SUMMARY KEYWORDS

penis size, people, letters, penis, talking, miller, column, wrote, inches, urologist, measure, gay, editors, big, sex, study, jackie, houston, questions, average

00:03

The following program contains language or images of a phrase or sensitive nature which may be considered objectionable by some listener discretion is advised.

00:38

Oh yes, you've tuned into after hours queer radio with attitude right here on KPFT Houston 90.1 FM. The crew of after hours is ready to bring you news interviews, dialogue and music geared for gay, lesbian, bisexual and transgendered people and their friends. Hear it after hours. We may be diverse, but we have one thing in common. We are all out of the closet and urge everyone to come out of their closets. That means standing up for yourself taking responsibility for your own life and being proud of who you are. Realistically, we know not everyone can do that because of age job or frame of mind. That's okay, we're here for you too. So sit back, relax, and enjoy this week's edition of after hours.

02:03

Hello, Houston and college station and welcome to after hours queer radio with attitude and a big ol hello to Huntsville up there to especially to Doug who is also on the air right now doing after hours north on KS Hu. K sh you 90.5 FM? Yes, we'll be doing a little something concerning after hours north a little later in the show. But tonight's a very special show. Not only is it the fifth Saturday of the month, but I mean this month has been so screwy right, Bobby? Oh, tell me about it. Yes, it's been either. We've been doing it since the fifth Saturday where it's supposed to be a music show. But we've been doing music like all throughout the month, because we've had different segments not being able to be here and all kinds of stuff has thrown us off it really kind of weird. And tonight. In just about five or 10 minutes, we are going to be having a phone interview with none other than

03:17

what do you Miller and who is he? And for folks who read the Eclipse magazine. You will notice an article segment in there every week called needwood, which is written by Woody Miller then this article answers some pretty deep sex questions. As in how come my my penis doesn't get

hard to what's the best way to pick up a guy and what's the best way to dump a guy? What happens when I there was just one writer who wrote in how his boyfriend has intercourse with him at night when he's asleep. Snoring

♂ 04:02

Oh yeah. Like he's that's gonna like you don't wake up to that.

♂ 04:08

I don't make these things up.

♂ 04:10

The person who was sleeping was the active participant. The recipient

♂ 04:15

Oh,

♂ 04:16

I've heard of sleepwalking

♂ 04:18

this asleep. Sleep screwing.

♂ 04:19

Yes. Sleep screwing. Screw the screws as lover. While the guy who's doing the screwing is asleep. He

♂ 04:25

decided not just to be in a deep sleep but into somewhere else deep.

♂ 04:29

I see. I see. Well, that sounds like fun. I hope you of course I'm talking to big Roy and Chris, who are going to be doing most of the interviewing asking the bulk of the questions because I really

are going to be doing most of the interviewing during the bulk of the questions because I really don't have any. Oh, you can come up with some. I am I'm very happily married. How could I ever have any questions about sex? Oh,

04:51

I was talking with Chris earlier tonight.

04:55

Oh, why is everyone laughing?

04:59

We've met your house. Ben

05:06

I mean, the question you should be asking is what do I do when Viagra doesn't work? Hey.

05:12

Hey, now we're getting first.

05:15

I was talking with Chris earlier tonight. Yeah, you know, and some of the questions this guy came up with us. I tell him, Chris, you've got to be in there. These are great.

05:24

Oh, yes. Oh, yes. Some other goodies that we're going to be doing later on in the show. Let's see. Since by net couldn't make it the first Saturday of the month. They're going to be here tonight on the second half of the show. Kind

05:42

of it's kind of a little weird for them. Is that going to be nude radio with?

05:45

.....

Well, it could be yes. And what all depends on who shows up nude radio coming after an interview with Woody Miller? Well, that'll

05:56

only that'll work. Seems a perfectly natural segue, oddly enough.

06:03

But it's gonna be interesting because Biden is going to be on tonight because they switched with the first of this month. But then again, they're gonna be on again next week in the regular time slot. So you're gonna get be getting all the buy stuff you can stand, which is good, because there's a a by conference coming up in Austin that Gigi will be talking about. Also. Late in the show last week, I played an interview with Jeff Stryker. That's right. I will be playing at least half of it again this week.

