or marginalized culture is really flourishing because of the internet. And we you know that side s&m dot com is getting like 2000 visitors a day and more hits than that. And so hopefully, you know, these interviews will get much more exposure than the than they are here on local radio.

00:22

And I'm sure the right wing is right now plotting ways to shut this down.

00:27

There's not much they can do about it. They've tried to do too. It's great. This is America after all. That's right. Bill of Rights and things like that. Who else is going to be there?

00:41

Frank strona is coming. He's a well known teacher from San Francisco. He

00:47

does a professionally he goes around teaching workshops

00:50

lately, his company's called scarlet letter. And he teaches every imaginable thing. He is probably the most well versed man I've ever met in in SNM. And I mean, I can't say that I'm not an expert But having looked at his resumes and his biographies and all that I mean he is

an expert. But having looked at his resumes, and his biographies and all that, I mean, he is absolutely well versed and capable of teaching just about anything in the scene. He specializes in Edge play, piercing and cutting, and that sort of thing. He really likes that. But he teaches just about every subject imaginable. He's a big bear of a guy, very handsome, very hairy, big guy, and pretty much confirmed top he tells me, I'm not played with him, but he's gonna be one of the presenters, it's gonna stay at my house, so I can guarantee I'm gonna give it a real shot.

01:44

I was really I went to his workshop in San Diego when I was really impressed. I feel like I know quite a bit more about cutting, especially cutting, which is like, in sizing the skin from an eight to a fourth of an edge, either to leave temporary or permanent, you know, scars. And, you know, he taught us all about how to, you know, apply decorative designs. Using things like deodorant, you rub the skin with deodorant, and then you write with a special skin ink on a piece of tracing paper. And that's how you apply it to the skin. And then you come in with a special Vesely a disposable scalpel, and he had us with mangoes and other fruits, testing, you know the depth that we would achieve, showed us how to put a little piece of tape on the scalpel to make sure you didn't go any deeper than you desire to do for you know, for whatever however long you want to do this. I've seen I've seen like fuck here, do a branding demo. And prior to that I thought Fuck here was just absolute God because the demo was so well done. I mean, I never had any idea how to do branding until I'd been a part of that demo. And this this cutting demo Frank's was equally impressive and had an impact on me and really enthuse me to want to go out and do that.

03:08

He's going to do a cutting and piercing demo in in Denver, his bottom is going to be one of the organizers for the demos in leather fast whose name was Scott grain and Scott's going to be out here and it's gonna bomb for Frank in that demo here so we're really looking forward to seeing that and now that you've told me about that, it's gonna be one that I definitely am gonna join to

03:35

use all sorts of information to impart and and his company will get you the supplies you need to go further which is really great because all that medical stuff is really difficult to get a hold of down here in Texas and

03:49

in Colorado. It's not as bad but I know in Texas I've heard it's real difficult.

03:53

Yeah, yeah. Who else who else

03:55

got sky Renfro coming? Skype used to be the co owner of gauntlet and one of the founders he recently is no longer part of that company. They've been a political falling out and has now started piercing salons and studios on his own. He is going to come out here and he's going to do body augmentation. Piercing, both temporary piercing and permanent piercing. We've got Amanda wildfire who is a proton going to be out here. She had come originally from Atlanta and she has was also one of the presenters that leather Fest and has been really well known around the circuit and doing presentation. She's not she's apparently young, nice looking woman.

04:49

She has a beautiful smile.

