## SPEAKERS

Jimmy, Chris Harrison

00:00

The illustrious drugs are John Ashcroft just decided it was necessary to bust 55 websites for selling pipe bombs. Oh, um, so

00:12

yeah. Yeah, big difference. Yeah.

00:18

You know, 100 people were arrested, the charges were all found in Pennsylvania and Ohio. And why? Because that's the only two places in America those types of laws are valid. Oh, really. So the DEA was used to use 1200 Federal officers to track down these people for selling these bongs. And the awful thing is that, you know, 10s of 1000s of man hours, our tax dollars our money our government spent this instead of going after terrorists, or child molesters or, you know, desperate criminals of one sort or another, they decided to spend this time chasing down, whether they're on the internet, they're worldwide, where are these people hiding? You know, they they had no. I don't know, they just don't ever get it. You know, there is a better purpose for law enforcement.

01:19

I got a letter recently from one of my MBBS my men behind bars. And he included an article that he cut out from the US News and World Report. Okay. About your friend, Ed Rosenthal. Oh, yes. Yeah, it was a short article about how he had been bamboozled. Because the judge barred the defense lawyers from telling them that Rosenthal had grown the pot to provide medical marijuana, which was legal in California to patients with AIDS and cancer. So folks who are listening to you,

01:58

that's good to know. And we're making a difference slowly, but surely, we get a few more members every month for normal, we got more folks willing to, you know, write those letters and get involved in. So I'm not wanting to report to the audience's Monday, I'm actually going to go to Austin and take up a draft. You know, hopefully, to get some sponsors for a medical marijuana bill for Texas. Good. And I'm using the Oregon model, which seems to be the one that gets the less flack from all the, you know, other states or other officials. It's the ones that people think is the best model. And we're going to go up there. And I'm meeting with Dwayne Bowe hack. He's the rep format, and I think the west side of Houston. And he's not saying he's going to do it, but he's going to look at it. He's willing to take a look at it and to discuss it with me and I appreciate that, you know, chose a guy willing to, you know, at least look at the subject so many people are, what about the children? And I say, how many of our children do we need to send a prison?

03:05

Yeah, marijuana. Yes.

03:08

It's senseless. It is totally censored. i

03:10

Yeah. friend of yours. Speaking of Dwayne, I believe that's his name, stopped by the station last night and gave me Xerox copies of a whole bunch of federal and state articles and from pamphlets and from books from the 1800s through 1952. About the country growing marijuana for all kinds of different uses. Yeah, who I mean, I do the buttons.

03:43

I do. I'm sorry, I can. I'm not drawing a blank. I'm drawing a blank on his last name. But yes, the gentleman has the original doc. Yes. And

03:51

he's paid lots of money. Oh, he has

03:54

instruments of you know, hemp harvesting and so forth. Yeah, it's amazing. The gentleman had is showing that this was a bonafide product that it was a legitimate medicine. My gosh, Thomas

Jefferson grew poppies outside his Monticello home. George Washington grew hemp outside his home and he actually was in Europe one time when he made a mad dash back to the states. And the people asked him why he says, Because I wouldn't miss the hemp harvest in America for anything.

04:28

Well, not. Not only that, but he had an article he showed me from 1952 that was talking about from the Department of Agriculture, talking about growing hemp and that it could be done if you paid the tax. And at the same time, another arm of the government is, you know, calling it a drug and vilifying it. So what's up with that?

04:55

And the ironic at this point is that At that, that tax that they imposed on marijuana, yeah, was \$1 per transaction? Yes, of course, at that time was an outrageous amount for something that had been basically free since time began. Yeah. And that that helped to quash the sales and, and us once they stopped the sale through this excess of tax, they, of course then said, Well, it's not a legitimate medicine anymore and and started to impose the draconian sentencing. Yes.

05:35

You know, if it was in medicine, why did it stop being a medicine that that part I don't understand. And anyway, there's a lot of information he gave me about an inch stack full of of Xeroxes that I'm going to be talking about each week a little bit wonderful.

05:51

Dwayne is a goldmine of information. Yes. No, kid. One last thought before I go, Jimmy Sure. That our lobbyist in Texas legislature now is a gentleman named Howard Wooldridge. He's a member of Law Enforcement Against Prohibition. He's got 12 years as a police officer. And he's up there lobbying. And one thing he just discovered this week, he's gonna have give me a copy to show our legislators the very first Texas law against marijuana had a provision for medical use, see? And that's just been forgotten through the haze of all these years. Sure. So we're going to see if we can bring back that medical use. And secondarily, folks, there is a new house bill 715. That moves marijuana from B to C, basically, from drunk driving to running a red light, you pay a ticket, and you can go to Houston, Normal dot o RG, we've got a link there hooks you right up so you can easily write a letter to your state reps to federal reps to the president, anybody you want to all you do is type in your zip code and it links you up with your reps.

07:00

Okay. Okay, sounds good. All right. Dean's, as always, thanks for calling in the only healthy heterosexual man who has a weekly spot on and then after hours,

07:12

and I appreciate it. honor it.

07:15

I appreciate you bringing the information to the audience. Because as I can see, just with a couple of letters from some of the guys behind bars, people are listening. And and it's sinking in. Well,

07:30

and I tell him, I thank them for listening and for all the folks that pledge last couple of weeks, and we appreciate you. You bet. All right, bet.

J Jimmy 07:38

Thank you, Dean. Thank you, Jamie. Next week, you bet. Okay. And you can hear Dean every day at 420 in the afternoon for the 420 spot of cultural baggage. He's also on Ooh, I've got to ask. You see the first and third or second and fourth? Oops.

07:59

Must be the first and third. First and third. Okay, first and third Fridays at midnight? Yes, yes. Oh, okay. We've got the after hours news magazine coming up, right after this piece of music from well, this is for Paul, another one of my MBB sees. He's he's never had. I've played for him several times, but I don't think ever got a chance to hear it. So I'm going to try it at this time. You know, I've tried it at the beginning and in the middle. And so let's try it now. This is Roy Orbison with Katie Lange. Doing that song. You know what that song is? Folks? I don't have to tell you. We'll be right back

09:02

that's a classic meet even more classic.

