or classifications, anything that when we talk about certain things on that, I think is an appropriate term because, you know, when we get these right wing nuts out there, I start making the comments and all they look at us about is sex xx xx? Yeah, yes, we're yes, we're classified by sex but you know, it's not all about sex. No, it is. So basically when it comes back when we're talking about people like that, then you know, breeder is a proper term. Okay. No, but you know, there's I mean, there's so many different ways. I mean, we look at the word queer. We've got so much discussion in our community of, you know, queer. I mean, how acceptable is clear that we've got programming like course fo we've got Queer Eye for the Straight Guy. Still some people, and it's my job tonight, I've been hacking up along the

 00:46

one straight, or something like this. Yeah. Straight. gay

 Chris Harrison 00:50

man. Yeah, well, there's Yeah, straight plan for the game. Yeah, there was there. Clear radio with attitude. Us. The fact is, we're, unfortunately, you know, we look at sometimes that words are just words, but you know, words can hurt sometimes to some people, as much as sticks and stones, and two by fours and

 Jimmy Carper 01:09

pipes. And that's what we use the word queer because it has been used against us all our lives, as well. So we're reclaiming

R Roy McCarthy 01:17

it. But it's also how I would use in the content that I read, I hate doing the race card here, but black folks call each other Edward all

C Chris Harrison 01:34

in that certain situation, that they're trying to use it as an empowerment. And, unfortunately, it's gotten really derogatory in some instances, and there's a lot of people who are in the more than mainstream African American community that do have an issue with a liberal, you

R Roy McCarthy 01:49

know, it's not only empowerment, but actually a lot a lot of times that use as, as a bit of an infection type way, the way we will call it you kind of don't know how many times I've been called faggot in a queer. But every time said it wasn't. It wasn't a very affectionate and friendly and very warm, I'm sure. The

♂ 02:13

best possible way. Well, as far as the bottom as far as the black community, the inward is actually it's not pronounced the exact same way. No, it is the difference of and they blamed it as in a different way. I have a lot of black friends and they, you know, pointed that out to me because you know, the difference between an error and and ah, yeah,

J Jimmy Carper 02:38

yeah, that's that's a good point. I hadn't realized that. It

♂ 02:41

said differently so that that way they can it's like a new word. Yes. It creates a new word and gets puts it in different terms. Yeah.

B Bobby 02:50

Hey, me and my best friend are always going to whenever we have to park in a space at a supermarket or something. Yeah, we refer to that little blue spot is the GIMP spot. I know when we use the word we use the we is one of those words. It's like and you know, and back on that whole cloning thing we tipped on earlier. There do not need to be 15 of me in the same room. Our heads would be knocking together every time we tried to pass each other

R Roy McCarthy 03:23

— they know we get all the good all walking.

 C Chris Harrison 03:27

Yeah, Bobby, but look at this way with 50 of them. You may have enough to be enough spare parts for one. Yeah.

 J Jimmy Carper 03:34

Well, listen, you know, I don't want 15 with me, that's too much competition. And I don't get enough as it is not

 B Bobby 03:40

to mention the fact that 15 of you in the same room. That this that that tone you get in your voice when you're saying certain phrases. Yes. You can probably shattered glass with 15 of you in the same room at 30. That's the one that's the one. I love that. I love that. It's a classic and

 R Roy McCarthy 04:06

15 of me we wouldn't be able to have a roundtable it

 04:11

is a round

 B Bobby 04:13

table will darlin What are you talking about?

 C Chris Harrison 04:17

Music and regrew. 15 of Roy I have to pull down all the microphones. Pull down the ones and just there that ours is when you want me to play it, it'd

 R Roy McCarthy 04:27

be the hole. We gotta go number two.

 C Chris Harrison 04:31

Yes, we're gonna go to number two.

 **Bobby** 04:32

It'd be like, coming back.

 **Chris Harrison** 04:36

All right, you guys. Stop losing your mics be sure

 04:38

it's front to back

 **Chris Harrison** 04:55

perfect for David. Okay, that was a peppy little tune. And what was that? Haven't? Yes, your mics aren't on yet

 05:02

your resident librarian here. It's called intrigued Marian. It's by John Foster. And it's off the Dr. Demento 25th Anniversary Collection The Greatest Hits number two, the second series of it.

 **Chris Harrison** 05:19

Okay, you got it.

 **Bobby** 05:20

We used to play that to death when I worked for a comic book stores were,

 **Roy McCarthy** 05:24

we find that

 05:28

I found in our archives being that I work in the library there and take care of all that school.

