Jeff Mackey 00:18

Thank you, Jamie. This is after hours report I'm Jeff Mackey. Veteran community services foundation received the award for promoting pride within the community. While the Montrose clinic was honored for promoting pride beyond the community in the two broadest categories of the 1990 Pride awards, held Saturday, June 16. I think Astor village Hotel New award for promoting pride by community organization WENT TO THE COLT 45 ages trouble Fund and the calls home base the prizes river bottom, won the award for promoting pride by business and the individual category Charles Armstrong and Charles Armstrong's investments Incorporated. The only official nominee on the ballot received the award for promoting pride by an individual. Mark Alexander accepted the award for Armstrong who could not attend the ceremony. The Gay Lesbian Pride Parade in 1989 won the award in the new category promoting pride and gaiety through a community social event. Debbie Holmes and Lady of Victoria lost co chairs of the Lesbian Gay Pride parade. 9090 accepted the award on behalf of last year's co chairs. Marian Coleman and Tony Vega. Guest speaker at the ceremony was a celebrated author and wit Quinton crisp, who addressed the audience on the topic of happiness, in his own words, quote, a very broad topic so that it really doesn't matter what I say unquote. Chris was best known for his autobiography than a good civil servant, which has become a literary classic and was made into an award winning television play starring John Hurt, who Chris described as his representative on earth. He has written seven other books the two most recent being a Clinton Chris book of quotations, and how to go to the movies. He is also known as a film critic for Christopher Street magazine and freelances to several national publications. The pride awards banquet was first held last year at the Metropolitan multiservice center as the first official vendor of gay lesbian Pride Week 1990. The first ceremony was planned in about two months according towards her chair Mark Johnson. This year the committee had the benefit of a year to plan for the event, conceived as an annual Gay Pride Week offering benefiting a flexible list of sponsors. This year's banquet was sponsored by the Montrose Activity Center, which politic

Metropolitan Transit Authority or metro will begin providing service to the front of the Thomas Street Clinic outpatient aid facility of the Harris County Hospital District next month and metros have personally confirmed Tuesday. Rolando Romo of metros Community Relations office said that the 37th el sol route, which provides service to the Eastern and northeastern northern ends of town and crosses and other routes will change to include the clinic staff on July 2 a Monday. The route will utilize a metro Microbus, which is wheelchair accessible Roman said. He said although the 37 does not go into downtown Houston the route crosses several lines that provide service to downtown including the downtown five and six lines and route 7780 and nine, it also crosses the 50 Heights route he said the route does not cross the ad to Westheimer route. However, persons writing at two would be required to transfer twice to get to the closer service. Presently Thomas Street Clinic patients writing the ad to transfer wants to the eight north main bus a route that ends and Main and Paschal streets several blocks away from the clinic. Metro officials had previously stated the front door service to the clinic would be infeasible because of the narrow streets leading to the building. I'm not sure how 82 Westheimer riders would hook up with the 37 routes and road on. He suggested that writers call Route Information at 635 4000 when the route is started. Body Positive Houston and nonprofits support organization for HIV serial positive persons has received funding of \$85,500 from Burroughs welcome the manufacturers of AZT for a public service announcement campaign. A campaign will be a multimedia program that targets those segments of the population that high risk for HIV infection, gays, blacks, Hispanics, college students in St. Louis. Two basic message is for individuals at risk to get tested for the AIDS virus and if HIV positive to see a physician for evaluation and medical intervention, they get tested now program signifies a change for the Houston gay community. Due to the legality of homosexual acts in Texas. gay groups previously have not endorsed testing because of possible discrimination. Law Section 2106 of the Texas penal code is still in effect. completely anonymous testing is available in Houston at several locations. Body Positive Houston will refer people calling in for information to one of these testing centers. Referrals will also be made for counseling services physicians and local support agencies as requested the program will continue for nine months. While the positive Houston also received funding for its peer counseling program body positive Houston for HIV positive persons. This 10 week program is in its third year. The number of participants has increased dramatically in the last 12 months at annual growth rates and the number of applicants has increased at over 150% and continued growth is protected through 1991.  Buddy Johnston 07:29

girl, where are you? We're gonna run Sylvester, we're gonna wear Sylvester out. She's coming and she's getting her stuff together. What's that? Oh,

 Jimmy Carper 07:41

there wasn't a lot of news tonight. Because of all the stuff going on.

