01:46

Hello, Houston, and College Station, and welcome to after hours career radio with attitude. This is the February 20 edition. I'm Jimmy Carper. And with me in the studio tonight,

02:04

she's drilled gray

02:07

technical difficulties. I'm having technical difficulties. Yes,

02:10

you are.

02:11

You are on your way. There I Okay. Well, you know, you always wants that deep. Yes. I'm finding I'm through take it away. I had apparently I had to put your headphones on. We're

cutting out it's like Morse code. So I got and what are we doing now?

02:40

God it's been like forever since when was your last month? Well, yeah, but it seemed like a really anyone here he was

02:48

in Hawaii. Yes, that's right. And now I'm coughing. Like, I've got this horrible cold poor thing. Yeah, well,

02:56

we're locked up in the other room because you gotta stay away.

02:59

That way when I start coughing Oh, my God. Like now

03:08

is a catchy thing. I feel a cough coming.

03:13

So we can call for him. So

03:17

like now okay, this is the jewel in Jim show. And

03:26

you know, I wanted to I was telling you earlier about a thing I saw on the web today that described our program Yeah, it said what to do if you're up late Saturday night, I was really impressed because you know, I didn't I knew we didn't do this. So I read on and it suggested listening to after hours night and said that we were hilarious and entertaining and worth the time wow, who was this? I don't know. It was the Houston gay web.com

03:53

WCW Houston gay web.com

03:55

Well, it was yes. I was thinking did it was it a www was a bulletin board it was yeah, it was WW Okay. Cool TP YEAH. OKAY. OH GOD and I was really I was really excited when I read that but then I read down and it was talking about the other show that is on mute said that they were hilarious do oh this guy's this guy's marry

04:20

your computer that that fancy typewriter with the TV sitting on top. Oh

04:25

man. If you get into it, you love it. I'm telling you they got our programs that you just let me tell you. I know how you draw. You can you transfer that into a mouse and some places you can point? You know and point and draw things into your computer that you can only imagine what you will.

04:45

You may not know this. But Jim has this fetish. Whenever he goes to someone's house and they have a computer. He gets on it and draws a And then Ying

05:01

Ying Yang for them to use

05:03

as wallpaper.

05:04

Oh, I see. I see. Well, yeah, that is one of those things that

05:08

I could get one from.

05:10

Oh, well, yeah, but then it's not my job. There's so much better and probably looks like marble or stone. knife blades. Yeah.

05:24

Chance Nancy's gonna show up tonight. I feel getting overwhelmed with the men down the testosterone down here tonight.

05:31

And speaking I've seen why she has not been on two weeks in a row. You know

05:36

what? I have not completely seen a Xena episode.

05:41

Leave this place turn.

05:46

You know, and I didn't I just didn't get off the island. I never liked Ellen. I mean, well, okay,

05:50

okay. I really didn't like Ellen either. I liked it. I liked it. I didn't like her when she was straight. You know?

06:00

You know, I knew she. I saw her in that series she did before this show where she was the secretary in a real estate office. She was like a third string character. Really? Yeah. I can't remember what's called. Um, wow. Real estate office. Yeah. And I knew I knew she was a lesbian then. I knew that. And that gaydar, we should have made money then.

06:25

I just wish they'd be more bold on Hercules with the main characters being boyfriends than they do on Xena being. I mean, because they you

06:35

know, it's always been universally even much easier for society to accept that special, quote unquote, relationship between women where it has always been a problem to deal with that special relationship between men. Well, you know

06:50

why? Because straight men get off on me.

06:56

And they convinced me well no, just in general I think women are socially are freer to touch one another get closer. You see, women who are straight and you're kissing one another all the

07:11

time in Europe. It's a totally acceptable thing for women and men to walk arm and arm. Oh, yes, it's not. You know, it's not a way to define whether they're homosexual or not. Having friends say homosexual. Come and give me one. Anyway, don't go ahead of the fridge. See? The French sick tool. Jackson, I don't know. I thought you did accent Oh, no, that's, that's what's his name?

07:36

Yes. That's the other guy.

07:37

Kurt. That's

07:38

it. I was thinking about having tonight my name letting him do a Teletubby interview. Just let him ask him a few questions and let him go.

07:48

Amanda was the thing curdles does is that little that kind of hicks sounding guy on the Space

Amanda was the thing I always used to that made that kind of like I heard something gay on the Space Coast to Coast show. Oh, yeah.