R Roy McCarthy 05:32

I really enjoy the library and the library. Don't

C Chris Harrison 05:38

go play with your Dewey Decimal.

05:42

We don't use that we use colors and everything else.

C Chris Harrison 05:45

Okay, we're back into the after hours round table. You're listening to KPFT 90.1 FM at the top of the hour. Yeah, Roy. I know the only thing you're gonna get rubbed is yourself here tonight but

B Bobby 05:59

some skin lotion you sound like sandpaper here.

C Chris Harrison 06:01

Coming at the top of the Rasta man vibrations. We're gonna go into some of the news of the day and we're going to be talking about gay marriage. So

R Roy McCarthy 06:12

shall we? Yeah, divorce.

C Chris Harrison 06:15

Either two people people think that you and I are a couple the way we argue and fight back and forth.

R Roy McCarthy 06:21

I know we're not the fringe benefits even you just love to hate each other. I do have. I do have a very important

C

Chris Harrison 06:30

I doubt it. I'll try it was

R

Roy McCarthy 06:31

request from my boss at work. He wanted me to make this announcement tonight that there is a \$22,000 \$22,500 reward given for the arrest any information leading to the arrest and conviction of this person who is going around rice village. Shooting people just for the heck of it is not robbing anybody. He shot and killed a lady and he's shot and killed someone. I mean, he shot and wounded another lady in the village arcade on the second level of the parking garage. If anybody has any information, call crimestoppers at 713222 tip is your identity will remain anonymous. The total reward from all different agencies and stuff is now up to \$22,500. That's a lot of cheeseburgers. And

♂

07:26

the sad thing is,

♂

07:28

I was right up the street where that

R

Roy McCarthy 07:31

college instructor was shot. I work in a place where

B

Bobby 07:36

which made it into the voice of the voice when she was she family. You know what? I don't know. I didn't read the whole

♂

07:45

thing. Just Wednesday I was at a standard friend of mine how mine mines house so you get correct lien English here.

B

Bobby 07:55

30 Honey, yeah. English. Sorry.

07:58

I said English. I had to mess up on it because I messed up on your right. But I was sitting there and we were playing a game and not like you think but we were playing again. And all of a sudden we heard one shot and then I hit the floor. And of course everybody else is standing up staring at the wall. And we hear like four more and then another one in a car spin off. And I'm like y'all are crazy. Y'all just stayed standing up. Y'all are so stupid, you know, it's

Bobby 08:24

doing their best impression of Anwar Sadat.

Roy McCarthy 08:29

You know, the thing is that when these things come down, it's such a shock to people. They don't realize what has happened until after it's happened. Yeah, shoot. I

08:37

heard the first one I was on the floor. Like I am not getting shot.

Roy McCarthy 08:42

HP according to HPD to bolt the ballistics has proven that both incidents to one at bissonnet and Kirby and the other one at the village arcade. Where I work was from the same weapon.

Bobby 08:56

No, yeah. And usually the fastest way to get a roomful of gay men to hit the floor is you know, the sound of a condom wrapper opening my wrapper so, sorry, had

C Chris Harrison 09:16

you been hanging around us too

Bobby 09:17

much? Too long. What is it five, six years now?

C Chris Harrison 09:23

Okay, well, let's, before we get into our gay marriage debate, let's get the cute let's get the

cutesy thing out of the way here. See ya. Turn down your mics a little bit so I don't hear Roy breathing. Chris's. We've got to stop that breathing. Roy. We just have to write

B Bobby 09:38

but you know, it's like.