 Buddy Johnston 07:45

There's not a lot of news. There's a lot of stuff going on.

 Jimmy Carper 07:47

Well, that's what I mean.

 Buddy Johnston 07:50

What about this constitutional amendment? Ban? The flag desecration?

 Jimmy Carper 07:55

Yeah you wanna talk about that?

 Buddy Johnston 07:58

Yeah. Later

 Jimmy Carper 07:58

okay.

 Buddy Johnston 08:00

And we're going to talk about the parade. And if you want to march in the parade with this, five to 65738 or five to six KPFT or five to six 4000? Just call us. Yeah someone pick up the phone

... 55755, or five to six KTFY or five to six 1000. just can do. Yeah, someone pick up the phone and call and say where's it quit radio station? That's not a quarter radio station. Did you know that? It isn't. A lot of people call and say is this a gay radio station? Oh, no, no, we have only three

J Jimmy Carper 08:24

shows that are that are three programs

B Buddy Johnston 08:27

on lesbian after hours, break through on Friday mornings at 11. So the only three of us three programs of us. And we're here

J Jimmy Carper 08:40

and we're queer. Anyway.

B Buddy Johnston 08:43

This way out was Greg Gordon. And Lucia Chapelle is a national program that comes out of Los Angeles every week right? Now, the problem with this way out is that we get the feed on Monday afternoon, right. And then we don't get the tape from the archives from the Pacific program service until the next the following Monday.

J Jimmy Carper 09:06

Now, so we're going to explain what the difference is between the two. The

B Buddy Johnston 09:09

difference is the feed comes over the satellite dish in mono. And the tape comes from the Pacific a program service and it's in stereo and you'd rather play the stereo. So we play the stereo version. But we used to get it on Friday, when the Pacific program service moved to Los Angeles into a new facility. It kind of screwed everything up. So now we get the tape on Monday. So we're two weeks behind. Well, anyway, two weeks behind the feed date. But what's wonderful about this particular show, yeah, right here, Mary? Yeah, this way out the international gay and lesbian really hard you're holding in your hand there. It's called the rundown. Oh, and it comes with the tape program number 115. Distributed June the 11th 1990. The news wrap KGB threatens new Moscow lesbian gay group. Can you believe that? Well, we'll hear all that later. segment to two ideas observing Lesbian Gay Pride month we will travel back in time to 11 years for the Stonewall Rebellion. With excerpts from the homosexual and society a panel discussion originally aired on KPFA. In Berkeley in 1958. Yeah.

J Jimmy Carper 10:24

Wow. That'll

B Buddy Johnston 10:26

be fun. Yeah, won't it segment number three Charles Pierce. Katharine Hepburn. Segment Number four. Yeah, read segment number four. Segment Number Four.

J Jimmy Carper 10:38

Buddy Johnston APFT FM Houston's after hours us programs salutes Lesbian Gay Pride month with a special mix of families Stanley's coming out of hiding,

B Buddy Johnston 10:51

yes, are coming out of hiding mix that we've been playing for a couple of years. We sent it to Greg and Lucia as a celebration of Pride Month and it went up on the satellite. Neato. They heard it on 300 Plus community radio stations around the country probably a couple of weeks ago, because we're like two weeks behind. But isn't that

J Jimmy Carper 11:11

exciting? That is exciting. So hear your own voice on the radio

B Buddy Johnston 11:15

now. And to think that they heard it in cities all over the country. Yeah, that's exciting. And hopefully it'll

J Jimmy Carper 11:22

be live because it's a lot of work to put these things together. But this is not the first time

B Buddy Johnston 11:28

that we've had anything on here either. The interview that we did with Pavel net was on there when he did borrowed time that was on there in a two week period. So this is our really like our third piece, I guess, to be spared nationally.

