SPEAKERS

Chris Harrison, Jimmy Carper, Dean Becker

04:49

Right me all day long showing speed living don't love me

06:57

You say you love me right yeah yeah what are you sacrificing for me what am I worth to you
was your love was your commitment to me what is your trust oh you don't meet me

09:20

day

09:52

Things are never seen by hip hop on it to me are one way to get around the world and execute
boys and girls and guess who's bottles of wine juice oil, which a crap toilet upstairs and paint to
inject me surgeon for some breathtaking height something that will bring it all back for me
music supposed to soothe the soul is by the whole Bob Marley to Nat King Cole this kind of
music is my brain and keeps my soul from the money I search for sounds have my moments I
just can't land I learn to love and duplicate them really alarm and ask for Miles Davis was dolls
they hypnotize and helped me love it I fell in love with love for this company in again because I
feel his music is my only friend fell in love with love for this going around the world I'm
probably gonna hold this music is more than a trend

11:13

took a trip to Tanzania where the vibes are fresh no PRs but the music I've been holding my
chest they might struggle as drive but this hip hop survive this music in line divide the equator

and mixtape hits like quakes in Grenada use join in and learn not to judge by the color of your skin don't overcome in what shade or hue you don't make noise or your shade or crew they judge skills and content if your passion is constant it's up sharp Interio while some get lucky and jump but don't have the function to me is they'll never hear to hear two months they'll never hear they'll never hear

12:17

fell in love with using color for this user going around the world I probably come in again for this for this sometimes I feel this music is my only friend fell in love with music I love for this user again around the world I probably come in again but I love for this for this user gotta hope this music is more than a trend brought out this music is more than a track this basic

The following program contains some language or images of more sensitive nature which may be considered objectionable by some discretion Oh yes, you've tuned into after hours queer radio with attitude right here on KPFT Houston 90.1 FM. The crew of after hours is ready to bring you news interviews dialogue and music geared for gay lesbian, bisexual and transgendered people and their friends. Hear it after hours, we may be diverse. But we have one thing in common. We are all out of the closet and urge everyone to come out of their closets. That means standing up for yourself taking responsibility for your own life and being proud of who you are. Realistically, we know not everyone can do that because of age job or frame of mind. That's okay, we're here for you too. So sit back, relax, and enjoy this week's edition of after hours. Hello, Houston and Galveston in the world and welcome to the Saturday August 28 edition of after hours queer radio with attitude. I'm Jimmy Carper. I'll be your co executive producer for the evening.

C Chris Harrison 26:16

And I'm Chris Harrison. The other one Yep,

J Jimmy Carper 26:18

P Sure is. Want to tell you about the music that you just heard a little twisted little twisted twisted of twisted from a relatively new CD called The Rocky Horror punk rock show. And I'm happy to announce that there are at least two queer bands on there. The two that I played what is that?

C Chris Harrison 26:40

Anyway? We are gonna have to spank him

J Jimmy Carper 26:42

no I see me first and the gimme gimme ease with science fiction double feature and pansy division with I can make you a man. Gee, I wonder how they got that one. Man just Every song has a different group on it. And I've heard the whole thing I was only I was only disappointed with one song. The rest? Which one? I am good. Damn good. It was where is it? I think it was just sweet transvestite. I was very it was just kind of weak, weak, but at least to queer bands. I'm not familiar with any of the other ones. But they're all all punk rock chips.

C Chris Harrison 27:29

That's our next step is researching.

J Jimmy Carper 27:31

I guess I guess now let's see some community events going on. This I was handed last night from the one of the triad members of the Houston area bears because they are celebrating their 10th anniversary man 10 years. marries naturally of course September the 18th at 9pm 5050 raffle jello shot. So my goodness hosted by Mr. Leather bride 2004 Lloyd Powell and Mr. Third Coast bear 2004 Jim Crawford and there's going to be a bear contest for barware bear as you dare anywhere.

C Chris Harrison 28:18

God scared first

J Jimmy Carper 28:20

place winner receives a medallion title plus cash prize open to everyone see a triad member or register to register or go to dub cubed dot Houston area bears.com. And that is b e AR s

 Chris Harrison 28:38

until the show starts and it's B ar e

 Jimmy Carper 28:42

especially with this bear as you dare category. I would like to get in on that one. We've got ticket giveaways tonight. Yes indeedy, we will be doing that in just a minute and this is tickets for an event coming up next weekend. Labor Day weekend. Over at South Beach. You want to stick around for that. That's right. court report we've got Sunday, Sunday, Sunday, August 29. That's like tomorrow is Shawn Carter at the BRB at 830. Doing the rhinestones and something else so I didn't write it down. Okay, it's it's it's gonna be okay. Why don't we just did that was IC O H. Space city empire. But you've got

 Chris Harrison 29:42

the risk. Yes. The Empire of the world and sovereign imperial court of the single star is next week Labor Day weekend, the peasants versus monarchs weekend.

 Jimmy Carper 29:52

See, which I see. Right. It's just had that this weekend. And I don't know what the monarchs did because they their show was tonight and Stanley came in so I had to go to the airport. But last night the peasants show brought in \$1,039. I don't think the Royals can beat it.

 Chris Harrison 30:12

So if someone out there knows the results, I'd like to call in let us know.

 Jimmy Carper 30:15

Yes, please at 713-526-5738

 Chris Harrison 30:21

by theorists because monarch peasants versus monarchs weekend is next weekend, where the monarchs and peasants of the court have challenged each other to raise the most money they can. It's going to be supporting the assistance fund medication program. The mantra is clinics women's program. Both of those to the risk is coronation 21 on Friday at guava lamp, a spiritual upheaval, hosted by peasant Royales Chris Beck, Chris Mendoza, and Tony Stark in test Tamar

and Jackie Thorne. On this evening, the peasants of the quarter challenge raised the most money they can, and it's at the guava lamp at eight o'clock on Saturday, September 4. Also with guava lamp at eight. The risk is Houston turnabout show. It's where the boys become girls and the girls become boys. That's scary. And the performance shows as to which hat the money goes into for the monarchs are the peasants, oh, then two big events on Sunday, Sunday, Sunday, Sunday, September 5 at the BRB, starting at five o'clock is the monarch cookout hosted by the monarchs. And after the afternoon of steak and burgers and all the fixings. That's nice. And then at eight o'clock Long live the monarchy hosted by the monarchs. It's the final evening of the challenge weekend. And on this evening, the monarchs will get to show the peasants exactly why they're the monarchs and try to raise more money than the peasants do. So different next week for the risk kiss on the Friday and Saturday at eight o'clock both night at the guava lamp. And then on Sunday at the BRB starting at 5pm.

J

Jimmy Carper 31:55

Okay, this past Tuesday, I went to the Holocaust Museum, Houston, because they had a presentation of the play bent by Martin Sherman. It was really good. I was surprised. It's a very small stage. And there's they held, the theater holds 100 seats, and they had to bring in about two dozen folding chairs for the overflow. Yeah, that too. It's being presented. Also August the 30th and August the 31st. At Holocaust Museum, Houston, 5401, Caroline Street, at eight o'clock, Tuesdays and Thursdays are 7pm. So for

C

Chris Harrison 32:45

those of you who don't know what bent is, it is a play about a gauge you during the Holocaust, who hides his homosexuality, and just goes into the concentration camp as being Jewish. And he befriends a person who is openly gay and Jewish. And they form a relationship without physical contact. Yes, and it's an emotionally I got to see the movie. Okay. And it's an emotional thing going through and seeing this, you know, the portrayal of death camp and what they're working on what they're having to do, yes, to keep occupied in a concentration camp. Just because, you know, we're going to work these people to death. And you know, the lowest rung of the ladder, in that society was a gauge you and or nada man. Yeah. But this is a it's a very powerful play I like so I got to see the movie version of it when it came out a couple of years ago. But it's a must see, really, for anyone who wants to understand some of the culture of not just our community, but you know, what was going on in Europe, back in the 40s. And

J

Jimmy Carper 33:57

it's being done in conjunction with the special exhibition of Nazi persecution of homosexuals 1933 to 1945. And that's running through September the 19th. If you haven't been by to see that, I suggest come early, you know, six ish, or even earlier, to see that exhibit and you will, you know, be able to also go in and see the play also. They have a small exhibition of some letters from Anne Frank. And Hi, Anne Frank. Yes. So for you can do three things at once their museum that's at 5401 Caroline Street, and the play is again August the 30th and August the

31st. The those are the final two performances. Joe may bring that this is a Joe Watts presentation. And he may it's not in the cards yet. It may bring that back to theater theater West.

