have uniforms

00:06

okay, there's more than one microphone. I'm gonna move my full name that makes me sad. Okay, this one good deal.

00:21

Okay, you get it everyone here knows that they can't interrupt me it will die instantly. I won't be able to sit on your lap anymore. No. Anyway okay, so

00:32

anyway like I was saying

00:37

I know actually the Astros my paper coming out story was a little more dramatic. Oh not only that coming out but the events it immediately followed I think Colleen has heard about this and maybe sometimes in group anyway my first girlfriend I decided to kind of explore different things and my first partner female partner killed herself she committed suicide so it was kind of a downfall to have your first girlfriend commit suicide but you know still that's what I you know who I wanted to be with so I continue dating women obviously. Now then I'm coming out was an interesting thing because between eighth and ninth grade I was a fairly well known speaker for the extreme right wing Christian cause for Jesus my friend good it's ironic because that

seems since then, I like a ninth grade I went to a certain high school and or figuring out to the name of it. Anyway, I went to report high school and they had a gay straight alliance there and I was like, okay, not gonna join the X and we're not gay, because like I wasn't open even to myself. So yeah, that happened to join the GSA didn't ya?

02:08

may as well not be there.

02:09

Anyway. So now that Travis is gonna get his butt kicked? No, actually he would like that way too much. Is

02:19

there several GSA almost entirely of straight people what does it but just what do the majority of people think about that straight people it's horrible. People just brand you if you join a gay straight alliances as a homo is horrible. I'm not saying it's right. I'm just saying it happens.

02:35

I'm gonna finish my story disappear after me. blonde woman anyway. Okay, so after I decided officially towards myself, I was dealing with some things with the church because I was almost being annihilated by a number of people. So it's kind of depressing. That I decided to have my first girlfriend and then that kind of went down during. So I continued dating other people. And then my best friend was okay. I have a lot of older people. And my best was an older woman. And she was just a really good friend of mine. She was also someone who I knew through a number of people. I'm not going to say exactly how for legal purposes, but nonetheless, Travis stop living that handed me anyway. Yeah, so I over the next year, kind of like started getting into listening to Melissa afterwards a lot.

03:45

Honestly, if you were gonna be listening, and you were gonna do it, right.

03:50

It's like most of the average gay and Ginny. Yeah, she's only the guest icon. No, no, I'm just kidding. No, but she's she's definitely like

03:59

Elton John. I mean, Melissa Etheridge,

04:01

her wife is right there. Yeah,

04:03

dog anyway.

04:06

Yeah, when I was coming out, I decided to go through that whole phase of like finding out who I was and wasn't too much saturation. Tattoo, man. Okay, I cried. Oh, have you seen them for like live just like guys gotta stick to it. So um, I came out and I decided I heard heard about the I had moved schools for my 10th grade going out to Clear Lake and I heard about a good alliance that they were getting started there that year, there might have been a class so us. So the president of that I became really kind of good friends with and she and I kind of led that kind of like took upon ourselves to lead it. So I got involved with that, and then I'd heard about hash, not gonna go. So then finally like a year later, over later, I'm going to Clear Creek High School now and I started me and two of the girls started the GSA there. And we have led it since then. Anyway. So now I'm a part of hatch and the GSA and all that. So my coming out was just kind of weird because my coming out was because of GSA and a GSA workshop that I went to with this girl from Lake. So it was kind of interesting because like, I came home one day from the GSA workshop, and I was like, Hey, Mom, I've had I'm getting the opportunity to go to I think it was like New Mexico or Arizona to do a leadership training. If I you know, get elected or get selected to go so can I go she's like, No, they're gonna make you a prostitute and steal you. Sounds like no mom or not. And it's kind of funny. So that's kind of why the music kind of came out to her but her stepsisters gay all says she didn't really care. But the my dad, like eventually found out like I was showing him an article on President Bush. And he automatically saw the Massachusetts approves gay marriage, which I think is funny because my dad's kind of stereotypically gay. Honestly, I

06:17

don't see your daddy a queen.

06:18

I think he's called it and I don't really know. Okay. Oh, honestly, his favorite thing to wear. Okay, you know what his favorite thing to wear or see on anyone is purple sequins. So you know what? That's what

06:35

00:55

my father gay. I'm gonna guess. Yes.

06:39

I liked the purpose. All hands raised.

06:44

Anyway, hold on, hold on there stereotypes. And then there's purple sequence. Okay. Okay.

06:52

Anyway, so yeah, I can't. Yeah, well, but anyway, they were pretty accepting. And since then, they've just been like, you know, whatever, do what you have to do to be

07:03

happy. And she's converted her sister to set up

07:07

my searches by Shahnawaz man. I don't even know. Anyway, okay, so I'm going to finish off because I'm getting a hand which is rude.

07:23

I guess first of all on the trends of the group the trans. I was from a very opinionated, small town, Santa Fe, Texas, and good luck. Yeah. Basically, the most racist place on the face of the planet and homosexuality or anything close to that was never accepted. And that was not pretty, but Oh, no. Like, the whole GLBT thing basically runs in my family. My grandfather was the first AIDS patient in Galveston, my aunt, my, you know, just everybody. After about a lot of drama of 10 years of drama, we moved to Houston and junior high of all places that summer camp, church camp. I had met this girl and I thought she was really nice and started talking to her and stuff. And I realized one night laying in bed that oh my god, something's wrong with me. And being being raised as you know, a Christian and being told that homosexuality is wrong, and you will burn and go to Hell and die forever. Scary. Right. And I don't know, it just it was like, it wasn't really that great. And I was accused of being gay before I even know it. And it wasn't too nice. Well, you know, to make it short all my life I've exactly wasn't the favorite kid had the attitude nobody liked me didn't have any friends. always tried to be somebody that I wasn't and got to high school and I was like, you know, it's my second chance. You know what, I'm just gonna be myself and if people don't like it, that's their own problem. And the people people I met this girl and I was like, I met this girl and I was like, alright, she's really hot you know? And she's kind of iffy but I'm not going to ask and over a period of I guess about a

weekend and a lots of hinting and close she finally got it and just was like, Alright, just just tell me you like me, don't you? Yeah. So after about two months of dating, my mom finally got the clue of why I was getting up at five o'clock in the morning emailing and on the phone with her at all wee hours of the night and I was in order to stay one night and porn, right? I wasn't with you. I wasn't one I'd after a color guard thing for a football game. My mom took me out to eat. And we were sitting there and just had the most random conversation. And she just kept asking me these questions, and we were conversing back and forth. And eventually she asked me this question of how do I say it? What are you? Well? Well, I said something about Whoa, you know, what, if you feel this way about a certain person, she just randomly asked me, So is that how you feel about? so and so? And I was like, yeah, so it was kind of interesting. So there's no point denying Yeah,

10:38

exactly. This is my, one of my favorite co workers, best friends. So I know all about this story.