J Jimmy Carper 11:41

And if we ever get well, when we get all that poetry, Pat Parker's poetry done, and Tasha from Hitachi, that's gonna go to the archive. So that might go

 **Buddy Johnston 11:53**

out today. They're gonna have an open mic at the parade. Oh, yeah, at the Applegate star fest 90. And you can just get up and do whatever you want to do. So I'm going to take Pat Parker's poem, where will you be when they come up and read that great everybody that I'm the fact that from HPD. I'm really looking forward to it. But anyway, this is this way out with Greg Gordon Alicia Chapelle. And I'm really excited about this because our piece not just my piece, this is our piece boys and girls. Our piece was on the national feed. And we should all be proud about that.

 **Jimmy Carper 12:27**

Stuff you hear all the time on this show went national.

 **Buddy Johnston 12:31**

And I think it's fun that we hear it this morning on Pride Day. Yeah. So here we go this way out with Greg Gordon, and Lucia Chapelle. What else are we doing, girl?

 **Jimmy Carper 12:41**

I've got some new music. Now I want to talk about later. I'm really excited to

 **Buddy Johnston 12:45**

do that. Okay, we'll be back in a little bit. Hang on, here we go.

 **12:55**

I don't know of a single case we've had somebody come forward and proclaim themselves. A homosexual and a port of entry

 **13:02**

are those who feel that this is definitely a neurotic problem. There are others who feel it's a glandular problem.

Lucy Chappelle 13:53

machine all that and more because you've discovered this way out

14:08

I'm Juan Mendez Jr. and I'm Sandy Dwyer. With us wrap a summary of some of the news in or affecting the lesbian and gay community for the week ending June 10 1990. The newly formed mosque a union of lesbians and gay men announced that it has not received some of its male and that individual members have been threatened by the KGB. The group also reported to the international lesbian and gay association that, contrary to official government statements during the past year, the country sodomy law will not be repealed when its penal code is revised.

14:07

14:43

Last intended as a lesbian group in Costa Rica hosted the second Latin American and Caribbean lesbian feminist conference last April, anti feminist and anti lesbian and gay violence and political instability made the conference too risky and late. Lima, Peru, where the conference had originally been scheduled. Los Hinton Ditas was formed in 1987. To break the barrier of internalized homophobia. That makes many lesbians feel that they are totally different from other women.

15:14

According to a report in a recent edition of The New York Times, lesbians and gay men coming into the United States to attend the sixth International AIDS Conference this month in San Francisco may be refused entry because of their sexual orientation. A Times reporter obtained an internal memo sent by the US Immigration and Naturalization Service to the US Public Health Service, advising them to have qualified medical personnel available in San Francisco. To determine whether or not an incoming visitor is homosexual. There is still an immigration law in the US, which defines gays and lesbians as undesirable. A court ruling in the ninth District, which includes San Francisco, ordered that qualified medical experts rather than immigration authorities, must make the official determination of a foreign visitors sexuality. However, in a report filed by Allen Lipski, Duke Austin, a spokesman for the Immigration Service said that while the law is on the books, it really won't be enforced,

16:17

often says that since the American Psychiatric Association ruled that homosexuality is not a disease, the INS doesn't even ask if you're gay, I don't know of a single case, we've had somebody come forward and proclaim themselves a homosexual at a port of entry. But even if they did that, and every place in the United States with the exception of the ninth circuit, we would say okay, then you're inadmissible, you can apply for a waiver. And in almost all cases, we granted the waiver and allowed him to enter in the ninth circuit, where we would have one or two options that's either to further inspection or to get the certification from public health service. And then we have them in Austin says they heard that visitors to the conference, were planning to force the issue by declaring themselves gay. So the INS is making sure the conference goes smoothly. He says the whole thing is a case of media distortion. Urvashi VOD, Executive Director of the National Gay and Lesbian Task Force says that even if nothing is different, it just points up the need to change the law. There are a couple of bills in Congress which would eliminate this irrational and outdated exclusion. And we will do our utmost to move those bills forward in the next couple of months.

17:34

That was Urvashi VOD, from the National Gay and Lesbian Task Force, and a report from New York City by Ellen litski.

