03:09

Yes, yeah. So hello to everyone who hasn't heard the show before since we were on Saturday night. But here we are on Friday. And I do have two guests with me. For the last few months. I've had a lot of interesting people on and this is the leather line. So we do talk about BDSM and

there are a lot a lot. Why are you peeping at me?

03:37

I was just saying who was on Mike one. Okay. That they're so beautiful. I just had to look at you all over again.

03:47

Anyway, there are so many things going on in the Houston community. I've only been here about a year and a half and I have totally, totally just had my mind blown. You know, you kind of go from not a whole lot going on and having to travel to other places just to like go to a party. And you guys just have a party. Every at least one party. There's at least one party one gathering support group Munch had something going on here every week. My

04:19

ex we have is this on? Yes. Okay. We have something every single Friday night. And every single Saturday night, 52 weeks a year, every year and something on almost every Sunday. And most Wednesdays

04:39

it's a pretty busy town pretty busy schedule during the visit. Well first let me introduce my guests I have here at master chest say hello. Hello, and Travis Wilson.

04:50

Hello Max.

04:54

What I wanted to talk about was it wasn't always this way. Correct, correct? No

05:02

Max, it was not always. It used to be kind of like what Conroe is now.

05:13

Okay. Tell me about it back in the day, you know how how things were for how many years ago? Would that be for you, Travis? I know it's been eight years for you chests here

05:25

and used to you, right? But they weren't real dry.

05:29

When did you start doing things in the Houston Community? Period? Okay, you

05:35

have to go back to the very late 1980s, early 1990s. There was really in the pansexual community. There was nothing in the late 80s. There was in the gay community. There were a couple of serious s&m groups. There was the the national association was here. And a group called the brotherhood of paint. Oh, they were serious guys, the brotherhood of paint. Yeah. They're still here. But they were there in the in the 80s. And some of those gentlemen came on to really help the pansexual community grow and learn some BDSM things that we might not otherwise have, have learned as quickly. And we wouldn't have gotten started as well. But at that stage, there was really nothing I liked. I mean, I was involved at that stage, but I had to travel. I had to go to New York to go to events. I used to go to a place called dressing for pleasure in New York, which was an incredible event that happened once a year. And at that stage in, I guess that started about 1819 86. They had 10 years of that, and those of us in the middle part of the United States, where we did not have a Yulan Spiegel or a Janus like they have out on the West Coast. Ulan speedos on the East Coast, right? We didn't have anything like that. So once a year going to New York was the big thing. We then started a club here in town called Houston pet guy named Robert Dante who was here for the Houston s&m ball really founded that in the very early 1990s. Maybe 1990 itself or 1991 started a little house over on bend the most of the people that came to it, found out about it off of a what we now call live chat channels, but they used to call a BBS is your idea. Well, there was an old BBs service called Houston chat channel, HCC and you would get on and type on your old 1200 baud modem. And we would meet for lunch it was every Wednesday and then we would once a month or so they would have meetings at some restaurant. And for we started pet then or when Dante started pepping a few others. There was most of those people came to it. And we met over at a little place on Montrose near Westheimer. There was Charlie's diner. And Charlie's diner should have a plaque. It's been a long time. But Charlie's diner, God bless. It was just the greatest place. You could do anything. I mean, if you wanted to see transgenders at three o'clock in the morning, that's where you went. You know, it was the place that you know to get a good steak or good hamburger. And look at really strange, weird perverted people. Getting to Eau de let me tell you, it's easy to find strange, weird perverted people now. We used to have to look for but we found him at Charlie's

08:55

Yeah, just went to pride parade.

08:59

Pride Parade wasn't then what it is. But that was kind of the beginning. And we used to thank God how lucky we are that we could meet at Charlie's and maybe 15 folks show up. And every every meeting, we would meet twice. On twice a month. And we thought it was just so special that we were doing that. And it was funny because it would be mostly some of the gay leather men from a brotherhood of pain would be there. But every meeting, they would be this new little couple that we used to call the couple from a leaf. And there'll be one of these new little couples that would come in and they would sit for tables away. And they would look at all the perverts and you could just see them and they were eyeing us like should they because we ran an ad in the public news was the name of the newspaper then wasn't the Houston press. It was this little small All thing. And we ran an ad and these people would see it and they would come look at us and they would never come back. Because we were as bad as they were afraid we were. And we used to talk about how we could build a community where the little couple from a leaf wasn't afraid of us. And I think we've done that we've got about 1000 of those little couples from Melee that come to these events on quite a regular basis. And Max, you've met a number, right? But that's how it started. It was a long, slow haul for a while.

10:30

What did you do as far as getting together to play? I know the tradition of the Munch still goes on because many of the groups meet, you know, in different restaurants here. Yes, munch.

10:42

Okay. That's a loaded comment

10:53

came from those that our great news group and internet people, the phrase Munch pretty much deals with the s&m world. It's someplace between a meeting and a dinner. It started a lady named Stella started at a hamburger place out in California is my recollection, came up with that phrase, and pretty much every BDSM group in the United States has a month has a march. If you don't serve we s&m People are sick in more ways than one. And if you don't serve food, at our meetings, we pretty much not going to show up.

11:29

That's true. I think that any meeting really, if you don't serve food, then most people won't show up.