 Chris Harrison 35:04

Well, I mean, if you can get 100 people to sit at the Holocaust Museum Houston for it.

 Jimmy Carper 35:08

Yeah, yeah,

 Chris Harrison 35:10

there's there's a call for, for program like that.

 Jimmy Carper 35:12

And of course, there was a lot of a lot of gay people there, but quite a few straight people was surprised. I didn't expect that many straight people to be there.

 Chris Harrison 35:22

And remember, this is also the play that launched Richard Gere's, rumours of homosexuality.

 Jimmy Carper 35:26

That's true. Yes. There is no nudity in this.

 Chris Harrison 35:32

There wasn't in the mountain, right? Yeah, right. Yeah, it's it's an it's an untraditional gay play. There is no new today. As I said, you know, the relationship it's non physical relationships. Right. And it's, that's what I think. I think in a way, it's a little more powerful. I think so too. Then Then if you actually saw it, get saw the physical context. It's

 Jimmy Carper 35:52

in an emotional level. Yeah, yeah. The upcoming events. All Houston cover girls are invited on Saturday, September 4 at 730 to lock kink.at Will crest and Katy Freeway in the back building by the Denny's back parking lot. Groom that too 97 to the Open Meeting of Tao chi. Lacy lay

from Phoenix, a fantastic motivators, motivational speaker and author of The emancipated crossdresser. And the seven secrets of the successful crossdresser will give a program not to be missed. Join us to hear Lacey and enjoy some great food Pete Please RSVP if you can. And then on Saturday, September the 11th at 815 is the next Tao Chai. Elegant ladies night out. We'll be at the great Caruso dinner theater. Oh, that's cool. We will enjoy a three course meal and the musical Footloose with the music from the 80s. The cost for the meal and music goes 40 bucks per person that's about the going right there. And RSVPs are required. You do not have to be a member of tau chi to attend the great Caruso dinner theater is the ultimate place in Houston to be out on femme in your best dress anymore. Yeah,

 Chris Harrison 37:20

I got a couple more things here. Just reminder all friends, neighbors and co workers at the Mr. Third Coast bear and cowboy 2004 Yeah. Jim Crawford and Christopher Prado will hold a benefit show working hard for the money on September 4. Which is that next Friday, I believe Saturday. Okay. Next Saturday held from nine to 11 at EJ is yes. The show's open to all performers. Past and Present title holders are encouraged to attend. The show benefits pennis Pegasus production titleholder traveling Fund and the IC o h.

 Jimmy Carper 37:58

And I see awaits money this year is going to the Montrose clinic for breast cancer and no hepatitis C and HIV testing.

 Chris Harrison 38:11

Also, invite everyone to the 2005 Miss third Coast diva contest a camp tribute to Stonewall being held on E J's Edie J's on just stranger picking it the state of doing anything Saturday September 11. The name just kind of sticks out that date kind of sticks out in your memory Yeah, contested packets are now available the main BB e J's for those who wish to claim the title of diva proceeds are benefiting Montrose clinic

 Jimmy Carper 38:41

this will be officially diva, not just some title you take yourself. Notice

 Chris Harrison 38:46

what's his capital diva o capital all four letters are

 Jimmy Carper 38:49

capitalized. So this is the real diva Yes. Okay. So I

Chris Harrison 38:53

really can't apply. proceeds benefiting the Montrose clinic women's health programs and the colt 45 receptions show starts at seven. The GLBT pride party at eight contest starts at nine everyone's day if you want to be there, check in by 645 special guest judge Miss Kelly Lauren, and so Houston finest titleholders performers will be in attendance like buffet basket raffles and Community Service Awards President represented. So that's on Saturday, September 11. At PJs starting at six. And if I don't think baring and friends presents Knock knock, who's there? A musical September 30 October 1 and second. The proceeds will benefit the bearing support network, a ministry of bearing Union Memorial United Methodist Church. There will be a gala and silent auction on September 25 at the Magnolia ballroom as well. The performances will be at the church. For more information call baring United Methodist Church at 7135261 017 Cool,

Jimmy Carper 40:03

and now it's time for our ticket giveaways. In conjunction with Charles Armstrong investments we have let's see two sets of tickets to this event, Labor Day weekend, Sunday, Sunday, Sunday, Sunday, September the fifth, the South Beach premiere of producer remixer, DJ Paolo. Direct from Los Angeles. He's done the white party in Palm Springs, the black party in New York City, the blue ball, and Philadelphia, stereo Montreal Queen Miami. Events tickets are at 15 bucks. So it's probably 20 bucks at the door. And we have two sets of tickets to give away for this event, the drink specials and all kinds of all Sobey resident DJ Jimmy Skinner opens DJ Paulo takes over the tables from 1030 until five a m Hello this is this is all nighter. This is an all nighter

Chris Harrison 41:12

because you can go all night still.

Jimmy Carper 41:14

So if you'd like a set of these tickets, first pair of tickets we're giving out we're gonna probably give away both pair right now. Why not?

Chris Harrison 41:22

Get it over and done with Yeah. At

Jimmy Carper 41:25

7135265738713526573

Chris Harrison 41:25

CHRIS HARRISON 41:33

A and callers watch? Two and Three? Yep. Two and Three, two and three.

Jimmy Carper 41:42

There's caller number one.

41:43

Somebody calls

Chris Harrison 41:47

do we want to do this now? Or do this the students now do

Jimmy Carper 41:51

this? I don't know the weather. Let's not give the last name.

Chris Harrison 41:55

That's why we're not handing it to Roy. No.

Jimmy Carper 41:56

Okay, good idea.

Chris Harrison 41:59

Vicious, aren't we we got a whole note in the mail. We

Jimmy Carper 42:03

are great note in the mail.

Chris Harrison 42:06

And unusual enough, it's not from one of our MBBS who we will be talking about their letters later. It's a check included in here. And it says KPFT radio after hours. Please accept this gift and remembers of my best friend, loyal and devoted first cousin Paul. Paul passed about three

years ago from AIDS. Yes, he was gay. But that didn't matter to all of at all to my wife and daughter. We loved him and respected his requests. Paul was a regular listener to after hours, and we enjoyed it. Enjoyed it and several other programs. It's not what I it's not what I would like to give, but it's all I can give at this time. Many thanks for your work and KPFT.

J Jimmy Carper 42:54

That's fabulous. That is just fabulous.

C Chris Harrison 42:57

And I mean, this is the vacuum we we do our fundraisers here, you know, it's it's difficult getting people who listened to the show regularly to contribute during the fundraisers. Yeah, and here's, here's a person who isn't a regular listener, his his cousin was and this show meant something to him to the cousin enough that posthumously to become a member of the station. And you know, it's very touching that curve researching that, you know, just this in a way it also helps us now, you know, there's people out there listening to us besides the MBBS.

J Jimmy Carper 43:40

So I want to hurry up and process that so that man can be a voting member in this year's election for new members to the Local Station Board.

