 Howard McHale 00:01

We can have a real comfortable prayed I was I was uh it was it was a hot day and it's hot it's always a hot day it you know, thank God it didn't rain which was kind of nice because we were hoping it didn't rain. But it didn't rain it was a beautiful pray it was by you know, we're just to the people who who wants to change the parade. Let's make it more accessible for for HIV and AIDS people to view the parade let's let's let's let's work on it to make

 Jimmy Carper 00:29

records do that yeah, cuz I don't want to lose sight of why we have the parade exact I don't want to lose sight of the fact that it's a celebration of Stonewall and what Stonewall meant

 Howard McHale 00:39

exactly. And I think if if we kind of make it comfortable for HIV positive and aids to get there, and to watch the parade and to cool some people off Sure, then that's our goal. But let's not move that parade because it's a very important day in our history. Yeah, so

 Jimmy Carper 00:52

I think so too.

 Howard McHale 00:53

And like you'd say we would lose, we lose sight of exactly why we're there.

J Jimmy Carper 00:58

You know, every year we have to educate people as to what was Stonewall anyway. And we do it on this show and on lesbian and gay voices. And in the press, we have to keep pounding home. What Stonewall is about because the longer we go the less people actually remember it firsthand. Oh, just look and now most of gay and lesbian people. I mean, that happened 2627 years ago. Well, most people were children or not even born yet.

H Howard McHale 01:30

We'll just look at when we had the the guys on from San Francisco with the Harvey Milk coming. People still don't even know who Harvey Milk is unbelievable. And so the pride issue keeps coming up year after year. Let's those people who want to change it, come to our meetings come to our forum. Let's work together. Let's keep it where it's at. But let's make it accessible and cooler for everyone to enjoy. And we can do that. Yeah, we can we just get you know, we're just getting to the point with the pride committee that we're getting better we're getting we're getting to the point where things are getting real nice. We're the city should be really proud of the the gay and lesbian community. Oh, I think so too.

J Jimmy Carper 02:06

I think so too. I can remember years back when people were fighting with each other about what they were going to wear and all of that and all of that kind of crap has has died away and and people are enjoying it again. And having it here having the the festival after festival in Montrose, I think was such one of the best things ever because it was everyone was right here. It happened immediately afterwards. It was a very short walk. You just followed the end of the parade. And you ended up right at the festival. And it was fun food and drink and entertainment right here and wonderful booths from all of our support groups. It was great. It was great. It was a wonderfully fun time.

H Howard McHale 02:50

And the nice thing about it, there was shade. Most of it was in shade. There's plenty of water.

J Jimmy Carper 02:57

I guess I'm telling you in years past I have overdone it and gotten sick and thrown up and had headaches for two days. But this last year, even though it was so very hot. You know, I took my time and took it easy. And I lasted in fact, I was taking down the switchboard tent at the end of it.

H Howard McHale 03:18

Exactly. It was just And plus, you know, and it's really kind of funny because the city was kind of nervous in the neighborhood that we had the festival and was kind of nervous. 10,000 people on this corner, and people were nervous. But you know, everyone I was so proud of the

game has been community

crashed at all. We cleaned

H

Howard McHale 03:37

up the next morning. It was like nothing happened. It was great. It was even even Westheimer the next day was clean. The city was proud of us. But we were just a good group of people. And like I said, we're still looking for volunteers. So you know,

J

Jimmy Carper 03:54

and I think those I love the fabulous pink triangles along the way. Thank you up on the lamppost. Yes,

H

Howard McHale 04:02

who I could I could I can give you several people who work there to churches off getting them things. Yeah. Or Yeah. And like I said, one of the one of the nicest compliments at the game Lisbon Pride Week committee could ever have gotten us from the city of Houston saying that we were probably one of the most organized groups they've ever worked with

J

Jimmy Carper 04:20

how nice and well, you know, you've got lots of years experience. And I think Jack Wolinsky was on the right track when he set up an executive committee and that way the same people were involved you're after a year and it gave some continuity to it. It wasn't that you didn't have to remake yourself every year like had been done in the

H

Howard McHale 04:43

past and we still need more people more volunteers. It's a hell of a lot of work. Oh, sure. And believe it or not being your co chair for next year. It's difficult we you know, we have that that nucleolus but we always need more people come up to the ranks. Yeah, there's always room for another voice. and attend the forum come out. But just come and talk to me. And then we'll get you on the committee. And it's real. It's real interesting to watch because it being on this, this committee, I, I work with people who make decisions that affect 1000s and 1000s of people. And besides getting free, yeah, I mean, I got a free burger last year. But it's it's so important that the input from our community and I see some of the things going on, and it's real nice. Yeah, right.

J

Jimmy Carper 05:33
