Here is some closet kid and I know like

00:27

sorry

00:48

mortars and Monster bids saying no I shouldn't say

Jimmy Carper 01:44

borders and monsters I like that just the new from Justin Tranter yeah martyrs are monsters from his CD tear me to gather. It's it's it's really filled with angst that certainly sounds like Justin Tranter j u s t i n t r a n t e r TI. Let's go to the phone. If you'll hit air, and the blinking air there blinking light and Dean Becker should be on the line. Hello, Dean.

02:16

Can you hear me? Yes, yes. Thanks

Jimmy Carper 02:18

for sitting through the song. Oh, that's

02:20

fine. Oh, that song filled with angst. i It reminds me of the last band I was in. Shotgun. lithotomy Whoa, yeah. Yeah, that we had some songs I'll tell you. But I don't know. There's a great week coming up here for drug reform. You guys probably have heard the ads on KPFT to the breaking the Change Conference. And it's going to be a wonderful event. There's many of the guests, you know, that have been on my cultural baggage show will be in town. And I want to invite everybody to go out and meet these people and talk to them and see if I'm full of it or not. You know, it's free to the public. All you have to do is go to breaking the chains dot info. dot info. dot info.

Jimmy Carper 03:06

Okay. Oh, that's different. And one

03:08

of those like, the.us we

03:09

heard about earlier. Yeah, there's there gonna be all kinds. There's a triple X coming out. Actually, I hear. Oh, Lord, I've

Jimmy Carper 03:15

got a lot of those.

03:15

For me. Newsflash. That Triple X there. Yeah, a new one. But um, the the, you know, let me list a couple of folks coming. Ethan Nadelmann the head of the Drug Policy Alliance. Deborah small lady who heads up the breaking the Change Conference. Cliff Thornton, multiple guests on my two hour specials. very articulate gentleman. I call him my black brother from another mother. He and I think quite alike.

Jimmy Carper 03:44

Be careful when you say

03:48

a little black button. Don't

a little blimp button. Don't

 Jimmy Carper 03:48  
Don't say that too fast.

 03:52  
Jeff Blackburn's the tool, your defense attorney, very articulate. He's wonderful to talk with if you've heard his interviews, you understand. He understands and he's perfectly willing to talk about it. And then Sheila Jackson Lee will be there watching additionally. And that's just a you know, a glimpse of the people that will be there there's busloads of people coming from across Texas. To be to be part of this. They're coming from Amarillo and Hearn and all the towns that have had these massive, you know, systems of racial injustice. And what's the date on that again, Dean? That's April 1, second and third. Thursday, Friday and Saturday. There'll be a town hall meeting of Thursday evening at Texas Southern University to kick this off. Yes, yeah. Okay. And it's going to be a chance for everybody to come together and share stories and and begin to understand that we can end this. What time do those What time does that kick off again? I said six o'clock on Thursday o'clock. Okay, six till nine doors open at five and I'm assuming Well, yeah, I'm sure people be gathered before that people filtering in, as I say from across The country it's going to be very empowering, you know, to realize that we can do something there's going to be lots of ministers, court, drug court judges, people from, you know, addiction treatment facilities, and just all kinds of people gathering together to find a better way.

 05:25  
Is this going to be a series of workshops as well, it

 05:27  
is, especially Friday and Saturday, they will have breakout shops. So approximately, I'd say a dozen each day. And what kind of topics are those going to be? They're going to range from? What am I trying to say replacement of hypodermic needles, needles, syringe exchange, and to no medical marijuana to the history of the drug war to how they can empower themselves within their community to, you know, just a whole plethora of ways to better understand the mechanisms of this drug war and to work to find better ways.

 06:04  
Very good. What was that website one more time?

 06:07  
It is breaking the chains dot info Okay And

it is breaking the chains get into. Okay, and

06:10

is that the only source of information that can I call a number or is that the only source of information they

06:15

can always call me? All right, my cell is 713922 amp. That's 43674367 hemp. That's very nice. And I wanted to share just a couple of thoughts here we talked about getting medical access, where doctors can prescribe and medical marijuana and people can grow and use it to further their health. And I got this story it filtered through Cliff Schaefer. And some of you may know cliff, he's a guy who heads up the largest online drug library in the world. And he gets these letters same as I get stuff from normal. People interested in normal after they get busted things like that. But there's a doctor in California name is Dr. Hurwitz. And he just got I don't know, what do they call it where the the Medical Association's censored him disbarred not disbarred necessarily, but you know, tied up his his practice and, and made it to where he can't. Very, very scrutiny right now he can't can't write medical marijuana prescription I see. And because of that, here's a letter I won't read. It's right. It's easy, to whom it may concern my daughter, and Isa Jones was a patient of Dr. Hurwitz. After he closed his office, he was unable to find a physician who would effectively treat her chronic pain, she could no longer cope with the pain and committed suicide March 15. Yes, and then, you know, that's an add random and it happens once in a while. It's so sad to hear about things. But but for lack of pain treatment, you know, people suffer greatly, and we, we ensure that they have this pain because which is company policy, you know, and it's so wrong. And I anticipate, you know, having a good crowd this week, and if anyone would like to come to projects used or down at the City Council, I know when is that that's Tuesdays, you have to call them before 130

08:21

Okay, what's the number that they can call? Do

08:23

you have that I will have it in just a moment as we get back to that

08:28

but a little more about that?

08:30

Well what it is it's a chance for people to go before the city council and the mayor and speak their mind what my initial presentation to them and in compost was that it's time to talk about

the drug war in the first place. Secondly, let's talk about marijuana to see if it's not something we could all learn from that no one will be destroyed through changing the policy and and to really the the primary hope for projects yesterday is to move marijuana down the ladder of enforcement.

09:09

Okay, and where does this take place that it takes place at the city hall annex the city hall annex and do you have that number yet available? I

09:16

do have the number is 71392 To me, that's my number. Oh, here we go. 713247184 And I'll give it again 713-247-1840

09:34

Okay, great. And your your cell phone number again was 713922 Hemp right? Can I know that? We can call you if we have any questions about that. I know that you're probably more than happy to assist is that correct? I am I

09:47

for the month of April. I'll be giving talks to two classes at U of H one at Rice. Oh, this is time to end this drug war, my friends. Yeah. When when you decide to participate, it's pretty much over because it's going to take just a small note at this point, and I invite everybody to please come give it that note, give it a little shot, because once and that I'm sure that event is supposed to that three day breakout at Tsu is going to be an event to remember. Yeah. Oh, it is. I mean it. There's going to be people from the William consular fund. There's going to be people from the open societies talking on democracy. We're going to have heads of the ACLU. It's going to be something

10:28

Yeah. Well, we'll get back to that in just a second. Okay. All right. Yeah. Okay. Yeah.

Jimmy Carper 10:32

And so you are still on Tuesday nights, aren't you?

10:36

I am this week, I will indict half Cliff che for my brother from another mother. Yeah. And we're

gonna really give it a good kick. Because as I say, he thinks about it exactly. Like I do. He's probably more radical than I. It should be quite a show. And we're, if we can locate one or two other reformers filtering into town, we may drag him in the studio with us. Lord knows there's always some low hanging around here.

 Jimmy Carper 11:01  
Oh, yeah. Oh, yeah.

 11:03  
Okay, well,

 Jimmy Carper 11:04  
so that's Tuesday. 630, right here on KPFT. And

 11:07  
all week on the 420s. You'll be hearing the voices of all these people I've been talking about. We're, we need your help. It's time to end this thing. And it can be done. The drug warriors leaves the battlefield when we show up because, hey, they got no weapons. All right. Well, I see that that cluster in the countdown, so I know what we need to.

 Jimmy Carper 11:27  
Yeah, we need to get up.

 11:29  
Again. Thank you for the time. I'm always

 11:32  
talking to you, Dean. Hope to see you at Tsu. Okay, bye. Bye.

 Jimmy Carper 11:35  
And here's that promo that Dean was talking about. We're going to after that, we're going to go to a little music and then this Indigo is that let me know. From Saturn, the guy's name is Saturn. He's real cool. It's called Angels in flight angels in flight. And the next one is kind of an

intro for Miss Indigo. Miss Indigo. Yeah, right. Yeah. In fact, Tony brought this tonight, and he's probably practicing what this song says. So that's right after the next one, and to the next one, you'll get it. You and I've been fitting long enough in his time today for us to start doing some stealing. From the bank that

12:18

few of us policies have had a disproportionate effect on the communities of color as the war on drugs. Every policy of the drug war is on equally carried out against minority. Join us for historic gathering of activist youth, treatment providers and community leaders to discuss alternatives to our current drug policy. The breaking the chains conference will be held at Texas Southern University on April 1 through April 3. For more information web us at WWW dot breaking the chains dot info or call 1-888-361-6338. Again, www dot breaking the chains dot info or 1888361633. The war on drugs the war on racial justice break the chain from context.

13:20

Yes, and this is after hours, clear radio with attitude. And naturally we had to play something off ball because Miss Indigo is in our studio with the leather line. Miss Indigo. Hello. Hello.

13:32

I just want you to know that. I realize that I'm not the most perverted person out there. Whoever wrote that song, she just loved. tears in my eyes. If someone needed a spanking it was that person. That's what I'm here for. So give me the name of the person that wrote that song and whoever sing it and I'll take care of that later.

13:53

I think it's Stephen Lynch.

