is broad base is coming from not just the gay community, the Jewish community of African Americans organized labor, even religious organizations are getting on their parts, and the elderly. And if you want to let your invoice not be known, you can send letters to the governor of state representatives and state senators saying your support, you can send it to PO Box to 1910, Austin, Texas 78711. And those will be forwarded on to them. phonebook and contact, whoever is in your area.

Roy McCarthy 00:41

And I do want to say that, what Chris was saying, believe me, that is so important about writing letters. If I like to let you know that the government, they give more weight, to handwritten letters than they do to form letters or petitions that had been signed one letter to a politician, one handwritten letter to a politician represents 5000 constituents. That's how much weight they put on those handwritten letters.

01:14

Because that person, because if one person that takes the time to sit and write a letter in their own handwriting in their own thoughts in that, okay, that represents a large portion of the people are actually going to get out, get out in the morning, and go and vote. It's not the it's the person system is gonna write a note, personalized note to their left to the Governor or state representatives are all that is the kind of person who is going to go to the go to the polling booth. Even if it's raining. It's not these people who are just going to sit at home and well, it's too wet outside, I don't want to go vote. These are the hardcore people who really believe in government and are watching out for them. And that's the thing, that's the important part there. You can put together all these lovely petitions and postcards and print them up real nice. But they want something to show an actual physical person. Because you can sit on the computer and make names up all day long.

R

Roy McCarthy 02:08

You may say, Well, I'm only one person, but when it that one person sits down with a handwritten letter that one person really does. does do a lot in that one voice does mean a lot.

o

02:21

Because if you don't send in a letter, and the other side does, they're one up on you. If they send it in and you send it in, it's tied, but they at least have your voice and if the other side doesn't send anything in, then they're getting our side across. They're hearing what we want. We want to find out in our area, what we need in our communities and in the surrounding communities. Because that's that's the important part. You have to get your voice out and be heard. And even if you're closeted the congressman is not going to we're not going to ask you on the floor of the Senate. I certainly hope not. No, they

R

Roy McCarthy 02:53

don't. Anyways, moving right along with that local hate crime. Hate crimes in Houston jumped nearly 30% in 1988. Though the actual number of crimes motivated by prejudice remained small according to figures released by the Houston Police Department. And much of this increase is due to better reporting by the victims and the cities more than 5300 police officers, says Lieutenant Mark Eisenman, who was appointed the department's hate crime coordinator by Mayor Lee Brown back in April. There's a hate crime hotline and you can call them at area code 713-308-8737. Now some of these hate crimes that have occurred in careers if you are aware of any of these particular ones go ahead and jump right in here. There was an aggravated assault on December 7, a 3100 block of South Sheppard, with a suspect yelled anti gay slurs and then tried to run down his victim. There was criminal mischief which happened on October 15. On the 8600 block of gentlemen, when anti gay graffiti was painted on an auto there was an aggravated assault on October 12, when a man mistaken for gay was stabbed while walking his dog and delivering her block of Hadley and this there's been also it was a retired professional wrestler. Yeah, that

o

04:20

was that he was married. That was an interesting little story that came across on that one.

R

Roy McCarthy 04:24

And I remember doing the story on that one. And then there was another one on September 27 When someone yelled anti gay slurs and threw an egg at a lesbian couple outside the 300 block of Tulum.

o

04:37

Unfortunately when that's one thing you see there's a lot of stuff that takes place with that

Unfortunately, when that's one thing you see there's a lot of eggs that take place with that there's one they didn't mention in there. This past Halloween, we had a couple of young men and I had four men and a further sport utility vehicles going out making sidewalk on what's on Halloween, and they were nabbed by the HPD officers who were blocking off the street for the Halloween festivities, and they were caught red egg handed. There they were armed and there they were had eggs in their hand when the police, police officers walked up to the vehicle and literally embarrassing being caught with an egg in your hand and another two and a half dozen on the floor.

