Warning. The following program contains subject matter that portrays gay, lesbian, bisexual and transgender people as first class citizens deserving of an equal share of the American dream. Topics like this are known to piss off televangelists, backwater preachers, some talk show host blue haired biddies, several members of Congress and other socially unacceptable outcasts like radical right wing nut jobs listener discretion is strongly advised.

 00:48

You have tuned into after hours queer radio with attitude are continuing tradition here on KPFT.

 00:57

The crew of after hours is ready to bring the news interviews, discussions and music gear to the gay lesbian, bisexual, transgender community and our allies. We are a diverse group here but we all have one thing in common. We are out of the closet and urge everyone to come out of his or her closet as well. That means recognizing who you are standing up for yourself and your rights and being proud of who you are. We understand that this might not be possible to choose a job or frame of mind but remember, we are here especially for you. So kick back and relax and get ready for this week's edition after hours.

 Chris 02:17

Hello Houston, Galveston in the world. This is the Saturday August 6 edition of after hours queer radio with attitude. My name is Chris Harrison. I will be your executive heroes of this evening Jimmy is out playing with the Navy boys in San Diego. If I would have had a copy of in the Navy, I would have played it for him. I'm having a fun enough time just trying to locate the bitches back for next week. No, we wouldn't do something like that for Jimmy. Well, I do too. Unfortunately my my beverage for the show spilled all over it and there was not enough vodka

and that orange juice to evaporate. Gotta gotta use it right about now. This is the first Saturday of the month. So hopefully we'll have Gigi in here in a little bit. Then after that is news of US magazine. We're going to do a little roundtable here's the teaser the topic for tonight's News of use the sandwich that ate montross stick around for the sandwich the eighth Montrose but to start it off, we've got we're double dipping, Judy. Oh yummy. If you would like to double dip, Judy the number is 713-526-5738. I'm going to San Diego Operators are standing by Judy salivating.

03:40

Don't tell him Matt, you promised not to tell clean up IO

c Chris 03:44

for cleanup aisle four. We've got the 40 fives in here and then we're going to have a little trip with CSR. suburbia. Fatra the website is that's how we only played one song in the beginning and since it's about that temperature outside I follow Jeff Krasner 110 in the shade was pretty appropriate but then again a couple weeks ago when it was raining there Jimmy wouldn't let me play I wanted to go it's raining man followed by deep water by pansy division but Jimmy wouldn't let me do that but Jimmy's not here this is moments which one tap one no I want this one too well

04:28

give me the dance

c Chris 04:31

wow we losing his argument with the CD player, CD player for those of you who are going to work we're wondering why in the world in two weeks for having a fun drive because the dam opened but what we're going to CD player the trick is to be smarter than the CD itself. So well.

04:53

Yeah, blaming.

c Chris 04:56

I wish I could do I wish you could too. Jimmy's in San Diego and the other person whoever runs the board is down in Pasadena. So let's go over the Colt 45 Because I only played the one song and we'll do the calendar events after GG or before GG or sometime later on. I'm still awake by them.

05:16

Let's avoid confusion. I'm really now called 45. I'm a support person.

c Chris 05:20

Security. There's so much that well, let me Yeah. I wasn't sure you know, they said cold 40 fives and then we've got a candidate for ICU hm for and I know you've got some highfalutin title there. They gave you girl. Some title IC O H oh,

05:36

yes, I'm a county. Actually, this candidate over here would normally be my counterpart. But since he's, anyway, it's getting confusion. And this is what I'm also members.

05:47

Well, that's

05:48

true. I'm just a support person.

c Chris 05:50

So what's going on with the Colt 40 fives for August 1.

05:54

I would like to introduce myself I'm taking advantage the Presidential 40 fives or is sometimes referred to me the first president of this year. That's just a joke. And Corwin, it said he is a member of the code 45. And Judy, Judy has always been a friend of the Colts always been a friend that

06:17

you can get around with a room.

06:18

No, she's just she knows that. She collects relics. day

06:22

old relic collects relics you can say

Chris 06:31

anything between between Judy and Jimmy, look around. Look at the old history. I've been there done that at least. Jesus had shorter hair.

06:42

I'll bring some fixes. Jimmy he's talking about cold history. We have some I found one. I think it was his high school photo is

Chris 06:50

lovely. And I've seen some pictures of him. And it's like, I want to

06:57

leave high school photo mine

07:00

in my computer. Anyway, the

07:02

Colt 45.

Chris 07:04

They have photography back then.