13:55

Okay. Steven Lynch needs to be lynched. Well, it was wonderful. Thank you. Thank you. What an intro. I'm so excited. I just want to get started. I have such a fabulous guest tonight. When I got out of the car. I was screaming to everyone who's here. So I'm going to go ahead and introduce the I'm gonna talk about No, I'm not gonna talk about me. I want to introduce fetish agent V. Say hello.

14:21

Hello. Thanks very much. Miss Indigo.

14:23

Oh, I'm so excited to have him. He is absolutely one of my top favorite people in kink and outside. I mean, fabulous inside and out. Well, I don't know about the inside. But anyway.

14:37

You're gonna be hard to follow.

14:39

But he's absolutely fantastic. And he's going to talk to us about something that's near and dear to his heart. fetishes. He globe trots all over the world, talking. I mean, meeting with people talking to people and seeing things that I can only dream about. I was joking with him about a certain event and I was like, Oh, yes, he has So, anyway, with no further ado, fetishization v is going to tell us a little bit about how he got started,

15:09

right, the world of fetish and all the great things about that. I guess we'll kind of break it up into four, four things an introduction to me. That's real brief. And then we'll talk about what is the Fetish who indulges in a fetish and in feeding that fetish, you know, one of the links and publication so if you're interested, where can you go to find out a lot more and really get educated about it and get involved?

15:31

Wonderful. I'm excited. Which reminds me fetish agent V brought a lady that's so lovely. She could be a fetish all by herself. I think he's working on a new fetish. Minkus here. And of course, Matt. Handy dandy, man. So I'm Jasmine. Isn't a wonderful voice will rule

15:52

melting already.

15:54

I'm developing a new fetishes anyway.

16:01

Right now. Okay. Well, I think fetishes are very image oriented. There's a very powerful part of fetishism and some of the first things that affected my world of fetish. We're images from

movies and television shows and things. Barbarella Jane Fonda and Barbara Ella clean the Galaxy way back from 1968. And then something a little more recent, Buck Rogers and 21st century that old television show that was kind of kind of campy in many ways, but Erin Gray was in that and she was always wearing blue spandex and red spandex cat suits and white uniforms. And, you know, that was 7981 Sybil Danning been a lot of different things. And she's always been, you know, wearing a lot of great outfits and that sort of stuff. The Avengers was a big television series from 61 to 69. And Diana Rigg was in that history museum appeal. She did a lot of leather cat seats. Big, big thing with that. So you see her and you think, wow, that's just fantastic. And then some other things that affected some of my history was wild, wild west, the television series, really. There was always somebody being tied up in that episode. They always had the guest hottie who was you know, the damsel in distress and they had to save her and, and Jim West was always figuring some way to get out of things. So there's, there's, you know, bondage type of thing going on. And then the period costumes, a lot of the women that were in there are wearing corset type things and garters and those type of images. So they, they snuck that in there on regular mainstream TV all the way back then. So

17:33

let me ask you, were you the one that was being tied up? Or are you doing the time?

17:37

We've done a little bit of both of that?

17:40

I just had to add, oh, you're laughing there. David. Is there anything in here Does it strike this ringing a bell or striking a nerve now? Where

17:48

most of those shows were on before I was alive? So

17:51

which is why I don't like you.

17:54

I'm sorry. I'm young

17:56

amazon.com and DVD series. You can catch up on Netflix.

18:01

Well, I

18:02

grew up with Buck Rogers.

18:04

Oh, did I can leave the 70s and 80s. Did it do anything for you? Not really, really? Well, either. You watch those shows now that after we're done was finished agent V. Go back and re watch those shows. And let's see if you don't get excited. Because of course

18:20

I have to admit the Batman movies. Batman running around in that spandex suit thing? Yeah.

18:30

Don't forget about Cat Woman Michelle Pfeiffer.

18:32

I'm gay. Okay.

18:35

I was disappointed that they found someone that had to pad you know, for that role. They had padding. Yeah,

18:42

right. They should have got somebody that could fit into it and have the curves and everything for it. But Jana like Jerry Ryan, she played Seven of Nine on Star Trek Voyager, she would have had the perfect body for that she

18:55

would fit in anything there. And Batman Returns in that movie they cut out actually producers cut out a scene to get the PG rating and that was one part when Catwoman had Batman tied down in one deleted scene they had him she had a tied to the bed and they got rid of that because they wanted to get that PG rating so you know she's in a very definite dominate textile outfit with the latex and such high boots and then carrying the whip and she does a little whip sticking in there for very obvious things.

19:23

And then is that seen on DVD? Just checking several times several

19:29

times. Some of the fashion interest of mine came from some of the 1980s music. Like Pat Benatar wearing some of the outfits that she did Nine Inch Nails Trent Reznor and some of the some of the Fetish oriented scenes didn't some of that. And then Madonna. There was an excellent list your Are you reading? She did erotica video and an audio CD in October of 1992.

19:57

Where then, were you aware that you were a fetish?

19:59

So that was about the time that some of this was starting to happen. And then in finding a lot of publications that were out there, the internet started become more live. So you had easier access to things. Picture news groups and those sorts of deals. And so then organizations and through that to about 9095 to 95 Finally formally joined one of the BDSM organizations in Texas. I travel for a living a lot now and visit a lot of BDSM leather and fetish events throughout the US tend to do several fetish worn events in the USA. And I've made a couple of trips to the skin to rubber ball, which is in London every

20:39

October. I don't like you anymore that like Dave. No,

20:43

I can't get on your bad side.

20:45

Well with all those lins she's not in there I wouldn't want to get on her bad side either

Well, with all those lips, she's got in there, I wouldn't want to get on her bad side either.

20:50

I want to mention the number real quick. We're taking phone calls as usual. 7135265738713526 KPFT. If you want to talk to federal agent V, who is just at a just just a fabulous person and incredibly well known and loved by so many people, and this is your chance to ask him any questions that you want to ask. And you even get tips on how to take care of your clothing. Right? We

21:17

can do that. And I'm blushing a lot now after hearing all them in honor

21:20

of fetish agent V. I wore latex. Yeah, yes. Yeah, there's not a whole lot. But I did wear latex. I'm excited. I even tried it myself.

21:34

And it looks damn good to me.

21:37

Yeah, I've been kind of popping out. No one's told me wardrobe malfunction.

21:40

Yeah.

21:42

Wardrobe Malfunctions all night, and no one has told me I've been so disgusted with the people around me. If you have friends like this, who needs who needs enemies, I was thinking the same thing just didn't want you to fix the problem.

21:57

And on that note, I need to break in here for a moment and tell you that you're listening to after hours career radio, with attitude on 90.1 KPFT Houston, and down in Galveston on 89.5. And as always on the web@www.kp FT dot o RG. And if you can't tell I'm a little tired. And back to you.

22:23

Fi is wearing the most wonderful outfit. I just want everyone to know that he couldn't be any sexier than he is right now. This outfit won awards, and I'm sure he'll tell you about it later. And if you want to call and ask about it. We might give hints as we go along

22:40

here washing going on over here. You bring right in the next thing to talk about which was water my fetishes because it's not just Latex. Latex is a big thing, fetish fashion. And we have a little bit talk about that. Got a lot of latex, as you know, as you mentioned, a lot of leather and you're wearing some great leather skirt and all these other great things and boots or shoes, high heels. So leather fetish for men is a little harder to get across because there's not a whole lot of I mean for guides leather pants leather shirt. And that's it. That's pretty much it. Right? Yeah. With latex, you're able to do a little bit more. And sometimes I'm cross dressing kind of things and do some switch over some of your outfits. But then you can kind of match different themes. And this one here that I've gone on right now is post Civil War grant General Grant style latex outfit with a top and full rubber daily. Not yet. Not yet next year. Thanks to you.

23:41

It is so gorgeous. I mean downtime is so those

23:44

there latex also. It's all latex plastic boots, plastic gloves, or latex gloves and the hat which is keeping the rain off outside.

23:53

It is just absolutely gorgeous. He won Best Dressed at a local latex event. I say local people come from all over the world for this event and he went but more stressed male, and he would have one female to have. They had to give it to someone else.

24:11

Overall best dressed and maybe next year, maybe next year. It's almost coming

Jimmy Carper 24:14

to say no just came in to check out the pants. Feel it? Yeah, it's wonderful. And they're blue with a light blue with a yellow striped

24:24

red sash. I mean down to I mean, the detailing is just so gorgeous. Yeah, it's

24:29

hot. But it's kind of warm.

24:32

I don't think that's what Jimmy.

24:35

Thank you. Mother like a man in uniform. Yeah, pretty good.

24:42

Sometimes you start with it, and then who knows what happened. So I guess a couple other things. The fetish oriented is recently getting into pony play, which is kind of another little fetish. It's kind of fun. They have a annual leather retreat up northeast and went to that a while back and just kind of have accidentally slipped into that. They are asking for people to do some pony play and that's enthusiast that get together and maybe drag carts around and they were some of the tack that a pony would wear blinders gags. Fattal saddles. Yes. Pretty impressive. And then some of the people that are strong enough to hold where the saddle and the rider will hop on him and ride around on their shoulders or on their back for quite a while.

Jimmy Carper 25:24

You should mention that because I'm on the board of the Gulf Coast archive and museum for gay lesbian, bisexual and transgender history Inc. and a leather man who recently died. donated his pony outfit. Oh, to the museum. Yes. So we have we have complete with tail. Wow. Yeah.

25:47

I'd love to see that. It's the

Jimmy Carper 25:48

first time I had heard of it. So you know, this is new territory for me to go play or not.