09:05

Oh, Roy Orbison is just to fine. Yeah,

09:07

yeah. Well, let's see. This is the after hours news magazine, and we're gonna have a roundtable with everybody in here. Oh, yeah. Folks, you know, folks that don't normally show up a lot and don't normally get to do much. That's right. Yeah. Where are they tonight?

09:26

I know. They probably, you know, I'm hearing though they probably

09:33

know well, I know Stephen, who used to be here every week is now working downtown and he lives in in Seabrook, or, or

09:42

somewhere out there. He's got the Santa Fe, Santa Fe. Yes. Well, that's been in the news lately.

09:50

Yeah, I would have liked to hear and hear what he what he thinks about that. But I really miss him. I really do that. That and leave it He would always bring in. Well, yes, I just better fact Lee. I blown to CD to Lee and he hasn't been back since I must be he must have really little fun months back here, honey. Yeah, that's right. Just copy and bring it back to me. Oh, first thing I want to say remind people that sunday sunday sunday yesterday the boy that woke up your app yes didn't it? That means that if you've been if you haven't gotten to bed yet, it's still Saturday night. So when you go to bed and you get that Sunday special show fundraiser for Lloyd Powell. Frame it prime minute up, wet prime minute up, because Mr. Lloyd Powell Powell, a activist in this community is candidate for Mr. Prime choice

10:55

Mr. Prime that's right and who is what is a Mr. Prime towards the

10:58

Mr. Prime choice is kind of a Levi letter title given to men over 40

11:05

Another words my group

11:07

11:07

that's right. Your Way over 40 Honey, Oh, honey.

c Chris Harrison 11:14

Your style.

11:16

So anyway, it's a space to the Empire. Apollo one, Shawn Carter presents prime to get up for Mr. Lloyd Powell. And that's going to be at Mary's Naturally at five o'clock PM. So if you stay up until you know four o'clock like I do and go home and of course I'm juiced up and so about six o'clock before I get to bed and get up about two or three and I'll just be in you know in time to breakfast at Mary's so five o'clock at Mary's be there it's going to be a lot of fun. Lloyd has a lot of friends in this community. So it's going to be some really sick drag over there.

12:01

Ah heard. In other words, it's going to be kind of a drag version of this show. Pretty thick and twisted. Wow,

12:09

that's the way I like him. I see our intrepid photographer is standing there with the with a single pair of feet and and droopy eyes. Riches is still going riches is still going. That's right. They're having the after hours tonight at riches from what 330 till 830

12:32

to eight. I don't know where we can still go to the club.

12:38

Oh, right. Yeah.

12:42

DJs there and ready to go.

12:43

DJs going, huh? Is this a special performance?

12:48

No, they have a circuit now that keeps the after hours. Party moving.

12:53

Cool. Cool. That's good to hear. Yeah. Okay. And dance until the sun comes up. You

13:00

know, Houston is now part of the circuit party. Oh, yeah. And it really should have been Yeah, this is

13:06

a group that promotes businesses by having after hours and all these different businesses.

Jimmy 13:14

But you know, there's something just a little not, it's something very wrong about clubbing. And when you walk out of the club, it's daylight. That's out theory that

Chris Harrison 13:25

you really want to see riches in sunlight.

13:29

I mean, I guess I will be seeing it in sunlight next Sunday. When I'm there for the Louis weekend. Show that's going on there at one.

Chris Harrison 13:39

I've had to explain Louis to some people online. Oh,

13:42

let us entertain you. Yes. When you haven't had enough of Mardi Gras. Come to Louis. There you go. Yes. It's kind of the same thing only

13:52

and they had a little don't they have do we have those like fun runs or Oh yeah. are

13:58

different different groups putting on cocktail parties, which means they have a washed up and they pour a lot of liquor and and some sort of stuff. And they just hand out paper cups when some sorted way. That's sorted way. Yes. As

Chris Harrison 14:16

Jim Jones gotten to fame, ooh. Oh, it's

14:19

not Kool Aid. No, no, no, no fact. The Gulf Coast archive and museum is giving the last official cocktail party which will occur at 2pm Next Sunday, and I'll be there and we do Bloody Marys. Because we can do Virgin Marys. By that time. Some of the people have had enough alcohol in them they don't really need any more. Basically

Chris Harrison 14:50

they can stand next to the Virgin Marys and they become yours.

14:53

Got it. However, after the festivities, most of the a lot Other people find their way over to Mary's and there's kind of unofficial cocktail parties going

Chris Harrison 15:05

on. So where's the where's the final word Gee cam is going to be at urges at Rich's now

15:10

next Sunday the eighth or ninth? Whatever Sunday is. I think it's the ninth. Yeah.

Chris Harrison 15:18

Yeah. Nice Sunday. Yeah. Something like that. Something

15:21

like that. And let's see a couple other things. The Unity banquet for this year is happening at and that is the Houston transgender unity banquet. Transgender groups get together.

c Chris Harrison 15:37

I have to take notes on that because someone emailed me like I've written email you to get the information. Oh, okay.

15:41

It's happening at the Southwest Hilton Hotel Grand Ballroom. That's hillcroft at Southwest Freeway. It's April the 26th. And tickets are \$40. Of course, this is a fundraiser folks. And you can you're now able to get them at Lobo Lobo is carrying them and if you buy your ticket there, please tell them thank you because they're not making anything off of it. They're doing it as a service. Lobos is located at 3939 Montrose

16:18

I'll tell you I I've been to a a unity banquet and so much fun. It really is. If you haven't been to one you definitely got to go. Yeah.

16:30

I saw OSI you know I'm just putting this out there because I don't know. I saw a sign it was like Friday night and I didn't get chance to it was late Friday night and I didn't get a chance to take advantage of it. But at the intro by basic brothers newer basic Brothers is basic common and common. Basically, Brandon slap him more

16:58

I think he likes it great.

16:59

I think it's better that we have Chris in one room and big Roy in another it works out much better. Anyway

... 16:59

 Chris Harrison 17:04

where was well he parked himself over there so I couldn't get in basic brothers.

