08:20

All right. A Call now or we disavow an umbrella.

08:27

08:27

526-573-8526 KPFT. Easy to do. It'd be glad you did it. tangled in my cords. Radio in bond action on XM. KPFT. Next up,

08:40

but instead of coats spring Kim is not looking at excited about this.

08:43

Look at this. Look

08:45

at this. It's a whole bag of comic books.

08:49

Lots of ultra around. Say what happens when you don't call we're forced to to break these

09:04

526-573-8526 KPFT we got a lot of serious stuff to talk about. And we can only do it if we have your pledge of support your financial pledge that keeps us going. The 52 weeks out of yours six times we'll come to you and say please help us out. We're doing that now. Marathon. This is our third marathon of the year right? Yeah, third and final marathon of 1990.

09:34

There's a lot of fun here. This is one of the reasons laughing and carrying on but this is serious. This is

09:40

one of the reasons you need to call and support us. This is from the the Republican Party flat platform of Texas. excerpts from it. It says the Republican Party of Texas hate that all men are created equal and endowed by their creator with certain rights assured it also says The Republican Party of Texas has come of age it is strong and vibrant and has a vision and is committed and is committed to the basic traditions and values of God home and country and believes in the rights of the individual and the family in the basic education, reading, writing and arithmetic or strong law enforcement and right to work laws. The Republican Party supports prayer in school and is opposed to pornography and believes that homosexuality is a perversion of natural law, and is biologically, morally and medically unsound.

10:35

Hold on there. Would

10:36

you repeat that part?

10:37

And what is this again, your rating? It's

10:39

from the Republican Party platform of Texas June 30 1990. The Republican Party supports prayer in school and is opposed to pornography and believes homosexuality is a perversion of natural law, and is biologically morally and medically unsound what an unfortunate the Republican Party of Texas supports and improves support to child support and visitation laws to protect all parents. We also believe that no homosexual male or female should have the right to custody or adoption of a child, and that visitation with minor children by such people should be limited to supervised periods. The Republican Party of Texas opposes the repeal of 2106 of the law relating to sodomy. This is fabulous boys and girls, it's from the Republican Party of Texas. Yeah, okay.

11:32

We're just not talking about Clayton Williams. Empire

11:37

party, the Republican Party of Texas, believes that the practice of sodomy leads to the breakdown of the family and spread of the deadly disease aids. The Republican Party of Texas calls upon federal, state and local governments to enforce all laws with respect to homosexual conduct. We demand that state public health officials regularly regularly inspect health clubs, adult bookstores and restaurants for the presence of communicable diseases. And we oppose the teaching and educational materials on AIDS and public schools, that homosexuality is an equivalent lifestyle. Homosexuality should not be presented as an acceptable alternative in our public schools. No person should receive special legal and top entitlements and or privileges based on sexual preference. So the home of the Republican Party of Texas is living in a if you'll pardon the pun, a fairy tale, where they don't realize that right now in the city of Houston, there are hundreds of 1000s of gay men in bath houses, and bookstores, having sex and violating the axotomy law. And who gives a damn because we're gonna we're gonna just outlaw that girl. It's out loud, and we're still doing it. Can

12:54

you believe you know what this platform sounds like? It reminds not only that not only paragraph 175, but it reminds me of clause 29. Over in England,

13:05

good God, remember that if that doesn't make you on a call, and support something that's going to tell you the truth, then you might as well go home 52657385 to six KPFT. You know, we're all volunteer, we don't get you've heard that scope. We don't have to go into that. It's very important that you call it's very important that you know that when you turn your radio on at midnight on Saturday night, that after hours is going to be there to continue to tell you the truth, to continue to stand up and say we're here. We're queer. And we're going to tell you the truth, the truth that gay people are good people. And we're not going to take this crap again from the Republican Party, or claim Williams or any of these other homophobic people that hate us. And we're going to continue to tell you how much they hate us. And we're going to continue to report the truth every week. But we can't do it without your help. We can't do it if you don't call us and make pledges of support 526-573-8526 KPFT this way out with Greg Gordon and Lucia Chapelle coming up in about 12 or 13 minutes. We want to get some money we need to think some days we got to raise about about \$1,300

