SPEAKERS

Chris Harrison, Jewel Gray

00:04

Furthermore, you're off. I hate to see someone Oh, I don't know say Harvey Firestein takes on mom's

00:16

when let's break out strong sermon.

00:23

There you go. The Leiria versus Jesse Helms want to tell you that would be Harvey Weinstein. He would tell you that right away,

Chris Harrison 00:32

I can't help it Gabriel keep remembering when they his HBO cartoon came out the sissy duckling. And the fact that his he played this, this young duckling with that voice. Yeah. And his parents were Ed Asner, and Melissa Etheridge, and I came on here and I said, Look, if you're being born with a voice that deep, I can see at Asner, but you're not your wife. The mother has to be br third, right? With a voice that gravelly, really girly as Jimmy is digging in the box. Let me kind of do a promo real quick on shirt because we did this earlier. And Jimmy since Jimmy is in town, he broke out his highlight panel here do some of this.

01:18

We have enough to talk about suggested topics. Yes, suggested. On Sunday, Sunday, Sunday, Sunday, April 21. That's coming up here in a little while at the briar patch. Jackie Thorne and the roiling sovereign Imperial core to the single star is hosting a fundraiser for the transgender

shelter in Galveston, which is run by cats the mental cramp I forgot community awareness for transgendered support. There you go.

 Chris Harrison 01:50

We use in our area are privileged to have the only transgendered home to help homeless and non HIV positive, transgendered people. You may have heard stories about them in the voice and triangle recently, and there's they're in need of help. The show is going to be on Sunday night. And they'll be in taking music at 730. The show starts at eight o'clock at the briar patch, which is on Greenbrier and some funky little five sides

 02:23

off of Holcomb.

 02:24

There's a block north of 2294 Holcomb Boulevard it's really not on Holcomb. That's the it's kind of that's the strip shit centers address. Yeah, it's actually a block north. Yeah, that's right. Jackie said earlier when she was here that it would be at 830. Yeah, because they had some conflicting thing at the BRB and they will be trying to do it yeah, they're gonna

 02:45

try to do well I think what you do is you tell them eight o'clock and hope someone actually shows up by

 02:49

nine but don't tell that they're there at eight o'clock. They're there at 745 math because you're late. That's right. When unbelieving, gay Standard Time.

 02:57

Please I find I've lost one job because of gay Standard Time. Thank God I got a more more understanding boss now.

 Chris Harrison 03:06

On Wednesday, April 24. The annual members meeting and Officer elections for the Stonewall Lawyers Association of Greater Houston slag, will be dedicating advocacy awards in the name of three of its most beloved members.

03:20

The Phyllis Randall Frey award for advocacy by a member of the bar, the Eugene M. Harrington award for advocacy in academia and the Ray Hill award for activists advocates

03:35

take to have because,

03:36

yeah, that word by a non attorney, collectively, these three distinguished slag members have dedicated over 100 years to fighting the good fight to protect and defend and yes, establish just Ray Hill alone. I didn't say that. But all my life to to establish in the minds of others the absolute necessity to demand equal rights for all citizens, and humane treatment for all people. And so that's when, and they don't say where it's going. Oh, here it is. Just a moment. Yes. Yeah. It was on the phone

04:19

at the Sonoma closed. No, yeah. But it opened. Yeah, it's

04:23

it's the one Montrose tradition of one year. I love that. Yeah. The Montrose tradition continues. It was open a year before it folded.

04:36

It was dead, but, but it got better. We were

04:40

flag Wednesday 6pm Sonoma restaurant second deck, the resurrection 1415, California.

Jewel Gray 04:47

And while we're on this subject, just for a second since we brought Ray up, Jackie said Ray was at the banquet last night and that he looked wonderful for all those who have been wondering how Ray was doing that he looked wonderful. Hold on. He was getting around just fine.

05:02

Now is an honorable thing hell with him forever.

