Listen. Of all the grease that was on the earth, fly in the sky and women from Texas to Japan, from Korea to Cheyenne, blow us in my opinion. Let me tell you about men, the Almighty gave them just enough brains to make fools of themselves men. Most of them have nothing oh everybody and leave the rest of charity men. There's only one thing in the world worse than a man and that his father met with a woman a lie as a last resort with a man at first date. Men are the only animals that eat when they're not hungry. Drink when they're not thirsty and already you know what, any other day or night men the more I think about him the more I like dogs when I bought him in with your hat, rabbit and Ron, I've made up my mind. The worst advice you can give a man is to tell him to be himself men. The only promises men can keep our promises they never make your tell him how good they are. They'll listen for hours. Tell him the truth. They're often a Clodagh dot men. They're fed by cattle close by sheep protected by dogs and imitated by monkeys. The way I see it they have to follow everything they say and everything they do. No Man is Man handling me. I'm laying down the law. First Man Who dare show his face I'm showing in the door. You're leaving? Through with men. She knows exactly what she can do with men no thumb in my life. To think I once thought I see some fellas wide eyed kids a rattlesnake. Man, man, man, well, wait

07:29

it's just Roger after hours radio celebrating heart from the heart of Montrose Ruskin Phillips, let's take another ride on that emotional roller coaster

07:38

been going on for way too long. In any one more time, because you got me emotional roller coaster you bring me down down. No, all it takes is one to turn my heart around. But it still feels better

08:09

than being alone on the ground. Unless you're doing it

08:15

is that after suffering?

08:34

I'm a queer old Yankee.

08:42

Coming here from the land of the Puritans to speak loud and clear to 1000s of old queer women. There aren't a lot of us that are out fighting for our rights. Because when we were growing up, we didn't even have a word or a name to define who we are. And it was clearly dangerous then to be out. Maybe some of you younger women back home, you might find an attractive old woman and bring her out that's what happened to me 10 years ago.

09:30

Oh, people have a lot of what all of us need and can use experience and perspective and the confidence to use our knowledge. We know that we can make things happen, especially if we are angry enough. We've lived through a lot a depression and two terrible world wars and Korea and Vietnam. And we've been instrumental in making changes Like Stonewall and women's lib and lesbians live, we know that energy and action and good strategy are necessary to get what we want. We have to act with persistent, unrelenting pressure. The forces of repression are strong. But that force just sits there resisting, rare and irresistible force. And today, we can show it.

10:35

Someday there won't have to be any more closeted or lesbian. We here now have the power, the ability and the energy to change the culture that we've been living in to make it more open, more sensitive and caring, more fanatical about justice and liberty and food and shelter for everyone.

11:05

Gays and lesbians have something more, more of it, I guess, than the ordinary heterosexual population, especially the straight man, we're creative. We have been for centuries even farther back than Sappho. We are artists, painters, sculptors, designers, architects, writers, poets, novelists, journalists, musicians, composers, conductors, performers, dancers and actors and playwrights and directors, and of course, especially creative in our personal relationships, which is now even more unnecessary to discover ways of loving in the face of the danger of AIDS. So today, as we match, feel our power, imagination, our courage, and our ability to change ourselves and the world around us.

12:06

You must tell your immediate family. You must tell your relatives. You must tell your friends. If

you must tell your immediate family. You must tell your relatives. You must tell your friends if indeed they are your friends, you must tell your neighbors you must tell the people you work with. You must tell the people in the story to chop it

Hello, do you know me? I have appeared in hundreds of Warner Brother cartoons with that screwy wabbit who always does drag yet whenever I travel homophobic troublemakers are always telling me that there's no booms and no hotels. No available seats in the West Juan's and no cause to went, it gets downright frustrating. At first I wanted to cry. What's my sexual orientation got to do with my being a good customer. Then I got a game that can express cod. Now I use it everywhere. From crepes and flats to tropical foods and Honolulu to pick it up to works in Australia. My good American Express card does it all get American Express Don't be homo without it

16:29

do believe it?

16:44

Joe Jackson then looking for real men on after hours. This is Harvey Milk.

16:54

Simmer is in Des Moines or San Antonio with a young gay person all of a sudden realizes that she or he is gay knows that if the parents find out to be tossed out of the house, the classmates would taunt the child and the need of Ryan's and John brigands are doing their bit on TV and that child had several options. Stay in in a closet, suicide. And then one day that child might open a paper and says homosexual elected in San Francisco and there are two options. One option is to go to California

17:37

stay in San Antonio one night, two days after I was elected, I got a phone call. The boys was quite young was from Altoona, Pennsylvania. And the person said, thanks. And you've got to let gay people so that that young child and the 1000s upon 1000s Like that child know that there's hope for a better world. There's hope for a better tomorrow without hope for only gays, but those blacks and the Asians and disabled seniors. The essence essence will without hope, the essence give up. I know that you cannot live on hope alone. Without it, life is not worth living. And you and you and you got to give them hope.

18:37

You realize right now that this is all you get on a life. This very second, as you're listening to my voice, that's it. Yesterday's our history. If you did something spectacular enough, maybe somebody will write it down and you'll remember or they'll talk about it in years to come. The future tomorrow never comes. Tomorrow has become today. All it counts is right now, this very second. And right now this very second in my life. I really miss Jim Carper, because he's not here. He's in Seattle with Stanley. But it makes me realize that maybe one of these days he won't be here. Or maybe one of these days. I won't be here. But rather than worry about that. What we need to concentrate on is the now this very second. As you listen to us we talk about gay lesbian rights and how important it is to come out. I cannot emphasize to you how much better you would feel if you would get involved in the Pride Week activities that are beginning to come around. In the next few weeks. Go to some of the functions. Go to some of the plays and concerts. attend some of the lectures And most importantly, go to the parade and go to the gay fast. You've got to do it baby. We have got to come out for me to be out of the police department and to do this program. And for you to be able to listen. It's working, it's working. You've got to come out. Maybe not to everyone, but to someone, even if it's only yourself. So this is the day to do it. Okay. This is the day to make a difference. Put your arms around yourself. If you're there alone. Give yourself a big hug. If you're with someone they care about hug them. Just understand that this is what's important in life. These moments that we share together as human beings, gay, straight, black, white men, women, rich, poor. We're all people. And that's what it's all about. You're listening to after hours on KPFT 90.1 FM KPFT, Houston, Pacifica radio. And we'll be back with some more goodies for you in just a minute. Jimmy and Stanley in Seattle, and we're here and we're queer and looking for a better day. That's going to happen

heard much about AIDS lately. asked me if I've heard about anything else. Really? So your friends talk about AIDS? No, no one does. But you said you haven't heard anything else. That's because it's in the paper and on TV all the time of AIDS is so important. Why don't you friends talk about it? I guess they're embarrassed. Or you embarrassed? AIDS isn't exactly what you'd call party conversation. It's no party. But how are we ever going to prevent AIDS? If we can't even talk about it? But how do you talk to someone about AIDS? Just like this.

23:40

Talk about AIDS, because talking will help you understand. If you'd like more information, call your local aids hotline, or call one 800 342 AIDS. This has been a message from the US Centers for Disease Control.