14:18

We do have someone to thank buddy and we've only

14:21

got about

14:23

three hours to do it. But do we have to say I want to thank clay Harper who actually came here in person to eat our food and drink our coffee and occupy one of our chairs. Yeah, and he's using a

14:33

purple pen is a dead giveaway. So that means we're up to \$205 through the combined efforts of 123457 people

14:44

. . . . .

seven people so you know if we get like we're ready to

14:49

go. We're all those people that own all these big bars and big stores special clock either. You haven't given me that clock yet. No

14:59

I am astounded myself, buddy. I'm glad to know that you share my shock

15:09

is ready we need to get we need to get all the phones ringing at once and have people calling and we're all about people who have volunteered their time to come down and take your calls busy 5265738 at this flurry five to 6k P F T that's the number to call. So what's going on in the lobby girl? Here?

15:31

We've got a couple of phones ringing Yes.

15:33

Oh, we're taking the pledge. We're taking the pledge.

15:37

Oh, right. You don't think you should support this? Well, listen, this is what you this is what they hear on the other on the other radio stations

15:46

practicing homosexual is far more dangerous to society than a person who commits a murder per se.

15:55

If an employer doesn't want to have homosexual employees, I think he ought to have that right.

-- --

16:01

If you want to sell on Blizzard against a bunch of coolers robbing each other our country can burn. You can't

16:08

be a fake alive, be family oriented. That's a contradiction in terms. You guys are guys who have just never matured sexually retarded totally repulsive through the gay community. Who cares? Right like I'm crying.

16:23

I remember an incident four years ago and I was walking through an amusement park holding hands with my lover and was called queer by a child six years old. And from that day forward, I've been all too aware of who the child molesters in this society are.

16:34

These are gay and lesbian people singing out here what's your reaction to that?

16:36

I have a little boy and I would hate for my little boy to be like that. Those are animals

16:40

I think it's terrible how to rock

16:51

all the queers want equal rights

16:52

Why don't the way God made us do it your mother father led any person who is gay if

17:02

you hear the sounds of the waves brushed up against the sand where he has written both of your names with a harder round you were looking at the sky burning red with a sunset. Quickly a car drives up alongside of you, you stop for red light. Suddenly, the car is surrounded by a

circle your blanket coming in closer bottles thrown out of car windows, the sound of glass breaking baseball bats against middle hand grabs your hair less at your feet in your face in your eyes, a fist across your face again and again. I quit tell them tell them.

17:38

Homophobia can kill. Education is the only lasting weapon against bigotry. Which is why the lesbian and gay public awareness project wanted you to hear and think about this message. For more information write us at Post Office Box 65603 Los Angeles, California 90065.

17:58

And it's very important that you call us right now at 526-573-8526 KPFT. And make you a pledge of support. Jimmy

18:08

YES, some of that that you just played yeah did like that defamation thing that Harvey fired exactly what it was. Okay. And that's that's real stuff kids that's going out on the radio. These are that those were not actors. That's that's real people on the radio and that's how they really feel about us. And the only way we can combat combat is education. Letting them know that we

18:35

are people a married tell us about the premiums and the pledge levels and let's get the phones during and while I get this way out queued up

18:41

okay. premiums.

18:45

Yes, right now I'm trying to hustle Aleta into bringing us some food but she won't do it. So we'll talk about

18:50

later cannot be hustled.

18:54

Okay, channel Jane Kilvert for us though. Come on Aleta. You got to do it. All right.

18:59

Now let's hear about the premiums because I do have some really nice

19:04

food \$20 program guide for a year ah yes six whole issue.

19:10

You can find out what's coming up on after hours

19:13

and all sorts of snide commentary from staff members. Then at the \$40 membership level we have it's time for the t shirt to close Jimmy Jimmy t shirt. Glowing T shirts after hours. T shirts glowing

19:35

that's Alan Watts imitation right? Well, I crossed over on that \$70 level, the t shirt and the special after hours clock.

19:44

Yeah, now Oh, God comes with all of these

19:47

right? No, it's cumulative. 70 bucks. You're just gonna get this really cheap claw and the program God

19:56

it is a clock like you have never seen before.