 Roy McCarthy 05:17

On June 29, we had two incidents when someone yelled anti gay slurs and threw an egg and a lesbian outside a bar in a 300 block of two M. And two suspects were directed anti gay slurs toward a business on the 1100 block of Westheimer. And someone yelled anti gay slurs at a gay man and sprayed him with men's those both happened on you know, there

 05:41

was another one, there was another one that didn't mention they're even our own community center has had been hit at least once with us with some hate crime thing. The one signed sign on the Stanford side was spray painted over. And that's been since cleaned off. But the important thing is you have if you're if this happens to you, let people know. Call the HPD hotline, call queue patrol, let us know that something is happening in the area. So that we can go out and keep a closer eye on the area by people and just let our people know, to keep be a little bit more vigilant in those areas. So we can kind of prevent these things. And that's the cue patrol phone number is 713528. Safe. And also, if you need help with that contact the Montrose counseling center there is a hate crimes part in there. We send all of our reports at Q patrol to HPD and the Montrose Counseling Center where they compile the information. And they have a great support group there the support team, not a group yet. I may have a group, I'm not sure. But they can help you get through that and get some information. But you need to report it. Even if it's a small if you think it's small and insignificant, someone just screaming something at you. Remember what they're yelling at you today out their car window, they may be yelling at the other end of a baseball bat to another person the next weekend.

 Roy McCarthy 07:08

Also, again, the police hate crime hotline is 713-308-8737. That's 713-308-8737. And I just want to close this particular part of it. I was saying that if somebody can, if somebody can say it, then they can do it. So it is important that you do report these.

 07:34

Okay. For some reason Roy gave this to me. And I'm I guess I occasionally I'm guilty of this whenever it does occur, but the increase, there's an increase right now and people who are having unprotected sex there is an increase in all know that they have been asking people in San Francisco. So I guess that means I'm probably guilty there because that's where it

happened to me. I see. Men are reporting having anal sex with men without a condom. Well, just just generally the hell's wrong with them? Well, this first part here, there's up from 57.6% to 61.2% just men having anal sex, but having it always with a condom has fallen to six 60.8%. So half the time they're wearing them not good. It's It's the latest, it seems to be a latest trend. They're saying a 30% increase of people who are engaging in anal intercourse without a condom. That's one of the most most dangerous ways of this disease spreading. And it's an unfortunate thing. And I think one of the things we're seeing a lot of this trends are is people are either hearing all the news about the protease cocktail and figuring, hey, even if I get it, they've got a somewhat cure. Okay. I think that's what people are thinking. But they don't know the whole story that it doesn't work for everybody.

09:02

Let me tell you, let me give it to you from the horse's own mouth because I take protease inhibitors, they're very expensive. I mean, you're looking at one to \$2,000 a month if you don't have insurance, and you have lots of side effects that you just end up living with. And I've seen

09:23

you taking your pills once before and it was like you got finished with your pills, but you were hungry. You took your pills, and I was like I'm full now I have to wait a while exactly

09:30

because I take about 40 pills a day

09:33

he carries a tackle box with him

09:35

and then and then I mean, some of them you have to take with food and some of them you have to take on an empty stomach and so then you have to plan your your meals and you know when you can eat and when you can't eat and sometimes you have to eat food when you're not hungry, or you're starving to death but you can't eat because

09:55

and these are also really really time Absolutely.

09:59

Absolutely Ladies out, it ain't no picnic kids. Well, actually, there's that thing covered up.

R

Roy McCarthy 10:05

There's a more sinister thing on it and it's called posing parties or pausing party, excuse me, pausing.

♂

10:16

POC gotcha five.

R

Roy McCarthy 10:18

And this is where HIV negative bottoms from across the nation are going to converge on Texas cities this spring to attend pausing parties with HIV positive pipes. The parties have been posted on the internet and are usually held in hotels, homes or clubs than they do. The purpose is to bring HIV negative bottoms or bug hunters into dens of HIV positive tops or gift givers to engage in bareback sex. You know, sex with other common variety become intentionally inflicted with the with HIV fats and and now there's one of the larger ones is extreme 99 inoculation party. I never heard of this. And it's scheduled for the third weekend in April at a bathhouse in Dallas. It's a it's a ghastly posting, you know, of bareback. That's the reason the reason for it. The reason for this is that thick they're calling it a ride on the wild side and some gay men romanticize bareback as bareback, he has breeding and exposure to HIV as impregnation. And they want to they feel that they're going to become part of the bigger community if they become HIV positive, which is absolutely my friends, I'm telling you something insane. This is This is so insane.

♂

11:53

Okay, we've we've got a,

♂

11:55

I really, really hope that what this is, is one of those internet publicity stunts, to get a bunch of people in here who are strong about this type of topic. And they're going to turn around and say, Look, we fooled you, we really are gonna now give you a safe sex lecture, we're going to start using condoms on

♂

12:14

we have no here in the studio that wants to make a comment about that.

○

12:15

12:18

Are these people nuts? They need their lithium?

R Roy McCarthy 12:26

Well, you know, I thought I could almost understand in the sense where some of these kids are coming from. In fact, it's the younger kids that are doing this. And the people in their 20s and their teams. And the reason is that there are so many social groups for HIV positive people. There are so many support groups, for people who have AIDS and HIV, that a lot of people who are negative, like myself, feel left out. But I don't feel left out.

