SUMMARY KEYWORDS

people, question, penis, head, letter, boyfriend, gag reflex, sex, answer, houston, woody, deep throat, big, column, foreskin, vacuum pumps, penile cancer, kid, lube, screwing

00:02

Not somewhere where you want to get a paper cut.

00:04

Okay, it's the rolled edge paper. Tape. Yeah.

00:08

You put it right under the glands, which is like the helmet.

00:11

Yeah, the fattest parameter

00:13

around the helmet.

00:14

Yeah. Yeah. Okay. Okay. Now the other thing that I have discovered just recently is we've always been talked about, you know, big nose, big hands, big feet, big penis. Right.

00:31

I've heard that.

00:33

I interviewed Jeff Stryker a couple of weeks ago

00:37

in person in the flesh in person in the flesh. Right here.

00:41

That man has a small nose, very short, stubby fingers and about a size six to seven shoe. And we all know are you

00:52

really surprised by that? Well, yes, actually, I was, you know, you just haven't slept with enough man. Guys, you're lucky I'm here.

01:03

My lover wouldn't agree with you. I bet that's the first time anybody said that about? Yeah. I was really surprised because I thought, you know, the king of dicks here should be like huge. Of course, he's like five foot nine also. Now,

01:22

there is no there's no study that I'm aware of. That makes a correlation between hands nose, or you know anything with with penis size. Number one is what would be the purpose of that study? I mean, it cost a lot of money to do a legitimate study. Well, because it'd be fun. Yeah.

01:47

I would be the volunteer researcher on that. Oh, I bet you

01:53

drawing a ruler on your tongue doesn't count.

01:58

There is, you know, on that subject about being able to judge whether somebody has a big penis or not. You know, cruising the showers or looking at somebody when they're naked is is

not a good indication either because Masters and Johnson first came out with a study that they call the phallic fallacy. And that was the idea that the bigger the penis is, when it's flaccid, the bigger it's going to get when it's when it's correct. And that is not true.

02:28

So if you want to know what that guy in the shower next to you how big his penis is, just reach out and stretch it out.

02:37

Touch somebody there, you

02:39

know, you take and drop the bar. So

02:42

I've also heard that people with the really big penis is that when it gets hard that the length really just doesn't change. Except very, maybe within a half an inch. That the length of the penis just for those that are exceptionally endowed. Or what do you do you know anything on that? No, I've never heard that. What about the vacuum pumps that are on hold and just about every magazine imagine, including weightlifting magazines. Yeah,

03:11

tell me about these vacuum pumps that claim to make your deck bigger.

03:15

No, nothing can make your deck bigger except

03:19

NorSon surgeries there.

03:21

Well, no, there is nothing. I mean, we're talking about legitimate. Okay, things here. There's nothing there's no pill you can take there's no exercise you can do there is you mean human growth hormones won't do it. No. There's nothing you can do. The vacuum pump is used in a

lot of filming of porno because it can it can temporarily gorge you with blood first of all much faster and and slightly more than just on your own. No there you know but as soon as you take it off, you know

04:03

Yeah, but you know I have seen some some some pictures and movies of guys who do that a lot. And and it's like unusually fat. And I'm wondering if there's cell damage there or something?

04:18

Not if you use it correctly. Oh, I mean, vacuum pumps are also used for people who are impotent. Oh, I mean it's a legitimate product it's just you know, how do you use it but it is it cannot and does not increase your penis size. It will help you in gorge the penis with more blood.

04:41

Well But then once it's in gorge what you use a tide offering or something like that. To keep it that way. Yeah.

04:50

Exactly. interschutz Basically, that's when it

04:54

starts turning purple. Then it

04:57

falls off

05:01

Yeah, what? Yeah, what about that? Because there are a lot of guys do some strange things to their decks and I'm wondering about long term effects. You don't have anything on that

05:13

long term effects of what doing risk,

05:17

you know, like wearing a cock ring for 10 hours a day or something like that. Hmm.

05:24

Well, what about these guys that have Prince Albert's? And you know, and have pure dicks and so forth like that? I would think that that would cause problems.