11:35

But what we did as far as play, a couple of things, and every community grows differently. Every s&m community whether it's a Dallas has a radically different s&m community than Houston. Chicago has a radically different s&m community than we do. And Chicago's is

Houston. Chicago has a radically different s&m community than we do. And Chicago is different than Dallas. Every community grows based on how the people that were involved when it started, how they kind of got things going. And how we got things going was in two ways Houston pet would throw about three or four times a year, a big party. And back in the early 1990s, there weren't a lot of places to go to big parties, we would want a big warehouse. And we would spend two days fixing it up. I'm lazy. So I would show up with pizza. And everybody else was so grateful that I showed up with pizza that they didn't care that they've been working for 14 hours. And I hadn't done a damn thing. But I got all the credit. And so they people would put huge tarps all the way around this gigantic warehouse. And there was absolutely no air conditioning and no heating. So we just were miserable in the summer and we were miserable in the winter. But you know what? We were doing s&m in a big place. And it was just incredible for us because we weren't used to it. So that was one place that we started. So we got kind of a tradition of the big warehouse parties that H pep would throw. And then some other O's kind of began building our houses out to where we could add parties. I will never forget the first party I ever threw was in 1991. I invited every person in the state of Texas that I knew there was into s&m. I hired a concert pianist. And they were playing on my grand piano. We had all 21 people that I knew. And I knew a lot. I mean, that was the that was the Texas community as I know a lot of them were that from that dressing for pleasure event. And we tried to be as European sophisticated as we could be. And we dressed in our leather and our latex. And when people walked in, I had a naked girl hanging from a beam and my den, concert pianist playing on my grand piano fireplace roaring fire behind this naked girl. And somebody was hitting her with something. And we had candlelight all around. And everybody that came had to bring the best food they could possibly bring. And we had music and food and s&m and 21 people thought it was the greatest night of their life. I mean, it was really something special. From that. The came the idea of house parties. And most cities have some dungeon you can go to Houston is a house party town.

14:37

Yeah, apparently isn't one here really. There are

14:41

wonderful homes in this town that have over the years built out to where people have three and four or five dungeons in their home. And each of the clubs here in town the the new club, Houston not pet doesn't do this, but arrows, a wonderful people at arrows that have great party houses. Great guy named Safari Mike has the Safari Club. And his house has been turned pretty much into every room a dungeon. Yes. So the one of the reasons that we have these parties so often is that we got a lot of people that own party houses now. And they want those houses to be used. My house is very readily convertible to work. I mean, y'all have been in it. Every room is convertible to a play room very quickly. Right. All right. So that's that's what we did then. And it because of the beginnings of that the large warehouse and the small party houses, that's how Houston has continued to grow. And H pepck continued to only Houston pep was the largest club in Houston for a long time, one of the largest in the southwest United States for a long time. And they always through large parties. And in the old days when there weren't a lot of other cities and towns that had great s&m organizations, people would come to every pet party from Dallas and San Antonio, and even New Orleans and Austin. And the parties were an event.

Kind of hard to do that now. Because we're just we're pretty commonplace. You know, I mean, every CSI show has something about kink on it. Now. There's some somebody getting killed through s&m One way on some TV show every week now. So yeah, it's definitely it's

16:31

covering more.

16:32

May you find that? That kind of publicity hurting you're not really your membership, but like, hurting the whole image? I usually do. I haven't seen the s&m one yet. They're

16:49

very positive. Yes, they CSI.

16:53

They don't, they don't laugh at. They don't laugh at what they have found. Okay, like the dead body or whatever they actually investigated and the way they've investigated it has been absolutely fabulous. In fact, I wrote the show and told them I was very pleased. Now

17:12

everybody that I know that is that watches these shows, has been extremely pleased and surprised at the very open and honest sort of non judgmental portrayal of not just s&m, but transgenders, and any form of alternate lifestyle folks on those sort of shows very pleased.

17:40

Yeah, I quit watching Jerry Springer. Like this second episode I ever saw I clicked watching it. It was just it was ridiculously stupid. But there I'm getting off the soapbox about that. When do you find more straight couples doing s&m? Or gay couples or bisexual? I've always wondered that the answer

17:59

to that would be yes, yes.

18:03

Yes. So it's it's about evenly spaced, or it's just

18:08

absolutely everyone.

18:10

Only gay people. straight men straight women. That's it and transgenders. Those are the only people I know that are in Destiny.

18:21

So you have any bisexuals?

18:23

I left them out. Why did you should have stopped me on. bisexuals by that?

18:34

Yeah, absolutely.

18:36

So are there more bisexuals than the others or there?

18:41

From what I've seen, there are more bisexual women than bisexual men.

18:49

Oh, you know what that is though, don't

18:50

you? Why is that because

18:51

we are so judgmental in the s&m community. Every guy wants his girl to be bisexual. I mean, that's like,

19:01

every guy in whatever community, right?

19:04

That's every guy on the planet.

19:07

That the fantasy of two women in bed. Yeah. But

19:12

you know what? Even in the s&m world, we are afraid to say as men that were bisexual. Yeah, there's every bit as much of a stigma stigma. That's what I'm looking for. Thank you. There's every bit that stigma. And peep men are just afraid to do that. They're afraid to be open and acknowledge it. Yeah, yeah. Come out. And I'm certainly not I would certainly not, absolutely

19:35

not. Yeah, no, no, I'm

19:38

glad we got that straight.

19:41

So chess? Yes. You've been here in Houston now eight years.

19:46

Eight years. I came to my first he had a ball in 1998. Okay, I think that's eight years from Denver. I had heard about it. Ah, Pep s&m ball up in Denver. And we just started up their thunder in the mountains. So I was actually on my computer talking to a little girl down here. And they asked me to come down. So I came down. And I went to the H pep play party the

night before I walked in. And I went, Oh, my gosh, you know, this, it was my deciding factor to move to Euston. Okay. I mean, I lived on the East Coast, I lived on the West Coast, I've lived, you know, pretty much all over the country, Chicago. So I've been around to other groups. But, you know, I'd settled in Denver, and Denver did not have a large group at that time they do now. In fact, they have a couple of them. But I came down here and I went for Texas, not Texas, you know. And I walked into this thing, and I went, Oh my God. And there were people that playbar there were at least 400 people that play party, there was wall to wall people, you found people playing on the walls. Anywhere there was a spot to play, you found people playing, okay, and um, I was like, enthralled. And at that time, we were at a place called Club Chicago. And they had a balcony area upstairs. And so here I am being ever voyeuristic that I can be. I'm sitting up in the balcony looking down on this mass of people going. And slowly I could feel this energy being drained from my body. There was that much energy in the room that I was absolutely exhausted. I didn't play. I got exhausted just watching. It was just the energy level in that room. And that was the deciding factor for me coming here.