04:51

Very, very attractive. Very attractive and I didn't see her as but I've heard she does an excellent job. Excellent presentation. Gail room and is one of the best known names in the business. As far as the history aspect goes. Her, her father is terminally ill. And we don't know at this time if she's even going to be able to make it but I've told her if, if she can make it even up to the last few days that I will squeeze her in, because what would she be teaching? She's going to teach her the history of s&m who we are. And she is the acknowledged expert on that subject in the country. People like Tony de Blasio who I'll talk about in just a second and Guy bald on both said that if she's going to be there, they're going to go to her presentation. Yeah, all the people in the know a hold her in high regard. So she's one of the really crammed in the crown. And I'm hoping that she's gonna be there. She's a delightful woman. Tony de blahs anybody who's in the scene knows who he is, is a former publisher and owner of drummer magazine, a sand Utopia guardian and dungeon master. He's a world recognized leader in the leather community. And he is the man who created the leather pride flag, the black and white and blue and red heart flag than any other sport. He is a dyed in the wool top, he is going to be doing a closed end demo on pain. And he's going to do another demo on bruising and beating. Beating for a bruising. I'm going to bottom for his closed and demo. CJ is going to bottom for is beating for a bruising demo. He promises that even though I'm the chairman of the event, I will be real visible and he promises that he's going to make me scream and dag I really looking forward to that. He in His closed and demo he told me he applied to 300 Clothes bins, and then manipulate them. And then he says he manipulates them, keeps him moving. So they don't know up until the bottom is at his pain limit and is ready to test upward. And then he stopped in his description. He said, But then comes the most painful part. You have to take them off. He said so even if the bottom says a stop word. What are you going to do? He said leave him on the rest of his life. I laughed. And that's the part he loves. He told

07:50

my friend Patricia is a novice and she's had a total of two attached to her at any given time. And her her jaws just dropped. She heard 300. That's pretty far gone.

08:03

I've had I've got a picture of my my dad put on 533. And I have them all over the front and all over the back pictures on the internet. But it's a scene that you don't want to do until you have some experience because it'll take it out of you.

08:20

Where do people find those pictures of you on the internet? I

08:23

I have them to send out I'm going to have one on my website. I'm just putting up a new website in the very near future. And I don't have the address on it right now. But one of those pictures will be on there.

08:39

Oh, by the way, listening audience, we are going to be given out some more information. I'm sorry if you missed any of the calendar stuff, but we're gonna give out a bunch of addresses, websites and phone numbers for this particular event we're talking about. So get your pencils ready. We'll do that in about 20 minutes. Good. I

08:54

can get my website address there and also the vendor the mountain ones. Do you have that

09:00

one? Yeah, we have the thunder mountains brochure right here.

09:04

We have a new website put together and I will give you both of those.

09:09

Let's let's talk about is there anybody else on there that

09:17

11 09:12

I know more people? Guy Baldwin, who is a past winner of IML international Mr. Leather, where I'm going to compete this year. And he's a licensed clinical psychologist. And he's a world renowned webmaster and speaker. He's an author, and is probably one of the better known people in the in the scene. Very capable. HECO an intelligent guy he's going to do whipping while he's here. That's mainly what his presentation is going to involve. We also going to have Michael Horowitz from New York City. He's a good friend of Lolita. And I'm sure Russell knows him. I think so. He's one of the top 10 seminar facilitators as facilitators requested across the country, and involved in many aspects of the community, he is he headed up to get linked program that they wanted to get a chain of link of chain across the United States, etc, etc. As a means to raise money for the leather Archives Museum. I don't know how successful it was, but it sure made a big splash when it was happening. He's going to do demos and presentations on magnification and electricity. I forgot to mention as well that Frank strona is going to also do a demo on catheterization and sounds, which are real popular items right now, it seems everybody is kind of wanting to know about these

10:51

things. Could you describe catheter authorization and sounds briefly? Sure.

10:56

I know, as far as man goes, I don't know, seeing as far as play with a woman goes. And men, catheterization is, can be a real erotic thing. catheter is inserted into the urethra, into the bladder, and then clamped off so that there's a, it's urine control, control is what it is. And the the bottom is, is made to wait certain periods of time before urination, what happens the top really takes control of a very vital and natural function. And it's really heavy stuff, bounds medical service areas, were used initially in the medical profession to open up the urethra, of man who had venereal disease and couldn't urinate. That's what they were initially used for. They are net smooth, very, very smooth, polished metal rods with a real blunt, rounded tip that go down the urethra. And there, it's real pleasurable,

12:03

very arousing. It's kind of like an inside massage.

12:07

And that's exactly what it is.