25:56

Play is a distinct part of our community. Yeah, it's so varied. That's one thing that's so beautiful about BDSM is, and the Fetish community is so much out there. It's like, trying to figure out what's your favorite flower? You know, there's so much. It's all varied. You name it. It's there. I just, can you tell them?

26:17

The variety is never ending. I mean, Pony play or pony play puppy play, people will get into puppy planning, they go down. You never know how many people are going down to some of the retail pet stores and walking out with a little fold up cage that's for a real animal than four legs are real animal two legs. Yep. I mean, and sometimes I've gone with somebody that went in there and they said she had her slave there. She said, I want you to hop in here and make sure it's the right size there in the store. So you know, you got to make sure you got the right size equipment and all that fruit for keeping somebody and all night.

26:47

right size is very important. Sounds like

26:51

some of my exes. I should have put them in cages.

26:55

If you ever want to borrow some of my toys, just let me know. You promise? Absolutely.

27:00

I wait. I think I hear Devin just ran out the front door.

27:05

We can snatch him back. Single tail and no no sorry. Wrong fantasy.

27:11

Says borrow what she means is she's going to let you borrow them by feeling what they're like when they're used again. Oh, no, no, no, no, no. That would be quite an honor. Let me tell you.

27:23

Thank you. So tell me when you figured out that you were a fetishist. I mean, you mentioned that you had the feelings and the urges and around Madonna you. You started to realize, but why don't you realize oh my gosh, this is what was it like a lightning bolt? Or did it just come on gradually? Or did someone slap you across the face and go fetish agent, you are fetishist.

27:45

Little light flashed from the sky and said, Look, here's what you are. No, it really I think for a lot of people that are into alternative lifestyles. They've been involved for a while, and then they finally have a term to describe it. I mean, there are people that have been in the s&m, and they've played that way. 510 years, and then all of a sudden, they hear the term and they say, Oh, I didn't know I was into that. Now I know what it is. And so fetish fair fashion was really a big interest of mine. And then the Fetish side just kind of happened. And then one point I said, well, um, I like kinky stuff. I like fashion. That's really cool. And they seem to kind of MIT mixed together. And here it is. And here's what I am an Elvis. Oh, probably about eight years ago or so.

28:30

Eight years, he developed all his wardrobe and eight years. That'd be about right. I discussed just piles of hire,

28:37

Time just flies to enough stuff. I don't think I'm at the bottom of the list anymore.

28:45

He has a wardrobe that I would just die for or kill for one of the other is just for molding. Yeah, he's got some beautiful beautiful outfits,

28:54

it takes a while and you also takes a lot of care. The Latex is the most sensitive of a lot of the Fetish stuff. Leather of course is really durable, you know, the cattle standout in arena. So they're okay. And so when you get something's leather, as long as you take reasonable care of it, it'll it'll last forever. Light takes a little more a little more sensitive and and should be a little more careful. But I've got some pieces running on eight or nine years now no problems.

29:00

29:20

What what are you what are your finishes? And do you find that you gain more as you go along or the toss anyway, what happened? I

29:29

don't think any of them disappeared yet, which is good. Trying to give a good night pony plays kind of a new thing. kind of try to get a little more involved in that. Take new stuff, new outfits, new kind of things, you know, things to put on. And, and it's just as you mentioned earlier, expanding expanding world and what you can do in the variety and won't change and who knows what will be out there in two or three years might be something else that I say hey, this is really cool. I want to get into this sort of thing.

29:58

As well talking about a fetish As we need to know, what exactly is a fetish, we're not talking about little tiny dolls here is that we're not protecting our home or anything. So what what is what is a fetish? Your definition is I guess, most important.

30:16

Good one? Well, you know there's the medical, I'm not a medical person. I'm not in that profession. So I can say that a fetish is one type of paraphilia. And there's different ones of those transvestitism voyeurism, different things impair failures, when you have activities that revolve around a particular object. And like anything else, there's good good fetishes, bad fetishes, good things that you do and so you know, what you want to do is you want to stick you want to do things that make you happy and you enjoy but you're not stepping on somebody else and the nurse sometimes legal and ethical issues that that come out there also and I think

30:54

of stepping on someone as your fetish. Go

30:58

there's one spot to say you didn't listen. Last month did Yeah. We had Miss Mistress Norma Jean stepping on to people. Not just one but two. stepping or jumping going? I think she did that to

31:13

nothing. Think that's what we expect from her.

31:17

Her entire foot in someone's mouth. Yes. Yes. That

31:19

was quite interesting. Too bad in the end was straight

31:30

Well, it's funny making shoes. I mean, there's shoe fetish radicalism. There are people that I guess I have that too, of course, like, it's hard to say which ones I don't have. But shoe fetish. There are people that have particularly women that may have massive collections of shoes, Imelda Marcos, she had a fetish towards it. But a fetish isn't necessarily a like of something. I mean, a person that likes has all these tools and they work on a car, maybe they're a Chevrolet person, they want everything made by Chevrolet 1950. I mean, that's their passion, their enthusiast, but is it something that they get off to and sexual type activity? And that's where fetishism really gets its fit is? Is it something that really makes you go when it becomes sexual activity? That's something that turns you on something that you really want to be involved with you want to have when you're engaging in that sort of thing. And so for me, you know it, there's some different stages that I'll talk about here, different levels that some people define on, How deep are you into it? And we'll kind of talk about that. Is that

32:35

the depth come with time? Or is the depth something that you can just start off at? You know, I don't know, if it's one to five, and you start off at five? Is that possible? Or is it gradual? I can

32:49

only speak for me it was it was probably gradual. But I think when you hit one point, you when you when you've said this is things that these are things that I like, and you accept that without saying what am I strange what you already know that your little, little, you know that your preferences aren't mainstream. So when you hit that point, something else that comes along that might be interested catches, catches you you may say, This is me, I like doing this to like, we can like to pony play thing. I never thought about that. A year ago, I saw I saw people walking around doing that, that. That looks kind of silly. And then I tried it. I said, this is great. This was something I want to get more involved in.

33:23

I'm gonna interject with the phone number again. 7135265738713526 KPFT. As riveting as this conversation is, and I know it's hard to break away and get to the phone if you need to call and ask any questions. Feel free. We're here for you. And

33:42

you can still hear us while you're on hold so because it the whole thing is the really broadcast so know that yes. So when you're on hold, you can still hear the radios. This still here. What's on the air, the phone? Oh, there's

33:58

no stations should mention that more often. Because I thought you call in and you're gonna we're gonna ask you something. You may have your act, your question may have already been answered while you're on hold. You didn't even know it. And now

34:06

you know, you hang up. Thank you, David. Oh, wow. So I'm gonna ask you about your most recent experience. This is actually very interesting to me. Did you put on the gear and then realize, Oh, I'm, I really liked this or was it a gradual? I mean, the next day, you were like, you know, that was really great. And the feelings continued on. I mean, how did how did you realize that pony play was something that you were into? Well, that was

34:35

a really a two part two part thing. There's I don't know if you've mentioned it on prior shows other world kingdom?

34:41

Yes. where you've been and I haven't.

34:46

Okay, I'll have to be careful on those. The other world Kingdom is a female supremacist site location that's in near Prague in the Czech Republic over in Europe. And it is a A large facility that is women dominant only in male submissive, and that's the way the rules are. And I was there a while back with the and with a friend. And they had the pony equipment, they have a pretty large sized campus and they have a track and stables for guys and the pony carts. And so she wanted some pony rides. So got the carts out and dragged around quite a bit. So this is this is pretty neat. But we really didn't get into the whole outfits and all those type of things. It was more, more of a just just to do it. And then this leather retreat last year, then went to that and they said, we need some people that would like to enter a race. And so I said, Hey, I've been practicing. I've done it before I can race and did it won the race. And then they said, What would you like to get more involved with some of the things that are coming up? We

said, I said, Sure. So that began the whole process of doing some of the training and they brought gear that you could wear and put on and really get into it, the tail, the blinders and all that sort of things. And then I said, this is great. This is fine. We do have our

36:02

first call. Okay, BJ is calling you there. DJ, you're on the air.

36:10

I was calling. You know, I guess my first experience with fetishes was probably a lot of man's and that was the brass fetish. And then it went from there. And I didn't realize what fetishes were at the time. But it's they've grown over the years, I believe.

36:39

So what are your fetishes? BJ? What are my Yes.

36:45

Well, being tied up having a woman pleasing a woman? I would say. And

36:55

you're tied up? Yeah. All right. All right. All right.

37:02

And I enjoy enjoyed a little of that. And I've gotten more into it. And last probably six or eight years than I ever thought I would. It's been like fantasies for 15 or 20. And then I'm acting out some level. Like tonight, as fall that was that was something that I never thought I would ever be at.

37:45

Do you find that the more you indulge them or act them out that the stronger the need comes to continue and to go deeper? Right? Say that again? As you act on them? And as you indulge in your fetishes? Do you find that you have the urge to go deeper, you want to go further it becomes stronger?

38:04

Yes. It's intoxicating. That's

38:10

a good word for it. I was at the bar, we were all read the ball, fetishization V was their main cause there. And it was absolutely wonderful. It was so great to be around other people who share a love of things that aren't quite as mainstream. They're getting more and more mainstream, and and hopefully will continue to do so. But it was really good to be around other people that were just reveling in being on that little side road. But do you have anything to add?

38:38

No. Those are great, great points. You said it as expanding, you start off with one thing, and then you start moving to other areas. And as you mentioned, the community sense of being around other people. I mean, if you haven't been to some of the events, I think, don't really get an idea of who's there tonight, I think there are somewhere around 1100 people

38:58

that were involved. Thank you. So 15 tickets were sold.