22:11

And what do you think of the ball the next night?

22:14

I didn't go to the ball the next night. I did other things.

22:20

Okay, we need to keep our PG 13 rating

22:26

things okay. Yeah, she

22:28

went shopping at the mall. Yeah,

22:31

I went out. I went out to eat Chinese

22:39

and we just got that our

22:43

she didn't look Chinese

22:49

anyway, oh, I think I turned red.

22:54

If you didn't, I did. Anyway, she Chinese.

23:05

Anyway, I didn't go to the ball the next night, but I knew that I just the energy there that night was enough for me. I was down here a few months later. Okay. The first thing I did when I came back to Euston and I recommend it for anyone that that moves here or even lives here now, who wants to be involved in our community. I went to my first meeting, it was a volunteer meeting for the next year's ball at Travis's house. Okay. I walked into trap, didn't know, I actually had been to a play party at Garden of the heights right before that. But I walked in to his house. By the time the ball came around in March, I knew so many people in this town, it was on real. I could not believe the people I knew. I was involved in Eros. I was involved with H Pep. I was involved with a couple other odds and then groups and ongoing and all of a sudden I am so busy and so social.

24:18

I went it is mind blowing

24:21

it very much so and especially I mean, I hadn't been this way since I lived in New York. I mean, you know, while I lived in Philly, but I've been like that since I've lived in Philly. Denver had I go back to the days before, when it wouldn't even house parties. When you couldn't even find this anywhere. You know, you went down. friend of ours Jack Brunello has written a couple of books tells him better than I do, but do you go down to a dark alley, you know, and you find a house and it's not marked. It's all blacked out, you know? And and that's where you went and played, you know, and And I mean, I started out there were no women. I played with all men for years before I ever even got to touch a female. You know, I'm played with women. There were no men. No, there were no women were in rapport where I was involved in. So coming down here, it's like smorgasbord. You know,

25:22

25:23

it was this way, eight years ago, eight

25:25

years ago, from eight years ago, I have watched the age pet ball at his peak, four years ago, his last year on the board was at its peak, then. I have watched the ball change. It was at that time, just when I first came down here was just a ball. That next year, Travis brought in presenters, the board of fake pep brought in presenters and all of a sudden, ah, Pep, went from other clubs knowing about it to all clubs knowing about it, because they were bringing in big name people that were that were famous in the BDSM. Community. Okay. They were coming in and presenting, you know, doing workshops, that kind of thing. That was that was the next year. Then the next year. Again, they brought in big so how about

26:32

the rest of the community? What did you see going on with I saw

26:36

arrows, arrows has arrows is probably the most stable group I've seen, I think, as far as their house, I mean, the stable the way they've been there, they've always had the same house parties. They always had their Saturday meetings,

26:55

Barrows has had a remarkable couple of lead them. They began in 1997. They had, there had been another club that Autumn, Autumn seasons that some of these people were part of. They held a big symposium in September of 1997. And immediate the autumn season scripted. And immediately after that there was a big breakup. And clay and Jean formed from that breakup, this group called arrows along with another couple, Pam and Dawn, wonderful, young, wonderful couple. So from 1997, until the present, clay and Jean had been part of the leadership role there. They always have a board and it used to be the board was was Don and Pam as well as Jean and clay. And now there's there are other people that are part of that diner, Don and Pam had to step away. They began a tradition of having a meeting every Saturday. Used to start at 12. They had to move it to 1230. But it's 52 weeks a year. Yeah, if a Christmas Day arose has their meeting Saturday 1230.

28:00

And is that 1230 in the morning or in at night? Oh,

28:03

. . . . .

in the afternoon, the afternoon. Yes. It's all right near here at Richard's

28:07

educational meeting.

28:10

They Well, you say it's educational, the beauty of the the arrows meeting. It's what you do on Saturday afternoon. Yeah, yeah. You know, sometimes maybe they'll have somebody there to teach how to flog sometimes maybe they'll have there's somebody to teach medical play or fire player cupping. Or they'll just be a discussion about this aspect of s&m or this aspect of dominance and submission. But the truth is, if you're in the s&m community in Houston, it's what you do on Saturday, if you don't have something else to do. It's where the s&m family meet, right? And I've always both kiddingly and seriously said about clay and Jean, that they aren't about changing the world. They're not about fighting for the rights of sexual freedom and sexual liberation. They're about having a family that gets together and has fun together. And if you're part of the Aeros group, you become part of the Aeros family. And they're going to get together and they're going to have their meeting every single Saturday. And you go there and after the meeting, you go out to lunch together. So it's a nice social thing. And then twice a month like clockwork, they're going to have one of these house parties. One of those house parties is going to be a clay and James house during the month and the other one is going to be at now. Any number of other homes, and they will just rotate that other party around the arrows community. But there's this great sense of family and friends and camaraderie and if somebody gets married, everybody goes. If somebody's in the hospital, everybody goes to the hospital. If somebody needs help moving, they they show up to help you move. So there's a strong sense it arrows of family and support and all that

29:57

it is a good place for newcomers. Yeah, to actually get an introduction into this lifestyle, but to take a break for a minute, this is Max rules. If anybody has any questions they need to get on the line and call or send me an email at max rules at max rules.com ma X Rulz. And this is KPFT radio that listens to you.

