He's tearing the place apart. Hmm, Mr. Fixit, Mr. Fixit So it's gonna be a wild night because we're going to talk about, we're going to talk about each other. Of course, we're gonna talk about your lack of hair, or talk about your problems which be a topic in its own, and love and depression.

H

Howard McHale 05:19

And you're sitting in that chair, you know, you're losing weight.

S

Scott Lewis 05:21

I've lost 40 pounds. And

H

Howard McHale 05:22

what's the scoop here? Is there a special man in your life besides me?

S

Scott Lewis 05:27

There's no one more special the night of me. But we ain't sleeping together. Well, I

H

Howard McHale 05:31

did. I did hug you one night.

S

Scott Lewis 05:33

I don't know where it is. Let me tell you I did not shirk my responsibilities. I had two Hispanics, literally begging me to go to San Antonio this weekend, please Miss Scott Lewis, please. You never do anything with us? I said, please. We had that three way that time. What do you want? begging me to go to seminary last weekend and they wanted me to go bad. But did I go? Did I shirk my response was that that senior citizen group that you spoke to? It was it was like seniors and

 Howard McHale 06:06

Hispanics wanted you know, yeah, anyway, it's wonderful living with you.

 Scott Lewis 06:11

It is kind of fun. Experience. You

 Howard McHale 06:13

know, those Hispanics that sleep on the couch. I told you next time you squirt them into my bedroom.

 Scott Lewis 06:18

Well, I was kind of afraid to bring them into your room because I had I had a couple guys over on my apple and a couple young Hispanic. And, hey, there was paperboy. I said I'll wake you up at five for your paper route.

 06:35

16 Well, you

 Scott Lewis 06:37

know I couldn't my beds queen size of course. Naturally. I couldn't fit them both in there. So I had to put one on the sofa and one slip in the bed course. You know, they were all in the bed at one point. But then you know when we were going to sleep one was on the sofa and one was in the bed. Well, Howard was upset and offended. Well, the week before when I had two boys over my Do you have any

 Howard McHale 07:01

morning by disco music on a Monday night? Why did my beauty roast.

 Scott Lewis 07:04

And then a week later, he's upset because I didn't send him into his room.

 Howard McHale 07:09

So they're all by myself. Praying to say who says Satan Dominique sent me a Mexican. Oh.

So like, it's an easy, I just... trying to say, who says, Cuban Dominique been the a Mexican city, please. Oh, please.

 Scott Lewis 07:19

So it's gonna be a wild night in here tonight.

 Howard McHale 07:21

I'm looking forward to it as much I'm looking for your hair color again. You got a haircut? You're growing the beard. You lost 40 pounds. Where's the husband?

 Scott Lewis 07:31

He's at home.

 07:33

On the couch. Computer this evening trying to look for a new

 Scott Lewis 07:38

shot that story and what computer we were on the internet. I surf the internet. Have y'all done this? Have y'all done the this? Like, what do you call it? What do you got? Robin knows about it. It's like the internet and

 07:48

board scene. Yeah, it was trying to get into you, you

 Scott Lewis 07:51

get on your computer and through your phone lines, you hook up with all these other people and their computers. And you talk back and forth. And we were talking with this one kid in Rhode Island. And it's just instant. I mean, we would type something in and just instantly it would be on the screen. And then he typed something back. And there was like gay once per day for days. And days. So we're talking and this kid is one was 19 years old. And it's kind of like, there's like this excitement or this? Yeah, real behind it lives in Ireland. Why? No, no,

 Howard McHale 08:25

hell you're gonna do with some of them Rhode Island. I don't know we talk at least, but at least ~~that one can't be thrown out of the country or sent back~~

08:35

to develop those little one handed typing

s Scott Lewis 08:38

there. I know. That's what I told him. I said for they all keep trying to get nasty. They all keep trying to get dirty. And I say to rob, they keep wanting you to go up because you can go off in this little private screen on the side where it's just the two of you instead of up to 23 people and I said well, why don't they want to get dirty and go off into a private room like it's a bath house or something a private room when you would lose a hand you know for typing, you know, I mean, what can you do? How the hell do you masturbate on the internet?