 17:09

i There's a sign that said 50% off. It wasn't on the building but it was a sign posted at the entrance way. So that makes me wonder what's going on. It said 50% off on everything. Got a business at

 17:25

the top was told really? Is that the top 50% of the bottom? Well, top half of the bottom

 17:33

Wow 50% of how they get your pride clothes now you know all those good flashy shirts like to wear

 Chris Harrison 17:38

something besides G strings. Yeah, they do. Every

 17:43

once in a while I can even find something for me there.

 Chris Harrison 17:47

I mean in clothes, I didn't believe that. I didn't realize I had orthopedic shirts there. How somebody slap him.

 17:55

Brandon slap he's in tonight folks.

 18:01

You know eat starts getting that regular and

 18:06

look what happened I know.

18:10

sprayed the microphone.

c Chris Harrison 18:12

With soda with soda

18:22

okay, I can see LBL away camp out. This is the lady victoria last PWA camp outs happening May the 23rd the 26 Memorial Day weekend and September 26 through the 28th the eighth LDL lady victoria last PWA camp outs are held every year in May and September. These cat camp outs are for those who are living with HIV AIDS and their immediate support group. These camp outs are free to individuals who are HIV positive or have been diagnosed with AIDS and who do not have the financial ability camping equipment or transportation to attend such camping events. Many clubs organizations and individuals from around the state lone camping equipment for those who did not have any. They also helped with transportation to and from the camp outs for those without transportation. campers who are not living with HIV AIDS are asked to make a \$25 donation. All meals and beverages are provided. This is a predominantly all gay male event and all campers must be over the age of 21 Campers must be in relatively good health. This is not a resort or a dude ranch. This is camping. Not with drag not with a wig. No, no, no. This is camping in a moderately developed wooded area of the Texas Hill Country. These camp downs are held at the Texas conference of clubs land site near Cameron, Texas. The landslide lay of the land law A peak is centrally located buzzard sexually

Texas conference of clubs.com this is very important and a lot of the the group groups like space city and the Royal Sovereign cork and other groups do benefits just for the camp outs so that's why they are free because bad drag is going on and drunk man are giving the money so that HIV people can

 C Chris Harrison 21:27

we have Can we have a a fundraising performance to stop bad drag? No,

 21:32

no no. Perform tacky?

 21:40

I'm saying he isn't we're rare form tonight.

 C Chris Harrison 21:43

And the thing 30 minutes ago I was ready to take a nap

 21:47

I can I can understand why you need one. Ah, here's something that I want to want to say and get people's opinions of I got an email from Oh Adam from frustrated housewives and that's that's the group you know the the porn music that Oh, yeah. played his bed music. Yeah, should be playing it now. It's great stuff. It's great stuff. He sent this to Taylor cage and I Taylor cage does a gay show in Austin. And he said just had to share this little tidbit from my day. It's 7:30am and I'm getting ready to get ready to go to work. I get a banging at my front door. I run to put some clothes on and come back to here banging now at my patio door. I go to the door. Standing for before me is a very young Hispanic kid. With makeup on and blood all over himself. He's there crying clutching his wig. I live in a very rural area on the edge of San Antonio. Last night this kid was picked up at a bar here, beaten nearly to death and thrown out into the woods near my house. Somehow he made it. He made it to my house. When I answered the door. He asked if he could use the phone. I asked if he was okay. He said I don't know I woke up in the woods. I'm from San Antonio. Where am I? I called 911. I called his mother and I got him to the hospital. Get this he was only 16 This is so sad. I thought we had done so far beyond this crap. But I guess not. I don't exactly know what I can do for him or other gay kids aside from tell people about it and let his family know that I am sorry it

happened. The family thinks they know who did it. I will I offered to help in court. From there I asked you fellow Texas residents just to make sure people are aware of this and the dangers of getting into cars with people you don't know regardless of how old you are.

23:59

That is so true. You know there are just a real sickos out there looking to do us harm.

c Chris Harrison 24:07

And especially I mean if you could probably consider it may have started off with the fact that a 16 year old boy in drag probably looked very much like a very attractive woman so this person who did this could have been expecting a female reached down and found sausage instead of tuna and flew off the handle.

24:30

Well you know it's I'd say

24:33

I have seen this come in there and slap you silly up too late. You already are.

24:38

You know, Jimmy, I have seen on the police beats and stuff. There are too many cases of even guys my age. Yes. of our age that have become victims. It seemed it homophobic attacks. It's picked up in bars and getting picked up off the street or taking the kid home. I mean, God knows what. It's not just, it's not just the 16 year old kid and drag.

25:09

Lin came in and she slept in the bed. Yeah,

25:13

but I think Chris likes it though.

c Chris Harrison 25:15

If you're gonna slap the piss out of me, do we have to put on the yellow hanky song? Yes. Okay. And they do that and you know,

25:25

thank you so and you know, but you can really hear you can only hear a discussion about something serious going to something comical like that on after hours here on KPFT Houston, que yo es College Station. And don't forget to five and get Galveston an on the worldwide web at KPFT dot o RG. That's

25:46

right. W Acube dot KPFT dot o RG. It seems every month on the transgender gender segment. There's somewhere in the United States, a young transgender who's been killed just in the same manner that this this young boy, yes. Or young transgendered person could have been killed could have

26:12

been killed crew. She's very lucky. We had one get killed here, not just only a few months back. I do believe that it's but it's like I said though, it's not just transgender or transvestites. It does happen frequently. To even guys who are our age group? Yes. You're just somebody

Chris Harrison 26:37

who's looking for some sort of companionship, whether it's for five minutes, or whether it's for 30 minutes an hour overnight. And if you feel that the only way you can make that connection is picking up someone on the street corner. You don't know what's gonna happen. I mean, you hear the stories occasionally of

27:02

hustlers, who are out there, people are out there. They're hustlers. They're out there acting as hustlers, because they want to always like to kill somebody. Yep. And so they'll, they'll let the person pick them up, go back to the hotel, or wherever and kill the person. And that is something that you have to be careful of you have to know what your surroundings are, and be in a right state of mind to understand the dangers and troubles that you could be getting into with that.

