the official count

⌚ 08:00

We must destroy the myths once and for all shattering we must continue to speak out. And most importantly most importantly every gay person must come out

⌚ 08:21

you must tell your immediate family you must tell your relatives. You must tell your friends if indeed they are your friends. You must tell your people your work you must tell the story

⌚ 08:47

once they realize that we are indeed the children that we are dead everywhere, every myth every lie every innuendo will be destroyed the ones that you do you will feel much better. This country

⌚ 09:58

baby are you it I'm doing a fantastic opening. You know what I went to the most beautiful wedding today? Oh, Roger sister got married. Oh, yeah. Remember, it was an incredibly beautiful wedding. really made a beautiful bride this guy that she's been dating forever. is finally her husband. Like if I can have him I'm glad she's the

⌚ 10:24

thing that will be kind of

⌚ 10:27

out she's listening. Probably having him on like

⌚ 10:32

getting caught in. Yes, it is. This is after hours radio celebrating live from the heart of Montrose. We're here and we're queer. We certainly are good as being Pride week coming up just a couple of weeks away. Can you believe that's what

⌚ 10:44

was so hot about that opening? We Sing the Body Electric, you know,

⌚ 10:49

they were all going to be stars. Yeah, I'm telling you, baby. If you don't believe that, just stay tuned. This is. This is the time this is the point in the show where we push the button and Alan says. Anyway, what else is happening? Guess we've got

⌚ 11:05

gas. wave

⌚ 11:09

wave, okay. Oh, this is not I can't wait.

👤 11:16

Women Against Violence Everywhere. And that includes men too.

👤 11:20

And we're going to be talking about the violence that's going on in the Montrose. Yes. Last week. We had Steven Liddell here in the studios with us talking about how he and his level were beaten. And did you realize there are a lot of women that have been faced with the thought of rape and Montrose it's safe to live there because it's full of queer it's wrong, wrong as right and we have to be very serious about this and some folks are waiting from waiver here. And we're going to be talking about violence against women and some of the things that are happening in our community that's pretty scary. So you need to stay with us it's not scary if you know what to do to protect yourself. That helps that's it and we'll be talking about the police department and the union I got a union meeting in town I don't have time to do anything anymore or baby oh no I'm still looking for a husband

👤 12:21

that gum gum gum in

👤 12:22

👤 12:31

👤 15:06

are perfectly free to develop our own I hope you're listening

⌚ 15:41

⌚ 15:52

yeah

⌚ 16:00

we're here and work where we are

⌚ 16:10

here it is become butcher Nelly in less than a day simply by taking the little pain by No, there's no need to recruit, seduce or rely on environmental conditions anymore. The little pain pill does it all. Just one tablet before breakfast breaks the cycle of heterosexuality for a full 24 hours. For years. heteros have been asking gays if they would take a pill that would make them straight. Well last queers Ville labs have responded to this dilemma by giving heteros a taste of their own medicine. Yes, the little pigtail does it all. The boring cliched life of a heterosexual can vanish in one go. This is Betty Morgan of Gresham, Oregon, about the little pain pill.

⌚ 16:44

My life was a mess. Bridge clubs. Gross has been alcoholism, you name it. Then one morning I got my act together and took the little tape pill. In an instant my sexual orientation change, as did my desire to be married. Well, within a week I ditched my old man met a terrific woman and got joint custody of my children. All this without water retention, or loss of appetite. Thanks, little pig. You made a new woman out of me. Results may vary

⌚ 17:14

but don't consult a physician. The little pink pill it does it all. And I'm

⌚ 17:19

sure it's gonna be available for Pride week down at the local drugstore. Right now. Yeah, they're certainly not. And they have a video store on the corner too.

👤 17:27

Yes, but they don't have any gay films.

👤 17:29

Wow, what a difference. Three words for KPFA come on out. Join us bring a friend. What do you think about the turnouts? Well, it's never enough. Never enough. Never enough.