10:48

But it was pretty interesting. And, you know, it runs in the family, my cousins is also transgendered. And I don't know, everybody basically knew that it was obvious that I was a little tomboy, played every sport possible on the, you know, in the book, and everybody basically knew before I did, so, I've been out for what, three, four years now, and it's gotten better. And I've actually taken Oh, it's taken stages that, you know, at first you think you're just buying, like, you know, whatever, and then clearly figured out that you're gay. And I'm like, Well, you know, wait, I'm not gay. That's not how I feel. I don't like being called a dyke. I hate being called a lesbian, because that's not what I am. And I didn't understand what I was. And then over the past year or so, I was watching Oprah.

11:43

But, um, there was a show on there, you know, with some girl named Jenny or guy who turned into a man, a female and a bunch of kids who are just, you know, telling their stories about you know, this word that I had never heard before. And I watched the show and after all the descriptions of what you know, being transgendered or transsexual was, I was like, wow, okay, so now understand what I am because you know, that's that's me and I took on the whole full image, I guess. But a year and a half ago, and I get mistaken for a guy all the time but just kind of the point Yeah. Just a tad just a tad bit.

12:27

It wasn't Jerry Springer. It's how I learned what I that's

12:30

my trailer trash live in a trailer but I'm not trash. But yeah, basically, that's my story. So it

.....it's too dramatic but it was good

WASN'T TOO GRAMMATICAL, BUT IT WAS GOOO.

12:40

Cool means I think about it for our segment if you would like more information on hedging go to www dot hatch use.org or call the US line at 713-529-3590 and I

14:41

14:41

I'm ready. Yes, he did.

C

Chris Harrison 14:43

Yes. One of our we're all kind of sad here. One of our regular irregulars is leaving us.

o

14:49

So I have to get my last foot massage.

C

Chris Harrison 14:54

He's pulling up but honestly he's running off to Tennessee. A Mistress is here and she'll set him straight, so to speak.

o

15:05

Okay, well, you're listening to KPFT radio that listens to you. This is Mr. SMax rules. Good morning, all you wonderful perverts out there. And this is your weekend to shine. You can wear all that stuff you usually wear around the house, outside and everyone will think you're cool. So I've got some special guests. First, I want to send a shout out to Jasmine, who was to be my guest on the show. However, she got a uninvited roommate Wilma, is that the bras name that the last one that blew through? Yeah. So she couldn't make it. So tonight, we're going to run the gamut, so to speak. We're going to talk about the view from different time perspectives. So different levels. Yeah. We have Miss Whitney. Whitney. What's your name? Baldy? Glen. That's my boy, Glen. Yes.

o

16:25

Yeah. And we've got a Ha, say hi, hi.

o

16:32

Ah, well, a ha. has just discovered this amazing world two weeks ago. And she said that she was you know, she could handle it. And she was in control and everything. And I went, Uh huh. And then, you know, afterwards, she kind of went, Uh huh. So it all snapped together? Yeah. Yeah. So first, why don't we talk about how long we've been doing this thing that we do Whitney, why don't we start with you? As 15 years old when I first spoke somebody's book. And it just like he said, When I went doesn't hurt me. It was just like, oh, I started to hurt me. Like this, how long ago? Was that? A lot. Yeah, I'm claiming that to like, a lot. Yeah. Yeah. Glenn? been

17:29

interested in it since I was 17. Practicing last five years.

17:32

Alright. Your next two weeks, two weeks, two weeks? Amazing, isn't

17:45

it? It's very amazing. I'm really surprised.

17:48

Why don't we start from that aspect? I know the things that you thought because I've sent you to lots of places to read and, and all that good thing. What are the two differences, the two ends of the spectrum from what you thought it was? To what you're finding in this short period of time?

18:12

Well, I'll start off with slave wise term slave as a bad thing. From the readings. And from learning from you, that turns out to be a very good thing. And I'm very interested in that aspect of that side of the spectrum. Exactly. Yeah, that's exactly what I've learned. And as far as a submissive goes, that's the one I think is truly empower a submissive at some point controls the level. And it's all about mutual respect. And as long as all that's on the same page, everybody's gonna have a great time. And I'm having a wonderful time. Daniel,

19:03

get all into all the terminology, a slave, submissive, you know, I'm doing the smacking, and he's doing the receiving, and we know that he can call himself a slave and comes off as submissive. He can call himself Glenn. You know, poopsie, bubble tissue, or whatever. People get hung up on trying to fit into a label. Am I Am I dominant? Am I submissive? Am I switch? Am I this? Am I a slave? Am I a bottom of my top? You feel like getting hit, you know where to go. Don't mess yourself up with a whole lot of terminology. Just be what you enjoy. Because you may find, you know, 510 years down the road. I think I want to hit that person. And now all your labels are now blowing

19:59

cool. Correct. But I think for me, as it being a new level in my life, I had to understand what the terminology meant. That doesn't necessarily mean that I have to abide by what those terms mean. But in order for me to come to some sort of understanding, I did have to understand the

terminology. And I don't know if that's because of the science and me and I deal with a lot of terminology. But it's a start. And it was a great start.