30:25

Okay, yeah, I have to do this station ID. This is 90.1 KPFT in Houston. 89.5 in Dallas Dance. It is the World Wide Web KPFT dot o RG Yeah, it's been a while. I haven't heard this song. But I figured I saw the title of the song and just it made me think of y'all. It's the name of the CD is RuPaul red hot. And the name of the song is kinky freaky. So we're going to see it's highlighted so I can play it so I'm gonna see what it's like. All right, and this is just for you.

30:59

Okay, does this mean I get to take a cigarette break? Yeah

Okay, does this mean I get to take a cigarette break? Yeah,

31:03

cuz I also have but boy the beating of the Minotaur darling

31:22

Oh all right. And we're back with Mr. SMax rules. It is Max Max rules right? Last time.

31:30

You do that you do that?

31:32

Every time. I called you misters Max Payne

31:38

that's its rules are a U L z and I do

31:45

obviously seen you with a whip in your hand.

31:51

What as a matter of fact, I did bring the perverted toy. Yes.

31:55

The poverty toy the month. Oh, wait, wait, I gotta announce the music first before we get into the perverted totally. Okay,

32:00

we'll get to the perverted toy after we get back to our conversation. Okay,

32:04

32:04

the first song was by RuPaul on her red hot CD. It was hanky freaky. Freaky. Yeah, Pinkie, kinky Frankie. I can't say it.

32:14

But you can do it though. Oh, yeah.

32:21

And the second song that we didn't hear all of but we heard a good selection of was

32:25

a good suction of section. Six section suction. Yeah,

32:35

it's the tongue ring. I mean, as earlier. Yeah.

32:37

The Bush administration understand you're on the air David.

32:41

I hope that was the beating of the Minotaur by but boy, on his vision CD.

32:50

Did the Clinton administration

32:53

I think he understood it. I just, nevermind. I don't need a secret service at my house. Okay, and Mr. Is Max. Okay.

33:05

So is we have someone calling in that wonderful we do. Oh, we do. So H pap was the first organized tune around the first

organized type group, the most

33:17

of the pansexual groups. All right, about the same time that H pep came into existence. There was the National Weather Association had a Houston chapter. And it was a great gentleman named Mike Collins who's no longer with us, who kind of ran in LA, which is National Association. For a long time in Houston. He and Dean what was Dean's last name? All right, Dean MALLRAT. We're here in Houston and did that and Dean has also now passed away Dean moved to Dallas many years ago. But they were real foreigners in the gala their community. And also part of that gay group of men that stepped over to the pansexual community and helped H pep grow. So in from the early 90s, up to 1995 H pep was the only pansexual group and the NLA and brotherhood of pain pretty much were the gay leather male clubs that were active. One of the major things that happened in the growth of the Houston Community was that in December of 1995 H pep threw its first s&m ball. That was a major happening in Texas s&m And especially Houston. Part of the reason for that there have been some large forces that brought about the growth of Houston s&m Just like the same forces brought about are some one of the forces brought about growth all over the country, which is the internet of course, right. But up until 95 That that hadn't been the tremendous impact that it is now. And in the first week of December 1995. We had an H pep meeting. We had 35 people show up. We had the ball, the Houston acid and ball that took place at Tantra that month. And we had so many newcomers come to the very next meeting because they had gone to the ball. We had about 125 people show up at the next Houston pet meeting. Most of those brand new people that only learned about us as a result of the ball, so that the s&m ball that began then we had to a year for awhile, brought in lots of people from all over the country eventually, but especially people from Houston, they would find out about the different clubs at the Houston epsilon ball. And they would come they would come to pep and then from PEP, which was kind of like if you think of the wheel, Pep was the, the hub of the wheel of s&m groups in Houston. With the other clubs, everybody was kind of a member of Houston Pep. And then you had these other clubs that were like a spoke. The next club that came about was arrows. And then in 1997,

36:01

I thought you said that that came out of another group was autumn

36:05

season a gentleman named RUSTY Hey, way that he'd come to H PEP, and Hbf helped him get get going with this other group that turned out to be if there's ever been a controversial discordant group in Houston. Autumn seasons was kind of that way rusty was one of those guys that liked doing it his way and like being confrontational and so there were some issues. But autumn seasons last autumn seasons lasted a couple of years. And arrows took over after that.

36:36

All right, we do have a call.

 36:40  
As soon as David figures out the phone, okay.

 36:46  
Okay, we've got Desi on the line.

 36:48  
Yes, I'm here. Can you hear me?

 36:50  
Sure. How are you this morning?

 36:52  
Hi, I'm good. How are y'all doing?

 36:53  
Excellent.

 36:55  
Listen, I was just calling because I'm kind of new into BDSM. And I've done a pretty decent amount of reading of it, about it on the internet and stuff like that, and I'm really aware of, but it can be real dangerous if you're not real careful. Like I was reading a lot about how it's really dangerous. A lot of people don't know to tie people up with silk scarves and ties and stuff like that. And I was just wondering, you know, I think a lot of people are kind of like me, in that we're kind of strapped for cash. Is there any way Mr. Zmax? could suggest some things that maybe we could buy on the cheap or find around the house like us?

 37:32  
Oh, absolutely. You can. What is it you're trying to do? I mean, there are lots of wonderful things to spank someone's bottom within your kitchen.

 37:48

Yeah,

37:49

there's the spatula, the wooden spoon. You know, those things? Yes. Obviously your hand. You can get lots of lovely clothes pins at the dollar store. enough to keep you busy for quite a while for \$1. What kinds of things are you looking to do?