👤 17:42

I guess before I should knock them. I mean, quite knock him I should go down there and ask him if they might get some gay lesbian videos. Well, yeah, we'll do that. Call them up on the phone. Yeah. Now they close at midnight, and it's 20 minutes after midnight. So you must be listed after hours on 90.1 FM KPFT Houston, five to six 4005 to six KPFT that's the number to call if you just like tuned in and your car and you drove off in the ditch. Let's homosexuals are added again. Yes, yes, yes, certainly. We got a lot happening this morning. This way out was Greg Gordon and Lucia Powell coming up at one o'clock. And some folks were wavier in just a minute so stay with us so a lot of good news coming your way Yeah, sort of. And then maybe later on in the show the history of the game has been moving oh

👤 18:36

Great show.

👤 19:59

Right You just got elected as president of the Union at work. You simply support personnel you went to City Council one day and said thanks for having the courage to have an openly gay person here and not back to work and this guy said I want to talk to you and I thought I was proposing

👤 20:33

now it wasn't a match thing for

👤 20:49

KVMs run out bring your friends. What do you think about this?

👤 21:19

Jimmy ate in there

👤 21:32

I just remembered something. No, I'm just kidding. We have a lot of fun kids. But this is pretty serious stuff. Because if you don't come out of the closet, this is not you know what I mean? We're just wasting our time. So we're not gonna give up the fight for you. But you got to help us out by coming out and believing in yourself and to hell with all that garbage. The church said and your parents said it's not true. Gay is good. Lesbian is wonderful. And we're gonna make a difference, right? Yeah, that's it. After hours radio celebrating live from the heart of Montrose. We're gonna be talking with some folks from wave in just a second about something that's very, very serious. I want you to stay with us this way out with Greg Gordon and Lucia Chapelle coming up at one o'clock, along with the blonde bombshell. Yeah. And then Roger is going to be reading from the new book this morning. And our gay lesbian Pride week month, men with the pink triangle for that tells the story of what Hitler did to the homosexuals during World War Two.

👤 22:32

That is something we need to always remember and handle. So we need to sit

👤 22:35

on your recorder and get ready to go with that one. Because this is a very good book. And if you've never read it or heard it, it's called a man with being trying to be coming up this way in just a little bit. So stay with us. 90.1 FM, five to six 4005 to six KPFT. That's the number to call. Especially if you have a birthday or an anniversary or just want to go say, hey, Claire's, get off the radio. We won't get off but now right? And we never get off the story of my life. We just like having straights. Listen to

👤 23:10

I'm here at Berkeley tonight to say some good things about Texas. I'm proud to check this study. I know when it's, I could not argue, challenge to me. Something in my life in this state prepared me to hear the word of freedom that Harvey spoke to us. I am here tonight. Because it is time that all of us who love this state that gave us light and has nurtured us and taught us our values to stand up and claim the history of the state for freedom and justice and human respect, away from the forces of narrow mindedness and bigotry, that too often dominate the politics of the state of Texas.

👤 24:02

In this nation in this decade, there is only one way to deal with an individual who is sick with dignity, with compassion, care and confidentiality and without discrimination.

👤 24:33

Once disease strikes, we don't blame those who are suffering. We don't spurn the accident victim didn't wear a seatbelt. We don't reject the cancer patient, but didn't quit smoking. We tried to love

them and care for them and comfort them. We don't fire them in order to evict them. Don't cancel Older insurance

⌚ 25:01

that's right my husband and I nice clean hospital you know I lost mine I lost mine on the street. That's right. They killed it on the street 27 years old they had dead straight baseball bats that's why my children chose to drop by people like you because everybody knows that quiz don't matter quiz don't love

⌚ 28:21

bigotry is

⌚ 28:25

played by by the state

⌚ 29:02

if you don't believe it's war, try holding hands with your lover and walking through Sharpstown wall and see what happens. I don't give a damn if you've lived together for 45 years they don't like it may. We were a longtime companion two weeks ago when some folks got up and walked out when the boys started getting undressed. Yeah, I mean, nothing happened. You see more on nighttime television than you saw on that movie. Remember, just because we were homeless. I didn't like it.

⌚ 29:27

Remember just about a month ago when I picked it up at the airport. Yeah, say a long bow peck on the cheek.

