SUMMARY KEYWORDS

condoms, people, workshop, hiv, gay men, randall, houston, hepatitis, call, peter, gay, big, talking, sex, dating, months, aids, relationship, hatch, volunteer

00:01

The following program contains language or images of a frank or sensitive nature that may be considered objectionable by some listener discretion is advised.

00:35

Oh yes, you've tuned into after hours queer radio with attitude right here on KPFT Houston 90.1 FM. The crew of after hours is ready to bring you news interviews, dialogue and music geared for gay, lesbian, bisexual and transgender people and their friends. Hear it after hours. We may be diverse, but we have one thing in common. We are all out of the closet and urge everyone to come out of their closets. That means standing up for yourself taking responsibility for your own life and being proud of who you are. Realistically, we know not everyone can do that because of age job or frame of mind. That's okay, we're here for you too. So sit back, relax, and enjoy this week's edition of after hours.

01:59

Hello, Houston and welcome to after hours queer radio with attitude. Heard every Saturday night at midnight right here on KPFT Houston, and ke O 's College Station. I'm Jimmy Carper. And with me tonight is that that ah?

02:17

Hello, Houston. It's Connie Lingus and Peter and Connie show but

02:21

it's the Peter and Connie Lingus show without any Peter Peter

02:26

is the way I like it.

02:30

Yes, he's out on some cruise probably.

02:35

I think he's cruising Detroit.

02:39

Cruise in the buffet line

02:41

up there with Howard remember Howard? Yeah, only met him a couple times. Howard McHale used to do a show here. moved up to Detroit Chicago somewhere? I don't know.

02:54

Well, we wish Peter Well, wherever he is. I'm sure we'll be talking about him a little bit tonight.

02:59

Let all these ads. Are you kidding.

03:03

This is my one chance while he's not here. That's right. rip him up.

03:07

It's also mini marathon. Whoo hoo. We've had some extra expenses with the

03:16

well that every expensive research department Oh, no kid

03:19

out there. But really here at the station. We've got the tower up the new tower, there was extra expenses as it always, you know. And so we have to do a little mini marathon here to kind of do some catch up. Well, that should be no problem. Big ROI is out there. Big. Yes, he is. He is sitting by the phones patiently waiting for your call and anxiously waiting 657385 to six KPFT. So, you know this is gonna be a weird show. For me. I don't know how to operate without any Peter.

04:01

Hopefully I'll be able to be a little bit with that

04:04

perspective you could possibly do.

04:08

It'll be fun. It'll be an experiment. Yes, it

04:10

will. And you've got some guests. Yes, we

04:13

actually in the absence of Peter we we have two guests who have some pretty big shoes to fill. So we got two cuties waiting to come on from AIDS Foundation, Houston, a project Caesar. They were on a couple of months ago and they're going to update us on what's new and exciting. Okay, so that should be fun. Yes. Lots of news tips. Some jokes. As always the top 10 list. Oh, promises to be fun, exciting tonight. What else? Oh, I want to send out a couple shout outs in the beginning. You may do that. Of course. A shout out to our friends over at hat.

04:47

Oh yeah. What wasn't that fun? Fun? Yeah, it's really fun. After hours made a presentation to hatch. At the hatch meeting. They are having well because they are going to be on the Yeah, right at least once a month. Yeah. I was really amazed with the number of people who had signed up to volunteer. Yeah, there really seems psyched. Yeah, there's like 20 or 30 people that are interested in and working on the show so that we may be able to get hatch on more than once a month. Yeah, that would be fun.

05:18

Good deal. They all said they'd be listening tonight. So I wanted to be sure to say hi to them. I want to say hi to Nathan. And I'm sorry, I embarrassed you. Is there a story behind ru right there? Remember when? Oh, you called him right? I did. I did. But it was something he said over the radio. Right? True. So you open yourself up, so to speak, as I've often

05:46

and hi to Leslie. I really enjoyed seeing Wesley, Mr. At the beginning, and I was really happy to see you're at the end. Let's see. Shawn has already moved, I believe so we're already missing him. Right. It was great to see Steve again. Yeah, crazy. hadn't seen him in several years. Till he was in the studio here one time a while back and everybody's tongues were hanging out.

06:14

He has grown into quite a handsome child God. And he knows it. Oh, I know. They're a great group.