38:12

Well, one of the things I guess I wanted to talk specifically about was was bondage. And like, I mean, I found some wrist restraints now like 20 bucks, you know, I mean, that's kind of a lot that I'm also kind of apprehensive about using, you know, after I read stuff about, you have to be really careful about cutting off circulation and things like that, right?

38:30

Well, you know what a fun thing to use for bondage is an old pair of pantyhose. Okay, you can actually put someone's arms behind them, and put them in one leg of the stockings. You're not really cutting off any circulation and just kind of pull it up over the shoulder. Put their heads through, you know, the middle of the two legs. The crotch part? Yes, through the crotch. That's it. You can take the other leg that and pull it down between their legs and then tied on the end. Are you following me here? Three or four days? Yeah, make sure you don't wash them for a week. Make them nice and funky. But you can use that you can use a towel. Okay,

39:32

can I jump in here? Sure. I'm gonna slightly change the subject on Desi and say that, as we're talking about the growth of Houston s&m. One of the things that has happened huge here is education. And we take great pride and have for years in the sort of education that we have. We mentioned that arrows has these meetings every Saturday. Well, you want to know something about doing things safely. We teach you how to do it. for free, show up at arrows meetings or H FET meetings we have, you're talking about bondage. We have a group that meets once a month called the bondage group. Yes, is very cheap. They will teach you how to use rope all the things you're talking about that you think are dangerous. We'll show you how to do it in ways that absolutely are not, that are very safe and comfortable and fun and kinky. And you can have a great deal of fun with in a very safe way. And

40:23

you can use those ties and everything is just a matter of knowing how to do it safely. Okay,

40:29

that's really neat. So you all said that that meets at 12:30pm at Rogers on Saturday. That's right. Okay. Okay. Well, Y'all have a great night. Thanks.

40:40

All right, you too. Bye, bye.

40:45

The getting back on her question. Almost every s&m group, when we have these talks, the educational talks in every town once a year anyway, there's going to be a session that at age pepper and arrows, or whatever group happens to be in the town that you're in, that's going to be on what we call pervert doubles. And it's just like mistress Max talked about. In fact, what she has in her hand and you can tell us about that. And Max is we go to the tech stores, and you want to write in crop you can either get you can buy them to fetish store, pay a lot of money or you can go to a tag store and pay 10 bucks for writing ground

41:21

combat tags we call home

41:25

depot we refer to as DOM depot

41:31

ever be able to go to Home Depot the same

41:34

wonderful, you know, you don't go to fetish stores to buy your chain and rope. Now, you know, because you pay way too much of a premium. Every Dollar Store was built with Kinkos in mind. Definitely, and just go and wander up and down the aisles and you see little anything that's like a clip. You know, that was designed for nipples.

42:01

I mean, some of my best toys I have literally purchased in the dollar store. You know, and once you start doing things, you everything you look at you go What can I do with that? You brought that spinning SpongeBob thing in that one SpongeBob toy and it like spins and had different

length but it just does work on nipples is absolutely I mean you showed us and you know they have what's called vampire gloves. A clause that you can pay really silly money for the gloves are like 4050 bucks, the claws the I don't know what you paid for the cloth,

42:41

which is what we call talents. Yeah, and I've got two sets of them that cost me one of them cost about \$200 and one of them cost about \$75 Our Max has something just as good that costs \$1 each.

42:51

Exactly. And it's what you use to lift the turkey out of the pan during the holidays. And you put your hands in and it's like 123456 Folks, and I have a pair

43:05

it's also same thing glint in your tack shops they use that for horse grooming and

43:11

it's just a great first just sensation play and you realize nice to see Cindy a scratching up master chess

43:24

come down at her like she's lost her

43:28

you would there I saw was on but anyway this this it can be done very very inexpensively. very inexpensively. It's wonderful. You know I mean the same thing with the with stockings you can do with spandex pants. It's it makes great arm binders.

43:49

Take all the belts that you have. Everybody made men and women have old belts and just wrap people with your belt wrapped their wrists wrapped your ankles. You know, and it makes it very easy, very comfortable way to tie people I don't like rope. Rope has to be messed with and untied. You know, it's worse. I'm 56 years old. I don't do work. And I agree.

44:16

I agree.

44:17

We've not talked about one group here. Yeah. If we go back to our historical thing, please. Chess. When did you start the open door?

44:25

2000. Okay,

44:27

we got two arrows came about in 1997. And the next real pansexual group that came about in Houston was the open door. There's always an AMOLED chest talk about that. But there was a big concern. We had s&m clubs. That was pretty much an s&m club and arrows was pretty much an s&m club. All of these things focused on the sensation play ie whips and flogs and talons, and all of those things. But there was a growing desire for people to talk about things that dealt With dominance and submission and not paying, and chess took the lead in that and set up the open door that was a place where we could talk about what

45:10

dominance and submission DNS, we shortened it to DNS DNS relationships. And that has to do with your head where your head's at. The control, surrender, submit, all that those words all fit into that dominance and submission. And we've sat down with couples that have been together, we have couples that have been together for 15, nine, you know, a years who talked to, you know, who have a lot of experience in a DNS dynamic, that dynamic. And we sit and talk about what goes on what happens, how to do this, or how to do that are what works for you and what doesn't work for you. And new people come and talk about their experiences. And we tip we pick topics that are revelant to dominance and submission. And that's how, that's what we do. And we meet the second and the fourth Friday of every month at Travis's good old Trav.