07:58

I thought he did that.

08:01

But you could swear the it's just sitting there right beside? Yes. He

08:04

does do a hit very well. Yes. That what's his name? I

08:07

forget his name, but the cartoon character, but it's darn funny.

08:13

So what kind of music we will listen to tonight?

08:15

Well, I've got some new stuff. I do I do. We're right in the middle of judging for glamour, Glamour, being the gay and lesbian American Music Association. And we've just finished round one. And everything's gonna be put together for round two in the judging in round one. There's like 4050 entries for each category. So there's a lot yeah, there's a lot of narrowing gang that has to go on and I've come across the couple of good things cool some some neat stuff in fact, something I think you're gonna really like must be

09:01

mentally tune is my favorite then.

09:04

I'm gonna play that. I'm gonna play that but but not yet. Not yet. Play that after? Yes, after this one. This is called sacred in it's by a woman named Susan bush. had not heard of her. But this is really a great great song. And you're hearing it on after hours queer radio with attitude KPFT

Houston and ke O 's College Station coming up in the rest of the show is going to be more of jewel and Jim.

09:35

If you can stand it.

09:38

And and with a name like Bush, you know, she just got to be sensitive to women's issues. And see

09:43

that's very rarely women use that term at all. That's a male word. You know, Bush. Very rarely do women refer to I just will talk about more later. I've got more see I've got more

10:00

pet she plays a guitar.

10:03

In the second half of the show, we've got hatch coming on. So tune in for that. But right now, it's called sacred and it's by Susan bush and it's coming right in a minute or two here cones no kidding I don't think the things working

10:38

sir I want to know

10:49

Ah, yes. That was called Ready or not. And it was by a group called comfortable shoes

11:04

and that was really cool. I really enjoyed it. Wasn't that cool?

11:07

I mean, we think of Helen ready is almost a cliche, but when you get right down to it, she did some really amazing and

11:16

a lot of things. Yes. Really. Empowering a whole generation of young women. No kidding.

11:21

No kidding. And it really has a lot of meaning. Extra meaning when you have men singing. I am woman and it's alright. You know, it's just what I thought was cool. I

11:36

thought it was silly. Just don't get paid.

11:42

You must. That must be that straight half of

11:48

standard up I a Woman hear me roar. Yes. That's why it's yeah, let me slap you're really?

11:55

You don't get it? No, no. It's men empowering women.

12:02

Which is something I'm noticing happening lately, which I have been noticing happening lately. I you know, I recently read about that group of men who make a fundraiser out of inviting lesbians to their homes to have dinner. Yes. And I can't remember what it's called. But they started with just lesbians. And now it grew to be so popular that they've opened it up to anybody who wants to. And it's a fundraiser for several organizations. And I am ashamed. I don't know more about it. But well, that jumped out at me.

12:33

Yes, yes, yes, yes. Things like that. When When men and women mixed together and do that they can do some really

12:40

great thing. Well, I liked what the man they interviewed for it was probably in one of the local, the voice of the triangle promote, most likely the triangle. And, and they interviewed this guy. And he said, You know, when you looked around in the, in the middle and late 80s You saw the game men and hospital beds and lesbians of the community standing next to them, you got it. And he said it was about time that somebody noticed and appreciated these women now that things have gotten. Not better. But

13:15

yeah, I think it's time that men got more involved in breast cancer.

13:19

And that's what he said to in that some of this money was going to go for various things in that direction. So I thought that was really cool.

13:26

I remember the show we did here, Nancy Ford, who probably will not be here because I didn't call her. This is her night. Did an article last year about self? breast self examination, remember?

13:43

Yeah, we read it. Yeah,

13:45

we were you read it? Yeah. Remember? Remember doing that? Yes. Because it's this is important information. It's something that men need to know. I learned a lot about that

13:54

serious. Well, you know that, you know, there's a certain perception I don't know what it isn't that gay. Whenever somebody says gay, usually they think of men. And I think that because we got so involved in our separatists behaviors back when we did that. Suddenly, lesbians were no longer gay. They were lesbians, that somehow gay became a min thing. And we've separated somehow, I noticed a lot of that they're seeing there

14:23

seems to be two camps of people or women who call it some call themselves gay women, and some insist on being called lesbians. So I mean, I don't know if it's just a identification kind of thing. Or I

14:39

don't either, or what I don't mean. And I was you know, I kind of I actually went all this was really pretty big. I mean, we talked about it for the parade. It was pretty big. And we talked about it at the switchboard it was pretty big. And several organizations went through discussions about how you know, whether they're going to leave it gay, this or gay, that or gay and lesbian rights Which and I always said, I always felt like that we needed one, you know, unifying banner. And I'm with

15:10

you, you know that we can go on forever with the GLBT. And you know, and it's really wordy. The only word that that someone's come up with is queer. And that's not really palatable for a lot of folks. So, right. I don't know.