12:58

What about these people instead of going to this ludicrous deal party? Why don't they go to a different kind of party, where they can learn about all of the other groups and organizations out there or

R Roy McCarthy 13:16

become involved become a volunteer,

13:18

there are so many groups out there in the community. I don't care if you haven't left your house in 20 years, because you've been stuck talking on phone sex lines. And now there's like that there's that there's computers, there is a group out there for you. Really, that's just ludicrous. See, and

13:39

the worst part about this is this is also part of where I think hopefully the if I'm hoping I'm an optimist on this, that it's just a big hoax. I think part of this is also trying to catch a little tension off that Fox files special they had a couple of weeks ago, on the gay underground, where they were showing people who are transgendered shooting hormones in the middle of the street, using Krazy Glue injections, to enhance certain body parts, showing scenes from inside of some bathhouse somewhere about men having promiscuous partners and unsafe sex. And hopefully, hopefully, this is all going to come down. It's just being a hoax that they're going to try and get people in there to talk to them.

R Roy McCarthy 14:22

Well, actually, I don't think I don't think it's a hoax, because wanted to become a part of a large group is that's a necessity that everybody has. That's why we become involved in different groups.

14:39

Anybody out there who's considering going to this party? Let me tell you right now, you may get boosted into the community momentarily. But you know, there's still not a cure out there.

Roy McCarthy 14:55

And you feel like you feel like do do the rest. No, my friend

15:00

If you want to pretend you're if you want to make yourself a part of the community and have something permanent, get an ankle tattoo. Get your ear pierced. Don't go out.

15:10

Volunteers is fabulous.

15:11

It does great wonders for your sex life. But I will tell you, anybody who's planning on going this party, call up here. Give us your name, phone number and an address. I will make a personal meeting. And smack Yep. And snacks.

Roy McCarthy 15:27

Now Jason Jason.

15:29

He's got the handcuffs in the truck. So he's ready. Yes, I

15:31

do. And I use them.

Roy McCarthy 15:34

No, but if you really want to feel a part of the community, you know, part of the pack. Become involved being volunteer and I tell them you feel so good. You feel so empowered.

15:44

There's a whole nother segment in the community geared towards helping those with HIV.

R Roy McCarthy 15:50

And there's a segment in in the community geared towards people who are HIV negative like myself.

15:56

Yes, there is. Like I said, there is a segment for everybody. Even if you I'm sure if we look hard enough, we can find the whack off club with people who whack today. I'm not saying how many times I do it. I've actually come back since

16:17

Okay, Jason, Jason, Jason Jason, we'll save it for our next segment there when we get off the news. We try and be serious on this segment. Just hold your applause. Okay. Well, you

R Roy McCarthy 16:27

got what you got there, Chris. Okay,

16:29

we've heard us talking about this group for a long time of work, art classes are given to HIV positive people. So if you're planning on becoming a member of the AIDS community here at one of these pause parties, here's some of the people you can meet with the after effects of it. The Glasgow School of Art is at the Museum of Fine Arts is going to be hosting the first ever showing of artwork from the HR HIV positive community. They're free classes that they've been doing. It's gonna be the first one here is gonna be black and white photography called positive negative. It's a joint exhibition between art axis people with pa w. And the high school photography workshop. It's going to be at the Glasgow School of Art 505101 Montrose Boulevard from February 9 to 21st. For more information call 713-639-7500.

R Roy McCarthy 17:27

Okay, Chris, what's happening with the pride committee? Well, the pride committee

17:31

is getting ready for their grand marshal elections. And it's the nominees are in a different in the three different categories. Let me find my ballot here. For male Grand Marshal Shawn Carter, and coy Tao are nominated for the female Grand Marshal Marlene Vigo. Nancy Ford, a regular here are what it means Marlin

17:57

Mr. Lane owns chances

18:01

out there it is. If you let me tell you the Ford anti Ford, Phyllis Frey Phyllis Barbara Walker. Yeah. And the honoree Grand Marshal organization is THE COLT 40 fives and the greater Houston gay lesbian community come Chamber of Commerce, right? You can pick up your ballots. There's two ways you can do this. You can pick up at many of the businesses I picked up a magazine, a newspaper called inside pride over the Montrose Kroger. Or like several other place several other businesses, they don't say which ballots are due February 16. At the political at the pride committee, they just said PC and I was thinking Political Caucus 803 Hawthorne that's the gay lesbian community center. Seven Houston seven, seven double O six, the polling will take place on the 20th. You can also go to the community center on February 20, from 10am to 6pm. have proof of residency and you can meet all the people within the organization

19:00

that weren't when one was on the date. You can

19:03

mail in your ballots up until February 16. Yes, on February 20. If you go to the community center, you can vote in person Okay. I wonder if they'll have a little booth setup. I don't know how they're gonna do it. From 10am to 6pm proof of residency, and you can meet them meet everyone at the committee, the organization the movers and shakers of the pride org. February 5 from five to 730 at the at the community center.