06:25

And so many new people that I've met. Yeah, there

06:28

every time I'm over there. There's a host of new guys and girls over the

06:32

course. The head bitch. Scott. is quite a carry. Yes, yes. Yes. Yes. We may find a space for Scott even after he turns 22.

06:44

Yeah. Yeah, you're over the hill after 22. Well,

06:47

you know, maybe we need a lay Assad between after hours and hatch. There you go. So we will work something out there. Okay. That was great.

06:57

06:57

Who else did I promise I'd say hi to shout out to Eric and Krishna hanging out at the crib listening to after hours. Charles and Kataria just to shout to you guys. What else maybe is a joke in order. Maybe I'll tell a little story here while Jimmy is getting some music together.

07:18

I have if I can remember it. I have a wonderful, awful lesbian joke.

07:22

Oh, wow. Well, maybe we'll have to pre pre screen that one. All right, three nines are killed at an early age. What? Yes, this is this is

07:32

the joke. Oh. Heading right into the news.

07:37

I see. three nines are killed at an early age. Upon arrival at the pearly gates. They're rewarded with the chance to be reincarnated as anyone they desire. The first nine steps up to St. Pete and says, Oh, I've always admired Gina Lollobrigida. He says fine, no problem your wishes granted and she goes, the second one replies that she wants to be Marilyn Monroe lived. The rest of her life is Marilyn Monroe. As a reward for her good deeds as a nun. St. Peter grants her wit. Finally the third nun is kind of shy she speaks up and says that she'd like to be reincarnated as Sarah pipeline. Sara pipeline here in St. Peter's kind of says the same thing and I'm not familiar with that film star. You know, who is she? Well, the third nun is a little bit embarrassed and she's fumbling around in her pockets and fools pulls out a worn and tattered newspaper clipping and hands it to St. Peter. And he reads the the two column headline which reads Sahara pipeline

08:36

laid by 200 men in 30 days that was one that was I promised it to tell it so there we're starting getting off to a rocky start catering Connie. Yes,

08:55

we are. In the second half of the show. We've got John Bennett 80s will be here covering the leather seats. And big Roy wants to do a little talking about the cannon thing. Oh, who's

09:10

09:12

gonna cover the phones?

09:16

Well, maybe we'll just have to make you do.

09:21

My work is never done. That's

09:22

right. That's right.

09:24

I'll do that for big ROI.

09:25

You know, in the meantime, yeah. Well, people are calling in with their pledges of support for KPFT and after hours. Yes, ad 5265738 I've got some brand new music. What Yes, I do. Yes, I do. From my good friend, Matt wovens open Smith, who runs out punk records out of California cool. That's openly gay punk musicians.

09:54

Is there like a big enough market that yeah, you have a hole Oh, yeah. Wow. Yes.

09:57

And not so much in Houston by A lot of college town and a lot of northern town. Queer punk is is really gay people

10:07

are more punk people more punk.

10:11

That's, that's it. But I write to him and buy things from his outfit. And so he sent me free of charge. The brand new pansy division album. Wow. It won't be out until August the 12th.

10:29

Well, that says we're always cutting edge here and after.

10:33

So you get a treat tonight. In fact, if you want to set up your tape recorders, I'll give you a minute because this is stuff that is not available anywhere else brand new stuff from pansy division that we're going to be playing in just a minute or so. Yeah, key those tapes, right? That's right. But in the meantime, those of you who don't have tape recorders can still call into Roy to pay for, you know, the things electricity and blah, blah, blah, and all of that. And,

11:03

and, you know, this is such a great deal. You get so much music so much radio and at little cost. So

11:12

that's right, actually, no call no cost. But the whole idea of KPFT is community sponsored radio, right? It because you don't have commercials, we have to ask the listeners for our support. Right. And you know what's happening in the government these days? We're not getting money from the government anymore. I used to get oh, 80 \$100,000 a year, really? And that's like cut out. Wow. So we have to make it up. Well, we have to make it up.

11:41

I know. Our listeners will come through for us

11:44

you bet at that's at 526-573-8526 KPFT. Why don't we get to the Panzer Division stuff.

11:52

Let's do it. Yeah, I'm

11:53

gonna play a couple in a row here. So get ready. Brand new pansy division. You've never heard it before. Ready?

12:12

New Music by pansy division.