39:01

And so you know, that's a tremendous, tremendous amount of people to be able to see things and relate to them and talk to them. And then there's also organizations that I believe you've talked about on other shows, and prior opportunities for people to go talk to the groups and learn about more and get involved. Yes,

39:15

this was the night of the H Pep s&m ball. For those of you that weren't able to make it. It is an annual event. And hopefully, you'll be there next year. But there are other ways of getting involved in and once we've talked about this before, you are more than welcome to contact me and I will try to point in the right direction. Or, you know, put you in different directions if I'm not quite sure what you need to do. We can go from there. But thank you so much for calling MPJ.

39:42

Thank you I enjoyed

39:45

Oh, not a problem, and I hope you enjoyed the ball. I

39:47

really did. It was a lot different than I thought it would be

39:52

in a good way. In a good way. All right. Thank you. You're very welcome. Thanks for it. And

40:00

then you mentioned, like mainstream thing getting more involved in mainstream fashion. You know, who who gets involved with a fetish and and I think I mentioned these these four different levels. And level one is one of the thing I want to do is mentioned that a lot of the history that I'm talking about comes from a book by Valerie Steele called fetish, fashion, sex and power. And that is a great, great book. It's by Oxford University Press. And it's fashion oriented, but explains a lot about fetish. And going back as far as the early 1800s, and what some of the definitions were there, and then how it's evolved over time. So it's a good reference. And he talks about four levels, one of them's kind of a slight preference for certain kinds of sex partner sexual stimulation or activity. And they say, you know, it's really isn't road fetish is a two is more like a strong preference exists. So you're kind of getting the low intensity of fetishism

40:53

is the first one kind of like a preferring redheads. Yes. Okay, exactly. Or, I know someone that prefers very thin redheads that are incredibly pale. And that didn't make any sense to me for a long time. I mean, talk about narrowing the field that does it. But he says the, the way they flush when they become excited, because they're still pale, is incredibly exciting to him. It's a big turn on, like I see that. So anyway, go ahead. Oh,

41:30

that three, level three is like specific stimuli or are necessary for sexual arousal and sexual performance. So now you're getting really moderate. And then level four's specific stimuli take the place of a sex partner. So you're really into I think that most active fetishes in the scene really move along this, this continuum a little bit. I've been at the four I've been at the two and three and four and move around quite a bit. And I think the people that are very involved there, they don't limit themselves to one thing. I mean, you can do vanilla, sexual activities, if you want to. But your preference is to be higher up on one end of that level. They don't have a level eight or nine unfortunately yet, but I'm sure it'd be there sometimes also,

42:11

is going to make sure to break all records and I have heard that for people that are that are fetishes. Level one might be that they can only perform sexually while they're thinking about a certain object or circumstance. Is that correct? Could be is that was that for you? I mean, have you ever just had I hate to say the word vanilla sex? And that was just plenty good for you or was really

42:40

Yes, yes. I mean, again, a variety of things. fry your things.

42:44

Interesting.

42:47

I guess some of the some of the popular things that you see are corsets as my last question you were many times very wonderfully shoes. Second Skin kind of things that can be latex or leather. So second skin, something really tight putting something over your own skin for a lot of people animal skin is something that you know is very sexual and the smell and the feel of it.

43:09

Not polyester.

43:13

We don't know we

43:15

talked about encasement before on the show,

43:17

and I'm gonna give a give my my boyfriend's a dirty little secret away his silk. Oh yeah. I have a set of silk pajamas. And if I even think about putting them on, he's like hunting me down. He's just he loves the feel of it. Never

43:33

take them off. Is that what you're saying?

43:36

Or keep them on very long, but

43:39

wonderful. We have another call. Wow. This is fantastic. Jamie is online. Hello, Jamie. Jamie,

43:47

Jamie. Guy your voices.

43:53

Anyone which one of us here? I think so. Can we talk after the show

44:08

but really, I want others to know that. If they need to be sure that they're FM a you know where their family is? Yes. But you know, then people get real addicted to it. And it gets other hand. There's a group forum and it were one of 12 Step programs of course.

44:42

Are you an SMA

44:47

I am associated with one that is that's how I learned about it. Kevin him so much.

44:55

I've never heard of this. Have you heard of this finish? He heard

44:59

of it. seems like most people that when they're feel like they have an addiction problem with  
of m experience I've seen they leave, they leave the car, they just they just disappear for for

s&m experience I've seen they leave, they leave the car, they just they just disappear for for some reason they say I've got to take a break. And people that are, I guess you say lifestyle fetishes or lifestyle, s&m are still they'll take a break and come back after six months or a year or so because they they decide that it's really an element of their life. They don't want to give up. But they do need a break for it. And I

45:25

know that some people are in relationships, where their significant other doesn't quite understand they have to leave it alone. And they might seek counseling in order to get a grip and decide what is more important in relation to the relationship that they're in. Or they're, you know, they're finished with their kids.

45:41

And people that that kind of lose themselves into this. And they know things are out of hand. And I want those people to know that there is help. Well,

45:54

absolutely, if anyone is addicted in such a way that is harmful, or to others, then seeking help is very important. But if you join a good organization that support you and take care of you, that's usually not a problem. If you start out

46:10

with it, right people go take care of you and you get gear down. That's true. Thank you. Hit me hard, spank me read.

46:19

Well, then you can't be a member of SMA. But thank you so much for calling in Jamie. Bye, bye. Well, we're going to talk a little bit about that later, if something that you're into isn't, is harmful to others. But we can we can talk about that a little later. But Jamie does have a good point as far as you want to make sure that you have your urges under control and you're not harming anyone.

46:49

Right. And part of that, when we've talked about it for I think now's a good point, the one reason of being involved in different organizations is to try to help with that you get grounded in what the community is doing. You've probably talked about SSC safe safety and central before. Yes. And so if coming into an organization and being a member and talking to people and changing, changing your thoughts, and hearing from them helps. In a way, it's a way the

community kind of gets that barometer going on, that you're doing things that are going to be okay, exactly. And you start to develop friends that have the same interest. And over time, if you might be going off the deep end, maybe they'll maybe they'll catch you. I mean, you don't hear much about that, really, though I can't. I can't really relate to hearing any stories, anybody that needed to abandon it so much that they needed to seek professional treatment, but it probably happens. They probably don't go around publicizing that. I've got a problem. I mean, they just keep a little more quiet. I

47:47

know that people that are in significant relationships with someone that doesn't understand, and it for whatever reason frightens them or repels them. Have ever heard of them seeking help. But in showing your fetishes exploring your sexuality are all healthy things. As long as you remember to take everything in moderation. Absolutely. She may have been speaking of sexual addiction in general or its runs in the vanilla world. That's a good point. That's a very good, so thank you. I think that's, you know, absolutely. What we're trying to talk about more than anything is just exploring what makes you feel good, as long as you're not harming anyone else in the process.

48:37

Absolutely. And so people that don't harm anybody in the process, I guess we could know. I want to talk a bit about more about who's involved with this kind of thing. And a lot of its popular culture Karl Lagerfeld did the outfits for a movie called Love my trace. Let me trace which was a French movie about a dominatrix personal hero of mine. glta has been very candid about his lifelong interest in fetish clothing. Versace did the 1992 bondage collection which was a kind of a shocker for many people. So I guess you know who who gets into this kind of stuff and who gets into it? No talk about different levels and, and even vanilla people can have fetishes

49:24

when you said that.

49:28

Back away that way. There we go. People

49:31

and that would be me. I'm the vanilla one. Here you go.

49:35

... ..

Unless you're grabbing those silk pajamas.

49:38

Very good point.

49:40

That would be his fetish not mine.

49:42

They could develop into yours if you're not careful. mindset.

49:45

Oh, well. I have some equipment for that too. Also, we have this latex bondage bed that's latex all around except satin on one part so you kind of flip it over what you the way you want to be. You got the satin thing going. You got the latex thing going either way.

49:59

I would be worried about the latex things like sticking to it. That's a problem.

50:03

You kind of feel like if you're not careful, like a piece of shrink wrap chicken at the grocery store.

50:08

that would that would be my biggest I don't like wearing leather. And I don't like wearing latex because it's too clingy. I have claustrophobic issues. So I just I don't like leather and when

Chris Harrison 50:18

you walked in the door was appropriate.

50:23

But yeah, his his his is always been so and minds been like satin. Were soft people. That's

great.

50:30

We don't like the rough stuff. Sensuality is a very important important part of what DSS for me. So

50:37

you've probably you've probably used maybe silk or satin on somebody after you've done a senior such with them to rub against them and get that feel. Absolutely

50:47

everyone thinks that you know, I just mop up the blood after I play and that's not that is not true. I sensuality is a very important partner and it can be very soft, very loving, very nurturing. And

50:58

true. I survived. I survived one with There you go improve right here.

51:03

I always thought you know, like fetishes and s&m. And all of that stuff is supposed to be like bloody painful. And everything with this, this show has definitely opened my eyes. And that's why I like doing it just because there's been things that I've learned about myself and my relationship with Devin that I didn't realize,

51:21

Oh, that is so wonderful. I'm almost teary eyed. David, thank you. Oh,

51:27

perceptions, right. I was telling somebody, vanilla person. I said I was in a little kinky person. And she said, How often do you engage in that group sex thing? And I said, What What are you talking about? Her perception was that if you're an s&m, it's 30 people all together doing all this wild stuff all the time. Okay,

51:46

that's too many people try to keep track of

51:50

1510 Whatever. But you know, that perception and so I think, you know, the group's type deal and and forms such as this are really, really important.