C Chris Harrison 09:40

So this was a article that came out called I'll be damned. That's A I S L E. My Gene Weingarten. I think we can all agree our president with our president that gay marriage is a grave threat to America because if it weren't, our president would not have this issue to flog and my didn't lose the election. And then who would protect us from the being murdered by those poorly shaven individuals from Middle Eastern nations? No way that can't be right. The reason gay marriage has grave threat to America must be that if we let gay people marry, the entire household institution of marriage will be disgraced. No one will take marriage seriously anymore. Pretty soon the American divorce rate will start approaching 50%. And the sanctity of the whole process will be a compromised, with popstars getting drunk, married and an old all on the same weekend. And then before you know it, people will take marriage so casually that romance and passion themselves will erode. Couples will no longer care about how they look to each other. And America will become a nation of people waddling around with keister as the size, texture and viability of weather balloons. Oh, wait. Well, that's not why anyway, the argument against legalizing gay marriage must be the same argument is against legalizing drugs. If you legalize gay marriage, everybody will want to do it. Clearly we all have these massive pent up homosexual urges waiting to erupt once we get get the giddy up go ahead from the government. George Bush and Dick Cheney may take up residence together in a simple, darling. Crystal Silver Crystal City duplex if gays were allowed to get married guys like me, we'll have to start looking at our wives and thinking wait a minute. I have to sell it for this week. little squeaky voice thong wearing thing when Sylvester Stallone is available? He is oh wait. Actually, I guess the real reason to oppose gay marriage is because God is opposed to it. as certified by Leviticus 2013. Because this is an actual book of the Bible. We must obey everything it says literally, which is why Bill Cosby, Newt Gingrich, Albert Einstein, and Bill Clinton have all been put to death for adultery, that prescribe punishment according to Leviticus 2010 Or what anyone who shaves his head Leviticus 21 Five, or wears clothing made of both from wool and linen together Leviticus 1919 Preachers more marries a divorced divorced woman, Leviticus 21. Seven has been publicly condemned as a sinner, or why any married couple that has sex when the woman is menstruating, has been has been banished from the civilized society and left to wander the earth Leviticus 2018. Well, maybe not. But perhaps the best argument for why gay marriage is a grave threat to America is historical. Historically, when a society begins to condone decadence and less suited to this, it collapses like a souffle in an earthquake. The nations that survive and prosper and become world powers are the ones that adhere to strict moral codes like Yemen, Djibouti montemar, and that one with all the goats. Okay, I confess I don't really understand why anyone gives a fig about this issue. But I'm sure our president knows best by virtue of his superior brain and his Doctor of psychology degree. If he says that it requires a constitutional amendment to rectify this grievous error, then I buy gum, I'm all for it. I've been looking at the Constitution, actually. And I have to admit that an anti gay marriage amendment would fit just right in, you'd hardly know it was there. You can even add it to an existing amendment. For example, the Eighth Amendment, excessive bail shall not be required nor excessive fines imposed nor cruel and unusual punishments inflicted? Also, how about we

had this ixnay on the OMOs Hey. But if we do follow this, this path, we really ought to consider another constitutional amendment drawing not from the same intense desire to improve our society, but from increasing but from our increasing willingness to invoke the deity to do so. proposed amendment. 28 Yeah, gobblers, right. It shall be unlawful to use the US Constitution as a plaything for police for the politically self righteous, violators should go to hell. And this article appeared in The Washington Post.

 Roy McCarthy 14:13

No way.

 Chris Harrison 14:14

You can send comments to Weingarten that's w e i n, G, A R t e n, at Wash posts.com. That was a article that was written in The Washington Post.

 14:29

That's cute.

 Roy McCarthy 14:30

I like it.

 Chris Harrison 14:31

I mean, we've talked so much about gay marriage, and you know, it's, it's one of those things, you know, you hear it over and over another city or another county is going, you know, we're gonna do it. The hell with it. Let's give it a try, like deal with it. And it's just amazing of where it's coming from. In fact, you know, it's really not our community that's pushing it. It's basically you know, this is a way for for W to get more prophets there. I'm going against the queers. I'm fighting the gays and give me money. And we'll continue on the struggle. But I

 Roy McCarthy 15:08

think it was all I think was accurate a smokescreen to cover up what a lousy job he's done on the economy. And what happened out there? What's going on out in Iraq? And everything? I mean, he's just screwed every

 Bobby 15:22

night. Most of the mayors who have been giving us that. Yeah, that privilege. You know, most all, but one is our, you know, our straight right people.

C

Chris Harrison 15:33

They're straight. Because looking at Yeah, hello. After seeing the mayor in that New York, small little New York Village, I'm ready to go green. I like that. I like their platform already. Just seeing him.

B

Bobby 15:50

You'd like to get him on a platform.

C

Chris Harrison 15:55

When we're talking about the MBBS I need to sort this out here. I finally did get your letter and I started reading through it. And I'll have to get back to you. Just in case you're listening. Yeah, I've just had to read through the letter there. It's it's been a little crazy. week for me. It's the crown. It went to my head. Oh, boy. Yeah, I did. Like I promise I walked in with that.

B

Bobby 16:18

Give him that was your earlier give him a little power.

R

Roy McCarthy 16:26

He was gonna walk in. No way. You're gonna do that. And he just wait and see.