12:15

I think that song was about me. I might have been a girl. Are you are you sometimes

12:20

I see. That was head banger hockey hair and pretty boy started that out. New Music from pansy division. We may be playing more of that later on. Again, that album will be available. It'll be in the stores on August the 12th. So you're hearing it first right here on after hours. KPFT Houston and ke O 's College Station. And big Roy is sitting at the phones waiting for your call financial support at 526573852 6k PF T. Now in the studio, we have Guess Who are these guys? Are you guys? How come they look familiar? Well,

13:11

should I introduce here you're going to introduce yourselves

13:13

you can introduce us

13:16

Alright, that was Randall Ellis project Caesar and Philip Nolan's with this

13:21

Hi. Hey.

13:24

They were here a couple months ago talking to us about some stuff they had going on and they're here to update us and to That's right fill in for Peter who's off cruising because we're so personable well that's to be decided

13:38

okay let's start from the beginning what is project Cesar

13:43

Rendell you're so good at this this evening. You explain it is the Gay Men's Health Initiative at AIDS Foundation Houston. And

13:51

well that sounds real official. Really do

13:57

we slap condoms

14:01

Well, now we got

14:03

That's right. Now the project Caesar actually stands for community advocates for education safer sex and risk reduction. Safer Sex.

14:13

That really means something Oh, yeah. Does you got to walk run around and we'll telcos or something

14:20

that's next month.

14:22

None habit Philip has been working out waiting for the pool. And, yeah, it's the Gay Men's Health Initiative making guys have not only the condoms, but as the things up in the head that keep themselves healthy, keep their heads healthy, and their bodies healthy as well.

14:38

So what do you what do you guys do to make sure that's happening?

14:43

We I guess we tried to take the focus off of just primarily HIV is a good thing. I mean, obviously, we want to have some of the focus on HIV and AIDS. But we also want to talk about just basic things, trying to keep gay men healthy in all aspects of their lives, from their relationships to their friendships, to They're coming out process to, you know, the role that kind of drugs and alcohol play, et cetera. We're touching on everything we're all about literally touching. Of course not. We're present part of the

15:13

part of the program at times. Like in our penises and mirrors, no, no,

15:19

no me and only in the forums where we ask you to do that. And that's completely the form

15:23

workshop. You know how the whole for Caesar Roman

15:27

Forum?

15:30

What is the thing with gay men and themes?

15:32

We like a theme. A gay man likes a theme party with a theme.

15:36

Oh, yeah, foam party, this party

Oh, yeah. Room party, this party.

15:41

So there's different workshops or what's happening?

15:45

Yeah, right now. Actually, in August, we're kicking off a workshop called think negative is the first one we're kicking off. And that's just a five week workshop series that deals with the issues of being HIV negative in the gay community. We're also kicking one off Randall

16:03

product Hermana, which is a five week series. Workshop geared towards Latino bisexual, gay men. And that deals with the issues they deal with, especially as Latino men coming out issues machismo and the roles that that plays in keeping themselves healthy.

16:23

We also have a workshop called essentials which is your beyond basic, safer sex education for gay men. That's, you know, see if there's still those and the butt plugs and negotiation skills negotiation skills thrown in there machine

16:35

price for big bar. Yeah.

16:38

that plagues menus, those two?

16:42

Well, I've heard way.

16:45

Real life is the other one called Real

16:46

16:40

Life, which deals with intimacy and relationship issues for gay men, which is a workshop that I don't think people have ever been through. Those are issues that really need to be touched upon for gay men. We find that there are a lot of 25 year old gay men who are just right now coming out of the closet and facing rejection for the first time, which is something that you know, a 13 year old heterosexual teenager is going through. And a lot of times gay men miss out on that whole dating thing until they're actually adults. So we're discussing relationships and intimacy and Finding Mr. Ryder getting along without him.

17:20

That's something we brought up last night at Hack. Yeah. I think of hatches the elite group. And these are kids who can practice dating techniques at a much younger age than we ever were able to. I'd say, I'm not including you in that. I mean, gay men 25 And over who don't know much about dating, yeah, speak for yourself. know a lot about picking up each other and having sex but we don't know anything about dating.

17:53

It's completely true. Especially if you went through high school and you stayed in the closet in high school, you didn't get to go through that whole dating in real dating for real not just asking that, you know, cute chick to the prom, because you liked her shoes sitting next to you and algebra or something. But, you know, real dating, negotiating where you're gonna go and then you know, getting over the first obstacles when it comes to sex. And, you know, people really aren't dealing with that until they, you know, are 25 26 30 years old. Yeah. And they have to start from scratch, which is really interesting and poses a lot of problems for gay men. So you know, hatchet and I went through hatch when I was a young teenager and I still have problems. A lot of the times with dating because I didn't have that experience.