C Chris Harrison 43:52

So we thank you, Larry, for your your donation. And you know, and thank you to Paul for bringing you into knowing what's a part of our show is yeah, okay,

J Jimmy Carper 44:03

yeah, hatch is waiting in the wings are getting kinds of anxious. So it sounds like Well,

C Chris Harrison 44:09

I think it's their topic they're planning on discussing, you know, it's stimulated their hormone I see. As a teaser. I see

J Jimmy Carper 44:16

the second segment tonight, at about quarter of two, somewhere between quarter F and two o'clock. We will be having the leather line. And believe it or not, I've got an opening piece of music for both segments from one artist who is creating. It's from a new album by Jeffrey alter gut. That's his name. Alter got a LTRGOTT Sounds kind of German, kind of the name of Veda is

called runt and there is A picture of a little pink pig on the front so that can give you a little bit of an indication what's going on here and since well, I have got one for for the leather folks but since the hatch folks told me what their subject was going to be I thought this would be a really nice one to open their segment it's called Kiss Me and it's by Jeffrey alter goth you're listening to it on after hours queer radio with attitude right here on KPFT Houston and

 Chris Harrison 45:37

a 9.5 in Galveston

 45:59

and then my hands one so toys no stranger to this

 46:15

validate

 46:23

his make his make his make his make his make his

 46:36

flipped then wrong look if people want to be so

 47:00

validate me

 47:09

may kiss me kiss me kiss me kiss me kiss me

 47:37

way

 47:47

over

• • •

48:00

the new world you know me okay just make his make his make his make his make his
make his me kiss me

48:32

kiss me

C

Chris Harrison 48:44

Yes, that was Jeffrey alter got with runt is the CD and that was kiss me. And it is time now. For hatch.

48:55

Thanks. This is hat. This segment has Hello Houston area teen coalition of homosexuals. And I'm Brian.

49:06

I'm Alexis. I'm calling.

49:08

I'm Joe. And I'm Brendan

49:10

Burns, our wonderful facilitator that takes time out of this one Saturday nights to put up with us.

49:15

It's just I have nothing else to do on a Saturday night. Okay. Well

49:19

at least you're here with us

Chris Harrison 49:20

And he came in sweating bullets tonight. Yeah, maybe.

49:26

And we're here to talk about sex

49:31

and gender roles and gender roles. We're not going to do anything graphic or obscene. So that the FCC doesn't come after us with a I'm not going to talk about

49:41

how to have sex. No, we're not for yourself. Right.

49:44

But oh, we're gonna talk about things like gender roles and, and age, consent and all those kinds of things, general attitudes, attitudes about sex, all those wonderful things that deal with sex in general as it relates to gay youth right? What Here's what this segment is about. Absolutely. So

50:06

actually, I want to start it off, there's something that I'm really, really upset about. The State Board of Education has just approved two or three books for sex education classes, two of which don't even mention the word condom in them. I find that very offensive. I find it and then the other one just briefly mentioned contraceptives. It's all focused on abstinence. And I find that very offensive and very wrong. And I was talking to my doctor, and he said that when he goes to speak to high school groups, that he can't mention contraceptives, specifically. It's ridiculous. But

50:46

it's I think it's silly to do that. Because, you know, of course, abstinence is best, because it's the only way to, you know, abstain from drugs, and sex is the only way to ensure that you don't get, you know, diseases, you know, or get someone pregnant. But

51.01

T0:15

there's other ways to avoid disease.

51:04

Yes, but if you're going to have sex, then you should be safe. Because it's really, it's the responsible thing to do. All right, to be you know, to be safe, it protects you, your partner from diseases, and it protects, you know, and it protects you from pregnancy, if that's a concern for you, in particular,

51:21

at the places where they really, really don't tell you anything about how to have safe sex. Those are the places where they have the most rates, like and STDs and

51:30

everything right, actually, that's very true. Right?

51:33

Which is why it's stupid. And they should see the connection there that yeah, if you're not teaching how to have safe sex kids,

Chris Harrison 51:42

it's going to happen anyway. Yeah. And to sit there and think that it's not. It's stupid. It's not, Oh, my God, because blind and you know, it's, we're

51:54

gonna die possibly from it. Like

51:56

you should see this movie mean, girls, because the guy there he's like, if you have sex, you will die. This is the this is the sex education teacher is a game of sexual die. Well,

52:08

apparently, that's the kind of message that are sort of the State Board of Education wants to send out to everyone, right? Or the I guess the whole premise is, if you don't know about it, you

won't know what to do

52:19

with chlamydia and die. Yeah, that's true.

52:23

You know, I wonder if these parents are thinking about what's going to happen when they're when their children graduate and go to college. Now, they're all on their own. They're away from home. They're adults, they're adults. And potentially, they're going to be in a situation where some of them may not know how to properly protect themselves. Right. And that does happen in this day and age. I know, you guys are an educated group. I mean, you know,

52:50

yourselves, but a lot of people don't, aren't the only ways that schools are funded if they teach abstinence and that right,

52:55

in Texas, at least, their federal monies that cover six educational, so and that's it's I'm not sure how, how it comes in. But I think they're pushing for abstinence only education, because that's what certain groups of lawmakers and people feel that way. But it's just not very practical.

53:16

I think that's true. But I think maybe if they want you to make themselves feel better, they should emphasize abstinence, but they should also tell you otherwise, that's how they did it in high school, they would say the best way to not catch anything is to not have sex. But if you're going to do it, which you need to do is use a condom, you know, right, all that kind of stuff. Because there's other places where they don't say that at all. All they say is don't do it with

Chris Harrison 53:39

a spermicidal. Jelly for pregnancy, wrote for

53:44

pregnancy, because we know nocturnal nine, which is the spermicide it increases the risk of HIV transmission. Yeah, that's right. Because the it opens up the pores larger. So that's the problem. If you're not certain about pregnancy, pregnancy, then you don't want to use

Naloxone online.

54:01

That's right.

Chris Harrison 54:01

But yeah, I mean, we're talking I mean, this is a this is the same type of government mentality that the global AIDS policy that President Bush has been pushing on Africa that if you want money from the United States, it's what they call the ABCs. You know, abstinence First, be faithful second condoms, if necessary. Right. And, you know, we're getting a lot of case where, like, you're saying, I remember reading a report a couple months ago that teens who have taken the abstinence pledge, actually have a higher rate of STD for those who don't take it. Because, you know, they can't use the condom because, you know, that's a sure sign. Right. Yeah.

54:42

That's an amazing statistic of having that. And,

Chris Harrison 54:45

you know, when my brother was one of my brothers was a early starter he was caught when he was in kindergarten. He was a child prodigy when it came to sex. When he got older, you know, my pet I just started buying condoms for him. Because it was it was necessary that you know, it was happening. And at that time, I was very devout Catholic. And you know, my parents asked me if I'd have any problems with I said, No, the boy needs it. So that was one of his Christmas presents one year was it was a 12 pack.

55:21

Just get it for free. Well, yeah, I give

Chris Harrison 55:23

my brothers the the safe six kits, pick them up in the bars and all that, and I'll take them before they got married. You know, here's this, and my father saw the one pack. And he's like, Well, what's this one thing I had explained, it was a little container of lubricant that comes with it. Yeah. But I mean, we're talking about with sex education, that nowadays it's, it has the potential of sex equals death, like how they were saying the one instructor meant the work set. And I mean, that's a scary thought that there's people going out there thinking that they don't

have to, not knowing that there's a protection than just, you know, just sitting at home and reading the good book, should take away those impure thoughts. Well, I've glanced through that. And, you know, there's some pretty hot scenes in there.

56:13

And, you know, unfortunately, there are going to be youth that don't know, that aren't informed. And even though they're, they're 1718 years of age, amazingly enough, there will be those that won't know what the risks are, and how to avoid those risks.

56:29

I mean, at least if you tell someone about condoms, and they can make an educated decision, hopefully they'll use them, because they'll know that it's a safety issue, as opposed but, you know, at least I had the choice of saying, you know, I'm going to be monogamous with this one person for the rest of my life. And therefore, you know, if we both tested clean, then we don't need to do that is that's what they want to do, that they at least have the information so they can make an educated decision. Without frying. If you don't provide information, then you don't have any idea of whether or not what to do, because you can't make a decision. There's someone made it for you. Which was definitely

57:06

I have a question um, with just abstinence only do they teach about STDs? Or any of that? Or just like, just don't do it?

57:14

Oh, you know, I'm sure they do teach about STDs. I can't honestly say, because then

57:18

they'll be really in the dark. Their

57:20

biggest fishing point, actually, they'll give you the little slideshow of all the STDs and basically scare the hell out of you. And then be like, Absolutely. No other option. Just be like, This is what you'll get it.