⌚ 29:33

👤 48:50

Sometimes I find it difficult to explain what kind of show speakeasy is it's a crossover show because it cuts across race, class and gender. It's not. It's a show about pain as well. It's a show about healing and the changes you go through living in this world. It's a reflection of my life experience and experiences of other people that truly truly truly believe that we are all interconnected. My name is Tai Chi I listen to speakeasy and hear what you've been missing. And Kpf T

👤 49:29

I guess I should like to move that tape over to the archive stack.

⌚ 51:04

as you I remember less than four years ago when I was walking through an amusement park, with my one arm was called clear by a child six years old. And from that day forward, I've been all too aware of who the child molesters in this society are.

⌚ 51:19

Gay and lesbian people so you have a little boy and I would hate for my little boy to be like that those are animals

⌚ 51:39

⌚ 52:08

This calls for the straight folks who don't mind gays, but wish they weren't so blatant. I thought you're gonna you know, some people got a lot of nerve. Sometimes I don't believe things I see. Have you

met the woman who shocked women kissing us in the same breath. But gays

⌚ 52:36

say something about it before we quit.

⌚ 52:39

It's next to the dialog. Shouldn't be office spend your whole lunch hour already about her new gaze shouldn't be blatant. In your class, rattling a mile a minute while you're talking to John about the camping trip with a musician you go in a public bathroom. And all over the walls. There's John loves Mary Janice digs Richard Pepe loves the Lawrence etc. But gays shouldn't be blamed. Or you go to an amusement park, and there's a tunnel of love. And pictures of streets painted on the front and grinning couples coming in and out. But gays shouldn't be blatant. Fact is blatant Heterosexuals are all over the place. Supermarkets, movies, at work in church, in books on television every day and night, everyplace even in gay bars and they want gay men and women to go hide in the closets. So do you straight folks? I say Sure. I'll go if you go to but I'm polite so after you

1:24:18

And I'm Greg Gordon for I am RU. Gay. In San Francisco in in Harvey's office at Castro camera. And Harvey is graciously taking a few minutes out of his very busy schedule to talk to us about politics in San Francisco and how he got elected the first openly gay person to be elected to public office in California history.

1:24:41

Legislators and the executive officer has been a the local supervisor be the statewide run your life. They run your life and they spend your money or they collect tax money from gay people. And don't give us anything back in return. Take it for their golf courses to take off have money for their pet projects. And give us an Tom that insult us, but they've given us our rights. That's not motivation if you like being harassed by the police. If you like being a third class citizen beat up, you like being beat up by pugs. If you like the church yelling at you, don't register, don't vote. Don't complain. If you want to shut up shut back in your closet. If you want to be the traditional gay person who gets beat up and whip his home and say, Well, I'm gay and I deserve to get beat up. Fine. Otherwise, the only thing you could do is registered to vote. already. Come on out. Join us bring a friend. What do you think about the turnouts? Well, it's never no never, never No. Not to the game movements about after I got elected, I got the phone call. Again. Quite a few of them. One was from a 17 year old child in a small town in Minnesota. And the boy is handicapped as a boy's first now that they want to put him in an insane asylum I did that Okay. Probably talking to this when you read about a gay person, get elected here. Our radio if it works for KPFA come on out. Join us bring a friend. What do you think about the turnouts? Well, it's never enough never heard of never enough. We must destroy that Miss Swenson, draw a shadow. We must continue to speak out. And most importantly, most importantly, every gay person must come out. You must tell your immediate family, you must tell your relatives, you must tell your friends if indeed they are your friends, you must tell your neighbor, you must tell the people your work. You must tell the people in the stories in shopping once they realize that we are indeed their children, and we are indeed everywhere. Every myth, every lie, every innuendo will be destroyed once and once. Once you do, you will fail so much that it's for KPFA. Come on out. Join us bring a friend. What do you think about the turnout? Well, it's never enough. Never enough people in this country to do one thing. summaries in Des Moines or San Antonio, there's a young gay person of a sudden realizes that she or he is gay knows that if the parents find out to be tossed out of the house, the classmates would torque the job. 👤 1:30:08

Today Roger sister was married. Yes. And we went to the wedding. First time I've been to a wedding and several years,

👤 1:30:16

he made a straight wedding. Yes.