17:41

The 10 Worst corporations of 1989 were listed in a recent issue of a magazine called

THE 10 WORST CORPORATIONS OF 1988 WERE LISTED IN A RECENT ISSUE OF A MAGAZINE CALLED multinational monitor at the top of the list, which also included mobile and Exxon oil companies. Nestle's and Philip Morris was Burroughs Wellcome, which is the exclusive manufacturer of the AIDS drug AZT from 1986 to 1988. profits for the London based drug company doubled, with a 70 to 80% gross profit margin for AZT according to the magazine late last year, after a fierce campaign conducted by AIDS advocates in the United States and in Britain, boroughs welcome lowered the price of AZT by about 20%. a year supply of the drug will still cost a person in the United States, more than \$8,000.

18:33

Another drug has been developed to treat AIDS, but it's uncertain when and how available is going to be. Mary van clay explains the Food

18:42

and Drug Administration has given the okay to expanded access testing of the experimental AIDS drug DDC. While clinical trials continue. A small number of additional people who can't tolerate other medications will receive the drug free from its maker Hoffman Laroche. DDC is a chemical cousin of both AZT and BDI. All three drugs stopped the replication of the AIDS virus, but people on DDC appear to suffer fewer toxic side effects, usually just painful nerve damage in their hands and feet. John James editor and publisher of AIDS treatment news in San Francisco says DDC is significantly cheaper than AZT when it enjoyed brief popularity as an underground anti AIDS Drug A few years ago, James says people bought a kilogram of DDC for less than \$25,000

19:31

one gram of enough to last somebody for more than a year. So that kilogram was enough to to last 1000 people for longer than a year. And that's where it came to be about five cents a day.

19:43

James says Hoffman LaRoche will probably raise the price of BTC if it goes on the market to pay for research and development costs. But the drug could still be a godsend for people with AIDS in third world countries where there's virtually no other AIDS treatment, and DDC could be sold cheaply outside of us. Patent Law, the drug is still months away from possible FDA approval in the US. And Dr. J. La lazarey, co director of the HIV clinic at Mount Zion hospital in San Francisco. cautions that the expanded use program is open only to people who can document severe intolerance to AZT and DVI, and few will qualify in the beginning

Buddy Johnston 20:20

of the first 40 or 50 people I've spoken with, I don't think more than four or five are going to qualify for it. So even though it's a compassionate use protocol, it's restrictive and really not all that compassionate.

20:33

lazarey urges people who can't yet get DDC to give AC T another try if possible. At the lower dosages that have lately proven effective. In San Francisco. I'm Mary van clay.

20:45

delegates to a convention of the reform branch of Judaism will vote this month on a committee's recommendation that would place no restrictions on qualified lesbian and gay rabbinical candidates. While acknowledging that Jewish tradition is clearly against homosexuality, the 17 member panel nevertheless unanimously adopted the recommendation after four years of often stormy debate and study of the issue. If the recommendation is approved, Reformed Judaism would become the first large Judeo Christian religious body to admit open gays and lesbians to the clergy. Other than the predominantly gay and lesbian Metropolitan Community Church, the only religious denominations to welcome the applications of gays and lesbians to the clergy have been the relatively small Unitarian Universalist Association and the Reconstructionist Jewish movement. local congregations of the United Church of Christ and the Episcopal Church have also accepted openly gay and lesbian members of the clergy.

21:49

And finally, several lesbian and feminist groups in Austria have initiated a campaign to highlight the situation of women in their country with the placement of posters on public transportation throughout the capital city of Vienna. slogans on the posters include power makes women strong, the present time is feminine, or doesn't exist at all. And lesbians have always existed everywhere. The public relations firm representing Vienna's mass transit system refused to allow that third poster on their trams. So the sponsors went to court judge ruled that although Austrian law prohibits publication of indecency of persons of the same sex or with animals, that the slogan simply claims a truth and does not portray homosexuality as better or more desirable than heterosexuality. The Viennese Public Transport Corporation is still refusing to install the posters with the lesbian slogan, claiming that female tram writers would feel offended because everyone would call them lesbians.