05:05

He's gonna outlive me. Oh,

05:08

okay. See trembling before g dash d, which is the Jewish way of you never say God. We have to think we have to thank Laura for pointing that out because like when she sent out her little letter apologizing to us she had that little g dash D opens in Houston and Dallas Angelica theatres on Wednesday, April 17. Houston program director, Mr. Sandy Simba de bow ski, and Rob Rabbi Steve Greenberg, the first openly gay orthodox rabbi, a screening with question and answer session to follow on Saturday, the 20th at the 850 show. And it's a real eye opener for Cisco. A real eye opener they the sensitive, passionate and beautifully made film provides an overwhelming emotional and intellectual experience. Nearly five years in the making a shot on locations and canvassing half the world DeVos skis film may be likened to an adventure in the ethics of both personal and political and is an app's is an adventure. No one Jew or Gentile can afford to miss. That was according to the Houston press. So it's trembling before God. Opening on April 17,

06:33

ever everything else? Yeah, I thought it was just people believed and now it's pretty much my belief

06:41

really? Yeah. Sweet mama cotton and the sugar daddies. Jamie's back will be performing live here on KPFT radio this weekend. There'll be appearing on Pat and Rosie's night sounds, which is the show 24 hours after us, which is the Sunday Night Slash Monday morning. They usually get started about 1230. So you can hear us on KPFT. Or you can check them out on the web at KPFT dot o RG because all of our program is simulcast on there.

07:22

That's how I listen to it out there. Needville on the computer. Well, Jimmy

07:26

was listening in to us while he was gone. So he was sending a critique they're fighting. Yeah, but fortunately he

07:33

didn't call in. And, you know, that night I called in and HATCH was here. I was picking it up on the radio. It was really a strong broadcast. I thought somebody here had goofed and turned up the transmitter, something who's really strong, but restrictions Needville. Southwest, Southwest. See, I

07:52

can't even listen to KPFT at my work. I live I work out in Stafford, CA past that. And see I'm surrounded by the high tension like the wire. So I'm lucky I can get a get a computer signal surrounded by high tension. When can I say and the last part here feel lucky. There's no pink

08:10

on that. This is his private. He

08:13

might say, Yeah, we're plugging Tim. Feeling lucky a raffle raising funds for the community center will be held through the end of April, the Houston lesbian and gay community center board will be selling tickets to the spring 5050 raffle. Tickets are \$1 and a winning ticket will be selected on May 1. The holder of the ticket will win or not doing socialist programming yet. Give us a week.

08:43

Those of us have a more pagan nature take offense at that remark.

08:47

No, no, I wouldn't take offense at anything you said. Let's Mayday got to be ffensive about the day the Germans dance around a pole with the with the duper

09:01

yeah, there's there's different things. It's that is a Tobago

09:05

honest festival play York. Well, there's also honest actually. It's one of those conser-

HARVEST FESTIVAL DAY. YEAH. WELL, THERE'S ALSO HARVEST ACTUALLY. IT'S ONE OF THOSE SEASONS.

09:12

It's also the big socialist. It's like an International Labor Day. Basically it's a socialist day. In the former Soviet Union. That's when they brought all the tanks out and paraded in front of whoever the

09:24

product. Was that week. Like one of the neighbors in The Wicker Man set it on fire. Yeah,

09:29

yeah, no sort of thing. Receive half the pot of the money to raise the senator keeps the remaining and the proceeds will help for rent and utilities. Last year, the raffle winner received about \$500 Cool. And the Houston is lesbian gay community center is home to several organizations on a permanent basis and other visiting groups that come in and hold meetings. There's the home for the pride committee, HATCH Q Patrol P flag. Get my head sometimes the switchboard by net holds meetings there. But caucus, the caucus has an office there. Once again, key cams do in there. So Houston's lesbian gay community center is located at 803 Hawthorne at Stanford, and the phone number is 713-524-3818. And I remember they're working on a website. I'm not sure if it's up. I think Tim said, it's up. It's up. Now.

J Jewel Gray 10:32

Let me tell you something. Tim is one of the finest men I have ever met. And he is one of the finest men I have ever met. And he is really making this community center come together to making it a community center, not just the words on top of the building, but really a community center. So if you have an opportunity to get down there, this is a place you need to stop by.

10:55

We used to have a poetry reading down there that we used to do to the Houston library. So don't

11:01

tell anybody that they don't want to come to go to meetings. Meetings.

11:07

Well, you could call it a poetry meeting.

11:10

There you go poetry meeting not afford to read, but do I get to vote? Yeah, there you go. That's what they want. They want to they want to have a say. All right. There you go. Padre, you're going to have a say. We'll have a poll

11:21

at the end. I say we table this discussion and go with some poetry. Cool.

