SPEAKERS

Chris Harrison, Bobby, Roy McCarthy

 Chris Harrison 00:00

Another one out of the personal library of whose it's their Robert.

 Bobby 00:07

Goddess oh hey

 Chris Harrison 00:09

this is different it's actually a queer artist so that should narrow down for him because no go okay, there's the only one

 Bobby 00:19

a lot of this stuff Robert plays spend a lot of time in his car you

 Roy McCarthy 00:26

promised you wouldn't tell

 Bobby 00:30

Don't say any ideas so

 Chris Harrison 00:32

that's why there's the extra hand rails in the back they're free to

00:38

I keep telling him he can ride on the back of my spooler but you just never takes up

B 00:42

Yeah, cuz I've seen the way you drive

00:45

I'm pretty sure you can hang on

C 00:47

all right a little Rufus Wainwright. I have no idea what the song is because he wrote it on the CD and it's in the machine already so we'll figure it out afterwards we'll be right back

01:23

you in

01:31

your mind

01:50

is

02:01

Dr. Cooley Kanex notice you Stan Plaza?

03:08

Good sex ever I won it?

c

Chris Harrison 04:35

back all right we are back. All right, your microphones are coming up there. You're listening to after hours queer radio with attitude because of lack of the line where you had an extended segment and we don't know what to be talking about. That was Rufus Wainwright. Instant pleasure. Oh, Instant pleasure that was any one song. Yeah, we

o

05:04

could always hear that person listening. Yeah,

c

Chris Harrison 05:06

well you go in the other room I've upgraded

o

05:09

I've upgraded house. I've switched sides.

b

Bobby 05:13

Oh, there's a phrase that will disappoint your pigeon many.

c

Chris Harrison 05:20

I'm trying to make got some, you were talking about the you heard something about parking permits and litros are talking about again, right here,

o

05:27

right here long love is the condo. Yep, you just want to from 6pm until the next morning, parking permits would be enforced along the street because they don't like the people who come through at night and park here.

o

05:41

Or they would like to have more money in their pockets. When

o

05:45

it goes to them it would be for the city revenue

05:49

next to a radio station, and you're upset by people parking in front of a radio station next to a radio station

05:56

in the bar area.

Chris Harrison 05:58

It's more of these yuppies who go oh, look at the pretty houses that are cheap. Because you know, there's all these gay bars in the area. So the property values are down a little bit. Then as soon as they move in they they pick the moan about the fact Oh property values are so low I'm not going to get any money back on this and don't

06:17

want to live in West you but they can't afford to. So they think they can move in somewhere else and turn it into that

06:22

it's not going

Chris Harrison 06:23

when you consider the fact that those condos are right across the street from us hold on. By the way, they tore down a place called steam to build your houses. So does that give you a clue what sort of neighborhood you're in living?

Bobby 06:40

Right Can I just say something here? Since we are directly across from

Chris Harrison 06:48

the morons

Bobby 06:52

Bobby 07:24

you know, that line from that song about you know, maybe so and so should learn to keep their window shades completely down from you know, pte, you know, Harper Valley. When I can see what people are watching on TV, from across the street from in a second floor window. On their big screen TV, maybe it's time for some of our new neighbors to keep their window shades completely down. Because

C

Chris Harrison 07:24

if not, you know, we'll be glad to give you a better show.

B

Bobby 07:30

We will put on a show honey that maybe

∅

07:34

I'm offended by are boring, boring lives. It's nice to see people being bored indoors.

B

Bobby 07:42

What you're watching on that 96 inch TV, flat screen TV

C

Chris Harrison 07:55

let's get back to the original topic. Yeah,

∅

07:57

I mean, yeah, that can't happen. And basically what they'd have to do is they'd have to get a petition signed with something about 75% Somewhere around there, of the people on this block saying, Yeah, we want parking permits, then it would have to go to an application process. If their application is approved. It has to go in front of city council. And Houston. Nowhere in Houston that I know of has parking permits fav.