06:42

Hasn't she retired yet?

06:45

No, no, he's he's going to be in a play. Here in the mid act. Yes. In a play at the Ashland street theater. It's called Jeff Stryker does hard time. And there he said, I asked him, you know about, you know, nudity and stuff in this play, because I said, you know, we just had naked boys singing, and there's like nudity in the whole thing. And he said, Well, there's more nudity in his play.

07:13

I should have, you know, I should have tuned in from my hospital room.

07:16

Also, we mentioned last week how the clips magazine had was sponsoring a date with Jeff. Yes, indeed. They had it down there, Jr's I was not the lucky one. Oh,

07:31

you didn't when Jeff was not. I know.

07:42

07:42

You miss your lineup.

07:43

I'm on the wrong medicine.

07:44

I spend all day writing up these lines.

07:46

I know. He woke up he refuses to go to rehearsal.

07:50

See what my problem is? is I have an ear infection. Yeah, fortunately it's not near closest to Roy

07:59

Okay, well, well. Do we have

08:05

Yeah, that's that's a good euphemism. That's a good euphemism. I remember that. I had a roommate once every time he got the clap and he got it pretty regularly. He would refer to it as a cold in his tea tea because that it okay. Okay,

08:25

I'm not going there.

08:26

I think we need what a right away

08:28

I know what he helped me. Where are you?

08:31

We're gonna be giving him a call. Right during this next piece of music coming up. And when we come back, we should have woody Miller on the

08:40

air live from Hotlanta Georgia Atlanta, Georgia.

08:43

And to get him hot is extra fancy. I haven't played extra fancy in a whole long time and it's a hot number called no mercy

08:56

and if you want to start getting your questions ready to call in That's right. We've got Bobby going to be someone's gonna be standing by there to take your phone man we're sitting by profiting by but we're that when the pledge time comes around. We'll have other ways to do we have out in the lobby. Mike is also here. Okay. draft him as well. Yeah.

09:16

Does he put out

09:19

you have to ask yourself,

09:21

myself.

09:23

Somebody better be out there because I'll be young. Yes, he

09:25

does. Yes, he does. Yes. I just got a confirmation on that. From the I wouldn't want to say

horse's own mouth but you know, okay, he puts out and and you can reach him at 526-573-8526 KPFT or 713. Jam KPFT.

09:52
told you

09:53
there was no mercy that that qualified that was extra fancy. A guru that unfortunately is not together anymore. But boy did they have some rockin rockin music while they were around that's off of a Okay, I'm gonna say it ha ha ha ha This is often the CD that you can't get because it was only it was only issued in California for a short very period of time but extra fancies ex manager had an extra one and gave one to me. So so so so here we are they're having fun in the talk studio. Well, since we Jackie Thorne has joined us

10:45
since we're not out in the lobby we we have to have our show within a show in here. That's right. Yeah,

10:51
there's always a show out in the lobby. There's two shows two after our shows music so

10:57
now we're talking now so there's no music.

11:00
There's nothing no, there's nothing just minor dead. And what about your headphones? Oh, nevermind.

11:12
Jackie couldn't hear the

11:13
here. Okay, well either plug her in turn number volume or

11:17

the the hook there's is is screwed up. And I've got a feeling I hate

11:23

when my book is screwed up. And speaking of hooks that are screwed up. We have to have 40 Miller standing by getting by profit on the line. And if I'm ever I think I can do this. When to shoot, shoot, shoot. So everybody else can hear. I think I got this now. You know this is this is the new phone system and I'm not doing it right. Yeah. Okay, so if your push air that didn't do it. That's why I bring my own Hulu know that how's that? Do I have 40 Miller on the end of this line?

12:12

You sure do. Hey,

12:13

how you doing?

12:15

I am doing okay.

12:18

This big roll. I'm

12:18

waiting for my big entrance.

12:22

Well, I you know, when we're talking about all of that stuff, somebody's thing was screwed up. So I figured it was time to

12:30

I aet that a lot. I aet a lot of letters like yeah.