Chris Harrison 57:39

I know. It's I know, it's a scary signal. I'm showing you there. But just getting closer to the

microphone. We could hear you but it just was a little faint.

57:45

Okay. Sorry about that.

57:47

We heard you.

57:50

Anyway. So as gay youth, do you feel like the the high schools or the health education? Do they do a good job or a bad job?

58:00

My program was good. But I think I knew everything I need to know before I went in there about safe sex. So I think I mean, I can't remember. Well, but I know that they told us I know, it wasn't just abstinence only. They told us other ways. At least my coach said, I don't know. I

58:18

ended take two different programs. There was one in middle school when I went to private school, and that one was actually pretty good. It was great. And then I went to public school. And it was a joke, of course, because that's the one that the state makes you take and we do things like watch rocky for and before striking an essay on steroids. And oh, no, yes, yes, this is what they did. We would watch stupid movies and write essays on them. And this is their idea of education. And all we ever did the entire semester was watch that one slideshow, which I'd already seen before in middle school, so it didn't have any effect on me whatsoever. And then after that, we just stopped talking about it.

58:57

Nevermind, my school had a really good program cuz we did a lot more than that.

59:04

It was kind of funny listening to this. At my school. I went to a K ISD school. I don't remember ever having a sex education course. Which K Katie, okay. Yeah,

 Chris Harrison 59:18

I was I was at another KSDS while checking. I went to Klein

 59:24

really didn't say anything. I

 59:26

don't remember there ever being anything said from our health class. Even in health class. I took health. I don't remember anything being said about sex.

 Chris Harrison 59:36

Because that's I mean, that's where my, my high school we had in our sophomore health class, basically, because my teacher was a football coach. He was the head of the Fellowship of Christian Athletes. So basically, he took us over to some other person's other teachers classroom and we sat on the floor and watched with her class. Oh, that's ridiculous to watch the sex education film, and then a couple days later he showed us some motivational speaker. Things Roy RAM Raymer. He's a televangelist who's a Vietnam veteran.

 1:00:09

What a great name.

 Chris Harrison 1:00:11

I think I've read raymor or whatever I forgot, he's one. If you've ever seen the televangelist, one who he was burned by a phosphorus bomb in Vietnam, I

 1:00:22

took a class who was required to take a second class in my school. I had one guy was six,

 Chris Harrison 1:00:29

I had one in fifth grade, and then one in 10th grade. He's out was out inclined back back in the day.

 1:00:38

Yeah mv wasn't called Health I took a sex ed class like we have

C

Chris Harrison 1:00:43

someone else here who wants to? Well, I know that it's worth digging back into the archives of sex education. I was actually, impressively so for the all in Independent School District, the first year that they gave out aids a guide to survival. And that was that when I was a freshman in high school, and I'm 31 now, so I was 14 or 15, then, and we did cover AIDS and HIV for six weeks. And I had a pretty young, good looking teacher. And so he was really laid back. He was a coach, but he was really laid back about the sex talks. He thought it was great. And we had to write reports every week on AIDS and HIV. But when it came to the, the, the Movie Talk, or the everyone knew in the school that if you wanted to go talk to someone about STDs or the possibility of having one, there was a very Butch open lesbian softball coach. She was like Miss STD. We had that one covered. That's funny.

Ω

1:01:49

My coach always gave us extra information that I feel that we didn't need to know. Was, well like, what time we were sitting there. And I remember he was like, I bet you're asking yourself, you're half a wreck. Can you ejaculate at the same time? And that question is yes, it I can't remember what we're talking about. But I remember him saying that I was just like, why would you tell us that? It was like, but you cannot pee in ejaculate at the same time. He always told us a lot of extra information. I feel.

Ω

1:02:17

I know, with my sex education experience in upper elementary, because fourth, fifth and sixth grade at school I went to they had I think that I think when I was in sixth grade, they had sex education for the fourth, fifth and sixth graders. And then they and they talked about condoms. And I thought that was like, I thought it was really good read. Yeah. Oh, my

Ω

1:02:41

creepy. Yeah.

Ω

1:02:43

Well, I mean, we it how old? Are you in fourth grade?

Ω

1:02:47

Aren't you mad old enough to understand what

1:02:52

I think I know in Europe, I think they talk about condoms and sex education very early on. And

1:02:57

in middle school. Deaths or had someone come in from Planned Parenthood. And wow, from Planned Parenthood. Yeah. And give us information. And what

1:03:07

country did you go to school? What state did you go to school? This one? Oh, okay. But

1:03:11

I would private school. Okay, so so that's why. And, and I know that, that one girl left because her parents disagreed with the opinions that were espoused by Planned Parenthood. So they she laughed, and she went home for the day. But other than that, everyone attended and was very informed. And it wasn't particularly graphic or anything. It was just very factual and, and that's the good thing about high school. We had, I think, one talk that relationships between boys and girls, it was very sketchy. There was absolutely nothing having you a sec. I mean, it was like this would not have gone over, you know, with either of the headmaster's that were at the school at the time. And it just, it just wouldn't have happened.

1:03:54

Yeah. Really. We

1:03:55

talked about gay couples in my class. I don't know maybe my coach is just one of those guys that you know, you always get that really cool laid back coach. That's really cool. I think it was just him honestly. Although we didn't talk about it. Because it was like in my class,

1:04:08

there was no mention whatsoever. Homosexuality in my class. So that was my I think

1:04:12

it's really naive that everyone's like, if we don't talk about it, they wouldn't do. That

1:04:17

is a good question. What do you guys think? Do you think if if, if we take sex completely out of the school systems that that will lower the percentage of teen girls?

1:04:26

Because I know people some kids experiment when they're really young? You know what I mean? And they do stuff with other kids. Sure. They're little. I know, I've heard stories. I didn't participate. But I heard stories. Anyway. Yes, if you would do it.

1:04:43

I think the best. Oh, go ahead, Alexis. I think the best solution is to give people all the facts and then let them make an educated decision for themselves. Because you can't make a decision for someone. Because, you know, if someone did that with me, I'd be a little you know, pistol pissed off. Yeah.

1:04:58

So it tells me that Do Something good do and yeah,

1:05:01

exactly the same way. I mean, I don't go ahead and have sex because it's a doctor sex. But you know, I'm smarter than that. But usually, you know, it really irritates me really irks me that, that people are not given a choice. It's like, you must work this way because it's the right way, the right way in quotation marks. For those of you who can't see me in the studio here, and it's like, it's just silly.

1:05:25

I think it's kind of scary that ignorance is being preferred to informing. Yeah, that's kind of frightening.

1:05:36

Oh, I think it is, too. I mean, I think I heard somewhere that Texas has one of the highest rates of teen pregnancy. Of all the 50

1:05:42

I believe it oh my god, you can walk down this crystal, my high heel believe that we have the ~~biggest teen pregnancy~~ !

biggest teen pregnancy. I

1:05:49

heard Galveston was one of the worst, which concerns me because I used to live there. So

1:05:54

did she have like, okay, every year at least four people in my like in my class, like the junior classes she and class get pregnant?

1:06:03

Do you think talking about sex education? How to protect yourself when you're having sex, for pregnancy or for STDs? Do you think that effectively lowers the rate of STDs and teen pregnancy? Yeah, for

1:06:17

informed on how to keep safe, it's a lot easier to show options and just be like, don't do it. Because there's a lot of people that aren't going to be there to do it anyway. Yeah. Right.

1:06:26

I think it certainly can't hurt.

1:06:27

Yeah, I mean, telling people how to protect themselves as is, if they don't know how to protect themselves, because they haven't been told, then they can't. Whereas if they, I mean, some people that might have protected themselves are probably going to do it. If it has information, but they won't if they don't, because they just don't know about it. What ended

1:06:47

I think just knowing all the STDs is a good and honest if you can get because that's what's always kept me really safe. Just knowing that I can catch all these different things. That's what's always kept me like really careful. Yeah. You

1:07:00

know, some people will have an STD and not even know it, they'll, they'll have the symptoms,

and they won't even know

1:07:05

this, it goes away. And then like, oh, it's gone.