C

Chris Harrison 08:21

Yeah, I mean, I hate to say that you're too young to remember they talked about this over in the Montrose area, the bar district, about four years ago, they were talking about this to basically kill the bars. I know they're they've talked about it and think it's Bel Air because they're tired of all the high school students rather than paying the five bucks a year to park in the school parking lot. Where you know, their cars can technically be searched without any reason. They're parking on the streets taking up their their precious curb space. So you know it.

It's one of these little things that if you don't know about the people over there yet, the straight yuppies that moved in to get those housing the either the, the nice old housing that's really cheap, or the fact of the night, the ones who move over into the ticky tacky or the ones are the new ticky tacky, you know, those people basically just they complain about the neighborhood that they moved into gentrification, you know,

 **Bobby 09:25**

he moved into our neighborhood, and then they want to complain about the neighborhood they moved into.

 **Chris Harrison 09:32**

I still remember when we had we had a meeting with obviously with HPD officers a couple of weeks after the Allen tubings assault, Thanksgiving, and this one guy stood up He lives at the corner of Fairview not Fairview, I'm sorry, Hyde Park and Hopkins, very well known corner for picking up prostitutes. And this guy stood up and he said, Well, what we ought to do is we need To tell the bar owners that we want money for lights and this and this and this and bla bla bla bla bla, or we're going to start petitioning the TA BC to hold back their liquor licenses. And he was standing behind me and I turned around I go, excuse me, you want to blackmail these businesses that have been around for longer than you've been there to repair structures that are three, four blocks away from their business, because you're because your community your footer, they call it a neighborhood group doesn't want to have that stuff done. You know, the Avondale Association doesn't want more light on there. They don't want to cut back the trees that are overgrowing on the sidewalks. You know, you want to do something in the Montrose to help it out. Fix the sidewalks. Yeah. So you can walk on them? Yeah, really. I mean, you know, put up some streetlights. So you know, people can walk through there safely. You know,

 **10:56**

I haven't dealt with a lot of the neighborhood association groups out there. They're they're truly horrible organizations to begin with. Yeah, I fight with them. I went to one of their meetings. Right. And I'm banned from their meetings. They have secret meetings. Well, yeah,

 **Chris Harrison 11:11**

I've, my parents have their crap. My parents have problems with theirs. Because basically, the the neighbor across the street is a block captain. And for some reason, they don't like my parents. And you know, one weeds springs up and they're reporting them. Right.

 **11:26**

And they're the only organization that can take your house.

11:28

Yeah. That's why I live in the heights where there are no deed restrictions. Have

11:32

you? Do you remember a particular news story that came about about this old lady who got pretty much evicted from her house and see, I mean, I do not like people telling me what to do with my house that I bought.

11:46

Here's the worst example of people moving in and then complaining. People were trying to make a suburb out somewhere outside of Houston, where there were a lot of ranches, they move out there, they build their houses, then they start calling the cops complaining about farm animal noises. Move in basically a city blocks distance from a cow farm, you're gonna hear cows, and it had been probably smell that these farmers or ranchers had to pay \$100 fine if their cows were heard. So, I mean, I don't want to listen to these yuppies talk. Does that mean they have to pay me \$100? Every time I hear them

R Roy McCarthy 12:28

Nabek betcha you guessed mode again. Big account. They did that with neighborhood associations just seemed to me like a lot of stuff that they're doing is just like their government under themselves.

C Chris Harrison 12:45

They are under tax under the Texas law. They I mean, they have the authority to go in and take your take a person's home. You

R Roy McCarthy 12:51

know, okay, I was born and raised in New York City, but I also lived in LA, and Chicago, Fort Smith, Arkansas, Cheyenne. You know, I've never seen anybody that's cut that unfortunately,

C Chris Harrison 13:04

is how it is. Yeah. In the meantime,

B Bobby 13:06

they build things like that piece of crap. That's going up by that. That's now gone up by

Wendy's. That that's some buddy. That looks like they wanted to go our deco 1920s and got lost somewhere in the I don't know. I don't know why below nightmares.