H Howard McHale 09:13

Yeah, but my question is, wouldn't you rather talk to someone I mean, how you can't wait you talk dirty you sound like you're talking dirty. How can you type dirty you know what I mean? It just

s Scott Lewis 09:24

ain't can be But Rob when it comes your way there's a will there's a way yeah, there was it was kind of work and it was kind of had some sort of 21st century I've never done that. Jim have you surfed the internet? Never. Never Have you served anything? The beaches?

H Howard McHale 09:39

The Taco Bell on the way a mile long.

s Scott Lewis 09:42

Oh, did we did you have you ever served Oh,

09:49

I am computer brain dead. All right. I have one but I don't know what to do with it. First of

H Howard McHale 09:54

all, you gotta plug it in Sharon. Yeah, I've tried. Unplug your dildo up The Lord

10:03

pretty much found out that there's this whole culture there that is just waiting, you know, for Scott to jump into for a new venue of the husband hot.

Scott Lewis 10:12

Exactly. And exactly, I

10:14

think we need to put after hours, some of your other friends to about like a whole dating scene. And we were hoping to maybe get some people in calling in that. Tell us you know, some of their horror

Scott Lewis 10:26

stories, because you know, they're out there. I won't mention any names Norman that used to manage heaven. I know. Used to pick up tricks on the internet. And they would, they would, and that's what a lot of people use this for, is they get on there and they start chit chatting with people back and forth. And then they go off in this little private room on the side. And they say, Oh, well, you know, what are you like, blah, blah, blah, hey, come over as it has got you gotta

Howard McHale 10:53

get out there recruiting young kids or something. And, and there's supposed to be an age limit. Remember,

Scott Lewis 10:59

these guys in like, it was in Pasadena or somewhere but that was called, they were like naked pictures? Or they were seducing them in and having sex with them? Or some

Howard McHale 11:09

Oh, how can you have sex with someone over their computer? No, because they would get these like

Scott Lewis 11:13

13 year old kids to come over to their house? Oh? Well, because if you had sex with somebody

13 or 14, you know, Moses would be pissed. Because y'all have been monogamous for at least 900 years. Harris. That's

 Howard McHale 11:31

a part of that Red Sea. I like that for around the house, which you know, well, Moses, if you're listening, Honey, I'll be home right after the show.

 Scott Lewis 11:45

Give me your headphones.

 Howard McHale 11:46

You got my headphones. I'll give you any head, honey. Okay,

 Scott Lewis 11:52

okay. So, um, so nobody but Rob, and I have surfed the internet in this room. Let's see if anybody out there listening has done that. Because I find it really interesting and fascinating. And that's that I think we could talk about one of the many things we'll talk about tonight. But I think that would be kind of interesting to talk about picking people it's it's like the new personals. It's like the personals of the 90s.

 12:15

But you don't want somebody New Jersey scan.

 12:18

Well no, no. That's exactly what we're trying to do. We're having a little trouble, like getting hooked up to the local bulletin boards. You know, Scott and I being new to all this we're trying to figure out you know, where's the place to go and you and

 Howard McHale 12:33

Scott of course Cruzi none

 12:39

knew you know, you guys are gonna have to come over and teach me how to use my computer then because I've I've been trying I've made up my mind that every day I'm going to do

something to meet somebody else because I was I spent three or three weeks ago at Sunday driving around calling on my car phone at people's houses and getting answering machines that they ain't got I've been out for 16 years and I don't even know what to do on a Sunday. Everybody I know is married

 Howard McHale 13:05

but the last time I saw you you were at Kroger and for the produce for three hours remember trying to meet people for Kroger again we using the old coupons good fake coupons got in store

 13:28

I know I know. I know it's just horrible to be be single and again,

 Howard McHale 13:34

Scott and I we've been single since birth

 13:36

heavy really? Heavy really?

 Scott Lewis 13:38

Oh yeah.

 13:39

It's been telling me that I thought there was something really hot in your life the last time I talked to you Scott

 Scott Lewis 13:44

oh me Yeah, who me well, he

 Howard McHale 13:46

got out every Saturday night he got he

 Scott Lewis 13:48

got a letter from the ins so things went back I think he's gonna take a plane but yes, you're
Yeah,

 **Howard McHale 13:58**

that's what swim back. Do they swim back? I don't know. But that sounds racist.