12:11

Now, these things that we're talking about, you know, don't kids don't try this at home. You know, these are very heavy. I don't want to scare people in the audience, these things, I like going to these things. And I'm fascinated with a very technical and very advanced or heavy

things. But most of these things don't even enter into the play of most players, you know, 300 400 clips or Endor, catheterisation, or sounds a lot of these things are not common. However, they're fascinating to even just to watch from, for me, and for a lot of other people.

12:50

This is absolutely true. The things I'm talking about. Now I sound pretty blasé about it. This is pretty old hat. Some of those really enjoy these things, and are into a lot of these things. Most of the people have wrestled says, aren't, are involved in a lot different sorts of play. I mean, there's all kinds of different players play, there's bondage and all that. But so the things we're talking about are, this isn't something that everybody has to be involved in.

13:22

In, you know, these workshops are extremely important as simply an introduction to the concept of some of the things that we're mentioning, they don't necessarily train a person. And generally they do not train a person to be able to do these things. And, you know, competency is the first you know, rule of thumb for being safe, sane, and consensual. If you're a top and you're out there doing some of these things. And if your bottom, you better, be damn sure your top knows what he or she is doing before you let these things be done to you. Anyway, that's over to the wise should be sufficient.

13:59

I appreciate you saying that, because I didn't want to give the impression that I was never taken all these things real lightly for everyone.

14:08

Yeah. Oh, yeah. And these things are really hot. I mean, I'm, you and I are or have the same mind regarding you know, how interesting and fun things are. Let's just give out those those. Well, I'm gonna, it's not quite 20 minutes, but let's go ahead and start giving out some of the writing, you know, the addresses and phone numbers and such. Do you want to go ahead and do that?

14:31

Okay, well, what I wanted to say first of all, yeah, on is on the event that we're having in Denver. As Russell said, It's July 31, August 1 and second. Anybody that wants to register can contact me, Richard. Dr. It's do si que te er, app 30369812 07 Or write 258 Acoma Street. Can you spell the street st Yo Ma 258 A coma Street, Denver, Colorado 80223. The host hotel for the event is the Ramada Inn Central. At 1150. East Colfax, Colm FA X. In Denver, the number there is 303831 7700 831 7700. The rate per night there is amazingly inexpensive \$65 For a single or double room \$75 for a triple quad. And this includes a continental breakfast.

15:57

And if you register for the event prior to June 1, you only pay \$75 for the entire event, which includes just a slew of different workshops contest vendors fight all

16:11

the Rocky Mountain Mr. Leather contest and the MS. Rocky Mountain leather contest is a VIP party, there's a free embroidered t shirt as part of it. There's a victory bear bust. And and of course, the play parties which are going to be going on from like 10 o'clock at night, too early morning, and they're going to be held away from the hotel, we'll have buses running to and from the play parties. And we are in the process of working with the fire department and the police department to make sure that everything we do is within the letter of the law. We're not going to have any problems with these people.

16:53

Yeah, the play party tonight was used in pap, there were, you know, half a dozen police officers there and ensuring that everything would be safe, sane, legal, and consensual.

17:04

And boy, if we learn if we get them on our side, if we work with them, they're not going to be working against us.

17:11

Absolutely. And I know a lot of police officers out there are listening to our program, and we thank them for that. You

17:17

betcha. And I am delighted that that is happening because most of us in this scene are professional people, educated people. And when we do go to these things, we're not crazy drunks or anything, it's usually a fairly quiet affair. As far as big wild parties and stuff go. It's just that people a lot of times don't approve of what we do. And there's a moral objection. But as far as any problems within the police, fire department or any of those things, most of the governments in the cities that I host these events are finding out that this is really a good deal and brings money into the into the community,

18:00

Iranian sandless sandwich shop and in San Diego and there they were full to the brim. We were in there with a bunch of new people and I looked around and some guy you know drove up

in there with a bunch of pervy people and I looked around and some guy you know, drove up parked on the street walked in was like denim in a white t shirt on and I said you must feel kind of weird this crowd is the only for us like I lived in a world of pervs or no straight people around is suddenly everything was upside down.