12:36

Exactly why we wanted to talk to you. You know, there's all kinds of screwed up things here in Houston.

12:42

I was mentioning on the air and how that you had gotten a letter from this fun guy who said that his boyfriend screws and when his boyfriend is asleep? Yeah, I you know, this is really something else that

12:55

that yeah, that just took us right into it sounds like sex with my ex.

13:02

People would call that a sleep disturbance. I'm not one of them.

13:07

What I want to introduce you to we've got four people here in the studio tonight. We've got big Roy, who you've already talked to you and Chris. So Bobby's here. Hello, and possibly on and off. We'll have Jackie Thorne,

13:22

if we can find a set of headphones here before. Okay.

13:27

Can you give us a little background about how needwood got started?

13:32

Sure. The the name of the column is needwood tips for getting timber.

13:37

...
...

Yean.

13:39

Yeah, baby. And it got started because Dan Savage said no. Lucky Yeah, the God's honest truth. A lot of good things can come from somebody saying no, that's right. Except one bedroom. That's true. I mean, literally, this is this is what happened. The editor of Eclipse wanted and savage dance in the worst way.

14:07

I see. Standing up in the hammock, right.

14:15

And A Funny Thing Happened on the Way to coming out of the closet for Mr. Savage. He, he he won't sell his column to gay newspapers. Right? Yeah. And that's how I got started. So his his syndication company said no, because it was a gay newspaper. And so the editor, infuriated, came to me and said, Can you write a sex advice column? And I said, Can you pay me? And that was a start up a beautiful really? Yeah, I

14:53

see that. Many great. Wait a minute. Let's go back here. He doesn't sell the column to get A newspaper.

15:02

But I did meet him a couple of months ago. Yeah. And I asked him that, and he said, It's true that they don't do it. And it's a marketing tactic for them with

15:14

him specifically, it's his. It's his agents, his handlers, but he also agrees with

15:19

it, you know, and in some ways I understand it. I mean, 90% of the letters he answers are from heterosexuals. So sounds like our listenership.

15:30

Yeah. Unfortunately, wow. That's, yeah. I

15:37

mean, we've got heterosexuals that are in the closet.

15:44

Oh, yeah. I'll have to think about that for a while because that, you know, he's in gay magazines, but not gay newspaper? No,

15:51

I didn't say it was without irony.

15:56

Figure yay. Well, you know, he loses and you gain?

16:01

Hey, you know, at this point, the column is in about 15 newspapers. And it's hard enough and you know, just one town. Yeah. Yeah.

16:11

I mean, you were just in with the right people. They just bought everything.

16:14

Yeah.

16:17

hook line and sinker. And they

16:18

keep doing that. And so you know, pretty soon that's going to be set. What do you Miller and Dan Savage who?

16:26

From from your lips to God's ears?

16:33

Well, okay,

16:34

I was hoping we would get some sort of dirt there. And I'm really happy. I think we did. Yeah.

16:42

So I get what do you mean, they got you on the rebound?

16:48

Hardly.

16:49

I love the word found I really.

16:56

Yeah, let me let me ask you some of the Do you ever get letters that you really can't print?
Because they're just too off the wall?

17:08

No, I mean, what do you what do you consider off the wall?

17:11

Well, for me, I I'm trying to figure what I would consider off the wall. But you know, I'm

17:18

I'll give you an example. I'm trying to get you to say the seven words the bad. Okay, Jackie,

17:27

I handle the hotline for the transgender community here in Houston. And I've got this one guy from somewhere over on the east side of town that calls me up about once a once every other month, and wants to know if our organization will let him come to the meetings in girdles and pantyhose and nothing else and nothing else. I don't think so. No,

17:51

I guess not. Okay. Hmm.

17:55

Interesting.