 **Scott Lewis 14:04**

But you know the one the Hispanic that gave me this necklace. He we went to the beach just
gorgeous Hispanic guy just gorgeous. Go Oh, gorgeous. So we went to the one of the first dates
we have we went we took a convertible and drove down to Galveston

 **Howard McHale 14:24**

bathing suit on the first date because it he said I hope it wasn't driving then.

 **Scott Lewis 14:37**

Because it he said I know can you imagine me naked?

 **Howard McHale 14:42**

I woke up the other morning like three in the morning I had to go tinkle. tinkle in the bathroom.
I get up I walk into the hallway and there's good or walk it out of the house naked. Like I saw
the backside. Oh, it wasn't a pretty Sheldon bruises. The

 **Scott Lewis 14:58**

anyway Get back getting back to my story. So the guy we go down to the beach. And how I got
this was I looked at it's a hologram. And it's a hologram of Jesus Christ. But when I looked at it, I
looked at it and I said, Cool Zeus. Well, he doesn't speak the best English. And I guess he
thought I said, Cool. Hey Soos. And so he took it off, and he gave it to me. And he says, come
into the water come into the water, and I go over, it was cold. This was several months ago,
and it was the water was really, really cold. And I say, Oh, it's too cold. I'm not going in there.
He said, Oh, it was colder than that. When I swam over.

 **Howard McHale 15:37**

It Well, I still can't believe you in a bathing suit. I don't want to see

15:41

on the first day.

Howard McHale 15:44

mother's life preservers, you swim with one of those orange life preservers on the

15:49

little wings you put on your arm? Yeah, right. The floaties floaties

Howard McHale 15:54

little floaty Why don't you want the Titanic

15:58

floaties breasts? What are they? Who knows?

Howard McHale 16:02

You weren't one of those Viking ships that used to attack the great lakes in Minnesota

16:12

All right, all right. All right. With that those horns on your you know

Howard McHale 16:16

who were listening to and say hello off to college station.

Scott Lewis 16:19

Hey, you're listening to Scott Lewis and Howard Big Daddy McKay. Where's that new cart we just made? Where's that bag? Where's that bag? Is that on the thick bring that in? We'll play that was him he's Scott Lewis and Howard Big Daddy McHale on after hours a continuing tradition on KPFT Houston 90.1 FM and 89.1 fm KEOS College Station. Bryan. You know we've

Howard McHale 16:44

never had a call from out there. We sure they're listening.

S

Scott Lewis 16:48

We did just get a call from Baytown. But we have not gotten tone but John is going on in Baytown. Hey, John. And he really likes the show tonight because we're pretty wild. You think we're wild in the studio. John, you should see us in bed. Do you have our address? John? Do you have our address? Because we would be more than happy to give it to you

H

Howard McHale 17:07

and we're bound to have a moving in party soon. We

S

Scott Lewis 17:08

aren't we've got to

H

Howard McHale 17:12

first Yeah. We need someone to call some College Station

S

Scott Lewis 17:17

from College Station. Bryan, if you're listening to us on 89.1 FM KEPS College Station. Bryan, you need to call in five to 65738526 que PFT Area code 7134. Let us know what that is. Hey, we're talking about anything tonight because we don't care.

H

Howard McHale 17:35

Yeah, do we care in some of the men who have traveled up the driveway?

S

Scott Lewis 17:40

He doesn't care. Let's take a break and we'll listen to a song. And when we come back let's we'll talk to we'll talk about a lot of things. Let's talk about Stephens house. I want to talk about suicide and depression because that's something that kind of kind of touched my life this week. And Dr. Rob the love doctor will Pride Week and Pride Week boiling died just right around the corner.

H

Howard McHale 18:07

It's gonna be wild

S

Scott Lewis 18:08

this year. It's going to be absolutely wild. Fabulous. Sweetie, sweetie. Absolutely fabulous, darling. It'll be the luck qua of pride weeks. I promise you

H

Howard McHale 18:20

are the envy of the country.

S

Scott Lewis 18:21

You know that? I know we are. Oh, you mean Pride Week?

H

Howard McHale 18:25

You're the envy of Mexico City. We'll be right back You're listening to Scott Lewis and Howard McHale on after hours did it address fish as fish? What the hell we seven fresh fish for tonight?