1:07:08

Syphilis, you know, it goes away after a few days or a few weeks. And then it comes back and then we were you know, if you don't kill it soon, then you were sure stage already told us and you're brand new to bring the text pristine, right?

1:07:20

Or it takes a long Yeah, we were talking about it, people will be praying and they think I'd saved them because you went away. Because back in is like

1:07:30

I guess he changed his mind. What do you think's lacking in sex education, as far as a gay youth is concerned?

1:07:40

You mentioned would be at least I mentioned would be it would be nice to get such sex education program.

1:07:45

But then again, like most kids in that class, they're gonna be like, Oh, I don't want to hear that shit. You know what I mean? Which is why they're probably like that most centers when my teacher said something, all the other guys in the classroom that go to those groups, you know, I was in at a time don't say yes.

1:08:03

As I was saying, My church is sort of the seventh or ninth graders. They have a sex education program. They've been church at the church. Yeah, I'm a Unitarian Universalist, oh, that's very liberal. And it was called Ayas at the time about your sexuality. And it's called owl our whole lives. But um, it's the program for seven nights and intends to 12 and that tends to draw focuses more on relationships, where some of tonight's focus is on, you know, the mechanics, etc. And so they said, you know, they actually gave the entire day, it was like, several days

long, you know, every Friday to Sunday or something, and you'd stay over in the church and they go ahead and they gave an entire session to mention that homosexuality and stuff so you know,

1:08:50

Vice was funny I remember we did a whole day on how to know if you're being abused relationship that's good.

1:08:58

That's good information to know

1:09:02

That's actually great. It's been sort of the rocky for what did you learn from Rocky rocky for?

1:09:08

I learned that

1:09:10

you didn't even watch the pregnancy video. You didn't even watch the pregnancy video? No,

1:09:14

we did that in my private school, that program. But I can remember at even the private school system, what we did, one of the things we had these crossword puzzles where you had to fill in all the like, different parts of anatomy and like this was their idea of sex education like ovary

Chris Harrison 1:09:39

I would love to see them lose they gave you

1:09:42

oh my god, they did have cozier so the sad part was most people cheated because they didn't even know.

1:09:52

I would have cheated. Anyway, yeah, we weren't surprised. I mean, I fell asleep during it. movie but watch. I kind of woke up when the baby was coming out and they're so graphic because they get all in there and you see like the head popping

1:10:07

out that's pretty. What's really funny. Is when it when that movies playing Yeah, the tape if you rewind during that

Chris Harrison 1:10:22

did you make a slurping sound? Did I go there? Fortunately, Jamie didn't know what you're talking about. So well

1:10:37

what do you think about gender roles within the,

1:10:39

I think I don't believe in gender roles.

1:10:42

Kind of moving the discussion, maybe just a little bit to actual gay youth relationships.

1:10:50

Gender roles as in

1:10:53

several things. How two guys together, there's, you know, the stereotypical ones dominant one submissive once around with him with lesbians. You know, there's the whole idea that you either have to be butch dyke lesbian or lipstick lesbian.

1:11:11

I think it depends on the situation. I think, a there's given time one yeah, there's more.

1:11:17

People always have these expectations of what you're supposed to be and what you're supposed to look like. So for me, as someone who's not really Butch, or I don't think I'm really fine, but apparently a lot of you will do

1:11:31

your baby. But

1:11:33

yeah, well, a lot of times I feel like people know that I'm a lesbian, but then they don't seem to understand because you know, all mentioned my girlfriend, and I'll talk about all these different things. And then they'll be like, Do you have a boyfriend? You say lesbian? What do you actually say exactly? Just

1:11:54

like to sleep with girls, but you date boys.

1:11:57

I just spell it out for them and go, I am a lesbian. Just like that to scare them.

1:12:04

And I always hate it. So who's the girl? I hate that question.

1:12:10

My grandmother asked that. She didn't ask me. But she went ahead and asked my parents when I was like, Why don't you ask me the questions.

1:12:17

Like my dad makes me worse. My dad makes you mad too. Because the other day he was like, So are you a girl or boy, we might racy. I'm neither. I'm my own person.

Chris Harrison 1:12:31

What you need to do is the next time I asked you that, pull out a coin and flip it and go, boy that will give him a little scare. No,

1:12:41

I always tell him I go I go, I go, I don't know, it's whatever you raised me to be, Oh, that makes him mad. That's funny.

1:12:50

I know, I took sociology and sociology professor said they tend to always do serve a purpose in our society, or in any society because they say, you know, this is how people are expected to behave and and they you know, they give people some idea of how society expects them to behave. But, you know, as with anything too much is not a good thing. You know, if you're if you have, you know, oppressive if you have externals become oppressive, then that's not a good thing, because they're not helping society move along. They're stifling, you know, people that could otherwise be creative and, or otherwise helpful society. So that's, you know, that's what I think. Yeah.

1:13:35

I think so too. When people it's funny, because I think outside of the gay world, when, when people find out you're gay, I think they make certain assumptions about you. You know, if you're in a relationship, I always found it insulting the question, who's the boy or Who's the girl? Or, you know, and within within gay men. There's sometimes there's value added somehow if you're, quote, a top or a bottom if you're, quote, The boy or the girl. And, you know, I always thought that that was the I think that whole idea is insulting to the dynamic of the relationship that takes place. Well,

Chris Harrison 1:14:24

I think for some people like that, they want to put it into terms that are familiar with in the straight world. They want to and they want to know, basically, okay, you can be you can come in and walk in and be the biggest push, just barely looking guy. But, you know, if you're the one who is the submissive or the bottom and are in a relationship, then they're gonna look less on you than they were bad enough. You're gay. But I mean, you're not even the penetrator, you're the penetrated. Yeah. And there's that. That kind of old man, old male, tribal chauvinism that comes in that. I think that's where it Those from why people ask it in that type of a question. Are you the man or the woman? It's like, Well, are you? Are you the one who's penetrated or not? I mean, because, you know,

1:15:08

I think, yeah, there's just trying to put into something they can understand because they can't understand much of anything.

1:15:12

But then again, is that any other business? Yeah, exactly. I mean, you know, which role I play in a relationship is, you know, as far as a sexual sexual relationship, isn't anyone's business?

1:15:23

Well, I think there's a gender roles that they need to know. I'm saying, like, they're so into one person's is so impersonal that that they just have to know, where

1:15:32

do we where do we see? How do we develop those role models within relationship gay relationships? As as a youth, you know, where do you get examples of how gay dynamics of a gay relationship?

1:15:52

I don't? I don't either I kind of just went along, as I dress,

1:16:00

mainly, you just you look to Ellen

1:16:03

to each other?

1:16:07

No, besides Ellen, I think we look to just any sort of couples we can find around us that we think have what we consider to be good relationships. And then we look to them to serve as role models, whether they're gay or straight. And because sometimes, you can't find gay role models, and so you don't have any room. You have In, it's okay.

Chris Harrison 1:16:31

You know, when it came, when it came time, when I was looking at a relationship and all that I come from, I come from one of the strange families, you know, my parents have been were highschool sweethearts. So you know, and my one brother, you know, he wasn't, he dated his girlfriend for six years before they got married. And so I mean, it had a long lasting relationship,

my other brother was the same way. And the fact that we, I looked at them and saying, you know, these are somewhat strong relationships, even though there's problems that, you know, something strong and stable. And so I look to them, and you know, when, unfortunately, I kind of took it like that one ended and it was kind of crumbled a bit, because it was something I wasn't expecting. But you know, I mean, relationships, it's one of those things, no matter whether it's gay or straight, or lesbian, bisexual, transgender, any way you try and slice it, you know, it's something it's got to be worked at. And I don't know if you can actually sit there and look at someone and say, Hey, that's a good relationship. Because things are, you may see something, but you don't know what's going on under the surface, and you don't know what can change the next day. Because I've seen that happen, too. I can learn a while now, when I get from far away, when you get up close to big mess, when you see something that that sounds to everyone like, you know, a good strong four year relationship and it disappears. And all of a sudden, you know, new characters are in the in those roles. It's something that that kind of throws you. And unfortunately, that also happens. That's sure

1:18:01

I can't even look at my parents and see a good relationship because I would no one

1:18:07

wants to be like your parents. I

1:18:09

know. But like, they don't even have a good relationship. You

1:18:11

know what I mean? Do I say hi to your mother? No.