17:56

I mean, we're, you know, we're in a restaurant, you're in a real honest to god street restaurant in the Galleria. Yeah, that would catch some attention. I can't say I've gotten a letter like that. No, there isn't anything that I wouldn't print. I mean, I think, you know, within the bounds of taste. You know, there are ways I mean, like when I get letters, I doctor up the letters in the sense of, you know, I cleaned it up, make it shorter. Make it? Yeah, I mean, I added it. I mean, if somebody's using like, you know, really foul language. I'll edit that out. Sure. Because that's my job. Do your editors come in behind you? There's gonna be foul language and the column is gonna be from me. You're not gonna waste it. That's right. That's right. Your

18:48

editors come in behind you and perhaps edit the the letters for the publication that that screen? Oh, no,

18:56

no, no, because the letters come directly to me. Oh, good. And the editors edit it at the risk of drawing back a bloody stump.

19:07

That's right. You know when somebody writes a column I mean that that's that's your baby. That's personal property. And many I don't know if you copyright yours, but I know a lot of a lot of people copyright their stuff and you know, you don't change anything.

19:21

I was gonna say that. I I'm a faithful reader of what he's column. I mean, that's the first thing I read when I pick up the Eclipse there. It really is. I look for that. I look for that your column first because

19:34

yeah, he told me about that. That weird. squawking in the sleep screwing and

19:39

there you go. But he's, he's had some others that he he printed this. He gets these letters that are not only just really kind of hilarious sometimes, but they really touch a chord in the community, for instance, and it was just really recently a person wrote in planning how he's really handsome good body and everything. But he's smiling down, shall we say, and people drop him like, like crazy. And what are the responses you got on that?

20:12

I've been popular all my life. I mean, that shouldn't have anything to do with it.

20:19

What are you long life? That's

20:23

Now what was the response?

20:25

What was your response on that?

20:26

Well, let me tell you what the letter was. Yes. Big right. You're absolutely right. And I have to say that that was probably in two years of writing my column, it was probably my favorite letter, really, which, you know, which is actually kind of weird to say, because it was such a moving, sad commentary, not only on this guy's life, but on gay culture, and how cruel we are

to each other about the issue of penis size. And basically, what the letter writer said was that how cruel the rejections had been, I mean, the people that he brought home some one guy who actually said, God, you couldn't blank a coke bottle with that thing. Whoa. And in a couple of times, he said that people would literally literally get up off the bed and leave. You know, I mean, that's, that's like,

21:24

depressing. Well, that tells

21:26

him that they're only there for a projection. Yeah, they're only there

21:28

for a while. And you know, they don't need that person anyhow.

21:33

Yeah, you know, that's hard to coach somebody. Oh, you shouldn't feel bad about that, you know, when somebody's basically being Kevorkian on them. That was I mean, it was really sad. And I probably got the most amount of letters in response to that letter. In the two years that I've been writing, really? Oh, yeah. It was amazing. It was amazing. I've

22:01

got a feeling it happens more often than a lot of people realize.

22:05

Yeah, it does. And I think what happened, what amazed me about the number of letters that came in, were people who were sympathizing with the guy, and people who either were going to the same thing, or interestingly enough people even who, you know, people would write in and say, I have a very large penis. And I would like to date this guy who wrote in because I don't care. I mean, a lot of a lot of guys had written in talking about the fact that it didn't matter to them, and that this guy just needs to find people out there.

22:45

Well, there is an organization for small penis to people. I don't know, the the website or anything, but I mean, it's small and down. mint.com? I don't know. Yeah, no, yeah, I believe there is I've run across it. Yes. Yes. Because it is a big deal in

23:01

the community. And you know, I'll say this, that from the jest that I got from this guy's originating letter was that this wasn't something that just happened one time. This had been happening to him for like, forever. And we can sit here and say, Oh, well, you really, he really doesn't need that kind of person anyways, but you know what, you get bashed in the head enough times? Yeah, sooner or later, you're gonna go cuckoo.

23:26

You know, I'll bet you know. I've known a lot of people and they claim they want a large penis. But, you know, when it comes right down to it, I've also talked to guys that really have big decks. And they say, I have trouble too, because people run away from me, they know you're not gonna put that in me. You know? And just, same thing, same thing. Well,

23:51

the corollary to that also is the age thing. I mean, we want to the young buff, you know, pretty boy, sometimes, and the older man who has his act together, is kind of pushed off to the side,

24:07

right? Well, I'm Yes, I. Okay. I'm 50. If that has not really happened to me. I don't go out that much. But when I do go out. I have no problem.