20:29

How did you start in this? I know you say that you. You realized early on by hitting someone, but you spent some time as a bottom as a submissive? No, I wasn't a slave. Is that how you started? Or? No, no, no, I started. Got my feet feel so good. Excuse me. I started at the top. And there's the old thing. Well, how are you supposed to know what a good top is? If you don't ever bottom? Well, I bought them from the top. Yeah. And I met a few people. One gentleman, I served for three years. And the other gentleman I served for five years. And so they weren't short term relationships. Um, but even in that I could see the dominant that came out in me. You know, I was the one that took care of stuff. He did nothing. He hit me. We, you know, I said, Yes, sir. But other than that, I took care of stuff. That was my responsibility was to take care of stuff. That's pretty much when you say the responsibility of a slave or submissive. That's how I view it. That's, that's what I got from it. Um, Glenn tends to know, when I'm in a bad mood, and how to pacify me. So I don't you know, get in that grumpy. I would rather you know, I don't play angry. I don't play upset. So it's his job to keep me in a good mood. No matter what that takes. If it's painting my toenails, getting me a Coke, you know, doing a little kooky dance. Make me happy. Whatever that takes. I don't care how you get it done. You know, if I tell you I want fried chicken. I don't care if you go to Popeyes or churches or you make it yourself. I just want some chicken. Take care of it. Oh, he's changing feet. Yeah, I was like, my body was over this way. And my head was way over here. Have you ever heard Okay. Have you always been a bottom? Glyn? Yes. Do you have any, like, top ideas? Or do you have a streak of that? Have you ever done? Have you ever topped anyone? No, I've

22:59

flogged people with a my friend of mine before just because I was you know, they wanted to people flogging two people there to be doing it.

23:09

Like that group. So.

23:12

But, I mean, I could do it. But I don't really have the tendency or the desire to really do it every once in a while, but I just rather be played. That way. I don't have to worry about controlling or worry about anybody else who lets me go. So I'd rather be gone than having to worry about controlling everything else because I get to control everything else in my life. Yeah, yeah. So

23:33

I, when I was talking to her about because when I first mentioned the words like slave or submissive, you know, her eyes like big, and I was really trying to tell her that slaves the

submissive, you know, her eyes like big, and I was really trying to tell her that slaves the submissives pretty much run the world. You know what I mean? They they're in meaning in their vanilla life. Right? I know, in this straight life, they usually very, very powerful people in charge of all types of things. And this is the avenue to give it to somebody else for a minute.

24:09

Right? It's therapy is release. Yeah, get all your aggression out of friendly, safe environment instead of going out and smoking crack or something and robbing people.

24:22

The world is full of extremes. And so am I

Chris Harrison 24:25

jacking somebody's have along? Yeah,

24:27

now. I know that I have saved a lot of people from going postal. I know there are people whose lives I've saved. Not necessarily the people that I played, but the people they were going home to or something you know what I mean? Or the people on the job. So that's that energy that passes on and passes through and keeps going. I'm just said if I'm gonna give me i i Just get stuff done. I'm in And there are times when I just want to beat the snot out of somebody. I am a sadist, though. I will hurt just to watch him hurt. Um, I find Oh, if I didn't have that outlet, it would just be evil. Yeah. I can see that folks around, you would be in serious trouble. They'd be doing a lawn order on me rip from the headline. afraid, very afraid. You know, I watch those and go, Okay, I know what not to do. What is the difference for you as a top? Because I've never been a bottom. It's just not in me, you know? And I did go and present myself to my mentor and go, Okay, I'm willing to do this bottom thing just in case these people are right about you have to be a bottom, but it doesn't work that way. If you're really good. She just and and she's been doing this for 30 years. And she just looked at me and just laughed. That was Teresa. You know, my mentor? She She just thought it was hilarious. Yeah, yeah. What? I'm like, Well, you know, I'll serve you. You know, this is just like, when you get up? Yeah, it just No. And I felt really good about that, too. Because really, that was gonna be a rough one for taking off that pair of shoes. It's a little bit too tight. You just go. You know, this is and then there's that part of accepting your top you're responsible. And how much responsibility do you want to take over on someone's life? Yeah. Because there's some people out there that they'll give up everything. Everything. Money, cars, wives. Everything. In pursuit of this kink? Yeah. And there are those that will take everything. Yeah. Well, I like my boys to be independent.

Chris Harrison 27:12

A lot of the manipulations inside your world caused the release of norepinephrine which is the human body's version of morphine sulfate or cocaine. Yes, you know, it's a natural opiate and it

causes pleasure. So wine it's like any other drug in the world you get addicted to it right?

27:38

Which is why we have to use a little wisdom out there submissive people with whom you give this submission of yours but back to the question I was going to ask you for you as a top How do you describe that release that that quenching you get? As opposed to how you got it as a bottom?

28:05

My panties get wetter as a top okay

Chris Harrison 28:17

I hate to say this but you're listening to after hours radio with attitude on listener sponsored commercial free Pacifica radio for the Gulf Coast. KPFT 90.1 FM 89.5 gallons and it always on the worldwide web at KPFT dot orgy.

Jimmy Carper 28:30

So stuff that in your wet panties.

Chris Harrison 28:34

All the time was to segue into me having to an actual station ID

28:39

that would work at least you know that we're listening. To be some people out there listening this time of morning on a Friday at this very wicked twisted weekend. I'm here in my little happy horns. I'm the devil last year I was the none. But this is like way cool. Describe for me. Your feeling your your release or whatever when you play. Like we went to a party. We were at a party tonight and watching you melt and get back up with this incredible aura. You know what I mean? Stronger than 20 minutes before? more peaceful, more calm. What's it feeling like to you? I mean, you're having your ass hurts.

29:44

But it's not a hurt like as in pain knowing is causing you to hurt. It's a way of taking everything that's bottled up inside you that you can't get out, and one that you can't really talk to many people about. And it's just something inside and you're always fighting and being, quote,

unquote beat like that, or whatever how people look at it, it's just a way for me to release it and get out of my system out of my soul. Learn just to be who I am. And you know, life ain't that bad, get all this out of you, then it makes you stronger, makes you a better person. Like I said, it's like my release, it keeps me from doing anything stupid outside, letting my emotions control me. I try to control them. Even though I'm supposed to like go, and

30:39

you're letting go in that moment. Right? But

30:42

that but letting go all that emotion out of that moment, clears your body clears your mind, clears your soul less room and lets you see things a little bit more clear than than you than you have been.