19:29

houston.org.

R

Roy McCarthy 19:56

Okay, moving right along here. The Texas advocacy Information Group to gain our own sir department, our

♂

20:03

own Sara department and she just wowed them in us.

R

Roy McCarthy 20:07

And they wowed her on January 27, the for the Texas transgendered Lobby Day, which was the first state capitol effort of its kind in the nation. 52 people spent the day lobbying and that just floored Sarah Palmer because she was expecting. She was hoping she might get as many as 20 people. In fact, she got 52. So she got way more than she got more than double than what she was expecting. And they spent the day lobbying not just for passage of the Texas employment non discrimination act, and the repeal of the homosexual conduct statute, but also against the anti adoption bills and the marriage nonrecognition bills. And according to Sarah dipalma People came from El Paso from Brownsville from Waco from Beaumont, Port Arthur Corpus Christi. Phyllis fry the scene that two people wrote from San Marcos on on one motorcycle and so Sarah dipalma had a very wonderful day last week and I'm sure next week when she comes in for the show. She will tell us all about it so keep listening. And Chris what's happening with TV Montrose

♂

21:20

well we have a new venue that's going to be it's showing TV Montrose was I'm surprised Jimmy hasn't mentioned about before. What do you mean? There is a now another place where you can watch TV Montrose if you don't have cable, the Lobo Tyria is now going to be showing TV Montrose Monday night 7pm I

♂

21:40

♂

21:41

21:57

Roy McCarthy 21:59

eight o'clock on Monday evenings signs at seven. Well it was aired at eight o'clock I'm sorry I

22:06

don't have one or cable all I've ever all I have ever seen at this show was the opening credits and saw Suzanne and her dog and some guy next to her the volume was off and then they switched to the Russian barbers they were cute Russian barbers

Roy McCarthy 22:23

oh oh yes yes, yes, yes. Yes.

22:26

You got me.

Roy McCarthy 22:28

I got a good episode not not barbers. They were I don't know as hairdressers

22:33

from hairstylist

22:37

the Russian thing they interviewed gay people in Russia and Moscow.

22:40

Yeah, I saw the opening parts of that saw them posing those Russian boys and I was waiting for I was waiting for the funny movie The funny music to start there because that's usually when I see what's usually the beginning I see most of the Russian movies I see and then the strange music starts and something happens

22:55

yes. Russian movie anyway. neighbor told me that cables channel 74

Roy McCarthy 23:01

and Steve Baker told me that this coming Monday we will get to see that switch.

23:07

See okay we

23:08

do have one sad announcement here we have to make an institution is as apparently

23:13

que tienes has closed its doors that's permanently just said that silence now for our wallets.  
There

23:25

happens maybe I could go in there and have a drink because I

23:33

Oh, it's already closed everyone for you a joke for you.

Roy McCarthy 23:40

That's a very important, very important about cuties. Now, while a lot of people like to down cuties and a lot of the politically correct people love to make fun of and denigrate acuties and the people who went to cuties Yeah, let me tell you something. That was the kind of bar that the Stonewall Inn was Yep, it was those kinds of people. It was not your suit and tie type what nor wasn't your Jr's type of people. It wasn't your people who go to Lobos now are or this here was your street folks who we are today the the rights that we have the ability to have this radio show, you know, is because of the kind of people that was at the cuties. And as for me, I feel very sad and very upset that it'd be closed down. Yeah, but life goes on.

24:36

24:30

I like I wish I danced one time. Embarrassed. Oh, I missed them.

R

Roy McCarthy 24:43

Where was I?

♂

25:15

on a

♂

25:18

commercial free and listener sponsored Houston. 90.1 KPFT the sound of Texas of Pacifica network station KPFT Houston KEOS College Station

♂

25:33

Oh, I guess I guess that would be the end of the song.