05:34

I don't know. I don't mean I'm not aware of any studies me either on it. I don't really I really don't know how to answer that.

05:42

If you just remember anything. We talked about that you want to start a research study? There are several volunteers that already has the surgical gloves and the white lab coats. So go for anything past? Well,

05:56

I only really have one question. And I got that from Chris. It's like, what do I have to eat to make my calm tastes better? And I liked your answer.

06:15

Well, it's honest to

06:24

god, they're not some foods that will that will produce a taste in the in the comments, like garlic or onions or so forth like that.

06:33

It's really all over the board. I don't think that you can find a consensus with Dr. on that. I don't not that

06:41

we're supposed to be eating come anyway.

06:43

Well, I mean, I think it's so subjective, that I don't think there's any harm in trying and saying, you know, I'm only going to eat this or that. But I don't think that most urologist believe that. That there's anything that you can do to make your context.

07:02

I was just picturing this Pepsi Challenge.

07:14

Oh, that's fine. I'm seeing the cat. I'm seeing the CANS sitting on the counter with the brown paper wrappers around a and product B.

07:27

A bit more fun on tap.

07:31

You can lick Cameron Diaz his hair.

07:38

So what about this guy? Who was sleepwalking? Sleep? Sorry,

07:43

certainly for someone who has his mind on sex all the time. You can't seem to figure out that guy was asleep. And do

07:48

I know. I'm just an aural type of guy, I guess. But I mean, how can that whole thing seems like impossible to me.

07:58

I don't know a lot of well, women, you know, act like they're asleep.

08:06

It was the active person. Oh, it was the doer, not the doing.

08:11

Yeah, I'm sure that would wake me up.

08:15

It really is a phenomenon that is that is well known in sleep research circles. They are not classifying it as a separate disorder because they're afraid of the potential abuse that that child molesters and rapists could use. And say, you know, I was asleep when it happened. When I rammed my erect penis into my 14 year old daughter. Yeah, I mean, so for them. They would do? Yeah, yeah. It's for that reason they have not classified it as as a separate disorder. But it is well known that it I mean, in the medical archives, and there's there's stories in the Journal of American Medical Association about situations like that. Oh,

09:03

wow. It does. That doesn't seem so strange to me, because I've heard of people driving to stores in their car and coming home and not remembering the next morning that they did this. They were they were literally sleepwalking and driving a car. So the fact that somebody was sleep, screwing growing, and you know, doesn't seem all that bizarre to me. I don't know.

09:33

The guy in the car just had some good Acapulco gold. Did

09:38

you know we? We talked about this before we put you on the air but if we have people out here we'd like to call him with questions. The number is

09:46

71352657385713 Jam KPFT.

09:54

That's right. And you aren't listening to after hours queer radio with attitude right here. We're on KPFT Houston and ke O 's College Station. I'm Jimmy Carper and Bobby Poconos here with me. Hello, big Roy and Chris and Jackie Thorne and rainbows in the background here just just shaking his head not knowing what the hell the thing.

10:15

I got one. I got one question kind of going on with that last one we had there. Yeah. For Woody. Is there any times you get some of these stories in and you just want to track down these people and either go? Are you kidding me or just just want to find these people to track them down and smack them a couple of times?

10:35

I always want to smack them. Because a lot of the questions I get are let me be diplomatic stupid. Yeah. You know, I mean, they really are.

10:47

And that was the diplomatic term. Yeah.

10:52

Well, it's amazing how ignorant people are about sex.

10:57

Yeah, and, and part of, you know, part of the tricky thing about the column is that I'm trying to do two things. One is to, to make it safe for people to ask the stupid question, while at the same time wrapping their knuckles for asking a stupid question. It's a balance.

11:18

I'll bet it is. Yeah, I

11:20

think I think there's a certain education effect there as well.

11:25

Well, it's I think it's a Dr. Laura effect, you know, where you, you kind of like, you know, sort of give yourself to, you know, the moral authority. gonna rip you a new? Oh, you know, but that part of the cleansing?