S

Scott Lewis 18:47

Hey, that was pussy Taran who do all the little I did an interview with and that was her introducing us and shit. We'll be playing that interview later in the show. She's got a new album coming out later in the summer. And she just released a what you call a triple Maxi CD. It's it's triple Maxi single, which is three songs. It's a new song called Kiss a new song called all my misery. And then a new remix of French bitch which you just heard the clean version of because we can't play the other version.

H

Howard McHale 19:27

So wherever she like real popular in the music scene

S

Scott Lewis 19:31

puts each right. She's kind of like a white RuPaul if that makes sense. Except she still has a career. And we even taught as a matter of fact, pushing and I talk about RuPaul because because He treads never met RuPaul and I have and so if you want all sorts of dish on RuPaul you'll need to listen to that and we'll play that about two o'clock. Because I had I did work with RuPaul and had a real ugly experience. And so pussy threatened I talk about that. And how about route Paul and how come she doesn't have a new record out and and all that kind of inside dish that that trash?

H

Howard McHale 20:06

Well how come pasta gets the scoop?

S

Scott Lewis 20:10

Well, actually I had the scoop because crystal waters told me but anyway.

H

Howard McHale 20:18

Anyway,

S

Scott Lewis 20:20

let's talk about Steven Taos.

H

Howard McHale 20:22

Okay, let's talk about Steven Steven. Who Steven Jim give us the poop.

S

Scott Lewis 20:27

The poop gems. It's the number

H

Howard McHale 20:29

of years we'll have to congratulate you for being one of the recipients this year

S

Scott Lewis 20:33

because it tells in there who are the recipients Yes, I have the pride guy right in front of the first one to tell you about pride fest 95 Do that which is a free outdoor concert right out here outside the station. Actually, it's just gonna be right here on the corner. As I point like anybody can see it. Right here on the corner of Taft and love it. It's a free outdoor concert DJ opens for femme de femme. It's free, but donations will be accepted at all the entrances. It's very generously underwritten by Bud Light. All donations will be accepted at all the entrances. And then all the donations will be divided equally between six organizations. And Jim what are those six organizations have is

Stepnens nouse. Lesbian health ins initiative. 20 Something MIC CR and the pride committee Houston.

 Scott Lewis 21:19

You know, we need to have 20 something on our show next show in two weeks.

 Howard McHale 21:22

During the mail today. I asked him to come on tonight.

 Scott Lewis 21:25

Oh, did you Yeah, and what did they say? They had other plans. But see that's what happens when you're 20 Something you have a life that's why we're all here. Exactly. I'm 20 something though.

 21:36

Make sure you tell him about the party at numbers after

 Scott Lewis 21:39

yeah you know what and then right after right after also been all within

 21:42

walking distance. It couldn't be done and we did I think that's family that said it could be rounded down. Big huge festival. Walk across the street numbers go nuts. I mean, it's fabulous.

 Scott Lewis 21:52

You know, last time I was at numbers was for what was it? The blackout party is a party. I mean, it was an X extra evening extravaganza of the night. I mean, can we talk we're united again.

 Howard McHale 22:07

Make it a good party hardy favorite. This lion. This was

SCOTT LEWIS 22:09

just an inch. This is the kind of party you only go to About twice a year a party this good. It was fantastic. So I recommend I think this is going to be DJ John Sam's doing 70s and 80s That old that old pop pop pop pop exactly that so many men so little time.

Howard McHale 22:27

Jack, you know you remember numbers was was the big gay bar way back in the early 70s and late 70s and early 80s.

Scott Lewis 22:33

No, I don't but I'll take your word for it. I was there too. Oh, it was

Howard McHale 22:37

a big place. So I mean, this is where it all started for Steven born. Yeah.

Scott Lewis 22:42

I was born but I was I was born to live in DC so little.

Howard McHale 22:45

So we're kind of going back to our roots here this year. And they said, oh day of festivities could not be done in Montana can

Scott Lewis 22:53

be done this way. Two o'clock. The parade down? Westheimer. Yeah, four o'clock pride fest starts you've got DJ at 5pm. To film at six, seven o'clock. You head over to numbers. It's going to be an out of this five

23:03

bar even the door. Yeah, it's fabulous. Absolutely. And you're often walking

Scott Lewis 23:07

and you're helping some incredible organization of Hispanic age organization. Stevens house, how would you best describe Stephens house.