11:26

I once knew the lady from

11:33

the older lady from wailing

11:37

lesbian came down that night and played a guitar dude with the guitar and blessed me with a guitar we had in here and before we get hoarse, no, this this one was a local girl. Oh, yeah. Oh, man. You really miss something special. Oh. I drove to the whole time to wipe my mouth. I was stupefied. She was here was she was just so beautiful and so talented. It was some no these were a local girl who we'd sent over to the chances for their whatever night they do Thursday nights or whatever. Do you remember her? My computer blanked out. I lost all my email names. And I can only get those back who are out there. You know who I see regularly. And you know, I lost touch with her. So if you're listening, the girl lesbian with the guitar. She's saying here for one night. agement is this overly early? I really would like to have her on at night. You're coming. Gosh, I

12:43

can't remember the voice but oh

12:44

yeah. Beautiful, stunning voice. I was shocked. She hasn't done more. Kimmy hasn't called yet no. Deal. NO. Jimmy if you do know and you got a phone number your email me and I'll call her and see she's gone next month leave what can I say? Oh, he'll be listening, though. He's listening. He'll hear. I'll email her and she can come on next month maybe scrutinizing our every word.

13:07

Making sure we don't burn down the the roof burning

13:11

down the house. Yeah, I love that. Talking, talking it. Yeah. David Burns. Music and we talked about music tonight. No, no. No, I was gonna say we talked about music tonight. But you know, and we had a, you know, range of things. But, you know, I had somebody recently say, you know, I listened to the show, but you know, it's rarely about gay things. And I thought, I'm on the show. I'm talking to you about gay things. Music is a gay thing. And so as the sun and you know, the ocean and you know, those are all gay things. Gay people use them. So, you know, I would just wanted to let people know that, you know, music tonight but we were talking about mostly about the fact that gay music you know, the dance, techno stuff is, you know, without soul, call

Chris Harrison 14:06

the heart the one thing with with our show, and a lot of people might say that we stray off off track a lot. And a lot of our lot our show our shows are Yeah, I mean, our, our show should be sponsored by Amtrak. We're off the track. So often. It's one of these things that we have a lot of points that we're trying to get out. And we're not trying to say that we're the more the spokespeople for the Queer community. We're not trying to be that we're not the quintessential gay people. But the simple fact is this. We get five hours each week in Houston to try and put forth some sort of idea of the Queer community. You've got radio stations dedicated to people who will who have not blink twice, about spending days upon days of just denigrating us. And so yeah, we may not sit here and talk, the whole rally bit. We may not come in here and have politics called, we may not have the militant lesbians and we don't have the ACT UP mentality with a lot of the stuff that we do. But we try and cover something and give it some meaning. When we when we do these things, you know,

Jewel Gray 15:22

when I think about this show, I kind of think about just, I want people to feel like they're in my living room with my friends. And we're just having conversation about whatever comes up. You know, what I tell people is we're across between Letterman, and Comedy Central. South Park, crossing leather Leatherman and South Park.

Chris Harrison 15:46

I mean, what we what we try and do here, and we're one of the more diverse programs, that when you turn in every week, we have a different half with different topics. The second half here was supposed to be bisexual women, but a certain person didn't show up with her panel, Stacy, not to mention names. And

16:05

you know, I am looking for bisexual women every day.

16:08

And boy,

16:09

howdy, boy howdy. It's one of the things that we try and put together as many different voices, I may have different ideas. And yes, some of our shows we try and be a little more serious than others.

Chris Harrison 16:26

After September 11, we're one of the first shows I think you're on KPFT. We interviewed the executive director of the New York City, lesbian and gay community center.

16:39

We've done gay immigration. Last week, we did have on transgendered immigration issues here.

16:48

I have a Clinton one. No, I'm so yeah, we've

16:51

we've done a lot of interviews, for sitting in a corner. Why do you do these things? I

16:55

don't have to be a part of it. It was very bad. But I mean, stuff.

16:59

Like we just did an HIV show, we're going to try to put some more HIV shows with more information

17:06

and a lot more HIV stuff. Yeah. And I but now it's getting to the point where everybody not I mean, not everybody, but that you can get HIV information in places you when we were doing it, a lot of it, you couldn't get it anywhere else. So there's really no need for us to to harp on this when you can get it in 15 Other places now,

Chris Harrison 17:26

but one thing what we wanted to what I try and do with some of the stuff is is put it in a simple language for the people who are out there listening. And yeah, we tease about what who our listeners are out there. Yeah, all of them are straight conservatives. But the ones who aren't in prison. Yeah. How

17:46

are we sure love our people in prison? We sure do. In fact,

Chris Harrison 17:49

in two weeks, we're going to on the news and views magazine section, big Roy is going to be doing it on gay and prison issues.