11:44

Do you ever get a lot of questions that you really don't believe you think people are making them up?

11:49

No. Really? Oh, come on, about sex. What? I mean, truth is, that it is and you know, I mean, as far as the letters go, I, my, my complaint about the letters is that they're so banal. I mean, oh, I tend to get the same kinds of questions all the time. And sometimes it's hard to I mean, I really appreciate the jewels, you know, the ones that are just, you know, they're just so real. And so, like, big, Roy said, about, you know, cuts to the core of what, you know, sex is about. And if you look at, if you look at the cause, and you know, when I look back at my columns, I really recognized that part of the great deal of the popularity of the column is the latter. Not the answer. Yeah. Because there's a voyeuristic quality to it. Oh, that people are looking because I mean, these are these are like, real situations. And, and, and it's raw.

12:59

And I think, you know, that's, that's very similar. People are tired, I think of all the fake and phoniness. And like, even on, on most medias, people are after the raw realism. And I think that's one of the reasons why after hours is so popular here in Houston at this time slot. Well, we do this every week. Well, it's live. It's more than that. I mean, you know,

13:28

we have to get serious, but

13:30

few limits on what we'll talk about. And after hours,

13:33

yeah, but there's also the, there's always a chance that we can, and we have fallen flat on our face, and we will forget our lines, we will forget that we're doing after hours, we will think we're doing another radio show.

13:48

Thank you so much. Welcome, Jimmy. Do you ever forget who you're doing in bed? I can help you with that only once.

13:57

Now, what if there is one thing I want to ask you? And I think this is what prompted me contacting you in the very first place. And this was this letter you received. I guess a couple of months back now of a guy who was screwing his boyfriend. They were both young and the boyfriend died in the middle of the screw.

14:20

Whoa. Yeah, that was amazing. And you want to hear something? I got a second letter from somebody after I printed that letter saying that the guy broke down and cried when he when he read the column because the same thing had happened to his boyfriend 20 years ago.

14:42

Now, this was all this was all based off of the use of the animal trait came on much hoppers. Right.

14:49

And that was that was a pretty controversial thing, not only because the letter was so dramatic, but also that my answer the following column also generated a lot of controversy because of what I said. And what was that? Well, let me let me tell you first about the letter because the letter was so unbelievable. I mean, it was truly unbelievable. And this is one of the few times that I actually emailed back the question or to get more details out of it, because at first I didn't believe it. Wow. I mean, here's what happened. The Reader's Digest condensed version, okay. Just the boyfriend who lived, worked at a hospital. And his boyfriend loved to get screwed while I'm poppers. So the guy who worked at the hospital brought the Amyl nitrate in the real stuff, the real stuff from the hospital.

15:46

Wow, if I only had that one.

15:48

Oh, hell of a lot higher percentage, then? Yeah.

15:51

Oh, yeah. The real stuff. And, and while he was screwing him, his boyfriend passed out. And he couldn't revive them. And he called the ambulance. And when the ambulance came in, the first question they asked him was, Is he on any drugs? And the boyfriend looked at the EMT worker and said, No, that's a bad move the the boyfriend died and route to the hospital. And the letter that came in was from the boyfriend, who was depressed, couldn't sleep, couldn't eat, had not talked to anybody about this. And the reason he said no, was that he felt that his boyfriend had merely fainted, nothing was gonna go wrong. He had had lots of friends fall out at Circuit parties, that kind of thing. And, and he felt that if he said, yes, there would be an investigation of what type of drug and where he got it, and he would be fired? Because it is quite illegal. What he did

16:58

was, was there any was there any other drugs or alcohol or anything involved in it as well?

17:04

No. And so his question to me was, if I had said, the truth to the emergency workers, would my boyfriend have lived? And the, the answer, I actually had to talk to an emergency worker, because the the my advisory, doctors suggested that I talked to emergency workers, because they might have

17:35

had that some experience.