23:16

Stevens house is an intermediate care facility for persons living with AIDS anybody infected or affected by it?

s Scott Lewis 23:23

It supports pride committee of Houston who puts this together to put on the parade who puts on the concert. It supports 20 Something which is a great I've only I've been to a meeting of theirs. It's a neat organized pick half, kinda like it's kind of only the Hispanic half. It's kind of like, hatch. The next step, if you will, lesbian Health Initiative, a very worthwhile organization just released a women's health study.

H Howard McHale 23:50

I speak in a study, Jim came up with some statistics today. Jim, tell him about that one statistic you told me earlier.

23:57

Howard, I were talking earlier, we're doing some internet stuff. I do have a computer literate person that helps me thank God because I don't know where the on switches either. But this thing came across from Philadelphia Inquirer. And whatever they're, you know, sometimes we get so focused on all the people we know and all of our own stuff, and everybody we're taking care of and all of our friends and whatever. But this is a really a global kind of a thing. And that always blows my mind away. And this came across the thing and it said approximately 6000 People become infected with HIV each day,

H Howard McHale 24:31

good Lord, and you believe that 6000 people a day but the

24:35

United Nations is really trying to pull something off. They're trying to restructure this battle of this pandemic. The organizational goal is to coordinate the work of six international agencies into one major program called UN AIDS. And it presents a big united front against this disease. And so for years, the World Health Organization who led this international campaign, they're trying to make this thing even better and bigger. The WHO The World Health Organization was criticized for doing too little at the grassroots level for focusing too narrowly on the medical problems of vaccines. Whenever the other agencies moved in to fill the gaps overlapping and confusion and competition ensued, which we all are terribly wherever in the Houston area. Anyway, una was designed to combine the whose global program on aids the UN Children's

Fund, the UN Population Fund, educational, un educational thing, the scientific and cultural organizations, and this UN Development Thing in the World Bank, and representatives from all these six agencies are going to meet in June and fine tune this whole program and approve its budget. And they hope to come up with like \$70 million a year for technical and support work, which can be incredible. But when you stop and think 6000 people a day, good lord, that's

H

Howard McHale 25:47

somebody feels bad sleep within a week. No.

S

Scott Lewis 25:52

I didn't know there were that many. Definitely if I don't take your leftovers, actually, actually,

o

25:58

I'm gonna sleep on your couch. Alright, so me too cool. For words, I might have a bed. Do

S

Scott Lewis 26:04

tell us about Stephens house. What is Stephens house?

o

26:07

Like I said, it's an intermediate care facility, what

H

Howard McHale 26:09

does it immediately but what does that mean to Joe

S

Scott Lewis 26:11

who doesn't understand to Joe

o

26:12

that understand it means when you get out of the hospital, you know, anybody that's gone in for anything from an app, you know, having an app connected me to having a baby, when you get home, sometimes you're just not ready to be on your own. And either your lover your friends, your family, your mom, your dad, whoever works all day, you can either make a meal or eat it. But a lot of times you can't do both. So you need some help to get moving. We and

also some people just find out and they aren't connected into any systems, they're just getting into case management, they're just moving along, they need a place to go to get on their feet to get moving to get all the things together, it's a chance for them to save their money, whether it's their small security things or whatever, so that they can get their own place and get back and get reestablished. Or to move back to an acute facility or, you know, onto something like hospice level, or whatever. Or they stay with us.

27:04

How many? How many can you accommodate at one time,

27:07

right now I can accommodate for, but I prefer to keep it at three so that everybody has their own private room because I don't think anybody wants to be sick and have a roommate. That just doesn't sound fun at all. I run a really tight house, though. I mean, it's not like, you know, where you can do your drugs and you're this and you're that and all that. That's it's about a holistic approach to getting a lot better medically, and spiritually and and psychologically and emotionally and everything, you know, we have a real family atmosphere. It's a gorgeous home with, you know, really nice accommodations. And we everybody's very supportive. And there's a great family spirit. And that makes people get better fast. I just had a guy the other day, it was very unplaced. My second big success story, you know, it's, it's, it's great, it works well. It's a chance to really get back on your feet and get moving. And I happen to have a vacancy note listener. So that's yeah, what since one of my guys just moved out. So

Howard McHale 28:05

it's kind of like got like a hop over. Yeah, it

28:07

gets back in your feet. Yeah, we're, if you need help, and you care, you got it. If you can make your own bed, do your own things and do all that great. cook your meals, fine, you can do that. If you need help. They were there for you all the time. 24 has

Howard McHale 28:19

the funds, who are always in is you ever get to a point where there isn't any money?