27:28

In that same vein or not. Not exactly thing, but

27:33

maybe your choice words tonight. I

27:35

know. I know, transgender news. The AFL CIO Executive Council representing over 13 million employees in the United States spoke out this week against all forms of bigotry and hatred. The the statement read, employment, housing and other forms of discrimination as well as acts of violence based on sexual orientation, and gender identity and gender expression, continue unabated. And they are against it. The AFL CIO, Oh, can you believe it?

Chris Harrison 28:16

Such a largest labor

28:18

cut, very conservative, macho group coming out against discrimination of not only sexual orientation, but gender identity and gender expression? I think that's an awful

28:33

news and the AF of L CIO, actually controls an awful lot of most of the unions in this country. Not every not, you do not have to be a part of the AF of L CIO. Yes, but it sure does help. If you're a union being a member, and they do read and if you are a member of the AFL CIO, you've got to bring your own unions bylaws in step with the AFL CIOs, so this really goes a long way

29:01

and tack which is the National transgender Agathe Advocacy Coalition, which is chaired by our own Vanessa Edwards-Foster. Made it made a quote that the AFL CIO has shown true vision and supporting all workers, not just certain segments of the workforce. We only We only hope government can follow their lead. Very, very good. Thank you, Vanessa, for sending that to us. Something else? Let's see. Here we go. Here is some other good news. Good news. 1000s of Texans with HIV and AIDS will continue to receive life saving drugs from the Texas Department of Health. This is about the a DEP program the AIDS Drug Assistance Program bowing to enormous public pressure. th Tth tabled proposal proposed. Jimmy to give this to Chris to read, Jimmy, did

Chris Harrison 30:01

you bring your bad false teeth again? Or did you put them in backwards?

30:06

You're gonna read this I am yeah, I think you know between the segment on the MBBS which I almost lost it and everything else I'm

c Chris Harrison 30:18

anything I'm gonna do better. 1000s of Texas Texans with HIV and AIDS will continue to receive life saving drugs from the Texas Department of Health, bowing to enormous public pressure TDH tabled proposed rules that would have tightened eligibility requirements for the Texas HIV medication program. The action essentially kills the proposed rules. Randall Ellis, Executive Director of the Lesbian Gay rights lobby of Texas commended the decision TDH made the right decision. 1000s of people from across the state weighed in on to the issues. This is a tremendous example of how individuals and grassroots organizations can influence state policy and save lives. Revised TDH projections indicate that the medications program is facing an 8.8 million deficit this fiscal year, a 14 point 5 million deficit in 2004 and an 18 point 3 million deficit in 2005. The rules were originally proposed last fall as a way of addressing the deficits Tabeling was recommended by the TDH TTS staff, who said they would continue to look for ways to make up the current year deficit. They added that TDH could be forced to close down the program to new enrollees as early as April. State Representative Garnet Coleman, the Democratic Houston, a state leader in the health care policy, also applauded the TDH decision. I stood with recipients of this program one month ago and asking TDH to protect this program. I commend Dr. Sanchez and the Board for their decision and their hard work in seeking these funds to serve this important population. The future of this program now rests with the legislature TDH has requested \$38 million more from the legislature to maintain current services during the next two years, state lawmakers were facing a \$9.9 billion deficit in the next biennium. And the budget experts fear that programs such as the HIV, Texas HIV medication program will suffer.

32:24

That's another piece of news from Han net, of course. And I'm very happy to hear this because I am a recipient of the a DA dat program AIDS drug assistance program I have no insurance don't do don't work, totally supported by my lover. And so this saves me out of pocket about \$1,500 a month by being on our program. And I'm already spending a good \$1,000 a month on other medications.

32:56

I'll be honest. For now it's saved. I in my personal viewpoint here, seeing what's going on economically in the state and locally and everything. I do not look to seeing this program lasting much longer. Everything is getting cut back. And this is why it is so important for us in the community to be attending these fundraisers. Because the more it gets cut back, the more we are going to have to rely on these fundraisers and also, folks it is so god awful important that we practice safer sex. Of course, people today our kids today got this crazy idea that well, HIV and AIDS is no longer a death sentence a manageable disease. Honey is an expensive disease.

33:50

Yes, it is. And they're

33:53

going to be around for you to get that medication.

33:55

There's now the AIDS vaccine. There's an AIDS vaccine has come out aids back is that it?

34:01

I don't remember the name of it is a pretty much a dismal failure. Well,

34:04

it only covers about 30% of the people and only that

34:08

70% of the people and if you're caught

Chris Harrison 34:10

in if you're Caucasian Anglo, that the head you're not covered. It's not working. It's only African Americans and Latinos. No Asians, Asians, Latinos,

34:19

no. African American and Asian. Yes.

34:21

And that's not 100% not 100%. So you know, don't don't jump, jump right out there and start doing bear backing because it's, it's you may or may not work. And you have to take it now. I mean, you have to take it before you get before you cero convert or it doesn't work. It's not going to work for me.

34:44

But still still. Don't bear back. No, you know,

34:51

no need to there's no need to don't do it. Don't do it. Let me tell you. I

34:57

know Jimmy I wonder are we a vet Some of our own success by back in the early days of this, I remember how act up and so many other groups were protesting real loud for, for something to be done. And we finally had AZT and and later on the protease inhibitors, and things finally did get done. And there's big push on safe sex to safer sex. That now, could it be that we are victims of our own success? Absolutely.

35:28

Absolutely. Because it's not a success. It is not cured, people are living longer. And

Chris Harrison 35:36

unfortunately, they're looking at the fact of as long as they live long enough that there will be a cure eventually. And I keep hearing every, every six months or so, this good news comes out. But unfortunately, the original virus mutates so quickly, that, yeah, we might have some, they may have something that works now. But you know, two weeks from now, two weeks from now, it's it's a totally different virus on different people. And that's unfortunate, what has happened is the fact that it's gone from a disease where basically, you were diagnosed with it, and you were told your your life expectancy in weeks. And now it's notes

36:16

in years and years. And it's really it will shorten your life. And plus,

Chris Harrison 36:21

we're talking about a generation that now has grown up with a safe sex message. And so it's kind of the ones who can can get that sort of topic taught in their school. I know my my high school, my health teacher. When it came time to do the sex education part of the class. He actually sent us to another classroom to watch the sex ed films. And then a week later, he showed us a video from I forget his first name. His last name is Reaver. He is a motivational speaker slash televangelists. He's the one who you may have seen, he tell evangelist he is a he's on the Christian stations. He is a he was a Vietnam veteran who was disfigured from a

phosphorus mom, phosphorus grenade. And so we saw this like a week later in the classroom. Now to scare everybody to give you a little clue to something here. This is something I haven't mentioned on the air. This was at a certain high school named Klein High School. Oh, which is in the news. I am an alumnus of that school. And, BEX, you weren't out? No, I wasn't at that time. I wasn't while I was still questioning at the time, I think. And the principal in question I do know I worked for him for a year a semester actually, as a student aid really, when he first arrived at Klein High School.