30:52

And you've been doing this for five years. Tell me your experience. What did you Where did you go? What did you feel?

31:07

Describe if you can the feeling before, during an after, before

31:15

I was picked up, stressed out, about to go postal. Okay, we got to cycle past. I have to be in control all the time, given my business. And I didn't know how to release it. I didn't know what to do. I joined a gym, I thought all that pumping iron and stretching and bending would help it. But it didn't, it didn't get me to the point that I am now, which is I can really release myself and feel all that stress just wash away from me. In the beginning, as Glenn stated, it was painful. But as it continue, another level came up. And I no longer felt pain as in hurts that pain. It was a whole different type of pain. I went to a place in my mind that just everything just washed away. All my pent up hostilities, all my outside pressures, all the control just left. And I felt as if I was reborn, it was like, Okay, this is good for me. I knew at this point in my life, I had to do something different. Because all this time what I was doing was not working. Because therefore I thought I was in control. I had it where I can handle anything and everything I had to. But now I've come at a time in my life where I don't have to. I do I have another place that I can go where everything is erased. I don't think about nothing.

33:08

But think about something else at that time.

33:09

Yes, it is. You can't think about anything else is your body at that point is really on its own. It's and I've never had that before. I never knew what that felt like. And now I do. And it's great. Did you get

33:28

in your head? No. I used to get a visual of flying. And that's what helped take me there. In the neverending story when he's riding the big, powerful lump or whatever it is. And they're going through the canyon, and they almost hit a rock and they're going over the water. I can see that in my head. And then I can take off and I can go to where I just see color. She just saw. It was just

33:56

like dark. My life outside of that I see visuals all the time. I try to take myself somewhere to feel ease to feel calm. So visuals always there. After this, there were no visuals, it was just dark. And I always thought dark. The Abyss was a bad place to be. That meant despair. But it was gratification for me. So a dark place for me is gratification. I never thought that could happen that way. And it was just amazing. The

34:32

feeling after after the play was over you. You were kind of amazed at your emotions and

34:44

all that stuff, all the emotions that I've had picked up for so long and didn't know how to release them all that just came flooding out. Just everything just came flooding out. And I know there's more that I've hidden so deep down, that I need to get rid of all of that. It was because the feeling that I experienced from just that one time. I was like, I gotta have more. Because I know there's a lot of years sitting on my shoulders, and I need to get rid of that. Because my shoulders are heavy. And I'm ready to feel light. I'm ready to go back to that dark place. Because it was beautiful there for me.

35:26

And it's very empowering to go away for a while. Yes. Because then you come back and you're like, I can deal with it. Yes. The whole world, I can deal with you. Exactly. And if there's that transition time, from really hurts to wait a minute, this isn't so bad, even though it's the same practice and the same tool. There's that changeover in your body? Yeah, yes. And then your body will rule your mind. At some point, the pain gets intense. And you have to cut it loose. You

have to you have to let go of it. And it's just very, it's a freedom. Definitely. Because even though and I'm sure you understand that, well, we all have you do. But even though there is an outside influence, there's someone outside doing things to your body, whether it's sensual or sadistic, soft or hard. That place you go to is your very own. Yes, and no one else is in there can get in there, you know. So it has to be a very safe and secure place as a top I go there as well. And a lot of people don't even even think about top drop that you know, they're always about the aftercare of this submissive. Oh, well, yeah, you know, the top is like, Okay, you're fine. I'm fine. Okay, you're fine. Okay. And you, you worry about that other person and that, you know, taking care of their needs. Um, Glenn's learn to snap pretty fast out. Yeah. And know that he's gonna have those marks for a while. Yeah. You know that that feeling is gonna still go on. He's gonna feel it when he moves his shoulder, you know, two days from now? Yeah, yeah. Um, I need that aftercare as well. For real. I don't think I got out of the bed to like 12 noon, the next day after her. I was like, I can't the energy was so intense fair know what I mean? And it was just gone. I was just kind of, it was almost like a hangover. When it's really good. And it continues on and it shows in your everyday life. Yes, there's a I beat the snot out of Glenn once. And I went home the next day, and I had made mashed potatoes. And I'm, the love of my life said, You need to beat Glenn more often. We don't have any lumps. And even that small, little bit, it made his life just a bit better. And that transference kept going. He made perfect mashed potatoes. I made perfect mesh. There was no lumps in them, you know. And so he got his little food need met. And so he went off happy and you know, but it keeps going on sometimes for days. Some people it's only for hours. Yeah. And then other people, it's lifetime. They're just always on that. So happy. Yeah. The world has changed. I mean, it's a

38:52

whole new world for us. Yes, it is. It lasted longer than I expected it. I thought I'd go to work the next day. And it was all it was so much energy that I I just couldn't control myself. But it was great. And it lasted for days. Just days. I was like, Wow.

39:19

This is it's powerful. Yeah, very, very large. And right now it is you're starting there's many clubs and many groups all throughout Houston. When I moved down to Houston, there was 16 people looking at each other going, Oh, Kay. And they have these little play parties and you had to be so discreet that you knew there was gonna be a party on Saturday night, but she didn't know where. And we didn't have all the cell phones and we didn't, you know, email too much. So it was like you waited at home Saturday afternoon it was like okay, ring A party is here. And then you may get there, oh, we moved the party. But it was always a party, and NLA would come out to the warehouse parties, and everybody would come out. These were Steven, Steven had had some and then even before Stephen had home parties, there was warehouse parties, where they would rent a warehouse for the one night. And they would have quarterly parties. And it would always be weather, you know, climate was the big thing, because people don't want to be too hot, too cold. So they would wait till the fall and have one in the fall where it'd be nice and cool in the warehouse. And it was all just very secretively, because you couldn't say, Hey, I liked the welder whip. You would come in and you would have a changing area, because you didn't wear your leathers and stuff outside. Because you've had to, you know, get into the warehouse. And you would change inside. Everybody would. But on all you know, your fancy fare and then time to go home, everyone goes back into their jeans. How do you think it's

affected? The the lifestyle with it being much more, more open within the community as far as the community growing and all that stuff, and how it's been affected by it definitely becoming more mainstream. It's very mainstream. It is very, very mainstream. Look at any hot topic. Look at you know, Dillards has leather booths TAS now. Right? Well, how do you think that's affected? The largest, there's pros and cons what I mean, when you get larger groups, you get more brochures. There's posers, lots of posts, you know, those that are hard. And you don't want to say, oh, what you're into isn't right. Pitches with whips. You know, if you one of the it's expanded so far, that you get these people that it's cool for the moment. And those people are screwing up each other. Yeah.