46:23

My House does get you

46:26

at Travis's home. That's that's our home. And in five years, we we have now we're not quite as good as you're at Eros, as you know, always having a meeting. We do skip occasionally because I get burned out, because I've been moderating this for five years, yeah, five years, five years, God five years,

46:54

you know that I'm gonna jump in because we're doing something this Sunday that says something else about our community. People that just think that we're this horrible, terrible group of perverted people, which we are, everyone, thank you. But every once in a while, we to have what we like to call our vanilla stuff. Where we were, we aren't going to put on our leather, we aren't going to put on our latex, we're just going to put on our silly Bermuda shorts and black socks. And look as ridiculous as anybody else. And we're going to fire up the grill and we're going to get our smokers out. Chests decided that this this weekend is the Memorial Day weekend. Tonight, Friday night would have been the normal open door meeting. Well, we cancel that. And we're having a big barbecue at my house Sunday instead. Now it's just it's friendly. It's fun, it is family oriented, which means bring your kids bring his swimsuits, we don't you know, we don't do anything that is not done at a Baptist barbecue, right? It's just everybody gets together in this day. We're not kinky, we're just friends. And we're gonna eat a lot of brisket and a lot of chicken and a lot of potato salad. And we're going to be that family, that group of friends that is supportive. In this social vanilla environment by vanilla, we simply just mean non kinky, as well as the Friday and Saturday night get together to do weird things. So there's a large group of things we do and ways that we relate to each other and become friends as well as people that help each other be perverted. One

48:31

of the things I want to jump in on that is moving down here from another city. Okay, where I mean, I have very good friends still in Denver, that are not in BDSM they, they're by standards, vanilla, whatever that is, anyway, but when I moved down here I have no vanilla friends. Absolutely none everything, all my friends, live, breathe and die in the kink community. You know, and you know, I have a son and I have a granddaughter and I want them to be you know, I want them to meet my friends. So what better thing to do than have a picnic? You know, where, you know, my granddaughter my son's in this lifestyle. So you know, their son is what 28

49:29

For he's 3939 Okay, my son was trying to be nice he is he's 39

49:35

I look I don't lie about it. I'm 16 you know, going on. I'm 60 going on six.

49:44

Okay, so what are the groups came after the Okay, we've got h pap arrows, the open door variety.

49:54

Back in 2001 I made a trip to Dallas and Back. In Dallas, I saw a group called fourth Friday that was just a conglomeration of everybody that wanted to show up for dinner on the fourth Friday could come and they had 200 or so people that would show up. So we did that. And we looked around for time, and we pick third Friday. And so now for what's at four years, we've been doing third Fridays, and sometimes we have a lot of people show up. And sometimes we don't, it's not as successful, but it's just one of those ways we meet over it. What's the name of is Starlight or star Starfire Starfire hammer, Star started fire grill in Bel Air, and it made great little hamburgers and stuff like that. We have a very casual little dinner. That works successfully. And then about two years ago, a great guy who goes by name Safari Mike, and he calls himself Safari Mike, because for real, he's a hunter. And he's one of those guys, you walk into his house and dead antelopes stare down at you from a wall. schizophrenics worst night, he goes, he goes to Africa and he shoots water buffalo and things that I hide from and my worst nightmare. But he thinks it's cool. But he's, that's his nickname comes from that. And so he used that to name his club. And they're out on the north side up in the Northeast Kingwood area. And they have a great time. It's a wonderful club. And it has grown from when I first went to their parties that have 10 people, and now they have 80 or 90 people show up. tremendous group of people, very supportive. The whole community, one of the beautiful things that we have, is when we do things in this town, nobody cares if you belong to one club, you can belong to all of them, you know, everybody that belongs to the open door also belongs to some other group or groups. I like to think I pretty much belong to all of them. And so there's now with Safari Club that that has two parties a month and arrows has two parties a month and H pipe has their meetings and parties. And the new club is another club that got formed in 2003, summer 2003. And they have a party every month. And generation and then ski Thank you. There's another club called the next generation. That's all for young people 18 to 35. And they hold a party every month. And then we have club FIM that is a wonderful group of female dominance. And they hold probably a party every month. And then we have a group that girls, the bad girls that has a couple of parties. They don't do every month. But that's a group of females not lesbians, they but you can be lesbian or straight or bi, you just got to be female. And they have meetings and parties. So it's just blossomed to where

52:53

there's a new group just for women.

52:58

Created by this very young and beautiful and talented mistress match rules. And that group started out with a bang and had wood. How many do you have at your first meeting?

53:08

There were 23 women. Okay.

53:11

So there's I'm leaving somebody out here. But there's just something going on?

53:20

Oh, the violet society? Yeah. Well, and

53:24

there's another group that is just changing its name house Viper has been said, Michelle, with House 5% so much over the last couple of years. And she's pretty much house fiber sponsors, femme DOM groups and singles, singles groups. And so there's, Lord, you can't keep up with it.

53:47

The calendar amazing, and it happened shortly after I got here and I know it's gonna be going on again. Where the entire community gets together all the groups and say for instance, fifth angel is coming in.

54:05

Okay. There are some individuals that like to do things and bring in special people like Max is bringing in the incredible Viola Johnson in September. We have just had Jack Grinnell and Jack granola was here. We're gonna have the whole community putting together a deal for a wonderful guy named fifth angel coming from Florida and Safari Club is sponsoring him Friday night arrows is sponsoring him Saturday night. The new club is sponsoring him, or arrow sponsoring him Saturday afternoon here at the new club is sponsoring him Saturday night, and the whole community is putting together a barbecue on Sunday. So you know.

54:45

It started out as one group and has blossomed off to all these other groups, but it's still just one community.

54:53

Yes, we all kind of I think all the clubs will tell you were the same group of people. It's just you Somebody's throwing a party and we call it a different name. All right.