17:36

Yeah. And the answer was no. That even if he had told him, they wouldn't have done anything differently, because they already knew that his blood pressure had dropped so low that he went into shock. And they did the things that you do get blood pressure. And there was nothing. It's not a drug that you can pump out of somebody's stomach or something.

18:00

That's totally inhale. It's not ingested. Really. Yeah.

18:04

I had a boyfriend one time who enjoyed poppers, the stuff you bought over the counter. And we were in the middle of sex. And we fell. It was a very energetics session. And he had this the poppers were in his hand at the time. And they like when he he when we fell, a large amount

went up his nose. Yeah, I thought we were gonna have to take him to the emergency room for that. And he quit using them after that. I mean, because he had a bad couple of days after that.

18:47

Well, in all probability, the percentage of the chemical in it probably was not as high as what this real McCoy other person had gone.

18:57

Oh, right. Right here. Yeah.

19:00

I think it's interesting how we could go from talking about something you know, a subject that was most entertaining to something that's so very serious. I want to do that. And we do this all the time here. It's just Oh,

19:14

just wait, we've had a few questions and none of these are on the serious track. Oh, good. Yeah.

19:22

We need a Lightner right. Okay, come on.

19:25

We got some questions.

19:26

Okay. Here's one that sounds like it's right up his alley caller called in. He loves to give Deep Throat head. Yeah, but a tonsil will a tonsillectomy help when there's a lot of girth.

19:47

If there's a lot of birth, you're gonna have to have all your teeth cold.

19:50

There's a there's a follow up question to that. And Will Will the tonsillectomy also help with reducing the gag reflex? And that's from Marshall who's in loop here.

20:00

Wait a minute Marshall. Something I have to say I can answer that my people do not have gag reflex

20:11

is bulimia so rampant?

20:15

Okay, I'm sorry, we're, this is what he's so so would

20:20

depend on five, we get back to sides. Okay,

20:24

well, first I have to qualify everything I say by saying that I am not a medical doctor and I don't play with on the radio either.

20:34

But you've had a lot of experience.

20:40

I think the answer is no, it will not do any good. And even if it did, why the hell would you do something like that? go under the knife so that you can get a better head. I mean, that's, you know, and especially that kind of had because, anybody I shouldn't say anybody, but most people will tell you and I have gotten many letters from people about this is that taking the entire penis to the throat does not feel very good to the person who's getting deep throat. Because there's, there's not you can't be you know, the rhythm gets broken. And it's actually it's actually uncomfortable for a great many people to be deep throat. So you know, so I I question.

21:36

Ever since that damn movie came out?

21:37

Well, most of it. Yeah, most of the nerves are in the in the glands of the head of the penis anyhow, so you know, what the hell?

21:45

If you're not you got if you don't have your tongue tongue rolling over that head?

21:49

Yeah. So at least as far as the gag reflex, you know, again, I'm not, you know, maybe, you know, what I would do in a case of a letter that came in like this is that would go to my advisory panel and say, what is the physiological basis for? For the answer, but my guess would be no. They wouldn't do anything with your gag reflex. You can train though your gag reflex. Sure, can do well

22:23

enough, it'll be in the next Olympics.

22:27

But yeah, but the thing is, you don't need a penis to do that. I mean, you can do it with your toothbrush, you know, just, you know, when you're brushing your teeth, or before you brush your teeth, just put the toothbrush further, further back on your tongue and get comfortable with the idea of an object of small objects down there.

22:45

That's very good advice. Then work your way up and work your way up.

22:49

I'll say this, it's never advised. The only time you should ever have a surgery to get anything removed. is under the advice of a dog.

22:50

22:58

Oh, yeah. And you should be brushing your tongue anyway. There you go.

23:02

Well, the thing about it is the the tonsils are not that large of an obstruction anyhow, and you know, and they're soft enough to go away when the penis goes past them.

23:15

Well, okay, Chris, you

23:16

got anything out? Yeah, we

23:17

got another one here. Actually, this is another comment that came in actually, of giving us an answer to wiser one looks for the young and beautiful. Out there isn't one of the reasons for the young and buff is so popular is because so many of the older and hotter guys didn't survive the first wave of the, of the AIDS epidemic.