18:33

You say as an old man when I was

18:37

well, I was 12 13 as a young teenager so as opposed to 17 18 Being an older teenager I guess I'm legal when he talking about

18:50

so if people are interested in yas workshops how do they get a hold the view where do they sign up? What's the protocol there?

18:57

18:57

Will one we're always out you'll see us at all the bars bathhouses etc are doing outreach where you get your condoms Houston

19:06

How will how will we know your you? Oh, you know we're

19:09

shopping condoms. The guys with the condoms in their hand Ah,

19:13

they're doing condoms are doing karaoke.

19:19

You should be

19:21

will be the one singing share songs. Or, you can so you can talk to us out when we're out in the streets or you can call the AFH hotline which is five to four aids which is easy to remember. And get in touch with us and sign up. We have a workshop actually coming up Tuesday night at 7pm and that will be the is it Real Life Essentials. Randall

19:46

it's essentials but little real life.

19:49

It's essentially with a little real life tossed in there. So if you want to come those are good gateway programs if you want to come see what we're about and kind of sniff us out then. Come to the work. Yeah, come it's a two hour Get around sniffing each other's beds. That's optional at the end of the workshop. We won't discuss that now.

20:07

We're where are these workshops?

20:09

At actually at AFH AIDS Foundation Houston, which is at 3202 West lamb, which is across from the big Southwestern Bell Building between West Alabama and Richmond

20:19

now it's is it the big building of the building behind it or why it's right across

20:23

Westland right across the street from the Big South,

20:26

building? Little trailer behind Yeah. The trailer on stilts go up the ramp and into the trailer. It's really

20:35

nice. I don't know what you're talking about.

20:37

What about volunteers? Are you guys in need of them?

20:40

The Legion is our volunteer team. And we're always looking for volunteers Legion, once again, fitting into the whole projects. Yeah. And we're looking for volunteers to go out with us in the bath houses in the clubs.

20:57

And bookstores, every place gay boy wants to be an urbane gay boy wants to be that's right and congregate. That's where you're gonna go, we'll be

21:04

there. And if they're interested in that, once again, they can contact contact us at AFH

21:09

you get a fabulous little shirt, you get all the condoms you want. You'll never have to buy another condom ever again. You get to meet lots of people. If you're a single man, that's kind of good for that. You know, all sorts of fun

21:20

she meets somebody when you're doing outreach Philip. Sure.

21:23

Thanks, Randall. Thanks for bringing that up.

21:26

Hi, good to send a shout out.

21:28

Just say hello, hi, tad. Whoa, what's that phone

21:32

number so volunteer and get an

21:36

A the day?

21:38

You can't be that. Let's face

21:39

it, the full volunteer for a lot of things to meet other people, you

21:44

21:44

know, and that's the reason I even started volunteering one of them at AIDS Foundation, Houston. And, you know, we don't want to discount that at all we want to, you know, especially for the workshops and the programs if you have similar issues with the guys that are coming. What about what better place to meet guys, right? Yeah, come join the Legion. Get a day go workshop. Yeah. Right.

22:02

So what's that number again, five

22:04

to four aids, that once again, five to four AI DS. You

22:08

said earlier that you're you're kind of downplaying the HIV thing, because there are so many other things out there. What do you mean,

22:15

and I wouldn't say downplaying.

22:18

It is very important. I mean, we got to keep those things. Right.

22:21

And that, I guess we're trying to be sneaky about it. When we when Randall and I first took these positions, and we went out there, Houston and the gay community was so burned out on workshops on HIV on AIDS. And I, along with Randall personally think that it's not an issue of putting condoms on or when to use condoms, although those are issues that come up quite often. It's other issues as to why people are still getting infected or are just burnt out on the whole aids idea. Yeah, they don't want to worry about HIV.

22:53

Dangerous. I've been reading about bareback parties and stuff exactly.

23:00

22:56

And this is stuff that we're fighting against is this resurgence, and people think, especially with the new protease inhibitors coming out,

23:05

and let me tell you, it's no picnic, I take them, it the side effects are awful. You do not want to have to take them also. I mean, if I didn't have to take these, I could be going to Europe every year. Let me tell you, the cost is unbelievable.