B

Bobby 16:31

crowning moment. So I have one new news item or a new item news item. Yeah. Where news item, the church jury acquits gay Methodist pastor. Along that whole thing with the Bible and stuff that we were just momentarily and then the a lesbian Methodist pastor was acquitted Saturday in a church trial over her sexual orientation, and will be allowed to continue her ministry. This is in Bethel, Washington, wherever that is, it took them 10 hours of deliberation. A jury of 13 pastors ruled in her favor. Karen diamond for age 47. Now, who did she disclose three years ago? Boy, it took him a long time to get around to giving a grief about it, didn't it? Three years ago, she told people she was good, too, and only out of all of them. There were all 11 of the pastors found her not guilty. Only two were undecided. So that you know yeah, there's there's that idea that some of the religious you know, side of the world, the straight religious side of the world is willing to ease up on things. That's a good thing. The

C

Chris Harrison 17:52

method is having one that's a little more affirming and a little more friendly on on the side for

us. We're not talking about Catholic we're not talking about Baptist, Methodist, which is a little a little more lacks, but I'll admit I don't know much about it. I was

 **Bobby 18:08**

the the apparently the the spouse of this minister said she called their five year old son after the verdict and shouted mommy one, which I love. I love that. I had to read that part. That was just too cute. That's like mama, one I love the reason why it's taking so long to come around is she comes out to her congregation because the Church takes forever to get around.

 **18:35**

She told a bishop not too long ago. And he's the one that took it to the rest of the church. And that's why they election. Exactly.

 **Bobby 18:42**

The end anyhow. So yeah, yeah, they are the they are one of the denominations that is a little more open minded on the subject. So you know, there's hope yet

 **Roy McCarthy 18:53**

no getting along the lines of the church and gay folks. Robert was telling me earlier tonight, how's that? Lou Shelton? Felt Fred Phelps is going to be protesting.

 **Chris Harrison 19:08**

I know when he told you okay, you

 **Roy McCarthy 19:09**

somebody told me that? Yes.

 **Chris Harrison 19:10**

Fred Phelps. And I had one of those momentary weaknesses. You know, I decided, you know, I was feeling too good about myself. And so I decided to click over to God hates fags.com And he's going to be protesting at Martha Stewart's sentencing hearing next month. Unfortunately, I because I don't I don't think I can access it here because I don't think this has got Acrobat on this storage would God go? You know what, actually, I think what got me started with doing this is someone gave me a link to a site called God hates shrimp.com. Because in the Bible just before it says God hates facts, it says God hates shrimp. What I loved about it was They found a church sign generator. You type in what you want and it puts it on this church sign. So it was

like I saw I sent one to Jimmy. They're like First Baptist Church and it says, After Hours quit radio with attitude. I did one for with ECC that I sent to the president of the club and it said, welcome guests to Vcc oh four don't do anything that we that we'd have to condemn. And he forwarded on to some other people and they thought it was real.

20:35

It was like oh, it was it started out with something that says on about gospel stuff ahead. A warning sign

c Chris Harrison 20:41

Yeah, got the God Hates Fags website. I just I mean, you know, if you if it wasn't so sad it's one of those things that you know, you can almost take with a grain of salt. But the way he writes on some of this, I mean WBC to pick it the god hating Denver County District chage in Denver, sodomite whorehouses masquerading as churches to pick up the the ungrateful city of Rogers, Arkansas and the professed governmental and spiritual leaders for testifying in the matter of Jesse Durscher. King. What's that? name right. What?

R Roy McCarthy 21:26

The Dirt?

c Chris Harrison 21:28

Dirt? Dirt kissing? I'm sorry, under casing. Yeah, he talks. There's a lot of talk on his website about Jessie Durka Singh was a 13 year old who was killed by two men and sexually assaulted and unforced and so he uses this as part of the argument in there. Yeah, on his website, and also at his location, he does fly the American flag upside down. Which is which is considered an international sign of distress.

22:10

You know, all this stuff reminds me those people that stand downtown Houston right from the City Hall.

c Chris Harrison 22:14

This is this is all generated nothing but hate. Yeah, I mean, this this guy out here. He's got a game on here even that the inherited fags versus kids.

R Roy McCarthy 22:30

Oh, God

∅

22:32

said a Nazi sign. Yeah. Oh, my God.

C

Chris Harrison 22:39

So it's, it's, yeah, if it wasn't one of the things that you that was so sad. That it'd be almost laughable, it would be almost laughable.

B

Bobby 22:50

But you know, judging from that story we heard earlier, when the hash kids were here filled that young man, you know, the world is still full of all kinds of hate, but she can find it and massacre and in some cases, it's masquerading as love. So I don't want to bother anybody with details. But when the resident pagan has to tell you that the Bible says God is love. And if God is loved, and the word God cannot and hate anything.