18:28

That's right. I've got a website here. This is for our vendor in the mountains event. It's http colon, backslash backslash, web slaves web SLA v s one word.com. Backslash thunder, m t n. Lea th er. So it's http colon backslash backslash W EB s la vie s.com. Black backslash th u n d er, MTN L EA th er, that is our new that is our new website.

19:17

And they might also find that just by doing a web search looking for thunder in the mountains, Colorado leather pride, you know, and BDSM or some sort of search that kind?

19:30

You betcha. Yeah.

19:32

Sometimes I can't you know, when I type in the damn address, I can't get it. Right. And I have to do an AltaVista search or something to find one

19:39

thing to do. And, you know, it's surprising number of people don't know this. And I'm sure that those of you who are really versed in computers do so I may not telling anybody but it's a really nice little thing to know. When you're in the internet or you're an AOL or something like that you can copy All address, go to keyword above and just put it in the blank and it will take you there immediately you don't have to open the internet and go into all of that kind of stuff. It cuts through all that you, you put it up there, copy it, paste it and hit go and you're there. Just

20:18

thanks so much, then, you know, the thing about the people in the scene is that they are really bright and creative. And I've learned more from the friends that I've known through the scene than any other group of people I've ever known things about, you know, get to your website. Patricia making really sexy gestures, anyway. Definitely. So what else we'd like to say we just have a little bit of time left, about 10 minutes before we're going to shut down and the music's going to come on in just a few minutes. What would you like to say to close up this interview?

20:56

Well, I of course, would like to invite anybody out there to come to our event. But even more than that, and and more than, you know hyping any one of them, I would really encourage any of you out there who have been exploring fantasies about this thing, all your life and hiding them away, that there's a lot of us out here that are involved in this, and we're not bad people. We're not crazy people, there's a lot of you and us and if you're interested in doing this, make a gesture come to one of these things, you'll be amazed how readily you'll be brought in and welcomed and accepted, no matter what's your thing.

21:40

There's also no almost no danger of you being outed, without your consent. In other words, you don't have to give your real name. You know, most of these events are relatively private, you know, nobody is sitting around taking pictures of you, most of the things that you might be afraid of, you're gonna find out that there's really no risk involved.

22:02

They're not allowed in our event at all, for obvious reasons, and for reasons like that, and I've never known anybody that was really outed, except in the most extreme circumstances under, under, you know, with people who really had no place doing it. But for the most for the most part, you are absolutely safe. And it's a delightful group and I've never been happier than then involved in the stuff that I'm doing now. Like I said, I'm a true believer in this.

22:36

Yeah, me too. That's why we're here.

22:39

I got my website. address here. Yes, please. HTTP colon. Backslash backslash s all I U S. E R. Dot hyper chat, one word.com. Backslash, Rocky, M T and Mr. Lea th er backslash index dot HTML. It's a long one. Yeah, if you got it fine. I'm not gonna

23:22

for those of you who are here in Houston and listening area, you know, if you want to go to this event that Richard is the chairman of you can go to leather by boots or dare wear I think has some and leather forever, which are the three primary fetish SM clothing and equipment vendors here in Houston got any one of those places, and they'll have brochures for the event, I put them in here. So they should still have some. If not, they'll at least have a poster. You're welcome. And if that doesn't work, check it out on the local web pages. We have it there to enrich. Thanks.

23:56

Thank you for having me and for doing what you're doing. It's because of people like us who come out and come to the forefront. Put yourselves out here on the front lines that we're making a lot of progress and being accepted out here. i i Thank you for that you're doing a good job and you are to deserve good. pat on the back for

24:20

this. That's one of the things that you know, if you those of you out in the audience, come out to the scene and go and go into one of the organizations you're gonna find a lot of praise and validation from your fellow pervs. Whatever you're into everything is so embarrassing. Well listen, we probably just want a demonstration.

24:38

If you find it embarrassing, you're gonna find 10 People who do things worse. You'll figure by the time you're done. I'm a pretty good guy. And that's the fact that

24:50

Absolutely, thanks a lot, Raj.

24:51

You bet. Thank you and I'll be in touch Take care. Bye.