42:24

Really see a certain stereotype and they come in and they're not careful. They're not doing things correctly. They're just seeing walk in and hit somebody. And that's what it is. It was like a young man

42:35

tonight. You know, I he was no, never been to a party before. And I kind of went up and said, Hey, look, what we do. Isn't what anybody else does. This works for us. Um, I think it kind of scared him away, though. Because he left. Oh, yeah. I think when I grabbed the Yeah, yeah. But you know, I don't know. He said, you know, he'd be back. You know what I mean?

43:09

No, seriously, I think he was, you know, you know, interesting is, is that you're getting the input from different people you're meeting, you know, new and interesting people. To say the least Yeah, and since with internet, it's crazy. It's just crazy before that was so small that you know, everybody knew each other's names. And and as it grew, you tried to keep up with people's names. I've known some people, five, six years, I can't remember their name. I see them very infrequently, you know, at a party here and there and it just, you know, you meet 200 people in a night you're not going to remember them all. Yeah. So you think it has affected the quality of play in terms of education even though there are many more groups out there? I think there's offer educate egos. I think that people's egos get in the way of education. I think people get how so? They want to be the big dog. They want to be the dominant

44:18

people take it too seriously. Yeah, they

44:20

know all seen all Donal and they are the all you know, we throw the best parties we do this the best we do this the best. I'm the best at this. Nobody is the you know, you have your specialties that you like. Now, I know how to throw a flog, but it's not my favorite activity. What is your

favorite activity? I like this little tool called the claw. Kind of feels like napalm. Do you have it with you? It's out in the truck. Glen will you go get it?

44:58

As he looked at me why Can I go get it? Oh, that's what he was supposed to do. I'm very proud of him. You should be He. He's also a crossdresser that looks really, really hot and panties. I mean, for real now that he can't hear us.

45:20

And he doesn't like pain. I mean, he really doesn't. He's not into the pain. But he takes it. Because he knows on the other side of that bridge, yeah, yeah. There's something really good. That's one of the things that I think is really very, very cool about this. We are very much a pampered nation keynote. Oh, yeah, we don't want to do anything that's too difficult. So consequently, you've got lots of namby pamby, human doings out there. Very few human beings. And with this, we were talking about it earlier, when you do get to the other side of this scene, this thing that you've done, and you've taken this and you've gotten through it. It's like the outside world. I'm, you know, I'm sure that Glenn has to say to himself sometimes when he's in a situation in the regular world, you only think you can whip my ass. Yes. You don't know my mistress. Oh, yeah. So the thing is nothing.

46:41

There's a gentleman that has taken a job that that's kind of dangerous. And many years ago, I had to let him know that if he needed to be afraid of something, he could be afraid of me. But don't be afraid of the rest of the world. Exactly. Exactly. And when you are afraid of the rest of world you come to me in it, right. Yes, the total opposite of Glenn. Yeah. i He's I was telling someone that you know, you don't have to put yourself in a position for people to to whip you. You know what I mean? Emotionally. That I wouldn't whip him. I would not whip him. I know I did. I just know that. I wouldn't whip it. Oh, that's that's nice. This is nice. Very nice. What kind of sound does it make Miss Whitney? On a human or on the on a human? I don't care what it sounds like on a table. Okay, well do do we need do we need Glenn yet far away? Because I don't I don't know. So the claw This is the toy of the month. Am I don't let me get in the way now. Okay. Oh, look at look at that. Look at that. Look at this back. It looks gorgeous.

Chris Harrison 48:15

I've called in for Jimmy. I know he enjoys his participation

48:28

ah. All righty. Does it look beautiful? Yes. It romantic leg? Yes. We had a good time this evening at the party. No,

48:45

I can see. So they're calling me. Where's everybody? Who's that a nutcase that was on on the line a little bit. Y'all didn't let him through.

c Chris Harrison 49:00

I didn't say blink. Usually they'll come in and tell me if someone's on. Okay. Well

49:05

see, it's okay. If you're not in you call. We're nuts. We're good nuts, though. There. There's all different levels of s&m that I found from, you know, the most extreme, which is this sadomasochists. And then there's also just the standard model. Yes, yeah, they have all the clothes. They hang flogs off of them. But when they don't play, they don't play at home. They don't play at a party. It's just a purely social aspect for them. They don't mind watching play. But they would rather just socialize. Do you find that a lot of people are doing this just to kind of add a little kink to their sex life? Oh, yes. Oh yeah. As you know, there has to be the more avenues. And I see more and more couples that are saying, well, you know, we want to try this. And a lot of times they find out. Yeah, they both want to try it. But it doesn't work for them together. Right, right. So when you're going into this, you have to be very careful of what you want. Because you when you find it may not be truly what you think it is. Well, a lot of things should remain a fantasy, but you don't know unless you try it. Would you agree? Yes. Yes. I know, it's what works for each individual. Right? Right. And you have to sort of experiment, but I am finding that a lot more couples are getting into it. Because anything can get boring after a while. It's just how much how much six? Can you do? You can put your shirt on Glenn just hurt. Come tell us what it feels like. What's it feel like? Come over here. I got his shoulder. Oh, yeah, you did. That's a mean little thing, though. What do you call it a cloth? It tears them up to share it on yet. Just what would it feel? Was it feel like this thing is burning

51:23

sensation describe that perfect straight line across your flesh. He's a very distinctive feel. And you can feel every breath of air or when that crosses it.