1:18:16

You know, I mean, my parents have a good relationship and everything. But, you know, my dad's a neat freak. I know he's not listening. But he is he is he rushes around the house and cleans things up when he gets upset. And that's fine. I don't want to do that. It's I mean, I did

1:18:35

me you want to be your parents, but like, I can't even look to my parents as Oh, they have a healthy relationship. That's all I was saying,

0:00:00 - 1:18:41

Chris Harrison 1:18:41

Oh, well, I look at my I've asked my mother flat out in the past several months. Why are you still with him?

1:18:48

That's how I feel about my mom. But I think it's very natural.

Chris Harrison 1:18:52

And to God, I've looked at my mother and asked her that question. So that gives you an idea what type of relationship I'm looking at. There is a role model. Yeah. So

Jimmy Carper 1:19:01

but don't get yourself there are Don't kid yourself. There are. There are.

Chris Harrison 1:19:08

How long have you known Stanley? Jimmy? Oh, 26 years? Yeah. Now, here's where it gets really funny. We're talking about strong relationship. You know, they've been together 26 years. How long has Stanley known his other husband? 30. And how long have you known your boyfriend Jimmy 11. And his girlfriend he's had

1:19:27

her for Wow.

Jimmy Carper 1:19:31

What I like about being gay is that you can create your own relationships and whatever is right for you. But don't consider Don't kid yourself. There are there are role playing there is role playing in in straight relationships. Yeah, I know. A lot of men who are bottom boys. Yeah, with women. Sure. It's I mean, that's how it goes. So it all this about are you the boy or the girl is just kind of crap. Right

1:20:00

And yeah, I think so even

1:20:01

in straight relationships, it's, you know, a man might be the submissive partner and this might be the dominant partner and that's fine. I mean, you know, whatever works for them. It's totally cool, right?

1:20:11

It's the chemistry between the two people, right?

c Chris Harrison 1:20:15

Hey Stefan for a moment, let everyone listening let them know that you're listening to Pacific already for the Gulf Coast listener sponsored commercial free KPFT 90.1 FM, Houston 89.5 Galveston and always on the worldwide web KPFT dot o RG Can

J Jimmy Carper 1:20:28

we take a little musical break here to break after saying that I see yes, we've got some pansy division and something else for the women.

c Chris Harrison 1:20:39

Yeah, we're gonna we're gonna go for both. And if you know we only got one call or in for those tickets, so if someone wants to come along and get the tickets to the event over at South Beach next weekend, call at 713-526-5738 We'll be back in a second

1:21:25

try to run around and Rashmi smile well

1:22:04

wow you with me in seconds have been interesting

1:22:29

legs

1:22:32

My legs

1:22:50

Wow How could I miss one

1:23:07

No This won't do and I lost my erection Now listen to me. Oh, I want you but no no no, this won't do Oh no, I won't screw with no protection.

1:24:51

Hi Mr. You show greasy hair and that's the one I want to buy your thigh She was my baby last night. You should glide across that dance balls moving while there's some moves. You haven't drunk. She was my baby last night. No, she won't admit it. But she's been home with me if you can't keep up busy Mr. Free she lives and we both know She's here and she's got it she was

1:26:15

know you don't believe that a girl could shake when the lights another god apart? She looks fine, but I'm not certain that xiety She was on last night

1:26:43

she was not babe last night.

Chris Harrison 1:26:48

Yes, we're back. That first one was pansy division with no protection. Yeah,

Jimmy Carper 1:26:54

that was talking about he found a boyfriend who who wanted to do it without protection. And he said no way. And he had our favorite bisexual singer candy

Chris Harrison 1:27:06

cane with Hey, mister, she was my baby last night. Equal Opportunity.

Jimmy Carper 1:27:11

That's right, since we're talking about sex. And

 Chris Harrison 1:27:15

you're listening to after hours queer radio with attitude. One of the few plays you're ever going to hear music like that. We still

 Jimmy Carper 1:27:21

have that ticket. Yeah, tickets for next weekend, next weekend. It's September the fifth over at South Beach, the nightclub DJ Paulo direct from LA. And this he's going to be playing from 1030 until 5am. Hello.

 Chris Harrison 1:27:44

Get you in the door people.

 Jimmy Carper 1:27:46

That's right. 15 bucks each. So you can get him for free right here at it right here on after hours at 7135265738713. Jam KPFT. David is waiting to hear from you.

 1:28:05

So you won't have a cell phone?

 1:28:09

Hey, that's a good idea. I'll be back in just a second.

 Chris Harrison 1:28:14

So let's let's get back into the the gender role sex to sit down

 1:28:19

went down with that. You just wanted to move on. And we're talking about how gay men are perceived to have lots and lots and lots of sex and how lesbians settled down after the second date. Yeah,

 1:28:36

when you hear it when you when you hear gay man, what do you think? What images come to mind? I want

⌚ 1:28:42

to say, yeah, no.

⌚ 1:28:45

Because I'd be a lot happier.

⌚ 1:28:48

I mean, you know, sex is great, but it's not all there is to a relationship. You know? Is it saved

⌚ 1:28:54

as all we have? Is

⌚ 1:28:55

it all there is to being a homosexual? No, it's about

⌚ 1:28:59

having compassion.

⌚ 1:29:04

It's about being attracted to someone of the same gender. It's about being

⌚ 1:29:11

fabulous. For you maybe.

⌚ 1:29:15

And I don't think that necessarily means that I think the six comes with it, you know, because

1:29:22

it's an extra bonus.

1:29:25

What I'm saying is, is it goes with the the bigger property, not the necessarily the story a necessary condition.

1:29:34

Well, I think when they call it a lifestyle, I think that that's pretty much true, because there are a lot of things that go along with that. It's it's sort of the way that you live your life and a lot of ways. And so it isn't just about the site.

1:29:48

But there are a lot of different gay lifestyles. I mean, you know, there are people who work in blockbuster. There are people who work in multimillion dollar law firms. There are people who do all sorts of things, I'm sure there garbage collectors that are gay or lesbian, you know, whatever floats your boat is, became

1:30:06

be a garbage collector, because you got all this macho man there.

1:30:10

I wouldn't know. Another garbage collector. Thanks. I

1:30:12

used to work at James Kellyanne. And let me tell you it was an easy job. So I just make jokes. I

1:30:20

don't really understand the whole lifestyle part. I doesn't. I just don't understand that, besides the fact that I want to have sex with women and only women. Beyond that. There isn't really anything else. I mean, that's what makes me a lesbian as far as I'm concerned. I guess maybe just

1:30:46

1:30:40

I agree. I think just because I want to have sex with men makes me gay. Well, actually, that in a good sense,

1:30:52

it's a really good topic. Because, you know, people have said that, you know, I'm gay. What I do in my bedroom is none of your business. And there's something to say about that. But I think being gay exposes you to a lot of things that people in the general population aren't exposed to. And I think that's part of who you are, and who you identify as being a gay man or a lesbian, for instance, you can be fired from your job from being gay, or even being perceived as being gay. Right? So I think is in you, that's right, you get you get called fag, whether you're gay or not, you get called back. But that is a part of that whole identification of being gay.

1:31:36

It's finding that people that call you gay are the ones that are gay when they get older.

1:31:43

You know, to be boring for just a second. They did a study in college where they expose people to same sex images, they expose men to gay images, game erotica, gay erotica. And the guys that identified as being most anti gay or being most violent against gay people, or gay attitudes are the ones that were actually stimulated the most from the gay pornography. And, you know, I think I think there's something I don't know exactly what that says. But I think there's something it says something

1:32:15

to wonder how they measured that.