55:03

So that's a brief history of the development of BDSM. In the Houston Community. This is mistress Max rules. And I will be here on Fridays the What is this the fourth Friday, fourth Friday

of every month from now on, at

 Chris Harrison 55:26  
230, the day before the Pride Parade on the 24th

 55:30  
Oh, right, the 24th good. So then I can do my thing and then head out and have the rest of the weekend for the Pride Parade. So this is Mr. SMax rule saying good morning. And enjoy your perverted self. Amen.

 55:48  
Thank you misters Max rules. I got it right this time. And we're going to put a little bit of music in your ear and then we'll be back with Chris This is Tori fix marry me. The FS the FCC down tempo mix is just something I was told to play. So I'm going to play thank

 Chris Harrison 56:08  
God someone listens to orders for change. Careers curious behavior. So the damn button change Okay, Jimmy happy there. Oh, there I pull it down early for you.

 Jimmy Carper 56:35  
Jane County Texas Chainsaw manicure. Just in case you didn't catch that.

 Chris Harrison 56:41  
What was it?

 Jimmy Carper 56:46  
Well, you know, that's part of our transgender music. Yes. That's a big hangnail. It's a big hanging now. Leaves a chainsaw. Yes. Jane cow that used to be a man that used to be a man Jane County. She looked like once upon a time when he hung around. She hung around with Andy Warhol and that crowd it was Wayne County. And

 Chris Harrison 57:12  
then unfortunately, I had an accident during a pedicure forest Wayne to change to Jane

57:20

coming into agender

Jimmy Carper 57:22

noon and then there Wayne wanted to be Jain for a very, very long time. So he took a chainsaw to it. Yeah, I don't know what he did.

Chris Harrison 57:29

I kind of I kind of watched it because part of me wanted to play that because he has something cute. We don't play it off and, and I've got caught watching this thing on Bravo past couple of days, they had the 100 Scariest Movies of All Time scariest movie moments. And part of what they had was Texas Chainsaw Massacre was in there. Yeah. Number one. I wasn't too sure about Jaws as a scariest movie.

57:59

Depends on which neighborhood dreams that's true.

Jimmy Carper 58:02

Do we have any MBB letters? Yeah, we got one one from Tigger.

Chris Harrison 58:10

Yeah, you're right. You read? Okay. Hey, Tigger out of size Hall. Well, he loved the show the past weekend. We did an excellent job. Tegrity listen to the right show. Hey, did he put the letter in the wrong on? No

Jimmy Carper 58:26

he did. It was mailed to me.

Chris Harrison 58:35

I'm looking forward to listening more or segmented with our friendly neighborhood Harley riding lesbian. I love it when she referred herself as a chromo sexual. Hearing her history is fascinating. He also enjoyed the guest on black on black which was Genex Aaron Coleman, thanks. I was remembering Coleman. I couldn't rehearse first name. He's also

 Jimmy Carper 59:01  
involved in the pride committee. I see. Man.

 Chris Harrison 59:05  
I gotta see the back there of his.

 Jimmy Carper 59:08  
Yes. We did have a CD of his prose as a matter of fact.

 Chris Harrison 59:15  
He talks about a book by Mel White. Strangers at the gate. Yes, very good book. And Mel White was the ghost writer and the designer sheet for Pat Robertson. Writing some of his sermons.

 Jimmy Carper 59:33  
Then he's really still at the light and came out. But man,

 Chris Harrison 59:38  
stop working in the closet and came out of it. had a major impact on his life. He used it to help him come to come out to his father. I had him read it and I told him that we were talking about after he had and it paved the way for discussion I had tried to initiate the talk when it was hard to didn't shave talk Coming out sometimes, you know a book does help. I always see made the comment that was a library Queen when I came out I went and bought all the books and read and studied up on it

 Jimmy Carper 1:00:12  
and then donated them to Gulf Coast archive and museum for their erotica room. Not

 Chris Harrison 1:00:17  
the dirty ones. I got good ones first and he still got those

 1:00:25

speaking of metal white. Yeah, seems like Houston is trying to get my white again to come back. Oh, that would be great. Yeah, it would. He came, what, year and a half or so ago. And talked. Yes. We're at Christ's Church downtown still. But yeah, that was a great talk. But yeah, we're trying to get him to come back.

 Chris Harrison 1:00:45

Before I forget, welcome back. Roy hugs Royce mount here this week. From Roy, you guys hear that the American Family Association has officially lifted his nine year boycott of Disney. Yay.

 Jimmy Carper 1:01:00

Like anybody cared in the first place that they were boycotting Disney.

 Chris Harrison 1:01:03

They reserve the right to do that again if need be.

 1:01:07

What changed to make them to take it up?

 Jimmy Carper 1:01:10

Because it was ineffective.

 1:01:15

I was like they didn't change anything. So I mean other wise then it didn't do anything then why did they revoke it? Just because it was pointless? Yes.

 Jimmy Carper 1:01:24

Or something like that.

 Chris Harrison 1:01:26

We actually had a little bit of peace while they were gone. Well, no, they always stood out then and he was looking forward to this week's program. Bless it be I never wanted to be different. I just wanted to be myself was a quote. He had us at the end here. Thank you Tigger. You know, sadly, you know, Martin, or usual great stories that we get off daily, right. And I only got,

Jimmy Carper 1:01:53

well, you know, Roberts here and he can probably fill us in a little bit more on Bobby's condition. Because hear through the grapevine that. Robert, you were the one who took the Merlin home. Yes. Yes. Yes. How was he doing when you dropped him off?

1:02:13

Actually not half bad. Given the current state of affairs, okay. I mean, if you know Merlin, any at all, you understand that his life is full of drama. Yeah.

Jimmy Carper 1:02:28

Oh, like none of us have drama in our lives.