51:38

It has three leather tails. I don't know. It's just mean. Yeah. My good friend Carla had found this and she said, I got this toy but I'm not real sure about it. And I went, Okay, let me try it. It immediately brings up wells, three little wells Pittsburgh, bam. And I went whoop, Dinah you to have this? And, like, you're

52:11

pretty good without it actually being cut. Ah

pretty good without it actually being cut out,

52:14

normally, I'm pretty reserved because I don't think people need to spend a lot on their kink, right? If you're spending six \$700 on one flog coming in might better be able to cook breakfast. Yeah, you know, come on. This was like 56 bucks. It has been the one of the greatest toys I've ever played with. And you just got a hunt for it. And I think because of the more popularity prices go up? Yeah, yeah. I can't believe some of these prices are on the kink toys. And it just, I think that a lot of that has to do with it becoming more more mainstream or more of a novelty. Yeah, I just don't understand why. People don't understand the kid walking down the mall having the fur lined cuffs hanging from his pants. And you know, I get a kick out of the callers or the big Yeah, yeah, the callers and I go up Does that have any special meaning? No. Are you do you belong to someone? Who's Are you? Texas?

53:36

In the leather shops what? What some leather shops called large is ridiculous.

53:42

Oh, yeah, they

53:43

need a they need to really broaden their horizons a lot. They call a large piece of clothing. Yeah. And

53:51

you wouldn't really think which the bear community here that they would recognize that the What the What kind of community the bears the big burly men. Oh, okay. How about the big burly women? Yeah, even that you go in there and you try on something you're going this is my size in the outside world? Why isn't it my SAS here? You know, you but they tend to cater to the, the pretty people. Yeah, you know, and if you're if you're not, you know, three, five or seven, you know, you better look into plus size. 1012 and 14 is plus size and one of the wonderful things that I have noticed over the years. And it's it's beautiful to me. You see all kinds of different shapes and size. Oh, me. Oh yeah, hanging off these crosses. and it's just fantastic. You know, you don't necessarily see where they might even in the vanilla world, you know, cover themselves up in some loose fitting thing because they don't fit the outside norm of a beautiful woman. But when it comes to this, it's like, you know, the fatter the but the more it can take in everything, and it's really, really a cool thing. So the standard, well, everything's kind of vice versa, you know, and I mean, it's like a wonderful thing, you know, in this lifestyle, but you know, you're not, if you're vanilla. Well, they've also got the place let's though that tend to annoy people, I call them sniffers. They go to that. thing that has boots on, they're like,

can you play me? Play me, please? Yeah, me, you know? And, you know, there's a lot of people take advantage of those people. Yes. Because it's back to that. It being addictive. You know, I mean, you you play and you get that feeling. And you want that. And so you go after it without necessarily any wisdom on the part of where you're going to get it. Or they visited some massage parlor and saw a dominant in a massage parlor. Which is very different. Me go there. Yeah. Please don't make me go there. They're not for massage. How do you? Do you think it's been a positive thing or negative the internet? Especially, I mean, even now on the different groups that we're on. So often, you hear oh, I met so and so. I think you have to be more cautious or more predators out there. And a lot of people when they get in that I'm a submissive or I'm a slave. They want to be satisfactory. So they tend to go Yes, sir. Yes, Master? Yes, Mistress. Or, you know, whatever they're little. But they don't think they're not checking people out. That's one of the groups are great. Because you go into a group and you can say, well, I've just met this person. And so I go, Oh, I know that person. I'm very leery of those that go, Well, I only pray in private, you'll have to come to my house and come into your house, totally crazy. Or there was a young lady that she was instructed to go into this backyard strip naked and sit by his pool. And I asked her, I said, How do you know what's his house? First of all, she's never met him. He's giving her these instructions to sit naked by a pool. How do you know he's not the next door neighbor just peeping over the fence at you saying that you're doing this? You don't know this person? Keep yourself safe. You know, she, she declined the offer. And he told her that she wasn't worthy. And you know, that hits the ego. If you don't care who you are, you're told you're not good. And you're rejected. Yeah, yeah. So I think there's a lot of people that just, there's the predators out there, and you have to be more cautious? Well, there certainly are a lot of groups out here. And if you go to [www.dotmaxrules.com](http://www.dotmaxrules.com) ma X Rulz. And click on the links page, the first link there, it's listed as the gateway to the Houston community. And there you will find a list of about 15 1015 groups, and they can see what you look like that you can go out there and their classes and gatherings. And you can meet other people who will help you out and give you information or educate you, et cetera, et cetera, et cetera. You're over there so quiet. He's waiting for gland take off my clothes.

J

Jimmy Carper 59:41

She's not the only one.

♂

59:45

So how, tell me about a ha from two weeks ago to how you are now.

♂

59:55

Not in control. Not as in as much control as I thought I was, which is a good thing. But

♂

1:00:02

how are you in your daily life, though? How has it changed outside of this thing?

1:00:13

It's better. I haven't gotten to the 100% state yet. But I know that will come also. But in the last two weeks, my tolerance has been better. I didn't have any, because I didn't know what to throw all that stuff at. And in my line of work, I have to be tolerant, I have to command a certain tolerance and what I do so I'm learning how to do that now, since I don't have as much stress on me. And all that was just personal inner stress that I needed to get rid of. And now I found a way to get rid of it. And I look forward to still releasing more. And I think that will make me a better, far better person than what I am now. And you can tie your tie to Yes, and I can tie a tie

1:01:09

very well for Windsor thing. No,

1:01:12

we just got to the base just to the base. But do you think how would you call yourself or your role as mistress? For me? I think I'm a muse as a mistress, I think it is my responsibility to assist someone to grow to become a better person. It which goes far beyond just whatever I'm doing physically at the moment. How do you see yourself very much in a similar way there's

1:01:52

plain ordinary everyday lives. And we all have I think that it helps my boys know that I got their back. I also know that they have mine. Yeah. And that I give them a lot of strength to go through their day. Yeah. Yeah. Like I said with him, it's like you know if you need something to be afraid of being afraid of me. And it helps you face those challenges. They're not gonna let anybody get to them. That's much. Yeah, that's my job. That's spots reserved for me. I think that's the thing that's missing with us so much internet and the mainstream saying not to mention all the porn that's been over these years made by some vanilla guy in his garage and Pasadena that people just nice guy they just see the physical and that there is such a deeper level to this. It's not just the physical, you know? You see the porn films and people think that we actually go out in the street and you know, kidnap people and take them in time up and beat the living. Hell for yourself. Big for yourself. That's next week. Pig maggot slime. Wait, yeah. I'm not. I'm not. Then there's all grades of movies. There's one called Twin dominators. If you ever see this one is made maybe late 70s. Oh, look, yeah. She has this submissive and he's collared and she's got her boots chained to his collar. And she's trying to like ride him like a horse but she's not sitting on him. Okay, she's walking and you can see her keep looking off stage. Like, what do I do now? And authentic. Maybe she kept close. Peg dog maggot.