23:39

That's that's a big, we've

23:40

lost a lot of them. We share have

23:41

we sure. Yeah. So now the tide has gone back to the serious side. So now it's no, no,

23:46

no, no, it's that, you know, we're this community is well, we're not any different than straight community and that we, we want this body perfection and its youth and buffed bodies. And normally the people who want them the most are the ones who don't have either one. So any comment there? Woody?

24:10

Yeah, I mean, I don't disagree. Okay.

24:14

Okay, let's go with something a little bit white. It's the

24:16

it's the heterosexual equivalent of the token white, there you go.

24:20

Maybe the only thing that I would say about that is that it's part of the irony of gay culture that we get people riled up to break out of the closet, so that they can go into an even smaller one. You know, I mean, this, this whole idea of the range of beauty that's considered acceptable in gay life is so limited and so narrow, that it starts feeling like a closet. And, you know, I think that that we suffer with that, because I think sexuality is so broad and so on. encompassing that to say that this is the only way, the ideal way to have sex is if you have a flat stomach if you if you're buff if you're smooth if you're young, I don't think that really serves anybody.

25:18

That's probably the reason why our show is successful that we don't have a camera in here we have a friend of ours that was talking about that he's he has a who does photography and one of his models, is afraid to take off his shirt, he doesn't feel to being a gay man. He's well built enough. And we said, look, if you got a self esteem issue about it, bring the kid into the show. And trust me, you will not find the quote unquote stereotypical gay man in this studio

25:46

at any time. You know, even when we have a group that's angry,

25:50

you know? When people when Pete When guys tell me, Oh, I've got a six pack, I said big deal. I got a kid

26:06

you know. to some extent. so the whole brewerv. yeah. Okav. you and I talked about that once

on a segment that you and I did about, you know, image and Oh, yeah. And you know, because of the disability Yeah, that I was born with, that we we get locked

♂ 26:21

into the bifida and and, and we both are HIV positive. And

♂ 26:26

we get locked the we get locked into this idea of what is pretty and what is perfect. And if you don't look like that, you feel very shut out of the mainstream.

♂ 26:38

Can you can like, you know, there's a whole lot more people like us out there and then there are than those guys in the magazines.

♂ 26:47

Oh, trust me, I get that. I get that all the time. And the transgender you know, oh, God, you know, I there's no way I can ever pass. I said, Have you ever gone down to the mall and looked at some of the women go mind? That's fine.

♂ 27:04

Oh, you didn't say the word. slipped it in there? Later.

♂ 27:14

Doing they look horrible. Yeah, no. And do we have any more questions? I have another question. From this time. Let's let woody answer it. Okay, okay.

♂ 27:27

You keep thinking that your shout Jim. I know. This is from Alvin. The city, not the person that gotcha, David. And Alvin called, What's the best kind of lube?

♂ 27:41

What's the best kind of lube? Well, I think that you need to find out for yourself. What? You know what the best kind is, but there are

27:56

personally what I like the best is wet light. When light Yeah. But I mean, I really don't, I really don't know that you can say this one's better. It's what you like, you know, and I think the best thing to do is to the next time you buy, go buy lube, buy the small containers and buy three different brands.

28:29

And do like a, you know, compare? I mean, you know, if you say, I'd like that,

28:39

you know, I mean, what's important to you that it washes off easily. I mean, to some people that's not important. To me it is, you know, does it stay on longer. I mean, everybody wants that. But there you know there's different properties and I think your best bet is to not take somebody's word for it.

28:57

Unless they've changed the recipe can we kind of just rule out KY you know, that stuff. I tried it years and years and years ago. It dries out.

29:11

So quick. Funny.

29:15

Yep. And I never liked wet. Oh, I like I know. It gets all sticky. And then it's like, it's very hard to get anywhere with that.

29:27

You know, what, don't get me wrong. I think there are different lubrications for different purposes. There is a jackoff crane, which is great for jacking up but terrible for intercourse. And there's what's wrong with spet right it ain't love it.