19:58

Not now. It's Not. And you can have the one that we've immersed in water or you can have the one that we put in the microwave, one of the above and the \$90 level, the t shirt, the cloth, the program guide, and your membership in the 90.1. Club. Yeah, you wonder about that. Is it a building? Is it a lounge? Is it a golf course? No, it's a little more material than that. Instead, what you get are bargains at a number of businesses that support KPFT why we've got everything from auto parts a way to informs me.

20:32

Yes, I certainly wouldn't know about that. And I spent

20:35

a rather unpleasant afternoon and an autoparts store today as well. All right at the \$144 level, the t shirt, the clock but 90.1 club membership. And

20:51

yes, ladies and gentlemen,

20:53

your very last opportunity we are assured to acquire

20:59

this real Nelly umbrella.

21:00

Really? Yeah. I'm trying to get it. Ah, there we go. It's yeah, it's flow and why who and why? People will spot you and it's got this got the

21:11

91.1 logo. The new one that you know, kind of the square on its end. Look when

21:17

you think it's your girl. I feel better already. Just in time for snow folks with five to 65738  
Actually, we over ordered them last time five to six

21:30

KPFT pledge \$144 so that we're not giving these umbrellas away in January five to 6573.

21:38

We haven't heard from Deer Park or spring or have we heard from Pasadena or Pasadena or league city. Okay, people, we have a

21:48

listener

21:50

Deer Park or woodland. Yeah, or liberty or Conroe or Missouri's city

21:55

lovely Ms. Gray they listen to every week. They are good listeners.

22:00

They don't all live in the slum like us. Well,

22:03

we realized that a lot of our listeners are

22:06

living with their parents can be like that clay

22:09

as they may not be able to. Can't use that purple pen opacity. But there are lots of other people who can donate for those kids. You remember what it was like when you were a kid living at home

22:23

52657385 to six KPFT if you listen and you enjoy, and you can call for those who listen and enjoy and can't you bet because we have a lot of folks who are young, or who for whatever reason can't pick up the phone and call us. And they listen and enjoy and we say calling and when and we give away tons of records and tons of cassettes, but they can't even take part in that. So it's really important that you support these folks that are young or for whatever reason can't call him and that they know that you care. So if you can call make a pledge for someone that can't make a pledge. 526-573-8526 KPFT. And after this way out, we're gonna have some special after hours marathon premium. So get ready for that. Yes. Can you wait,

23:12

wait before I get umbrella to get your credit

23:14

card out because it will have to be on a credit card. Five to 65738526 KPFT. We've got about four minutes, until this way out was Greg Gordon and Lucia Chapelle comes on your back. We hear this way out every week at 130 on after hours. This way out is produced every week in Los Angeles by Greg Gordon and Lucia Chapelle. And it goes coast to coast. Yours truly has been featured on there a couple of times, viewing palmo net. The stuff that we did for Pride Week was broadcast on this way out, which is heard on 300 Plus radio stations around the world on God knows where it's going to show up. So it's really important that you continue to call and make that pledge of support buddy. Is

23:57

there any other time when anyone can hear this way out?

24:02

You can hear portions of it on Wildenstein Monday nights at nine o'clock.

24:07

I think I did a new section.

24:09

Yes. And it's very important that you call it on Monday night and support Wildenstein in their new time slot at nine o'clock. And of course breakthrough on Fridays. We don't even have to mention that because you're gonna call in support break. Oh, yeah. 526-573-8526 KPFT. We

have to raise a lot of money between now and four o'clock. And I'd like to raise as much as possible so we can get on to some other things. Yeah. Vicki knew from TG era is coming to Tommy yes about the rodeo. In fact, I heard that she's on her way. Yeah.

24:42

We're just waiting for that doorbell to ring so

24:44

Vicki, if you're listening you said you haven't heard your spot. This is the this is the kind of stuff we do that you hear on after our

25:03

Hi, this is Vicki new president of the Texas gay Rodeo Association Houston chapter here to tell you the Texas rodeo is coming. So stay tuned after hours and KPFT.

25:15

Rodeo coming, Mary.

25:17

It's November 9 10th and 11th.

25:19

Yeah, Vicki, I hope you heard that on your way. Oh, Mr. Khalistan. And we of course play that every week and encourage you to go to the rodeo and support the T Gra. Alright folks.

25:31

I can't keep bleach here.