1:04:24

She kept saying faster, faster, faster, like he's crawling on the ground. But he's going so fast. He's practically pulling her off the ground because she's chained to his collar and she can't walk any faster. And

1:04:36

the girl has the shoes on the wrong feet. Got her boots on the wrong feet. And that's that's a lot of people's Yeah. Intro Yeah, to what we do. And then they meet people that it is a lifestyle and it is a life way and they're like wow, this is nothing like I thought it was or exciting. A lot of it scares them because they didn't think it would go that deep. They'd get, you know, a little slap and tickle and you know, a happy ending. Yeah, they don't know, you know, the emotional things could happen. I want to remind you that you're listening to Kpf T radio that listens to you, at 9.5 on your FM dial, and that's 89.5 in Galveston, I'll get this right one of these days. And 90.1 your dial. How are we doing in there? Okay. Not really, you know, they might call you if you gave them the numbers. You What a concept. All right. They're submissive, they're waiting for the number 7135265738713526 KPFT

1:06:00

they have permission now to do that. Yeah,

1:06:03

we give you permission now, and

Chris Harrison 1:06:07

you may definitely call next week when we're begging for money on

1:06:12

1:06:57

You will be the first one that's right Mad Cow pay

c Chris Harrison 1:07:07

1:07:18

1:07:36

Stuffed animals and air January Yeah, yeah. Oh, that's too much. Guys

c Chris Harrison 1:07:41

1:07:43

this all every every single person has a fetish. Because yours there is just mine. I like cashew butter. Sandwiches. I like to beat people up. I like to stick needles in them. And I really like I can say anal play. Oh, yeah. Okay, we get started to come out of my mouth.

J Jimmy Carper 1:08:13

That's a given.

1:08:16

I don't really like anal play. I really do. I think people should call us and tell us they're fat. So in the anal play, do

c Chris Harrison 1:08:23

you prefer to be the alien or the farmer?

J

Jimmy Carper 1:08:26

The picture or the catcher?

♂

1:08:28

I am the pitcher. Nasty pitcher. I don't even want to catch a cold. I had this really amazing. I have to bring that in maybe next month. This awesome harness that I had made when I was in Amsterdam. That just fits perfectly. You know the ones that to loosen they move this stays right there. And it's it's wonderful. I really liked that

Very, very cute. Very, very cool. So

♂

1:09:15

happy for you.

♂

1:09:15

Thank you very much. Nice leather harness. In fact, I got two of them. Because of one where's the backup? I should have thought about that. Because this is the I've got a bunch of them and this one just really fits really well. You know, they're hard to find that that fit properly. What's your favorite thing? Other than that nasty thing in your hand? I love this thing

♂

1:09:51

there's a whole bunch. I like foot worship. I wish I had more than two feet go oh Ah, when Glen and I were in New Orleans, we had like a rock and roll time. And I was lying across the hotel bed and I was like rubbing my feet, and I fell asleep getting a foot row. And it was like I woke up in the whole world was okay. Oh, my feet feel really good. I don't know if he stopped after I fell asleep or if he kept going. No, I'm glad he probably kept going. So wonderful. It is really Nam. And there's something of just about the look in their eyes when they're down there. And they

just, you know, kind of knows what your feet um I like torture. I really like to torture people, and whether it's tickling them, because I like to tickle and make them sing silly songs. You know, I figured everybody should know like, Twinkle Twinkle Little Star may had a little lamb. Yes, yes. When it starts coming, you know, Mary Had a Little Lamb Somewhere Over the Rainbow. You know? And the word start getting mixed up or you have them do math. You know, messing with somebody's mind.

 Jimmy Carper 1:11:15

Having Jim do math, right.

 1:11:24

You get him saying Twinkle, Twinkle Little Star. Yeah.

 1:11:27

Yeah. Can we get old? No, no. No, no, no, no, no. listening audience out there really, really doesn't want to hear

 Chris Harrison 1:11:41

that. If he pedals on the floor for muting a tickling him someone's gonna clean it up

 1:11:52

you know, of course, you gotta get a spanking venture doesn't crumble on you. Yeah,

 1:11:57

there are mistakes that are made, you know, and oopss. And you have to be responsible enough to make sure. And to say oops, quietly like you're, you know, really meant to do that. Oh, crap. Shoot your shoulder. I hit your shoulder. Oops, didn't mean that one. Oh, yeah. We had a spanking bench that was was not made properly. I mean, it looked really cool. But it wasn't made for boys. It was made for like anorexic girls. And it broke. Oh, yeah. Well, you know, we he broke his toe. You broke your toe. Yeah, we're almost his knee. And we're gonna I'm like, Oh, great. We're gonna you know, I'm gonna have to take them up to the hospital. And, you know, my rule is is if you play with me and something goes wrong. I have no humility. I will tell the ER tech exactly what we were doing. Yeah, yeah, my hand is stuck up your button. We have to walk.

 1:13:00

You know, tell him you fell on it, you know, fell off

1:13:06

over the axe hole. You know? If you know I, I play with all kinds of people and and people have all kinds of melees they may not want to say Yeah. And I'm not against calling I'm gonna call Hey, look. So we were concerned about his name. We knew he broke his toe. And he's laying there on the floor. And of course, all the women gathered around him to take care of him. It was horrible. There's of him and stroking his hair. Um, like, you know, they're putting ice on his knee and just snug it all up to and I'm thinking wait a minute.