23:20

So if you don't have insurance, just forget it. Yeah. You can't pay for your protease inhibitors and work at Starbucks. No, no, it's not going to work. So we're fighting against all that kind of stuff. And so it's not we're not downplaying the whole HIV thing, but there are a lot of other issues that kind of

23:36

STD. Right? Exactly. Ever since aids came around. That's like, not gonna what place but it's like way down there on.

23:45

Exactly. And those levels of infection for STDs are just skyrocketing right now, because people aren't thinking of them. And when they dropped the condoms for HIV, they dropped the condoms for other STDs. Not to mention there are plenty of STDs that you can get that even when you wear a condom, you still can get you know herpes or crack or something like that. And people don't ever think about that.

24:05

Or if you want to feel really cheap and dirty. Just come up with some crabs.

24:09

Yeah, say something you want to share.

24:15

Anybody my age has that story. No. You really feel awful. And I liked no one to have to have to go through that. And the herpes thing. That's another thing that's for life. Yeah, and

24:30

herpes and let's talk about hepatitis. Hepatitis B, which I call HIV is little brother. People don't even have hep a what

24:40

so don't put your tongue there.

24:42

Or if you do put your tongue there, just put something over it use some clean wrapper, one of the dental dams that we pass out.

24:49

It was telling me about those awful hepatitis billboards with their people or your eyes

24:54

and I was just thinking they have a new you know, hepatitis get tested and they Show the people on the billboards with the yellow eyes, which is just John, this is something that you get. Wow, I think that people would be offended if they put, you know, get tested for HIV AIDS. billboards up with people with ks right? Yeah all over them. People would be outraged what

25:17

hepatitis is like 100 times easier to get than a exactly because the virus can be just time smaller.

25:24

It can be just as deadly. Yes. Okay. Hepatitis can kill you. It's okay. Not to mention boys that if you get hepatitis, and it's chronic, you can't drink ever again. That's right. No alcohol. You can't give blood smoking, no Tylenol, no Advil, no, no nothing.

25:42

And while you have it, when you have a case of it, you cannot walk across the room without getting tired. This is a this is a disease that attacks the liver and you only got one liver.

25:54

And you can't have another one. No. Well,

25:59

am I nagging or what?

26:00

No, it's very important.

26:02

And I think a message that people can't hear often enough. I agree

26:06

with you.

26:08

So just be careful out there. Boy, that's all we're asking. You know, if you need some help come to a workshop, you need some condoms. Come talk to us. Whatever you need, that's what we're here for is to make sure you guys are healthy. You say

26:19

you keep saying workshop workshop, you know, I've been to workshops. And for the most part, they're boring. So what do you do to make them and they

26:27

can one one, just the fact that Randall and I teach them make it not boring? Well, I can understand. And I think that, you know, I had been to a lot of workshops too, before I took this position. And I think as a young gay man, you know, I'm only 21 years old, I don't want to sit through a workshop, especially a five week series and just be bored out of my mind, right. So I think in developing these workshops, we've really tried to touch on stuff, there's no lag periods, we touch on stuff that really is interesting, and we're not sex negative at all, we want people to go out and have as much sex as they want. Have a good time anyway, right? You know, and Randall and I are both young guys. And we like to have fun, there's nothing wrong with sex, there's nothing wrong with being gay. You know, if whatever you want to do, go ahead, just

make sure that you're informed about the risks, and that you protect yourself against them. And that's all we ask, you know, no biggie, have as much sex as you want. It's not boring. They're really fun, especially when we break out the toys and you know, in the in the actual sex workshops, but the stuff we're talking about is really relevant to any young and older, gay man's life. Well, I

27:30

kind of get that, that that feeling since you do these, you do stuff at the tubs, for example. And that's an outlet for gay men to have sex. Exactly. And since it's a controlled environment, I think it's a very good place because you can get the message across and condoms are readily available.

27:49

Because you don't go to a bathhouse to just sit and watch TV. And we all know that we do. Outreach. And that's another thing that there's just been a huge resurgence in is people going to bath houses and bookstores and anonymous sex, and something that's not being talked about, because people feel shameful that they're being done, right. And it's being done. And so we want to put ourselves in that kind of place in that kind of position. We're not judgmental, you know, like I said, do whatever you want, we, you know, all of us do, we all have our own thing. Just make sure that as an adult making an adult decision to have sex, that you make adult choices about what risk you're taking, and learn to protect yourselves. Not only yourself, but the people that you love, if you have a partner at home, a boyfriend or are you doing something on the slide and think about how the other person would feel if both of you came down with something, maybe not HIV, but maybe a case of crabs try explaining that, you know, or hepatitis. That kind of ruins it. Yeah, you know, where do you get the crabs from? Oh. Think not? Well, I saw that.