1:02:32

No, no, we're just drama free. Yeah, exactly. Like it was one big theater. However, some of us are a little less verbose about it. Ooh, not me. Yes, Merlin went home this morning and picked him up about noon. We stopped that water burger on the way so that he could get something other than what he complained about every time he goes into the hospital. Hospital food. He says that the stuff they provide in the hospital would be more akin to an industrial cleanser than it is food. Ouch.

1:03:12

So food made by Lysol. Whenever he goes into the hospital, he's always at 12 oaks.

Jimmy Carper 1:03:21

Yes, that may have something to do with it.

1:03:25

Right next door to that graphics company, you know.

Chris Harrison 1:03:30

Graphics with all with all the Yeah, the hospitalization we seem to be having on the show here. Coming up in July the gay Man's Guide to hospital food. Ooh,

1:03:41

what's hot what is not? Well, it is served hot whether or not it stays that way is another story. So

Jimmy Carper 1:03:49

this is roundtable. We got a bunch of folks here into including the straight guy. I'm back. He's back.

1:03:55

And his lovely

1:03:59

bride. Yes.

Chris Harrison 1:04:01

He brought the other hand. Why we can call him a breeder. Yeah.

Jimmy Carper 1:04:06

Hey, wouldn't be gay people. That's right. That's right. Yeah. Because homosexuality, actually

Chris Harrison 1:04:15

they cause people. I think it's rabid conservatism. That causes homosexuality, chastity bone Gingrich's sister. Me It's that right wing that makes us take a big left turn and there you go. Pluck the feathers off a wing and make Ebola

Jimmy Carper 1:04:36

in other news The frog God is out.

1:04:39

Leave my daddy out of the big old thick.

 Jimmy Carper 1:04:43  
The Official Magazine of Houston pride 2005. So huge section on Houston. Right in the big middle of it. But as as we'd have it

 Chris Harrison 1:04:56  
last year coincidence there's a photo in there or somebody? Oh

 Jimmy Carper 1:04:59  
yeah. Paul, our intrepid photographer has a picture in here. They have a bunch of pictures from last year's Pride Parade. Yes. And there's one of me sitting on top of the KPFT car before

 1:05:13  
after the push. I can't

 Jimmy Carper 1:05:15  
tell you the truth. Poor car yeah, yeah, it was. It was a very it's the the car that can be rated at home. Oh, power. There's lots of pictures of last year's 40 strobe, but they have to get all this stuff to the publisher.

 1:05:36  
Early, at least six months in advance. Yeah.

 Jimmy Carper 1:05:39  
So the actual schedule of events is not in it. That'll come later. Yes. But it's interesting read. They interview a whole bunch of different people about being a couple or about what it's just like to live as GLBT person and it's a nice read. These are free. They're all around the Montrose. Yeah, find

 1:06:02  
them virtually anywhere. Yeah.

 Jimmy Carper 1:06:04  
And the cover coating Walgreens is a hot pink this year. Your favorite color Jamie is it isn't eight

also matches your shirt right. Oh, five closet full color they call Kisha? Yes. Fuchsia, yes. Confusion actually. That would be a great drag named fuchsia Limaye. Oh, take it up and go. No talking about sparkles. New narrow dress shirt. Well, I have a special one picked out for this year's Pride Parade. Yes, I don't you always yes, I do. Yes, I do. So that's just a little bit more pink than all the others.

1:06:47

Have you had time to install the sequence yet?

Jimmy Carper 1:06:50

No, not yet. But there's time left. There's time left. Chris Where else is going

Chris Harrison 1:06:57

he's had to order a new but Dazzler so I've taken oh no he

Jimmy Carper 1:07:01

did. I did. I did where the old window for shame.

Chris Harrison 1:07:06

Someone get me Rhinestone Cowboy to play for Jimmy. Oh, ouch. I wouldn't I couldn't find the right cowboy. sad part is I know that song.

Jimmy Carper 1:07:18

You know, I'm making my stage debut next month.

1:07:22

No. Yes. God help us all. Where? Jace?

Jimmy Carper 1:07:25

Yeah, yes. Fun for us, and it's not stripped night. Oh, and then there. This is a fundraiser for CRH Imperial Court of Houston, raising money for this year camp hope, which sends children with AIDS to summer camp for a week. And

1:07:44

how much of the proceeds is EJ donating to the cause?

Jimmy Carper 1:07:48

AJs provides a lot of money throughout the year, provide the venue for free and throws in lots of lots of perks. Like I said, Sunday, we're doing bartending out on the patio. And I see where h gets to keep all the tips. Yes. And they will be probably serving hamburgers and hotdogs. For like \$3 a plate and add over it. EJ, co founder of E JS provides all of the meat and bones and all of that for free. And the maintenance funds are not leftover for from trip like script night either. Oh, boy, they're leftover. We do fundraisers and I'm going to be doing a lip sync on June the 11th. So you could be fuchsia? Yes, in the show. It's called the mother trucker show with

1:08:50

my mama out

1:08:54

with doula. Yes, I'm

Jimmy Carper 1:08:55

doing a duet with Judy. And it's going to be a bit over the top. Judy. Judy. Judy, Judy,

1:09:02

Judy. Judy just left us Judy. Yeah, that's

Jimmy Carper 1:09:05

the one that's the one then I'll be doing with theater suburbia. Yeah, it's the one and the archives and the archive and they'll be doing so well. So if not ever performed on stage.

Chris Harrison 1:09:18

Yes, you did. Have you chosen

1:09:19

.. .. .

the numbers? No. Yes. Yes. Me What do you mean? What they are? No, you may

Chris Harrison 1:09:28

go on. Doesn't matter because we've got five minutes people okay, so banter about banter,

1:09:37

banter, banter don't

Chris Harrison 1:09:38

have anything blah blah. I do but yeah, what

1:09:41

where's the tennis net?