22:56

Plus beings in gay men all over the world celebrate themselves during the month of June, commemorating the 1969 Stonewall Rebellion, the birth cry of the modern gay and lesbian liberation movement. There was however, homosexuality and organized lesbian and gay groups before Stonewall. The following are excerpts from the homosexual in our society, and award winning panel discussion hosted by Elsa Knight Thompson, and originally broadcast 11 years before that famous uprising on Greenwich Village is Christopher Street panelist Dr. Blanche Baker. And now the shine society members Harold Cole and leek Gailey discussed many of the same issues we struggle with today. And although they may not deal with them in the same ways, they're obvious pride, and they're undeniable guts are a precious part of our heritage. settle comfortably into your Wayback Machine your DeLorean or other appropriate means of transportation, as this way out time travels to the San Francisco Bay Area in the month of May 1958.

25:18

You are, I believe the editor of the maritime review?

**Ruddy Johnston 25:21**

Buddy Johnston 25.41

Yes, the maritime society is an incorporated, nonprofit organization that is engaged in examining and doing something about the problems that face the homosexual. In our country today. The magazine is national, in fact, it circulates also in 18 foreign countries,

25:40

approximately how many members are there in the maritime society?

Buddy Johnston 25:45

Right now we have about 117 members, probably by the end of the year that will increase to 150. The interest in our subject is very great, but people are quite close to join. All of the members are over 21 years of age,

26:02

but the magazine itself would have a wider coverage than that I presume.

Buddy Johnston 26:07

Yes, indeed, it's circulation about 2500 copies each monthly

26:11

issue. Yeah, laughter. Is the homosexual classified as a medical case as a psychological case of what produces the that particular type of approach to life?

26:29

Well, this is quite a controversial subject, even in the medical profession. There are those physicians who feel that this is definitely a neurotic problem. There are others who feel it's a glandular problem. Many feel it's hereditary. Others feel that it may be caused by other factors. And I do not look upon homosexuality as an erotic problem. But more a basic personality pattern reaction. Just as some people prefer blondes and others prefer brunettes, I think the fact that a given person may prefer a love of the same sex is their personal business. Now, that doesn't mean that that homosexuals may not become neurotic. I think that they often do, because society is so hostile to them, and their own families do not understand them. So they're subjected to a great many pressures and a great deal of unhappiness.

27:29

Is there any acceptable medical evidence that this is a physical predisposition rather than a

psychological one?

27:38

Well, there will be some research which tends to show that homosexuals are tall and skinny. And other researchers will show that they are more short and fat with feminine curves. And then there are others that are show them

27:51

to be glandular theory as well. I

27:55

don't know that this is glandular. But you asked for a physical evaluation for a long time they've been researched made on them. And as far as I can read, they are dealing with just a broad cross section of the population. And I don't think they're actually measuring the factors which do contribute to homosexuality. My own views are that it's a very deep personal, psychological problem, that there are many factors in the early childhood, which affect a person, all human beings have both maleness and femaleness in them. Now, in America, we had too much the attitude that a person is either male or female. And as I find it, all the people I work with are mixed male and female. And when there are certain experiences in early childhood, it tends to throw a person more toward the male side or toward the female side, and that subsequent patterns develop from that.

Buddy Johnston 28:51

I think that this whole business of homosexual ism is just one of the things that exists in nature. It always has been with us as far as we know. And it always will be, as far as we expect. No laws or no attitudes of any culture in the past, have ever been able to stamp it out or even essentially curb it. Laws and enforcement of laws against homosexuality merely chases it out of sight.

29:20

Mrs. Gailey, you had become a member of this society, because your son was a member. That's true. Perhaps you could tell us something about this manifestation of expression of from the standpoint of a parent.

29:35

I think my first reaction would be a universal and it was shot. Here was ostracism for me and for my son. And it was shot. Well, basically, I loved my son, I wasn't about to put him out of the Family Circle, just because he had to have a different set. Your lab dude. So I decided that I

wouldn't try to understand. And you know, in fear, the big part of fear is the unknown. As soon as you start to understand some of the fear leaves,

30:17

so Dr. Pillai, so appreciate what you've said, one of the factors, which I think is so important to realize, is the fear that it may be in us. Maybe we've been a little too exuberant in expressions that we were surprised that and so we will often persecute a person. Because we don't want to face the truth in ourselves.