1:13:45

Yeah, after Stacy sat on my face and all I just kind of forgot all about that to remind him it was broken. And then she went to get up. No. Oh, no. Okay. It's better now. Oh, it's hurting. It's pulsating. Yeah. Oh,

1:14:09

you bring your boots back on. Yeah. It's almost that time isn't it? Yes, it is. Wow.

1:14:17

It is but mainly parties are about having fun. That's what

1:14:22

they're there for. If you if you go to a party, and you're not having fun leave

1:14:30

we saw a couple that the guy was beating this woman with a rubber chicken is

1:14:44

chicken hurts to rubber. Chicken or be creative look in your kitchen right now and you can find something that this the only good thing about pantyhose is for ARM binder. But yeah, yeah that's that's pantyhose there's all I do these classes at Delaware and arrows, and I show vanilla people how to do this thing and I give them a little goodie bag. And in it are things you find in your kitchen or in your closet. No, you know sophisticated toys. You know what I mean? A tie. Some pantyhose wooden spoon.

1:15:39

You do? Yes. He doesn't like wood. wooden objects of any kind. Just know. It goes back. It's another

c Chris Harrison 1:15:57

mistress. I remember the time you brought in those bamboo skewers, and I've turned away from here. Put the headphones on. I wouldn't look.

1:16:10

Everybody has.

c Chris Harrison 1:16:12

I can't watch a cartoon character file their fingernails. Wow. Good. emery board the room. If I see. I go to my parents house. My mother will cover over an emery board if she has it out. Why? Because she knows it will. It will drive me up a wall. Then don't look behind you.

1:16:39

What a powerful piece of information he just led. Everybody's going.

c Chris Harrison 1:16:47

After I told my niece that about a couple of days later, she comes running out of my mom's bedroom waving an emery board at me just to see me freak out.

1:16:57

You just it was just a little bamboo. Bamboo skewers, not an emery board.

c Chris Harrison 1:17:02

It's the texture of wood. I can't use Glen. I can't use certain wooden spoon.

Chris Harrison 1:17:31

I can't my nice one time we had these. My parents had popsicle sticks that were a little old. So they had that kind of slime to him. So he had to rinse them off. Right right right right. So my niece thought was gonna be cute. She got one of those was just paid me I was gonna have to handle the the stick. I peeled it off held use the wrapper to hold on to the stick, wiped it off, rinse it off, put it into a bowl and handed it to her. And I just get it some days is worse than others. But if I look at certain things like wooden spoons, cutting boards, if it's a rough wood, I will I will go practically fetal. I walked out on my boss one day because he pulled out an emery board. How are you about for FERS not bad but like I said it's wood just will. You'll see me I will sit there you know my hands will start to crinkle up I will.

o

1:18:20

Well it's nice to know I'm not alone in my you know you're not in

the wood. And that's one of my favorite toys wooden spoon. I didn't handle wooden paddle just about the size of the palm of my hand. And it's got a little squiggly to call the sperm. And just like your claw, it will leave a bruise mourn hit that like that. Was it a bean that you had? Sat broke my my bean pod. Oh, yeah, that was that was a boy. Yes, it was. for

some bizarre reason people keep giving me paddles. And hole not at I have given them away

Some bizarre reason people keep giving me paddles. And he's not all I have given them away. I'll just get another one. So it's like okay, I'm gonna hang on to this one thing. Yeah. So I'll hang on to this one. So I'll never get another one. I bought a string of the big paddle ball game.

1:19:28

I made a mess here. Okay, so before we electrocute ourselves,

1:19:32

that's a different play.

1:19:34

What's your favorite thing Jimmy? Other than tick not tick. Like we know what your least favorite thing is. What is the most favorite? What's your favorite saying what do you enjoy the most? Other than just looking into the eyes of your mistress? While

1:19:48

Yeah, that of course. We have. May I put mustard on your bread? I'm sorry. Ah, okay, that's your own bread. I'm

1:20:03

Sorry, we are very, very relaxed in protocol. There are some people whose protocol is just unbelievably strict. I can't live that way. And I'm in this for the longevity. Um, but there is that, you know, there, if I asked you to do something and just do it, yeah, you know, but to microman yeah is the, you know, make the submissive stand there and put mayonnaise on your sandwich and stand behind the chair. Until you take that first bite in, in a public restaurant. That's embarrassing. That's embarrassing to me. You, you have to remember we live in a larger community. I don't think the community as a whole should be privy to a lot of things. Are you talking about to SM communities speaking of, of the vanilla world, that we we all live in the vanilla world? Yeah, we all have to live in the vanilla world. And if you're into any kind of alternative relationship you have to understand be tolerant. Everybody says, Well, I'm into this and they just need to accept that. Well, in that same token, you need to accept that the majority is a vanilla world and be tolerant of others. You don't bring out your you know, your flog into Denny's. You don't need to be that open with it. You know, there's times and places and events that go on Katz's, deli. Katz's Deli, it's okay to do. Um, but everybody has to be tolerant of each other and you can't. If you go too far, it becomes lewd, even to those with the same fetish. Yeah.

1:22:11

You're speaking of. So I can't really narrow it down to one specific thing that I think because I

You're speaking on so I can't really narrow it down to one specific thing since I think because I like hot wax, sharp pointy things.

belly buttons.

1:22:24

Jimmy Carper 1:23:08

He likes

1:23:11

Yeah, I play with Whitney, my little courage meter over here. We go to the run fast. And, and, and she'll we'll see some some moment and then she'll just scream out loud she can a belly woman and she'll run over and grab the woman and so my boy here he just loves Belly belly and a 90% of them. Let me do it. It's just incredible. But you know, it's like most women is like, you know, guys want to you know, grab their breasts or something like that, which I do too. But, but if you you know, it's an unusual part. I guess that most women are actually ashamed of their bellies and they're very self conscious, but actually appreciate them. So you know, this my quest. Okay.

1:24:06

Feel as many bellies knows to

1:24:07

1:24:11

He's got a boy closet. It has just all the stuff hanging off you open the girl closet, it's all nice and neat everything, you know hung up Zaza area. So, it's there's that variance of, Okay boys clothes I'll just stroll