07:05

We've got a we got a fabulous. What's What are you she? Judy

Chris 07:10

CHRIS 07:10

pulled out a stone tablet that was engraved with her photo. I don't believe her. I've

07:16

seen Jimmy photo and it's it is stone carved and he's standing right next to a wheel and fire is really nice. It's frightened look. We just came off a fabulous weekend with the BRB having their dinner party. boy what a hoot. Anybody who made it, it was packed. It was jam packed. We have a few of our former members who are just I don't know if legacy members that do the cooking and we have a lot. You know, the nice thing about being a Colt 45 is especially now for me being cold, not that many years and being around since 1976 29 years. There's so many people that you meet that you never knew were cold. They're standing next to you. And they just say well, you know, I used to be a president 1984. So I've got to do a lot of history. And that's been really neat. Be a boy BRB has been very supportive of us. And it was really nice to see a good dinner party for them. We've also got a show coming up the end of this month, which would be the 28th I think. Sounds good. What day of the week is the day Sunday,

08:23

Sunday, Sunday, Sunday? 2820 20?

08:24

Yeah, that'd be 7pm at the BRB is the bare bones benefit that is hosted by Rosemary Smith, she's got a little twist on your typical drag program. It's bare bones where she limits performers to one prop drink is not a prop. That's a crutch. So you can have a wig or a dress or something for your makeup. Last year, the show brought in \$5,000 with the help of PWA and some other people that had tossed in some large contributions, so it's been very, very good.

Chris 09:00

And the bare bones the reason for the bare bones is because it's to show the lack of

09:05

well the lack of lack of support that you get and and also you do what you do with what you have with some of our clients. They are literally living on bare bones. And just, you know, kind of an analogy with the performers saying, you know, you think you're having a bad live that way every day. And I think that's something that a lot of people could probably live with. You think you're you're mad just because you can't afford, you know, a new car Well, it'd be worse you could have no car at all.

Chris 09:37

Or no car no choice or no choice to car or walk down to the bus stop

09:42

or no place to live. There's there's a lot of nice fulfillment and I will talk all the time because I want to talk but it's been good, good and fulfilling and I'll say one more thing. You know what cooler talk for a little bit. In November. We have our Fall Harvest event. which is typical event that goes towards our stone soup fund. The Colt 40 fives fund voucher programs through a that H their stones your pantry and we put a lot of money into it's about 25,000 Foreign dollars with the help of a lot of other nice individuals that help us out. So this is gonna be a nice years, November 13 at the BRB. And this our 29th year we're kind of getting a little push go into that big 300

10:32

Yes, gay middle age.

10:36

Must remember the big trick. Nevermind, go ahead, living rattle on corwyn

10:40

I just like to have the one Oh, but you know

Chris 10:45

I'll hurt you. Promises promises. Even on our leather show? Yeah, well,

10:52

I am circor When I am a member of the cult 40 fives I'm also a member of isolates, basically empire of which he as he mentioned a little bit ago yes, I am running for the Apollo emperor of our court, which is a dual presidency there's a Emperor and Empress and we do open elections with the community. The community votes for this position because we are out there representing the community here in town and when we go out of town, and we depend on the community to elect us. Our voting for this is coming up real soon like tomorrow for all those people down in Galveston and who want to go down to Galveston. Come down to the third Coast bar. It's 3102 seawall Boulevard, between three and 8pm. Tomorrow we're going to be holding elections there. Then we'll also be holding early elections on August the 11th, which is Thursday, between four and nine at Ajs bar which is at 2517 Raul Street. And our big day of elections, which is our final day is August 13, which is Saturday from 10am to 6pm at the pride

committee office at 1415 California, and since we are elected by the community, we would really appreciate see a lot more of the community come out and vote and help support the rest of our community. Voting vote often don't

12:17

vote often because people like me I'll be there to make sure they don't know they can only vote want to bring proof of residency

12:23

you have to live in the Harris and surrounding counties. So there'll be looking at your zip code to see where you live and what part of town you live in. And

12:32

we love looking at people's zip code so what

12:35

what do people bring for forms of identification? Only a driver's

12:40

driver's license they can bring if they have like a credit card or something and hence their name on it they can bring utility bill or rent to receipt just about anything as long as we can put their name address station we just need to know what's them and I'm I mean Galison tomorrow and I'm gonna be there on Thursday night chicken all this out. I'm just a Jack of All right

13:00

man I'll be out everywhere just wrong. I'll be out this week every place I can find to hand out flyers everybody so that everybody will see who I am what I represent and what I'm looking forward and what I want to do for the next year. So come on out and if you see us we're wearing his big sash black sash it says that I see white space the Empire candidate for Apollo emperor or candidate for Gemini Empress we have two Apollo's they're running for this and one Empress the other Apollo or the other. Apollo His name is Mark Cohen and the Empress is writing for the Gemini Empress is shot Chanel cardi a and she is running unopposed on a yes no vote so please come out and vote she needs all the yeses she can get and come out and join us and let's all have a lot of fun we plan on having lots of fun next year so let's get it started off right and then if you want to find out who won that even makes it even better because the following Saturday which happens to be the PMP ball which is our prints depresses ball. And that's August 20 at Rich's and that's gonna be between 5pm and 9pm at the end of the night they make us wait until the very end of the night they will announce the winners of the Apollo

emperor and Gemini Empress so you get to see if you want Guy No you will because you're on the board and I'm also a board member if I see that I don't get to see it since I am a candidate. But come on out it's gonna be a lot of fun at Rich's we're gonna have a casino night we're gonna have casino tables and all we have play money to play with and lots of funds come out and all the money we raised for that night is gonna go to our fundraiser for the year which is camp hope and camp hug which is a run by AFH. And it's a camp for children who are HIV and AIDS positive. And we try to support them as much as we can. That is our beneficiary for this year. So come on out. Help support these kids and see who gets to actually win this thing.