38:04

Back in 1990, he was an assistant principal for freshmen. And I was his I was the scab who went and got who grabbed all the naughty kids and brought him down to his office. Oh, so I'm somewhat familiar with half and client High School. There's this big revelation now about the fact that their school newspaper censored? Well, yes, back in 19, late 80s, early 90s When I was there, the same censorship debate was raised then, because the student paper wanted to do stories about abortion. And that was shot down. So client client High School, one thing you have to understand about it is it's a very intriguing mix. You have people who go to that school who are in houses that are worth millions, I mean, millions. And then you have the further end, which is down where I was in subdivisions that are homes in the 30,000 20,000, blue collar, blue collar and less the bus that I rode to take me to call in high school. Basically, my my subdivision bordered what would basically be considered a suburban ghetto. I mean, I went to school on buses with African American students who were in RAM shack, I mean, shotgun, there were large shotgun houses, basically.

C Chris Harrison 39:45

So you have this wide spectrum, wow, of economic diversity there. And that unfortunately gives you an idea of why some of the issues are having is there a A couple years after I left, they stopped the powderpuff football game every year because one of the things with the powder puff football game was a pattern for a football game is where girls play flag football. Yeah. Well, our school always took it a step further. And now the cheerleaders for the powderpuff football game. Were men in drag. Oh, lordy. Have fun. No, no, no, it's not fun when your third string offensive tackle, and you get down to a four point stance and you have two big bubbles behind you wearing lipstick and Rouge. I wanted the quarterback I didn't want the tackles.

40:45

Here and with more bad news.

C Chris Harrison 40:52

But now that because we've been we've talked about a lot of stories that come out about Klein here lately and I I haven't weighed in on that yet, but I'm I'm a former Bearcat I understand what sort of thing is at that school.

41:04

Let's go to some music and then we can come back to more. More sad

c Chris Harrison 41:07

stuff. More business. I also have Fred Phelps coming to town. Oh, joy.

41:11

Oh, but I got some really? Yeah. But let's get into music. Okay. Okay.

41:17

Yeah, it's technically your second guy. No. Okay. Yeah.

c Chris Harrison 41:23

Oh, let him think he's in charge for him again.

41:30

Yeah, Chris. And remember, darlin, it's not tuna fish or fish? It's chicken out.

c Chris Harrison 41:38

My therapist wants to know what you're saying is it? Isn't it called why they call it fish. She didn't she didn't realize it was a general term. People knew that they refer to women as fish. It doesn't smell anything like fish. I said, Well, yeah, but see low tide would be considered really offensive. Oh,

41:56

I don't say good night. Guy. Okay, here's here's some Mary LOAF. strim. From her CD. Ginger comes to stay. It's kind of a it's a jazzy jazzy CD. And this is jazzy. Take on an old standard. You may remember this.

42:29

Something for the women finally on the show tonight. That was Sandra carto. Laurie, with my one and only love before that Mary lofts drum. My baby just cares for me. And let's see Sandra Kirtle already, I believe has a new CD out. I don't have it yet. This one is called to VIPPs t. t w o

li P Yes. You figure it out what she means. All right. It's kind of that that jazzy Phillips

43:06

that the lesbian favorite flower

43:12

he went there he went there. Come on. Come on, lads. Haven't heard him complain about

43:17

lips. Your voice in such a good meeting song.

43:26

Yeah. All right. You know.

43:29

It's been. It's been it's been. It's been almost a week since I've had any so obviously, I'm ready for the priesthood. I gone longer than most Catholic priests a week. Almost a week.

43:44

Yeah, no. Have you? What?

Chris Harrison 43:47

What you may want to kind of back off I was just gonna say he's, he wishes he was longer than most Catholic priests. Oh.

43:54

All right. Oh, 331 in the AM. Anyway, you're listening to after hours Queer radio with attitude on KPFT Houston K ers College Station and 89.5 and Galveston marking Galveston called to say that we're coming in perfectly clear. And in stereo. Thank you. Hey, Mark, thank

44:16

you for the call that hope you're enioving and anybody that's out there on the that's listening to

you for the call and hope you're enjoying and anybody that's out there on the air is listening to us on the worldwide web, please let us know. Give us a call.

44:26

Or email us at

Chris Harrison 44:29

after hours. kpft@hotmail.com And

44:34

we got you that actually is on the KPFT website. They linked that they link that but we need to put some other stuff on there like something about the show.

Chris Harrison 44:43

Well, if I ever get my act together and learn how to do web design, well,

44:47

I think it has to go through Cristian here,

Chris Harrison 44:50

then no, no, like our own little website. Okay. No, well,

44:54

I want to have something more for the KPFT website to tell

44:58

her Jimmy you caught LOAF, his mind is occupied. Always

45:02

mind is occupied. Yes.

45:05

Anyways, I got some to occupy your mind, Jim.

45:08

Okay, tell us about, okay.

45:12

There's a television show that's in the works with Bravo. And what they're going to do is take a bunch of these hopelessly straight guys with absolutely no taste, who are all very clueless. And they're going to tame them up with flaming queen, you know, flaming gay guys, and who are going to give them physical makeovers, you know, clothes and stag racers

Chris Harrison 45:36

into drag queens? No, no, no, no

45:38

new No, no, no, no, I don't think it's going that quite that.

Chris Harrison 45:41

I saw some show that was talking about that. I thought it was the same one. No.