29:51

The other thing also is in most cases, particularly you know where there is intercourse going on,

and you're using a condom you want to use Name a water based or some some sort of a lubricant that is not going to affect the condom. Oh you don't want to use lard or wet you know maybe oil or something like that that's going to destroy the condom.

30:12

I guess I'm of the age I wouldn't even consider using anything that isn't water based for anything right?

30:19

There's a lot of them that do I just

30:21

I just don't want to have anything that isn't water based there

30:24

are some oil based products still. And basically unless you're having sex underwater, I wouldn't recommend it

30:35

scuba diving

30:39

you know, you know what do you I

30:42

meant for Mike in the lobby who's taking all the phone calls tonight at 713-526-5738

30:51

he also taking names and and phone number

30:54

my job

30:56

he says spit and shove It's true

31:02

you know, my Well yeah. You know, I'm of the age where I can remember back in the days the pre a the HIV or gay plague as it was called back then. When we used to use Crisco

31:21

Oh, yeah, I can. I can remember out there on Mary's patio. They had the they had the stump out there. And they lubricated with Crisco.

31:28

I just never liked Crisco for any No never. That's

31:35

I'm getting a Florence Henderson image in my head all of us.

31:40

It doesn't come off or out.

31:42

You Lawrence Henderson have a Martha Stewart. There

31:46

you go. Well, that's I think why Pam comes in flavors now. We have a word the question. Oh, here we go. I lost the question there for a second here. What is the best way to get out of bed with someone when it's not working? Oh wow.

32:07

Great question.

32:09

What's the best way of getting out of bed? I'm not sure I understand what what's

32:13

the best way to bail on somebody when it's when you've been going out for 30 minutes in the shipping Salem?

32:29

Like another Kevorkian

32:32

vote yourself off the island.

32:38

That's true. That's happened to almost any of us. You know, we we see this hot guy, we take them home, and you know, the sex is not happening. It's not working. And you're embarrassed to say, hey, it's not working. Let's you know, I gotta go home. What do you do? What do you really do? Is there an easy way I

32:55

get guilt? You know, we're home. My Catholic upbringing, I could guilty conscience.

33:04

What's your what his answer?

33:08

The phrase, look at the time occurs to me. No, I, I think first you'd have to I would I would want to know from the caller is what's your motivation? For for leaving? Is it because the guy can't get it up? Is it because you don't like the way smells is? And no matter what the reason is? I'm a very big believer in doing it with kindness and compassion. Because I don't I think there is so much cruelty in sexual liaisons that that is so needless. I agree. And, and I think, you know, I, I really don't know how to answer this. Because if it's, if it's because you can't get it up, and you'd like literally don't want to have anything to do with him. Except for sex.

34:08

Or whether it's going alone, but you know, that you're not going to come no matter you know, cuz it just whatever he's doing is not working.

34:18

Yeah, I mean, I really I don't know how to answer because I don't I would want to ask, like, what the motivation is, what is the circumstance? Because,

34:29

well, I know that if, if I'm in a bath house or a bookstore, and it's not working, I just say I need to take a rest

34:40

Yeah, I mean, you know, in a bad test, I think that's a totally different thing. I mean, I'm assuming that you know, take somebody's home and

34:48

oh, you have more than you're doing you know, you're like actually know the guy.

34:52

Yeah, yeah. I mean, I did. I did get a letter from somebody. I thought it was very interesting. He, he said, you know, I had to date with this guy, it was wonderful. I really was into him. The letter writer was in his 30s. And the guy was in his 20s. And he was really afraid that he wasn't gonna be able to perform like the guidance twice. Well, it turns out the guy in his 20s Couldn't get it up. Oh, or he, you know, it was like, it was coming and going and coming and going. And, you know, so he, the letter writer had evacuated, and he's sort of wondering, what's the etiquette when the other guy is flailing away? And it ain't happening? Oh, yeah.

35:37

How long are you going to? Like,

35:39

right? You know, and I thought, you know, basically, you did what you needed to do. And in that

case, what he said is, look, it's, it's not that important. Let's like cuddle or something. You know, and give the other guy an honorable way out. You know, I mean, I really don't see what the point is. of, you know, making somebody feel bad.