Jimmy Carper 24:58

Well, we do have a piece of music To follow up with that, and emits by Joy Cardwell that if you've been listening intently it may have made you the name of this song which is wet, and you're hearing it on after hours go to KPFT Houston and ke O 's College Station. Oh, you're coming back. Oh, okay. Hold on. Whoo Joy Cardwell, with wet off of her album. Joy Cardwell that, I think is a very, very hot song. I don't know if you could hear all of the breathing in the background on that. You'll

25:47

know that sort of fever. Yeah, on what breathing?

Jimmy Carper 25:52

Very hot song. It's wonderful. Ah, okay to wrap it up. You said that. You were at the pep party tonight. Yeah,

26:01

you know, we I don't know, there are about two to maybe 200 people there. So it was a private party, you know, you get the address. And such when you are a member of pap, which doesn't involve that much, but it's not a the s&m ball there were like 2000 people there. And that was open to the public. Whereas this is, you know, a really nice play party where, you know, they have a number of stations set up with different, you know, crosses or, you know, chains hanging down. And, you know, you do your little thing that you like to do and lots of Daisy mastic observers there who are giving you just the right vibe and energy to go on with what you're doing nice. And it's a lot of fun. It really is. It's a nice way to socialize, and it's a safe way. Coming out to these groups is the best way for you to learn how to do what you're doing stay sane and consensually. It's also the safest place to meet someone and it's one of the safest places to play. There's a great support group, they weed out people who happen to be abusive. And you know, it's a good place to hang out. Pat was one of those groups arrows is one of those groups. And they know that a number of other groups here in town are doing quite well for themselves as well. You know, and additionally,

Jimmy Carper 27:15

can you talk a little bit about some of the things going on at the at the pet party tonight or was there

27:24

we have fryer, I mean, fryer

27:29

He almost said it. The almost

27:33

no, Jim is Jim is Jimmy's. We call them Jim squared. Yes. Jim is Jimmy's lover and monkish fryer. So what did you do? I

27:48

actually found a couple of people to play with or played with me tonight, which is unusual because I thought I had like a great big leper sign hanging around my neck or something. And you know, normally these parties are just people who come alone, just kind of, I don't know,

kind of get pushed out into the periphery.

28:07

Yeah, that's that's one thing about the parties. You kind of have to arrange something or bring up like somebody or just be have a friendly smile and face like our fryer.

28:17

Well, but I knew that I knew that people.

Jimmy Carper 28:20

Well, I think it's because you've been going to a lot of arrows things and you know, people in the scene, especially when especially lesbians.

28:31

I don't know what the deal is within.

28:33

I think you're cute. I like your skirt. Yeah.

28:40

Yeah, but they don't like to play with guys. That's the problem. Oh, well, Darn it. Darn it all to hell.

28:46

Well, you had some fun. That was quite

28:49

well, Oh, yeah. It was cool.

Jimmy Carper 28:51

What was some of the other things going on?

28:53

Man, the place was so huge. And this place is like a made man it is a great dungeon. There were chains and stuff hanging everywhere and stations all over the place. And you're all nooks and crannies and

29:07

doesn't play scenes going on at any given time. Oh, yeah. voyeurs paradise.

29:13

No, definitely.

Jimmy Carper 29:15

You know, if I went to one that's, I think, I guess any, anybody who's a novice, they it's just kind of like a voyeuristic thing at first.

29:24

Yeah. And it's good way to learn. I mean, you know, you come and you watch and you hang out and you meet people, and the more you put into it, the more you're going to get out. It's like anything else.

Jimmy Carper 29:34

Exactly. What that music means. That means that we're winding down. It's Veronica Klaus, a lesbian singer that I'm really fond of lately, and she this is kind of a kind of a bluesy thing that it's called Blind hearts and knowing glances so

29:53

we'll see you all or hopefully you all listen next program for the s&m segment which is Lolita will from New York. We'll be speaking with her on the fourth. Early on the fourth Sunday morning of next month.

30:08

Right, right. We look forward to it. Thanks. Thank you, Russell. Thanks, Patricia. Thanks, Jim. You've been listening to after hours queer radio with that attitude on KPFT Houston and ke O 's College Station. Coming up in just about three minutes will be the Red Eye special with Big