C

Chris Harrison 23:27

Now, unfortunately, that's that's kind of where we, we get with some of the stuff there. And we you know, it's kind of that we got off on the topic we're talking about, you know, a little bit of good news coming out of one of the churches and we kind of went off on the downside of what is with our community that we've got with from the religious side. Let's see here.

R

Roy McCarthy 23:54

Let's get them most of our opposition and resistance to most deaths where most of it originates.

B

Bobby 24:02

The good news is someday, Fred Phelps will leave this planet. This earthly coil. The bad news is, there will probably be somebody there to replace him. Yeah, probably

C

Chris Harrison 24:11

to his son slash, let's see the way he by his organization probably runs his son is probably also his brother. So his son slash son is son slash father slash uncle that he had with his aunt grandmother.

24:36

Song for that.

Bobby 24:39

mother tells me I'm a great boyfriend,

24:42

grandpa. That's somewhere around here. Yeah,

Bobby 24:47

we've got enough of those times we can dish it out just as well as we take these people trying

Chris Harrison 24:54

to look through here quick and see about if there's any other stories on here. But you know, we're talking about with the Gay marriage. We're in the news a lot here lately. And you know, some of us goes home, it's bad. Some of its gonna be indifferent. But you know, it's one of things you got to we got to keep our head about with all the other stuff. We have any other news story on their Sunday stretch? Or do I need to find something else for us to talk here?

Bobby 25:19

I just think it's interesting that yes, we we, as a community are fought. We are almost to the point. That yes, there are always people who hate us and want to give us grief and whatever. But we are finally to the point where there's a whole bunch of people who just don't care, it's like, we are just to do a bunch of them. We are just like everybody else. And that is not something that could be said nearly as much say 2030 years ago. Or, you know, or longer. I mean, it's just, we are we're finally getting to a point where people, there are large groups of people who just see us as just like everyone else, except for that one detail that they have no. The which they don't want to talk about because they don't want to talk about their own bedrooms. Why would they want to talk about ours?

26:16

Plus, no one likes to talk about what they have no understanding of.

Bobby 26:20

Although they're there, there's a whole bunch of people who spend their time talking about

things they have no understanding of, it's like those people who protest books that they've never read. When they went on the Harry when Harry Potter first, you know, there was that tirade of you know, people wanted to burn books and stuff, and two thirds of the people who wanted to do that had never opened the book and read it. You know, okay,

 C Chris Harrison 26:45

here's an interesting story we can talk about with gay marriage. Okay, here we go. A 25 year old Indian man has married his 80 year old grandmother

 B Bobby 26:56

was going because Arkansas thing and have gone because he

 C Chris Harrison 26:59

wanted to take care of her. Quote, I felt she needed extra care. She is old. I can look after her better as her husband, then as her as her grandson.

 B Bobby 27:11

So I saw that earlier the I've seen that story. And you know that I want to know under what basis he can take care of her better as her husband. I wonder what the laws say there as far as taking care

 C Chris Harrison 27:26

of well, this is the same one that the same part here or last June, a nine year old Indian girl was married to a dog near Calcutta. A priest told her the parents that the wedding would ward off evil. I

 B Bobby 27:37

was married to a dog once but he only had two legs, anyhow. Oh,

 C Chris Harrison 27:42

yeah. It's just you have to raise your hand. Well, this was going on so well. Oh, so raise your hand if you're whipping it out since everyone's attention. Do

 27:54

you have a quick opinion about the whole guy marrying his grandmother? Personal I think it's just more return on your income tax.

 Chris Harrison 28:03

They have that in Oh, here we go. Okay, hold on. You know, we forgot to talk about this. We have a rabbit when we're on the last story. cage fighter bitch slapped by Richard Simmons least cited fitness guru on suspicion of assault Wednesday night after he reportedly slapped an ultimate cage fighter across the face inside Sky Harbor International Airport.

 Bobby 28:27

He was wearing white after Labor Day he was the other Simmons

Felice and he made a comment something to the effect of hey, look, everybody, it's Richard Simmons, why don't you drop your stuff and start dancing to the oldies? Okay, I'm Devon's approached him and said you shouldn't make fun of people who have issues then slapped him. You shouldn't.

 29:01

And he still standing 50 just admitted to having issues

 Bobby 29:05

shouldn't slap people who outweigh them by 200 pounds. Okay, bad idea. Okay,

 Chris Harrison 29:12

we've got to wrap up here. We were coming now dangerously close to the end of this edition of after hours queer radio with attitude, which you're hearing on Pacifica radio for the Gulf Coast.