51:58

Would that be considered a fetish, though? If you could, you couldn't? Not necessarily you couldn't get off, but you enjoyed being in a group of people and having sex with a group of people instead of just one on one? I

52:11

think so. I think so. People, it's somebody that might have a bit of a voyeuristic

52:15

submission type thing type of feel to it. Yeah.

52:18

Like they, they, you know, I, you go on any chat group, and you always find those people with the webcams that just want to get off with somebody watching them. And like, things like that. And wondering if that would be considered, you know, like, the group sex thing would be considered a fetish, and not necessarily just inclusive to s&m, but it would be a type of fetish. Absolutely. So

52:41

that isn't us and can complement each other, but one is not necessary. For the other. We have someone else mark is calling in Mark, can

52:50

we help you? Well, you have to give me a second I'm in here by myself.

52:53

Oh my goodness, David's just he's got to be careful. He's slipping and all that satin and silk.

53:00

Or Devon will come in here and mark mark

53:03

on just listening to I used to work over there about 30 years ago. Back when you were downtown Atlanta life building.

53:11

That was I was a man almost six months before my time.

53:16

Back in 1973

53:18

Oh, that was five years before mine.

53:23

So how are you tonight?

53:24

Oh, pretty good. I just enjoying the show. Thank you. You're talking about fetishes and stuff like that. And my fetishes I like like my person to have long hair. Even still.

53:37

All this wonderful mistress Norma Jean has the shares that finish with you. They have to have long hair or at least be able to get extensions.

53:45

Yes, she was she was drooling last month. All over that that guy. He had a foot fetish and he had long hair. And he said the only thing he was missing was the Harley and she would have married him.

53:59

So I can have fun over here.

54:03

When did you find that? You started being? When did you find out that you had a fetish for long hair?

54:09

Well, I guess most of my life when I realized the way I live my life.

54:15

Well that sounds like entirely. That could be an entire show sounds like

54:22

I'm a musician. I play music and

54:24

stuff. So it all kind of goes together, doesn't it?

54:27

I guess so. I'm not sure how it works, but somehow it seems to work that way. Do

54:32

you do you also have long hair? Yeah. You like it on yourself as well as my

54:37

my mother is still alive and she says she doesn't like having long hair anymore. But this is you're an old man. i You don't need to have long hair. Like it's still you know,

54:51

you need it more now more than ever so you can remember who you are. That's wonderful. Wonderful. So how many years have you had this particular thing? fish

55:01

just pretty much as as grown up and stuff

55:09

I don't know, I just always liked Kevin longer.

55:11

That's fantastic.

55:12

I don't like to cook.

55:15

There's nothing wrong with that your hair is a symbol of power as especially for women, but I mean, just in general and so there's been a lot of mythology tightened to hair and so I can I can totally understand that. I like having my hair long, too. I don't I have a huge head. So hair helps a lot.

55:36

My husband as big as it used to be.

55:40

Thank you for calling in Mark. Appreciate it.

55:43

I guess maybe something about feeding that fetish. What do you what do you do you so you've been listening and you said hey, I might want to go get a latex skirt piece or something like that. Where do you got what do you do? Well, internet you know, it's full everything. Latex kind of stuff. Skin to is a company in London. And it's skin to TW o.com Simon Oh is a company in

Austria. And it's latex dot 80. The mask is one that's in the Netherlands or in the Czech Republic. And it's d m s k.com. And damask has a lot of latex and really on the bizarre strange kind of stuff. So it's a real fun site to look at.

56:31

I have an extremely edgy spanking dress really from Damascus and she can't wear it out of the house kind of thing. Can I come to your house?

56:42

It's one of those you walk out the door and the cops are already standing there with the handcuffs. Well, there's

56:46

only a frown there. damask is a wonderful sight. And

56:54

they come up with some of the strangest stuff and great great company. A little closer to home is company, Baroness fashions, which is in New York City.

57:02

Oh, isn't she fabulous? Yes. She

57:04

had just displayed a lot of great outfits and this recent party that was here in Houston Center National Party. House a harlot is a company that made one have gone on here and there in London also house of harlot HJR LOD like, you know, strumpet, thanks sort of thing. And in leather. There's a company called Mr. S leather in San Francisco, and they have a lot of gray leather outfits for particularly for guys. If you like corsets, there's a company called Dark garden corsetry. Oh yeah, and they're also in San Francisco. They're fantastic. And then if you know you want to get that silk and or satin bedding, there's a company called between the sheets, which is also in the United Kingdom. And they're really good. And then Oh, can we mentioned local places, please, I

57:52

would love for you to also I'd like to mention that fish agent is in Houston. To have such a wonderful resource here is just fantastic. So administration is here in a

58:02

great place in two stores here. If you didn't want to drive to Austria or anything to pick up something is Delaware. their wares on Westheimer and they're a great company. They're a big supporter of the s&m and fetish community. Yes, here and nothing the ball

58:21

was, was it this last year?

58:23

October, September, October. I think it was the same time the rubber ball was on because I couldn't do both couldn't but you know, the Concorde wasn't even glaring. Delaware is a wonderful place. And then another store is carrying a lot of nice, fetish wares. And it was a big sponsor for the s&m balls, arrows 1207

58:45

They treat you wonderfully when you go there. They're fantastic people

58:50

great great store down on Spencer highway kind of near hobby airport.

58:54

And they've got a great selection. And

58:56

I guess events were where do you go? I mean, there's the SN H pep F's and involved it happened last night and now probably people struggling out of there at the moment. Sore which is always fun. You kind of wonder you know, this person's driving home or they drunk or their butt just hurts so much from being hit that they can't really sit in the seat too long. Just lying around and ever No. Statewide there's a thing called South Plains weather Fest in Dallas, which happens it's pretty good event.

59:24

We were both there. That was That was great. Two years in a row. Yes, that scene you

59:28

can't you can't give me a frown after that. Because we were we were there

59:33

in a 300 mile radius. Okay. I'm not hopping overseas like someone

59:40

would that be? New York City fetish marathon is something that's happening may 21 to 23rd coming up, and it's probably the largest fetish event that happens in the USA. I didn't know that. That's great for three and a half, four days of things black and blue ball. Oh, yeah, that's one piece of it. They have dungeons that are opened 24 hours a day for three or four straight days. And it's just a great place. It's across from Madison Square Garden. It's just wonderful.

1:00:08

You've, you've talked about that. And every time you do, you just glow. Absolutely. Blushing

1:00:14

again. All right. And then skin to rubber ball, which happens every October. And that's over in London. That's one thing that happens on a month, Sunday night. And then there's three or four pre act balls and things that happened before that and afterwards, and those are all very big latex events at fetish events. The latex leather, you see a little bit of everything there. Just just really wonderful one, two or 3000 people show up for that. Closer to home, there was a company in Fort Lauderdale, Florida called the Fetish factory. And they sponsor an alter ego party that's every month and they have about 900,000 people show up for that thing. So yeah, a lot closer to go to Florida than driving over to the rubber bomb because it happens 12 times a year might be able to fit your schedule a little bit better. If you talked about publications, those type of things that around

1:01:01

I haven't. That's the one thing that I really haven't gotten into. And I'd like to mention that. I know these a lot of these events sound glamorous, and if you can't make it to an event or you want more information, you could always email me at mistress at Miss indigo.com and my SS Indi Gio, and we can share this information with you. The video station knows how to get in touch with me as well. And federal agent will be more than happy to share his passion with you. Absolutely.

 1:01:26  
And

our female addresses after hours at KPFT dot o RG.

 1:01:31  
So tell us about the publications and I also want you to tell everyone the places that you've been on your hunt your pursuit for more and more fetish.

 1:01:41  
Okay, I'm not gonna get beat too lightly after this. Too hard too hard after that. Skin to magazine is also about the skin to people in London and that comes out every quarter and getting get that at Delaware online. Equis erotica says a magazine that's dedicated to the pony people. Also, DDI magazine, its domination directory International. It is a a advertising advertisement magazine that comes out quarterly or so that it has some stores in there. But also you can find contacts on where to get a little bit more information on fetishism. And you can see things I see what's being worn. Marquis has a magazine that's also out there. And another thing that's kind of a growing fetish art collection, she want to surprise some of the some of the artists that are out there that do a lot of things are Steve diet. Getty. Oh, yes. Great, great work. John Dietrich. Michael Manning's a big favorite of mine, he has got several books that are out he does a lot of black ink, drawing and fetish work. And he's in San Francisco. And really nice person. He's done some work for me. And he's just one of those great artists that works, paid to five everyday producing his art and really, really nice, personable person. Oops, you can hear that paper shuffling. You know, there was a note?

 1:03:12  
Well, I'm just so excited. You're here with us. And I want you to tell us all the places that you've gone and you're on your pursuit for what's

 1:03:18  
the fetishes kink in the Caribbean, which is a seven day thing down in hedonism three in Jamaica, couple of events in San Jose in San Francisco, New York City fetish events, or Lauderdale skin to rubber ball a couple of times. And there's pretty good contingent of people from Houston, they go over to that now we're trying to get more and more people go over to London spend the four or five days there. I want to go on a go other world kingdom. Some of that, and

1:03:45

I guess more than once, just one

1:03:48

time, just one time. Second one, a little schedule conflict. But other world Kingdom is very interesting from an s&m DS point of view, and Euro probe or something that damasks throws that I want to get to when I can but that's maybe next year, maybe 2005.