45:46

These are hardcore gay guys. Regular gay guys. We're going to give these straight guys makeovers and clothing styling in their apartments in their homes and stuff, which really ought to be something else. And NBC is talking about possibly broadcasting that as well. I mean, isn't reality TV that is going to places that no one has come before.

Chris Harrison 46:11

And Roy needs the makeover not giving one.

46:15

Wow, Joe. Also, I wanted to mention that folks who are been longtime listeners here at the after hours, and there's so many will know that we've been on the cutting edge. This show has been

on the cutting edge of music, news and a whole bunch of stuff for so very long. And this week's cover story. Cover Story in the triangle is talking about big breaking news about gay rappers coming out of the closet. Oh, guess what good. Jimmy wouldn't play in great gay rap music

46:54

were four years ago, at least thank you with rainbow flavor, featuring Dutch boy who's now on his own in New York. And it was a West Coast, a group and deep dig collective and Tory fix. And I can't even remember so many. And

47:18

it's also interesting to note that more and more gay groups are coming out into the mainstream. And I would like to think that after hours shows like after hours, has played a major role in a big role in causing this to happen. Because folks, you never know who's listening. You just never know. That's right. And even before we got onto the web, there was a thing called in the ether waves called skipping. That's where the radio transmission signal goes a lot further. Then it was would be intended. And who knows who was listening in and empowering it's been very empowering for me in a way before I came to this man. I was listening in for years with Buddy and somebody named Mary. Mary was

48:18

I ran into somebody this past weekend this past week who came in and asked about buddy No, yeah, yeah. Yeah, cuz because he remember when he we were introduced he said oh my god. Yeah, you know,

48:37

they're this over there over in the Galleria. Everybody calls me big Roy

48:46

we're from

48:48

you know we're listening. We're listening you know and I get it you know all the time that they that they are listening in?

48:55

Well that's you you were you got that nickname on this show

48:59

I got that we had the ROI with as little ROI was only 18 years old. You know, when they when they would call for ROI now

49:08

30 Were

49:13

at the time they wanted to know whether they wanted to speak to a little boy, the younger one or the older one and so they people say well do you want the little boy or do you want the bigger boy? Yep. And that's how yeah name

Chris Harrison 49:24

came but it helps to have a little Roy has changed his name about 300 times. Yeah, depending on what week you catch him what name he's going by what colors you took the words right out of my mouth and he changed his name more often than changed his hair color. But

49:39

that's, that's that is yeah, you know, I think something about with Bravo getting gay guys teaching straight guys lessons on fashion, and make overhand and stuff like that. And folks, Chris is right. I really do need a lesson in this I need some intense. I mean, you know, gay guys were supposed to be like, well, at the height of fashion and all this, I want to know what the heck happened to me. Well,

Chris Harrison 50:09

we finally got you out of those yellow shorts

50:10

that just came instantly to mind. Unfortunately, he

Chris Harrison 50:14

put something on out of instead of the yellow shorts because he was just taking off the yellow shorts and went around like that. then well.

shorts and were around like this, then went,

50:20

you have to explain to the audience that Roy wore these nylon yellow shorts, which were about three sizes too small. They're

Chris Harrison 50:27

the same style of George W wears when he goes jogging. I think they're the same size, the George W.

50:35

And not compare me to JW and

Chris Harrison 50:40

a bright yellow that a taxi cab would go and would look at and go that's gaudy.

50:47

But he's famous for those yellow shorts.

50:49

But I only wore those things in the very beginning several years, right. So years back when it first came here,

Chris Harrison 50:55

honey, we didn't even have to mention those people could see those shorts over the radio waves.

51:03

In other news, oh, there's other news. Oh, the Pope has proved himself. Come on. Yes, yes, yes. You know, this man is still stuck in the 14th century.

Chris Harrison 51:15

... . . . . . . . . . .

Well, he can't happen he was born then.

51:19

transsexuals suffer from mental pathologies are ineligible for admission to Roman Catholic religious orders and should be expelled if they have already entered the priesthood or religious life. The Vatican says in the new directive. He every time I think he has said the ultimate he tops himself

c Chris Harrison 51:45

and Roman Catholic typing himself. Yeah,

51:48

no way. I don't forget the Pope was a priest. I have never heard of a priest topping. I know what I'm talking about. Anyway. A lot of those religious lines Yes. Has something along over religious line. Oh.

c Chris Harrison 52:05

Our favorite friend Fred Phelps.

52:08

Oh, yes. Is coming

c Chris Harrison 52:11

off red bell. So Houston. Just give you a little idea. For those of you who don't know Fred Phelps. This is the official news release of the Westboro Baptist Church WPC to pick at Kingwood college production of the sodomite propaganda play The Laramie Project Kingwood Texas March 6 to the eighth in religious protested warning, quote, God is not mocked. God Hates Fags and fag enablers. Ergo God hates Kingwood college administration, faculty, staff and the student body. Oh, The Laramie Project is a techy bit of cheap sodomized propaganda of by and for militant fags. It makes a promiscuous little faggot Matt Shepard a hero because he got himself killed trolling for Queer sex in a Wyoming bar at midnight.

53:08

Oh my god,

c

Chris Harrison 53:09

it makes WBC pastor Fred Phelps, a villain for preaching God's truth to wit. God Hates Fags. You

j

Jimmy 53:17

know, Fred Phelps has got to be the biggest fag in the world. You know, whenever somebody is that virulent against something, you gotta, you gotta like, what did Shakespeare say?

c

Chris Harrison 53:31

I don't think he processed too much.

o

53:33

I think the lady doth protest. Too much. He really? Yes, yes. So I can see. I can see Fred Phelps given a Hummer to Jesse Helms. Hey, Chris. Well, now there's someone who needs it. Chris Strom

o

53:48

Thurmond went back on the year. What was that you were talking about Fred Phelps and NASA. Well,

c

Chris Harrison 53:53

very simply, the protest sites are going to be following for him on March 7, from one 1pm to 2pm. He will be protesting at NASA. Why? Basically get this. Fred Phelps has stated that the Columbia shuttle disaster was not mechanical malfunction, human error or anything. It was the hand of God smite swatting down the the shuttle of the fag enabling America fag enable. Yes, this is one of his favorite phrase.

o

54:27

God smoke. Space Shuttle. Columbia. Yeah.

c

Chris Harrison 54:33

So he'll be protesting for an hour in front of NASA. Now remember, this is allegedly this is when he's well known for telling when he's going to be at places and not being there. He has a long list of places where he's going to be. Then from 730 to eight o'clock on March 7, and eighth. He'll be at Kingwood. College Kingwood place and Royston March 8 from five to 530. He'll be at St. John VNA Cafe like church, march 9, from 7:50am to 8:20am. He'll be at Christ the King

Lutheran Church. Lord, that's, that's on Sunday, from nine to 940. He'll be at First Presbyterian Church of first First Presbyterian Church of Kingwood. From 945 to 1015. He'll be at Good Shepherd Episcopal Church. And then from 1020 to 11. He'll be at Kingwood United Methodist Church where

55:33

they all in the same block,

c Chris Harrison 55:35

I guess.