18:01

So what I call the otherwise incarcerated Oh

18:09

are we gonna let him talk the post 911 thing. The when I went to pick Jimmy up from the airport, I couldn't go out to where you meet the plane, you know, meet people coming off the plane. You can't do that in Ireland, me and David

18:29

Brenner. The other day, David Brenner flies around. He's doing a tour now. Yeah, who is a comedian? He's doing a tour now. And he said that he's been spot. He's been a big nose guy. Yeah. He's been picked 50% of the time to be interviewed and searched 50% of time going in now to airports. He said, he gets people come up and say, David, David, I'm a big fan of yours. We come over here we need to. And he says, Do you know who I am? And the guy says, yeah. And he says, Well, why are you doing this? I don't fit any profile. He says, Well, it's just random. But David Brenner said that he was standing there when they picked this 89 year old lady

up out of a wheelchair, one under one arm, one under the other arm while they examined the wheelchair, and written on the back of the wheelchair was airport property. And I told him that he asked him why he's got this big kick. Now he's really upset about this. Why did you disturb that little Lola you could kill her. And they said, Well, somebody could have put something in her wheelchair. It says airport property. You know, it's air. It's your wheelchair.

19:35

I took a flight in February to go to a convention and there was an anybody in this room notices. I wear a lot of jewelry. Okay, on the flight there. I took off the jewelry, put it in a bag, put it in the bag that I was carrying on. They put the thing through the machine And they say, there's something in here we have to look at. It's my baggage.

20:12

That really wouldn't get to stainless steel. But I mean, for that I

20:18

could have left the jewelry on and God see, you know what? Like, what about this new scanning thing that can see you naked? Have you seen it? Oh my God, no, it's real. It sees through your clothes, you whatever is under your clothes, it sees. They had a picture this man, they had a picture of this man. And you could see everything. You know, I have to be living with somebody at least six months. They see everything

20:53

at the airport, and next time, so just get the entire picture. Well, when

Chris Harrison 20:59

back last December, we were taking my grandmother to the airport. And my mom took her into the terminal and got her wheelchair so she could ride back to the to take back to the gate. My mother go back to the gate with her. So I'm outside circling and this was We're in San Antonio airport. And I had to after that we drove home. So we circled the airport for a good half hour, because we couldn't stop anywhere. And it's like, When are they going to pull us over for being suspicious for circling this entire amount of time. So there's nothing like circling

21:36

that suspicious and airport, it's parking. Certainly

21:40

21:46

open up the windows and get one of those Xena trills there to see if getting wins just to see how quickly they react here in San Antonio, but it's one of these things within 16. I mean, I'm considering

22:01

going to Dallas for a trip here something like that. Something's been shot. But what I hear is they got away the guy got out on the tarmac and got away or the guy got through security. How about the guy in Atlanta who got through security went running back to get his son or something about his son and they tackled him and he got they tackled him. They stood up with him and he walked away from him. They tackled this man wrestled him to the ground and they stood up with him and they were trying to get something together to get paperwork or something in his scored him somewhere. Well, they turned around, he walked away. Well, I never did find him on the ground tackled him.

Chris Harrison 22:41

But then you have a comedian like Kevin meany who did something with some national guardsmen his gun and gets arrested for it. Which the thing should just be arrested for his comedy. It's too silly.

22:51

It's too silly.