29:03

But you know, if, if anonymous sex is not your thing, we of course, endorse dating right to know somebody first. And

29:12

one of the things, one of the things that we really tried to push is that we're seeing most talking about HIV, the majority of the infections are not coming with people go in and cruise in, in Memorial Park or whatever. They're coming from people who are parent off with their boyfriends, they go out with their boyfriend for three months, they think they're going to be with them forever. They decide that Well, I love you, I'm going to be with you for the rest of my life. Let's drop the condoms. So they stop using condoms and they get infected that idea. It's not the people who are at the bathhouses, although, you know people still get infected and pass on infection at the bath houses, bookstores, etc. But it really is. And people think that a relationship automatically means protection from HIV AIDS. Well, he's my boyfriend. I can't get anything from him. It's embarrassment

29:55

or right and what if what if you're even go Hang with somebody for three months, and they say, If you loved me, you would take the condom off.

30:05

Now, these are things we talk about at our, at our workshop, Morty, we don't tell people that there's never a point when you're not going to take the condoms off, there might come a point in your relationship where you do that. But be aware of the decision you're making, and make an informed decision, get an HIV test, make sure you both know your status and whatnot.

30:25

Yeah, all those issues, all those issues boil to the surface, and those are things that we touch on and the things that people don't normally think of, oh, you know, all the HIV is coming from people who are cheating and promiscuous. Well, it's not

30:38

all comes from those leather people or it comes from,

30:41

you know, there's there's scapegoats for everything. It's all the bottoms, it's all the tops, it's all diverse still people well,

30:47

I'm just the top, I'll never get it. You know,

30:48

it's it's all of us. And we hear that all the time. Yeah. So anyways, we try to have fun, and we have a great time with our jobs. And we hope that people who come to the workshops or participate in the program, or come to the Legion, or the workshop on Tuesday night, are going to have a blast, you know, because word of mouth is really how we want to advertise and go, you know, we want you to come in like it. So you'll tell your friends, you know, we can do house parties, we can we can do all sorts of things in your house and do a workshop we'll bring all of our stuff will bring, you know, condoms and treats for all of your friends. Just invite five to 10 of

your friends over. we'll entertain you, we promise Rando get up on the table. And this stands? Well, you can have more than 10. But we we try to keep them small group, because it just works better when you have a smaller group of guys, you know, you can open up more.

31:43

So what's happening Tuesday night? Did you say your

31:47

essentials? Okay,

31:48

so you have anything to offer someone who may already be infected.

31:53

We are actually working on Sarah discordant, right, a Sarah discordant couples relationship for translate to English for those of you out there, that's a positive and a negative. With the new drugs and people being less afraid, which is a bad word of HIV, we find that a lot of people are coupling off who have different HIV statuses, you know, an HIV positive person and an HIV negative person together and relationships. So we're working right now on that. Things like real life, just about intimacy and relationships. That's not HIV negative, or HIV positive. That's just gay men, that's talking about relationships in negotiation, people who are HIV positive still need to consider using condoms because of reinfection issues infecting their partners, if they're negative, et cetera. So something like that with intimacy and relationship issues really isn't mandated towards negative or positive men, you know, we don't try drop something like think negative, which is a HIV negative men's group, then obviously, that would be for HIV negative men, which is really the only one that we have the safer sex issues, and workshops and all the things that come up about that in all the workshops, there is stuff about safer sex in all of the workshops. That's for everybody.

33:12

Okay, how about the idea that safer sex depends on to responsible people? And that maybe you should always consider that whoever you sleep with, is HIV positive, whether they say they are or not, we try

33:27

to write it right. Yeah. And we try to come from that viewpoint that you know, you need to know your partners, but regardless, you need to assume that they're positive and yeah, safer sex depends on to responsible people, but really, you're responsible for your own but okay, so if

you want to stay negative, or yeah, if you want to stay healthy in your positive status, you and only you are the ones who can control what goes in or comes out of your body. And that's what it comes down to. So you know, nobody else can control that you got to put the condom on yourself or put the condom on the other person you got to take care of yourself. Okay, guys, it's all about self esteem and being proud of who you are wanting

34:06

that's the biggie self esteem, right? I have to say everyone,

34:09

yeah, you know, let's picture a scenario. You got to Riches on the Saturday night. Oh, look at Saturday right now. And the hottest man you've ever seen in your entire life while Dan is little circuit boy shirt.