1:04:07

Well, are you as enthused now, as when you start it

1:04:13

more so more so because you don't when you add something new, let's get and take the pony play thing that's added. That doesn't mean that something that I like to do already has to be thrown out. So and that's a nice thing for many people that are into fetishes and s&m those type of things. You pick up new things that you add to I mean, when when you learn how to use a paddle you don't say I now know how to paddle I am not going to be able to use a whip anymore. So you just keep adding to it and you expand you know your interest in things that you find enjoyable to do.

1:04:47

Is possible for you to gauge which one's more important to you your fetish or your love of DS

1:04:54

it's too hard to do. Because they

1:04:57

all go all together.

1:04:58

I think for a lot of people they do I think a lot of it's hand in hand, there's a lot of crossover. And in the s&m DS fetish community and all these little subsets of people that like certain things, you know, you're people that are into this one thing, but they're also into these things. And then some other group that may have some of the same interest they cross. And so you run into people that are, for example, the pony play thing again, there's a Houston pony players

group now that's been formed in the last six months, and they are at the ball tonight. They are wonderful. Oh, it's great when you see them wearing some of the outfits that they have, and it's just, it's a lot of fun. It's a lot of fun to get the tails and then you know, they have the variant on the other tails hook on the outside and the tails that hook on the inside. What you want to do with that, I

1:05:42

don't want to know where they hook. I really don't. It's exactly what do you know, don't make me know. I know.

1:05:53

I remember the first time I ever rode on a human pony. It was such a fantastic experience, to feel that power and know that it's been reined in for your use and feel the muscles just moving under you. It's it is such an electric moment. I'll never forget that. And so funny plays his sounds

1:06:18

like the first time I actually wrote a real horse not a human

1:06:22

it's it's very similar. The

1:06:26

sense of power in the sense of the beauty and the power reined in and the fact that you are controlling it with too little straps of leather. exactly

1:06:35

that same kind of experience. That was not my first time I didn't horse wanted to talk about that. Because that's that was kinky, all that stuff. Not in a good way it was the most flatulent horse I've ever seen. It was that was suffering. That was true torture. But, but this is that same kind of experience and knowing that they're submitting their body for your use in such a way is just it's beautiful.

1:06:58

It sure it was more heightened because the the the person who was doing it had to have been more is more aware of that they're doing it then a horse's Yes, when he goes, they have the

that freedom of choice to you know, throw you off their back or Yes, or not put the saddle on or do exactly, that, so on and so forth.

1:07:18

All variants of that is like an s&m Furniture play. Right? Sometimes people will play a table, and somebody's going to sit on you or put stuff on you. And so you're a table. I mean, the table, a regular table isn't going to be able to do anything. But it's like you're saying with a horse, you're the person who's playing the horse, they have all these responsibilities and things that they have to do. Table we're leaning on right now doesn't really have any problems. But if a person has to act like that table, they get a lot of responsibility. They'll nobody would be ignored as much as that table. I mean, they're doing things and so it kind of fits in with the pony play type aspect, you're in a DS situation when you're using something as an Object and Object objectification is a big part of that, too, is people take on different roles and different aspects that are really a lot of fun, for a lot of fun. And one thing I was just thinking about was, as far as pony play, while I'm liking that, Pony horses actually kind of scare me, I've touched a horse one time in my life.

1:08:15

I grew up riding horses, so I get people who are afraid of them, or just think

1:08:22

they're estranged, or it's an experience factor. I've never been around him one time. And it's a big thing. And I think you know, if it takes a wrong step, it's gonna step on me and kill me, which be no fun.

1:08:31

But my family, we tend to be honest people so I was raised with them, but you never forget the strength and the power and the beauty of the animal that you're on. And you want to be a part of that. You don't want to just you know, run them up you want to harness that. But

1:08:50

you still want to let it run free you so you want to do you want to become one with the power and the beauty of the horse and absolutely in the strength and the speed and okay, I'm gonna stop talking now.

1:09:01

You must have seen her dog Oh, yeah, no,

1:09:04

not yet. I want to but I haven't yet. The Houston pony

1:09:07

group had a movie sitting last week for that so they do those type of activities went down went down and watch that and it was really great.

1:09:15

That was fantastic. Wow, really all

1:09:18

part of getting involved with the community and different things that you like.

1:09:22

So what was your first fetish that you realize you had

1:09:30

probably getting on the fashion side I think latex cat suits and that's that was one of the first things that I got was a latex cat suit. If

1:09:37

you are male and you want to wear latex cat suit, make sure you have the package you don't even or sock know any other you know, because everyone's going to look everyone's gonna look and see what you've got going on there. The the the petty always with as long tunics over yours

1:09:59

see all sorts of different things? Not just a full cat suit or wait,

1:10:03

no, I've seen you on a skirt. I've seen your package cover. Think about it. We've done skirts.

1:10:08

We've done all sorts of different things. Yeah, I've

1:10:09

seen you and that really tight sexy black skirt. Put a shade it yes, you have a pen. That is all come back to me.

1:10:17

I'm washing again.

1:10:20

You are pretty red. And you're not even a redhead? Not

1:10:23

yet. I might try that. A little guy who knows?

1:10:27

Can I let you're also slumped and introduce you to my friend. If you dye your hair red Katara

1:10:35

never know what you might like.

Jimmy Carper 1:10:37

You'd have to dye all of your hair,

1:10:40

eyebrows. And further south.

1:10:43

.. .. .

About the eyebrow thing that's kind of hard to work with the weird colored eyebrows, but you can get them. We know somebody that has had them removed and tattooed on. So they're always they're

1:10:53

really Yes. My mind has gone completely blank, as usual. And I'm used to that state. That's not a big deal. What did you get this fantastic outfit you have on?

1:11:04

This was from Housel, harlot. And when visiting over it, some of them and I'm not going to mention again over in London just had just had it measured. And that's one thing, you can get a lot of latex and fetish outfits off the rack. Which is pretty good. One thing you really want to do though, is eventually start trying to get things that really fit you. And it's a little a little bit more of a cost in there. But things that you get unless you want to hang on to for many years. And so it's probably worth the weight if you need to to do something like that.

1:11:36

Nice, beautiful. Thank you so much for being on my pleasure and fetish agent. I really appreciate you for having us. I really enjoyed it. Did you learn anything? Matt? Planning? Did you learn anything, David?

1:11:46

Oh, always. I always learned something when you're here. Loan. Fantastic.

1:11:49

I'm so glad to hear that. Thank you so much for putting up with me for another hour.

1:11:54

You still got 10 minutes, so I'll do it. Yes, yes, you do. Yeah. Oh, my goodness, I thought I was done. You still have nine minutes. No more time for

1:12:06

anyone needs to call in at 713-526-5738 up I've gotten a signal to wrap things up.

1:12:12

1:12:12

Usually you don't wrap up that way

1:12:16

up to six KPFT. We're here on the air. And we'd love to talk to you about anything. It doesn't have to be about fetish fetish is a good thing. But anything that you're concerned about or want to talk about or anything exciting that you've tried that you know if you've been dipping your lover into marshmallows, or want to try anyway, or want to try it, we're here for you. If you want safety tips, we can help you with that too.

1:12:38

care, care latex, I guess.

1:12:42

Why don't you tell us? I had questions for you today because I was in a panic. I wasn't I wasn't

1:12:46

shiny. And he shined you up right away, didn't we?

1:12:49

Don't you have some things that you brought with you to show and tell about some

1:12:53

of the magazines that we discussed just in case I needed to look over there? Get that remember memorizing the things that are on there, but I'm okay with that, that some of the things that I did bring over some of the polishing things that you do to take care of latex.

1:13:06

Yes, I need a good polish, obviously, because I tried out too quickly. And I want to stay wet and moist as long as possible.

1:13:15

That's right. That's very important. RPG reading. Oh, did we

1:13:23

test to be well,

1:13:23

I'm failing. I should have gotten rid of it right at the beginning.

1:13:27

I think we started out at ma 17. And we're going close to our and getting really close to that x.

1:13:35

So can feeling of latex.

1:13:39

There's different ways and different things that people do with that sometimes they put a lot of powder talcum baby powder on the inside, I guess some of the most important things about is you've gone out there and you've got an outfit that you like. And whether it's a full dress or a skirt, or some gloves or something, you just want to when you get done with it, you want to rinse that thing off, hang it up to dry. It'll last forever. Don't toss it into the dishwasher or anything like that to get it super clean or take your gasoline and wipe it off. Because that'll eat that eat that latex up, it'll disappear.

1:14:09

And don't throw it in the washing machine or dryer.

1:14:13

And I know somebody that does that. And it's very big surprise, big surprise. Yes. I thought wow, that's amazing. It's something else that with latex as far as the outside to get that shine. I mean, again, the imagery that's there when you see the photographs that are that are available and some of the Fetish photography, the particularly the women that are wearing something just look so fantastic with the shiny latex and there's a couple of ways of doing that. It's a it's a rubber based product. So you can do something like three M silicone spray from Home Depot, which is available. Pretty easy to get. Something I used to use was pledge lemon scented pledge, really, and it worked great for many years. People would scorn that Oh no, don't do that. But it worked. for five or six years till I found something else. The only side note

without a problem was that when I start polishing furniture, I go, smells good. polishes, s'mores, you know, that sort of thing. So I better stop using the Levinson pledge on my latex, because I'm starting to like my couch Armor All.