⌚ 35:59

offer them a cocktail or fix breakfast.

⌚ 36:03

Yeah, we got a response back on the loop question. Okay. We need to have Marshall come in for therapy, I think. Because, I mean from the same group of people who would bring ketamine a horse tranquilizer, as a party drug. His suggestion for a good lube is something called J lube, which is used for birthing calves. Wow. Oh my god,

⌚ 36:30

I've never had sex with anything that law. Speaking about the specific body part,

⌚ 36:37

I'm reminded of the ex VCO. Nice to have in Metamora.

⌚ 36:44

Girls with the donkey, the donkey?

⌚ 36:47

Donkey shows you're kidding.

⌚ 36:49

Here. It's

⌚ 36:56

ligula butter

⌚ 37:02

oh, football. But no offense Marshall. But I think when you're getting when you're shopping for your sexual accessories, stay out of the vet's office

⌚ 37:17

Words To Live By Yeah, like,

⌚ 37:19

does he know what What's that stuff

⌚ 37:21

or the feed store?

⌚ 37:24

He makes it mix it with water. We eat dilutes it. So I'm

⌚ 37:32

still

⌚ 37:34

forgetting you're in Texas. Yeah.

⌚ 37:35

Probably got a lifetime supply there.

⌚ 37:42

From inside the loop, I'd expect this from one of my neighbors out

⌚ 37:46

in the sticks. Maybe he's originally from Liberty or something. Oh, man.

37:54

Probably from Santa Fe.

37:59

Santa Fe has caused some controversy here in Texas because of the the prayer room prayer rule at that point. Yes. And and so the court ruled against having a prayer said and

38:19

it was it a ban on prayers for better lube or

38:26

it was for the football game or for the football Yeah, high school kids football game

38:32

for all those tight ends and wide receiver.

38:36

The people were bitching that they were not allowed to pray but at in the same town during a football game. A was it a Hindu? Hindu no Hindu priest came up to do to do a prayer and all of the people were just totally against that what it was the people who were against it because it was

39:00

a Christian that's also the town where the three guys ganged up on the one Jewish kid. That's right. Yeah. And one Jewish kid in the school and the three three

39:10

no rednecks. Yeah.

39:13

Yeah, hidden in the Santa Fe Hitler Youth.

39:18

Well, that's your Christian. Why don't your Christian we're getting

39:21

off the subject and I you know, I want to keep it on Dix. Yes.

39:24

Yeah, there we go.

39:28

Go off.

39:32

The mention of Jewish could lead into a question on the on the difference between you know, what's been circumcised or uncircumcised? You know, I'm not Jewish, but I am circumcised

39:47

or uncircumcised whether Yeah, Americans

39:50

are well actually here in Houston. We have a a high percentage of Mexican and Hispanic men and many of them am are hooded.

40:05

And I'm a New York Italian

40:06

go figure that see. So we're used to a lot more uncircumcised Dick here in Houston.

40:13

Well, if I could I gotta my forakin back footer than you could say noooooo

Well, if I could I would try to explain it better than you could say purpose.

40:19

Yeah, me too. Me too.

40:23

About 20% of Americans are uncut. So that means 80% of us are. And it's really, you know, it started out as a way of being more hygienic, but there's there's no real supporting evidence.

40:39

Maybe that's where they're 1.2 inches went to

40:48

all in the foreskin?

40:54

That's funny. Yeah. Yeah, as long as you keep clean, there's there's very little there's very, there's a low risk for for penile cancer. So I understand, right? There's,

41:05

it's supposedly lowers your risk for infant urinary tract infection and penile cancer. But, you know, the thing is, urinary tract infections in infants is not that common and penile cancer is rare. Yes, it is. So the most interesting thing about this, the whole circumcision thing is that the American Academy of Pediatrics all the way back to 1975. Recommended is like a, this is like, it's in their, like bylaws, they recommend that circumcision not be performed as a routine procedure, really. And I mean, this is like 25 years ago, wow. We, you know, shopping shop. Yeah. No, you know, it's almost like it's a, it's a fashion statement. And we disguise it as a medical need, so we can justify it. And, you know, I mean, I just, I, I would not do it. If I had children. I wouldn't, I would like, you know, stop the insanity.