♂

25:36

Boy, we're busy talking about something I don't know what it was. Oh, I gotta play with my microphone. We

♂

25:41

just got we got struck it maybe stroke it. And anyway, that first song you heard was let me get my if y'all hear some squeaking in the background as me adjusting the mic or something else from some other hotel. It was me adjusting my mic or something else. That first song y'all

heard Horni by Mike snow. It's on his mix session number three from clubs spy. That's my current theme song. So

26:10

that was considering over theme songs myself there.

26:13

Well, it seems I've had a very good week. Now that I'm single again. I've had a week now. Well, now I've got five guys lined up for the next three days. It may be more

26:29

calling if you think he deserves a bitch slap or

26:33

call in if you're cute in young and single and Vera you must be able to go at least twice a night. The number is 713526 KPFT Ben you better call me back because your butt's going on the air whether you like it or not, or at least call back during the song so I can talk to you and show you out

26:55

it's very interesting you use the term but and then chew out in the next line.

27:02

Now Jimmy is adjusting my mic Ooh, how can you matter

27:05

you don't like him swallowing

27:07

know these mics you have to stay a little bit away or it gets kind of muffled

27:13

stay away or my mic right where you are. It might shoot

27:18

i It's never shot on me.

27:22

And I'm trying to the newest lows of lows.

27:25

I might get shot out tonight.

27:29

Just case the blue haired ladies come driving by Elise you're closer to the window. And the second song we had there was bad Jimmy's request. Jimmy.

27:39

What was that song?

27:40

You didn't leave the cover for me to write it down on the playlist.

27:42

It was it was a listener had requested that song it's by King missile. It's called gay not gay. And it's on their latest CD. And if

27:55

you really liked that song I'm sure you can find it at like sound waves. Oh

27:59

yeah. And that's where I got it.

28:02

But let's move right on along there. I was earlier what a surprise. Well, you know riches. Well actually I I've been hidden Jr's in the clubs on Pacific street ladies I bet for 20 year old inside out. I don't I prefer not to divulge my age in public. I can't imagine why. But Jr or you know, riches. Okay. Since it's Mardi Gras, everybody's in the Mardi Gras mood. And we know that Mardi Gras on Bourbon Street has scantily clad boys all over the

28:38

street. Yes. Mardi Gras was there on nine Mardi Gras.

28:42

But Rich's tonight had more than its fair share on me and I wanted to take them and put them back in the warehouse so we can save them for the slow nights. Plenty of Cuba. So if y'all are still like, Look at me go out which is probably as open for another 47 minutes. A little bit of time to go. You ain't leaving Europe. You still look okay, and I left the friggin club to come here and dismiss my view of the Scandi lag clad boys, you ain't going but

29:12

you have a better chance of seeing the scantily clad men more often.

29:15

Well, I'll be pleased seeing a few fully naked men in the next few days. But anyway, moving right along. That's something Chris can only dream about.

29:26

Hey, I've got videos I don't need to dream. Alright, the next thing we need I think we need to talk about is we've got a theme song here. Now if you haven't guessed yet, Jason I have taken over we have ousted Miss Lewis, we have

29:37

a theme song or a theme of the show.

29:40

Well, that we didn't hatch we don't do theme in the show.

29:43

What's our theme song that horny? Well, that was my personal theme. But if we want to make that the themes under the shadow we could because we are gay men in our 20s and I have yet to find a gay man in his 20s That isn't horny. I have yet to find a gay man that's not horny. Uh oh you don't count more than five if you can't be more if you're not a winning game, man, you know

30:17

I don't think you can. You can swing anything in this neighborhood not hit a hornet nonword a gay man. So what we need is, we need a segment name. We need something to call ourselves besides the Jason and Chris. abbreviation for Jason and Chris is Jack. So we'll call Jason and Chris me off

30:40

to a nun. Another thing you can't say there's

30:45

not a mastermind I said. I said Jason and Chris stands for Jack. And then I said that we cannot bring called Jason and Chris me off. So you do the abbreviations at home? How about a jack meal because we played that song last month?

31:01

That's right. We did we played and who did we play it for?

31:05

Some guy named Jay in

31:09

the morning, he was in the outskirts of town. And let's see if he's, if he's really cute, though, I wouldn't mind the drive. So if you're listening in again, and you're really cute, you can send your picture to the email box and just give it a call. And you know, hey, you never know.

31:26

elicitation is illegal in the state of tech.

31:28

I wasn't soliciting. Soliciting, it includes money I you know, I don't pay because well, I'm cute enough to get it

31:35

for free. And also speaking of soliciting for money, this is pledged the winter fest or whatever they're calling it this time. We need your money. If you like what you're hearing from us this month, or last month, or any other time that we break in here and take it let us know by giving us money.