1:15:19

Is that actually good?

1:15:20

I think that's a bad idea. No,

1:15:22

I've heard both sides. And I just don't know about this. Is it a little harsh,

1:15:27

it's a little risky, you want to keep the chemicals away the real abrasive chemicals, I mean, if you're gonna use that, and just get some, you know, comment and a sponge and scrape that thing, whatever, you know, be gentle with latex. There's particular products that are made for latex now by a company called arrows. And they have a line of called cult or pure, and it's, it's a shine for the outside, which is now starting to get a little harder to get their body glow to send people have a Body Glide. And you'll find it and Delaware narrows trove of seven and many other stores around. And that works on the outside for a while, which keeps the shine up. And then the I guess, again, the best thing to do is just watch the inside of it, where take care of it, and rinse it off, hang it up and protect your investment in the stock. And then you start adding a few things. And then by time you've added four or five outfits, you say I've got five 600 order with the clothes here, I don't just walk it up, throw it in the corner of the room and come back and get it next time for the next party.

1:16:22

What was your first latex outfit?

1:16:24

First thing was latex pants and a cat suit?

1:16:29

And did you feel differently when you're wearing it? Oh,

1:16:33

yeah. So it was it was really great. First time, there's that first step when you go out, and you go out into public. And there was a fetish ball occur occurring coming up. So I got the pants and a shirt, or pants in the cat suit. And you get that little bit of nervousness like I'm okay, I'm gonna go stand out in front of a bunch of people wearing this. And when you get there, you discover everybody's doing the same thing also. So it's great. You take that hesitation that you have, and it's gone right away when you're surrounded by people that you like. What

1:17:03

kind of feelings does latex for you,

1:17:08

it's just a very central material. I mean, it's, again, you can tie it latex, it's a second skin kind of thing. You can do something a little loose, like this uniform is fairly, fairly loose outfit, the feel of it, the aroma of latex that has a distinctive aroma, when you walk in my room in my closet and other stores and other areas, you can smell that say, Well, this smells really good. And then you start getting associating it with as a fetish. Mentally, you smell that and you think, oh, good things are good things are involved with this latex. It's got great, great scent to a great feel. And, and it just you just reinforced that over time. I've never had a bad latex experience. So how reliable is how, you know, how reliable can you get over that?

1:17:51

It's the same way with love leather, because I remember always the smell of the leather straps from the saddles and stuff. And even now, I'll smell that that leather smell. And it will remind me of horses is it's like an association thing. Oh, yes. So he's like, you've

1:18:08

had all these good experiences with it. And so when you see it, it's like, and the people that are kind of funny are the people that are not funny, but are really interesting people that are requesting minded for real horses and also into the s&m scene. And they it's kind of funny to watch this thought because, you know, horses are their babies. But they like the pony play thing. And they watch that and and it's just it's fun to see kind of in their mind, how they're mixing all these, these mental things going on. And they're trying to rationalize that I really liked this and himself, I'm gonna ride the pony and I'm gonna beat the pony, but I sure wouldn't be my real pony that's out there. And like, because I love my pony that sort of do that.

1:18:47

And that horse probably cost more than the human that you're beating. Horses are not cheap.

1:18:54

I have to have any ponies right now. And I do treat them better than I treat some of your clients. Humiliation. So I understand where you're coming from. Absolutely. But you know, it's all coming from a nurturing place. It comes from a place of care and love breathing about that one. Latex and you also have a fetish for leather, leather.

1:19:20

Yes. Not a whole lot of that because it's kind of a but again, maybe not in where the things that you would put on as far as attire but Leather Wrist cuffs or bondage type of things. I mean, if you think about that, sometimes when you're wearing leather cuffs, your hands or maybe near your face, and so you can smell that in the field, the leather and all that sorts to kind of get into this headspace kind of aroma.

1:19:43

What about your love of lips? Would you consider that to be part of this?

1:19:47

I don't know if that's so much a fetish or just fun from this point of view and Ds in case case you haven't guessed on the submissive so I don't use the whip on anybody. You are alert alert. Yes,

1:19:59

I Yes, I've seen you with some of the most beautiful marks. And he's been plagued by some of the most wonderful people that just, it'll be kind of like a who's who of ds. So fun. Anyway, thank you for joining me for now. I am done. Thank you once again, penetration V. Thank you so much, Mike. You've been a wonderful asset. I've enjoyed just watching you. Did we do a show? I'm not sure I was too busy staring. Matt David, I really appreciate it.

1:20:31

And we thank you for coming Miss Indigo.

1:20:33

And that was another line.

1:20:34

1:20:34

Okay. And I'm going to remind y'all again, that you're listening to after hours queer radio with attitude on 90.1 KPFT in Houston, and 89.5 in Galveston, and it was always on the web at KPFT dot o RG we're gonna stick some music in your ear and then Chris will be back with the round tables

Chris Harrison 1:21:12

Yes, we are here and you are listening to after hours queer radio with attitude. And it is time now for the world famous world infamous after hours news and views roundtable Hello, hello. The music you just got through. Hello. Hello. Hello. The music you heard here at the beginning was Moeller candy cane all you can eat. That's what Jimmy should have played last week with the big head stuff. And the bootlickers with I just did your boyfriend.

Bobby 1:21:54

Nope. There's a statement that probably comes up a lot at the bars.

Chris Harrison 1:21:59

Especially when we're features bootlickers Yes, it is Chris. I'm back. Had a great time last week with the live remote. And

Roy McCarthy 1:22:10

we want to give congratulations to our very own. Chris. He is now the Royal Majesty, King chub, ecc.

Chris Harrison 1:22:20

There's someone else here in Houston who has King Chubb national, which he made sure to point out. He has a national crown. Oh, so you just got an ECC crown? Yes, I'm one of the regional.

Bobby 1:22:34

You know, all power corrupts absolute power corrupts absolutely. You never know. Well,

Chris Harrison 1:22:39

he's the one who he's the one who said you're gonna be on the contest for us. I go. No. But it was a lot of fun. I was sorry about that. I mean, I never would have expected to do something like that. And, you know, to get up and do that in front of a bunch of people that, especially

strangers. It's quite a feat for me. Oh,

**R** Roy McCarthy 1:23:04

Chris, come on year old ham we already know.

**C** Chris Harrison 1:23:08

him. Well. Yeah, it was

**B** Bobby 1:23:10

Turkey. But that's a whole nother okay.

**C** Chris Harrison 1:23:19

No, the, I mean, I'm fine behind the microphone, where I'm kind of hidden, you know, people can't see me and all that. But to that was the great thing with an event like that is the fact that you know, you've got a somewhat of a built in support system that you don't, I wouldn't see you and see me do something like that. At a traditional club, whatever you want to give up on amateur strip contest, over DJs where I suspect you've shot more than a buck. But the fact is that, you know, that was the whole thing about this event is that you could be comfortable in your own skin and your own body. And the people who I think had loved it the most was the staff of the hotel that we were at. We were in the one ballroom. And even though there was this beautiful pageantry of this Indian wedding going on one ballroom over there all the staff was kind of peeking out the doors, watching the contest, and they started watching off the skinny guys stripping down to their their underwear. And they were there for that. Then when the big guys came out, they're like, Oh my God. This one this one woman, older Hispanic woman when she popped out of the corner and looked out and she saw Jr kind of writhing on the floor. In these Jove, Boxer Smiley. Smiley, you were Jr's smiley boxer shorts two or three times over. And just she stepped out on and someone kind of stepped in her way and she stepped to the side so she can get a better view with it. because it was, this isn't there's nothing like seeing a big guy there rolling around on the floor, doing his best Madonna Like a Virgin in person.

**R** Roy McCarthy 1:25:09

How would you hurt you were there.

**C** Chris Harrison 1:25:12

I don't know. But we sacrificed a couple of

**B** Bobby 1:25:17

**B** Bobby 1:25:17  
ancient pagan rituals going on net.

**C** Chris Harrison 1:25:21  
But I'm glad to be back here. And let's, uh, let's give our shout outs here to our MBBS who are listening in, we've got some letters from them,

**R** Roy McCarthy 1:25:30  
we probably go to the MBBS, I do have an important news case, if anyone out there has not heard yet, the FDA has given approval for this new HIV oral swab test, which will give results in 20 minutes. Which is pretty good, because, as Chris and I have reported down through the years on our news segments, 1/3 of the people who really are actually HIV positive do not know because they never come back to get the test results. This way, you will get the test results in 20 minutes. And it's going to be available at the major hospitals and major clinics. Eventually it's going to be released for the other regional and community clinics. And I was also reading today in the in our local newspaper here where the makers of it are hoping for to become available over the counter.

**B** Bobby 1:26:35  
But what is going on over there? He's playing with my he's playing with my tassels.

**R** Roy McCarthy 1:26:39  
He's playing with your thing. Yes.

**C** Chris Harrison 1:26:43  
We were only expecting a wardrobe malfunction on the last segment

**B** Bobby 1:26:51  
you never know I never know that okay, now that you know

**R** Roy McCarthy 1:27:03  
keep keep listening to after hours roundtable in the news interviews news magazine because we will keep you up to date on this never know

**C**

1:27:11

what's gonna go on your medical facilities by sometime in June I believe.