25:33

I cannot wait. I have already taken vacation that three days. Oh, really? Yes. Yes, ma'am. Are you kidding me girl? Wouldn't miss that rodeo. For all the tea in time. Let's go

25:43

there and terrorize some cow persons.

25:46

How boys? Man? Account man, man 526-573-8526 KPFT. Do we have anyone to think before we start this way out? And we

25:54

most certainly do. Yeah. A very generous new subscription from Scott Simpson in Houston. Hey, Scott. What's a round of applause. Scott so pay when you get this thing in the mail. All right. Yeah.

26:13

We have

26:15

to count up our money. Wait, wait a minute, Canada. Here we go. Here we go. We have an intro here.

26:36

Girl, okay, we're down. Yeah. 305. Yeah. All right. Finally, let her do it. So we need \$25. No, forget it. That's 100

26:49

How much do we need? Oh, a little over 1000. Yeah, we got it.

26:53

Look at this, if McClay can make his goal between 11 and 12, this show can make it school. Oh, I know. Actually, if that show can make school any show can make at school, but not all do. So

27:06

it's very important that you call right now. 526-573-8526 KPFT. We're gonna get into this way out. And of course, we'll break in here in a little bit and tell you more about marathon. But until then, please go to the phone and call us 526-573-8526 KPFT.

then, please go to the phone and call us 5265/5652 6k PF T

27:30

My name is Lucia Chappelle. And I'm Greg Gordon. And we produce this way out the international lesbian and gay radio magazine.

27:37

It's very important to support this kind of radio station because this kind of where your station is the only kind of radio station that's going to provide programming for a significant audience. Like gay men and lesbians commercial stations

27:49

will be afraid to lose their listeners if they didn't apologize for the gay lesbian lifestyle and that just report on it.

27:56

Unlike commercial stations, community radio does not depend upon advertising to support itself to pay the bills to keep the transmitter going to pay the light bills. It's you the listener at home. And that's why periodically community radio stations all over the country go on the air and ask you to support the station by pledging to support the station with your dollars.

28:15

Community Radio in short is just a real valuable resource for you and for me, so take advantage of it and support it

28:24

526573852 6k PF T that's the number to call.

28:34

a summary of some of the news in or affecting the lesbian and gay community for the weekend in August 26 1990. In its first ever full debate on a lesbian and gay issue, the Catalonia parliament in Barcelona, Spain has anonymously demanded that the Spanish government in Madrid destroy anti gay and lesbian police files. The documents concerned 1000s of gays and lesbians detained under the law of social dangerousness. The files have been archived in Madrid since the death of Generalissimo Francisco Franco Baja Monday in 1975, the oppressive dictator rule for over three decades,

half of all the Catholic priests in the United States have broken their vows of celibacy, and 80% have committed sexually mortal sins in the eyes of the church. According to a new study reported in the Boston Sunday globe. The 25 year study involving over 1000 priests was conducted by Richard SIPE a psychologist and former priest and was presented at the annual meeting of the American Psychological Association, which met in Boston earlier this month. The study revealed that 20% of those interviewed had engaged in homosexual relationships, and although it is considered a mortal sin in the Catholic Church 80% had reported masturbating. SIPE told the psychological gathering that his study points out that the 800 year old celibacy requirement has repressed the Catholic Church's view of human sexual nature, leaving it quote, quite literally underdeveloped and immature.

The adopter roadway program underway in several areas of the United States encourages churches, civic groups and other organizations to volunteer to keep a stretch of highway clean, and to plant trees and other greenery to add beauty to their designated area. Each group is typically recognized with a sign posted on the roadway honoring their community involvement. However, in St. Louis County Missouri, the local chapter of Parents and Friends of Lesbians and Gays has been denied a request to participate in the program. According to Arthur worth of the St. Louis chapter of the parent support group, the county board denied the request because they were uncomfortable with a prospect of a sign honoring the group by name along the roadway. The board may respond to the parents protest by eliminating signs on all adopted roadway projects, or by changing all of the signs with a more generic message which will simply thank a group of concerned citizens.