15:16

today. We're gonna take a breath.

15:20

They're watching they're looking at their watches. You can't be looking for watches. Oh, there's plenty of time. Please.

15:30

1000s waiting. I

15:31

think David for Falcon normally comes up. tz been up here twice. For the Colts. This is a kind of a new thing.

Chris 15:38

Yeah, we've got we've been doing what we call these after or quickies after our

15:43

quickies? I'm all for that. Take it slow as president.

Chris 15:48

I want to we've got the gold 40 fives in one week. Ich has another week. Risk is originally had a week but to someone she doesn't show up.

15:59

That's because she's busy out raising funds for Christina Nice.

16:04

Speaking of raising money and funds, I know that stock is not here because he's in San Antonio for a week when ace weekend which they can publicize. But the weekend after that. The Colts are a member of the Houston Council of clubs. And as such, I think the fair Men's Club is a member of ACC big kickoff party next week. Sunday,

16:28

Sunday, next month. Next week. Oh, we

Chris 16:36

forget what it is. Okay, well, I've got I've got two big events. I'm working on planning for my group right now. And so my mind's frazzled on that, oh,

16:46

Aren't those fun? Oh, those are fabulous. You know, everybody has fun. And they say, Oh, this is great event. Where were you in today? I was asleep, because I've worked for the year ahead of time to make sure that you had a good time. But you know, it's all worth it. It's so

Chris 17:02

we started doing that I just I was starting to think our big event, not DHCC event do we

17:07

kick off next weekend. Being that big, this is our big three o next year, and this will be their big 33. They're a little bit older than we are but we're not going to point that too much third of the century where they we unveiled the new canon poster for 33. Can you believe that time already? Yeah.

Chris 17:26

We jumped in about this time last year. I think our group joined up just after the pennant poster. It's been a big one we started going so it's it's an interesting thing to be a part of.

17:39

You know, I, I think that you'll see more of the Colts a lot of people have seen well, they've come up to me recently and said, Well, you know, we don't see the Colts out as much. And I think that's because there's a lot of new faces with the Colts this year. Not that there aren't some of the older members that we have. But you know, they it's a big drain the Colts we meet the second Tuesday of every month just for a general membership meeting at the BRB. Which starts it well starts when I get there. I say that out loud. Starts at eight o'clock. But we we meet every week. You know, you have an organization that's not a social organization. We're a social business, we do a lot of things and when we when you're a cult member, you have an opportunity to make six meetings a month. And after a while.

18:30

Nice, general things in a week when for the

18:34

Tuesday meeting and another Tuesday meeting because we have our ATF RAS trouble fund that we helped with it was written utility assistance. No, they don't you know, I got a 501 C three charity and 1980 I'll start all that with it with the help and it blesses So Danny via Who helped give the bush and Walter Carter

18:57

you actually have a website though that people can go find

18:59

www dot COVID Oh you mean me the code because my content and

19:03

we know why you're recording.

19:07

Okay, that's my pay site. www dot Colt 40 five.org. And you know we're working hard and furious to get member photos you talking about scary. They want to put pictures of the members up on we have a few people our vice president which is president of vice Tommy Allen, and as a David first or secretary and Shawn Carter is our treasurer we have we have an events Chairman little Donnie was voted yes to our slot of the year I don't know why we would call him events chairman. And we have four new members already working this is that's really nice. And we still have new pledge also. Yeah, we've got a pledge in three waiting members with it's been a good year for the Colts

Chris 19:58

are with so many different other group Oops, you know, sustaining for 30 years. That's big time. Yeah, of doing this sort of thing to continue to grow. I mean, there's so many, the

20:08

heyday, I think people remember, you know, 45 limited to 45 members. And you know, that's, I guess, you know, don't start me there. There were less things to do. But it's nice to have people that come to your organization that realize it's not social, it's a social business, it's kind of tough. You can't with the promise of having fun. Well, you know, you always lower people to work with the promise of having fun. I've done that my personal life, but that was an organization. We are working organization, we do a lot of work. It's fun. And with, with 30 Coming up in our big Christmas show, I get off my soapbox, you know, you spent all year as a president learning the history, learning the people who founded it, learning everything. Well, I did, because I also had to redo the website, you know, they have 9 million photos that nobody writes their names down on, but I'm not bitter. Not bitter with you for 25 years, I would say, this is a lovely photo, take it back in 1978. Who are these 12 people?

21:13

And nobody knows.