👤 1:30:19

And last month my father died. And today I was reminded again, how much society takes away from us. We here's Anna and Jim, beautiful, beautiful people who really deserve to be there. Public publicly announcing their love and their marriage to the world. And I was reminded standing there, almost to the point of tears, how many of us go through life struggling for love. And when we find it, we don't get any recognition from the society, or from our families, a lot of times, and a lot of times from each other. Most of the time, sometimes in our circle of friends, you find a lover or a boyfriend and everyone becomes jealous. And envious to the point of a lot of times, excluding you from their friendship, because

👤 1:31:18

that does happen sometimes for that reason. So there's a lot of a lot of the times it's because your new lover is taking you away from your, your friends, you don't have a lot of time to devote

👤 1:31:32

to. So this morning, we want to recruit you into the movement. We want to promise you that you will be hated by the church, you will be hated by most of society. You'll be hated by your family. In some cases, you'll be turned away by your friends to be laughed at and scorned by most of the people you come in contact with in your daily life. And it's really great. So come on down and sign up today.

👤 1:32:02

Okay, now you presented the worst case. And of course,

👤 1:32:04

of course, we're kidding. Because, yes, some of those things might happen. But I've talked to the

Houston Post on Friday. And he said, What do you see is the hope of the movement? And I said, Well, I don't really know the answer to that question. I don't know a lot of answers to many questions. But I'll tell you this. As long as there's one person in the closet, it's going to hold my life back. No matter how open I am. No matter how many union jobs, I get an HPD I'm going to how many parades, I'm marching, no matter how many radio programs to do as long as you're in the closet. And as long as you're suffering, my life is going to suffer. So today I asked you to find whatever courage you need to come out and become a part of our family. This is the time to do it. If you've never been to a parade, please show up. In three weeks, feel the energy, feel the love, and help us help you find yourself baby. As long as you continue to hide and wait on someone else to do it. It's never gonna get done. Harvey Milk's not coming, man, the dickens not coming. I don't have any answers for you. No one else does. Either. Nobody's coming to save us. You're your own salvation. And the only way I'm ever going to be able to reach the full potential of my life is for you to understand that and come out and be a part of your life. So that's what we encourage you to do this morning. Because if you don't do it now, it won't get done. And child. If I've learned anything, especially over the last three years during the show, I realized that time is the only thing I really can't control. Because it keeps ticking away. Day by day, week by week. And sometimes it feels like it's rushing by,

⌚ 1:34:05

well, you know, coming out is not an event. It's a process. It takes a long because you don't you come out a little bit you come out to yourself. You come out two good friends, you come out to family, then maybe you come out to the world, but it is a process. And I think gay pride is the same thing. It's a process and coincides with coming out the more you come out, the more pride you feel.

⌚ 1:34:37

And if you do come to the parade, you will hear over and over again. Oh, I wish it could happen all year round.

⌚ 1:34:46

Yes. Just like Christmas. Why can't it be Christmas every day? Why can't it be Pride Week every day?

⌚ 1:34:53

I have news for your child can that can be when you allow it to be what I was talking about I hadn't been to a wedding in the first one in a long time. Jimmy said straightway. And that's because there are unions, not recognized by the state. But recognized by us, that are gay and lesbian people do

⌚ 1:35:17

have been to many, they're wonderful, they're beautiful.

⌚ 1:35:20

1:35:20

In fact, we're going to be talking to a couple of gentlemen, who are longtime listeners of this program. And inviting you if you would like to participate in their union.

1:35:37

We're gonna have lunch with them on Monday. But what we're talking about is decorating the lobby really nice. Making it very beautiful out there. Having the flowers and everything set up at the end. And having Matt proclaim to the world, just as Anna and Jim did today, in our own way, their love and Promise of Hope for each other. And hopefully, we will be able to bring you that live. And after that, we will have a reception in the lobby. Who knows what we're gonna do, Mary, I'm just really looking forward to it. What I do know is that there's a gay Euston police officer out there somewhere or lesbian who is listening or has listened. And Baby, do I need to talk to you? I need to talk to you because I need a lot of support, I need the support of a friend. A lot of friends down there, girl. You know what it's like when you need a friend and you don't got nobody to talk to you that understand. So