A federal judge in New York City has ruled that a law aimed at restricting adult information telephone services, so called phone sex or chat lines is unconstitutionally vague. The New York Civil Liberties Union and Lambda Legal Defense and Education Fund joined the information providers in bringing the lawsuit. Responding to the victory. Lambda Staff Attorney Evan Wolfson said the judge's ruling says loud and clear that under the First Amendment, we not the government, not the phone company get to decide whom he talked to and about what

Seattle's volunteer park located in a predominantly gay and lesbian neighborhood became a battleground in August 2. As angry gay and lesbian activists confronted fundamentalist Christians. Tony Scott reports a local evangelical

group go 90 organize the picnic and prayer meeting in the park. Organizers insists they had not planned the event as an anti gay attack, claiming they were a bit naive, quote unquote about the Capitol Hill neighborhood where the park is located. Organizers said they picked the park solely because it had a large field and a stage ideal for speakers and live music. About 100 evangelicals gathered for the pair picnic. However, the picnickers were outnumbered three to one by protesters from ACT UP, who feared the event was an invasion of the gay community's Park. The protesters carried signs with slogans such as fundamentally lesbian, and all people with AIDS are innocent. At one point, demonstrators took over the park stage shouting down speakers from NGO 90 and cutting a microphone cord. ACT UP argued that fundamentalist opposition to homosexuality creates obstacles in the fight against AIDS. They also reacted to a go 90 letter that promoted quote, spiritual warfare at the city's gates of sin. To go 90 spokesman said that while he doesn't approve of homosexuality himself, the group's literature does not mention it and that their spiritual warfare targets evil spirits, not people. Reaction to the turf conflict has divided the gay community and caused some questioning of both act UPS organizing and the demonstrators behavior at the event.

right here on Pacifica radio 90.1 FM KPFT Houston, AIDS researchers in Kenya report great success with their new alpha interferon derivative camera on is racism The reason this new drug has received little attention from the medical community. Julia Clark attended a recent conference in New York City and filed this report.

46:31

Several 100 people crowded into the Apollo Theater in Harlem. To hear more about the new AIDS drug Kim Ron discovered in Kenya talk show personality Gary Byrd played host to members of an American group that went to Kenya to learn firsthand about the drugs, which some are calling an important breakthrough in the treatment of AIDS. I know

46:50

that for some people here who have an eye for HIV meeting in the states who have difficulty with science coming from African people, much less Africa itself. Journalist was here and he was asking questions, you know, lymphocytes, you know, T four counts the whole thing.

47:04

They got all that stuff covered. Kim Ron was developed by Kenyan immunologist Dr. Devi COVID, who presented his findings at a research meeting in Japan last March. The details of his study have been published in the April 2 issue of biotechnology Newswatch. According to a report on that research in the New York native Kemajuan is based on interferon a substance produced naturally in the body in response to viral infection, bird and others at the Apollo this week, charged racism is behind the public's lack of information about the drug. Legally Kemajuan can be administered only in Kenya. It has not yet been found FDA approved, and the drug is being closely guarded by the administration there which insists that those who want it must come to Kenya for treatment. Dan Epstein Information Officer for the Washington DC Rural Health Organization says the World Health Organization in Geneva has conducted their own test of Camerata in five countries, and the results are inconclusive.

48:04

The preliminary analysis of the data submitted to who by the participating centers indicates that although minor clinical improvement was observed in 50 to 60% of the treated patients, it was impossible to affirm that it was due to the effect of the drug under study. Because many

patients received at the same time supportive care for HIV related conditions, and that all of them knew that they were receiving a drug that had been reported to be effective against AIDS.

48:31

In the meantime, US offices of the W H O continued to do research on the drug at Mount Sinai Hospital in New York. They are also working with the Kenya Medical Research Institute to better understand long term effects of the treatment. And the American Foundation for AIDS research is helping to arrange for further research of the drug as well. I'm Julia Clark

Sylvia Porter has been dispensing sensible financial advice in her widely syndicated column since most of us can remember her comments are generally based on fact and common sense. She stumbled badly however, in her recent book, Sylvia Porter is a home of your own. In two separate entries she implies that it's a former owner of a house died of AIDS it makes the house less valuable even go so far as to say that the house should be disinfected. So the reporter should be told that in the 10th year of the epidemic, there is no scientific evidence of a person contracting AIDS from a house or any other inanimate object. You is irresponsible of her and her publisher to add to the ignorance that already surrounds this deadly disease. She should read, you can do something about age, a book without as a result of the active efforts and contributions of people in the publishing and bookselling community. you're listening to this way out the international lesbian and gay radio magazine with Greg Gordon. I'm Lucia Chapelle. Pressure on the Montreal Police Department has continued as over 2000 people protested abusive treatment of gays and lesbians. Laurie euros was there and filed this report.