B

Bobby 1:27:16

Yeah. Back to the to the MBBS. By people leaving here in the we have, I guess, well, hello, smiley. He sent us a long letter with all kinds of information. And then for actually there's little bits of stuff for all of us. He said to me, he's just he's simply said Happy spirits friend to Jimmy. Jimmy it's I just plan to love you. And that's we

R

Roy McCarthy 1:27:57

I'm sorry, what he to Jimmy

B

Bobby 1:27:59

he says I just plan to love you in next week to Joseph. Hope is hope Josef's new boyfriend doesn't take this personally. But you pump me I pump you. I don't want to know, Roy, I

C

Chris Harrison 1:28:18

wish we should send our condolences to Joseph's boyfriend because this was first time showing up here. And we were actually tame.

B

Bobby 1:28:32

To Chris it says what? You You got your letter? I have no idea.

C

Chris Harrison 1:28:38

Well, I do get a letter. So now I just have to start writing back. Oh,

B

Bobby 1:28:42

and to anyone else, just in case there was anybody else? How big when and where? Let's see. I don't want to know where that came from. But yeah, that it's just this very long or that he really knows how to conserve paper. Both sides. I mean, he just rip kudos to Robert because Robert you know knows how to write people back. Robert actually writes people back that's a good thing because you know if they wait for me to write back. Yeah, that's not going to happen. I'm not good with that. Here and all I'm gonna say about this part about Tigger is ticker seems to be a very popular nickname. There's a lot of them out there.

1:29:46

The name the name always bounces around somewhere.

B

Bobby 1:29:50

Still looking for. He's looking for a letter from Stacey I assume the that means he have the tattoos and The neighbor to Jimmy. I wonder how he's doing. We haven't seen him in a couple of weeks. But anyhow, so yeah, thank you smiley for your letter. And we will send whatever messages to whoever. And we can transfer to tell the people who aren't here tonight to hear the things you said to them. All the nice stuff he said. And

R

Roy McCarthy 1:30:25

I want to give a shout out to David. We got your letter, David, this is big Roy. No, I was not here last week.

B

Bobby 1:30:35

I did not read your letter. He was unconscious.

R

Roy McCarthy 1:30:39

I was not accurate. I will. That's not quite true. I was here for the very early part of the show. But

B

Bobby 1:30:45

because he was unconscious, but quite unconscious,

R

Roy McCarthy 1:30:49

I was. I was just two ways. I was just too tired. I had been working a lot. And before the first segment of the show was even over. I was already unconscious at home nug as a bug in my rug over bed, and I left my glasses.

B

Bobby 1:31:07

The only difference really was he was he was unconscious while he was here. It's just that at home when he was talking he was only talking to himself.

 Jimmy Carper 1:31:18  
David Teddy wasn't mad, but it's gonna cost him a letter.

 1:31:23  
So Matt, yeah, no. David is a cool guy. He is.

 Roy McCarthy 1:31:30  
He were a very good letter he, he really looks forward to hearing from us, he says, was all our clowning around and everything makes him really happy. He looks forward to Saturday night. And he was mentioning about how I guess. Bobby here did a new segment about that place out there in Kentucky or Tennessee. That was the band go Yeah.

 Chris Harrison 1:31:51  
Oh, it was backpedaled on it now. Yeah, yeah, they

 1:31:55  
have to. Anyways, that

 Bobby 1:31:57  
was most entertaining. Anyways,

 Roy McCarthy 1:31:59  
he says I lived in Kentucky from 1968 to 84.

 Bobby 1:32:04  
Where Sorry.

 Jimmy Carper 1:32:07  
No know some of those Kentucky boys.

 Roy McCarthy 1:32:12

That he gave us a redneck letter. And this is really something because I'm gonna read it exactly as it was written. Okay. And it goes like this. Dear Billy Bob. Joe. Dear Billy Joe, Bob. Now this is this. Make Believe fun letter.

Chris Harrison 1:32:28

He's made a mistake already. It may be like Joe, Jim Bob. And it

Roy McCarthy 1:32:32

says make dear Billy Joe, Bob. I'm writing this slow because I know you can't read fast. We don't live. We don't live where we used to when you left home. Your power I read in the paper that most accidents happened within 20 miles of your home. So we moved. I won't, I won't be able to send the address. Because the last time we that lizard took the house numbers with them, so they wouldn't have to change the address. The place is really nice. And even has a washing machine. I'm not sure it works so well. I put a load of closing and pull the chain and we haven't seen them since the weather isn't bad here. It only rained twice last week, the first time for three days and the second time. Now about that coat. You wanted me to send your uncle Baba about the code you want me to send you your uncle Baba says it wouldn't be too heavy to mail it with the buttons on. So we cut them off and put them into pockets. Baba locked his keys in the car yesterday. We were really worried because it took him two hours to get me and pop out. Your sister had a baby this morning. But I haven't found out what it is yet. So I don't know. If you're an aunt or an uncle. The baby looks just like your brother. Uncle Bobby Ray, whiskey bat last week. Someone tried to pull him out. But he fought them off and drowned. We had to cremate him. He burned for three days. Three of your friends went off to bring in a pickup truck. Butch was driving. He rolled down the window and swam the safety. Your other friends were in the back. They drowned because they couldn't get the tailgate down. Sign your favorite on where you may be really good. Yeah.

Bobby 1:34:51

It's an MVP classic, right?

Roy McCarthy 1:34:52

This is a special one. Gotta go with the special stuff. You bet. And he's also sent us a plethora About a news articles about gay marriages and the young lesbian

Jimmy Carper 1:35:05

Minister minister and that was a weird thing. I mean, she She already said she was a lesbian. And they they acquitted her because they didn't want to have enough information they didn't have.

Chris Harrison 1:35:22

He also sent in a clipping about a lesbian. She was admitting it what they heard was she was a lesbian. And they says, well, that's not illegal.

Bobby 1:35:34

Yeah, I was just thinking as he read that Redneck letter, you know, there's a whole, like, slew of redneck pagan jokes. Oh, I'll bet some of my favorites being like, you might be a redneck pagan. If you know. Yeah, you're you're at the May. Has Ron co written on the handle? If the pentacle around your neck is the hood ornament to a Chrysler, I might be a redneck pagan.

1:36:03

That's a good idea. This.

Jimmy Carper 1:36:07

David sent me a great letter to and I just love the way he did my name, Jimmy. It's kind of in that kind of shadow thing. That's really

Roy McCarthy 1:36:14

cool. Yeah, same thing. Yeah. The front of our, of the letter to the station already wrote 90.1 Kpf. Yeah, yeah, that's great. And we brought my thank you, David. Thank you.

Jimmy Carper 1:36:27

Why didn't you bring your letter in from David? Well, I

Chris Harrison 1:36:29

was trying to drive in from Beaumont this evening. Oh, you have an opportunity to stop the house to pick it up. Gotcha. David, the last thing in the world you have to worry about is offending me. Yeah, like the love loyalty and friendship that you drew on the front of my envelope? I did get your letter.

Jimmy Carper 1:36:49

And Robert, very nice guy and I have pictures to prove it. And Robert, you're not gonna get I'm still waiting?

**C** Chris Harrison 1:37:00  
Oh, come on. Jimmy. Didn't you get them plastic wrap there for safety? or shrink? Wrap something about lamination. Right. You know, I wasn't going to

**B** Bobby 1:37:08  
but you know,

**C** Chris Harrison 1:37:11  
a DustBuster to remove the dust off.

**R** Roy McCarthy 1:37:15  
David, David, this big brother sent me one sent me a pitch.

**B** Bobby 1:37:19  
But it's difficult. It's difficult to see the pictures through latex.

**C** Chris Harrison 1:37:34  
Okay, I guess I have the other letters in here. We've got a I believe he's a new, a new writer Ray Ray, who has written in and try to get in touch with Michael or promotions head here. It's on the after hours. He had a lot of comments, sir, about the East Coast Conference. He caught the last part about it. And yeah, it was deuced from Oklahoma. For a really nice guy got to meet on there. And it was I mean, it was a lot of stuff we were talking about there is stuff you wouldn't think about. And some of the, I mean, just even being a big guy, you don't think of some of the stuff or what we're watching other guys might go through. And when we when we got into the gay marriage debate, I was really upset that we didn't I didn't start that earlier. And I mean, to be honest, I wasn't I wasn't planning on going into it with a, a debate with gay marriage a discussion on it. But then finding out about the one kid born person who was there who had the San Francisco marriage certificate. And it's like, okay, you're definitely coming on the show. And we're definitely gonna be talking about because I mean to have somebody who actually has gotten the certificate and is going through that was just too good to pass up. And then the debate just went on from there and it was I still have dragons for people from two of the three who were involved in the debate are here in Houston. So we may have to follow through on some of that, but it was a different way of looking at it and all that so we've got like so we got a new listener here Ray Ray.

**R** Roy McCarthy 1:39:27  
Who welcome we like you.

Chris Harrison 1:39:30

Oh, yes, we're always looking forward for new listeners. And and

Roy McCarthy 1:39:34

I believe in the letter rorate said that he wanted to let us know up front straight up that he was a straight guy but enjoy the show. Thank you like our street

Chris Harrison 1:39:50

they haven't perfected cloning yet so we still need the breeders because someone deny this Ain't meant,

1:40:01

well, I can fit feet of me running around and it's just not a good thing.

Jimmy Carper 1:40:07

I'm reminded of something that came out on Lone Star activists about the word breeder. I mean, I use it a lot too. But, you know, we have a lot of straight friends who are our friends. And and breeder is a lot on the derogatory sides. I mean, it's great people do more than just breed. They do.

Chris Harrison 1:40:27

Well, you know, for certain classifications, when we talk about certain things on that, I think it's an appropriate term because you know, when we get these right wing nuts out there