21:15

For you know that history is one thing, but yeah, it's amazing. It's amazing. Some of the histories we find

Chris 21:22

ourselves kind of challenges. Some of those people may not be around. Well, most of them aren't anymore. For them to come to be around that even even nice. Find someone who knows who those people were in the thick.

21:31

It's not a token we

21:36

pass through. Sorry, go ahead.

c

Chris 21:39

That's been Becker if you're listening, stop by with some medicine. I'd appreciate it.

o

21:49

Anywhere it was I was distracted. Now. You used to pick it up, Togo's I did not wear my kilt tonight because normally I would wear my kilt because Jimmy was here.

c

Chris 21:59

You should have said the you're wearing the kilt and all that because Jimmy, hopefully Jimmy Vaughn is recording this for Jimmy. Well,

o

22:05

you know, I because Jimmy was here. I did not wear the kilt. But as you didn't tell them that I actually have nothing on. So that was the other stream and I was waiting in that tattoo that says you know, you're here. I heart Jimmy. I don't know. It's something you're still wearing jewelry. Yeah. So you know, I miss you, Jimmy.

o

22:29

And I'm going to disinfect the chair when he's gone.

c

Chris 22:33

Why that's where Gigi will be. Oh.

o

22:38

Well, that's it. I think I'm taking that.

c

Chris 22:40

Oh, okay. Well, thank you all. But what's the what's the website for Colt 45 Again, www

o

22:45

dot Colt. 40 five.org. That

22:49

Chris 22:53

numeral four numeral five, letter S. Be clear to radio.

22:57

It's now actually can see boys

22:59

sticklers? Only a president? That's why I'm your backup? Well, yeah, you know, there's a lot of people they keep backing up. So what can I say. And if I could throw that in our phone number, go ahead and 7135 to 66077. That's our age trouble phone hotline. If you need information on how to get an application for a travel fund for utility systems, you can call in and leave a message we'll get back to you. But now, you can also go to our website. And you can download the application there in PDF form. So we don't have to send you one you can get it yourself and print it out. If you have that capability. Or if you have different service providers. They can do it for you. We're just starting to get that has been really nice. That's good. Technology is a strange thing.

27:33

me inform you my dear doctor that unless you change your mind about me this will be your last visit

27:39

27:43

to get the idea. Dr. My heart is so weak that I'm apt to leave this world suddenly and at any moment before your

27:49

heart is made of granite. I pick your partner. I meant to say that your heart is in perfect condition. You haven't forgotten the check I gave you this morning or \$5,000 to be used for your hospital.

28:04

Okay, let's do a short one tween loaner when Malvern

28:14

How is that man Melbourne, the one who's just leaving.

28:28

wait until I see mother. Is she so greatly improved?

28:32

I don't mean that silly. Just wait until you see Mandy's new nurse. She's so beautiful. She'll just bowled your ride over. I beg your pardon, sir. Oh,

28:46

I'm sorry. I didn't hear you come in.

28:47

I'm sorry if I frightened you. How handsome he is how virile? Just a glance at his manly causes my poor heart to go.

28:59

You must be my mother's new nurse

29:01

how clever you must be to arrive at a hasty reasoning. So

29:05

I'm not at all clever when you like to take a load off your feet.

29:08

Thank you. Everybody here is so kind. I'm afraid I'll be hopelessly spoiled if I stay with you for long. How Gallatin Silversea is he is the type of man who devotes all of his time to serving others.

29:22

Lulu tells me the mother is asleep. So now's a good time for you today to get acquainted. Miss

29:26

29:34

29:47

You will call me Melbourne, won't you?

29:49

I don't know. Now. You see, I hardly know you Malvern.

29:54

Well, we'll have to remedy that by seeing lots of each other while you're here.

29:57

I'm afraid your fiance isn't going to Hello, my wife. Surely you had forgotten to go home you are engaged to be married to?

30:05

Well yes, I certainly have. When I gaze upon your beauty I forget that there are any other girls in the world

30:11

how frank and open he is. Oh, if only I can throw into this feeling of impending doom that hovers over me. I'm sure you've been interested in great many of girls your time. malvert

30:25

Rolo admit that when I was in college, I was attracted to a blonde. I wanted her to take my fraternity pin and wear it after promising me to wear it. She disappointed. He

30:34

30:42

Okay, one more little quickie. Villain.

30:46

God, what a neat evenings work that was. I've set my plan in motion and before I'm through I shall have this house and every dollar of the large fields fortune for my own.

31:00

31:02

spoiled young snob she'll soon show him who holds the upper hand. I believe it is customary for a husband to call on his wife, isn't it?

31:12

I suppose so. Does Felicity know that you're here? Felicity.

31:15

Oh, you mean Dora. I keep forgetting that she's here under an assumed name.

31:21

I wish to know what your plans are concerning Felicity. Would you mind telling me?