22:52

Um, you know, never is I'm not flying. But the problem is I'm still gonna pay for it. You know, we're gonna pay for these airlines loss of money, you can bet on it me not flying are going to be paying for it. They already bailed them out? Well, they're gonna be bailing them out for 10 or 15 years still bailing him out? Plus, you have to consider the fact that I'm not sure if it was officially the federal government. That was that, that brought in the National Guard or if each one of the governors did, but we're paying for National Guardsmen to be patrolling the airports in some in some places. Still,

23:28

that's what David Brenner was talking about. He also said that the these people who are doing this screening are idiots. And of course, somebody addressed him said, well, not all of them. He said all of them are idiots. And he says now they're gonna give them five more dollars an hour. He said, What you got then is an idiot who's making five more dollars an hour. They expect that they're going to be you know better because they pay them more. He says what you do fire mall, hire all the people who lost their jobs because 911 hire all the people who get old retired

people or retired policemen ask them to volunteer a couple of days a week to help their country do this kind of stuff. And I thought, genius, let's hire all the people that get laid off because the nine lives

c

Chris Harrison 24:12

are the other stupid part about is this they're saying they want to federalize the security positions at these airports. Well, once you've declared them a federal employee, you can't fire them, no matter what.

o

24:27

Bad in India, you can fire a state employees trust me, but it's a little it's still in there. It's still a little trickier than your average. Did you do get fired from a state job? I'll tell you it was tough. I went out on workman's comp Yeah, that's it. That's the only thing you can be fired for. But

o

24:44

you I mean, when you get something like that, I mean, when you have the governor, a government sponsored agent, I mean.

o

24:54

Federal Security people are idiots

o

24:58

idiots Never underestimate the power of three things love, hate, and stupid.

o

25:10

And on that note we're not getting political. No,

o

25:15

no, no, no. It makes me so mad. It makes me so mad. I mean, literally, I have to stop talking about it. It makes me so mad.

c

Chris Harrison 25:26

I used to get in arguments with my father about politics all the time. And I got tired of it. After a while I said, Look, this was several years ago when I go when's the last time you vote? It was

Nixon was in office wasn't me. So I said, if you're not going to vote, shut up. So he went out and he registered and had my mom register and this will be made one of those right wing nuts go out and vote. Well, now here's the fun part. Okay, this was the first not bad

25:54

enough, we lose without.

25:58

This was the first one of the first selections he voted in was enrichers versus shrub. So

Chris Harrison 26:08

he knew I was supporting Adam Richards. And on some issues on Democrats, I'm conservative, it depends. It depends on the issue in the candidate. So he was going to he's went out he was saying that he and my mom are gonna go out and they were gonna cancel my vote that those two votes for shrub was gonna cancel out my vote. Oh, my mother came to me later, and she doesn't know what he's talking about. I voted for Ann Richards.

26:32

Never know what people do when they get in that boat, but it's true. I know what Pee-wee Herman does when he gets in there. But I don't know what anybody else does. I don't know what anybody else does.

26:46

Thinking about that, because one of the other MTV shows that celebrity deathmatch, they had Pee-wee Herman versus George, Michael.

26:55

I have a jackass where they do these outlandish things where people get killed, trying to do them that they've seen on the show.

27:04

That's called Social Darwinism.

27:07

Okay, if you mean, think about it.

27:12

If you're if, if you're watching these 2833 year old guys, using a skateboard or having a car coming at you and jump over the car, and they get a little hurt, if you're going out there as a 15 year old and decide you want to jump the car, and you get

27:30

injured, 15 year old driving at you at 100 miles an hour, you deserve to get hurt. That's right. If you learn by and Bill, if you go in the backyard 18 You're smart enough to know better than if you go into the backyard and have somebody but you're doing it on TV and they're getting paid. And they're they're professional leads.

27:50

If you go into the backyard and have your friend pour charcoal fluid on you and light you up so you can cook like a steak. You deserve to get burned. I'm sorry, these people, this is where I'm slipping the Conservative Party for a million dollars.

28:05

Yeah. If Oh, geez. Where

28:08

the hell are the parents? If there's gonna sit there and they're so worried that we're holding the quarter? Yeah, they're working two jobs, then they need to cut the cable off. It's like with the Internet. You start cutting all the content, you cut all this stuff out for children's sake, for what children get access to? Well, sometimes I

28:28

really miss my child porn.