15:27

I was, you know, I spoke about it several times I spoke at it, when we talked about it at the on the board of directors at the switch. Yes. So. And we've, we've talked about it a couple times on the radio program about how that, and I always felt that kind of put a space in the camps, like suddenly there were camps. And before that, we were just all one big happy family. And then suddenly, there were camps. And there was that kind of division, maybe not as pronounced as, as it may sound, is, is there a Tweety in here? Yeah, Bert is in not as pronounced as it might sound. But I felt that there was a riff there, that we were no longer one huge community of gay and lesbian people. And I always, I always felt like we should have stayed, you know, married, Marian

16:17

Coleman is very strong on being a gay women woman, rather than being a lesbian,

16:24

because he's not a sexual Orient. It's not a sexual orientation. It's, it's, the sexual orientation is homosexual. The gay word was just a word somebody came up with back is actually from what I understood, it was a kind of a pass to get around, in some places in Germany, that the word gay was used in Germany back when they had those six Institute's and stuff like that

16:52

kidding. Oh, really, I ever knew the actual origin of, well, don't get me

16:57

wrong, and don't get me wrong, and don't quote me. And

17:00

I believe that that's what I read. That's about the time that because it

17:03

worked for Hitler. Yes. It was just before Hitler in the sexist. I mean, Germany was a hotbed of Hershey loves sex Institute. Yeah. Sociology and study of, you know, people and, you know, it was a big hotbed of that intellectuals there. And I think that that's as, as they started meeting, they refer to themselves as as gay. I'm glad it wasn't Nellie, or, you know, one of those. Yes, but it became gay. And then everybody who was homosexual, became gay. And then when we went through this battle, I don't know what was this maybe late 80s. Maybe going through it, about how we needed to separate gay Gay, gay men and lesbians. I always had a problem with that. And Jim's falling asleep, and it really he's

17:54

no, no, no, no, no, no, I'm just listening. I'm just listening. Well, let's

17:58

let's talk about some really bad stuff. That

18:00

was that that was the thing that Oh, okay. Oh, we talked about that. Yeah,

18:05

let's go. Yeah. Been there, done that. Now, let's talk about something really serious. Movies. Well, no even more serious telly. We really need to talk about oh, well, you know, everybody else's. I mean, Jerry Springer had Tinky Winky on the show last week.

18:27

18:21

Which was posed. He's the little one. That's really the real homosexual one with the penile projection at the top. That's the real ones. Oh, well, let's get back.

18:41

They have one that looks like it has a doughnut on its head. Yeah. And then you have the other one looks like it has a huge kind of phallus on its head. Yeah, that's the one so I just wonder if those two ever

18:52

do you ever see these things? Aren't they aren't like, really early in the morning? I

18:56

don't know. I just saw the picture up there in the lobby.

18:58

Or you have a life.

19:02

I think you're for like two year olds who get up early. for mom and dad. Yeah.

19:07

Definitely the training. I would say

19:10

I have to watch them while I'm having breakfast. See what

19:14

you don't have plastic pants on. You do not understand show.

19:17

Oh, no. Yeah. Hey, listen. You know, there's this thing they do is

19:23

eating breakfast in plastic pair.

19:27

Go with it go with.

19:30

I'm sure there's somebody's fantasy.

19:33

But I've watched him. You know, frankly, oh, comment, frankly. And it occurred to me several months ago that Tinky Winky might be a brother. Why do you say that because he does carry a purse. I don't care what their producers say it's not a pet magic bag it so first, yes.

19:53

But how many gay men do you see? Believe it

19:57

or not? A lot What got me what got me thinking about that several months ago was not and I didn't even realize the triangle on its head. It never occurred to me. And it really never occurred to me that purple because you know my eyes. Yeah, it's a rainbow see it's the rainbow you know that is our color, if any, you know, it's the rainbow not one color but I do remember vaguely in the past it was a lavender. I think it was about time that Donny Osmond wore his purple all the time. I see. It became lavender in the community. We everybody's Oh, well.