42:10

Yeah, me too.

42:11

11. *What is the primary purpose of the U.S. Constitution?*

Well, have you heard of this movement they have of people getting foreskin restoration? Oh, my

42:15

God.

42:16

Well, you know, I think we have

42:18

a guy coming up in the next segment of the show who has done that, and claims that it has helped, but I don't know. What's your experience with that? Woody?

42:31

I think most urologists would just shrink back and har at that. I really do. I mean, the only operation surgery for replacement is for somebody who is who is not circumcised, who is having problems, because the foreskin is not retracting. Yeah. That kind of thing. I think that's, that's a case where you do surgery to either, you know, possibly lengthen it or possibly shorten it. But to go from, from being you know, uncut to putting it back. I don't know that there's many urologist who are going to back out

43:15

it's not it's not by he didn't do it by operation. He did it by stretching.

43:21

Because one other thing also is, you got a freak show you run

43:27

backwards, right? You're showing it to

43:29

the sense of sensitivity of the of the head. You know, I can't I can't visualize how you know how to be more sensitive. If you did have a foreskin than if you didn't. What do you mean? Well, in other words, the foreskin I would think would tend to tend to lower the the sensation.

43:52

Oh, on the contrary. Yeah, because it's covered so often, and that the head is only exposed during sex, that those nerves in the head are very, very active. And when you take that skin off, they kind of dries out the skin. Yeah, right.

44:10

I mean, think about it. When you're, when you know, if you're wearing jeans. You know, you're the head of your penis is constantly rubbing up against clothing. And that desensitizes the head of the penis. I mean, you know, there's no question none. At the head of your penis is in uncircumcised. Men is has a higher sensitivity.

44:39

Yeah, see? We have another question. And Chris is laughing. So this ought to be good. Well,

44:48

Mike, you're the one who put in this. You say Mike. Well, it's just an elementary concept. If you want to take a look out the window, open the drapes Oh, My Goodness

45:06

Oh, that's good. Oh, well, I think we can't do any worse than that. I think we need to close out the segment. We've got news and the second half coming out. What? Woody, I want to thank you so much for being a guest on after hours.

45:22

Well, it was my pleasure. Yeah.

45:24

We had a lot of fun. We

45:25

had a tremendous lot of fun woody

45:27

when he was coming to Houston.

45:30

I don't know, I guess when I get an invitation. Ah,

45:33

we're getting okay. You need to come over for Louis weekend, which is the weekend after Mardi Gras.

45:39

I think somehow

45:41

we let us entertain you

45:43

Okay. We that's been a Houston tradition for 26 years. 26 years. It's kind of it's like a bar run the weekend after Mardi Gras for people who still want to do some partying now.

45-57

Anybody from out of town? There's there's no no there's no run fee

46:03

No, no. Yeah. No charge at all. Cool. And lots of free cocktail parties. I

46/86

40.00

1

10

46:07

lots of tree coffee cocktail.

46:14

Depending on whether you're gay or lesbian,

46:17

we can get you pinned and everything.

46:20

Guys, I also want to thank you for for being loyal readers to the column. You bet. Keep reading and I'll keep writing Okay, and

46:29

what do you This is big Roy, I want to thank you for taking me up on my invitation to to come on the show. It really means a lot to me. And I hope you had just as much fun as we oh yeah, that's

46:40

right. What do you Mellor? Who writes the column need

46:43

wood tips for getting timber?

46:46

That's right in every week in the Eclipse, that's

46:49

if your timber is limber. Now,

46:52

what I could add one last thing. How about telling our listeners just how they can get in touch with

46:58

you real? That's right. If they want to write you directly.

47:02

They can write to I need wood.

47:08

I'm here to tell you
