And but they had other symbols, they had blue triangles for gypsies, and there's a whole history there of symbolism. The the opera, though, has so many metaphoric symbols in it. The pig tail cutting routine, and there is there is kind of a deity like character that guides Harvey in the crisis of getting busted at age 14 for chasing men in the park after the opera that showed up then that was with him when he got killed both times and ultimately led him to a higher plane is is pretty strong Jewish tradition of they don't really have like guardian angels, like fundamentalist Christians do. But they have they have guides that are very deeply spiritual. Harvey was a very spiritual person without being a religious person. And, uh, but he had that deep sense of Jewish history. Interesting. Though, Harvey and I spent the better part of a weekend together in Dallas in 78. We talked on the telephone frequently after that. I never had a conversation with Harvey Milk that he didn't talk about being assassinate. He was that was just such a normal part. I would find it so depressing that I'd have to call Steve halt or somebody else somewhere and say, God, why is Harvey talking about getting killed? But he had talked about that all the time?

01:32

Well, he had a premonition the night before he died. And and I remember reading about this years and years ago, I lived in San Diego at the time of the assassination. And I remember reading something about it, and then it was brought up again during my interview with Michael Curry. And, and he apparently Harvey Milk had a premonition that he spoke to his lover about the night before he was assassinated. He

01:57

left a tape, which he had a tape way back. Like in 78. He had the tape, what to do if I get assassinated, and they actually play? Oh, maybe three or four minutes of it. It's about a 24 minute tape. I've got it somewhere in my archives of Harvey's full tape. Harvey, and that was one thing. Interesting, because because you know, something will happen. That doesn't make sense at all. In my team, and in Dallas and our Dallas meeting, you don't have points in Dallas. Are they open to overdo everything. I had a limousine and Harvey had a limousine. We wanted to go have lunch. And we couldn't like get in one limousine and go have lunch. This Dallas. Harvey had to take his limousine. And my limousine had to follow your I mean in that order

route protocol. That's Dallas. And so we went pouring down the street to go to Dave Lambeth house to have a sandwich into limousine. Well, after the sandwich we get back. I've already spoken. I gave my speech that morning. And Harvey is going to give his speech as a keynote speech that evening. After we get back in limousines, I look over to Harvey and Harvey's got his is hanging out the back window of his limousine from the waist up waving both arms wildly in the air. And so it takes me a while to find the button to put the window down because I'm not used to limousine. But finally my driver puts the window and I say what is it Harvey? This is a cleaned up quote. Harvey mug said Ray Hill. Don't you ever forget that Dianne Feinstein is that backstabbing, short word for Jewish female dog in heat? Oh, no. He said that. Now that why do I care? I don't live in San Francisco. I don't have to live with Dianne Feinstein. I mean, I mean, but in the opera. Here is Dianne Feinstein, trying to wire Dan White back up by going out and getting all of Dan whites, people that he doesn't know how to politically deal with to give money to him personally. So he can continue to be. Of course, that hadn't happened yet. But that is the nature of Dianne Feinstein, which comes out in the opera that I had no idea I didn't know what kind of context to put Harvey can call anybody a short word for Jewish he wants to because he too, was Jewish. And the sexism in the other word is something that I have some problems with. But the point was that Dianne Feinstein for Harvey's purposes could not be trusted. And then after that I hear on the radio, first break. Dianne Feinstein, Mayor, Moscone and Harvey Milk have been shot, and are both dead. And the suspect is supervisor down why. And I thought, Holy Jesus, I know more about these people than I ever wanted to know because Harvey told me about those people, but I didn't put it in context because I had no idea about Dianne Feinstein's role in trying to undermine the leading advocate of our rights in our community because Harvey had a real strong sense of who he was in that regard.

05:13

Well, there's there's two points I want to end up stressing before we have to cut to music. One, and I thought about you today, right. We tried to call calling on this. He, what was so important about him is that he passed the gay and lesbian civil Civil Rights

05:32

Act. I basically the city employment ordinance is what it was. It was like the same thing. We went to referendum here and was defeated for

05:39

20 years it hasn't been able. We wanted to know if you have any idea about how many states have. Dallas

05:45

has one that was just passed one, although they were supposed to have a vote to resume this last week. Michigan as the state has gone, California as a state has one passed by government, Republican Governor Pete Wilson finally got through the last session of the legislature with his signature. Vermont, good, escaped liberal New York, Jewish people moved to Vermont and they

have won. New York City itself has had one since before Dinkins was mayor. There's one in Boston, and of course, in Minneapolis, and the whole state of Michigan for them. And they had Minnesota, I'm sorry, Minneapolis in Minnesota.

06:30

Well, the other point I wanted to just stress, I was I don't know, I was shocked to find out that Dan White only served about five years and then when he got out he committed suicide is that correct? Well,

06:40

then what actually didn't serve five years then White's total sentence was five years and six months, he served four years and a couple of months. And he got out. You know, when I'm when I'm talking about homophobia to college classes, and high school classes and all that I there's a phenomenon that I refer to the Dan White phenomenon. And it goes back to something Harvey told me about then why I asked Harvey how business was and what about his famous Nemesis over there. And he said that the guy that was giving in most trouble, was a deeply closeted case married with kids. But it was dealing with his own sexual insecurities, to the point that he was extreme. And I always point out that, that Dan White thought that he was killing the queer that was giving him all this trouble when he assassinated Harvey Milk. But then when the critters causing the query that was causing Dan White, all the trouble, was the one that was appearing in his near wake states, the homosexual of himself in his dreams, because you can suppress it, and you can deny it, that you can't make those dreams go away. And when Dan White finally got out, and it finally may even have dawned on him, that even after the horrible assassination of Harvey Milk, there still was a career that was causing him problems. And that's the one Dan White had to kill, to stop his problems.

08:27

Well, I enjoyed the opera, and I was hurt wonderful. I wouldn't encourage everybody to go out and see it and 50% of the ticket sales. I think on certain days go to gay organizations this Wednesday, right and ticket started,

08:41

if you will take out of the current issue of outsmart any ticket that you by using that form 50% of it will go to whether it's this performance or any performance, there is a performance where they're distributing but

08:57

and it goes to the Baron Care Center, pet patrol and Houston pride committee and one other group I'm sorry,

09:03

but But it's all there's an added to that effect. And if you mean this, Wednesday's performance is fine. But if you go to any performance and you buy your ticket at the ticket sales station in their off that form, you will get credit for that you

09:17

for a schedule of this performance. You can call the Houston Grand Opera. I do not have a schedule before me. I do know that the final day is February 5, which I believe falls out of Friday, two to seven arts, two to seven arts. We're looking for a schedule really quick here.

09:37

I've got the program you've got

09:41

let's say tickets January No, no, no. January 28. Tonight we have a performance on the 31st February 3 And February 5 There's three for three more performances and

09:56

we've got one opera virgin here isn't First, I believe that

10:00

10:02