24:20

I think well, you're very aggressive. Yeah, well, I'm aggressive.

24:23

But at Molson, you've got

24:24

a an attractive personality. And I think that's what those are some people that are not as extroverted as you are. Yeah.

24:31

Are you calling me a dirty word?

24:35

Funk and Wagnalls

24:36

my phone look at my waggle is not funky.

24:41

I just make an observation. Please do. First time I've ever talked with a group of gay men where the subject veered away from penis size. Can we get back to the

24:53

right what do you guys

24:56

well, we all have small wings. And so you know, we don't want to talk You

25:00

know, after this segment, we're going to have new radio with attitude. That's right.

25:03

We have a bisexual segment coming and they do in the news. They, you know, we do occasionally do nude radio there.

25:08

I just think it's amazing how, how we, the gay community complain so bitterly about the judgmental attitude of the straight community, and yet we are judgmental with each other. Oh, sure. It's such a brutal level. You know?

25:24

Absolutely. And you know, the things about penis size? Yeah, what? What is the things about

Absolutely. And you know, the thing about penis size, yeah, what is the thing about penis size? Yeah, yeah, well, I think if we if you sort of get yourself out of hyperdrive, because everybody, I think, you know, it's natural to say that you'd prefer to have a bigger penis, but not either to own one or to rent one. And, but that, that if you're really honest with yourself, and you get away from that, you know, oh, my God, that the hottest sex you ever had rarely involved. The issue of science. I mean, if you think about, you know, think about your best three or four nights of sex you ever had, what did they have in common? What was good about it was the way he touched you. He looked at you, he felt to you. It's what he did. It's how you responded, it's how he smelled with the level of Match Desire, it was the shared intensity of it. Those are the things that make great sex. And you can either have that with somebody who has a large penis, or you can have them with somebody who has a small penis, it doesn't really matter, because the things that matter are psychological.

26:42

Yeah. But I think where the big problem we have is the communities when we talk about it, we're not talking about sex. We're not talking about making love. We're talking about that orgasm. And when it comes to that people are going to be interested in what was done and with what it is when we talk about when we talk about sex, we relate to it. We don't talk about emotions. That's

27:04

you know what I wasn't either when I just said what I said. I mean, I was talking about one night I'm saying that the best sex regardless of whether it's in the context of love or not rarely involves sighs that if you really break down the components of what went on it you know, size is you know, it may be an issue but it's certainly not the issue.

27:33

Do you find that the community tends to overestimate what is the average oh my god yes. I mean, you know, everybody

27:41

don't get me started on that. You know, America Online won't let you subscribe unless you're eight inches Do you ever notice get into the chat rooms I

27:54

was gonna bring up the whole internet.

27:57

Eight inches Yeah What is the average penis size?

Eight inches from what is the average penis size?

28:02

And what is an average penis? What is an average penis

28:06

well on AOL or

28:09

no in real life medically speaking five inches and

28:14

Masters and Johnson did some research on that and basically the average is something like five or six inches. Yeah, I mean, and here you know people think oh my god if I don't have nine or 10 inches, you know, I'm small. Right?

28:30

Well, you know, I think that we are not all that different than the straight community in the respect that when you get a bunch of straight guys together and they see a woman walking by, they talk about their breast size that's the first thing that they notice just like in the gay community we look at the basket How big is that basket?

28:47

Oh sure. It's straight guys are really consumed with penis size to all trash Mara.

28:52

Oh, yeah. But as far as for females, they are consumed with the breast size whatever and in the gay community there are these magazines I've seen these ads for these fake foam penises to put in your underwear or in your speedos to make it look as if you got a bigger one out

29:13

loud. When you find somebody you have to take the damn thing out

♂ 29:17
there you go.

♂ 29:21
Where the lights which hasn't on

♂ 29:25
right there that's

♂ 29:25
officially officially Woody. What is the average penis size?