28:27

Well, thanks be to God or, or Zan or whoever, higher power or whatever we want to call him. No, so far, we've always managed to make it and I don't charge them. Like I said, I want them to save their money wanted to do something productive with it. You know, whether it's by their

own place or plan their own funeral, whatever they choose to do, but they need to have that to do. So. Yeah. So far. We're okay

H

Howard McHale 28:49

here. Here's kind of a word question, Jim. And it sounds kind of strange me asking it. But a lot of times, people that have a chronic illness and towards death, they have health insurance. And they were a lot of times people want to leave part of their estate to certain things. And there's been, I know, nurses and sort of different organizations across the state who will kind of weasel these men and women on their deathbeds into leaving them money. And I mean, I know it's happened. It's sad, but I mean, I mean, I mean, Stevens house is something that that is very important. Do you know what I'm saying? Yes. Do sometimes people look upon this as a venture of someone trying to make a buck. You're trying to get at MIT. I'm not

♂

29:49

sure where you're going with this. Howard. Exactly.

H

Howard McHale 29:51

I know you're referable Thank you. I mean, I mean you don't take guys and most

♂

29:56

monks are no he does this down for free but me so you know, there's something rapid All about this, not I want their money and I want nothing from and it's interesting, we just had a new resident come lately, and he was dealing with a lot of issues over and above, you know, just HIV, but some, you know, dependency issues from our contracts. He came in, and he was very alone and quiet for a few days. And later, he came back to me, he said, I said, you know, You're so quiet is everything, okay? And he said, I can't believe that anybody would do this and not want something I'm waiting to see, where's the catch? I said, Baby, you ain't got nothing I want, you ain't got nothing I want?

H

Howard McHale 30:39

Well, that's what you know, we're proud to have you as a recipient this year from Pride Week. It's very important that the community supports each other. And that money is coming from these activities. That's why it's so it's so important that everyone in this community, get out there and support these, the pride party and

♂

30:58

well, it really, really is. And you know, one thing I need to say real quick is that I have a lot of friends that in other sections of city that in other sections of this city in San Francisco and

Chicago and in around the country, and I went to the National Catholic AIDS conference, and they look at your name badge, they look at you and they go, Oh, you're from Houston. Oh, and they all know that somehow we don't do it. Really, right. Here's something there's reinvention of the wheels all the time, and people, you know, fighting for less money. And I know, being an ad of an agent's like this, it's hard, you really need money to do things. But if people really could work a whole lot better together, you know, in the city and really hold one another's hands and work together? Well, it we really, we really could. And that's why I'm excited about this product.

H

Howard McHale 31:48

Are you kind of just saying that the division is between straight and gay, gay and gay, the community is under diversified.

♂

31:55

Now just think all HIV service providers can really work together well, for the best interests of the planning, and do they work with each other? You know, like, if I've got a space, or if I've got somebody that I know that, you know, and we really try to do that. And a lot of people do try and do that. But, you know, I don't need to go buy a van, when there's transportation all around town, and I can call them and say, Hey, listen, I got a guy that needs to go to Thomas Street today, you know, and that works really well. Or for counseling, you know, there's people that do counseling, they'll come to my home and do it. Why do I, I don't need to apply for monies to get a counselor or case manager, you know, I mean, the venue's there, but let's use it wisely. And there's not going to be a lot of federal money producers in any way of Nuit has his way with us. So, you know, it's some we just need to really work together and support one another.

Case Management System, hospital discharge planners, um, physicians in town, people in the various, like, people that are getting out of bed rehab and places like that shoulders and all the different charity places and all the places around town, but I have a fairly good report with case management system and discharge planners and whatever and self referrals. We have, you know, a tight application system and they they do it and they fill it out. And I come and visit and we see if we can make it work

H Howard McHale 33:51

on a scale gem of a let's go one to 10. If you're HIV positive or you're suffering from AIDS, what kind of what kind of care can you get in the city on a scale of one to 10

34:03

you can get good care, but you really got to know how to access it. mean you there's good, there's very good care. There's some fabulous physicians in this city. There really are. You just got to be able to find them. On the streets came a really long way to me we really have done some some good things. Yeah, done a TV