20:37

I did see an email come through. Stressing that. Thinking we couldn't possibly be gay because and this you may not realize this duel but Tinky Winky is purple. And carries a red handbag, man. No, no, no, no, no, no, no gay man would be caught dead in that. No combination. Yeah.

21:10

out of left field, but you know I just had it say something about Tinky Winky. I don't think Tinky Winky is the gay one. I really do think the one with the little phallus symbol and I think that

... is the guy, and I mean, do think the one with the more phallic symbol and I think that one's the ones gay. Yeah. Because you know if you really think about a Tinky Winky is really like, female. I mean, I don't know why

21:28

aren't these things kind of like sexless creatures? I

21:31

mean, what do you think of when you see?

21:40

Like, blinking Tinky Tinky Winky. See what his is that? I think that that is the same.

21:48

What does it start out looking like? They're blinking

21:50

or child? Don't understand child arc icons heart. I think Larry Flynt, maybe please don't go there. Maybe in too late. Sponsoring Abs program. It's actually a PBS program. It's like really British production. Yeah, one of the probably most innocent things I've ever seen in my life. They, they don't they're no complete sentences. It's like, you know, give me hug, you know, la la and Tinky Winky. Things like that. But they don't like no complete sentences really. And nothing. And there's everything that's done on the show that's in complete sentences is done by background voice. And they kind of narrate little things that go they go through. So if they, if they have this thing, where they kind of run around you know, this is a two year program. So one of them goes to the left and one it goes right and they say thank you Mickey. runs away. Comes back. This is over this boy so they don't really speak. Except for to say like,

22:56

well, first I got

22:59

that now I Oh,

23:01

yeah, but I think I heard Tinky Winky wants to say love you love your hair.

23:09

Oh, okay. Okay. I've already heard complaints about Yoda looking too much like a muppet in the new Star Wars.

23:21

Boy already already

23:24

seen was Liam Nielson decked out that's the only thing I've seen

23:30

well, if you go to the star wars.com webpage you can see

23:34

Yeah, went there. But it takes so long to download even it might you know, I've got 36 Six. I mean, it's like forever to download. Yeah, cuz it's a big you know, videos. Yeah, they take a lot of downloading.

23:49

Shop Talk. No, it's about the thing is and the other two movies. Yoda was a muppet? Yes, he was. I bought his character then. I will buy it now. You know, I

24:06

mean, I think there was a little guy in there. Having a Saudi Winky

24:10

right suddenly of Yoda doesn't look like a muppet. It's no longer Yoda anymore. It's something other than Yoda. It's a false Yoda. I

24:17

24:11

thought that they might do.

24:20

It didn't this one Yoda is not green either. I don't remember.

24:24

No. Well, I don't remember Yoda being green.

24:28

Yoda wanted more berries. That probably that's what it was. Yeah, it was

24:31

the younger more youthful.

24:33

That's right. I wanted more money better. More lines.

24:39

Show that I liked to watch and I'll admit right now it's a show called bear in the bleak Blue House. I watched it with my knee I've seen that's a Disney thing. Yeah, it's I like the song at the end is called the goodbye song. It's really cute.

24:55

Hey, you know this is really important stuff. You'd be surprised. No, I mean, seriously, guys, listen. Yeah, well When our children are watching on TV is very important, because we're gonna be unable to take care of ourselves someday, and these kids watch, you're gonna be in charge. It's very important what they're watching. It really is to know and be part of that. That's why it's important to be a part of your community, not just to go out and vote, but to be a part of your community. So you can see where the, you know, where you can actually add to your community, like, you know, going to school. So there's a great program out in West Houston, somewhere where grandparents go to the schools and help out, it's really very important to pay attention to what children are watching.