55:36

You know, I know. So

55:38

incredible. Let's just go and get over with

c Chris Harrison 55:42

it. Because he says God Hates Fags and loves Fred Phelps so much. He'll get green lights the whole way.

55:47

Know what we're Fred Phelps doing with all these different I'm going to be at this time he has a place. What he's doing is trying to create a shell game so we really don't know where he's going.

55:59

Well, it may not be him but some of his children. Well, his

c Chris Harrison 56:04

reason is so WPC will also pick an Episcopal Church of the Good Shepherd and other pro Kingwood College, Queer friendly dog kennels and leper colonies masquerading as churches in Kingwood. And Houston.

56:17

What? Well, he's he's the head of this cult. I won't call it a church because it's only his family who remembers

56:29

I hate saying this. But Fred Phelps is so whacked out. He makes David Koresh seem saying he does. possible, David Koresh saying, compared to Fred Phelps

c Chris Harrison 56:45

pig has developed this. That's right. I mean, we've, if you go to his website, it's very famously known as God hates fags.com. You enter into it, it's somewhat professional looking website. When you get to the second page. The first page is just spouting. Here's me, here's my religious dogma and then go into who's where his press releases are and all so he's going to be protesting in Leavenworth, Kansas. Because of that St. Sappho. Maybe

57:17

they can just just hold them while I was asked to jail. I

c Chris Harrison 57:22

one thing I would like to do is, there is a movie that someone has made about Fred Phelps that Fred Phelps agrees with. What there is a was his Laramie Project, vilifies pastor Fred Phelps for preaching the truth about fags. Fred is a 92 minute film rebooting the Laramie Project

57:44

made by one of his children, I'm sure Steve

c Chris Harrison 57:47

drain. So well, since his last name is not son in law. Yeah, it's gonna probably be a son in law. If you ever think for a moment that we've we've come a long way we don't need to worry about protecting people's rights or protecting the youth protecting each other. Go to God, God hates fags.com and click through there go to the memorial for using his term for Matthew Shepard telling you how many days he's spending in hell. The Diane Whipple, who was the lesbian was mauled in San Francisco. He has established a memorial to her how many days she's been in hell, Lord, this this is very dangerous speak this way.

58:47

I mean, it's hate speech. It's hate speech. And it's, you know, it's got to be internalized homophobia on Fred Phelps is part I can think of no other reason. You

c Chris Harrison 59:01

know, that or I mean, not sounding, we're diminishing anything as if he was abused as a child. And it's just lashing out. But this I mean, the stuff of what he has here. When I saw the email, shortly after the Challenger accident, oh, sorry, Columbia. Of that was posted on hand net, about what he was saying. I did a copy and paste and I forwarded on to one of my co workers, for lack of a better term. She's my fat gag. No. And she read that she was like, you've got to be kidding me.

59:39

People. Yeah. People don't realize this. Guy's a loony. Yeah. And,

c Chris Harrison 59:43

and yeah, he's gotten some publicity because of the Laramie Project between the place and the movie that HBO made. But it's one of those things it's amazing that he's he's still cuz he's still around. Hmm, that no one's been able to challenge him. I mean, they've gotten rid of Klan organizations, they've gotten rid of Nazis, not a NEO Nazis and

1:00:09

so well, this, this country is open to all peoples. Now, when you're talking about first amendment rights, that means everyone has a right to say, I

c Chris Harrison 1:00:20

think what helps us he's not advocating murder. What he advocates though is death penalty. He goes to the biblical

1:00:29

the biblical, literal part of their Well, his version anyway.

c Chris Harrison 1:00:32

Well, Thou shalt not lie with mankind as with one kind of is an abomination. Well, so a lot of other things. Two pages before that in the Bible it's shellfish. It's yeah noor. It's cloven

other things. Two pages before that in the Bible, it's shekinah. It's your, poor it's cloven hooved. Animals. Yes.

1:00:46

And on the same page, exci verse on the same page, it's also garments of two different fabric. Yes, another this cotton, polyester. All of Sunday, preachers are gonna have wearing cotton polyester

1:00:57

as well, he should.

Chris Harrison 1:00:59

Well when it comes when it comes to something like that. When you talk about some of the other things that are abomination. I take that line from the movie a common ground. That, Dad I'll take the sausage out of my mouth when you take the sausage out of your mouth. Okay. There was that movie on Showtime couple years ago. Oh, that was it was a three stories in the same town, two different generations. Oh, and it was the modern one that Harvey Firestone wrote. And it was two men getting married. And the one man's father was going to be protesting the wedding, gotten his soldier suit. And so they started having this philosophical debate and they use that line in there. That when you using the Leviticus argument, yes. For lack of a better term. And you did forget one of the one of the MBBS one your your Oh my God, not yours. He's one of mine. Who the one who wrote to me, Zachary. Oh,

1:02:01

I didn't even know about this one. Yeah, it's when you hit you handed that

Chris Harrison 1:02:07

Oops. Oops. And he's also looking for a pen pal.

1:02:10

Yeah, a lot of these guys are 713-526-5738 we can hook you up or

Chris Harrison 1:02:17

just email us and we can send you along the information that way. Yep.