1:32:16

Well use your imagination. But you know, I think, I don't think that necessarily means they're gay. But I think that it's an interesting way. But Alexis, how do you feel about that? I mean, because I think it's a really good discussion, as a lesbian, that there are certain things that you're going to be exposed to in the community or in the world in general, that have absolutely nothing to do necessarily with who you sleep with. Does that extend to your identification of being a lesbian? Does it does the fact that you could be fired from a job because you're lesbian creates a camaraderie or an identity as being a lesbian?

1:33:01

You confused?

1:33:04

No, not i Well, I've never had a job so I guess that's a bad example for lots of I'm not I guess I don't go quite go guys being

1:33:26

like a lesbian I'm sorry.

1:33:29

Stereotypical idea of your was being sorry.

1:33:35

The rest of the world because I don't get hit on by women. I get hit on by men and only men. Nobody because they think you're lesbian. No, that's not why.

1:33:46

No, I get that sometimes, or I'll be nice to people. And then they think that I'm 40

1:33:50

I know that I'm smelly time. I'm nice to guys all the time. They think that I want to boom, I

1:33:53

was talking to some guy at work today. And I'm pretty sure that he was forwarded to me and I felt really bad because I wanted to be like, Oh, but I was just trying to talk to him for kids.

1:34:04

I know. That's how I feel. It's like you just try to touch someone and they think you want anyway.

1:34:10

Continue like so. Sorry.

1:34:11

So I'm straight enough looking that

1:34:19

I think you could totally pass as a straight woman. Absolutely. I

1:34:22

just as much as I can pass for a straight man. You put

1:34:25

the right clothes on you and you do look straight,

1:34:27

take the dress off. And you know, actually I

1:34:30

do have to say that one time Joe were my close to the mall. He got hit on by several girls and it was very entertaining. No,

1:34:37

I was very upset. Because I mean, I got looked at like really hard. I just went girl was with her boyfriend and looking at me at the same time. out every duty again. Please do understand.

1:34:53

So I don't really get that very often.

1:34:57

But then again, Katie Come on, out in Yeah. bfhi where people

1:35:08

1:35:00

think that other gay people live there? Oh, that's all I have to

1:35:11

really pull off. No, absolutely.

1:35:12

It's okay. You're going to Austin, right? Yeah. And say we were in the magazine that Austin, if you go to us he is the best place to find Mr. Right, which is good for me. But you know,

1:35:24

might be there Austin's the game mecca of Texas.

1:35:31

And I want to see this great, and you'll go to school there and it will be there to get it out for you can't my best friend. Well, Callie,

1:35:39

what ways do you identify as a lesbian other than who you sleep with? Look at her hair. Does that does that free you up at all the knowing that you're a lesbian? Does that? Does that change how you present yourself?

1:35:53

I think it does. Because I feel like I'm less bound by other people's expectations, actually, because there are certain things that a lot of people assume about you when you're a girl, but then I'm just like, oh, well, those don't apply to me. So

1:36:08

jeans and a big T shirt.

1:36:09

You know why? Just because you want to wear a tie because you

1:36:13

know, I can't wear it anymore because I was trying to get fat anyway.

1:36:17

But yeah, that's that's how I okay

Chris Harrison 1:36:19

for saying that word. I'm killing your mic.

1:36:24

Yeah, Mr. 2% body fat.

1:36:25

I wish Oh my god. I remember when I went to wellness class and they took my body fat. I was crushed. I was like, oh my god, I had that much. Anyway, I think wearing glitter makes me gay.

1:36:41

Maybe really, maybe wanting to wear glitter?

1:36:44

No, I don't not want to wear I wear glitter to work sometimes.

1:36:48

I'm sure they appreciate that. No, I

1:36:51

mean, there was this big controversy. I had to go wash it all.

1:36:54

They let me wear but everybody else said I

1:36:57

was at a party that night. And I was like, No, I just want to be pretty. But you know, it's okay. Because you know, he threw that big fit. And I got it to where no one could wear glitter. Not even the girls and when girls wore it, they got sent home. You know, I felt like an asshole. But you know, I proved the point. Everyone just gasp

Chris Harrison 1:37:25

keep talking. Yeah. Okay. We will deal with him later. Okay. Thanks, Joe

1:37:31

for dropping the a bomb.

1:37:33

Yes. So, have you been to Austin? Yeah,

1:37:39

I've been awesome. It's pretty.

1:37:41

It's nice. It's great. Not that not that uses not great news. Great. Are you planning on being involved in the gay youth group in Austin?

1:37:52

You know what, Austin has a lot of gay like group things. Yeah. They're really big on it. So

1:38:02

So are you planning on getting involved in the case, like out use or something? I

1:38:06

was thinking about the UT. Gay group that was being group on the UT campus. It's true. I'm not going to be enrolled until probably the spring but they seem to be pretty lenient about who

joins them. Oh, that's nice.

1:38:21

Yeah. Yeah, I think global is to your vache they're like, you know, they don't say are your student your vague? They're like you No. Big deal. If you're not. Oh, that's interesting.

1:38:32

Yeah. How important as a gay youth, how important is it to be involved in a gay organization or lesbian organization?

1:38:41

I, it's important. I don't know. I feel like when I went to atch changed everything about me. Well, because I didn't know any gay people.

1:38:52

Yeah, which was really helpful to me just because it was sort of my first contact with the community and I used that as a jumping off point to get involved in all these other things. And I think that you know, I really do want to be an activist and I think that the way to do that is to be in groups like this, it really is helpful.

1:39:13

And when I first came to hatch, I said nothing the first four times I was there and then Shane said, I still say no

1:39:23

no, he says, No interrupting across our game.

1:39:26

And when a facilitator said I said, you know, be quiet, you're talking too much, and it broke the ice and I I felt more comfortable there. And you know, if it weren't for hat I probably would not have I probably not be as outgoing as I am. I'm not going but I

1:39:42

would be this social butterfly you are. So, well,

1:39:49

the main reason why I came and I guess the reason why I still come predominantly is to meet women

1:39:59

had just sent them. Not

1:40:01

a dating service, though, I'd say that right. But

1:40:04

you know, I think it's important though,

1:40:06

you guys got to hatch anyway.

1:40:10

I think it's important though, as as being a youth and being in high school where you may not be able to approach someone, because it's not safe to, but Unhatched to be around other youth your age and to be able to, to look at maybe developing relationships to maybe explore what that means. I think that's an I actually think that's an important part of what what hatch does. And not necessarily dating relationship, although that's included, but our relationship where you can begin to build ties with other people and you and you can begin to, to know what that's like what other people are going through. So I think that actually is one of the most important things that hatch does provide.

1:40:52

I like to do you really think when are you gonna meet some girl at hedge? No, not

1:40:57

really.

1:40:57

Why do you still go? No. surgery

1:41:08

needed almost worked halfway, at least with you know, your damn person.

1:41:16

Or Person C, or B, or d. F. Or alphabet, you

1:41:24

know, we've had had shoes that have met each other who have gone on to have domestic partner type of arrangement where they've gotten married Dan, and oh, what was his? What was his name? Dan. And they used to they used to be? Yeah, Dan and Ryan, I say their names because they used to come on the radio show. I mean, everyone knows him as Dan and Ryan. But they had a civil union. I believe it was last year, and where they officially said they want to be together for the rest of their life. And, and they consider themselves married. And they met each other and hatch. And, of course, this is a few years ago, they've aged out long ago, but but they found each other and they're living their lives together. That's great.

1:42:09

I know, there are some other some other people like that, you know, that I won't say their names, because I don't think they've been on the radio show. But, you know, but they're, they always they were they've been together for like, as at least as long as I've been coming to hatch. And so, you know, that's six years. So, you know, they've been together and they're happy they both went to the same school. And, you know,

1:42:32

but this is not happen all the time.