-- --

25:37

You're absolutely right, you're,

25:39

you know, you're talking about, we rarely talk about the things but you know, there are a lot of lesbian mothers and gay fathers out there who have children at home, and who are trying very hard to figure out what will be good for them, because they have to raise a child from birth that understands things that other people don't know, their whole life. You know, and that's kind of tricky thing, you with all the things that are exposed out there. I mean, certainly Falwell and his ugly people get a lot more media attention, and a lot more realist, I mean, ability to fabricate their, their view of gay people than we get to pronounce and show we're not only that we are not only that, but they get to perpetuate the school system, officially, officially, yes. So it's very important to watch what children are watching. And not only that, you know, are gay and lesbian, parents, children, but, you know, our nieces and nephews, because they're being taught things by you know, TV that, you know, when attitudes, and that's what it is attitude, yes, you know, do you, you what that child is going to be is done before that child was seven years old. And if you teach it not to be in, you know, to be intolerant of other people for the rest of his life, from that age on, he's going to be intolerant of other people. But by seven, if you've taught a child to be tolerant, he's going to be tolerant people the rest of his life. Yes. And I think that's the number one thing that we should teach our children, even for reading and writing, I'm sorry, is that we are a huge community on this planet earth, that we are a community whether we can reach across and touch everybody, like my bell would like us or not, we still are a community on this planet. And we're responsible how the children are brought up to want to run the community after we do it, we do have a responsibility now.

27:24

No, really it because that's where a lot of the real activists are going to be those are going to be the lesbian mothers and the gay fathers, who

27:33

will mentor the activists or the laws, right, running for school boards and zeros and

27:38

ones, yes, those are the gay fathers and lesbian mothers who are active in their PTAs. And make sure that books like Heather has to Mommy's stays in the library is available. Those are activists, and they're, we're out there in the field working

27:55

well, they and you know, we have the enemies of freedom out there, you bet, who are also working very hard and have a lot of money and are buying, you know, elections into school

districts into school board so that they can make decisions, what all the children in their area are going to be exposed to or not exposed to. And it actually they are doing very well. And I think they just time that we started. I mean, you don't have to have a child to be you know, involved in in children and what children learn. It's not that's true as a parent thing. I mean, you know, if you own property, you pay school taxes, whether you so you might as well get something for your buck glider, make sure that they teach intolerance in school, make sure they go out and don't let little racist groups go on in school and I don't care what they have to do to stop. Well, yeah, okay. It's my soapbox. No, no,

28:50

good soapbox.

28:50

Well, you know, I thought I was thinking about that the other day about children and when this subject became, and I'd like to say for the record that yes, in the beginning of this Teletubby thing, I looked up the article that Falwell what everybody jumped on that he you know, suddenly took responsibility for which he had no responsibility for it as a matter of fact, he was he simply read it after it was published. And I did go to his website, which is falwell.com

29:23

If somebody tried to preach to you diminish you access

29:26

No, but they did. They did. Well, I guess they did try to preach to me in a net way they did kind of kind of dislike instead of a commercial you get a commercial for God instead of first. God. So yeah, they did but I read the article and to be quite to be quite honest, all they did in this article was quote, other articles from the time the post in the Washington blade, which is a gay newspaper. They made references to these people making references to Tinky Winky being gay. And all they did was quote from those articles. They made no judgment. They didn't say Don't let your children watch it. They simply made it known to people that this had been done in this situation. And that's all they did. They just wanted to issue what they call them information alert. But, you know, that's what they did. And by rights, you know, they are not really, as you know, dirty as they look right now about this Teletubby thing, I think Roseanne said it best the other day. She said, thinking he went to big head. That's it. That's it. And that's everybody just what is it Rodney King? Can we just get along? Better everybody just get along? I know. But that's my soapbox about kids in the area. Yeah, we are responsible. You know, and I find a lot of gay people kind of spent you know, because I find that there are more gay people who do not have children than there are gay people who do have children. And so when I talk to these people, they kind of feel like that they don't have any connection to what's going on in the schools and they just kind of trust it to somebody else and when I'm afraid it was that somebody else is going to be you know fall well I you know, kind of followers who pat robertson follow who's, you know, who have managed to get into school boards and you know, make

things happen that way instead of where we should be doing the same thing. I think we're overlooking a very important place. There are gay and lesbian parents groups and the teachers groups dangerous group, a Gay Lesbian and Straight

31:29

Gilson Education Network or something

31:32

like that. Some of those Yeah.

31:36

Big Ryan, Michelle will have something about the gay parents group in the news coming up at 120 Cool. There's a there's a little blurb on the net. The good ol Han Are you a member yet? Houston activist network? No, no, no, it's great. It's great. It's an exchange of ideas between activists and people concerned with gay and lesbian news. Cool. And let's send another one

32:05

of those computer things yes,

32:07

it is.

32:08

Oh hot named Yeah. It was one of those chat things we all get together when is it? Oh, don't

32:14

say chat in a gay world. That means one thing now are young or you know it's

32:18

not that he's an activist network is bringing together Houston's gay, lesbian, bisexual, transgender and HIV community on line. And I've got the web address right here

32:42