1:36:56

I'm not going to beg you not yet. Maybe in a couple of weeks off. Right now I'll just ask you to get a pencil. I'll give you my number here in just a minute. And every week we hear Harvey say we must destroy the maths, we must destroy the maths. And that's what we're going to do. We're going to destroy the maths that were sissies that were waiters and hairdressers. We're going to let people know that we're here and work where

1:37:39

I wish that if I wish anything I wish that you could feel what I feel or what we feel who are out on the job every day. I wish you could feel what I feel when I speak to my family who does support me suddenly I wish you could feel what I feel when I walk the streets of my

1:38:23

neighborhood and get smiles and waves from people I wish you didn't feel as much pain as don't know how we can get out of the baby. One way is to quit hurting each other. So

1:38:54

there's got to be a way out of this mass. I really believe that there's someone out there for us, me and you how we find

1:39:22

that if I can get you to do anything for yourself. During the next couple of weeks, I want you to find ~~the~~ ~~couple~~ to come to the parade with us. Because what's funny is all the bickering and all the

the courage to come to the parade with us. Because what's funny is all the bickering and all the fighting. We do it the people who think they're in charge are really in charge. Nikolai Nikola Tesla was in charge you say as in Poland, or in Czechoslovakia or Romania or some doctor saying that people revolted shot on the soccer wall. Now we're not encouraging you to go out, shoot these so called leaders.

1:40:10

No, no, no, no, no. We're just telling

1:40:13

you to show up and do this for yourself. Because this that's what it's all about. And Harvey Milk, have said it right? I've said it right and said it correctly is said it over and over and over and over again. There are a lot of people in charge. We think they have all the answers, and they don't I certainly don't. And I never have said that I do. I do think the answers are out there as long as you work together. And I think what hurts us most as human beings is that everybody wants to be in charge, believe it or not, they really do. There's something inside us, Dr. Hart, Dr. Harvey now, Dr. Martin Luther King call it the drum major instinct. All of us want to be leading that parade. Our message for the last almost three years has been we'll continue to be

1:41:12

everybody has to be out. Everybody deserves a moment in the spotlight. Until we in a position of power can allow that to happen. It's not going to happen.

1:41:28

Until you come forward, it's not gonna happen. It's just like the women from wave said this one. And people don't want to get involved. People are afraid to come forward with such women again, lesbian. And until you realize that we're screwed baby, or should I say we're not screwed.

1:41:49

But there's so much happening. And it's only going to be wonderful. So please come out and be a part of it.

1:42:00

Roger is going to read something to you at three in about seven minutes. That's called the man with the pink triangle. This book will be shared with you over the next 10 or 11 weeks. And what it is going to tell you is the history of the homosexual and how he was treated by Hitler and Hitler's Germany. And what you need to understand while you listen to this is that it was a law that allowed Hitler to put the Jews in the homosexuals and the blacks and the gypsies and everyone else he didn't lie into the

gas chambers in front of the firing squad. It was a law, Hitler's law. That said it was okay to kill these people. One of our favorite law men, Jesse Helms is running against a black man. And we can only hope that brother helms will open his mouth and spew forth the hatred and bigotry and racism and homophobia that we know he carries deep inside his soul and make a complete fool of himself to help get this man elected and get him the hell out of the nation's capitol. Send all your money to just kidding. We will hope and pray that this gentleman gets jesting. Anyway, what else is happening? Longtime companion

And what the pink triangle behinds hegre, translated from the German by David Fernbach with an introduction by Hamilton. Introduction. The crimes of not of the Nazis during the 12 year rule are so terrible and so enormous and scale as to be difficult even to grasp. Today, nearly four decades later, the era of fascism in Europe and the second war war is fading into history. Yet for a long time while to come. The atrocities committed by the government of a civilized country in the middle of the 20th century, will continue to horrify future generations. Are we so sure, these are just acts of another people in another time, and that such things could never happen again. There are a few human societies which have learned to do without violence and war. And in any modern war, the hatred and fear generated between rival armies and populations is unprecedently amplified by the power and sophistication of the weapons at their disposal. We have seen on television how the United States acted in Indochina and then the war against Hitler. The British and Americans also perpetrated the wholesale destruction that only adds to their sufferings if they publicly advertised themselves as convicted criminals with no open gay movement to support them. Individual initiatives of this kind were all but impossible for more than two decades after central voices were heard