∅

13:32

Well, that one's not as bad as the one. Where is it? It's closer on the it's all these different hideous colors. It's Montrose and of the block before Westheimer. It's like this beige color building. But then there's sections of like purple and yellow and blue. It's disgusting. It's blue. Now they're trying to be too modern with

B

Bobby 13:55

with racing stripes through the middle that looked like somebody had a traumatic Speed Racer event in their life sometimes at some point.

∅

14:05

Okay, I'm gonna give you a laugh. Find out how much those run. They think they're

C

Chris Harrison 14:12

about it. Yeah, two bedroom flat \$300,000. Right.

B

Bobby 14:16

Right. No excuse for that nonsense. Horrible one.

C

Chris Harrison 14:18

One nice way of putting a how some of these homeowners associations work and all that is several years ago. Some kid got drunk, got upset, decided to end his life. So he decided to drive his car really fast through the neighborhood and didn't make the turn and went through my parent's garage. If it wasn't for the rain, he would have taken out my brother who was outside smoking a cigarette because he went inside because it was raining. If it wasn't for a refrigerator that was in that corner, he would have killed my father possibly killed my mom because he would have ran through their bedroom where they were sleeping. The car stopped about four foot from my father's head. We had to put up tarps till we got it fixed. Within a couple of days of the accident we got a letter from the homeowners association going that blue tarp is tacky. We had a guy drive his car through our garage the wrong way. And you know, they really sent a letter they sent a letter.

R

Roy McCarthy 15:20

That is that is so stupid talking about the blue

15:23
tacky

Bobby 15:26
people my best Vulcan I, if I were human, I believe my response would be go to hell.

15:36
Northwest the inland forest demon first Association sent out a newsletter like they do every every month and at the beginning of the newsletter, apparently there have had problems with people not paying, they're paying their taxes for the homes or whatever. And they said Pay Your Bill deadbeats right in the headline.

C Chris Harrison 15:58
And they listed them. Those. Yeah, did

16:01
you know you gotta pay your bill deadbeats.

16:04
Wow, that's okay.

16:07
But this was in the monthly newsletter get

Bobby 16:10
into a real foot fetish. Boy got his shoes off over here.

16:17
From homeowners association to feet Petr Showkat

B

Bobby 16:22

Eric's got her Eric's like pumping on my chair. And then he's got to choose a homepage. No. Chair moving. But that's not what I watch his he's got his shoes off. Crazy. Now, unfortunately, there's nothing nothing. How is that possible? Nothing.

C

Chris Harrison 16:54

Well, I unfortunately didn't click the link on the other one where they they're talking about this Native American lesbian couple that got married. That's really interesting. And then went and then But then the, the larger or the larger nation didn't recognize the marriage. Unfortunately for up to no

o

17:12

save actually. No one had heard about it. I read the story. Yeah, the this lesbian couple in the Cherokee Nation applied for a ceremonial marriage. It was approved. And they had the marriage but then the higher Council found out about it and decided and voted to make marriage within the Cherokee Nation between a man and a woman. However, they are still allowed to keep their marriage because they don't have

C

Chris Harrison 17:41

the concept of divorce. No,

o

17:42

they don't. They don't have no no going on all at once. Once they've been married, if they enact and I'll enact a law later, it won't be

C

Chris Harrison 17:58

forced post retroactive

o

18:00

retro

C

Chris Harrison 18:03

retro act my grandfather lesbian marriage, okay.

 **Bobby 18:08**

Which is right there.

 **Chris Harrison 18:13**

Yeah, I was waiting for somebody to catch on to that one.

 **18:17**

I had, I wasn't quite sure you said that. I find that interesting.

 **Bobby 18:21**

Because, you know, there there are many instances in several Native American cultures of their rather open mindedness toward Yeah,

 **18:35**

we learned about them in Texas history. I mean, he was telling us about how several different Native American tribes had groups of homosexuals who

 **18:48**

wish at your Texas history town.