1:02:21

After hours KPFT at hotmail,

Chris Harrison 1:02:25

ma il.com. And you can send any of your news stories love mail, hate mail, go to 30 You haven't done that in a while so I had to throw it in. Make sure your falsetto was still working.

1:02:39

Thank you. So anything that works. And for other bright news.

Chris Harrison 1:02:45

It was kind of something happy now.

1:02:46

Yes, health officials are tracking a number of cases of a skin infection resistant happy commonly prescribed antibiotics that began surfacing late last year among gay men in San Francisco and Los Angeles. Mark Sanders, Director of clinic services for Montrose clinic, which treats a number of gay men for a variety of health concerns, says it is too early to tell if the increase in cases of the infection is primarily among gay men. The skin condition known as omega Gad, methyl linic, resistant Staphylococcus aureus.

Chris Harrison 1:03:26

Both just stick with oh my god,

1:03:28

yeah, stand up. Sally didn't hear that because our Ma M. R. S. A has that there also has been reported on the rise among gay men in Washington, DC and Atlanta, we are seeing cases of resistant staph infection in the gay population. But again, that's the population we serve. We don't serve the general population. Sanders says the cases are resistant to some penicillins. But when we culture them, they're certainly susceptible to other antibiotics and we're able to treat them successfully. It's treatable. So what but but that's a staph infection that's resistant to many antibiotics. But you know, it's been in the news for a very long time that in the 20th century, doctors prescribe really too many antibiotics and the body becomes resistant. True. So that's probably what's happened here. And they're trying to pin it on gay men again, of course, well,

c

Chris Harrison 1:04:31

well, yeah, it's, we've we talked about with HIV and AIDS and all that. I mean, good friend of ours, were talking. He was talking about wanting to donate blood and had mentioned that you can't or sell plasma. Yeah. Yeah. Like, you can't be anything wise. Well, you're gay. And it's there's like, Ha that's one of the things you don't understand the some of the little rules and all that about it. Yeah. I want to bring it to my father that I that it It's against the law to be gay in Texas. And he was like,

o

1:05:05

Yeah, people don't even realize that. But that case is coming up to the Supreme Court this month. And they are hearing the the Texas case Lawrence versus the state of Texas I don't know

c

Chris Harrison 1:05:20

not for its whoever the thing is. I think it's it's against the either this just city city or attorney or the county attorney I forget whether it was it was this person's name it wasn't against the state of Texas.

o

1:05:34

Okay, it was Lawrence versus somebody which will it's really looking good that the Texas sodomy law will finally be struck

c

Chris Harrison 1:05:46

homosexual conduct

o

1:05:47

whatever now also it

o

1:05:49

sodomy in it. It could because in Texas it's against the law for sodomy with same sex couples, it is not against the law for opposites.

c

Chris Harrison 1:06:02

I mean, that's the differential difference is that the fact if if they would have walked in and if they would have kicked in the door and there was a male female couple next to the two male ~~and the male couple that was there. The male female couple who've been allowed to finish in~~

cup the male couple that was there. The male female couple we've been allowed to finish in peace gotten an apology. Probably a check for a couple \$1,000

1:06:22

for the video rights go,

Chris Harrison 1:06:24

Yeah, cuz that's when cops would have been following along but in this case, these two these two gentlemen got arrested. Yeah, but solely based on the fact that one of them was not a female.

1:06:35

No, well, I'll tell you where those were those two guys really messed up when that caught when the cops entered and they didn't have a box of doughnuts to give the cop.

Chris Harrison 1:06:47

The surgeon the Surgeon General has told the police officers to lay off the donuts and he also told the firefighters think he's gonna put a surgeon general's warning on the side of the Dunkin Donuts because I'll tell you this a couple of years ago when I was helping out at the AIDS Walk I sat and I watched this one police car drive by who was helping him and I swear I don't know how in the world he fit in his cruiser there's no real legroom in the back and he couldn't get a prisoner in the back because his seat was back that far and leaning back and he still was I'm Hi could turn quickly. Oh talking about that. Speaking

1:07:27

of the AIDS Walk that's next weekend and next sunday sunday morning I

1:07:34

want to have a celebrity right doing doing if I can get the I got it right over here somewhere amongst all my my

Chris Harrison 1:07:45

roar we only got four minutes left so well the turns quickly. incredibly

1:07:48

cute.

1:07:50

Oh yeah. Destiny's Child is going to kick off Destiny's Child. Kelly, rollin kick off. Today's walk. Well, I'd

1:08:01

rather go to see Roger Donnelly. He's on hand that and he's really a cutie. I see him at Kroger's. Every now and then actually it's Kay. Roger.

1:08:11

Well, you know, there's there's a lot of younger ones out here who do like Destiny's Child.

1:08:16

Yes, I know. Yes. I know. A lot more than that will draw in a lot of people and that's that's the whole point. Get a whole lot of people out there to walk and raise a lot of money for AIDS.

1:08:27

And the human the Human Rights Campaign. Gowans a feature queers folk star, and Judy Shepard. Oh, my.

1:08:39

Well, folks, it's time to pack it in. Oh,

1:08:42

you didn't say that? You're out of the bag.

Chris Harrison 1:08:49

What are you planning on passing there? Jeremy? Hey. Oh.

1:08:55

Oh, okay. Lynn's putting on her coat. She's getting the hell out of here. It's getting deep. You've been listening to after hours Queer radio with attitude on KPFT Houston, que EOS College Station and good ol Lady 9.5 in Galveston. Thanks, Garrison. We're glad we're there for you. And stereo and

1:09:18

stereo. Yeah. And Mark was this. Yeah, you're listening.

1:09:22

Yeah. Yeah. Come down to the station sometime hanging out with us for

1:09:26

Chris. Jamie. I'm big Roy. Yeah, then then. Goodbye.

1:09:33

Brandon.

1:09:35

And Brandon. Yes.

1:09:38

We'll see you next week.

Chris Harrison 1:09:40

And are going out music is Oh,

1:09:43

music is Jay spears from his CD called boy howdy and it's called house on fire. Oh, yes, it is.

1:09:53

Next week in honor of the livestock show ready? We're gonna have some gay country worth.  
Oh, I've

oh, i've

1:09:58

got plenty of it. Then we You roleplay it sure we'll see you next week