51:35

Sunday July 29 2000. Lesbians gays and supporters braved 90 degree heat to attend a march and rally organized as a show of lesbian and gay pride and strength in the face of police brutality, which took place two weeks before when police raided a private party for gays and lesbians that was taking place in a loft located in a downtown non residential area. Some say police came because beer was allegedly being sold illegally, while others speculate that police saw people entering and leaving the building and became suspicious. But to date, the reason for the raid remains unclear. Lisa harden of lesbians and gays against violence explains what happens next.

52:18

When people started to leave the party approximately 4am They were confronted with 30 Police. There was just a lot of provocation and harassment of the people leaving the party and it escalated with the police attacking people with their batons, throwing people on the ground chasing them down the sidewalk with their police cars. And there were actually two people who were chased at gunpoint.

52:43

The night after the party gays and lesbians staged a sit in in a downtown area known as the Gay Village. This demonstration ended peacefully. The following afternoon, a picket was held in front of police station 25 Well, three representatives from the lesbian and gay community met with police officials. No progress was made at this time, and demonstrators then blocked the street by holding a sit in and kiss in this time police in riot gear attack the demonstrators brutally beating them even though they did not resist. On both occasions. Police officers attacking party goers or demonstrators removed their identification badges and did not immediately inform those they detained whether they were under arrest to clear violations of department policy. These two violent confrontations resulted in a total of 58 arrests and 125 injured 22 of whom required subsequent medical treatment. Why are you here today?

53:41

Well obviously for support for what happened which is horrible and ridiculous. And something has to be done. In the

53:49

past people just been letting ourselves be pushed down and not do anything about it coming out and showing the world that we're here and we belong and I guess people are just getting

out and showing the world that we're here and we belong and I guess people are just getting sick and tired of apologizing for being gay and and not being able to talk about it and be open about it and and things are gonna change.

54:08

Lesbians and Gays against violence have demanded that all charges laid be dropped that a public independent inquiry be held into the reason for the violent confrontations that took place that a lesbian and a gay man each hold a seat on the Montreal urban community committee on interracial and intercultural relations. That Mayor John Doerr, a police chief Michelle Amela and Minister of Public Security Sam Elcas all publicly apologized to the gay and lesbian community and that gays and lesbians be included on the agenda of an upcoming conference on the police and dialogue within the community. John Dalzell Director of Community Relations for the Montreal Urban Community Police has stated that charges were laid and The proper manner, and they will not be dropped. Word of this crisis spread rapidly. And as Montreal gays and lesbians demonstrated on July 29, so did gays and lesbians in Ottawa, Toronto, Vancouver, as well as New York and Washington DC. Although this crisis served to bring the Montreal gay, male and lesbian communities together, the first time in years that this has happened in such large numbers, this collaboration was not without its problems. Dominic book of lesbians and gays against violence explains

55:33

between the gays and the lesbians, there's a big difference that the gays would not acknowledge, they were not realizing that we have, we do not have the same privileges them. And that was hard for women even harder than men in this world, especially this white man, male world. And some didn't just didn't understand and would walk out or just be saying bad things, you know, like saying you're just demanding too much attention. So I know, it's very hard. And I myself, I don't really enjoy so much being with them. But I think it's very, very important. And what's very nice is that we are developing among the women that are working a higher level of solidarity, you know, and friendship. And that's very, very empowering, empowering. The thing to say now is that we were half and a half the whole time, half women, half men. So there was no power trip possible because we had to respect each other, and listen to each other, and make each other understand what was our point of view and everything. So it was very hard. It took a long time, a lot of patience. But we did achieve something like the big rally that happened.

56:44

meetings are ongoing to formalize the structure of lesbians and gays against violence, which plans to work not only for the gay and lesbian community, but also in solidarity with the native black and other oppressed communities. In addition, another rally is being planned for mid September when those arrested are scheduled to appear in court.