1:42:35

No, you should not assume that just because you come to hack that you will certainly meet someone wonderful one, spend the rest of your life with them. Right? No,

1:42:42

no, but I think it's important to meet friends and to have a support structure that understands

no, but I think it's important to meet friends and to have a support structure that understands what you're going through. Definitely, that may be going through the same day as you are. Because I mean, I'm surprised at how many hats you say that they were the only ones that were out in their school in their high school. Yeah, that's

1:42:59

not true. There's another guy in my high school but he was. But you know, of course, Darshan because he's the only gay person there. That's out. Yeah,

1:43:09

your 10 year reunion did you find out a lot more people are actually k than you knew.

1:43:15

As if I would go to that, like David free the captain quarterback. Quarterback names. Now, you might know today of Friday's listening.

1:43:28

But anyway, how many? How many of you were the only out kids in school? I was worried.

1:43:34

Yeah. As I said, I went to a private high school. So it was very, you know, they weren't very gay friendly. You couldn't make any comments whatsoever based on ethnicity. You know, you couldn't make any rude comments, because that was explicitly primitive, but they didn't care if you they tacky comments about gay people. Until I brought a huge issue you change

1:43:54

that didn't Yeah. Did your exposure with hatch help you be able to empower you to do that. Do you think? Yes, I think so.

1:44:01

My school is the same way. Like, don't degrade women. And then someone which is a good day. Oh, man. I know. That's a good thing. When someone makes a comment. They're just like, yeah.

1:44:15

I wasn't really out. But I was on the wrestling team, that sort of thing.

1:44:22

Like with the guys

1:44:25

actually, there was a lot of gay bashing on the wrestling team. So but

1:44:32

you know, I've been watching guys, I've been watching wrestling on the Olympics. And that's the gayest sport

Dean Becker 1:44:36

ever.

1:44:37

You know, it is the shot point for the women have you oh my god, I'm so scared to make that angry.

1:44:47

Because I was sitting at the doctor's and there's like some kind of video and there's these two guys, but they're, they have their shirts off and they're wrestling but they don't. It doesn't look like when I first looked at it like two guys going at it. At chelina wrestling is like the Gacy out there because then afterwards when they showed us like oh the rest of

1:45:07

the Olympic wrestling the the actual sports not the that's why I'm telling you about the World Wrestling Federation wrestling but the actual in the ring wrestling where they you know, it's very physical it's very

1:45:21

tender and submissive positions

1:45:28

Oh, yeah. Okay, well just I just wanted to say that wrestling. I wouldn't really call it gay. I mean, I wrestled and sex is the last thing you're thinking of. When you're eating Matt.

c Chris Harrison 1:45:44

On that note it was I was eating Matt not net. Okay. Yeah. The wrestling mat. No tea tea. Okay. We're getting very close to the end. So let's get out some contact information for Hatch and your your shout outs all that so okay,

1:46:05

well hatches, the Houston are 18 coalition of homosexuals. And you can contact us via phone at 713-529-3590 on our website, which is www dot hache youth.org. That number again is 713-529-3590. And participation of hack youth on this show is funded in part by United Way kids way. And the

1:46:31

letter be

1:46:34

some shout out say

1:46:36

anyone listening. Okay,

1:46:38

I'll give a shout out to my parents. My mom, my dad, my mother who brings me here. And my friend Drew who's not in Marion, Montana. This week. He is actually in Houston. So hopefully he's listening.

1:46:56

Jeff, you're in trouble? Yeah, yes.

1:46:59

Topic and you're not even here.

1:47:02

Watch this. And he shouts say hi to your dad.

1:47:06

My dad's not listen.

c Chris Harrison 1:47:07

Well then say hi to all the boys on the wrestling team.

1:47:11

And other lovely

1:47:15

girls team too. That's

1:47:17

awesome. Those are girls team. That's really cool.

1:47:20

Um, I guess my dad may be listening. So Hi, Dan. If you're actually there. Yeah, that's about it. Yeah. No

1:47:31

shout outs this time. Okay, well, I guess that's it. I guess. That's it.

c Chris Harrison 1:47:38

Okay. Thank you all for coming in. Always a lively topic of debate. When we get you all in here. Let's see. We're gonna go with another Panzer Division tune walking out here. Jimmy Is this the one you put in homecoming? That's the one. Okay, so what happened I got my back turn he

one you put in homosapiens that's the one okay, so what happened i got my back turn the starts pushing buttons behind me you're looking after hours queer radio with attitude

1:48:10

McCoy and you know homosapiens

1:48:21

are superior in my interior skin homosapiens Homo sapiens to almost homosapiens your eyes in the dark and I see that in our minds I just want this to last a minute and see this is a case and shot with koi and you know where homosapiens homosapien to go with superior criteria but from a skin out I'm homosapien to almost Sapiens

1:49:18

Sapiens but the damn love is at hand. You will come to understand that the world is so wrong and I hope that you'll be strong and

1:49:37

the only thing known is I love

1:49:41

to classify you like an animal but a scene is gonna mean

1:49:52

the koi dilemma classify

1:49:59

the need and outreach I was able to classify you like an animal

1:50:14

that don't want to classify like an animal in the zoo, but that was it.

Chris Harrison 1:50:22

Yes, pansy division with Homo Sapien. And let's come over here, and let's make sure the pretty buttons are all pushed the right way. And on line here, we're gonna have Dean Becker. Dean, are you there?

D Dean Becker 1:50:36

I'm here. Do you hear me? Yes, we

C Chris Harrison 1:50:37

got you. Oh, good. Good.

D Dean Becker 1:50:40

I wanted to talk about this this crazy situation with our crime lab. Have you been seeing the stories about that? They they have located 280 boxes full of evidence that relates to more than 8000 cases over the last 25 years that were stored in a police warehouse? Well, what that what that indicates is that those people running that crime lab, as as being more brought forward every day, is that they didn't know what they were doing. They were simply there as lackeys of the district attorney and the police chief. Kind of like the accountant, how much do you want it to be? You know, now, they were in a in fact. Just today, I see in the Chronicle, they were one of the lead directors. Mr. bolding actually gave different answers, depending on whether or not the district attorney wanted him how he wanted him to present this DNA evidence. And these very same people, I had their drug lab was shut down last October, in fact, it was on Halloween. And why was that because they could not recalibrate their measuring devices properly in between tests. So if they had a positive coating cocaine test in the morning, every test that came out that day, would be a positive for cocaine, because they didn't know how to rent it between tests. Now, the strange thing to me, it's bizarre they are they're trying to investigate this, they're now looking at 397 other cases, for DNA proper DNA testing. But the thing is, the person who selected those tests, was the district attorney, the man who would know which test would be most likely to have a proper result, a duplicate result on a secondary test. Now, I would like to look at the bottom 400 Out of those 10s of 1000s. And just see what we could discover what what this really tells us is that these people have been producing a more massive fraud than even just the drug war, that they have been looking for convictions, justice be damned, and they have assaulted the intelligence of everyone in this community with their attempt at justice.

C Chris Harrison 1:53:09

I don't mean they call justice not their attempt at well.

D Dean Becker 1:53:13

Define it how you will, it was a it was a a fraud perpetrated on the people. And I don't want to dwell on it that much. But I'm just saying this is going to be my focus for the next week, certainly for the next few weeks. And as it has been over the past several months, we will be

Certainly, for the next few weeks. And as it has been over the past several months, we will be picking this up and drop kicking it. Every chance we get this is the Gulag city, this is the city that arrest more people than anyone, any other city in Texas per capita, and Texas arrest more than any other state in the nation. And of course, America is the leading jailer of its own people. This is not a free nation. We have 5% of the world's population, yet we have 25% of the world's prisoners. And they have used this you know, can't be soft on crime mechanism to come in with all these mandatory minimums and three strikes you're out and kick in the door and put guns to the kids heads and anything to call it justice is justified, so to speak, by these district attorneys police chief, they have to stop this but people have to wake up and realize they will never admit to these failures, just as Bush wanted truly admit to his failures in Iraq. I heard he did say it was somewhat of a mistake. And now, of course our district attorney wants to has finally agreed to allow for additional testing and it's become enormous enough that he's going to agree to it and that we need