Chris Harrison 28:32

I was going to dedicate the candy man, I wanted me to play Candy Man after that, after that little part there. I mean, I'm on the iPhone, the Yahoo groups, and it's ever since then, it's like everything has changed. And you can kind of tell it's almost like that. FBI. Well, they're like that. Well, now that they hooked up that computer, the carnivore, carnivore is supposed to go

through. Because I've run some of the groups on with it kind of like they suddenly disappeared. Some people who had permission to post copyright material. I mean, they had written permission from the company. They got kicked off. And were able to come back though, after they said, hey, look, we've got the permission. But it's one of those things if

29:20

we've got this strange society, that we're gearing everything towards children, towards children. It's like if somebody's parents aren't going to instill the values in their own kids. And the same people who weren't instill who say we need to protect the children that we have or they're doing it. We can't protect we have to protect them from the internet. We have to protect them from the video. We have to protect them from the music. Because that's the society's thing, but we want to teach sex education in school. They don't want we want we want to teach them Hey, you can't hate everybody just because they're different. No, no, that's a parent's job. You If you're going to teach your children if you can't teach your children, your morality, don't expect the rest of society to teach it for you. Because if we do that accept everything we teach, just pick and choose what you want to choose what you want us to do. You can set your rules in your house and when little Billy goes over to Johnny's house, if if little Johnny's allowed to look at smack the horror up.com. And you don't want your child to watch

30:27

that in their.com, I've been there.

30:33

Bookmark now talking about who gets on the internet. And he's, he's getting used to playing on the computer. It's like, yeah, I can look at BCL you and I call every day. I want to know that. But it's we bring the society together, and we're trying to take care of the children. But then everyone says, so we can't do this for the kids. We can't teach them about other people there that may be different. That's that's the parents job. We can't teach them. That, hey, not having sex is the best way to prevent from disease. But if you're going to do it, there's this little piece of latex that kind of can save your neck has a chance of saving your life. Well, we can't tell you that. But it's one of these

31:16

things you want to read? What words you can use, what words you can't use,

31:22

like Hillary Clinton came out with that book, it takes a village to raise a child. And all the Republicans go Oh, that's so so far. This is all that liberalism. It's like, well, it's the conservative way now to we have to take care of all this stuff, just for the kids. For for the people who

supposedly can't help, but it's like, there has to be a point where someone else has to step up. You can't hold large kids

31:52

jumping over a car off, you're still

31:58

what was the fact that? Yes, there's a show out there. It's rated TV Ma, and they put a big ol thing on the fret saying do not do this. Do this at home, you will get killed. It's not on until primetime before now it's on after 10 o'clock. And if you're going to sit there and do this type of thing, I don't care. That's

32:21

the show is doing Jackass stuff. Like setting your your neighbor on fire. 1415 year old Do you know who has the common sense and the maturity to know Jackass stuff from logical stuff? I mean, even the one I have at home who's mentally retarded knows better than to set fire to the you know? It's well the thing right out in the street playing for traffic.

32:51

I mean, the stuff they do is so outlandish. I mean, it's so outlandish. on quite a few of the things I mean, getting yourself putting yourself in a fire suit. I don't really need to go into like the barbecue. Like the barbecue thing. It's not like when you sit there you say, Okay, we're putting on a fire suit first. She's like, No, no, you were asking why we're why we're getting off on this. It's the fact that we're when you're starting out

33:24

that we don't know, do we? It's 245 in the morning, and we don't know if he three.

33:35

frantically looking for the next guys to come rolling in here. Any second.

33:44

They had the potato battle.

Potato weekend.

♀

34:16

♀

34:28

They actually had a bad old future Rama. Yeah. Yeah. And

34:33

that one actress who's part of the panel, who's almost always part of the mean, you can't hear me we hear yaki I want to beat that. Because whoever's translating, if they're translating, literally, I want to beat that girl.

♀

34:52

They don't translate literally. They

♀

34:54

make her sound like she's got the IQ of a mushroom. Welcome.

♀

34:59

They probably will then that's probably probably true. Because just like the ones we have here, IQ mushrooms. So in other words, what

♀

35:08

you're hoping for is they bring back a special edition of Iron Chef since they've stopped

you're hoping for is they bring back a special edition of her cher since they've stopped producing it and make her the secret ingredient.

35:18

If my memory serves me correctly, I know all I can tell you the whole show that's programmed.

35:24

Well, there was a scary part about it. Did you see the US version they made of it? Oh, no, I

35:29

35:33

Yeah Well yeah he's got plenty of experience eating right

C

Chris Harrison 35:38

So he does. He tries to do exactly like the Japanese Chairman Kaga and comes in. I mean, he bites the bell pepper. He comes in with a fancy kind of robe. And it's very flamboyant. I mean, it looks like he stole his row from Liberace museum. And it's, it's nothing like it's Fox.

36:02

Yeah, that's right. The secret

36:03