31:25

Not at all, running into my wife unexpectedly as I did? I've discovered that I no longer care

31:31

for her. You really mean that? You'd be willing to give Felicity her freedom?

31:35

You make things sound so easy. Larkfield. But believe me just the opposite is true.

31:40

confounded man. What are you driving? Come on out with it.

31:43

I have discovered that I'm very much in love with somebody else. In fact, I've already told your mother that I desire to marry your sister. Lona.

31:52

You. You want to marry Lona a splendid idea. Don't you think? It doesn't matter what I think? If you were to go through it, this plan was to become a Felicity.

32:01

I shall never live with her again. However, I am willing to give her her freedom for consideration. Oh, I'm a wealthy man. But at present, my money is tied up in various real estate ventures. It will cost money to put my present plan into action. You have plenty of ready cash. What do a few \$1,000 More or less mean to you?

32:25

Just how much money are you demanding to set Felicity free,

32:29

shall we say \$10,000 in cash of course,

32:34

blackmailing scoundrel. I wouldn't give you a penny if my hope of heaven depended on it. If I ever catch you so much as looking at Mona again, I'll tear you apart.

32:41

calling me names will get you know place. And as far as my marrying loan is concerned. I'll leave that to your mother. Are

32:49

you going to get out of this house? Or do you want me to throw you out?

32:54

Okay, thank you guys. For that sounds a little scary. Yes, I'm here I sit the same. So how can people get tickets again?

33:08

33:40

33:44

Okay, that means I need to make that reservation quick forgetting I'm waiting for Jimmy to get home. But what can I say?

Chris 33:51

Well, you know, the fleet's in town so he'll be in San Diego for a little bit. Yes.

33:54

Well, I'm not sure when he's flying in for hobby airport today anyway, so we'll say okay, so anybody else want to chime in with anything exciting as far as what people can expect or

34:09

they can be here so there are lots of popcorn. You can eat the popcorn too, but I like it better it tastes a lot more fun to throw good old fashioned melodrama suitable for the entire family. Yes. Then

34:21

you bring your singing voice you get to sing after intermission. Yeah, why never bring mine if they let me sing anyway. So that's okay. We have the old fashioned piano player there to do all the the music girl musical interludes, et cetera, et cetera in the background. Never been there been. You've missed? Yeah. Say they heard it on the radio. They

34:42

get buy one get one for that one for you.

34:45

What a deal. Very good. Okay, well, thank you for comments or you had to wait. Sometimes it goes that way, I guess.

Chris 34:55

Chris 34:55

Did you want to promote the next one coming up or if you have auditions coming up for the next one. them is

35:00

just an audition in the wings and that is the Joker Joker

35:04

fired twice.

Chris 35:05

I remember reading about auditions I forgot when they they closed out on that so

35:10

I'll keep you posted on this file

35:12

already. The next one Geron September. Yeah, September the source knows this. Cheat. They cheat. Yeah. And then a couple of idiots are going to be directing it I'm now these foolish foolish to kill each other. Yeah, but

35:28

that's okay. They won't miss us. So and that's going to be the Christmas play. So when we get ready for holidays by them

Chris 35:35

sounds like when the gladiator met Santa Claus and

35:37

Doris met Judy.

35:40

Nevermind. Okay.

c Chris 35:43

Thank you theater suburbia. Thank you. Coming up next it's buying it with Judy. Not Judy. Judy, just gonna stick around. GG is coming up here and a little interlude we're gonna put in here. I'm going sound Pratt crazy, I guess tonight from Hedwig and the Angry Inch song kind of makes me makes me mad. I remember when Gigi is around. It's the origin of love. And we'll be back from the soundtrack of Hedwig and the Angry Inch, it's the origin of love,

o 36:25

you can't sit down. Okay.

c Chris 36:27

I don't know if a series is one of those songs that just kind of reminds me of Gigi every single one. So while there the story of the genders being combined, and then being separated and all that and between that and feminine black jacket, black leather jacket, for some reason, as a couple of song titles is kind of hit me thing in gj. And it is time for GG and bind. Net. And don't get to the heavy stuff too quickly, because I gotta interrupt you in a couple of minutes to do the top of the hour stuff. Okay, so don't don't start tearing into the people too quick. We're

G Gigi 37:04

just gonna kind of introduce this because we're gonna move into it slowly tonight. This is Gigi with BioNet. Before I even start on the article from the New York Times, and those that are up in the snuff on it. This is scandalous research. But it has got the whole by oral community m&ms, and moving and I've been getting like hundreds of emails every day. Activists just working round the clock to counter this thing. But basically, I don't want to go too deep yet. For those that are familiar and read the New York Times They did an article called gay straight or lying bisexuality revisited and their health section. And basically the researcher, a column researcher is very horrible research methods supposedly proved bisexuality does not exist. Oh, I don't exist anymore. You know what the Scarecrow says, Some people go this way. Some people got some of the scope of why Simon

o 38:39

said the exact same thing somewhere.