34:23

Man would be waddling. Pretty lame night

34:31

everyone. So he comes gliding in, right in his little Gucci shoes, dancing, drinking, floating, flying, whatever. Alright, so you pick him up and he's talking to you. You go home with the guy. You get all hot and heavy start making out you decide that you guys want to have sex for the evening. And he doesn't want to wear a condom. Well, this is the guy of your dreams. I mean, the hottest guy in the whole world. Your self esteem for six months, right, your self esteem sucks, you finally have, he doesn't want to use a condom. Realistically, what's probably going to happen, you're not going to use the condom because you don't want to scare him off. And that's something that we need to address as gay men is, is negotiation skills, you know, getting yourself out of tight situations, learning how to protect yourself and kind of keep track of yourself. And then really how self esteem plays into that whole big thing, how you feel about being gay, how you feel about being a gay man, what you look like, et cetera. And in this body conscious community that we live in. Sometimes, and lately, people's self esteem is going down the hill, if you don't have the perfect packs, and the best biceps and you're not the man, sometimes you can feel less than worthy as Randall strengths. So those issues come up a lot, too. And we like talking about that. You know, we have our pet projects and things like that. And Randall and I have our disagreements on certain things. But self esteem is one thing that we do agree upon is I you know, both of us have issues and all of us have issues. There's no perfect gay man out there. There's

36:18

just a second, that's something we disagree about. Okay.

36:26

So, Jimmy, you've been looking for years and years and that's not there. No.

36:30

Yeah. Yeah, you have to take the faults with with everything else that's

36:35

kind of across the board, though.

36:37

There's near perfect men.

36:38

And they come to the forums.

36:41

Yeah, and they come to the forum on Tuesday

36:43

night at seven o'clock.

36:44

Oh, well.

36:47

You're an expert like a pro. Make You sneaky so give us that phone number one more time

36:52

is five to four aids once again, by up to four aids.

36:57

So you've got something coming up Tuesday night, Tuesday night? What time

37:01

7pm At 3202 West Land call the hotline if you need more information.

37:07

Are these things free of charge is they're completely free of charge. We'll

37:10

give you a T shirts we'll give a gift certificates to Crossroads we'll give you all the condoms you need. Little toys CDs. Maybe you'll maybe you'll meet it maybe you'll meet Mr. Almost perfect. Mr. Right? We got we got it all covered.

37:28

There's nothing happened on a Tuesday night, right?

37:30

Come on guy. reruns on TV. 7pm Tonight, you're gonna stay home and watch Mad About You Come on 7pm and 9pm.

37:40

Somebody who

37:43

are don't know what you're talking about

37:45

me so cute when she's pregnant.

37:48

Anyway, we don't want to get them all enthralled in that she's not pregnant anymore. She comes and gets all reruns.

37:56

So, Tuesday night

37:58

7pm. UK its foundation Easter. Okay,

38:01

Philip

38:02

and Randolph. Thanks, guys. Where you been tonight? Where are you going in the near future.

38:07

This evening, we are having Pacific Street area and in our condoms and our literature and talking to people about things. Next week, we'll be out in the same area Pacific Street and then later next month at the beginning of next month at Rich's whatnot, we're everywhere.

38:22

Good. But you can get to hang out for the rest of the show tonight.

38:26

Yeah, we'll be here. Oh, so you can call? We're not getting unless we get any calls that are needed somewhere. 5738 Hey,

38:33

yeah, you know, this is our only our second time on the radio. We've never gotten any call. So those of you out there who have been instructed to call? Well, that's the number again,

38:43

five to 65738.

38:47

And now's a good time to maybe call and give us a little pledge.

38:50

Yeah, that'd be good, too.

38:52

We'll take it yeah, we'll

38:53

take your pledge and you can ask the answer, man hear all about what you want to know.

39:00

They'll be sticking around and take questions. They are young and cute. Well,

39:04

thanks. Why don't one of us yeah