 **18:50**

Yeah. Like some of them who would they would deliberately dress up in in the whacked in the female role all the time moving all the and in some cases it was considered a a gift. Yeah. Yes, I was trying to think that

 **Bobby 19:13**

you go with the what they have in the words for that my

 **19:17**

husband is a dancer

19:21

and Native American dancer, right.

B 19:26

Yeah, a little more specifics, there would have been the dancer is

19:33

our teacher told us this do we

c Chris Harrison 19:35

need to bring a pole in or?

19:36

Oh my God. God, anyhow. But yeah, one of the one story about those those Native Americans, these French explorers came and they were captured by this Native American tribe. And they were while they were there, they lived as this. They lived in part of this homosexual group. And the French came and rescued them and they all left except one. And who decided to stay and remain a part of this homosexual group of Native Americans?

20:08

Wow. Yeah. Well, even in, in in a lot of not even just Native American cultures in a lot of Janus cultures everywhere, you know, it's considered an initiation, the Greek tradition, we'll just put it that way. It's considered an essential initiation.

B Bobby 20:29

Is that a whole tribe of like Indian transsexual type?

20:34

I mean, it's people trying to say that it's not natural. Well, you know,

c Chris Harrison 20:41

I was just in the animal kingdom,

20:42

animal kingdom,

Bobby 20:44

how much more natural? Can you get that? And while we're at it, does anybody happen? That's, that's the problem with the whole thing right there is that people keep forgetting that human beings are part of nature. Yeah.

20:57

There is nothing in nature, which is unnatural from

21:01

we got that part of God created Adam survived.

Chris Harrison 21:08

Yeah, he also supposedly took a river to form a woman. Well, and you know, when I say you, we know that Adam was in the bottle because you try and take a rib away from a good old boy.

21:18

No, I mean, they say that, you know, it's a sin because God said, Go forth and be fruitful, and gay people aren't doing that we're being we are being

21:29

you know what? When

21:30

God said, Go forth and be fruitful, he was pissed off, he was kicking them out of the garden, made him mad, and he said, get out, go forth and be fruitful. And multiply

21:42

God right sarcastic. And besides, okay, emphasize, you know, 5 billion, 5 billion people later

GUU, RIGHT. SARCASTIC. AND BESIDES, OKAY, EMPHASIZE, YOU KNOW, 6 BILLION, 6 BILLION PEOPLE LATER
on the planet six. Thank you. China, but anyway

 Bobby 21:59

6 billion

 22:01

popular billion

 22:03

people later I think and all over the board, right?

 Bobby 22:11

We're saying yes.

 22:13

Okay. After actually, you know, read the text and everything like that. So 6 billion people later, I think that was a day that was relative to the time period. You Yeah. Certain commands you can look at certain commands are relative, certain ones are absolute. That was one that was relative. Definitely fix being people that I don't think we're gonna be living in underwater anytime soon.

 22:39

You ever listen to anybody that quotes you Genesis, because everybody knows you studied the Pentateuch, which is the first five books of the Bible. Genesis was the last book written, because the important stuff was in the other books, they brought Genesis, as after they had a time to settle down and say, Hey, let's put some legends into our religion.

 22:57

And besides that, there who who said there's only one creation story in there? Yeah, there's a couple. Yeah, at least two.

 23:04

And that's, that's even King James Version of the Bible. If you have a King James Bible, so get it

out, read it, the first couple of pages of Genesis and you'll see more than one breach. So

 **Bobby 23:16**

get into this because, you know, there's that whole thing about how many about a billion Catholics on the planet know that

 23:24

Bible is really close to the original while

 **Bobby 23:27**

while we're talking about that. If there's a billion Catholics on there's that means there's 5 billion people who are and

 23:38

agree to the 5 billion that is not

 23:42

you Protestant.

 23:46

Whatever.