G Gigi 38:45

But anyway, forget the name of the researcher. He he did a research study on transsexuals a while back and got the whole trans community up in arms. I think I've read that one. A he's

done some other studies. And it is researched. Well, we'll go into more later but basically, let me give you the gist of the research study. He decided to do a research study on bisexuality. So what does he do? He goes to the gay rag sheets to recruit candidates for the study. Wow, wait a minute, something wrong here. We'll get into that later. Sorry, good gets 100 people a little over 100 people proximately third identify as gay third. I don't know how third identify as straight from a gay reg chief. And then a third identified as bisexual. And so he takes these little devices and puts it on all these guys weenies to measure their erections. And then he shows some All male porn or all female porn, and then he starts studying when they're little things get hard.

40:11

Don't ask me how I know this, but I've actually had that done.

Gigi 40:16

And then somehow by some leap of faith, he decides that by measuring guys hard odds, he is determined sexual orientation and what they're sexually oriented to. And in his study, a third of the men did not respond to any of the porn and so he just kind of disregarded it. Let's go figure here, something's wrong. Then another third responded only to the male porn, and another third responded only to the female porn.

41:00

No, wait a minute, who are we talking about? And so female female or female to female and male to male so he left street porn out completely? Yes, that's right. What is this kind of against straight porn

Gigi 41:15

so anyway, by others scientific method, he came up with the conclusion that bisexuality doesn't exist because no one got little hard ons watching both points.

Chris 41:30

And the fun thing is this. You know, I can't give you the whole article because it costs four bucks to see it online.

41:42

Okay, everybody pocket change. Serious. They

 Chris 41:44

charge you four bucks to go back

 Gigi 41:47

three weeks trying to make money out this.

 41:49

I make money off everything.

 Chris 41:51

Even the letters of people telling people where they can go to that go three weeks ago, I

 41:56

could get it free.

 Chris 41:59

Hold on, I think somebody here did were put down the holes. Looks like it's long enough.

 Gigi 42:06

But anyway, it's called gay straight or lying. Bisexuality revisited is the time New York Times by

 42:14

Benedict Carey.

 42:16

That's a heck of a name

 42:18

and date, that's from July 5.

G

Gigi 42:24

So this guy, he determined that by measuring God's heart on she can determine sexual orientation. Well, I decided to do a new study. And so I got a bunch of guys together. And I strapped on these things on their little digs, and measured hard ons but instead of just having him watch porn, I left it on him all day long. I found several new sort sexual orientations. There's a new sexual orientation towards boring business meetings there's a new sexual orientation to waking up in the morning in bed especially when you need to pay another new sexual orientation and they're driving red sports cars

♀

43:18

with blondes in the passenger seat

G

Gigi 43:22

and if you have a motorcycle that really gets super hot Don't forget leather and leather so we have a whole bunch and he's sexual orientations popping by this research method.

C

Chris 43:39

Let me step in before we continue on with this and let everybody know that you're listening to after hours queer radio with attitude here on listener sponsored commercial free Pacifica radio for the Gulf Coast KPFT 90.1 FM Houston 89.5 Galveston and always on the worldwide web at KPFT dot o RG This is the by net show wasn't breathing in barbecue VMs for the past three hours I usually can do that in one breath.

♀

44:03

I don't know that sounds pretty fast to me.

C

Chris 44:05

But and Gigi Saavik tonight is the New York Times article Gay Straight gay or lying by sexuality revisited. You know they don't tell you the I know there's a name for that equipment they put on their a t a t now graph. The new study a team of psychologists directly measured genital arousal patterns in response images of men and women. Maybe

♀

44:32

they call it a Peter meter. Actually that is the non technical name know what it is know the Peter meters

c

Chris 44:38

a ruler you can go by over

♀

44:43

See, here's the interesting thing about Gigi, you might find this interesting. The interesting thing about this test is the pictures they show they'll have clothes on. Oh

G

Gigi 44:55

that was the other sexual orientation we discovered. There's guys At or attracted to the Peter meter.

♀

45:04

I read about just

♀

45:06

having a pet on their deck.

♀

45:10

I read about this study, but what I read was they were doing MRIs. They were

♀

45:14

different study. Oh, okay. Same pattern, same reason, but a different study. That one is actually an authentic study

♀

45:22

will get you came up with the same results. Well, there were no truly bisexual people because people were only aroused. I mean, they were looking at their brainwaves and the brain activity and it did show that their brain by one way

c

Chris 45:38

exactly what part of the brain is being affected by by

G

Gigi 45:44

the minute wait a minute, first of all, any study I want to look at the population they're getting here or land where it comes from

♀

45:52

and what country

G

Gigi 45:56

well, this was even here in the States. If he tried to get your sample from a gay rag he no harm intended sort of direct shape, but we need to make our own why not go to the bisexual community to get your BI population it was it was it was

♀

46:17

self identifying bisexual men.