♂ 29:32
The latest? Let me give you some background. Okay, the there are only three studies that urologist put their faith in, okay, okay, there's only three of them. And what's really interesting is that with each consecutive study, penis length is getting shorter and shorter. While there's something in the water

♂ 30:00
Maureen is telling us

♂ 30:03
the fact that there's more rigorous controls in the yeah probably

♂ 30:07
that

♂ 30:08
are more true yeah more truthfulness

30:12

questions like for instance Kinsey was the original was the first and largest study of its kind of the head. 2000 people 2000 men in the survey, and the average was 6.3 inches I think. But there was a deal breaking flaw

30:32

not when you're not winning. Yeah,

30:33

I know when it's hard, erect penis. Yeah, and the flaw in the study is that he gave men a ruler and you know have them go into a room measure themselves and then self report

30:51

I say

30:53

I want to study by that's done by the prostitutes. That's the one I want you

31:00

know, anybody's gonna be blatantly honest about

31:04

well, you know, there's been controversy now. What do you I don't know if you've heard about this or maybe you know that the actual answer and measuring of a penis size from the tip from the head all the way back to where?

31:17

Well yeah, usually usually your your measurement is on the top of the penis from the from the base of the penis to the you know, to the head.

31:25

Is that it?

31:25

I've heard different

31:27

rather well rather, you know, other underneath, you're gonna you're gonna pick up an extra hand.

31:34

Well, you want to know how to measure it. Yes, I do. How the urologists who are unconcerned with scoring potential.

31:44

How they do it? Yes. Okay. The

31:46

first thing is you have to use paper tape measure. Okay, not a ruler. Okay. Second thing is you measured to the nearest half centimeter not the nearest half foot

32:03

that's right. I think Kinsey needed to sort of coaches. Yeah.

32:11

Oh, well.

32:13

You measure rather than go into like the, you know, the scientific way. Here's what you do. You get hard. On your back, you measure the side of the penis facing your stomach. Okay, okay. You got it? Yeah. In other words, you don't do it from the base of your scrotum? No. Okay.

32:34

No, because those don't get inserted. Pictures, but most of the time

32:41

when you do that, and not what I've told you is the way urologist in their studies. Measure. Yes. Okay. And when the latest study that came out, was that the average length of an erect penis is 5.1 inches.

33:01

I feel so much better if lost an inch. Good, or?

33:05

Yeah, I mean, I think it's kind of remarkable that we've gone from I think the first one was 6.3 inches. The second study, legitimate study was 5.8 inches, and now it's 5.1. So, you know, and it's true that the the protocol for measuring has been, you know, more stringent so that they're not just relying on self reporting.

33:34

Is there any way we can blame it on George W?

33:39

No, because that prick is six foot tall.

33:44

Now we're wheeling around the bush here. He wears a tie.

33:48

I'd rather I'd rather beat on him. Preferably with a two

33:53

way there is another trick to the trade measuring that you don't need to get hard to do it. There is a very, very high correlation of erect penis size with stretched flaccid penis size. Really? Yeah, I mean, down to like, we're talking a couple of centimeters. Who knew? So what you do is when you're flaccid is put your your fingers around the head of the penis and stretch it out as much as you can. And then use the paper tape.

34:25

I'd rather just get it hard.

34:28

Yeah, it's more fun.

34:30

Fine choice.

34:32

Something to play with when your sexual

34:36

being seed torture.

34:40

Are you wearing cotton ball torture? Yeah.

34:43

By the way, girth.

34:46

The average, Oh, yes. The girth that's important to

34:49

the average girth is 4.8 inches around around and you measure that with the paper tape ruler. Obviously it would be really hard to do it with a straight edge. Yeah, well

35:00

Have a think and painful Yes. Extraordinarily

35:05

Hey, that paper has an edge on it they're

35:10

not somewhere where you want to get a paper cut.

35:12

Okay, it's a rolled edge paper tape Yeah,

35:15

you put it right under the glands which is like the helmet

35:19

Yeah, the fattest

35:21

around the helmet. Yeah, yeah.