 **Bobby 23:50**

Roy wants to squeak Yeah,

 **Roy McCarthy 23:52**

I was gonna say an interesting thing with with the King James Bible in Genesis and the whole creation. After Cain kills Abel, he gets sent away and all of a sudden he gets a wife from somewhere. Now, I'd like to

 24:06

go getting cranked up. That was Adam, here's

24:09

here's my theory about human intelligence these days. We know that inbreeding sometimes is known to cause mental retardation Right? Right. If two people started 6 billion people, there was inbreeding in there somewhere. We are as intelligent as we are. Now. Think about how smart Adam and Eve must have been. Down versions of them. Really, really? Exponential.

24:45

Yes, ladies and gentlemen, I sit up at night thinking about these things. Okay.

Chris Harrison 24:50

You should be sitting up at night thinking about other things, but hey, that's another story.

24:54

Okay, that's my favorite stories.

25:00

Okay

25:03

I'm going to bed with my brother you know what all I do all I can say is I want me I want me to Jonathan

Bobby 25:10

only in Arkansas that

Chris Harrison 25:11

well like the one the like the one t shirt I shared Jamie here earlier, Tennessee 15 million people 13 last names. All

25:19

right My

right, my,

 **Bobby** 25:20

my, my my best friend got me a t shirt. And it is the S word that we can't say here. That ends with a T.

 **Chris Harrison** 25:32

And there's a high in the middle. It's a lot Yes.

 **Bobby** 25:36

In the middle of that word, and then it and it's a definition and it says the longest word in the Oklahoma dictionary

 25:47

that's messed up still live there. Okay, through okay, I bet she got out

 26:03

now just interject. I've been through Oklahoma and I didn't see a thing. So you

 26:13

look deeper in the plains baby. They were doing a whole lot of

 **Bobby** 26:17

gamers out there. All I have to say is I'm still convinced that some part of Cthulhu lives under the bus station in Tulsa. I need

 **Chris Harrison** 26:26

to talk to you because I have found about 30 T shirts for that Cthulhu and I want to find what the hell that is beside the giant it looks like one from what I saw. I couldn't figure out demon. There's like a thought you know the the Intel Inside sign anyway, it's your mother's instead of instead of the Intel inside of Cisco Fula inside

 26:46

20.40

cover will cover that's all I want to say.

B 26:51

Christmas cathedral nine.

C 26:53

Okay. All right, hold on. Okay, we're getting close to the end here. So let's leave my memory out of this. Shout outs final word final thoughts.

B 27:04

Bless it be much love to anybody who might actually still be awake at this hour. See?

27:11

All right. I believe Jason Geneseo. 830 hat

27:15

pins hurt a lot by everybody. Happy anniversary will and Lauren and I'll see the rest of you in church tomorrow morning. Okay.

C 27:25

And I'm gonna actually Dev and I want to say it because he didn't tell anyone here. Happy birthday to Ryan. This is fifth birthday in the community.

27:33

Yes, yes. Five years ago this month. Yes,

C 27:37

it's five, five years ago that you crushed your parents dreams of ever having grandchildren.

27:43

Yeah. call mv mother's

c

Chris Harrison 27:47

yes to being sitting here and being molested and in sweatpants. Exactly. It's everybody drool and

o

27:53

I don't know why.

o

27:54

Not me.

c

Chris Harrison 27:59

But this and after hours, quit radio with attitude. And we're going to be well, I'm not going to be back next week. Everyone else is gonna be back next week. I may be calling in you'll be in New York at the East Coast convert on convergence conversions. Conversions just convert Yes. That when big men converge on White Plains, New York, big man and their admirers and I will be up there and if I can break away from the festivities may give a call in and see how everyone's doing. Thank you for listening next week. Find that and after hours news of US magazine coming up at the top of the hour is Rasta mon vibrations, and he is ready. And the CD is queued up for him in the background. It's Thomas. Where's the new ski? Yeah, come on your check to you should be able to get that name too.