C

Chris 46:21

Okay, here we go. The experiment psychologists at Northwestern University and the Center for Addiction and Mental Health in Toronto, used advertisements in gay and alternative magazines to recruit 101 young adult man. Gay

G

Gigi 46:37

rag sheets. There's no bisexual rag sheets out

C

Chris 46:40

there. The alternative newspapers,

♀

46:43

not his comment about self proclaimed buys. You pay anybody enough money they're gonna admit to anything? Well,

C

Chris 46:51

in this study, 33 of the men identify themselves as bisexual. Yeah, 30 straight and 38 is homosexual. Out of what

 Gigi 46:59

was the total number 101? Yes,

 Chris 47:02

resigned very much. researchers asked the men about their sexual desires and rated them on a scale of zero to six, which is the Kinsey scale, zero to one indicating heterosexual five to six doing homosexual. Bisexuality is measured by the scores in the middle range.

 Gigi 47:18

And let me start, because I am. You know, my background is in social work. Whenever you do a study with 101 subjects, you cannot make these grand conclusions about the whole population based on 101 subjects. Takes a lot more study than that was there like

 47:40

6 million people in the world? I mean, that's not even a fraction of

 47:44

the women. Hey, wait a minute.

 Chris 47:48

And also this people are aroused by different looking people. If you sit there and flash pictures of the bisects for the width of the women out there, if you're sitting there and showing them pictures of skinny, you know, screen skinny supermodels, or you know, women from Playboy, you may have guys out there who liked their women with curves.

 48:15

I know I do. So number two,

 Gigi 48:18

but a third of the population that their study did not respond to any of the porn suggests to me that they had really bad porn.

48:29

Either that or that people just weren't interested in porn. They prefer the real thing. Exactly.

Gigi 48:35

The real thing here's another problem with the study is that here they're showing porn to measure sexual orientation. Isn't that a misnomer?

48:46

I mean, they shouldn't they have an actual wives show going on here like a stripper or something? Well, even more than that.

Gigi 48:57

I can look at all kinds of porn and it doesn't do anything for my well Willie.

49:01

I only go for lesbian.

Gigi 49:05

I like holding and touching and cuddling and hopping in bed with someone. Okay, so that thing on me when I'm busy with both males and females, and you will get some damn erections. I've been watching clear the moon you probably just took it on me looking at porn and Hey, sorry. So number one, the assumption that you can measure sexual orientations by people watching porn is bogus. It's a bad assumption. And so there's a big difference between what we actually do and what we look at magazines or pictures. Some people aren't even visually oriented. You know it's like they can totally in the dark and still get an erection

49:58

there's some people actually prefer it though. because they prefer the sense of touch over the sense of sight. Oh, yeah.

Gigi 50:03

And so, you know, when you look at a study like this, you've got to look at all the different methods being used to take just this one little slice and say, Okay, this is the whole world. Now, you can't do that. That's bogus. It's fraudulent. But here's the downside of it. Because we had a

girl right into by net USA the other day, she's 16 years old, very upset, because she's got a boyfriend, and she's having feelings for another girl. And she read this damn article and says, Well, you know, what am I Then? Then? Yes, the reason is a lot of real lives out there that read something like this and say, Wait, I'm having these feelings and. And so where else are they getting the information? They see it in the New York Times, and it's like, it's wrong. And that I and I'm getting on a real negative thing here. But I see that's

51:10

why you exist and the rest of his uses, because when people make up these really stupid articles, we need to be there to correct them and tell these young kids that it's okay, it's normal. You're not the only one. And there's plenty of us out there. But

Gigi 51:25

the thing is, the New York Times gets a lot wider circulation as ready as fortunately, unfortunately. But yeah, we

51:33

need to make a nationally syndicated gay newspaper that goes everywhere in the world. But there are kids times

Gigi 51:42

that become suicidal over this sort of thing. Because they read while this stunning, says in a mad normal, and something's wrong with me. I remember how there's nothing wrong with the baby. Because I've been having feelings all my life for both. And it's been very wonderful trip.

52:04

It's actually kind of interesting. I'm actually helping a young man who's going through that right now. He's, he's searching out a sexuality and he thinks he's bisexual. And he, his mother brought him to me because she's bisexual, and she knows me. And I'm having to deal with the fact that he keeps running into books and articles about bisexual nonexisting. And it's impossible and I keep having to tell him that you need to understand that there's people out there that don't want to admit that we exist because we're our our something that's new and what like strange for tables a minute.

Gigi 52:35

What is the sky did the same article except studying on homosexuality. And strapped on these devices to

52:46

purchase Dre? Does?

Gigi 52:47

There was no wait, wait, let me finish decided that they would run an ad in The Chronicle. And bring in all these guys from the chronicle that were supposedly, from Australia new source or from some other orientation, other than what they're trying to study. Bring them in, strap all these instruments on them, show them porn, and then prove that homosexuality doesn't exist.

53:22

I want to see I'm trying to narrate and prove that doesn't exist. Do you think the

Gigi 53:26

gay community would be ethnos about that one?