Buddy Johnston 30:42

Fear is one of the biggest things we have to contend with. We get many, many letters from all parts of the United States, from people in all walks of life. And people in the armed forces, people of all ages, who have maybe either just discovered they are homosexual, or they have known it for a long time and want some kind of help. And we find it when we even recommend that they read publications, which we produced, many of them aren't afraid to, they're afraid to have their name on a mailing list, they think that some authorities are going to seize it. While that's never happened, and we don't believe it will. Otherwise they're afraid to even be seen reading material on the subject, because they feel that to be seen, taking an interest in the subject is to be wearing a sign or a mark of cane or something like that, which says they are

31:34

fun you have to do is walk around town and into the bars and see the screaming Mimi's which are the ones that the public judge most homosexual by because they are so obvious. If you walk down the street or if you walk into an institution, you cannot pick out the homosexuals. That is the heterosexual half of them you don't even recognize but they do work under that fear all the time I'll being detected.

Buddy Johnston 32:02

We hear from so many homosexuals who urge us to please preach that the flamboyant individual should not show off and shouldn't be obvious so that he receives the ridicule and scorn of his fellow man. Well, we feel that there is a more basic problem to get at that will in the long run if it can resolve take care of this and that is to educate the public so that its attitude toward these people who are displaying these mannerisms can be changed in the mannerisms will no longer be of any significance and whether they're recognized or not. It won't amount to anything.

already have a few words for KPFA

 Harvey Milk 43:09

come on out.

43:10

China's bring a friend waiting by the turnouts

H Harvey Milk 43:15

well it's never enough never enough never enough. We must destroy the Miss Swanson shadows. We must continue to speak out capers come out the other way you think about it. Well, it's never enough. Never

46:31

You matter with me now

H Harvey Milk 48:00

you ready You ready

48:54

that's why we're here isn't it may I remind you that love is against the law that love as we know it is a criminal activity that lovemaking involves illegal acts. We are here because we have committed them and we enjoy them enormously

49:35

we are an army of lovers. That is a fearful thing. We are the only minority group also that you can join overnight

49:56

in the twinkling of an eye in fact

50:07

We who have committed the crime of loving. We are freedom always more risks than servitude ever offered. We dared to no pleasure. May I say pleasure again, I don't think it's been mentioned much today. We had guts enough to love. They tried to cover this with guilt, shame, dishonor. They made it as awful for us as they could. But it was wonderful. It is getting more

wonderful. Fellow criminals. Never forget your knights in the days of your fighting for their freedom. Remember this experience. It is the tenderest finest moment of our lives and in the clamor for our civil rights, always remember that they never granted them nor withdrew them, they only stole them. And remember most of all, that we have so much more to give them than they have ever taken from us. We have been places we have known things, scenes suffered, feared, felt experience experienced ecstasy, hell wonder. All through our illegal acts. They have brought us the full richness of the human experience. Our freedom finally, when they understand it, it last is theirs. So keep loving, keep making love. And soon there will be enough. Thank you.

Hi, this is pokey Anderson. And I'm Cherry Wolf. And we have a quick quiz for you. What's a feminist? A, someone who hates men. Me? Someone with no sense of humor, and no bra. See? Well, gee, come on, you can come up with something. Well, it just takes too long. You can't say it real quickly. Well, if you really want to know tune in, to break through Friday mornings from eight to 11am on KPFT Houston. I remember listening four years ago when I was walking through an amusement park holding hands with my lover and was called queer by a child six years old. And from that day forward, I've been all too aware of who the child molesters in this society are. They're gay and lesbian people hanging out here. What's your reaction to that? I have a little boy

the queers want equal rights. Why don't you

∅

53:42

do it your mother and father led you.

To the sounds of the waves brushed up against the sand where he has written both of your names with a heart around it. You are looking at the sky burning red with a sunset. Quickly a car drives up alongside of you you stop for red light. Suddenly the car is surrounded, they circle

your blanket coming in closer bottles are thrown out of car windows, the sound of glass breaking baseball bats against metal had grabbed your hair last at your feet in your face in your eyes, a fist across your face again and again die queer tell them.