Chris 53:30

I haven't heard of those before. And I just found some interesting stuff here. You called the internet here.

53:38

The guy is bogus. We've already there

53:41

was a guy that was what we did. 20 years ago, this study, okay,

53:47

we'll come to that. Okay, here,

Chris 53:49

here's something this I'm getting out. I'm going to take a grain of salt with this because this is a blog that somebody wrote. But I've found some things that look like they're cool, corroborating it if I go deeper into it, the the lead author of What is he called in here? What is his title? J is Dr.

J. Michael Bailey, a professor of psychology at Northwestern, study's senior author, and he got kicked out. He had to step down from chairmanship of the psych department at Northwestern because of ethics charges related to earlier research. He has been linked to a racist Neo eugenics movement called the human Biodiversity Institute.

54:31

man and man, you know

54:34

that that title is give the racist

Gigi 54:36

you're jumping ahead of me, but I was gonna bring that up.

Chris 54:41

I mean, his previous book has also gotten fresh there of the fact that a book on transgenders
Oh they

54:50

did Yes. That he slept with that

54:53

he slept with one of the people. I didn't know I was jumping ahead on there this time.

Gigi 55:01

I wasn't gonna bring up the dirt quite yet, but I was getting out of there.

55:08

I'm gonna sit back and let you go. Because this is, you know,

55:11

Is there any way we could get that? Streamed in here? So we can read it?

IS THERE ANY WAY WE COULD GET THAT STREAMED IN HERE? SO WE CAN READ IT?

c

Chris 55:16

All I did is I did when I found the letter, I mean, the article, I did a search of the person's name and came up with this. It's, it's not

o

55:25

hard to find all the dirt.

o

55:26

Oh, God, no, you can

o

55:29

go back and look at this guy. Here's the thing. Here's the thing.

G

Gigi 55:34

I'm not at fault with a guy for doing his felony research. When I'm at fault with its New York Times, publishing, this is research. And that's where I have the problem because a lot of people read The New York Times. And they take this as a truth. Because supposedly, The New York Times doesn't publish this kind of garbage from these kind of people that are kicked out of school and the bad research. And

c

Chris 56:04

well, you know, the New York Times is the same is the same newspaper that hired that one unquote, journalist who was doing field reports from his apartment in Manhattan. Was it Jason Blair? Yes. So the New York Times is no longer the paper of record.

G

Gigi 56:22

Yeah. But even still, there's people that look up to, there's people that have really bothered me about this. Real deep inside, as I remember, when I was searching for anything I could find on bisexuality, I felt I was the only one as scared as looking at searching. And if I had stumbled across the New York Times article, I would have felt like, there's just no hope. You know, when it's a timing thing, and for kids, this is wrong. That stuff should not be in print. Publication like New York Times?

57:05

Well, I just want to say that if it weren't for you, Gigi, I probably would have been in that situation. Because until I met you, I didn't understand a lot about it. I mean, I'm learning a lot now. And I'm realizing that I've been this way since I was a kid. I mean, this is not something you acquire, this is something that you are. And it's just like me being a transgender. It's what I am. I can't change that. I'm going to change part of it. But that's beside the point. But this is what I am. And if people try and change me, it doesn't work. And that's what I feel the New York Times article was trying to do. And I don't agree with that. Well, I

Gigi 57:41

think it goes a little deeper than that. It's it's saying that it would be like publishing a paper saying, homosexual, homosexuality doesn't exist, or publishing a paper that says heterosexuality doesn't exist.

58:03

You know, we need to get some gay researchers and some bisexual researchers to do both bogus research and prove that St. Is doesn't exist. That way we can get back at it.

58:15

I don't think that's the solution, evidently. Felician in 1985,

58:20

educating people good 99 with yours in 1985, there

58:24

was this guy named Paul Cameron that came to Houston when we had that big problem with the proposition with the city. And he came out with an article, he was a psychologist, and he ended up losing his license over all the stuff about gay people. And the preachers today still use his research. Even though he was kicked out of the psychopathy, he lost his license, the Psychological Association, Paul Cameron, he came this is not married 1985 The amendment was or whatever that thing was proposition with the city. It was very it was very,

Gigi 59:00

any bring up on the dangers of something like this baby terms, because down the road, someone's going to

59:09

use it. Other people who use it just like Christian

59:13

youth groups that are denouncing it, use it all the time.

59:18

But if you do the research on Paul camera, you'll find out some of the stuff he is in fact and you listen to you listen to some of these preachers, they still quote him

Gigi 59:29

in fact, one of the other things it's come up on the buy Amman by activists, listserv, and one of the other hot topics it's come up and I think is slightly related. Is what do you call it the WhatsApp Christian to push the turning days in Australia, so loved ones out.

59:54

And they use Paul Cameron studies.

Gigi 59:57

Well, not only that, but Right now Exodus is really doing a big campaign with teens
